(1) Primary Emergency Elevator. — At least one elevator serving all floors shall be identified as the emergency elevator with identification signs both outside and inside the elevator and shall be provided with emergency power to meet the requirements of Section 1008.3(c).
NOTE: This elevator will have a manual control in the cab which will override all other controls including floor call buttons and door controls.

(2) Elevator Recall. — Each elevator shall be provided with an approved manual return. When actuated, all cars taking a minimum of one car at a time, in each group of elevators having common lobby, shall return directly at normal car speed to the main floor lobby or to a smoke-free lobby leading most directly to the outside. Cars that are out of service are exempt from this requirement. The manual return shall be located at the main floor lobby.
NOTE: Manually operated cars are considered to be in compliance with this provision if each car is equipped with an audible or visual alarm to signal the operator to return to the designated level.

(3) Signs in Elevator Lobbies and Elevator Cabs. — Each elevator lobby call station on each floor shall have an emergency sign located adjacent to the call button and each elevator cab shall have an emergency sign located adjacent to the floor status indicator. These required emergency signs shall be readable at all times and have a minimum of ½″ high block letters with the words: "IN CASE OF FIRE, UNLESS OTHERWISE INSTRUCTED, DO NOT USE THE ELEVATOR — USE THE EXIT STAIRS" or other words to this effect.

(4) Machine Room Protection. — When elevator equipment located above the hoistway is subject to damage from smoke particulate matter, cable slots entering the machine room shall be sleeved beneath the machine room floor to inhibit the passage of smoke into the machine room.

(5) Secondary Emergency Elevator. — At least one elevator located in separate shaft from the Primary Emergency Elevator shall be identified as the "Secondary Emergency Elevator" with identification signs both outside and inside the elevator. It will serve all occupied floors above 250 feet and shall have all the same facilities as the primary elevator and will be capable of being transferred to the emergency power system.
NOTE: Emergency power supply can be sized for nonsimultaneous use of the primary and secondary emergency elevators.

(i) Central Alarm and Control Facilities Required.

(1) A central alarm facility accessible at all times to Fire Department personnel or attended 24 hours a day, shall be provided. The facility

shall be located on a completely sprinklered floor or shall be enclosed in two-hour fire resistive construction. Openings are permitted if protected by listed 1½ hour Class B-labeled closures or water curtain devices capable of a minimum discharge of three gpm per lineal foot of opening. The facility shall contain the following:

(i) Facilities to automatically transmit manual and automatic alarm signals to the fire department either directly or through a signal monitoring service.

(ii) Public service telephone.

(iii) Direct communication to the control facility.

(iv) Controls for the voice communication systems.

(v) Fire detection and alarm system annunciator panels to indicate the type of signal and the floor or zone from which the fire alarm is received, those signals, shall be both audible and visual with a silence switch for the audible.

NOTE: Detectors in HVAC systems used for fan shut down need not be annunciated.

(2) A control facility (fire department command station) shall be provided at or near the fire department response point and shall contain the following:

(i) Elevator status indicator.

NOTE: Not required in buildings where there is a status indicator at the main elevator lobby.

(ii) Master keys for access from all stairways to all floors.

(iii) Controls for the two-way communication system.

(iv) Fire detection and alarm system annunciator panels to indicate the type of signal and the floor or zone from which the fire alarm is received.

(v) Direct communication to the central alarm facility.

(3) The central alarm and control facilities may be combined in a single approved location. If combined, the duplication of facilities and the direct communication system between the two may be deleted.

(j) Areas of Refuge Required. — Class III buildings shall be provided with a designated "area of refuge" at the 250 ft. level and on at least every eighth floor or fraction thereof above that level to be designed so that occupants above the 250 ft. level can enter at all times and be safely accommodated in floor areas meeting the following requirements unless the building is completely sprinklered:

(1) Identification and Size. — These areas of refuge shall be identified on the plans and in the building as necessary. The area of refuge shall provide not less than 3 sq. ft. per occupant for the total number of occupants served by the area based on the occupancy content calculated by Section 1105. A minimum of two percent (2%) of the number of occupants on each floor shall be assumed to be handicapped and no less than 16 sq. ft. per handicapped occupant shall be provided. Smoke proof stairways meeting the requirements of Section 1104.2 and pressurized stairways meeting the requirements of Section 1108.3(e)(2) may be used for ambulatory occupants at the rate of 3 sq. ft. of area of treads and landings per person, but in no case shall the stairs count for more than one-third of the total occupants. Doors leading to designated areas of refuge from stairways or other areas of the building shall not have locking hardware or shall be automatically unlocked upon receipt of any manual or automatic fire alarm signal.

(2) Pressurized. — The area of refuge shall be pressurized with 100% fresh air utilizing the maximum capacity of existing mechanical building air conditioning system without recirculation from other areas or other acceptable means of providing fresh air into the area.

(3) Fire Resistive Separation. — Walls, partitions, floor assemblies and roof assemblies separating the area of refuge from the remainder of the building shall be noncombustible and have a fire resistance rating of not less than one hour. Duct penetrations shall be protected as required for penetrations of shafts. Metallic piping and metallic conduit may penetrate or pass through the separation only if the openings around the piping or conduit are sealed on each side of the penetrations with impervious noncombustible materials to prevent the transfer of smoke or combustion gases from one side of the separation to the other. The fire door serving as a horizontal exit between compartments shall be so installed, fitted and gasketed to provide a barrier to the passage of smoke.

(4) Access Corridors. — Any corridor leading to each designated area of refuge shall be protected as required by Sections 1104 and 702. The capacity of an access corridor leading to an area of refuge shall be based on 150 persons per unit width as defined in Section 1105.2. An access corridor may not be less than 44 inches in width. The width shall be determined by the occupant content of the most densely populated floor served. Corridors with one-hour fire resistive separation may be utilized for area of refuge at the rate of three sq. ft. per ambulatory occupant provided a minimum of one cubic ft. per minute of outside air per square foot of floor area is introduced by the air conditioning system.

(5) Penetrations. — The continuity of the fire resistance at the juncture of exterior walls and floors must be maintained.

(k) Smoke Venting. — Smoke venting shall be accomplished by one of the following methods in nonsprinklered buildings:

(1) In a nonsprinklered building, the heating, ventilating and air conditioning system shall be arranged to exhaust the floor of alarm origin at its maximum exhausting capacity without recirculating air from the floor of alarm origin to any other floor. The system may be arranged to accomplish this either automatically or manually. If the air conditioning system is also used to pressurize the areas of refuge, this function shall not be compromised by using the system for smoke removal.

(2) Venting facilities shall be provided at the rate of 20 square feet per 100 lineal feet or 10 square feet per 50 lineal feet of exterior wall in each story and distributed around the perimeter at not more than 50 or 100 foot intervals openable from within the fire floor. Such panels and their controls shall be clearly identified.

(3) Any combination of the above two methods or other approved designs which will produce equivalent results and which is acceptable to the building official.

(l) Fire Protection of Electrical Conductors. — New electrical conductors furnishing power for pressurization fans for stairways, power for emergency elevators and fire pumps required by Section 1008.4(d) shall be protected by a two-hour fire rated horizontal or vertical enclosure or structural element which does not contain any combustible materials. Such protection shall begin at the source of the electrical power and extend to the floor level on which the emergency equipment is located. It shall also extend to the emergency equipment to the extent that the construction of the building components on that floor permits. New electrical conductors in metal raceways located within a two-hour fire rated assembly without any combustible therein are exempt from this requirement.

(m) Automatic Sprinkler Systems Required.

(1) All areas which are classified as Group M-mercantile and Group H-hazardous shall be completely protected with an automatic sprinkler system.

(2) All areas used for commercial or institutional food preparation and storage facilities adjacent thereto shall be provided with an automatic sprinkler system.
(3) An area used for storage or handling of hazardous substances shall be provided with an automatic sprinkler system.
(4) All laboratories and vocational shops in Group E, Educational shall be provided with an automatic sprinkler system.
(5) Sprinkler systems shall be in strict accordance with NFPA No. 13 and the following requirements:
The sprinkler system must be equipped with a water flow and supervisory signal system that will transmit automatically a water flow signal directly to the fire department or to an independent signal monitoring service satisfactory to the fire department.

(j) Subsection (i) of this section does not apply to business occupancy buildings as defined in the North Carolina State Building Code except that evacuation plans as required on page 8, lines 2 through 16 [Section 1008, footnote following subsection (h)], and smoke detectors as required for Class I Buildings as required by Section 1008.2, page 11, lines 5 through 21 [Section 1008.2, subdivision (c)(1)]; Class II Buildings as required by Section 1008.3, page 17, lines 17 through 28 and page 18, lines 1 through 10 [Section 1008.3, subsections (c) and (d)]; and Class III Buildings, as required by Section 1008.4, lines 21 through 25 [Section 1008.4, subsection (c)] shall not be exempted from operation of this act as applied to business occupancy buildings, except that the Council shall adopt rules that allow a business occupancy building built prior to 1953 to have a single exit to remain if the building complies with the Building Code on or before December 31, 2006.

(j1) A nonbusiness occupancy building built prior to the adoption of the 1953 Building Code that is not in compliance with Section 402.1.3.5 of Volume IX of the Building Code or Section 3407.2.2 of Volume I of the Building Code must comply with the applicable sections by December 31, 2006.

(k) For purposes of use in the Code, the term "Family Care Home" shall mean an adult care home having two to six residents.

(*l*) When any question arises as to any provision of the Code, judicial notice shall be taken of that provision of the Code. (1957, c. 1138; 1969, c. 567; c. 1229, ss. 2-6; 1971, c. 1100, ss. 1, 2; 1973, c. 476, ss. 84, 128, 138, 152; c. 507, s. 5; 1981, c. 677, s. 3; c. 713, ss. 1, 2; 1981 (Reg. Sess., 1982), c. 1282, s. 20.2D; c. 1348, s. 1; 1983, c. 614, s. 3; 1985, c. 576, s. 1; c. 622, s. 2; c. 666, s. 39; 1989, c. 25, s. 2; c. 681, ss. 2, 3, 9, 10, 18, 19; c. 727, ss. 157, 158; 1991 (Reg. Sess., 1992), c. 895, s. 1; 1993, c. 329, ss. 1, 3; c. 539, s. 1009; 1994, Ex. Sess., c. 24, s. 14(c); 1995, c. 111, s. 1; c. 242, s. 1; c. 507, s. 27.8(r); c. 535, s. 30; 1997-26, ss. 1-3, 5; 1997-443, ss. 11A.93, 11A.94, 11A.118(a), 11A.119(a); 1998-57, s. 2; 1998-172, s. 1; 1998-202, s. 4(u); 1999-456, s. 40; 2000-137, s. 4(x); 2000-140, s. 93.1(a); 2001-141, ss. 1, 2, 3, 4; 2001-421, ss. 1.1, 1.2, 1.5; 2001-424, s. 12.2(b); 2002-144, s. 5; 2003-221, s. 6; 2003-284, s. 22.2.)

Subsection (g) Set Out Twice. — The first version of subsection (g) is effective until June 30, 2004. The second version of subsection (g) is effective June 30, 2004.

Local Modification. — Towns of Boone and Blowing Rock: 1987, c. 226; town of Carrboro: 1995 (Reg. Sess., 1996), c. 571, s. 1; town of Chapel Hill: 1981, c. 911; 1987, c. 460, s. 3; 1995 (Reg. Sess., 1996), c. 571, s. 1; town of Edenton: 1989 (Reg. Sess., 1990), c. 829; towns of Kill Devil Hills and Nags Head: 1987 (Reg. Sess., 1988), c. 911, s. 1.

Editor's Note. — Session Laws 1971, c. 1100, which amended this section, provided in s. 3: "Provided that nothing in this act shall in any way apply to any type of farm building."

Session Laws 1983, c. 614, which, inter alia, amended subsection (b) of this section, provided in s. 5 that the act would not apply to Wilson, Nash and Edgecombe Counties.

Session Laws 1989, c. 681, s. 21 provides: "Section 10 [which amended subsection (e)] and Sections 14 through 17 shall become effective upon the adoption of fire protection code provi-

sions by the North Carolina Building Code Council." Fire protection code provisions were adopted effective July 1, 1991.

Session Laws 1989, c. 25, s. 4 provides: "All statutory authority, powers, and duties, including rule making and the rendering of findings, orders, and adjudications, of the Department of Agriculture pertaining to the regulation of the design, construction, location, installation, or operation of equipment for storing, handling, transporting, and utilizing liquefied petroleum gases for fuel purposes, from the outlet of the first stage pressure regulator to and including each liquefied petroleum gas utilization device within a building or structure covered by the North Carolina Building Code are transferred to the Building Code Council.

Until the Building Code Council adopts rules regarding the entry of liquefied petroleum gas service piping into a building, 2 NCAC 38 .0701(2) shall remain in effect."

The references in brackets in subsection (j) have been inserted to guide the reader to what appear to be the general locations of the provisions referred to by the page and line references. The page and line references are printed just as they are set out in the ratified bill, Session Laws 1981, c. 713, but the line references in particular do not correspond to lines in the ratified bill, and their intention is not always clear.

Session Laws 1995, c. 111, s. 4, effective May 29, 1995, provides that the amendment made by section 1, which added the last two sentences of the second paragraph of subsection (b), shall not be construed to imply that the Building Code Council did not have the authority contained in that amendment prior to the effective date of the amendment.

Session Laws 1998-172, s. 2 provides that local floodplain management ordinances adopted as of the effective date of Section 5 of Session Laws 1997-26 (April 17, 1997) continue in effect until repealed.

Session Laws 2001-219, s. 1, provides: "Notwithstanding any provision of the State Building Code or any public or local law to the contrary, including Chapter 143 of the General Statutes, counties may establish by ordinance the requirements for bathroom facilities, including the number of toilets required, in buildings that are used primarily for outdoor school sporting events."

Session Laws 2001-219, s. 2, provides: "This act is effective when it becomes law, and only applies to counties that (i) have a population of 190,000 or more according to the most recent decennial federal census and (ii) border both another state and county with a population of 650,000 or more according to the most recent decennial federal census."

Session Laws 2001-372 establishes a pilot program to utilize building code standards to promote rehabilitation of existing buildings in participating jurisdictions. The act provides for "eligible local jurisdictions," "participating jurisdictions," and "lead local jurisdiction(s)." As part of the pilot program, the lead local jurisdiction, as described in Section 3 of the act, shall develop a pilot rehabilitation building code ("pilot code") based on the New Jersey Uniform Construction Code Rehabilitation Subcode ("New Jersey model code"), codified at Title 5, Chapter 23, Subchapter 6 of the New Jersey Administrative Code, (cited as N.J.A.C. 5: 23-6). The lead local jurisdiction shall develop the pilot code in consultation with the North Carolina Department of Insurance and in accordance with procedures established in this act. Within 180 days of the effective date of the act, the lead local jurisdiction shall cross-reference the pilot code to the North Carolina State Building Code (NCSBC), Volumes I, II, III, IV, V, VI, VII, IX, and I-C and deliver the cross-referenced pilot code to the Department for comment, and within 30 days thereafter, the Department shall submit its comments, if any, on the pilot code to the lead local jurisdiction. The comments, if any, shall address insuring proper coordination and cross-referencing of the pilot code to the existing NCSBC chapters but shall not include substantive changes to the standards established by the New Jersey model code. The lead local jurisdiction is to submit to the Building Code Council, the Department of Insurance, and the General Assembly an interim report on or before December 1, 2004, and a final report on or before April 1, 2006. The pilot program for each lead local jurisdiction and all participating jurisdictions shall expire on January 1, 2006.

Session Laws 2002-144, s. 11, contains a severability clause.

Session Laws 2003-239, ss. 1 and 2, provide: "Notwithstanding any requirements for additional plumbing facilities imposed under Section 403.3.1.4, Table 403.1 and Table 403.4 of Chapter 4 of the North Carolina Plumbing Code, 2002 Edition, a public university, as part of its addition of bleachers to an existing softball field, shall not be required to provide facilities in addition to those facilities currently existing at the stadium.

"This act applies to public universities located in counties that (i) have a population of 160,000 or more according to the most recent decennial federal census; (ii) border the Atlantic Ocean; and (iii) border no more than two other counties that are a part of this State."

Session Laws 2003-284, s. 1.2, provides: "This act shall be known as the 'Current Operations and Capital Improvements Appropriations Act of 2003'."

Session Laws 2003-284, s. 49.3, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have

effects beyond the 2003-2005 fiscal biennium, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 2003-2005 fiscal biennium."

Session Laws 2003-284, s. 49.5 is a severability clause.

Effect of Amendments. — Session Laws 2002-144, s. 5, effective July 1, 2002 and expiring June 30, 2004, in subsection (g), deleted the Clerk of the Superior Court from the list of government officials who receive a copy of the State Building Code, changed the number of copies of the State Building Code received by the Department of Cultural Resources State Library from 5 to 1, changed the number of copies of the State Building Code received by the Supreme Court Library from 2 to 1, and added the second sentence in the last paragraph.

Session Laws 2003-221, s. 6, effective June 19, 2003, substituted "Insurance Regulatory Fund" for "Department of Insurance Fund" in the last sentence of the last paragraph of subsection (g).

Legal Periodicals. — For survey of 1981 commercial law, see 60 N.C.L. Rev. 1238 (1982).

For 1997 legislative survey, see 20 Campbell L. Rev. 413.

CASE NOTES

Establishment of Standards for Buildings Within Police Power. — It is within the police power of the General Assembly and of a city, when authorized, to establish minimum standards, materials, designs, and construction of buildings for the safety of the occupants, their neighbors, and the public at large. State v. Walker, 265 N.C. 482, 144 S.E.2d 419 (1965); Walker v. City of Charlotte, 276 N.C. 166, 171 S.E.2d 431 (1970).

For the purpose of protecting life, health, safety and welfare, the General Assembly has power to promulgate rules, fix minimum standards, and prescribe materials and designs for buildings and other structures, so long as they are not arbitrary, capricious or unreasonable and so long as they tend to promote health, safety and welfare. In these matters, property rights must yield to the proper exercise of the police power. Walker v. City of Charlotte, 276 N.C. 166, 171 S.E.2d 431 (1970).

The legislative intent was to provide a complete and integrated regulatory scheme, including regulations as to the installation of sprinkler systems, in all buildings and structures, wherever situate in North Carolina, except as expressly exempted by statute. Greene v. City of Winston-Salem, 287 N.C. 66, 213 S.E.2d 231 (1975).

Legislative Intent to Protect the Health of the General Public. — The legislature's directions for the creation of the State Building Code and the Building Code Council's stated purposes for the different inspections under the Code evince an intent to protect the health of the general public. City of New Bern v. New Bern-Craven County Bd. of Educ., 338 N.C. 430, 450 S.E.2d 735 (1994).

For history of statutory provisions relating to the State Building Code, see Lutz Indus., Inc. v. Dixie Home Stores, 242 N.C. 332, 88 S.E.2d 333 (1955); Pinnix v. Toomey, 242 N.C. 358, 87 S.E.2d 893 (1955); Jenkins v. Leftwich Elec. Co., 254 N.C. 553, 119 S.E.2d 767 (1961); Carolinas-Virginias Ass'n of Bldg. Owners & Managers v. Ingram, 39 N.C. App. 688, 251 S.E.2d 910, cert. denied, 297 N.C. 299, 254 S.E.2d 925 (1979).

Building Code Given Force of Law. — The 1936 North Carolina Building Code had the force of law. In re O'Neal, 243 N.C. 714, 92 S.E.2d 189 (1956); Lindstrom v. Chesnutt, 15 N.C. App. 15, 189 S.E.2d 749, cert. denied, 281 N.C. 757, 191 S.E.2d 361 (1972).

By virtue of subsection (f) of this section, on July 13, 1957, the North Carolina Building Code of 1953 had the force of law. Drum v. Bisaner, 252 N.C. 305, 113 S.E.2d 560 (1960).

Acts Shifting Responsibility for Enforcement of Code Unconstitutional. — Inspections pursuant to the State Building Code affect health and sanitation, thus, acts that altered the legislative directive of G.S. 160A-411, that the city shall determine who will perform the inspections under the Code, were local legislation that shifted responsibility for enforcement of laws affecting the health of the public and were barred under Art. II, § 24 of the Constitution. City of New Bern v. New Bern-Craven County Bd. of Educ., 338 N.C. 430, 450 S.E.2d 735 (1994).

Building Code Council's Obligations Are Specifically Imposed by the Legislature. — The legislature has specifically imposed on the Building Code Council the obligation to prepare, adopt and amend the Code and to interpret its provisions on appeal from enforcement agencies. In re Medical Ctr., 91 N.C. App. 107, 370 S.E.2d 597 (1988).

Adoption of State Building Code Not a Waiver of Sovereign Immunity. — Adoption of the State Building Code did not act as a waiver of a county's sovereign immunity in regards to a suit for negligent building inspections. Norton v. SMC Bldg., Inc., 156 N.C. App. 564, 577 S.E.2d 310, 2003 N.C. App. LEXIS 206 (2003).

Applicability of Building Code to Altered Buildings. — Under rules and regulations of the Building Code Council, the Code

applies to the design and construction of buildings that are altered. Olympic Prods. Co. v. Roof Sys., 88 N.C. App. 315, 363 S.E.2d 367, cert. denied, 321 N.C. 744, 366 S.E.2d 862, 366 S.E.2d 863 (1988).

The Supreme Court will take judicial notice of the Building Code adopted, promulgated and published by the Building Code Council. Lutz Indus., Inc. v. Dixie Home Stores, 242 N.C. 332, 88 S.E.2d 333 (1955).

Liability for Building Code Violations. — The Building Code imposes liability on any person who constructs, supervises the construction of, or designs a building or an alteration thereto, and violates the Code such that the violation proximately causes injury or damage. In addition, if a building owner knows or has reason to know of a Code violation and fails to take reasonable steps to remedy the violation, he may be found liable if the violation proximately causes injury or damage. Olympic Prods. Co. v. Roof Sys., 88 N.C. App. 315, 363 S.E.2d 367, cert. denied, 321 N.C. 744, 366 S.E.2d 862, 366 S.E.2d 863 (1988).

A violation of the Building Code is negligence per se. Lindstrom v. Chesnutt, 15 N.C. App. 15, 189 S.E.2d 749, cert. denied, 281 N.C. 757, 191 S.E.2d 361 (1972).

But Plaintiffs Must Be Within the Class Intended to Be Protected. — Section 143-138(b) was intended for the protection of the occupants of the building or structure, its neighbors, and members of the public at large; where house was never finished and certified for occupancy, and plaintiffs did not assert that they were damaged as members of the general public, the plaintiffs could not benefit from negligence per se for a violation of this statute. Lassiter v. Cecil, 145 N.C. App. 679, 551 S.E.2d 220, 2001 N.C. App. LEXIS 729 (2001), cert. denied, 354 N.C. 363, 556 S.E.2d 302 (2001).

Compliance with Code Standards as Evidence in Negligence Action. — Whether or not building met the standards of the Building Code, though not determinative of the issue of negligence, had some probative value as to whether or not defendant failed to keep his store in a reasonably safe condition, and expert testimony on this issue could properly be introduced in a negligence action against store owner. Thomas v. Dixson, 88 N.C. App. 337, 363 S.E.2d 209 (1988).

This section does not allow the building inspector to permit violations of the Building Code where the Code is specific as to the materials or type of construction required. Lindstrom v. Chesnutt, 15 N.C. App. 15, 189 S.E.2d 749, cert. denied, 281 N.C. 757, 191 S.E.2d 361 (1972).

As to use of National Electrical Code as statutory standard of care, see Lutz Indus., Inc. v. Dixie Home Stores, 242 N.C. 332, 88 S.E.2d 333 (1955); Ward v. Thompson Heights Swimming Club, Inc., 27 N.C. App. 218, 219 S.E.2d 73 (1975).

National Electrical Code Given Force of Law. — On November 10, 1959, the National Electrical Code, as approved by the American Standards Association on August 5, 1959, which Code is filed in the office of the Secretary of State of North Carolina, by virtue of this section has the force and effect of law in North Carolina. Jenkins v. Leftwich Elec. Co., 254 N.C. 553, 119 S.E.2d 767 (1961).

The National Electrical Code, as approved and adopted by the State Building Code Council and on file with the Secretary of State, has the force and effect of law. Jenkins v. Starrett Corp., 13 N.C. App. 437, 186 S.E.2d 198 (1972).

And Criminal Sanctions Are Provided for Its Violation. — The National Electrical Code has the force and effect of law and criminal sanctions are provided for its violation. Ward v. Thompson Heights Swimming Club, Inc., 27 N.C. App. 218, 219 S.E.2d 73 (1975).

Violations of the National Electrical Code are negligence per se. Jenkins v. Leftwich Elec. Co., 254 N.C. 553, 119 S.E.2d 767 (1961); Jenkins v. Starrett Corp., 13 N.C. App. 437, 186 S.E.2d 198 (1972); Ward v. Thompson Heights Swimming Club, Inc., 27 N.C. App. 218, 219 S.E.2d 73 (1975).

Since article 300, sections 3008-3009, of the National Electrical Code has the force and effect of a statute, the failure to use a box or terminal fitting or bushing where the conductors left the electrical metal tubing on a kitchen exhaust fan was negligence per se. Drum v. Bisaner, 252 N.C. 305, 113 S.E.2d 560 (1960).

Application of National Electrical Code Not Restricted to Fixtures to Real Property. — The State Building Code does not restrict the application of the National Electrical Code to fixtures to real property. Jenkins v. Starrett Corp., 13 N.C. App. 437, 186 S.E.2d 198 (1972).

Neither the State Building Code nor the National Electrical Code precisely defines the class of persons to which they are applicable. Jenkins v. Starrett Corp., 13 N.C. App. 437, 186 S.E.2d 198 (1972).

Grounding Provisions of National Electrical Code Held Applicable. — The provisions of the National Electrical Code relating to equipment grounding were held applicable to the owner of an outdoor ice merchandiser installed to sell ice to the public. Jenkins v. Starrett Corp., 13 N.C. App. 437, 186 S.E.2d 198 (1972).

Imposition of More Stringent Requirements on Existing Buildings Meeting Prior Requirements Not Contemplated. — There is in subsection (b) of this section no clearly expressed grant of power from the legislature to the Building Code Council to amend the State Building Code so as to impose new

and more stringent requirements upon existing buildings which, prior to such amendment, fully complied with the Code and which are neither being altered or changed in use. Further, there is nothing in the wording of the statute evidencing a legislative intent that the grant of such a drastic power should be implied. Carolinas-Virginias Ass'n of Bldg. Owners & Managers v. Ingram, 39 N.C. App. 688, 251 S.E.2d 910, cert. denied, 297 N.C. 299, 254 S.E.2d 925 (1979).

City Ordinance Requiring Sprinkler Systems. — An interpretation of G.S. 160A-174 to allow a city ordinance requiring sprinkler systems, thus empowering a city to ignore explicit statewide legislative enactments, would, in effect, permit a city to amend the North Carolina Building Code by the simple expedient of codifying a contested ordinance as a part of its Fire Prevention Code, and thereby to evade the clear requirements of subsection (e) of this section. Greene v. City of Winston-Salem, 287 N.C. 66, 213 S.E.2d 231 (1975).

Emergency Generator Power. — For case upholding decision of the superior court which held that § 506.13(a)(1) of the North Carolina State Building Code did not require medical center's proposed Class III high-rise building to be provided with emergency generator power for fans that vented smoke in some areas of the building in addition to elevator shafts, stairways, and areas of refuge, see In re Appeal of Medical Center, 82 N.C. App. 414, 346 S.E.2d 193 (1986).

Applied in Swaney v. Peden Steel Co., 259 N.C. 531, 131 S.E.2d 601 (1963); Ponder v. Joslin, 262 N.C. 496, 138 S.E.2d 143 (1964).

Cited in Collingswood v. General Elec. Real Estate Equities, Inc., 324 N.C. 63, 376 S.E.2d 425 (1989); Lynn v. Overlook Dev., 328 N.C. 689, 403 S.E.2d 469 (1991); City of New Bern v. New Bern-Craven County Bd. of Educ., 113 N.C. App. 98, 437 S.E.2d 655 (1993), aff'd, 338 N.C. 430, 450 S.E.2d 735 (1994); Angel v. Truitt, 108 N.C. App. 679, 424 S.E.2d 660 (1993); Petty v. Owen, 140 N.C. App. 494, 537 S.E.2d 216, 2000 N.C. App. LEXIS 1202 (2000).

OPINIONS OF ATTORNEY GENERAL

Variations of the State Building Code by a municipality cannot become effective unless and until officially approved by the State Building Code Council. See opinion of Attorney General to Mr. F.E. Wallace, Jr., Kinston City Attorney, 40 N.C.A.G. 458 (1969).

Unattended Gasoline Pumps Are Not Within Regulation of State Building Code. — See opinion of Attorney General to Mr. Thomas B. Griffin, 41 N.C.A.G. 282 (1971).

County regulations requiring that carbon monoxide alarms be installed in new and existing residential dwelling units, as well as other structures, were likely contrary to subsection (e) and unenforceable to the extent they applied to new construction; however, the regulations could be cured by making them applicable only to existing buildings. See opinion of Attorney General to Grover L. Sawyer, P.E., Deputy Commissioner, Department of Insurance, 2001 N.C. AG LEXIS 3 (2/5/2001).

§ 143-138.1. Introduction and instruction of the North Carolina Building Code.

Prior to the effective date of Code changes pursuant to G.S. 143-138, the State Building Code Council and Department of Insurance shall provide for instructional classes for the various trades affected by the Code. The Department of Insurance shall develop the curriculum for each class but shall consult the affected licensing boards and trade organizations. The curriculum shall include explanations of the rationale and need for each Code amendment or revision. Classes may also be conducted by, on behalf of, or in cooperation with licensing boards, trade associations, and professional societies. The Department of Insurance may charge fees sufficient to recover the costs it incurs under this section. The Council shall ensure that courses are accessible to persons throughout the State. (1997-26, s. 6.)

Legal Periodicals. — For 1997 legislative survey, see 20 Campbell L. Rev. 413.

§ 143-139. Enforcement of Building Code.

(a) Procedural Requirements. — Subject to the provisions set forth herein, the Building Code Council shall adopt such procedural requirements in the North Carolina State Building Code as shall appear reasonably necessary for adequate enforcement of the Code while safeguarding the rights of persons subject to the Code.

(b) General Building Regulations. — The Insurance Commissioner shall have general supervision, through the Division of Engineering of the Department of Insurance, of the administration and enforcement of all sections of the North Carolina State Building Code pertaining to plumbing, electrical systems, general building restrictions and regulations, heating and air conditioning, fire protection, and the construction of buildings generally, except those sections of the Code, the enforcement of which is specifically allocated to other agencies by subsections (c) and (d) below. The Insurance Commissioner, by means of the Division of Engineering, shall exercise his duties in the enforcement of the North Carolina State Building Code (including local building codes which have superseded the State Building Code in a particular political subdivision pursuant to G.S. 143-138(e)) in cooperation with local officials and local inspectors duly appointed by the governing body of any municipality or board of county commissioners pursuant to Part 5 of Article 19 of Chapter 160A of the General Statutes or Part 4 of Article 18 of Chapter 153A of the General Statutes, or any other applicable statutory authority.

(b1) Remedies. — In case any building or structure is maintained, erected, constructed, or reconstructed or its purpose altered, so that it becomes in violation of this Article or of the North Carolina State Building Code, either the local enforcement officer or the State Commissioner of Insurance or other State official with responsibility under this section may, in addition to other remedies, institute any appropriate action or proceeding to: (i) prevent the unlawful maintenance, erection, construction, or reconstruction or alteration of purpose, or overcrowding, (ii) restrain, correct, or abate the violation, or (iii) prevent the occupancy or use of the building, structure, or land until the violation is corrected. In addition to the civil remedies set out in G.S. 160A-175 and G.S. 153A-123, a county, city, or other political subdivision authorized to enforce the North Carolina State Building Code within its jurisdiction may, for the purposes stated in (i) through (iii) of this subsection, levy a civil penalty for violation of the fire prevention code of the North Carolina State Building Code, which penalty may be recovered in a civil action in the nature of debt if the offender does not pay the penalty within a prescribed period of time after the offender has been cited for the violation. If the Commissioner or other State official institutes an action or proceeding under this section, a county, city, or other political subdivision may not institute a civil action under this section based upon the same violation. Appeals from the imposition of any remedy set forth herein, including the imposition of a civil penalty by a county, city, or other political subdivision, shall be as provided in G.S. 160A-434.

(c) Boilers. — The Bureau of Boiler Inspection of the Department of Labor shall have general supervision of the administration and enforcement of those sections of the North Carolina State Building Code which pertain to boilers of the types enumerated in Article 7 of Chapter 95 of the General Statutes.

(d) Elevators. — The Department of Labor shall have general supervision of the administration and enforcement of those sections of the North Carolina State Building Code which pertain to elevators, moving stairways, and amusement devices such as merry-go-rounds, roller coasters, Ferris wheels, etc. (1957, c. 1138; 1963, c. 811; 1989, c. 681, s. 11; 1993, c. 329, s. 2.)

Editor's Note. — Article 7 of Chapter 95, referred to in this section, was repealed by Session Laws 1981 (Regular Session, 1982), c. 1187, s. 1.

CASE NOTES

Legislative Intent. — The legislative intention to create a complete and integrated regulatory scheme is evidenced by the language of subsection (b) of this section, which delegates to the Commissioner of Insurance the responsibility of administering and enforcing the provisions of the North Carolina Building Code. Greene v. City of Winston-Salem, 287 N.C. 66, 213 S.E.2d 231 (1975).

Cited in Carolinas-Virginias Ass'n of Bldg. Owners & Managers v. Ingram, 39 N.C. App. 688, 251 S.E.2d 910 (1979).

OPINIONS OF ATTORNEY GENERAL

This section is applicable to purchasers of electrical equipment. See opinion of Attorney General to The Honorable Constance K. Wilson Representative 57th District, 1998 N.C.A.G. 57 (12/22/98).

§ 143-139.1. Certification of manufactured buildings, structures or components by recognized independent testing laboratory; minimum standards for modular homes.

(a) Certification. — The State Building Code may provide, in circumstances deemed appropriate by the Building Code Council, for testing, evaluation, inspection, and certification of buildings, structures or components manufactured off the site on which they are to be erected, by a recognized independent testing laboratory having follow-up inspection services approved by the Building Code Council. Approval of such buildings, structures or components shall be evidenced by labels or seals acceptable to the Council. All building units, structures or components bearing such labels or seals shall be deemed to meet the requirements of the State Building Code and this Article without further inspection or payment of fees, except as may be required for the enforcement of the Code relative to the connection of units and components and enforcement of local ordinances governing zoning, utility connections, and foundations permits. The Building Code Council shall adopt and may amend from time to time such reasonable and appropriate rules and regulations as it deems necessary for approval of agencies offering such testing, evaluation, inspection, and certification services and for overseeing their operations. Such rules and regulations shall include provisions to insure that such agencies are independent and free of any potential conflicts of interest which might influence their judgment in exercising their functions under the Code. Such rules and regulations may include a schedule of reasonable fees to cover administrative expenses in approving and overseeing operations of such agencies and may require the posting of a bond or other security satisfactory to the Council guaranteeing faithful performance of duties under the Code.

The Building Code Council may also adopt rules to insure that any person that is not licensed, in accordance with G.S. 87-1, and that undertakes to erect a North Carolina labeled manufactured modular building, meets the manufacturer's installation instructions and applicable provisions of the State Building Code. Any such person, before securing a permit to erect a modular building, shall provide the code enforcement official proof that he has in force for each modular building to be erected a $5,000 surety bond insuring compliance with the regulations of the State Building Code governing installation of modular buildings.

(b) Minimum Standards for Modular Homes. — To qualify for a label or seal under subsection (a) of this section, a single-family modular home must meet or exceed the following construction and design standards:

(1) Roof pitch. — For homes with a single predominant roofline, the pitch of the roof shall be no less than five feet rise for every 12 feet of run.

(2) Eave projection. — The eave projections of the roof shall be no less than 10 inches, which may not include a gutter around the perimeter of the home, unless the roof pitch is 8/12 or greater.

(3) Exterior wall. — The minimum height of the exterior wall shall be at least seven feet six inches for the first story.

(4) Siding and roofing materials. — The materials and texture for the exterior materials shall be compatible in composition, appearance, and durability to the exterior materials commonly used in standard residential construction.

(5) Foundations. — The home shall be designed to require foundation supports around the perimeter. The supports may be in the form of piers, pier and curtain wall, piling foundations, a perimeter wall, or other approved perimeter supports. (1971, c. 1099; 1989, c. 653, s. 2; 2003-400, s. 17.)

Editor's Note. — Session Laws 2003-400, s. 18, is a severability clause.

Effect of Amendments. — Session Laws 2003-400, s. 17, effective January 1, 2004, rewrote the section heading; designated the formerly undesignated provisions as subsection (a); and added subsection (b).

CASE NOTES

Construction with Other Law. — This section and G.S. 87-1, when read together, evidence an intent to exempt a general contractor who erects modular buildings from having a license if the surety bond requirement is met. Petty v. Owen, 140 N.C. App. 494, 537 S.E.2d 216, 2000 N.C. App. LEXIS 1202 (2000).

This section was found to apply to a modular builder who was not licensed as a general contractor and who erected plaintiffs's modular home was responsible for constructing a basement, attaching a garage, installing hardwood flooring, an HVAC system, and a septic system at a total cost exceeding $ 30,000. Petty v. Owen, 140 N.C. App. 494, 537 S.E.2d 216, 2000 N.C. App. LEXIS 1202 (2000).

§ 143-139.2. Enforcement of insulation requirements; certificate for occupancy; no electric service without compliance.

(a) In addition to other enforcement provisions set forth in this Chapter, no single family or multi-unit residential building on which construction is begun in North Carolina on or after January 1, 1978, shall be occupied until it has been certified as being in compliance with the minimum insulation standards for residential construction, as prescribed in the North Carolina State Building Code or as approved by the Building Code Council as provided in G.S. 143-138(e).

(b) No public supplier of electric service, including regulated public utilities, municipal electric service and electric membership corporations, shall connect for electric service to an occupant any residential building on which construction is begun on or after January 1, 1978, unless said building complies with the insulation requirements of the North Carolina State Building Code or of local building codes approved by the Building Codes Council as provided in G.S. 143-138(e), and has been certified for occupancy in compliance with the minimum insulation standards of the North Carolina State Building Code or of any local modification approved as provided in G.S. 143-138(e), by a person designated as an inspector pursuant to subsection (a) of this section.

(c) This section shall apply only in any county or city that elects to enforce the insulation and energy utilization standards of the State Building Code pursuant to G.S. 143-151.27. (1977, c. 792, s. 7; 1983, c. 377, s. 1.)

§ 143-139.3. Inspection of liquified petroleum gas piping systems for residential structures.

If the test required under the North Carolina State Building Code for a liquified petroleum gas piping system serving a one or two-family residential dwelling is not performed by a qualified code enforcement official, as defined in G.S. 143-151.8(a)(5), the contractor who installed the system shall verify that the system complies with the test requirements and shall certify the results, in writing, to the code official. (1993, c. 356, s. 3.)

§ 143-140. Hearings before enforcement agencies as to questions under Building Code.

Any person desiring to raise any question under this Article or under the North Carolina State Building Code shall be entitled to a technical interpretation from the appropriate enforcement agency, as designated in the preceding section. Upon request in writing by any such person, the enforcement agency through an appropriate official shall within a reasonable time provide a written interpretation, setting forth the facts found, the decision reached, and the reasons therefor. In the event of dissatisfaction with such decision, the person affected shall have the options of:

(1) Appealing to the Building Code Council or

(2) Appealing directly to the Superior Court, as provided in G.S. 143-141. (1957, c. 1138; 1989, c. 681, s. 4.)

CASE NOTES

Cited in In re Appeal of Medical Center, 82 N.C. App. 414, 346 S.E.2d 193 (1986).

§ 143-141. Appeals to Building Code Council.

(a) Method of Appeal. — Whenever any person desires to take an appeal to the Building Code Council from the decision of a State enforcement agency relating to any matter under this Article or under the North Carolina State Building Code, he shall within 30 days after such decision give written notice to the Building Code Council through the Division of Engineering of the Department of Insurance that he desires to take an appeal. A copy of such notice shall be filed at the same time with the enforcement agency from which the appeal is taken. The chairman of the Building Code Council shall fix a reasonable time and place for a hearing, giving reasonable notice to the appellant and to the enforcement agency. Such hearing shall be not later than the next regular meeting of the Council. The Building Code Council shall thereupon conduct a full and complete hearing as to the matters in controversy, after which it shall within a reasonable time give a written decision setting forth its findings of fact and its conclusions.

(b) Interpretations of the Code. — The Building Code Council shall have the duty, in hearing appeals, to give interpretations of such provisions of the Building Code as shall be pertinent to the matter at issue. Where the Council finds that an enforcement agency was in error in its interpretation of the Code, it shall remand the case to the agency with instructions to take such action as

it directs. Interpretations by the Council and local enforcement officials shall be based on a reasonable construction of the Code provisions.

(c) Variations of the Code. — Where the Building Code Council finds on appeal that materials or methods of construction proposed to be used are as good as those required by the Code, it shall remand the case to the enforcement agency with instructions to permit the use of such materials or methods of construction. The Council shall thereupon immediately initiate procedures for amending the Code as necessary to permit the use of such materials or methods of construction.

(d) Further Appeals to the Courts. — Whenever any person desires to take an appeal from a decision of the Building Code Council or from the decision of an enforcement agency (with or without an appeal to the Building Code Council), he may take an appeal either to the Wake County Superior Court or to the superior court of the county in which the proposed building is to be situated, in accordance with the provisions of Chapter 150B of the General Statutes. (1957, c. 1138; 1973, c. 1331, s. 3; 1987, c. 827, s. 1; 1997-26, s. 7.)

Legal Periodicals. — For 1997 legislative survey, see 20 Campbell L. Rev. 413.

CASE NOTES

Building Code Council's Obligations Are Specifically Imposed by the Legislature. — The legislature has specifically imposed on the Building Code Council the obligation to prepare, adopt and amend the Code and to interpret its provisions on appeal from enforcement agencies. In re Medical Ctr., 91 N.C. App. 107, 370 S.E.2d 597 (1988).

Cited in In re Appeal of Medical Center, 82 N.C. App. 414, 346 S.E.2d 193 (1986).

§ 143-142. Further duties of the Building Code Council.

(a) Recommended Statutory Changes. — It shall be the duty of the Building Code Council to make a thorough study of the building laws of the State, including both the statutes enacted by the General Assembly and the rules and regulations adopted by State and local agencies. On the basis of such study, the Council shall recommend to the 1959 and subsequent General Assemblies desirable statutory changes to simplify and improve such laws.

(b) Recommend Changes in Enforcement Procedures. — It shall be the duty of the Building Code Council to make a thorough and continuing study of the manner in which the building laws of the State are enforced by State, local, and private agencies. On the basis of such studies, the Council may recommend to the General Assembly any statutory changes necessary to improve and simplify the enforcement machinery. The Council may also advise State agencies as to any changes in administrative practices which could be made to improve the enforcement of building laws without statutory changes. (1957, c. 1138.)

§ 143-143. Effect on certain existing laws.

Nothing in this Article shall be construed as abrogating or otherwise affecting the power of any State department or agency to promulgate regulations, make inspections, or approve plans in accordance with any other applicable provisions of law not in conflict with the provisions herein. (1957, c. 1138.)

§ 143-143.1: Repealed by Session Laws 1971, c. 882, s. 1.

§ 143-143.2. Electric wiring of houses, buildings, and structures.

The electric wiring of houses or buildings for lighting or for other purposes shall conform to the requirements of the State Building Code, which includes the National Electric Code and any amendments and supplements thereto as adopted and approved by the State Building Code Council, and any other applicable State and local laws. In order to protect the property of citizens from the dangers incident to defective electric wiring of buildings, it shall be unlawful for any firm or corporation to allow any electric current for use in any newly erected building to be turned on without first having had an inspection made of the wiring by the appropriate official electrical inspector or inspection department and having received from that inspector or department a certificate approving the wiring of such building. It shall be unlawful for any person, firm, or corporation engaged in the business of selling electricity to furnish initially any electric current for use in any building, unless said building shall have first been inspected by the appropriate official electrical inspector or inspection department and a certificate given as above provided. In the event that there is no legally appointed inspector or inspection department with jurisdiction over the property involved, the two preceding sentences shall have no force or effect. As used in this section, "building" includes any structure. (1905, c. 506, s. 23; Rev., s. 3001; C.S., s. 2763; 1969, c. 1229, s. 7; 1989, c. 681, s. 20.)

§ 143-143.3. Temporary toilet facilities at construction sites.

(a) Suitable toilet facilities shall be provided and maintained in a sanitary condition during construction. An adequate number of facilities must be provided for the number of employees at the construction site. There shall be at least one facility for every two contiguous construction sites. Such facilities may be portable, enclosed, chemically treated, tank-tight units. Portable toilets shall be enclosed, screened, and weatherproofed with internal latches. Temporary toilet facilities need not be provided on-site for crews on a job site for no more than one working day and having transportation readily available to nearby toilet facilities.

(b) It shall be the duty of the Building Code Council to establish standards to carry out the provisions of subsection (a) of this section not inconsistent with the requirements for toilet facilities at construction sites established pursuant to federal occupational safety and health rules. (1993, c. 528, s. 1.)

§ 143-143.4. Door lock exemption for certain businesses.

(a) Notwithstanding this Article or any other law to the contrary, any business entity licensed to sell automatic weapons as a federal firearms dealer that is in the business of selling firearms or ammunition and that operates a firing range which rents firearms and sells ammunition shall be exempt from the door lock requirements of Chapter 10 of Volume 1 of the North Carolina State Building Code when issued a permit to that effect by the Department of Insurance in accordance with this section.

(b) The Department of Insurance shall issue a permit to a business entity specified in subsection (a) of this section for an exemption from the door lock requirements of Chapter 10 of Volume 1 of the North Carolina State Building Code if all of the following conditions are met:

(1) The building or facility in which business is conducted has a sales floor and customer occupancy space that is contained on one floor and is no larger than 15,000 square feet of retail sales space. Retail sales space is that area where firearms or ammunition are displayed and merchandised for sale to the public.

(2) The building or facility in which business is conducted is equipped with an approved smoke, fire, and break-in alarm system installed and operated in accordance with rules adopted by the Department of Insurance. An approved smoke, fire, or break-in alarm system does not have to include an automatic door unlocking mechanism triggered when the smoke, fire, or break-in alarm system is triggered.

(3) The owner or operator of the business will provide to all applicable employees within 10 days of the issuance of the permit under this section or at the time the employee is hired, whichever time is later, a written facility locking plan applicable for the close of business each day.

(4) Each entrance to the building or facility in which business is conducted is posted with a sign conspicuously located that warns that the building is exempt from the door lock requirements of the State Building Code, and that after business hours the building or facility's doors will remain locked from the inside even in the case of fire.

(5) Payment of a permit fee of five hundred dollars ($500.00) to the Department of Insurance.

(c) The Department of Insurance shall file a copy of the permit issued in accordance with subsection (b) of this section with all local law enforcement and fire protection agencies that provide protection for the business entity.

(d) The Department of Insurance shall be responsible for any inspections necessary for the issuance of permits under this section and, in conjunction with local inspection departments, shall be responsible for periodic inspections to ensure compliance with the requirements of this section. The Department of Insurance may contract with local inspection departments to conduct inspections under this subsection.

(e) The Department of Insurance shall revoke a permit issued under this section upon a finding that the requirements for the original issuance of the permit are not being complied with.

(f) Appeals of decisions of the Department of Insurance regarding the issuance or revocation of permits under this section shall be in accordance with Chapter 150B of the General Statutes.

(g) For the purposes of this section, "business entity" has the same meaning as in G.S. 59-102.

(h) In addition to the provisions of G.S. 143-138(h), the owner or operator of any business entity who is issued a permit as a door lock exempt business in accordance with subsection (b) of this section who fails to comply with the permit requirements of subsection (b) of this section shall be subject to a civil penalty of five hundred dollars ($500.00) for the first offense, one thousand dollars ($1,000) for the second offense, and five thousand dollars ($5,000) for the third and subsequent offenses, except when the building or facility in which business is conducted is in compliance with the door lock requirements of Chapter 10 of Volume 1 of the North Carolina State Building Code. Penalties authorized in this subsection shall be imposed by the city or county in which the violation occurs. Each day the building or facility in which business is conducted is not in compliance with the provisions of this subsection constitutes a separate offense.

(i) The Department of Insurance shall adopt rules to implement this section. (2001-324, s. 1.)

§§ 143-143.5 through 143-143.7: Reserved for future codification purposes.

Article 9A.

North Carolina Manufactured Housing Board — Manufactured Home Warranties.

§ 143-143.8. Purpose.

The General Assembly finds that manufactured homes have become a primary housing resource for many of the citizens of North Carolina. The General Assembly finds further that it is the responsibility of the manufactured home industry to provide homes which are of reasonable quality and safety and to offer warranties to buyers that provide a means of remedying quality and safety defects in manufactured homes. The General Assembly also finds that it is in the public interest to provide a means for enforcing such warranties.

Consistent with these findings and with the legislative intent to promote the general welfare and safety of manufactured home residents in North Carolina, the General Assembly finds that the most efficient and economical way to assure safety, quality and responsibility is to require the licensing and bonding of all segments of the manufactured home industry. The General Assembly also finds that it is reasonable and proper for the manufactured home industry to cooperate with the Commissioner of Insurance, through the establishment of the North Carolina Manufactured Housing Board, to provide for a comprehensive framework for industry regulations. (1981, c. 952, s. 2; 1999-393, s. 1.)

Editor's Note. — Session Laws 1987, c. 429, s. 1, effective June 19, 1987, redesignated G.S. 143-143.8 through 143-143.24, which had been headed "Article 9A, Manufactured Housing and Mobile Homes, Part I, North Carolina Manufactured Housing Board," as "Article 9A, North Carolina Manufactured Housing Board—Manufactured Home Warranties."

Session Laws 1999-393, s. 5, provides that structures built before the effective date of the Act shall not be affected by any changes made in this Article.

Legal Periodicals. — For survey of 1981 commercial law, see 60 N.C.L. Rev. 1238 (1982).

§ 143-143.9. Definitions.

The following definitions apply in this Article:

(1) Board. — The North Carolina Manufactured Housing Board.

(2) Buyer. — A person who purchases at retail from a dealer or manufacturer a manufactured home for personal use as a residence or other related use.

(3) Code. — Engineering standards adopted by the Commissioner.

(4) Commissioner. — The Commissioner of Insurance of the State of North Carolina.

(5) Department. — The Department of Insurance of the State of North Carolina.

(5a) License. — A license issued under this Article.

(5b) Licensee. — A person who has been issued a license under this Article by the North Carolina Manufactured Housing Board.

(6) Manufactured home. — A structure, transportable in one or more sections, which, in the travelling mode, is eight feet or more in width or is 40 feet or more in length, or when erected on site, is 320 or more square feet, and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities, and includes the plumbing, heating, air conditioning and electrical systems contained therein.

(7) Manufactured home dealer or dealer. — Any person engaged in the business of buying or selling manufactured homes or offering or displaying manufactured homes for sale in North Carolina. Any person who buys or sells three or more manufactured homes in any 12-month period, or who offers or displays for sale three or more manufactured homes in any 12-month period shall be presumed to be a manufactured home dealer. The terms "selling" and "sale" include lease-purchase transactions. The term "manufactured home dealer" does not include banks and finance companies that acquire manufactured homes as an incident to their regular business.

(8) Manufactured home manufacturer or manufacturer. — Any person, resident or nonresident, who manufactures or assembles manufactured homes for sale to dealers in North Carolina.

(9) Manufactured home salesperson or salesperson. — Any person employed by a manufactured home dealer to sell manufactured homes to buyers. Manufactured home salesperson or salesperson also includes sales managers, lot managers, general managers, or others who manage or supervise salespersons.

(10) Person. — Any individual, natural persons, firm, partnership, association, corporation, legal representative or other recognized legal entity.

(11) Responsible party. — A manufacturer, dealer, supplier, or set-up contractor.

(12) Setup. — The operations performed at the occupancy site which render a manufactured home fit for habitation.

(13) Set-up contractor. — A person who engages in the business of performing setups for compensation in North Carolina.

(14) Substantial defect. — Any substantial deficiency in or damage to materials or workmanship occurring in a manufactured home which has been reasonably maintained and cared for in normal use. The term also means any structural element, utility system or component part of the manufactured home which fails to comply with the Code.

(15) Supplier. — The original producer of completed components, including refrigerators, stoves, hot water heaters, dishwashers, cabinets, air conditioners, heating units, and similar components, and materials such as floor coverings, panelling, siding, trusses, and similar materials, which are furnished to a manufacturer or dealer for installation in the manufactured home prior to sale to a buyer. (1981, c. 952, s. 2; 1987, c. 429, ss. 4, 5, 19; 1999-393, s. 1; 2001-421, s. 2.1.)

§ 143-143.10. Manufactured Housing Board created; membership; terms; meetings.

(a) **(Effective until June 30, 2004)** There is created the North Carolina Manufactured Housing Board within the Department. The Board shall be composed of nine members as follows:

(1) The Commissioner of Insurance or his designee.
(2) A manufactured home manufacturer.
(3) A manufactured home dealer.
(4) A representative of the banking and finance business.
(5) A representative of the insurance industry.
(6) A manufactured home supplier.
(7) A set-up contractor.
(8) Two representatives of the general public.

The Commissioner or his designee shall chair the Board. The Governor shall appoint to the Board the manufactured home manufacturer and the manufac-

tured home dealer. The General Assembly upon the recommendation of the Speaker of the House of Representatives in accordance with G.S. 120-121 shall appoint the representative of the banking and finance industry and the representative of the insurance industry. The General Assembly upon the recommendation of the President Pro Tempore of the Senate in accordance with G.S. 120-121 shall appoint the manufactured home supplier and set-up contractor. The Commissioner shall appoint two representatives of the general public. Except for the representatives from the general public and the persons appointed by the General Assembly, each member of the Board shall be appointed by the appropriate appointing authority from a list of nominees submitted to the appropriate appointing authority by the Board of Directors of the North Carolina Manufactured Housing Institute. At least three nominations shall be submitted for each position on the Board. The members of the Board shall be residents of the State.

The members of the Board shall serve for terms of three years. In the event of any vacancy of a position appointed by the Governor or Commissioner, the appropriate appointing authority shall appoint a replacement in the same manner as provided for the original appointment to serve the remainder of the unexpired term. Vacancies in appointments made by the General Assembly shall be filled in accordance with G.S. 120-122. In the event of any vacancy, the appropriate appointing authority shall appoint a replacement to serve the remainder of the unexpired term. Such appointment shall be made in the same manner as provided for the original appointment. No member of the Board shall serve more than two consecutive, three-year terms.

The member of the Board representing the general public shall have no financial interest connected with the manufactured housing industry. No member of the Board shall participate in any proceeding before the Board involving that member's own business.

Each member of the Board, except the Commissioner and any other State employee, shall receive per diem and allowances as provided with respect to occupational licensing boards by G.S. 93B-5. Fees collected by the Board under this Article shall be credited to the Department of Insurance Fund under G.S. 58-6-25.

(a) **(Effective June 30, 2004)** There is created the North Carolina Manufactured Housing Board within the Department. The Board shall be composed of nine members as follows:

(1) The Commissioner of Insurance or his designee.
(2) A manufactured home manufacturer.
(3) A manufactured home dealer.
(4) A representative of the banking and finance business.
(5) A representative of the insurance industry.
(6) A manufactured home supplier.
(7) A set-up contractor.
(8) Two representatives of the general public.

The Commissioner or his designee shall chair the Board. The Governor shall appoint to the Board the manufactured home manufacturer and the manufactured home dealer. The General Assembly upon the recommendation of the Speaker of the House of Representatives in accordance with G.S. 120-121 shall appoint the representative of the banking and finance industry and the representative of the insurance industry. The General Assembly upon the recommendation of the President Pro Tempore of the Senate in accordance with G.S. 120-121 shall appoint the manufactured home supplier and set-up contractor. The Commissioner shall appoint two representatives of the general public. Except for the representatives from the general public and the persons

G.S. 143-143.10(a) is set out twice. See notes.

appointed by the General Assembly, each member of the Board shall be appointed by the appropriate appointing authority from a list of nominees submitted to the appropriate appointing authority by the Board of Directors of the North Carolina Manufactured Housing Institute. At least three nominations shall be submitted for each position on the Board. The members of the Board shall be residents of the State.

The members of the Board shall serve for terms of three years. In the event of any vacancy of a position appointed by the Governor or Commissioner, the appropriate appointing authority shall appoint a replacement in the same manner as provided for the original appointment to serve the remainder of the unexpired term. Vacancies in appointments made by the General Assembly shall be filled in accordance with G.S. 120-122. In the event of any vacancy, the appropriate appointing authority shall appoint a replacement to serve the remainder of the unexpired term. Such appointment shall be made in the same manner as provided for the original appointment. No member of the Board shall serve more than two consecutive, three-year terms.

The member of the Board representing the general public shall have no financial interest connected with the manufactured housing industry. No member of the Board shall participate in any proceeding before the Board involving that member's own business.

Each member of the Board, except the Commissioner and any other State employee, shall receive per diem and allowances as provided with respect to occupational licensing boards by G.S. 93B-5. All per diem and travel expenses shall be paid exclusively out of the fees received by the Board as authorized by this Article. In no case shall any salary, expense, or other obligation of the Board be charged against the General Fund of the State of North Carolina. All moneys and receipts shall be kept in a special fund by and for the use of the Board for the exclusive purpose of carrying out the provisions of this Article. At the end of the fiscal year, the Board shall retain fifteen percent (15%) of the unexpended funds collected and received during that year. The remaining eighty-five percent (85%) of these funds shall be credited to the General Fund.

(b) In accordance with the provisions of this Article, the Board shall have the following powers and duties:

(1) To issue licenses to manufacturers, dealers, salespersons, and set-up contractors.

(2) To require that an adequate bond or other security be posted by all licensees, except manufactured housing salespersons.

(3) To receive and resolve complaints from buyers of manufactured homes and from persons in the manufactured housing industry, in connection with the warranty, warranty service, licensing requirements or any other provision under this Article.

(4) To adopt rules in accordance with Chapter 150B of the General Statutes as are necessary to carry out the provisions of this Article.

(5) To file against the bond posted by a licensee for warranty repairs and service on behalf of a buyer.

(6) To request that the Department of Justice conduct criminal history checks of applicants for licensure pursuant to G.S. 114-19.13. (1981, c. 952, s. 2; 1983, c. 717, ss. 107-109, 114; 1987, c. 429, ss. 6, 7, 19, c. 827, s. 1; 1999-393, s. 1; 2002-144, s. 4; 2003-221, s. 1; 2003-400, s. 9.)

Subsection (a) Set Out Twice. — The first version of subsection (a) set out above is effective until June 30, 2004. The second version of subsection (a) set out above is effective June 30, 2004.

Editor's Note. — Session Laws 2002-144, s. 4, effective July 1, 2002 and expiring on June 30, 2004, amended G.S. 143-10 by rewriting the last paragraph in subsection (a). The apparent intent was to amend the last paragraph of G.S.

143-143.10(a). Session Laws 2003-221, s. 1, effective June 19, 2003, amended Session Laws 2002-144, s. 4, by substituting "G.S. 143-143.10(a)" for "G.S. 143-10(a)" in the introductory clause. Session Laws 2003-284, s. 22.2, effective July 1, 2004, amended Session Laws 2002-144 by changing the expiration date from June 30, 2003 to June 30, 2004.

Session Laws 2003-400, s. 18, is a severability clause.

Effect of Amendments. — Session Laws 2002-144, s. 4, as amended by Session Laws 2003-221, s. 1, and by Session Laws 2003-284, s. 22.2, effective July 1, 2002 and expiring on June 30, 2004, rewrote (a). See Editor's note.

Session Laws 2003-400, s. 9, effective January 1, 2004, added subdivision (b)(6).

§ 143-143.10A. Criminal history checks of applicants for licensure.

(a) Definitions. — The following definitions shall apply in this section:

(1) Applicant. — A person applying for licensure as a manufactured home manufacturer, dealer, salesperson, or set-up contractor.

(2) Criminal history. — A history of conviction of a state or federal crime, whether a misdemeanor or felony, that bears on an applicant's fitness for licensure under this Article. The crimes include the criminal offenses set forth in any of the following Articles of Chapter 14 of the General Statutes: Article 5, Counterfeiting and Issuing Monetary Substitutes; Article 5A, Endangering Executive and Legislative Officers; Article 6, Homicide; Article 7A, Rape and Other Sex Offenses; Article 8, Assaults; Article 10, Kidnapping and Abduction; Article 13, Malicious Injury or Damage by Use of Explosive or Incendiary Device or Material; Article 14, Burglary and Other Housebreakings; Article 15, Arson and Other Burnings; Article 16, Larceny; Article 17, Robbery; Article 18, Embezzlement; Article 19, False Pretenses and Cheats; Article 19A, Obtaining Property or Services by False or Fraudulent Use of Credit Device or Other Means; Article 19B, Financial Transaction Card Crime Act; Article 20, Frauds; Article 21, Forgery; Article 26, Offenses Against Public Morality and Decency; Article 26A, Adult Establishments; Article 27, Prostitution; Article 28, Perjury; Article 29, Bribery; Article 31, Misconduct in Public Office; Article 35, Offenses Against the Public Peace; Article 36A, Riots and Civil Disorders; Article 39, Protection of Minors; Article 40, Protection of the Family; Article 59, Public Intoxication; and Article 60, Computer-Related Crime. The crimes also include possession or sale of drugs in violation of the North Carolina Controlled Substances Act in Article 5 of Chapter 90 of the General Statutes and alcohol-related offenses including sale to underage persons in violation of G.S. 18B-302 or driving while impaired in violation of G.S. 20-138.1 through G.S. 20-138.5. In addition to the North Carolina crimes listed in this subdivision, such crimes also include similar crimes under federal law or under the laws of other states.

(b) All applicants for licensure shall consent to a criminal history record check. Refusal to consent to a criminal history record check may constitute grounds for the Board to deny licensure to an applicant. The Board shall ensure that the State and national criminal history of an applicant is checked. The Board shall be responsible for providing to the North Carolina Department of Justice the fingerprints of the applicant to be checked, a form signed by the applicant consenting to the criminal record check and the use of fingerprints and other identifying information required by the State or National Repositories of Criminal Histories, and any additional information required by the Department of Justice. The Board shall keep all information obtained pursuant to this section confidential.

(c) If an applicant's criminal history record check reveals one or more convictions listed under subdivision (a)(2) of this section, the conviction shall not automatically bar licensure. The Board shall consider all of the following factors regarding the conviction:

(1) The level of seriousness of the crime.
(2) The date of the crime.
(3) The age of the person at the time of the conviction.
(4) The circumstances surrounding the commission of the crime, if known.
(5) The nexus between the criminal conduct of the person and the job duties of the position to be filled.
(6) The person's prison, jail, probation, parole, rehabilitation, and employment records since the date the crime was committed.
(7) The subsequent commission by the person of a crime listed in subdivision (a)(2) of this section.

If, after reviewing these factors, the Board determines that the applicant's criminal history disqualifies the applicant for licensure, the Board may deny licensure of the applicant. The Board may disclose to the applicant information contained in the criminal history record check that is relevant to the denial. The Board shall not provide a copy of the criminal history record check to the applicant. The applicant shall have the right to appear before the Board to appeal the Board's decision. However, an appearance before the full Board shall constitute an exhaustion of administrative remedies in accordance with Chapter 150B of the General Statutes.

(d) Limited Immunity. — The Board, its officers, and employees, acting in good faith and in compliance with this section, shall be immune from civil liability for denying licensure to an applicant based on information provided in the applicant's criminal history record check. (2003-400, s. 8.)

Editor's Note. — Session Laws 2003-400, s. 18, is a severability clause. Session Laws 2003-400, s. 19, made this section effective January 1, 2004.

§ 143-143.11. License required; application for license.

(a) It shall be unlawful for any manufactured home manufacturer, dealer, salesperson, or set-up contractor to engage in business as such in this State without first obtaining a license from the Board, as provided in this Article. The fact that a person is licensed by the Board as a set-up contractor or a dealer does not preempt any other licensing boards' applicable requirements for that person.

(b) Application for the license shall be made to the Board at such time, in such form, and contain information the Board requires, and shall be accompanied by the fee established by the Board. The fee shall not exceed three hundred dollars ($300.00) for any license. In addition to the license fee, the Board may also charge an applicant a fee to cover the cost of the criminal history record check required by G.S. 143-143.10A.

(c) In the application, the Board shall require information relating to the matters set forth in G.S. 143-143.13 as grounds for refusal of a license, and information relating to other pertinent matters consistent with safeguarding the public interest. All of this information shall be considered by the Board in determining the fitness of the applicant.

(d) All licenses shall expire, unless revoked or suspended, on June 30 of each year following the date of issue.

(e) Every licensee shall, on or before the first day of July of each year, obtain a renewal of a license for the next year, by application, accompanied by the required fee. Upon failure to renew, a license automatically expires. The

license may be renewed at any time within one year upon payment of the renewal fee.

(f) Supplemental licenses shall be issued for each place of business, operated or proposed to be operated by the licensee, that is not contiguous to other premises for which a license is issued. The fee for a supplemental license shall be established by the Board and shall not exceed three hundred dollars ($300.00), provided that no supplemental license shall be required for a place of business operated by a licensee that is used exclusively for storage.

(g) Notwithstanding the provisions of subsection (a), the Board may provide by rule that a manufactured home salesperson will be allowed to engage in business during the time period after making application for a license but before such license is granted.

(h) As a prerequisite to obtaining a license under this Article, a person may be required to pass an examination prescribed by the Board that is based on the Code, this Article, and any other subject matter considered relevant by the Board. (1981, c. 952, s. 2; 1985, c. 487, s. 1; 1987, c. 429, s. 19; 1987 (Reg. Sess., 1988), c. 1039, ss. 2, 3; 1989, c. 485, s. 44; 1991, c. 644, s. 35; 1999-393, s. 1; 2003-400, s. 10.)

Editor's Note. — Session Laws 2003-400, s. 18, is a severability clause.

Effect of Amendments. — Session Laws 2003-400, s. 10, effective January 1, 2004, added the last sentence of subsection (b).

§ 143-143.11A. Notification of change of address, control of ownership, and bankruptcy.

(a) Every applicant for a license shall inform the Board of the applicant's business address. Every licensee shall give written notification to the Board of any change in the licensee's business address, for whatever reason, within 10 business days after the licensee moves to a new address or a change in the address takes place. A violation of this subsection shall not constitute grounds for revocation, suspension, or non-renewal of a license or for the imposition of any other penalty by the Board.

(b) Notwithstanding any other provision of law, whenever the Board is authorized or required to give notice to a licensee under this Article, the notice may be delivered personally to the licensee or sent by first-class mail to the licensee at the address provided to the Board under subsection (a) of this section. Notice shall be deemed given four days after mailing, and any Department employee may certify that notice has been given.

(c) Every person licensed under this Article, except for a person licensed as a manufactured home salesperson, shall give written notification to the Board of any change in ownership or control of the licensee's business within 30 business days after the change. A "change in ownership or control" means the sale or conveyance of the capital stock of the business or of an owner's interest in the business, which operates to place a person or group of persons, not previously in control of the business, in effective control of the business. A violation of this subsection shall not constitute grounds for revocation, suspension, or nonrenewal of a license or for the imposition of any other penalty by the Board.

(d) Upon the filing for protection under the United States Bankruptcy Code by any licensee, or by any business in which the licensee holds a position of employment, management or ownership, the licensee shall notify the Board of the filing of protection within three business days after the filing. Upon the appointment of a receiver by a court of this State for any licensee, or for any business in which the licensee holds a position of employment, management, or ownership the licensee shall notify the Board of the appointment within three business days after the appointment. (1999-393, s. 1; 2000-122, s. 9.)

§ 143-143.11B. Continuing education.

(a) The Board may establish programs and requirements of continuing education for licensees, but shall not require licensees to complete more than eight credit hours of continuing education. Before the renewal of a license, a licensee shall present evidence to the Board that the licensee has completed the required number of continuing education hours in courses approved by the Board during the two months immediately preceding the expiration of the licensee's license. No member of the Board shall provide or sponsor a continuing education course under this section while that person is serving on the Board.

(b) The Board may establish nonrefundable fees for the purpose of providing staff and resources to administer continuing education programs, and may establish nonrefundable course application fees, not to exceed one hundred fifty dollars ($150.00), for the Board's review and approval of proposed continuing education courses. The Board may charge the sponsor of an approved course a nonrefundable fee not to exceed seventy-five dollars ($75.00) for the annual renewal of course approval. The Board may also require a course sponsor to pay a fee, not to exceed five dollars ($5.00) per credit hour per licensee, for each licensee completing an approved continuing education course conducted by the sponsor. The Board may award continuing education credit for a course that has not been approved by the Board or for related educational activity and may prescribe the procedures for a licensee to submit information on the course or related educational activity for continuing education credit. The Board may charge the licensee a fee not to exceed fifty dollars ($50.00) for each course or activity submitted.

(c) The Board may adopt any reasonable rules not inconsistent with this Article to give purpose and effect to the continuing education requirement, including rules that govern:

(1) The content and subject matter of continuing education courses.
(2) The criteria, standards, and procedures for the approval of courses, course sponsors, and course instructors.
(3) The methods of instruction.
(4) The computation of course credit.
(5) The ability to carry forward course credit from one year to another.
(6) The waiver of or variance from the continuing education requirement for hardship or other reasons.
(7) The procedures for compliance and sanctions for noncompliance.

(d) The license of any person who fails to comply with the continuing education requirements under this section shall lapse. The Board may, for good cause shown, grant extensions of time to licensees to comply with these requirements. Any licensee who, after obtaining an extension, offers evidence satisfactory to the Board that he or she has satisfactorily completed the required continuing education courses shall be deemed in compliance with this section.

(e) A manufactured home manufacturer or manufacturer is exempt from the requirements of this section. (1999-393, s. 1; 2001-421, s. 2.2.)

§ 143-143.12. Bond required.

(a) A person licensed as a manufactured home salesperson shall not be required to furnish a bond, but each applicant approved by the Board for license as a manufacturer, dealer, or set-up contractor shall furnish a corporate surety bond, cash bond or fixed value equivalent in the following amounts:

(1) For a manufacturer, two thousand dollars ($2,000) per manufactured home manufactured in the prior license year, up to a maximum of one

hundred thousand dollars ($100,000). When no manufactured homes were produced in the prior year, the amount required shall be based on the estimated number of manufactured homes to be produced during the current year.

(2) For a dealer who has one place of business, the amount shall be thirty-five thousand dollars ($35,000).

(3) For a dealer who has more than one place of business, the amount shall be twenty-five thousand dollars ($25,000) for each additional place of business.

(4) For a set-up contractor, the amount shall be ten thousand dollars ($10,000).

(b) A corporate surety bond shall be approved by the Board as to form and shall be conditioned upon the obligor faithfully conforming to and abiding by the provisions of this Article. A cash bond or fixed value equivalent shall be approved by the Board as to form and terms of deposits in order to secure the ultimate beneficiaries of the bond. A corporate surety bond shall be for a one-year period, and a new bond or a proper continuation certificate shall be delivered to the Board at the beginning of each subsequent one-year period.

(c) Any buyer of a manufactured home who suffers any loss or damage by any act of a licensee that constitutes a violation of this Article may institute an action to recover against the licensee and the surety.

(d) The Board may adopt rules to assure satisfaction of claims. (1981, c. 952, s. 2; 1985, c. 487, s. 2; 1987, c. 429, s. 19; c. 827, s. 223; 1999-393, s. 1; 2000-122, s. 8.)

CASE NOTES

§ 143-143.13. Grounds for denying, suspending, or revoking licenses; civil penalties.

(a) A license may be denied, suspended or revoked by the Board on any one or more of the following grounds:

(1) Making a material misstatement in application for license.

(2) Failing to post an adequate corporate surety bond, cash bond or fixed value equivalent.

(3) Engaging in the business of manufactured home manufacturer, dealer, salesperson, or set-up contractor without first obtaining a license from the Board.

(4) Failing to comply with the warranty service obligations and claims procedure established by this Article.

(5) Failing to comply with the set-up requirements established by this Article.

(6) Failing or refusing to account for or to pay over moneys or other valuables belonging to others that have come into licensee's possession arising out of the sale of manufactured homes.

(7) Using unfair methods of competition or committing unfair or deceptive acts or practices.

(8) Failing to comply with any provision of this Article.

(9) Failing to appear for a hearing before the Board or for a prehearing conference with a person or persons designated by the Board after proper notice or failing to comply with orders of the Board issued pursuant to this Article.

(10) Employing unlicensed salespersons.

(11) Offering for sale manufactured homes manufactured or assembled by unlicensed manufacturers or selling manufactured homes to unlicensed dealers for sale to buyers in this State.

(12) Conviction of any crime listed in G.S. 143-143.10A.

(13) Having had a license revoked, suspended or denied by the Board; or having had a license revoked, suspended or denied by a similar entity in another state; or engaging in conduct in another state which conduct, if committed in this State, would have been a violation under this Article.

(14) Employing or contracting with any person to perform setups who is not licensed by the Board as a set-up contractor.

(b) Repealed by Session Laws 1985, c. 666, s. 38.

(c) In addition to the authority to deny, suspend, or revoke a license under this Article, the Board may impose a civil penalty upon any person violating the provisions of this Article. Upon a finding by the Board of a violation of this Article, the Board shall order the payment of a penalty of not less than one hundred dollars ($100.00) nor more than five hundred dollars ($500.00). In determining the amount of the penalty, the Board shall consider the degree and extent of harm caused by the violation, the amount of money that inured to the benefit of the violator as a result of the violation, whether the violation was committed willfully, and the prior record of the violator in complying or failing to comply with laws, rules, or orders applicable to the violator. Each day during which a violation occurs shall constitute a separate offense. The penalty shall be payable to the Board. The Board shall remit the clear proceeds of penalties provided for in this subsection to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2.

Payment of the civil penalty under this section shall be in addition to payment of any other penalty for a violation of the criminal laws of this State. Nothing in this subsection shall prevent the Board from negotiating a mutually acceptable agreement with any person as to the status of the person's license or certificate or as to any civil penalty. (1981, c. 952, s. 2; 1985, c. 487, ss. 3 to 5; c. 666, s. 38; 1985 (Reg. Sess., 1986), c. 1027, s. 51; 1987, c. 429, s. 19; 1989, c. 485, s. 45; 1991, c. 644, s. 34; 1998-215, s. 92; 1999-393, s. 1; 2003-400, s. 11.)

Editor's Note. — Session Laws 2003-400, s. 18, is a severability clause.

Effect of Amendments. — Session Laws 2003-400, s. 11, effective January 1, 2004, rewrote subdivision (a)(12).

CASE NOTES

§ 143-143.14. Hearings; rules.

(a) License suspensions, revocations, and renewal refusals are subject to the provisions of Chapter 150B of the General Statutes.

(b) If the Board finds that an applicant has not met the requirements for licensure, the Board shall refuse to issue the applicant a license and shall notify the applicant in writing of the denial and the grounds for the denial. The application may also be denied for any reason for which a license may be suspended or revoked or not renewed under G.S. 143-143.13. Within 30 days after receipt of a notification that an application for a license has been denied, the applicant may make a written request for a review by a member of the

Department staff designated by the chair of the Board to determine the reasonableness of the Board's action. The review shall be completed without undue delay, and the applicant shall be notified promptly in writing as to the outcome of the review. Within 30 days after service of the notification as to the outcome, the applicant may make a written request for a hearing under Article 3A of Chapter 150B of the General Statutes if the applicant disagrees with the outcome.

(c) The Board may adopt rules for hearings and prehearing conferences under this Article, and the rules may include provisions for prefiled evidence, the use of evidence, testimony of parties, prehearing statements, prehearing conference procedures, settlement conference procedures, discovery, subpoenas, sanctions, motions, intervention, consolidation of cases, continuances, and the rights and responsibilities of parties and witnesses. (1981, c. 952, s. 2; 1987, c. 429, s. 19; 1993, c. 504, s. 34; 1993 (Reg. Sess., 1994), c. 678, s. 34; 1999-393, s. 1.)

§ 143-143.15. Set-up requirements.

(a) Manufactured homes shall be set up in accordance with the standards adopted by the Commissioner.

(b) If a manufactured home is insured against damage caused by windstorm and subsequently sustains windstorm damage that indicates the manufactured home was not set up in the manner required by this section, the insurer issuing the insurance policy on the manufactured home shall not be relieved from meeting the obligations specified in the insurance policy with respect to such damage on the basis that the manufactured home was not properly set up. (1981, c. 952, s. 2; 1987, c. 429, s. 8; 1999-393, s. 1.)

§ 143-143.16. Warranties.

Each manufacturer, dealer and supplier of manufactured homes shall warrant each new manufactured home sold in this State in accordance with the warranty requirements prescribed by this section for a period of at least 12 months, measured from the date of delivery of the manufactured home to the buyer. The warranty requirements for each manufacturer, dealer, supplier and set-up contractor of manufactured homes are as follows:

(1) The manufacturer warrants that all structural elements, plumbing systems, heating, cooling and fuel burning systems, electrical systems, and any other components included by the manufacturer are manufactured and installed free from substantial defects.

(2) The dealer warrants:

a. That any modifications or alterations made to the manufactured home by the dealer or authorized by the dealer are free from substantial defects. Alterations or modifications made by a dealer shall relieve the manufacturer of warranty responsibility as to the item altered or modified and any resulting damage.

b. That a setup performed by the dealer on the manufactured home is performed in compliance with the Code.

c. That the setup and transportation of the manufactured home by the dealer did not result in substantial defects.

(3) The supplier warrants that any warranties generally offered in the ordinary sale of his product to consumers shall be extended to buyers of manufactured homes. The manufacturer's warranty shall remain in effect notwithstanding the existence of a supplier's warranty.

(4) The set-up contractor warrants that the manufactured home is set up in compliance with the Code and that the setup did not result in any

substantial defects. (1981, c. 952, s. 2; 1987, c. 429, s. 9; 1999-393, s. 1.)

§ 143-143.17. Presenting claims for warranties and substantial defects.

(a) Whenever a claim for warranty service or about a substantial defect is made to a licensee, it shall be handled as provided in this Article. The licensee shall make a record of the name and address of each claimant and the date, substance, and disposition of each claim about a substantial defect. The licensee may request that a claim be in writing, but must nevertheless record it as provided above, and may not delay service pending receipt of the written claim.

(b) When the licensee notified is not the responsible party, he shall in writing immediately notify the claimant and the responsible party of the claim. When a responsible party is asked to remedy defects, it may not fail to remedy those defects because another party may also be responsible. Nothing in this section prevents a party from obtaining compensation by way of contribution or subrogation from another responsible party in accordance with any other provision of law or contract.

(c) Within the time limits provided in this Article, the licensee shall either resolve the claim or determine that it is not justified. At any time a licensee determines that a claim for warranty service is not justified in whole or in part he shall immediately notify the claimant in writing that the claim or part of the claim is rejected and why, and shall inform the claimant that he is entitled to complain to the Board, for which a complete mailing address shall be provided. (1981, c. 952, s. 2; 1987, c. 429, s. 19; 1999-393, s. 1.)

§ 143-143.18. Warranty service.

(a) When a service agreement exists between or among a manufacturer, dealer and supplier to provide warranty service, the agreement shall specify which party is to remedy warranty defects. Every service agreement shall be in writing. Nothing contained in such an agreement shall relieve the responsible party, as provided by this Article, of responsibility to perform warranty service. However, any licensee undertaking by such agreement to perform the warranty service obligations of another shall thereby himself become responsible both to that other licensee and to the buyer for his failure adequately to perform as agreed.

(b) When no service agreement exists for warranty service, the responsible party as designated by this Article is responsible for remedying the warranty defect.

(c) A substantial defect shall be remedied within 45 days after the receipt of written notification from the claimant. If no written notification is given, the defect shall be remedied within 45 days after the mailing of notification by the Board, unless the claim is unreasonable or bona fide reasons exist for not remedying the defect within the 45-day period. The responsible party shall respond to the claimant in writing with a copy to the Board stating its reasons for not promptly remedying the defect and stating what further action is contemplated by the responsible party. Notwithstanding the foregoing provisions of this subsection, defects, which constitute an imminent safety hazard to life and health shall be remedied within five working days of receipt of the written notification of the warranty claim. An imminent safety hazard to life and health shall include but not be limited to (i) inadequate heating in freezing weather; (ii) failure of sanitary facilities; (iii) electrical shock, leaking gas; or (iv) major structural failure. The Board may suspend this five-day time period

in the event of widespread defects or damage resulting from adverse weather conditions or other natural catastrophes.

(d) When the person remedying the defect is not the responsible party as designated by the provisions of this Article, he shall be entitled to reasonable compensation paid to him by the responsible party. Conduct that coerces or requires a nonresponsible party to perform warranty service is a violation of this Article.

(e) Warranty service shall be performed at the site at which the manufactured home is initially delivered to the buyer, except for components which can be removed for service without substantial expense or inconvenience to the buyer.

(f) Any dealer, manufacturer or supplier may complain to the Board when warranty service obligations under this Article are not being enforced. (1981, c. 952, s. 2; 1987, c. 429, ss. 17, 19; 1999-393, s. 1.)

§ 143-143.19. Dealer alterations.

(a) No alteration or modification shall be made to a manufactured home by a dealer after shipment from the manufacturer's plant, unless such alteration or modification is authorized by this Article or the manufacturer. The dealer shall ensure that all authorized alterations and modifications are performed, if so required, by qualified persons as defined in subsection (d). An unauthorized alteration or modification performed by a dealer or his agent or employee shall place primary warranty responsibility for the altered or modified item upon the dealer. If the manufacturer fulfills or is required to fulfill the warranty on the altered or modified item, he shall be entitled to recover damages in the amount of his cost and attorney's fee from the dealer.

(b) An unauthorized alteration or modification of a manufactured home by the owner or his agent shall relieve the manufacturer of responsibility to remedy defects caused by such alteration or modification. A statement to this effect, together with a warning specifying those alterations or modifications which should be performed only by qualified personnel in order to preserve warranty protection, shall be displayed clearly and conspicuously on the face of the warranty. Failure to display such statement shall result in warranty responsibility on the manufacturer.

(c) The Board is authorized to adopt rules in accordance with Chapter 150B of the General Statutes that define the alterations or modifications which must be made by qualified personnel. The Board may require qualified personnel only for those alterations and modifications which could substantially impair the structural integrity or safety of the manufactured home.

(d) In order to be designated as a person qualified to alter or modify a manufactured home, a person must comply with State licensing or competency requirements in skills relevant to performing alterations or modifications on manufactured homes. (1981, c. 952, s. 2; 1987, c. 429, s. 19; c. 827, s. 1; 1999-393, s. 1.)

§ 143-143.20. Disclosure of manner used in determining length of manufactured homes.

In any advertisement or other communication regarding the length of a manufactured home, a manufacturer or dealer shall not include the coupling mechanism in describing the length of the home. (1981, c. 952, s. 2.)

CASE NOTES

§ 143-143.20A. Display of pricing on manufactured homes.

(a) If the manufacturer of a manufactured home publishes a manufacturer's suggested retail price, that price shall be displayed near the front entrance of the manufactured home.

(b) Each manufactured home dealer shall prominently display a sign and provide to each buyer a notice, developed by the North Carolina Manufactured Housing Board, containing information about the Board, including how to file a consumer complaint with the Board and the warranties and protections provided for each new manufactured home under federal and State law. (2003-400, s. 6.)

Editor's Note. — Session Laws 2003-400, s. 18, is a severability clause.

Session Laws 2003-400, s. 19, made this section effective October 1, 2003.

§ 143-143.21: Repealed by Session Laws 1993, c. 409, s. 6.

Cross References. — For present provision concerning damages for cancellation of retail purchase agreement for a manufactured home, see G.S. 143-143.21A.

§ 143-143.21A. Purchase agreements; buyer cancellations.

(a) A purchase agreement for a manufactured home shall include all of the following:

(1) A description of the manufactured home and all accessories included in the purchase.
(2) The purchase price for the home and all accessories.
(3) The amount of deposit or other payment toward or payment of the purchase price of the manufactured home and accessories that is made by the buyer.
(4) The date the retail purchase agreement is signed.
(5) The estimated terms of financing the purchase, if any, including the estimated interest rate, number of years financed, and monthly payment.
(6) The buyer's signature.
(7) The dealer's signature.

(b) The purchase agreement shall contain, in immediate proximity to the space reserved for the signature of the buyer and in at least ten point, all upper-case Gothic type, the following statement:

"I UNDERSTAND THAT I HAVE THE RIGHT TO CANCEL THIS PURCHASE BEFORE MIDNIGHT OF THE THIRD BUSINESS DAY AFTER THE DATE THAT I HAVE SIGNED THIS AGREEMENT. I UNDERSTAND THAT THIS CANCELLATION MUST BE IN WRITING. IF I CANCEL THE PURCHASE AFTER THE THREE-DAY PERIOD, I UNDERSTAND THAT THE DEALER MAY NOT HAVE ANY OBLIGATION TO GIVE ME BACK ALL OF THE MONEY THAT I PAID THE DEALER. I UNDERSTAND ANY CHANGE TO THE TERMS OF THE PURCHASE AGREEMENT BY THE DEALER WILL CANCEL THIS AGREEMENT."

(c) At the time the deposit or other payment toward or payment for the purchase price is received by the dealer, the dealer shall give the buyer a copy

of the purchase agreement and a completed form in duplicate, captioned "Notice of Cancellation," which shall be attached to the purchase agreement, be easily detachable, and explain the buyer's right to cancel the purchase and how that right can be exercised.

(d) The dealer shall return the deposit or other payment toward or payment for the purchase price to the buyer if the buyer cancels the purchase before midnight of the third business day after the date the buyer signed the purchase agreement or if any of the material terms of the purchase agreement are changed by the dealer. To make the cancellation effective, the buyer shall give the dealer written notice of the buyer's cancellation of the purchase. The dealer shall return the deposit or other payment toward or payment for the purchase price to the buyer within 15 business days after receipt of the notice of cancellation or within three business days of any change by the dealer of the purchase agreement. For purposes of this section, "business day" means any day except Sunday and legal holidays. Each time the dealer gives the buyer a new set of financing terms, unless the financing terms are more favorable to the buyer, the buyer shall be given another three-day cancellation period. The dealer shall not commence setup procedures until after the final three-day cancellation period has expired.

(e) If the buyer cancels the purchase after the three-day cancellation period, but before the sale is completed, and if:

(1) The manufactured home is in the dealer's inventory, the dealer may retain from the deposit or other payment received from the buyer actual damages up to a maximum of ten percent (10%) of the purchase price; or

(2) The manufactured home is specially ordered from the manufacturer for the buyer, the dealer may retain actual damages up to the full amount of the buyer's deposit or other payment received from the buyer.

(f) The Board shall adopt rules concerning the terms of any deposit paid by a buyer to a dealer. The rules may exempt deposits of less than two thousand dollars ($2,000). To the extent practicable, the rules shall protect the deposits from the claims of the creditors of a dealer that may thereafter be in bankruptcy. The rules shall further provide for the prompt return of a buyer's deposit if the buyer is entitled to its return. (1993, c. 409, s. 7; 1999-393, s. 1; 2003-400, s. 7.)

Editor's Note. — Session Laws 2003-400, s. 18, is a severability clause.

Effect of Amendments. — Session Laws 2003-400, s. 7, effective October 1, 2003, in subsection (b), added "I UNDERSTAND ANY CHANGE TO THE TERMS OF THE PURCHASE AGREEMENT BY THE DEALER WILL CANCEL THIS AGREEMENT" at the end of the quoted paragraph"; in subsection (d), inserted "or if any of the material terms of the purchase agreement are changed by the dealer" at the end of the first sentence, added "or within three business days of any change by the dealer of the purchase agreement" at the end of the third sentence, and added the last two sentences; and added subsection (f).

CASE NOTES

Editor's Note. — *The case cited below was decided under former G.S. 143-143.21.*

Liquidated Damages. — Since no adequate mathematical formula was present in contract to calculate a set amount of liquidated damages, and no sum certain was expressed otherwise, sales agreement could not be deemed a liquidated damages clause. First Value Homes, Inc. v. Morse, 86 N.C. App. 613, 359 S.E.2d 42 (1987).

§ 143-143.21B. Dealer cancellation; deposit refund.

A dealer shall refund to a buyer the full amount of a deposit on the purchase of a manufactured home if the buyer has fulfilled his obligations under the purchase agreement and the dealer cancels the purchase at any time. (1998-211, s. 37.)

§ 143-143.22. Inspection of service records.

The Board may inspect the service records of a manufacturer, dealer, supplier or set-up contractor relating to a written warranty claim or complaint made to the Board against the manufacturer, dealer, supplier, or set-up contractor. Every licensee shall send to the Board upon request within 10 days a copy of every document or record pertinent to any complaint or claim for service. (1981, c. 952, s. 2; 1999-393, s. 1.)

§ 143-143.23. Other remedies not excluded.

Nothing in this Article, rules adopted by the Board, or any action of the Board shall limit any right or remedy available to the buyer or any power or duty of the Attorney General. (1981, c. 952, s. 2; 1987, c. 429, s. 19; 1999-393, s. 1.)

§ 143-143.24. Engaging in business without license a Class 1 misdemeanor.

If any person shall unlawfully act as a manufactured home manufacturer, dealer, salesperson, or set-up contractor without first obtaining a license from the Board, as provided in this Article, he shall be guilty of a Class 1 misdemeanor. (1985, c. 487, s. 6; 1987, c. 429, s. 19; 1993, c. 539, s. 1010; 1994, Ex. Sess., c. 24, s. 14(c); 1999-393, s. 1.)

§ 143-143.25. Staff support for Board.

The Manufactured Building Division of the Department shall provide clerical and other staff services required by the Board; and shall administer and enforce all provisions of this Article and all rules adopted under this Article, subject to the direction of the Board; except for powers and duties delegated by this Article to local units of government, other State agencies, or to any persons. (1991, c. 644, s. 36; 1999-393, s. 1.)

Article 9B.

Uniform Standards Code For Manufactured Homes.

§ 143-144. Short title.

This Article shall be known and may be cited as "The Uniform Standards for Manufactured Homes Act." (1969, c. 961, s. 1; 1985, c. 487, s. 7; 1987, c. 429, s. 19; 1999-393, s. 2.)

Editor's Note. — Session Laws 1987, c. 429, s. 2, effective June 19, 1987, redesignated G.S. 143-144 through 143-151.7, which had been known as Part 2 of Article 9A, as Article 9B.

Former G.S. 143-144 to 143-151 were repealed by Session Laws 1959, c. 683, s. 6.

Session Laws 1999-393, s. 5, provides that structures built before the effective date of the Act shall not be affected by any changes made in this Article.

Legal Periodicals. — For article on antitrust and unfair trade practice law in North Carolina, comparing federal law, see 50 N.C.L. Rev. 199 (1972).

For comment on the status of mobile homes as residences or vehicles and their regulation in North Carolina municipalities, see 50 N.C.L. Rev. 612 (1972).

CASE NOTES

Cited in Starr v. Thompson, 96 N.C. App. 369, 385 S.E.2d 535 (1989).

§ 143-145. Definitions.

The following definitions apply in this Article:

(1) Act. — The National Manufactured Housing Construction and Safety Standards Act of 1974, 42 U.S.C. § 5401, et seq., federal regulations adopted under the Act, and any laws enacted by the United States Congress that supersede or supplement the Act.

(2) Commissioner. — The Commissioner of Insurance of the State of North Carolina or an authorized designee of the Commissioner.

(3) Repealed by Session Laws 1999-393, s. 2, effective August 4, 1999.

(4) HUD. — The United States Department of Housing and Urban Development or any successor agency.

(5) Inspection department. — A North Carolina city or county building inspection department authorized by Chapter 160A or Chapter 153A of the General Statutes.

(6) Label. — The form of certification required by HUD to be permanently affixed to each transportable section of each manufactured home manufactured for sale to a purchaser in the United States to indicate that the manufactured home conforms to all applicable federal construction and safety standards.

(7) Manufactured home. — A structure, transportable in one or more sections, which in the traveling mode is eight body feet or more in width, or 40 body feet or more in length, or, when erected on site, is 320 or more square feet; and which is built on a permanent chassis and designed to be used as a dwelling, with or without permanent foundation when connected to the required utilities, including the plumbing, heating, air conditioning and electrical systems contained therein. "Manufactured home" includes any structure that meets all of the requirements of this subsection except the size requirements and with respect to which the manufacturer voluntarily files a certification required by the Secretary of HUD and complies with the standards established under the Act.

For manufactured homes built before June 15, 1976, "manufactured home" means a portable manufactured housing unit designed for transportation on its own chassis and placement on a temporary or semipermanent foundation having a measurement of over 32 feet in length and over eight feet in width. "Manufactured home" also means a double-wide manufactured home, which is two or more portable manufactured housing units designed for transportation on their own chassis that connect on site for placement on a temporary or semipermanent foundation having a measurement of over 32 feet in length and over eight feet in width.

(8) Repealed by Session Laws 1999-393, s. 2, effective August 4, 1999.

(1969, c. 961, s. 2; 1971, c. 1172, s. 1; 1985, c. 487, s. 7; 1987, c. 429, ss. 10, 19; 1999-393, s. 2.)

CASE NOTES

Cited in Angel v. Truitt, 108 N.C. App. 679, 424 S.E.2d 660 (1993).

§ 143-146. Statement of policy; rule-making power.

(a) Manufactured homes, because of the manner of their construction, assembly and use and that of their systems, components and appliances (including heating, plumbing and electrical systems) like other finished products having concealed vital parts may present hazards to the health, life and safety of persons and to the safety of property unless properly manufactured. In the sale of manufactured homes, there is also the possibility of defects not readily ascertainable when inspected by purchasers. It is the policy and purpose of this State to provide protection to the public against those possible hazards, and for that purpose to forbid the manufacture and sale of new manufactured homes, which are not so constructed as to provide reasonable safety and protection to their owners and users. This Article provides to the Commissioner all necessary authority to enable the State to obtain approval as a State Administrative Agency under the provisions of the Act.

(b) to (d) Repealed by Session Laws 1999-393, s. 2, effective August 4, 1999.

(e) The Commissioner may adopt rules to carry out the provisions of the Act and this Article, including rules for consumer complaint procedures and rules for the enforcement of the standards and regulations established and adopted by HUD under the Act. (1969, c. 961, s. 3; 1971, c. 1172, s. 2; 1979, c. 558, ss. 5, 6; 1985, c. 487, s. 7; 1987, c. 429, ss. 11, 12, 18, 19; 1999-393, s. 2.)

§ 143-147. Structures built under previous standards.

The legal status of any structure built before the effective date of the Act shall not be affected by any changes made in this Article by the General Assembly. (1969, c. 961, s. 4; 1971, c. 1172, s. 3; 1985, c. 487, s. 7; 1987, c. 429, s. 19; 1999-393, s. 2.)

§ 143-148. Certain structures excluded from coverage.

The Commissioner may by rule provide for the exclusion of certain structures by certification in accordance with the Act. (1969, c. 961, s. 5; 1971, c. 1172, s. 4; 1979, c. 558, s. 3; 1987, c. 429, s. 13; 1999-393, s. 2.)

Local Modification. — Town of Chapel Hill: 1993, c. 358, s. 1.

Editor's Note. — Session Laws 2002-123, s. 5, provides: "The Department of Revenue may contract for supplies, materials, equipment, and contractual services related to the provision of notice, the creation of tax forms and instructions, and the development of computer software necessitated by the amendments in this act without begin subject to the requirements of Article 3 or Article 8 of Chapter 143 of the General Statutes."

§ 143-149. Necessity for obtaining label for purposes of sale.

No person shall sell or offer for sale any manufactured home in this State that does not have a label. It is a defense to any prosecution for a violation of this section if a person shows that a certificate of title for the manufactured home as required by G.S. 20-52 was obtained before June 15, 1976, or produces other satisfactory evidence on file with the North Carolina Division of Motor Vehicles that the manufactured home was manufactured before June 15, 1976. (1971, c. 1172, s. 5; 1985, c. 487, s. 7; 1999-393, s. 2.)

§ 143-150. No electricity to be furnished units not in compliance.

It is unlawful for any person to furnish electricity for use in any manufactured home without first ascertaining that the manufactured home and its electrical supply has been inspected pursuant to G.S. 143-139 by the inspection authority having jurisdiction and found to comply with the requirements of the State Electrical Code. The certificate of compliance issued by the inspection jurisdiction shall be accepted as evidence of compliance. (1971, c. 1172, s. 6; 1985, c. 487, s. 7; 1993, c. 504, s. 35; 1999-393, s. 2.)

§ 143-151. Penalties.

(a) Any person who is found by the Commissioner to have violated the provisions of the Act, this Article, or any rules adopted under this Article, shall be liable for a civil penalty not to exceed one thousand dollars ($1,000) for each violation. Each violation shall constitute a separate violation for each manufactured home or for each failure or refusal to allow or perform an act required by the Act, this Article, or any rules adopted under this Article. The maximum civil penalty may not exceed one million dollars ($1,000,000) for any related series of violations occurring within one year after the date of the first violation. In determining the amount of the penalty, the Commissioner shall consider the degree and extent of harm caused by the violation, the amount of money that inured to the benefit of the violator as a result of the violation, whether the violation was willful, and the prior record of the violator in complying or failing to comply with laws, rules, or orders applicable to the violator. The clear proceeds of civil penalties provided for in this section shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2.

(b) Any individual, or a director, officer or agent of a corporation who knowingly and willfully violates the Act, this Article, or any rules adopted under this Article in a manner that threatens the health or safety of any purchaser is guilty of a Class I felony. (1971, c. 1172, s. 7; 1979, c. 558, s. 1; 1985, c. 487, s. 7; 1987, c. 429, s. 19; 1993, c. 539, s. 1011; 1994, Ex. Sess., c. 24, s. 14(c); 1998-215, s. 93; 1999-393, s. 2.)

Legal Periodicals. — For note, "The Forty-Two Hundred Dollar Question: 'May State Agencies Have Discretion in Setting Civil Penalties Under the North Carolina Constitution?'," see 68 N.C.L. Rev. 1035 (1990).

§ 143-151.1. Enforcement.

The Commissioner may initiate any appropriate action or proceeding to prevent, restrain, or correct any violation of the Act, this Article, or any rules adopted under this Article. The Commissioner, or any of his deputies or employees, upon showing proper credentials and in the discharge of their duties under this Article, or the Act, is authorized at reasonable hours and without advance notice to enter and inspect all factories, warehouses, or establishments in this State in which manufactured homes are manufactured, stored or held for sale. (1971, c. 1172, s. 8; 1979, c. 558, s. 2; 1985, c. 487, s. 7; 1987, c. 429, ss. 15, 18, 19; 1999-393, s. 2.)

Legal Periodicals. — For article on antitrust and unfair trade practice law in North Carolina, comparing federal law, see 50 N.C.L. Rev. 199 (1972).

§ 143-151.2. Fees.

(a) The Commissioner shall establish a monitoring inspection fee in an amount required by the Secretary of HUD. This monitoring inspection fee shall be an amount paid by each manufactured home manufacturer in this State for each manufactured home produced by the manufacturer in this State.

(b) The monitoring inspection fee shall be paid by the manufacturer to the Secretary of HUD or the Secretary's agent. (1979, c. 558, s. 4; 1985, c. 487, s. 7; 1987, c. 429, s. 18; 1999-393, s. 2.)

Editor's Note. — Session Laws 1977, c. 792, s. 9, which was enacted as G.S. 143A-180.4 by the 1977 act, was erroneously codified as G.S. 143-151.2 in the 1977 Cumulative Supplement. It has been recodified as G.S. 143-151.42.

§ 143-151.3. Reports.

Each manufacturer, distributor, and dealer of manufactured homes shall establish and maintain such records, make such reports, and provide such information as the Commissioner or the Secretary of HUD may reasonably require to be able to determine whether the manufacturer, distributor, or dealer has acted or is acting in compliance with this Article, or the Act and shall, upon request of a person designated by the Commissioner or the Secretary of HUD, permit the person to inspect appropriate books, papers, records and documents relevant to determining whether the manufacturer, distributor, or dealer has acted or is acting in compliance with this Article or the Act, and any rules adopted by the Commissioner under this Article. (1979, c. 558, s. 4; 1985, c. 487, s. 7; 1987, c. 429, ss. 18, 19; 1999-393, s. 2.)

§ 143-151.4. Notification of defects and correction procedures.

Every manufacturer of manufactured homes shall provide for notification and correction procedures in any manufactured home produced by the manufacturer in accordance with the Act, this Article, and any rules adopted by the Commissioner. (1979, c. 558, s. 4; 1985, c. 487, s. 7; 1987, c. 429, s. 14; 1999-393, s. 2.)

§ 143-151.5. Prohibited acts.

(a) No person shall:

(1) Manufacture for sale, lease, sell, offer for sale or lease, or introduce or deliver, or import into the United States, any manufactured home that is manufactured on or after the effective date of any applicable manufactured home construction and safety standard under the Act or this Article and that does not comply with the standard, except as provided in subsections (b), (c), and (d) of this section.

(2) Fail or refuse to permit access to or copying of records, or fail to make reports or provide information, or fail or refuse to permit entry or inspection, as required under the Act or this Article.

(3) Fail to furnish notification of any defect as required by the Act or this Article.

(4) Fail to issue a label or issue a label if the person in the exercise of due care has reason to know that the label is false or misleading in a material respect.

(5) Fail to comply with a rule adopted or an order issued by the Commissioner under this Article.

(6) Issue a certification pursuant to G.S. 143-148 if the person in the exercise of due care has reason to know that the certification is false or misleading in a material respect.

(b)(1) Subdivision (a)(1) of this section does not apply to the sale, the offer for sale, or the introduction or delivery of any manufactured home after the first purchase of it in good faith for purposes other than resale.

(2) Subdivision (a)(1) of this section does not apply to any person who establishes that he did not have reason to know in the exercise of due care that the manufactured home was not in conformity with applicable manufactured home construction and safety standards.

(c) Subdivision (a)(1) of this section shall not apply to any person who, before the first purchase, holds a certificate of compliance issued by the manufacturer or importer of the manufactured home to the effect that the manufactured home conforms to all applicable manufactured home construction and safety standards, unless the person knows that the manufactured home does not so conform. (1979, c. 558, s. 4; 1985, c. 487, s. 7; 1987, c. 429, ss. 16, 19; 1999-393, s. 2.)

§§ 143-151.6, 143-151.7: Reserved for future codification purposes.

Article 9C.

North Carolina Code Officials Qualification Board.

§ 143-151.8. Definitions.

(a) As used in this Article, unless the context otherwise requires:

(1) "Board" means the North Carolina Code Officials Qualification Board.

(2) "Code" means the North Carolina State Building Code and related local building rules approved by the Building Code Council enacted, adopted or approved under G.S. 143-138, any resolution adopted by a federally recognized Indian Tribe under G.S. 153A-350.1 in which the Tribe adopts the North Carolina State Building Code and related local building rules, and the standards adopted by the Commissioner of Insurance under G.S. 143-143.15(a).

(3) "Code enforcement" means the examination and approval of plans and specifications, or the inspection of the manner of construction, workmanship, and materials for construction of buildings and structures and components thereof, or the enforcement of fire code regulations as an employee of the State or local government or as an employee of a federally recognized Indian Tribe employed to perform inspections on tribal lands under G.S. 153A-350.1, as an individual contracting with the State or a local government or a federally recognized Indian Tribe who performs inspections on tribal lands under G.S. 153A-350.1 to conduct inspections, or as an individual who is employed by a company contracting with a county or a city to conduct inspections, except an employee of the State Department of Labor engaged in the administration and enforcement of those sections of the Code which pertain to boilers and elevators, to assure compliance with the State Building Code and related local building rules.

(4) "Local inspection department" means the agency or agencies of local government, or any government agency of a federally recognized Indian Tribe under G.S. 153A-350.1, with authority to make inspections of buildings and to enforce the Code and other laws, ordinances,

and rules enacted by the State and the local government or a federally recognized Indian Tribe under G.S. 153A-350.1, which establish standards and requirements applicable to the construction, alteration, repair, or demolition of buildings, and conditions that may create hazards of fire, explosion, or related hazards.

(5) "Qualified Code-enforcement official" means a person qualified under this Article to engage in the practice of Code enforcement.

(b) For purposes of this Article, the population of a city or county shall be determined according to the most current federal census, unless otherwise specified. (1977, c. 531, s. 1; 1987, c. 827, ss. 224, 225; 1989, c. 681, s. 15; 1993, c. 232, s. 4.1; 1999-78, s. 2; 1999-372, s. 5; 2001-421, s. 2.4.)

Local Modification. — Town of Wrightsville Beach: 1989, c. 611, s. 1.

Editor's Note. — Session Laws 1987, c. 429, s. 3, effective June 19, 1987, redesignated this Article, which had been numbered Article 9B, as Article 9C.

Session Laws 1989, c. 681, which amended this section, provided in s. 21: "Section 10 and Sections 14 through 17 shall become effective upon the adoption of fire protection code provisions by the North Carolina Building Code Council." Fire protection code provisions were adopted July 1, 1991.

§ 143-151.9. North Carolina Code Officials Qualification Board established; members; terms; vacancies.

(a) There is hereby established the North Carolina Code Officials Qualification Board in the Department of Insurance. The Board shall be composed of 20 members appointed as follows:

(1) One member who is a city or county manager;

(2) Two members, one of whom is an elected official representing a city over 5,000 population and one of whom is an elected official representing a city under 5,000 population;

(3) Two members, one of whom is an elected official representing a county over 40,000 population and one of whom is an elected official representing a county under 40,000 population;

(4) Two members serving as building officials with the responsibility for administering building, plumbing, electrical and heating codes, one of whom serves a county and one of whom serves a city;

(5) One member who is a registered architect;

(6) One member who is a registered engineer;

(7) Two members who are licensed general contractors, at least one of whom specializes in residential construction;

(8) One member who is a licensed electrical contractor;

(9) One member who is a licensed plumbing or heating contractor;

(10) One member selected from the faculty of the North Carolina State University School of Engineering and one member selected from the faculty of the School of Engineering of the North Carolina Agricultural and Technical State University;

(11) One member selected from the faculty of the Institute of Government;

(12) One member selected from the Community Colleges System Office;

(13) One member selected from the Division of Engineering and Building Codes in the Department of Insurance; and,

(14) One member who is a local government fire prevention inspector and one member who is a citizen of the State.

The various categories shall be appointed as follows: (1), (2), (3), and (14) by the Governor; (4), (5), and (6) by the General Assembly upon the recommendation of the President Pro Tempore in accordance with G.S. 120-121; (7), (8), and (9) by the General Assembly upon the recommendation of the Speaker of the House of Representatives in accordance with G.S. 120-121; (10) by the

deans of the respective schools of engineering of the named universities; (11) by the Director of the Institute of Government; (12) by the President of the Community College System; and (13) by the Commissioner of Insurance.

(b) The members shall be appointed for staggered terms and the initial appointments shall be made prior to September 1, 1977, and the appointees shall hold office until July 1 of the year in which their respective terms expire and until their successors are appointed and qualified as provided hereafter:

For the terms of one year: the members from subdivisions (1), (6) and (10) of subsection (a), and one member from subdivision (3).

For the terms of two years: the member from subdivision (11) of subsection (a), one member from subdivision (2), one member from subdivision (4), one member from subdivision (7), and one member from subdivision (14).

For the terms of three years: the members from subdivisions (8) and (12) of subsection (a), one member from subdivision (2), one member from subdivision (4), and one member from subdivision (14).

For the terms of four years: the members from subdivision (5), (9) and (13) of subsection (a), one member from subdivision (3), and one member from subdivision (7).

Thereafter, as the term of each member expires, his successor shall be appointed for a term of four years. Notwithstanding the appointments for a term of years, each member shall serve at the will of the Governor.

Members of the Board who are public officers shall serve ex officio and shall perform their duties on the Board in addition to the duties of their office.

(c) Vacancies in the Board occurring for any reason shall be filled for the unexpired term by the person making the appointment. (1977, c. 531, s. 1; 1987, c. 564, s. 28; 1989, c. 681, s. 16; 1995, c. 490, s. 12(a); 1999-84, s. 22.)

Editor's Note. — Session Laws 1989, c. 681, which amended this section, provided in s. 21: "Section 10 and Sections 14 through 17 shall become effective upon the adoption of fire protection code provisions by the North Carolina Building Code Council." Fire protection code provisions were adopted July 1, 1991.

§ 143-151.10. Compensation.

Members of the Board who are State officers or employees shall receive no salary for serving on the Board, but shall be reimbursed for their expenses in accordance with G.S. 138-6. Members of the Board who are full-time salaried public officers or employees other than State officers or employees shall receive no salary for serving on the Board, but shall be reimbursed for subsistence and travel expenses in accordance with G.S. 138-5(a)(2) and (3). All other members of the Board shall receive compensation and reimbursement for expenses in accordance with G.S. 138-5(a). (1977, c. 531, s. 1.)

§ 143-151.11. Chairman; vice-chairman; other officers; meetings; reports.

(a) The members of the Board shall select one of their members as chairman upon its creation, and shall select the chairman each July 1 thereafter.

(b) The Board shall select a vice-chairman and such other officers and committee chairmen from among its members, as it deems desirable, at the first regular meeting of the Board after its creation and at the first regular meeting after July 1 of each year thereafter. Provided, nothing in this subsection shall prevent the creation or abolition of committees or offices of the Board, other than the office of vice-chairman, as the need may arise at any time during the year.

(c) The Board shall hold at least four regular meetings per year upon the call of the chairman. Special meetings shall be held upon the call of the chairman

or the vice-chairman, or upon the written request of four members of the Board.

(d) The activities and recommendations of the Board with respect to standards for Code officials training and certification shall be set forth in regular and special reports made by the Board. Additionally, the Board shall present special reports and recommendations to the Governor or the General Assembly, or both, as the need may arise or as the Governor or the General Assembly may request. (1977, c. 531, s. 1.)

§ 143-151.12. Powers.

In addition to powers conferred upon the Board elsewhere in this Article, the Board shall have the power to:

(1) Adopt rules necessary to administer this Article;

(1a) Require State agencies, local inspection departments, and local governing bodies to submit reports and information about the employment, education, and training of Code-enforcement officials;

(2) Establish minimum standards for employment as a Code-enforcement official: (i) in probationary or temporary status, and (ii) in permanent positions;

(3) Certify persons as being qualified under the provisions of this Article to be Code-enforcement officials, including persons employed by a federally recognized Indian Tribe to perform inspections on tribal lands under G.S. 153A-350.1;

(4) Consult and cooperate with counties, municipalities, agencies of this State, other governmental agencies, and with universities, colleges, junior colleges, community colleges and other institutions concerning the development of Code-enforcement training schools and programs or courses of instruction;

(5) Establish minimum standards and levels of education or equivalent experience for all Code-enforcement instructors, teachers or professors;

(6) Conduct and encourage research by public and private agencies which shall be designed to improve education and training in the administration of Code enforcement;

(7) Adopt and amend bylaws, consistent with law, for its internal management and control; appoint such advisory committees as it may deem necessary; and enter into contracts and do such other things as may be necessary and incidental to the exercise of its authority pursuant to this Article; and,

(8) Make recommendations concerning any matters within its purview pursuant to this Article. (1977, c. 531, s. 1; 1987, c. 564, s. 15; c. 827, s. 226; 1999-78, s. 3.)

§ 143-151.13. Required standards and certificates for Code-enforcement officials.

(a) No person may engage in Code enforcement pursuant to this Article unless he possesses one of the following types of certificates, currently valid, issued by the Board attesting to his qualifications to hold such position: (i) a standard certificate; (ii) a limited certificate provided for in subsection (c); or (iii) a probationary certificate provided for in subsection (d). To obtain a standard certificate, a person must pass an examination, as prescribed by the Board, which is based on the North Carolina State Building Code and administrative procedures required to enforce the Code. The Board shall issue a standard certificate of qualification to each person who successfully com-

pletes the examination authorizing the person named therein to practice as a qualified Code-enforcement official in North Carolina. The certificate of qualification shall bear the signatures of the chairman and secretary of the Board.

(b) The Board shall establish appropriate performance levels, including designation of territory and type and size of buildings and structures, and classes of qualified Code-enforcement officials and may develop examinations and prescribe course of instruction for the various levels and classes. The certificate of qualification shall set forth the performance level for which the Code-enforcement official is qualified. The Board may limit the jurisdiction of Code-enforcement officials based on the performance level for which they have qualified; provided, a person who receives a certificate of qualification at the highest performance level established by the Board shall be entitled to serve anywhere in North Carolina.

(c) A Code-enforcement official holding office as of the date specified in this subsection for the county or municipality by which he is employed, shall not be required to possess a standard certificate as a condition of tenure or continued employment but shall be required to complete such in-service training as may be prescribed by the Board. At the earliest practicable date, such official shall receive from the Board a limited certificate qualifying him to engage in Code enforcement at the performance level and within the governmental jurisdiction in which he is employed. The limited certificate shall be valid only as an authorization for the official to continue in the position he held on the applicable date and shall become invalid if he does not complete in-service training within two years following the applicable date in the schedule below, according to the governmental jurisdiction's population as published in the 1970 U.S. Census:

Counties and Municipalities over 75,000 population — July 1, 1979
Counties and Municipalities between 50,001 and 75,000 — July 1, 1981
Counties and Municipalities between 25,001 and 50,000 — July 1, 1983
Counties and Municipalities 25,000 and under — July 1, 1985
All fire prevention inspectors holding office — July 1, 1989. Fire prevention inspectors have until July 1, 1993, to complete in-service training.

An official holding a limited certificate can be promoted to a position requiring a higher level certificate only upon issuance by the Board of a standard certificate or probationary certificate appropriate for such new position.

(d) The Board may provide for the issuance of probationary or temporary certificates valid for such period (not less than one year nor more than three years) as specified by the Board's rules, or until June 30, 1983, whichever is later, to any Code-enforcement official newly employed or newly promoted who lacks the qualifications prescribed by the Board as prerequisite to applying for a standard certificate under subsection (a). No official may have his probationary or temporary certificate extended beyond the specified period by renewal or otherwise. The Board may provide for appropriate levels of probationary or temporary certificates and may issue these certificates with such special conditions or requirements relating to the place of employment of the person holding the certificate, his supervision on a consulting or advisory basis, or other matters as the Board may deem necessary to protect the public safety and health.

(e) The Board shall, without requiring an examination, issue a standard certificate to any person who is currently certified as a county electrical inspector pursuant to G.S. 153A-351. The certificate issued by the Board shall authorize the person to serve at the electrical inspector level approved by the Commissioner of Insurance in G.S. 153A-351.

(f) The Board shall issue a standard certificate to any person who is currently licensed to practice as a(n):

(1) Architect, registered pursuant to Chapter 83A;
(2) General contractor, licensed pursuant to Article 1 of Chapter 87;
(3) Plumbing or heating contractor, licensed pursuant to Article 2 of Chapter 87;
(4) Electrical contractor, licensed pursuant to Article 4 of Chapter 87; or,
(5) Professional engineer, registered pursuant to Chapter 89C;

provided the person successfully completes a short course, as prescribed by the Board, relating to the State Building Code regulations and Code-enforcement administration. The standard certificate shall authorize the person to practice as a qualified Code-enforcement official at the performance level determined by the Board, based on the type of license or registration held in any profession specified above. (1977, c. 531, s. 1; 1979, cc. 521, 829; 1983, c. 90; 1987, c. 827, ss. 225, 227; 1989, c. 681, s. 17; 1989 (Reg. Sess., 1990), c. 1021, s. 5; 1991, c. 133, s. 1.)

Editor's Note. — Session Laws 1989, c. 681, which amended this section, provided in s. 21: "Section 10 and Sections 14 through 17 shall become effective upon the adoption of fire protection code provisions by the North Carolina Building Code Council." Fire protection code provisions were adopted July 1, 1991.

CASE NOTES

To the extent that various levels or classes of work such as building, electrical, mechanical, and plumbing are referenced as part of the certificates issued, there is no statutory authority to allow the revocation of separate selected certificates dealing with those specific levels or classes of work; the standard certificate and the limited certificate are all that this section authorizes to be issued and thus all that are subject to revocation. Bunch v. North Carolina Code Officials Qualifications Bd., 343 N.C. 97, 468 S.E.2d 55 (1996).

§ 143-151.14. Comity.

The Board may, without requiring an examination, grant a standard certificate as a qualified Code-enforcement official to any person who, at the time of application, is certified as a qualified Code-enforcement official by a similar board of another state, district or territory where standards are acceptable to the Board and not lower than those required by this Article. A fee of not more than twenty dollars ($20.00), as determined by the Board, must be paid by the applicant to the Board for the issuance of a certificate under the provisions of this section. The provisions of G.S. 143-151.16(b) relating to renewal fees and late renewals shall apply to every person granted a standard certificate in accordance with this section. (1977, c. 531, s. 1.)

§ 143-151.15. Return of certificate to Board; reissuance by Board.

A certificate issued by the Board under this Article is valid as long as the person certified is employed by the State of North Carolina or any political subdivision thereof as a Code-enforcement official, or is employed by a federally recognized Indian Tribe to perform inspections on tribal lands under G.S. 153A-350.1 as a Code-enforcement official. When the person certified leaves that employment for any reason, he shall return the certificate to the Board. If the person subsequently obtains employment as a Code-enforcement official in any governmental jurisdiction described above, the Board may reissue the certificate to him. The provisions of G.S. 143-151.16(b) relating to

renewal fees and late renewals shall apply, if appropriate. The provisions of G.S. 143-151.16(c) shall not apply. This section does not affect the Board's powers under G.S. 143-151.17. (1977, c. 531, s. 1; 1993 (Reg. Sess., 1994), c. 678, s. 35; 1999-78, s. 4.)

§ 143-151.16. Certification fees; renewal of certificates.

(a) The Board shall establish a schedule of fees to be paid by each applicant for certification as a qualified Code-enforcement official. Such fee shall not exceed twenty dollars ($20.00) for each applicant.

(b) A certificate, other than a probationary certificate, as a qualified Code-enforcement official issued pursuant to the provisions of this Article must be renewed annually on or before the first day of July. Each application for renewal must be accompanied by a renewal fee to be determined by the Board, but not to exceed ten dollars ($10.00). The Board is authorized to charge an extra two dollar ($2.00) late renewal fee for renewals made after the first day of July each year.

(c) Any person who fails to renew his certificate for a period of two consecutive years may be required by the Board to take and pass the same examination as unlicensed applicants before allowing such person to renew his certificate. (1977, c. 531, s. 1.)

§ 143-151.17. Grounds for disciplinary actions; investigation; administrative procedures.

(a) The Board shall have the power to suspend, revoke or refuse to grant any certificate issued under the provisions of this Article to any person who:

(1) Has been convicted of a felony against this State or the United States, or convicted of a felony in another state that would also be a felony if it had been committed in this State;

(2) Has obtained certification through fraud, deceit, or perjury;

(3) Has knowingly aided or abetted any person practicing contrary to the provisions of this Article or the State Building Code or any building codes adopted by a federally recognized Indian Tribe under G.S. 153A-350.1;

(4) Has defrauded the public or attempted to do so;

(5) Has affixed his signature to a report of inspection or other instrument of service if no inspection has been made by him or under his immediate and responsible direction; or,

(6) Has been guilty of willful misconduct, gross negligence or gross incompetence.

(b) The Board may investigate the actions of any qualified Code-enforcement official or applicant upon the verified complaint in writing of any person alleging a violation of subsection (a). The Board may suspend or revoke the certification of any qualified Code-enforcement official and refuse to grant a certificate to any applicant, whom it finds to have been guilty of one or more of the actions set out in subsection (a) as grounds for disciplinary action.

(c) A denial, suspension, or revocation of a certificate issued under this Article shall be made in accordance with Chapter 150B of the General Statutes.

(d) The Board may deny an application for a certificate for any of the grounds that are described in subsection (a) of this section. Within 30 days after receipt of a notification that an application for a certificate has been denied, the applicant may make a written request for a review by a committee designated by the chairman of the Board to determine the reasonableness of the Board's action. The review shall be completed without undue delay, and the

applicant shall be notified promptly in writing as to the outcome of the review. Within 30 days after service of the notification as to the outcome, the applicant may make a written request for a hearing under Article 3A of Chapter 150B of the General Statutes if the applicant disagrees with the outcome.

(e) The provisions of this section shall apply to Code-enforcement officials and applicants who are employed or seek to be employed by a federally recognized Indian Tribe to perform inspections on tribal lands under G.S. 153A-350.1. (1977, c. 531, s. 1; 1987, c. 827, s. 228; 1993, c. 504, s. 36; 1993 (Reg. Sess., 1994), c. 678, s. 36; 1999-78, s. 5.)

§ 143-151.18. Violations; penalty; injunction.

On and after July 1, 1979, it shall be unlawful for any person to represent himself as a qualified Code-enforcement official who does not hold a currently valid certificate of qualification issued by the Board. Any person violating any of the provisions of this Article shall be guilty of a Class 1 misdemeanor. The Board is authorized to apply to any judge of the superior court for an injunction in order to prevent any violation or threatened violation of the provisions of this Article. (1977, c. 531, s. 1; 1993, c. 539, s. 1012; 1994, Ex. Sess., c. 24, s. 14(c).)

§ 143-151.19. Administration.

(a) The Division of Engineering and Building Codes in the Department of Insurance shall provide clerical and other staff services required by the Board, and shall administer and enforce all provisions of this Article and all rules promulgated pursuant to this Article, subject to the direction of the Board, except as delegated by this Article to local units of government, other State agencies, corporations, or individuals.

(b) The Board shall make copies of this Article and the rules adopted under this Article available to the public at a price determined by the Board.

(c) The Board shall keep current a record of the names and addresses of all qualified Code-enforcement officials and additional personal data as the Board deems necessary. The Board annually shall publish a list of all currently certified Code-enforcement officials.

(d) Each certificate issued by the Board shall contain such identifying information as the Board requires.

(e) The Board shall issue a duplicate certificate to practice as a qualified Code-enforcement official in place of one which has been lost, destroyed, or mutilated upon proper application and payment of a fee to be determined by the Board. (1977, c. 531, s. 1; 1987, c. 827, ss. 224, 229.)

§ 143-151.20. Donations and appropriations.

(a) In addition to appropriations made by the General Assembly, the Board may accept for any of its purposes and functions under this Article any and all donations, both real and personal, and grants of money from any governmental unit or public agency, or from any institution, person, firm or corporation, and may receive, utilize, disburse and transfer the same, subject to the approval of the Council of State. Any arrangements pursuant to this section shall be detailed in the next regular report of the Board. Such report shall include the identity of the donor, the nature of the transaction, and the conditions, if any. Any moneys received by the Board pursuant to this section shall be deposited in the State treasury to the account of the Board.

(b) The Board may provide grants as a reimbursement for actual expenses incurred by the State or political subdivision thereof for the provisions of

training programs of officials from other jurisdictions within the State. The Board, by rules, shall provide for the administration of the grant program authorized herein. In promulgating such rules, the Board shall promote the most efficient and economical program of Code-enforcement training, including the maximum utilization of existing facilities and programs for the purpose of avoiding duplication. (1977, c. 531, s. 1; 1987, c. 827, s. 224.)

§ 143-151.21. Disposition of fees.

Fees collected by the Commissioner under this Article shall be credited to the Insurance Regulatory Fund created under G.S. 58-6-25. (1991, c. 689, s. 295; 2003-221, s. 10.)

Effect of Amendments. — Session Laws 2003-221, s. 10, effective June 19, 2003, substituted "Insurance Regulatory Fund" for "Department of Insurance Fund."

§§ 143-151.22 through 143-151.25: Reserved for future codification purposes.

Article 9D.

Enforcement of Building Code Insulation and Energy Utilization Standards.

§§ 143-151.26 through 143-151.41: Repealed by Session Laws 1999-393, s. 3, effective August 4, 1999.

Editor's Note. — Session Laws 1999-393, s.3, repealed Article 9D of Chapter 143, as indicated above. Sections 143-151.37 through 143-151.41 had been reserved for future codification purposes.

Session Laws 1999-393, s. 5, provides that structures built before the effective date of the Act shall not be affected by any changes made in this Article.

Article 9E.

Master Electrical and Natural Gas Meters Prohibited.

§ 143-151.42. Prohibition of master meters for electric and natural gas service.

From and after September 1, 1977, in order that each occupant of an apartment or other individual dwelling unit may be responsible for his own conservation of electricity and gas, it shall be unlawful for any new residential building, as hereinafter defined, to be served by a master meter for electric service or natural gas service. Each individual dwelling unit shall have individual electric service with a separate electric meter and, if it has natural gas, individual natural gas service with a separate natural gas meter, which service and meters shall be in the name of the tenant or other occupant of said apartment or other dwelling unit. No electric supplier or natural gas supplier, whether regulated public utility or municipal corporation or electric membership corporation supplying said utility service, shall connect any residential building for electric service or natural gas service through a master meter, and said electric or natural gas supplier shall serve each said apartment or dwelling unit by separate service and separate meter and shall bill and charge

each individual occupant of said separate apartment or dwelling unit for said electric or natural gas service. A new residential building is hereby defined for the purposes of this section as any building for which a building permit is issued on or after September 1, 1977, which includes two or more apartments or other family dwelling units. Provided, however, that any owner or builder of a multi-unit residential building who desires to provide central heat or air conditioning or central hot water from a central furnace, air conditioner or hot water heater which incorporates solar assistance or other designs which accomplish greater energy conservation than separate heat, hot water, or air conditioning for each dwelling unit, may apply to the North Carolina Utilities Commission for approval of said central heat, air conditioning or hot water system, which may include a central meter for electricity or gas used in said central system, and the Utilities Commission shall promptly consider said application and approve it for such central meters if energy is conserved by said design. This section shall apply to any dwelling unit normally rented or leased for a minimum period of one month or longer, including apartments, condominiums and townhouses, but shall not apply to hotels, motels, dormitories, rooming houses or nursing homes, or homes for the elderly. (1977, c. 792, s. 9.)

Editor's Note. — Session Laws 1987, c. 429, s. 3 redesignated this Article, which had been numbered Article 9D, as Article 9E.

Article 9F.

North Carolina Home Inspector Licensure Board.

§ 143-151.43. Short title.

This Article is the Home Inspector Licensure Act and may be cited by that name. (1993 (Reg. Sess., 1994), c. 724, s. 1.)

§ 143-151.44. Purpose.

This Article safeguards the public health, safety, and welfare and protects the public from being harmed by unqualified persons by regulating the use of the title "Licensed Home Inspector" and by providing for the licensure and regulation of those who perform home inspections for compensation. (1993 (Reg. Sess., 1994), c. 724, s. 1.)

§ 143-151.45. Definitions.

The following definitions apply in this Article:

(1) Associate home inspector. — An individual who is affiliated with or employed by a licensed home inspector to conduct a home inspection of a residential building on behalf of the licensed home inspector.

(2) Board. — The North Carolina Home Inspector Licensure Board.

(3) Compensation. — A fee or anything else of value.

(4) Home inspection. — A written evaluation of two or more of the following components of a residential building: heating system, cooling system, plumbing system, electrical system, structural components, foundation, roof, masonry structure, exterior and interior components, or any other related residential housing component.

(5) Home inspector. — An individual who engages in the business of performing home inspections for compensation.

(6) Residential building. — A structure intended to be, or that is in fact, used as a residence by one or more individuals. (1993 (Reg. Sess., 1994), c. 724, s. 1; 1998-211, s. 33.)

§ 143-151.46. North Carolina Home Inspector Licensure Board established; members; terms; vacancies.

(a) Membership. — The North Carolina Home Inspector Licensure Board is established in the Department of Insurance. The Board shall be composed of the Commissioner of Insurance or the Commissioner's designee and seven additional members appointed as follows:

(1) A public member who is not in one of the professional categories in subdivisions (2) through (4) of this subsection, appointed by the General Assembly upon the recommendation of the Speaker of the House of Representatives.

(2) Four home inspectors, two of whom shall be appointed by the General Assembly upon the recommendation of the President Pro Tempore of the Senate, one of whom shall be appointed by the General Assembly upon the recommendation of the Speaker of the House of Representatives, and one of whom shall be appointed by the Governor.

(3) A licensed general contractor appointed by the Governor upon the recommendation of the North Carolina Home Builders Association.

(4) A licensed real estate broker appointed by the Governor upon the recommendation of the North Carolina Association of Realtors.

All members of the Board must be citizens of the State. Appointments by the General Assembly must be made in accordance with G.S. 120-121.

(b) Terms. — The members shall be appointed for staggered terms and the initial appointments shall be made prior to August 1, 1995. The appointees shall hold office until July 1 of the year in which their respective terms expire and until their successors are appointed and qualified.

Of the members initially appointed, the home inspector appointed by the Governor shall serve a one-year term. The home inspector appointed by the General Assembly upon the recommendation of the Speaker of the House of Representatives and the licensed real estate broker shall serve two-year terms. One home inspector appointed by the General Assembly upon the recommendation of the President Pro Tempore of the Senate and the licensed contractor shall serve three-year terms. The remaining home inspector appointed by the General Assembly upon the recommendation of the President Pro Tempore of the Senate and the citizen of the State shall serve four-year terms.

Thereafter, as the term of each member expires, a successor shall be appointed for a term of four years.

(c) Vacancies. — Vacancies in the Board occurring for any reason shall be filled for the unexpired term by the appointing official making the original appointment. Vacancies in positions appointed by the General Assembly upon the recommendation of the President Pro Tempore of the Senate or the Speaker of the House of Representatives shall be filled in accordance with G.S. 120-122. (1993 (Reg. Sess., 1994), c. 724, s. 1.)

§ 143-151.47. Compensation of Board members.

Members of the Board shall receive no salary for serving on the Board. Members may be reimbursed for their travel and other expenses in accordance with G.S. 93B-5 but may not receive the per diem authorized by that statute. (1993 (Reg. Sess., 1994), c. 724, s. 1.)

§ 143-151.48. Election of officers; meetings of Board.

(a) Officers. — Within 30 days after making appointments to the Board, the Governor shall call the first meeting of the Board. The Board shall elect a chair and a vice-chair who shall hold office according to rules adopted by the Board.

(b) Meetings. — The Board shall hold at least two regular meetings each year as provided by rules adopted by the Board. The Board may hold additional meetings upon the call of the chair or any two Board members. A majority of the Board membership constitutes a quorum. (1993 (Reg. Sess., 1994), c. 724, s. 1.)

§ 143-151.49. Powers and responsibilities of Board.

(a) General. — The Board has the power to do all of the following:

(1) Determine the qualifications and fitness of applicants for a new or renewed license.
(2) Adopt and publish a code of ethics and standard of practice for persons licensed under this Article.
(3) Issue, renew, deny, revoke, and suspend licenses under this Article.
(4) Conduct investigations, subpoena individuals and records, and do all other things necessary and proper to discipline persons licensed under this Article and to enforce this Article.
(5) Employ professional, clerical, investigative, or special personnel necessary to carry out the provisions of this Article.
(6) Purchase or rent office space, equipment, and supplies necessary to carry out the provisions of this Article.
(7) Adopt a seal by which it shall authenticate its proceedings, official records, and licenses.
(8) Conduct administrative hearings in accordance with Article 3A of Chapter 150B of the General Statutes.
(9) Establish fees as allowed by this Article.
(10) Publish and make available upon request the licensure standards prescribed under this Article and all rules adopted by the Board.
(11) Request and receive the assistance of State educational institutions or other State agencies.
(12) Establish continuing education requirements for persons licensed under this Article.
(13) Adopt rules necessary to implement this Article.

(b) Exam. — In developing a licensing examination to determine the knowledge of an applicant, the Board must emphasize knowledge gained through experience. (1993 (Reg. Sess., 1994), c. 724, s. 1.)

§ 143-151.50. License required to perform home inspections for compensation or to claim to be a "licensed home inspector".

(a) Requirement. — To perform a home inspection for compensation on or after October 1, 1996, or to claim to be a licensed home inspector or a licensed associate home inspector on or after that date, an individual must be licensed by the Board. An individual who is not licensed by the Board may perform a home inspection without compensation.

(b) Form of License. — The Board may issue a license only to an individual and may not issue a license to a partnership, an association, a corporation, a firm, or another group. A licensed home inspector or licensed associate home inspector, however, may perform home inspections for or on behalf of a partnership, an association, a corporation, a firm, or another group, may

conduct business as one of these entities, and may enter into and enforce contracts as one of these entities. (1993 (Reg. Sess., 1994), c. 724, s. 1.)

§ 143-151.51. Requirements to be licensed as a home inspector.

To be licensed as a home inspector, an applicant must do all of the following:

(1) Submit a completed application to the Board upon a form provided by the Board.
(2) Pass a licensing examination prescribed by the Board.
(3) Have minimum net assets or a bond in an amount determined by the Board. The amount may not be less than five thousand dollars ($5,000) nor more than ten thousand dollars ($10,000).
(4) Pay the applicable fees.
(5) Meet one of the following three conditions:
    a. Have a high school diploma or its equivalent, have been engaged as a licensed associate home inspector for at least one year, and have completed 100 home inspections for compensation.
    b. Have education and experience the Board considers to be equivalent to that required by subpart a. of this subdivision.
    c. Be licensed as a general contractor under Article 1 of Chapter 87 of the General Statutes, as an architect under Chapter 83A of the General Statutes, or as a professional engineer under Chapter 89C of the General Statutes. (1993 (Reg. Sess., 1994), c. 724, s. 1.)

§ 143-151.52. Requirements to be licensed as an associate home inspector.

To be licensed as an associate home inspector, a person must do all of the following:

(1) Submit a completed application to the Board upon a form provided by the Board.
(2) Pass a licensing examination prescribed by the Board.
(3) Pay the applicable fees.
(4) Have a high school diploma or its equivalent.
(5) Be employed by or affiliated with or intend to be employed by or affiliated with a licensed home inspector and submit a sworn statement by that licensed home inspector certifying that the licensed home inspector will actively supervise and train the applicant. (1993 (Reg. Sess., 1994), c. 724, s. 1; 1998-211, s. 34.)

§ 143-151.53. Notification to applicant following evaluation of application.

If the Board finds that the applicant has not met fully the requirements for licensing, the Board shall refuse to issue the license and shall notify in writing the applicant of the denial, stating the grounds of the denial. The application may also be denied for any reason for which a license may be suspended or revoked or not renewed under G.S. 143-151.56. Within 30 days after service of the notification, the applicant may make a written demand upon the Board for a review to determine the reasonableness of the Board's action. The review shall be completed without undue delay, and the applicant shall be notified promptly in writing as to the outcome of the review. Within 30 days after service of the notification as to the outcome, the applicant may make a written demand upon the Board for a hearing under Article 3A of Chapter 150B of the

General Statutes if the applicant disagrees with the outcome. (1993 (Reg. Sess., 1994), c. 724, s. 1; 1998-211, s. 35.)

§ 143-151.54. Miscellaneous license provisions.

A license issued by the Board is the property of the Board. If the Board suspends or revokes a license issued by it, the individual to whom it is issued must give it to the Board upon demand. An individual who is licensed by the Board must display the license certificate in the manner prescribed by the Board. A license holder whose address changes must report the change to the Board. (1993 (Reg. Sess., 1994), c. 724, s. 1.)

§ 143-151.55. Renewal of license; inactive licenses; lapsed licenses.

(a) Renewal. — A license expires on September 30 of each year. A license may be renewed by filing an application for renewal with the Board and paying the required renewal fee. The Board must notify license holders at least 30 days before their licenses expire. The Board must renew the license of a person who files an application for renewal, pays the required renewal fee, has fulfilled the continuing education requirements set by the Board, and is not in violation of this Article when the application is filed. If the Board imposes a continuing education requirement as a condition of renewing a license, the Board must ensure that the courses needed to fulfill the requirement are available in all geographic areas of the State.

(b) Late Renewal. — The Board may provide for the late renewal of a license upon the payment of a late fee, but no late renewal of a license may be granted more than five years after the license expires.

(c) Inactive License. — A license holder may apply to the Board to be placed on inactive status. An applicant for inactive status must follow the procedure set by the Board. A license holder who is granted inactive status is not subject to the license renewal requirements during the period the license holder remains on inactive status.

A license holder whose application is granted and is placed on inactive status may apply to the Board to be reinstated to active status at any time. The Board may set conditions for reinstatement to active status. An individual who is on inactive status and applies to be reinstated to active status must comply with the conditions set by the Board.

(d) Lapsed License. — The license of a licensed home inspector shall lapse if the licensee fails to continuously maintain minimum net assets or a bond as required by G.S. 143-151.58. The license of a licensed associate home inspector shall lapse if the licensee fails to continuously be employed by or affiliated with a licensed home inspector as required by G.S. 143-151.58. (1993 (Reg. Sess., 1994), c. 724, s. 1; 1999-149, s. 1.)

§ 143-151.56. Suspension, revocation, and refusal to renew license.

(a) The Board may deny or refuse to issue or renew a license, may suspend or revoke a license, or may impose probationary conditions on a license if the license holder or applicant for licensure has engaged in any of the following conduct:

(1) Employed fraud, deceit, or misrepresentation in obtaining or attempting to obtain or renew a license.

(2) Committed an act of malpractice, gross negligence, or incompetence in the practice of home inspections.

(3) Without having a current license, either performed home inspections for compensation or claimed to be licensed.
(4) Engaged in conduct that could result in harm or injury to the public.
(5) Been convicted of or pled guilty or nolo contendere to any misdemeanor involving moral turpitude or to any felony.
(6) Been adjudicated incompetent.
(7) Engaged in any act or practice that violates any of the provisions of this Article or any rule issued by the Board, or aided, abetted, or assisted any person in a violation of any of the provisions of this Article.

(b) A denial of licensure, refusal to renew, suspension, revocation, or imposition of probationary conditions upon a license holder may be ordered by the Board after a hearing held in accordance with Article 3A of Chapter 150B of the General Statutes and rules adopted by the Board. An application may be made to the Board for reinstatement of a revoked license if the revocation has been in effect for at least one year. (1993 (Reg. Sess., 1994), c. 724, s. 1; 1998-211, s. 36.)

§ 143-151.57. Fees.

(a) Maximum Fees. — The Board may adopt fees that do not exceed the amounts set in the following table for administering this Article:

Item	Maximum Fee
Application for home inspector license	$25.00
Application for associate home inspector license	15.00
Home inspector examination	75.00
Issuance of home inspector license	150.00
Issuance of associate home inspector license	100.00
Late renewal of home inspector license	25.00
Late renewal of associate home inspector license	15.00
Application for course approval	150.00
Renewal of course approval	75.00
Course fee, per credit hour per licensee	5.00
Credit for unapproved continuing education course	50.00
Copies of Board rules or licensure standards	Cost of printing and mailing.

(b) Subsequent Application. — An individual who applied for a license as a home inspector and who failed the home inspector examination is not required to pay an additional application fee if the individual submits another application for a license as a home inspector. The individual must pay the examination fee, however, to be eligible to take the examination again. (1993 (Reg. Sess., 1994), c. 724, s. 1; 1999-149, s. 2; 2000-140, s. 32.)

§ 143-151.58. Duties of licensed home inspector or licensed associate home inspector.

(a) Home Inspection Report. — A licensed home inspector or licensed associate home inspector must give to each person for whom the inspector performs a home inspection for compensation a written report of the home inspection. The inspector must give the person the report by the date set in a written agreement by the parties to the home inspection. If the parties to the home inspection did not agree on a date in a written agreement, the inspector must give the person the report within three business days after the inspection was performed.

(b) Bond Required. — A licensed home inspector must continuously maintain minimum net assets or a bond as required in G.S. 143-151.51(3).

(c) Supervision. — A licensed associate home inspector must be continuously employed by or affiliated with a licensed home inspector as required in G.S. 143-151.52(5).

(d) Record Keeping. — All licensees under this Article shall make and keep full and accurate records of business done under their licenses. Records shall include the written, signed contract and the written report required by the standards of practice referred to in G.S. 143-151.49(a)(2) and any other information the Board requires by rule. Records shall be retained by licensees for not less than three years. Licensees shall furnish their records to the Board on demand. (1993 (Reg. Sess., 1994), c. 724, s. 1; 1999-149, s. 3.)

§ 143-151.59. Violation is a misdemeanor.

A person who violates a provision of this Article is guilty of a Class 2 misdemeanor. Each unlawful act or practice constitutes a distinct and separate offense. (1993 (Reg. Sess., 1994), c. 724, s. 1.)

§ 143-151.60. Injunctions.

The Board may make application to any appropriate court for an order enjoining violations of this Article. Upon a showing by the Board that any person has violated or is about to violate this Article, the court may grant an injunction or a restraining order or take other appropriate action. (1993 (Reg. Sess., 1994), c. 724, s. 1.)

§ 143-151.61. Certain applicants do not have to be licensed as an associate home inspector before being eligible for licensure as a home inspector.

The requirement that an applicant for licensure as a home inspector first have a license as an associate home inspector does not apply to a person who, prior to October 1, 1996, had been engaged in the business of performing home inspections for compensation for at least one year and had conducted at least 100 home inspections for compensation. All other requirements for licensure as a home inspector, including passing a licensing examination provided by the Board, apply to an applicant who is exempted by this section from the requirement of prior licensure as an associate home inspector. (1993 (Reg. Sess., 1994), c. 724, s. 1.)

§ 143-151.62. Persons and practices not affected.

This Article does not apply to any of the following:

(1) A person who is employed as a code enforcement official by the State or a political subdivision of the State and is certified pursuant to Article 9C of Chapter 143 of the General Statutes, when acting within the scope of that employment.

(2) A plumbing or heating contractor who does not claim to be a home inspector and is licensed under Article 2 of Chapter 87 of the General Statutes, when acting pursuant to that Article.

(3) An electrical contractor who does not claim to be a home inspector and is licensed under Article 4 of Chapter 87 of the General Statutes, when acting pursuant to that Article.

(4) A real estate broker or a real estate sales representative who does not claim to be a home inspector and is licensed under Article 1 of Chapter 93A of the General Statutes, when acting pursuant to that Article.

(5) A structural pest control licensee licensed under the provisions of Article 4C of Chapter 106 of the General Statutes, an employee of the licensee, or a certified applicator licensed under the provisions of Article 4C of Chapter 106 of the General Statutes who does not claim to be a home inspector, while performing structural pest control activities pursuant to that Article. (1993 (Reg. Sess., 1994), c. 724, s. 1.)

§ 143-151.63. Administration.

(a) The Division of Engineering and Building Code in the Department of Insurance shall provide clerical and other staff services required by the Board, and shall administer and enforce all provisions of this Article and all rules adopted under this Article, subject to the direction of the Board. The Board shall reimburse the Division for its services to the Board.

(b) Any monies received by the Board pursuant to this Article shall be deposited in the State treasury to the account of the Board and shall be used to administer this Article.

(c) The books and records of the Board are subject to the oversight of the State Auditor, as provided in G.S. 93B-4. (1993 (Reg. Sess., 1994), c. 724, s. 1.)

§ 143-151.64. Continuing education requirements.

(a) Requirements. — The Board may establish programs of continuing education for licensees under this Article. A licensee subject to a program under this section shall present evidence to the Board upon the license renewal following initial licensure, and every renewal thereafter, that during the 12 months preceding the annual license expiration date the licensee has completed the required number of classroom hours of instruction in courses approved by the Board. Annual continuing education hour requirements shall be determined by the Board, but shall not be more than 12 credit hours. No member of the Board shall provide or sponsor a continuing education course under this section while that person is serving on the Board.

(b) Fees. — The Board may establish a nonrefundable course application fee to be charged to a course sponsor for the review and approval of a proposed continuing education course. Approval of a continuing education course must be renewed annually. The Board may also require a course sponsor to pay a fee for each licensee completing an approved continuing education course conducted by the sponsor.

(c) Credit for Unapproved Course. — The Board may award continuing education credit for an unapproved course or related educational activity. The Board may prescribe procedures for a licensee to submit information on an unapproved course or related educational activity for continuing education credit. The Board may charge a fee to the licensee for each course or activity submitted.

(d) Extension of Time. — The Board may, for good cause shown, grant extensions of time to licensees to comply with these requirements. Any licensee who, after obtaining an extension under this subsection, offers evidence satisfactory to the Board that the licensee has satisfactorily completed the required continuing education courses, is in compliance with this section.

(e) Rules. — The Board may adopt rules governing continuing education requirements, including rules that govern:

(1) The content and subject matter of continuing education courses.

(2) The criteria, standards, and procedures for the approval of courses, course sponsors, and course instructors.

(3) The methods of instruction.

(4) The computation of course credit.
(5) The ability to carry forward course credit from one year to another.
(6) The waiver of or variance from the continuing education requirement for hardship or other reasons.
(7) The procedures for compliance and sanctions for noncompliance. (1999-149, s. 4; 2001-421, s. 2.5.)

Article 10.

Various Powers and Regulations.

§ 143-152. Injury to water supply misdemeanor.

If any person shall in any way intentionally or maliciously damage or obstruct any waterline of any public institution, or in any way contaminate or render the water impure or injurious, he shall be guilty of a Class 1 misdemeanor. (1893, c. 63, s. 3; Rev., s. 3458; C.S., s. 7526; 1993, c. 539, s. 1014; 1994, Ex. Sess., c. 24, s. 14(c).)

§ 143-153. Keeping swine near State institutions; penalty.

On the petition of a majority of the legal voters living within a radius of one quarter of a mile of the administrative building of any State educational or charitable institution, it shall be unlawful for any person to keep swine or swine pens within such radius of one quarter of a mile. Any person violating this section shall be guilty of a Class 3 misdemeanor and shall be subject to only a fine of not less than ten dollars ($10.00) nor more than fifty dollars ($50.00). (1909, c. 706; C.S., s. 7527; 1993, c. 539, s. 1015; 1994, Ex. Sess., c. 14, s. 62; c. 24, s. 14(c).)

OPINIONS OF ATTORNEY GENERAL

This section does not protect any church or other non-governmental organization. See opinion of Attorney General to The Honorable Cary Allred, The North Carolina General Assembly, 2001 N.C. AG LEXIS 14 (6/12/2001).

The statute does not apply to protect local public schools. See opinion of Attorney General to The Honorable Cary Allred, The North Carolina General Assembly, 2001 N.C. AG LEXIS 14 (6/12/2001).

§ 143-154. Expenditures for departments and institutions; accounting and warrants.

All expenditures of any character allowed by the General Assembly in making appropriations and not covered in the appropriations named shall be charged against the department or institution for which the expense is incurred, and the warrant shall be made to show clearly for what purpose the expenditure is made. The warrant shall be charged against the department or institution, thereby showing the total amount expended for the maintenance and expenses of such department or institution. (1917, c. 289; C.S., s. 7528; 1983, c. 913, s. 35.)

§ 143-155: Repealed by Session Laws 1983, c. 913, s. 36.

§ 143-156. Certain institutions to report to Governor and General Assembly.

It shall be the duty of the boards of directors, managers, or trustees of the several State institutions for the insane, or the several institutions for the deaf, dumb, and blind, and of the State Prison to submit their respective reports to the Governor, to be transmitted by him with his message to the General Assembly. (1883, c. 60, ss. 2, 4; Rev., s. 5373; C.S., s. 7530.)

§ 143-157. Reports of departments and institutions; investigations and audits.

All State departments and State institutions shall make reports to the Governor from time to time as may be required by him, and the Governor is empowered to have all departments of the State government and State institutions examined and audited from time to time, and shall employ such experts to make audits and examinations and to analyze the reports of such institutions and departments as he may deem to be necessary. (1917, c. 58, s. 7; C.S., s. 7531.)

§ 143-157.1. Reports on gender-proportionate appointments to statutorily created decision-making regulatory bodies.

(a) In appointing members to any statutorily created decision-making or regulatory board, commission, council, or committee of the State, the appointing authority should select, from among the most qualified persons, those persons whose appointment would promote membership on the board, commission, council, or committee that accurately reflects the proportion that each gender represents in the population of the State as a whole or, in the case of a local board, commission, council, or committee, in the population of the area represented by the board, commission, council, or committee, as determined pursuant to the most recent federal decennial census, unless the law regulating such appointment requires otherwise. If there are multiple appointing authorities for the board, commission, council, or committee, they may consult with each other to accomplish the purposes of this section.

(b) Except as provided at the end of this section, each appointing authority described in subsection (a) shall submit a report to the Secretary of State annually by December 1 which discloses the number of appointments made during the preceding year from each gender and the number of appointments of each gender made, expressed both in numerical terms and as a percentage of the total membership of the board, commission, council, or committee. A copy of the report shall be submitted to the Governor, the Speaker of the House of Representatives, and the President Pro Tempore of the Senate. In addition, each appointing authority shall designate a person responsible for retaining all applications for appointment, who shall ensure that information describing each applicant's gender and qualifications is available for public inspection during reasonable hours. Nothing in this section requires disclosure of an applicant's identity or of any other information made confidential by law. In those cases where a county or a city is the appointing authority, all the reports referred to above shall be filed with the clerk to the board of county commissioners or the city clerk whichever is applicable. Such reports shall be reported annually by December 1 to the governing boards of the respective county or city and to the Secretary of State. (1999, c. 457, s. 1(b), (c).)

Editor's Note. — Session Laws 1999-457, s. 1(b), and (c), were codified as this section at the direction of the Revisor of Statutes.

Session Laws 1999-457, s. 1.(a) provides that it is the intent of the General Assembly to recognize the importance of balance in the appointment of both genders to membership on statutorily created decision-making and regulatory boards, commissions, councils, and committees, and to promote that balance through the provisions of this section and further that the General Assembly recognizes that statutorily created decision-making and regulatory boards, commissions, councils, and committees play a vital role in shaping public policy for North Carolina, and the selection of well-qualified candidates is the paramount obligation of the appointing authority. Section 1.(e) provides that while gender equity is its purpose, the act does not direct, mandate or require such.

Session Laws 1999-457, s. 1.(d) provides: "This act applies to appointments and reappointments made after the effective date of this act [August 13, 1999]. Nothing in this act shall be construed to require an appointing authority to make an appointment or remove an appointee on the basis of gender."

§ 143-158. Special investigations.

At any time, upon complaint made to him or upon his own motion, the Governor may appoint a special commission to investigate any State department or State institution, which commission shall have power to subpoena witnesses, require the production of books and papers, and to do all things necessary to a full and thorough investigation, and shall submit its findings to the Governor. The members of such special commission shall, while engaged in the performance of their duties, receive their actual expenses and a per diem of four dollars ($4.00). (1917, c. 58, s. 8; C.S., s. 7532.)

§ 143-159. Governor given authority to direct investigation.

The Governor is hereby authorized and empowered to call upon and direct the Attorney General to investigate the management of or condition within any department, agency, bureau, division or institution of the State, or any other matters pertaining to the administration of the Executive Department, when the Governor shall determine that such an investigation shall be necessary. (1927, c. 234, s. 1.)

§ 143-160. Conduct of investigation.

Whenever called upon and requested by the Governor as set out in G.S. 143-159, the Attorney General shall conduct such investigation at such reasonable time and place as may be determined by him. He shall have power to issue subpoenas, administer oaths, compel the attendance of witnesses and the production of papers necessary and material in such investigation. All subpoenas issued by him shall be served by the sheriff or other officer of any county to which they may be directed. Parties interested in such investigation may appear at the hearing and be represented by counsel, who shall have the right to examine or cross-examine witnesses.

All persons subpoenaed to attend any hearing before the Attorney General shall, for a failure so to attend and testify, be subject to the same penalties as prescribed by law for such failure in the superior court. (1927, c. 234, s. 2.)

§ 143-161. Stenographic record of proceedings.

A stenographic record of the proceedings had in such investigation shall be taken and copy thereof forwarded by the Attorney General to the Governor with his report. (1927, c. 234, s. 3.)

§ 143-162: Repealed by Session Laws 1955, c. 984.

§ 143-162.1. First menu operator access.

(a) The General Assembly finds that:

(1) Some telephone systems operated by State government agencies require callers to proceed through several menus to finally reach an individual extension, an arrangement that can be intimidating to the caller;

(2) Many State telephone systems also make it difficult to reach an attendant or operator at the agency; and

(3) While automated telephone systems and voice mail are intended to improve the efficiency of government, the first duty of government is to serve the people, and efficiency should not impede the average citizen in attempting to contact a State agency for service or information.

(b) State agency telephone systems routing calls to multiple extensions shall be reprogrammed by September 1, 1997, to minimize the number of menus that a caller must go through to reach the desired extension, and to allow the caller to reach an attendant or operator after accessing not more than two menus from the first menu when calling during normal business hours. As used in this section, the term "menu" refers to the first point in the call at which the caller is asked to choose from two or more options, regardless of whether that choice is referred to as a menu, router, or other term within the telephone industry itself.

This act shall be implemented by State agencies with existing personnel at no additional cost to the State.

(c) All State agencies shall include the agency's telephone number or numbers in a prominent place on all agency letterhead.

(d) The provisions of subsection (b) of this section shall not apply to any "511" traveler information system operated by the Department of Transportation. (1997-351, ss. 1, 2; 1999-429, ss. 1, 2; 2003-184, s. 4.)

Editor's Note. — Session Laws 1997-351, s. 1 and s. 2, enacted as uncodified sections, have been codified as this section at the direction of the Revisor of Statutes.

Session Laws 1999-429, s. 2, has been codified as subsection (c) at the direction of the Revisor of Statutes.

Effect of Amendments. — Session Laws 2003-184, s. 4, effective June 12, 2003, added subsection (d).

§ 143-162.2. Use of public property by production companies.

If a State agency makes real property available to a production company for a production, it shall not charge any fee other than reimbursement of actual costs incurred and actual revenues lost by the agency. As used in this section, the term "production company" has the meaning provided in G.S. 105-164.3. This section does not require a State agency to make real property available to a production company for a production. (2000-153, s. 3.)

Article 11.

Revenue Bonds and Governmental Aid.

§ 143-163. State agencies may issue bonds to finance certain public undertakings.

The several departments, institutions, agencies and commissions of the State of North Carolina, acting at the suggestion of the Governor of North Carolina, with the approval of the Council of State, are hereby authorized to issue bonds of the several departments, agencies or commissions of the State, in such sum or sums, not to exceed in the aggregate two million dollars ($2,000,000), at such time or times, in such denominations as may be determined, and at such rate of interest as may be most advantageous to the several departments, institutions, agencies and commissions of the State, the said bonds to run for a period not exceeding 30 years from date, which bonds may be sold and delivered as other like bonds of the State of North Carolina: Provided, however, that the credit of the State of North Carolina, or any of its departments, institutions, agencies or commissions, shall not be pledged further in the payment of such bonds, except with respect to the rentals, profits and proceeds received in connection with the undertaking, for which said bonds are issued, and said bonds and interest so issued shall be payable solely out of the receipts from the undertaking for which they were issued, without further obligation on the part of the State of North Carolina, or any of its departments, institutions, agencies or commissions, provided that no State department or institution issuing any of said bonds shall be allowed to pledge any of its appropriations received from the State as security for these bonds; provided, further, that no State department, institution, agency or commission of the State shall make application for or issue any bonds, as provided in this section, after June 1, 1941. (1935, c. 479, s. 1; Ex. Sess. 1936, c. 2, s. 1; 1937, c. 323; 1939, c. 391.)

§ 143-164. Acceptance of federal loans and grants permitted.

The State of North Carolina, and its several departments, institutions, agencies and commissions, are hereby authorized to accept and receive loans, grants, and other assistance from the United States government, departments and/or agencies thereof, for its use, and to receive like financial and other aid from other agencies in carrying out any undertaking which has been authorized by the Governor of North Carolina, with the approval of the Council of State. (1935, c. 479, s. 2.)

§ 143-165. Approval by Governor and Council of State necessary; covenants in resolutions authorizing bonds.

The several departments, institutions, agencies and commissions of the State of North Carolina, before issuing any revenue bonds as herein provided for any undertaking, shall first receive the approval of the undertaking from the Governor of North Carolina, which action shall be approved by the Council of State before such undertaking shall be entered into and revenue bonds issued in payment therefor in whole or in part.

Any resolution or resolutions heretofore or hereafter adopted authorizing the issuance of bonds under this Article may contain covenants which shall

have the force of contract so long as any of said bonds and interest thereon remain outstanding and unpaid as to

(1) The use and disposition of revenue of the undertaking for which the said bonds are to be issued,

(2) The pledging of all the gross receipts or any part thereof derived from the operation of the undertaking to the payment of the principal and interest of said bonds including reserves therefor,

(3) The operation and maintenance of such undertaking,

(4) The insurance to be carried thereon and the use and disposition of the insurance moneys,

(5) The fixing and collection of rates, fees and charges for the services, facilities and commodities furnished by such undertaking sufficient to pay said bonds and interest as the same shall become due, and for the creation and maintenance of reasonable reserve therefor,

(6) Provisions that the undertaking shall not be conveyed, leased or mortgaged so long as any of the bonds and interest thereon remain outstanding and unpaid.

Provided, however, that the credit of the State of North Carolina or any of its departments, institutions, agencies or commissions shall not be pledged to the payment of such bonds except with respect to the rentals, profits and proceeds received in connection with the undertaking for which the said bonds are issued, and that none of the appropriations received from the State shall be pledged as security for said bonds. (1935, c. 479, s. 3; Ex. Sess. 1936, c. 2, s. 2.)

Article 12.

Law-Enforcement Officers' Retirement System.

§§ 143-166 through 143-166.04: Repealed by Session Laws 1985, c. 479, s. 196(t).

Cross References. — As to the Law-Enforcement Officers', Firemen's, Rescue Squad Workers' and Civil Air Patrol Members' Death Benefits Act, see G.S. 143-166.1 et seq. As to retirement benefits for local governmental law-enforcement officers, see now G.S. 143-166.50. As to separate insurance benefits plan for state and local governmental law-enforcement officers, see now G.S. 143-166.60. As to transfers of assets of Law-Enforcement Officers' Retirement System to other retirement systems, see G.S. 143-166.70.

Editor's Note. — Session Laws 1971, c. 837, contained provisions as to the transfer of wildlife protectors from the Teachers' and State Employees' Retirement System to the Law-Enforcement Officers' Benefit and Retirement Fund.

Session Laws 1973, c. 572, as amended by Session Laws 1973, c. 874, contained provisions as to the transfer of law-enforcement officers who were members of the Teachers' and State Employees' Retirement System or the Local Governmental Employees' Retirement System to the Law-Enforcement Officers' Benefit and Retirement Fund.

Section 8 of Session Laws 1985, c. 751, which amended repealed G.S. 143-166, provided: "In order to fund the provisions of this act, the Board of Trustees of the Local Governmental Employees' Retirement System, and Law Enforcement Officers' Retirement System with the advice of its consulting actuary, shall apply any unencumbered actuarial gain remaining after application of actuarial gains to any cost-of-living increase granted to retired members effective July 1, 1985, and shall adjust the normal contribution rate of employers, without increase in the total employers' contribution rates and without changes in the amortization periods for liquidation of unfunded accrued liabilities of employers participating in the Retirement System."

Article 12A.

Law-Enforcement Officers', Firemen's, Rescue Squad Workers' and Civil Air Patrol Members' Death Benefits Act.

§ 143-166.1. Purpose.

In consideration of hazardous public service rendered to the people of this State, there is hereby provided a system of benefits for dependents of law-enforcement officers, firemen, rescue squad workers and senior Civil Air Patrol members killed in the discharge of their official duties. (1959, c. 1323, s. 1; 1965, c. 937; 1973, c. 634, s. 2; 1975, c. 284, s. 6; 1977, c. 797; 1983, c. 761, s. 236.)

CASE NOTES

Cited in State v. Gaines, 332 N.C. 461, 421 S.E.2d 569 (1992), cert. denied, 522 U.S. 900, 118 S. Ct. 248, 139 L. Ed. 2d 177 (1997).

§ 143-166.2. Definitions.

(a) The term "dependent child" shall mean any unmarried child of the deceased officer, fireman, rescue squad worker or senior member of the Civil Air Patrol whether natural, adopted, posthumously born or whether an illegitimate child as entitled to inherit under the Intestate Succession Act, who is under 18 years of age and dependent upon and receiving his chief support from said officer or fireman or rescue squad worker or senior member of the Civil Air Patrol at the time of his death; provided, however, that if a dependent child is entitled to receive benefits at the time of the officer's or fireman's or rescue squad worker's or senior Civil Air Patrol member's death as hereinafter provided, he shall continue to be eligible to receive such benefits regardless of his age thereafter; and further provided that any child over 18 years of age who is physically or mentally incapable of earning a living and any child over 18 years of age who was enrolled as a full-time student at the time of the officer's, the fireman's, the rescue squad worker's or the senior Civil Air Patrol member's death shall so long as he remains a full-time student as defined in the Social Security Act be regarded as a dependent child and eligible to receive benefits under the provisions of this Article.

(b) The term "dependent parent" shall mean the parent of the deceased officer, fireman, rescue squad worker or senior member of the Civil Air Patrol, whether natural or adoptive, who was dependent upon and receiving his total and entire support from the officer, fireman, rescue squad worker or senior member of the Civil Air Patrol at the time of the injury which resulted in his death.

(c) The term "killed in the line of duty" shall apply to any law-enforcement officer, fireman, rescue squad worker who is killed or dies as a result of bodily injuries sustained or of extreme exercise or extreme activity experienced in the course and scope of his official duties while in the discharge of his official duty or duties. When applied to a senior member of the Civil Air Patrol as defined in this Article, 'killed in the line of duty' shall mean any such senior member of the North Carolina Wing-Civil Air Patrol who is killed or dies as a result of bodily injuries sustained or of extreme exercise or extreme activity experienced in the course and scope of his official duties while engaged in a State requested and approved mission pursuant to Article 11 of Chapter 143B of the General Statutes. For purposes of this Article, when a fireman dies as the direct and

proximate result of a myocardial infarction suffered while on duty or within 24 hours after participating in a training exercise or responding to an emergency situation, the fireman is presumed to have been killed in the line of duty.

(d) The term "law-enforcement officer," "officer," or "fireman" shall mean all law-enforcement officers employed full time by the State of North Carolina or any county or municipality thereof and all full-time custodial employees of the North Carolina Department of Correction and all full-time institutional and detention employees of the Department of Juvenile Justice and Delinquency Prevention. The term "firemen" shall mean both "eligible fireman"; or "fireman" as defined in G.S. 58-86-25 and all full-time, permanent part-time and temporary employees of the North Carolina Division of Forest Resources, Department of Environment and Natural Resources, during the time they are actively engaged in fire-fighting activities; and shall mean all full-time employees of the North Carolina Department of Insurance during the time they are actively engaged in fire-fighting activities, during the time they are training fire fighters or rescue squad workers, and during the time they are engaged in activities as members of the State Emergency Response Team, when the Team has been activated. The term "rescue squad worker" shall mean a person who is dedicated to the purpose of alleviating human suffering and assisting anyone who is in difficulty or who is injured or becomes suddenly ill by providing the proper and efficient care or emergency medical services. In addition, this person must belong to an organized rescue squad which is eligible for membership in the North Carolina Association of Rescue Squads, Inc., and the person must have attended a minimum of 36 hours of training and meetings in the last calendar year. Each rescue squad belonging to the North Carolina Association of Rescue Squads, Inc., must file a roster of those members meeting the above requirements with the State Treasurer on or about January 1 of each year, and this roster must be certified to by the secretary of said association. In addition, the term "rescue squad worker" shall mean a member of an ambulance service certified by the Department of Health and Human Services pursuant to Article 7 of Chapter 131E of the General Statutes. The Department of Health and Human Services shall furnish a list of ambulance service members to the State Treasurer on or about January 1 of each year. The term "Civil Air Patrol members" shall mean those senior members of the North Carolina Wing-Civil Air Patrol 18 years of age or older and currently certified pursuant to G.S. 143B-491(a). The term "fireman" shall also mean county fire marshals when engaged in the performance of their county duties. The term "rescue squad worker" shall also mean county emergency services coordinators when engaged in the performance of their county duties.

(e) The term "spouse" shall mean the wife or husband of the deceased officer, fireman, rescue squad worker or senior Civil Air Patrol member who survives him and who was residing with such officer, fireman, rescue squad worker, or senior Civil Air Patrol member at the time of and during the six months next preceding the date of injury to such officer, fireman, rescue squad worker or senior Civil Air Patrol member which resulted in his death and who also resided with such officer, fireman, rescue squad worker or senior Civil Air Patrol member from that date of injury up to and at the time of his death and who remains unmarried during the time benefits are forthcoming; provided, however, the part of this section requiring the spouse to have been residing with the deceased officer, fireman, rescue squad worker or senior Civil Air Patrol member for six months next preceding the date of the injury which resulted in his death shall not apply where marriage occurred during this six-month period or where the officer, fireman, rescue squad worker or senior Civil Air Patrol member was absent during this six-month period due to service in the armed forces of this country.

(f) The term "official duties" means those duties performed while en route to, engaged in, or returning from training, or in the course of responding to, engaged in or returning from a call by the department of which he is a member, or from a call for assistance from any department or such organization within the State of North Carolina or within a service area contiguous to the borders of the State of North Carolina, when served or aided by a department from within the State of North Carolina. While within the State of North Carolina, any eligible person, as defined in this section or in G.S. 58-86-25, who renders service or assistance, of his own volition, at the scene of an emergency, is performing his official duties when:

(1) Reasonably apparent circumstances require prompt decisions and actions to protect persons and property; and

(2) The necessity of immediate action is so reasonably apparent that any delay in acting would seriously worsen the property damage or endanger any person's life. (1959, c. 1323, s. 1; 1965, c. 937; 1969, c. 1025; 1973, c. 634, s. 2; c. 955, ss. 1, 2; 1975, c. 19, s. 49; c. 284, s. 7; 1977, c. 1048; 1979, c. 516, ss. 2, 3; c. 869; 1981, c. 944, s. 1; 1983, c. 761, s. 237; 1987, c. 812; 1987 (Reg. Sess., 1988), c. 1050, s. 1; 1989, c. 727, s. 218(97); 1989 (Reg. Sess., 1990), c. 1024, s. 32; 1991 (Reg. Sess., 1992), c. 833, s. 5; 1997-443, ss. 11A.118(a), 11A.119(a); 2000-137, s. 4(y); 2003-284, s. 30.18A(b).)

Editor's Note. — Session Laws 2003-284, s. 1.2, provides: "This act shall be known as the 'Current Operations and Capital Improvements Appropriations Act of 2003'."

Session Laws 2003-284, s. 49.5 is a severability clause.

Effect of Amendments. — Session Laws 2003-284, s. 30.18A.(b), effective July 1, 2003, added the last sentence in subsection (c).

CASE NOTES

Cited in Rosero v. Blake, 357 N.C. 193, 581 S.E.2d 41, 2003 N.C. LEXIS 605 (2003).

§ 143-166.3. Payments; determination.

(a) When any law-enforcement officer, fireman, rescue squad worker or senior Civil Air Patrol member shall be killed in the line of duty, the Industrial Commission shall award a death benefit to be paid in the amounts set forth in subsection (b) to the following:

(1) The spouse of such officer, fireman, rescue squad worker or senior Civil Air Patrol member if there be a surviving spouse; or

(2) If there be no spouse qualifying under the provisions of this Article, then payments shall be made to any surviving dependent child of such officer, fireman, rescue squad worker or senior Civil Air Patrol member and if there be more than one surviving dependent child, then said payment shall be made to and equally divided among all surviving dependent children; or

(3) If there be no spouse and no dependent child or children qualifying under the provisions of this Article, then payments shall be made to the surviving dependent parent of such officer, fireman, rescue squad worker or senior Civil Air Patrol member and if there be more than one surviving dependent parent then said payments shall be made to and equally divided between the surviving dependent parents of said officer, fireman, rescue squad worker or senior Civil Air Patrol member.

(b) Payment shall be made to the person or persons qualifying therefor under subsection (a) in the following amounts:

(1) At the time of the death of an officer, fireman, rescue squad worker or senior Civil Air Patrol member, twenty thousand dollars ($20,000) shall be paid to the person or persons entitled thereto.

(2) Thereafter, ten thousand dollars ($10,000) shall be paid annually to the person or persons entitled thereto until the sum of the initial payment and each annual payment reaches fifty thousand dollars ($50,000).

(3) In the event there is no person qualifying under subsection (a) of this section, fifty thousand dollars ($50,000) shall be paid to the estate of the deceased officer, fireman, rescue squad worker or senior Civil Air Patrol member at the time of death.

(c) In the event that any person or persons eligible for payments under subsection (a) of this section shall become ineligible, and other eligible person or persons qualify for said death benefit payments under subsection (a), then they shall receive the remainder of any payments up to the limit of fifty thousand dollars ($50,000) in the manner set forth in subsection (b) of this section.

(d) In the event any person or persons eligible for payments under subsection (a) of this section shall become ineligible and no other person or persons qualify for payments under that subsection and where the sum of the initial payment of twenty thousand dollars ($20,000) and each subsequent annual payment of ten thousand dollars ($10,000) does not total fifty thousand dollars ($50,000), then the difference between the total of the payments made and fifty thousand dollars ($50,000) shall immediately be payable to the estate of the deceased officer, fireman, rescue squad worker, or senior Civil Air Patrol member. (1959, c. 1323, s. 1; 1965, c. 937; 1971, c. 960; 1973, c. 634, s. 2; 1975, c. 284, s. 8; 2003-284, s. 30.18A(a).)

Editor's Note. — Session Laws 2003-284, s. 1.2, provides: "This act shall be known as the 'Current Operations and Capital Improvements Appropriations Act of 2003'."

Session Laws 2003-284, s. 49.5 is a severability clause.

Effect of Amendments. — Session Laws 2003-284, s. 30.18A.(a), effective July 1, 2003, in subdivision (b)(1), substituted "twenty thousand dollars ($20,000)" for "ten thousand dollars ($10,000)"; in subdivision (b)(2), substituted "ten thousand dollars ($10,000)" for "five thousand dollars ($5,000)," and substituted "fifty thousand dollars ($50,000)" for "twenty-five thousand dollars ($25,000)"; in subdivision (b)(3), substituted "fifty thousand dollars ($50,000)" for "twenty-five thousand dollars ($25,000)"; in subsection (c), substituted "fifty thousand dollars ($50,000)" for "twenty-five thousand dollars ($25,000)"; and in subsection (d), substituted "twenty thousand dollars ($20,000)" for "ten thousand dollars ($10,000)," substituted "ten thousand dollars ($10,000)" for "five thousand dollars ($5,000)," and substituted "fifty thousand dollars ($50,000)" twice for "twenty-five thousand dollars ($25,000)."

§ 143-166.4. Funds; conclusiveness of award.

Such award of benefits as is provided for by this Article shall be paid from the Contingency and Emergency Fund and such amounts as may be required to pay benefits provided for by this Article are hereby appropriated from said fund for this special purpose.

The Industrial Commission shall have power to make necessary rules and regulations for the administration of the provisions of this Article. It shall be vested with power to make all determinations necessary for the administration of this Article and all of its decisions and determinations shall be final and conclusive and not subject to review or reversal except by the Industrial Commission itself. The Industrial Commission shall keep a record of all proceedings conducted under this Article and shall have the right to subpoena any persons and records which it may deem necessary in making its determi-

nations, and the Industrial Commission shall further have the power to require all persons called as witnesses to testify under oath or affirmation, and any member of the Industrial Commission may administer oaths. If any person shall refuse to comply with any subpoena issued hereunder or to testify with respect to any matter relevant to proceedings conducted under this Article, the Superior Court of Wake County, on application of the Industrial Commission, may issue an order requiring such person to comply with the subpoena and to testify; and any failure to obey any such order of the court may be punished by the court as for contempt. (1959, c. 1323, s. 1; 1965, c. 937.)

CASE NOTES

Commission's Decisions Under This Article Are Conclusive and Not Appealable. — This section governs the administration of claims under this Article; by its specific terms, decisions by the Industrial Commission are final and conclusive and appeal from such decisions is proscribed. In re Vandiford, 56 N.C. App. 224, 287 S.E.2d 912 (1982).

Appellate Review Under Workers' Compensation Act Not Applicable. — This Article is not a part of the North Carolina Workers' Compensation Act, and the methods of appellate review contained in the compensation act are not applicable to the Industrial Commission's function under this Article. In re Vandiford, 56 N.C. App. 224, 287 S.E.2d 912 (1982).

§ 143-166.5. Other benefits not affected.

None of the other benefits now provided for law-enforcement officers, or other persons covered by this Article, or their dependents by the Workers' Compensation Act or other laws shall be affected by the provisions of this Article, and the benefits provided for herein shall not be diminished, abated or otherwise affected by such other provisions of law. (1959, c. 1323, s. 1; 1965, c. 937; 1979, c. 245; c. 714, s. 2.)

CASE NOTES

Cited in Kestler v. Board of Trustees, 48 F.3d 800 (4th Cir. 1995).

§ 143-166.6. Awards exempt from taxes.

Any award made under the provisions of this Article shall be exempt from taxation by the State or any political subdivision. The Industrial Commission shall not be responsible for any determination of the validity of any claims against said awards and shall distribute the death benefit awards directly to the dependent or dependents entitled thereto under the provisions of this Article. (1959, c. 1323, s. 1; 1965, c. 937.)

§ 143-166.7. Applicability of Article.

The provisions of this Article shall apply and be in full force and effect with respect to any law-enforcement officer, fireman, rescue squad worker or senior Civil Air Patrol member killed in the line of duty on or after May 13, 1975. The provisions of this Article shall apply with respect to full-time, permanent part-time and temporary employees of North Carolina Division of Forest Resources, Department of Environment and Natural Resources, killed in line of duty on or after July 1, 1975. The provisions of this Article shall apply to county fire marshals and emergency services coordinators killed in the line of duty on and after July 1, 1988. (1965, c. 937; 1973, c. 634, s. 3; 1975, c. 284, s.

9; 1981, c. 944, s. 2; 1987 (Reg. Sess., 1988), c. 1050, s. 2; 1989, c. 727, s. 218(98); 1997-443, s. 11A.119(a).)

§§ 143-166.8 through 143-166.12: Reserved for future codification purposes.

Article 12B.

Salary Continuation Plan for Certain State Law-Enforcement Officers.

§ 143-166.13. Persons entitled to benefits under Article.

(a) The following persons who are subject to the Criminal Justice Training and Standards Act are entitled to benefits under this Article:

(1) State Government Security Officers, Department of Administration;
(2) State Correctional Officers, Department of Corrections;
(3) State Probation and Parole Officers, Department of Corrections;
(4) Sworn State Law-Enforcement Officers with the power of arrest, Department of Corrections;
(5) Alcohol Law-Enforcement Agents, Department of Crime Control and Public Safety;
(6) State Highway Patrol Officers, Department of Crime Control and Public Safety;
(7) State Legislative Building Special Police, General Assembly;
(8) Sworn State Law-Enforcement Officers with the power of arrest, Department of Health and Human Services;
(9) Juvenile Justice Officers, Department of Juvenile Justice and Delinquency Prevention;
(10) Insurance Investigators, Department of Insurance;
(11) State Bureau of Investigation Officers and Agents, Department of Justice;
(12) Director and Assistant Director, License and Theft Enforcement Section, Division of Motor Vehicles, Department of Transportation;
(13) Members of License and Theft Enforcement Section, Division of Motor Vehicles, Department of Transportation, designated by the Commissioner of Motor Vehicles as either "inspectors" or uniformed weigh station personnel;
(14) Utilities Commission Transportation Inspectors and Special Investigators;
(15) North Carolina Ports Authority Police, Department of Commerce;
(16) Sworn State Law-Enforcement Officers with the power of arrest, Department of Environment and Natural Resources;
(17) Sworn State Law-Enforcement Officers with the power of arrest, Department of Crime Control and Public Safety.
(18) Sworn State Law-Enforcement Officers with the power of arrest, Department of Revenue.
(19) Sworn State Law-Enforcement Officers with the power of arrest, University System.

(b) The following persons are entitled to benefits under this Article regardless of whether they are subject to the Criminal Justice Training and Standards Act:

(1) Driver License Examiners injured by accident arising out of and in the course of giving a road test, Division of Motor Vehicles, Department of Transportation;

(2) Employees of the Department of Correction injured by a direct and deliberate act of an offender supervised by the Department or while performing supervisory duties over offenders which place the employees at risk of such injury. (1979, 2nd Sess., c. 1272, s. 1; 1981, c. 348, s. 1; c. 964, s. 19; 1989, c. 727, s. 218(99), c. 751, s. 7(15); 1991 (Reg. Sess., 1992), c. 959, s. 34; 1996, 2nd Ex. Sess., c. 18, s. 20.7(a); 1997-443, ss. 11A.118(a), 11A.119(a); 1997-503, s. 3; 1998-212, s. 28.25(a); 2001-487, s. 89.)

CASE NOTES

Cited in Vandiford v. North Carolina Dep't of Cor., 97 N.C. App. 640, 389 S.E.2d 408 (1990).

OPINIONS OF ATTORNEY GENERAL

Employee Coverage. — If an employee is in a position which (1) requires certification by the Criminal Justice Education and Training Standards Commission, and (2) is within a category listed in this section as defined by the Commission, the employee is covered by the Plan. Otherwise the employee is not covered. See opinion of Attorney General to Mr. Gerald Hodnett, Personnel Director, Department of Correction, 57 N.C.A.G. 79 (1987).

§ 143-166.14. Payment of salary notwithstanding incapacity; Workers' Compensation Act applicable after two years; duration of payment.

The salary of any of the above listed persons shall be paid as long as his employment in that position continues, notwithstanding his total or partial incapacity to perform any duties to which he may be lawfully assigned, if that incapacity is the result of an injury by accident or an occupational disease arising out of and in the course of the performance by him of his official duties, except if that incapacity continues for more than two years from its inception, the person shall, during the further continuance of that incapacity, be subject to the provisions of Chapter 97 of the General Statutes pertaining to workers' compensation. Salary paid to a person pursuant to this Article shall cease upon the resumption of his regularly assigned duties, retirement, resignation, or death, whichever first occurs, except that temporary return to duty shall not prohibit payment of salary for a subsequent period of incapacity which can be shown to be directly related to the original injury. (1979, 2nd Sess., c. 1272, s. 1.)

CASE NOTES

As long as an individual who is covered by the statute does not come within articulated terms for salary discontinuation, his employment for salary continuation benefit purposes continues. Vandiford v. North Carolina Dep't of Cor., 97 N.C. App. 640, 389 S.E.2d 408, cert. denied, 326 N.C. 805, 393 S.E.2d 907 (1990); 498 U.S. 963, 111 S. Ct. 398, 112 L. Ed. 2d 407 (1991).

Former correctional officer's coverage did not end with expiration of his probationary certificate, and he was eligible to receive salary continuation benefits for the full two-year period from the date of the injury. Vandiford v. North Carolina Dep't of Cor., 97 N.C. App. 640, 389 S.E.2d 408, cert. denied, 326 N.C. 805, 393 S.E.2d 907 (1990); 498 U.S. 963, 111 S. Ct. 398, 112 L. Ed. 2d 407 (1991).

§ 143-166.15. Application of § 97-27; how payments made.

Notwithstanding the provisions of G.S. 143-166.14 of this Article, the persons entitled to benefits shall be subject to the provisions of G.S. 97-27 during the two-year period of payment of full salary. All payments of salary shall be made at the same time and in the same manner as other salaries are paid to other persons in the same department. (1979, 2nd Sess., c. 1272, s. 1.)

§ 143-166.16. Effect on workers' compensation and other benefits; application of § 97-24.

The provisions of G.S. 143-166.14 shall be in lieu of all compensation provided for the first two years of incapacity by G.S. 97-29 and 97-30, but shall be in addition to any other benefits or compensation to which such person shall be entitled under the provisions of the Workers' Compensation Act. The provisions of G.S. 97-24 will commence at the end of the two-year period for which salary is paid pursuant to G.S. 143-166.14. (1979, 2nd Sess., c. 1272, s. 1.)

§ 143-166.17. Period of incapacity not charged against sick leave or other leave.

The period for which the salary of any person is paid pursuant to G.S. 143-166.14 while he is incapacitated as a result of an injury by accident or an occupational disease arising out of and in the course of the performance by him of his official duties, shall not be charged against any sick or other leave to which he shall be entitled under any other provision of law. (1979, 2nd Sess., c. 1272, s. 1.)

§ 143-166.18. Report of incapacity.

Any person designated in G.S. 143-166.13, who, as a result of an injury by accident arising out of and in the course of the performance by him of his official duties, is totally or partially incapacitated to perform any duties to which he may be lawfully assigned, shall report the incapacity as soon as practicable in the manner required by the secretary or other head of the department to which the agency is assigned by statute. (1979, 2nd Sess., c. 1272, s. 1; 1981, c. 348, s. 2.)

§ 143-166.19. Determination of cause and extent of incapacity; hearing before Industrial Commission; appeal; effect of refusal to perform duties.

Upon the filing of the report, the secretary or other head of the department or, in the case of the General Assembly, the Legislative Services Officer, shall determine the cause of the incapacity and to what extent the claimant may be assigned to other than his normal duties. The finding of the secretary or other head of the department shall determine the right of the claimant to benefits under this Article. Notice of the finding shall be filed with the North Carolina Industrial Commission. Unless the claimant, within 30 days after he receives notice, files with the North Carolina Industrial Commission, upon the form it shall require, a request for a hearing, the finding of the secretary or other department head shall be final. Upon the filing of a request, the North Carolina Industrial Commission shall proceed to hear the matter in accordance with its regularly established procedure for hearing claims filed under the Worker's Compensation Act, and shall report its findings to the secretary or other head

of the department. From the decision of the North Carolina Industrial Commission, an appeal shall lie as in other matters heard and determined by the Commission. Any person who refuses to perform any duties to which he may be properly assigned as a result of the finding of the secretary, other head of the department or of the North Carolina Industrial Commission shall be entitled to no benefits pursuant to this Article as long as the refusal continues. (1979, 2nd Sess., c. 1272, s. 1; 1981, c. 348, s. 3.)

CASE NOTES

Attorney's fees. — In a workers' compensation case involving a Department of Corrections officer's claim for salary continuation, the Industrial Commission could in its discretion award reasonable attorney's fees under this section. Ruggery v. North Carolina Dep't of Cors., 135 N.C. App. 270, 520 S.E.2d 77 (1999).

§ 143-166.20. Subrogation.

The same rights and remedies set forth in G.S. 97-10.2 shall apply in all third party liability cases occurring under this Article, including cases involving the right of the affected State agency to recover the salary paid to an injured officer during his period of disability. (1981, c. 348, s. 4.)

§§ 143-166.21 through 143-166.29: Reserved for future codification purposes.

Article 12C.

Retirement Benefits for State Law-Enforcement Officers.

§ 143-166.30. Retirement benefits for State law-enforcement officers.

(a) Definitions. — The following words and phrases as used in this Article, unless a different meaning is plainly required by the context, shall have the following meanings:

(1) "Beneficiary" means any person in receipt of a retirement allowance or other benefit from a Retirement System.

(2) "Creditable service" means membership service plus prior service plus military service allowable with a Retirement System.

(3) "Employer" means the State of North Carolina and its departments, agencies and institutions.

(4) "Law-enforcement officer" means a full-time paid employee of an employer who is actively serving in a position with assigned primary duties and responsibilities for prevention and detection of crime or the general enforcement of the criminal laws of the State or serving civil processes, and who possesses the power of arrest by virtue of an oath administered under the authority of the State.

(5) "Member" means an officer included in the membership of a retirement system including former officers no longer employed who also elected to leave their accumulated contributions on deposit with a Retirement System.

(6) "Officer" means a "law-enforcement officer".

(7) "Participant" means an officer with an individual account with the Supplemental Retirement Income Plan.

(8) "Regular accumulated contributions" means the sum of all contributions of a member made to the Retirement System, together with

regular interest thereon, pursuant to G.S. 143-166 as the same appeared prior to January 1, 1985.

(9) "Retirement allowance" means annual payments for life payable in monthly installments continuing until the death of a beneficiary.

(10) "Law-Enforcement Officers' Retirement System" means the system provided for under G.S. 143-166.

(11) "Special annuity account accumulated contributions" means the sum of all contributions of a member or an employer made to the Special Annuity Accounts for Members of the Law-Enforcement Officers' Retirement System, together with regular interest thereon, pursuant to G.S. 143-166.03 as the same appeared prior to January 1, 1985.

(12) "Special Annuity Accounts" means the supplemental defined contribution provisions of the Law-Enforcement Officers' Retirement System, provided for under G.S. 143-166.03 as the same appeared prior to January 1, 1985.

(13) "State" means the State of North Carolina.

(14) "State Retirement System" means the Teachers' and State Employees' Retirement System of North Carolina provided for under Article 1 of Chapter 135 of the General Statutes.

(15) "Supplemental Retirement Income Plan" means a plan created in conformance with Section 401(a), 401(k), or any other section of the Internal Revenue Code of 1954 as amended.

(b) Basic Retirement System. — On and after January 1, 1985, law-enforcement officers employed by the State shall be members of the Teachers' and State Employees' Retirement System and beneficiaries who were last employed as officers by the State, or who are surviving beneficiaries of officers last employed by the State, shall be beneficiaries of the State Retirement System and paid in benefit amounts then in effect. All members of the Law-Enforcement Officers' Retirement System last employed and paid by the State shall be members of the State Retirement System.

(c) Transfers of Assets and Liabilities to Other Retirement Systems. — As of January 1, 1985, certain assets and liabilities of the Law-Enforcement Officers' Retirement System shall be transferred to the Teachers' and State Employees' Retirement System and the Supplemental Retirement Income Plan in the amounts calculated and in the order of precedence enumerated as follows:

(1) The regular accumulated contributions of members of the Law-Enforcement Officers' Retirement System employed by the State or last employed by the State shall be transferred from the annuity savings fund of the Law-Enforcement Officers' Retirement System to the annuity savings fund of the State Retirement System to the credit of each individual officer.

(2) An amount equal to the present value of the liabilities on account of the retirement allowances payable to beneficiaries last employed as officers by the State and the surviving beneficiaries of officers last employed by the State, as calculated by the Retirement System's consulting actuary, shall be transferred from the pension accumulation fund of the Law-Enforcement Officers' Retirement System to the pension accumulation fund of the State Retirement System.

(3) After the transfers provided for above, additional assets in the pension accumulation fund of the Law-Enforcement Officers' Retirement System shall be transferred to the pension accumulation fund of the State Retirement System, in an amount equal to the ratio of the accrued liabilities on account of members of the Law-Enforcement Officers' Retirement System employed by the State or last employed by the State to the total accrued liabilities on account of all members of the Law-Enforcement Officers' Retirement System.

(4) The special annuity account accumulated contributions shall be transferred from the special annuity savings fund of the Law-Enforcement Officers' Retirement System to the Supplemental Retirement Income Plan pursuant to subsection (d) of this section to the credit of individual officers.

(d) Supplemental Retirement Income Plan for State Law-Enforcement Officers. — As of January 1, 1985, there shall be created a Supplemental Retirement Income Plan, hereinafter called the "Plan", established for the benefit of all law-enforcement officers employed by the State, who shall be participants. The Board of Trustees of the State Retirement System shall administer the Plan and shall, under the terms and conditions otherwise appearing herein, provide Plan benefits either (i) by establishing a separate trust fund in conformance with Section 401(a), Section 401(k) or other sections of the Internal Revenue Code of 1954 as amended or, (ii) by causing the Plan to affiliate with some master trust fund providing the same benefits for participants. The Plan shall be separate and apart from any retirement systems.

In addition to the contributions transferred from the Law-Enforcement Officers' Retirement System and the contributions otherwise provided for in this Article, participants may make voluntary contributions to the Plan to be credited to the designated individual accounts of participants; provided, in no instance shall the total contributions by a participant exceed ten percent (10%) of a participant's compensation within any calendar year.

All contributions to the Plan shall be credited to the individual accounts of participants, and shall be fully and immediately vested in the name of the participant, and shall be invested according to each participant's election, as provided by the Board of Trustees, including but not limited to time deposits, and both fixed and variable investments. The Plan may provide for loans to participants, at reasonable rates of interest to be charged, from participants' individual accounts, and may provide for withdrawal of contributions on account of hardship.

The benefit to a participant in the Plan shall be either a lump-sum distribution or a distribution in periodic installments of the participant's account payable under retirement, disability, or termination of employment. Upon the death of a participant there shall be paid the same lump-sum distribution or periodic installments to the surviving spouse of the participant or otherwise to the participant's estate; provided, should a participant instruct the Board of Trustees in writing that he does not wish these benefits to be paid to his spouse or estate, then the benefits shall be paid to the person or persons as the participant may name for this purpose.

(e) State Contributions to the Supplemental Retirement Income Plan. — Under all other restrictions as are herein provided, the State shall contribute monthly to the individual accounts of participants who are employed by the State an amount equal to five percent (5%) of the compensation of each participant. The contributions so paid shall be in addition to the contributions on account of court cost assessments as hereinafter provided.

Contributions shall be made to the individual accounts of all participants in the Plan on a per capita basis in equal shares, equal to the sum of the one-half dollar ($0.50) for each cost of court assessed and collected under G.S. 7A-304.

(e1) Rights of Participants under the Uniformed Services Employment and Reemployment Rights Act. — A participant whose employment is interrupted by reason of service in the Uniformed Services, as that term is defined in section 4303(16) of the Uniformed Services Employment and Reemployment Rights Act, Public Law 103-353, hereafter referred to as "USERRA", shall be entitled to all rights and benefits that the participant would have been entitled to under this section had the participant's employment not been interrupted,

provided that the participant returns to service as a law enforcement officer while the participant's reemployment rights are protected under the provisions of USERRA.

(f) Administration. — The provisions of the State Retirement System pertaining to administration and management of funds under G.S. 135-6 and 7 are made applicable to the Plan.

(g) Exemption from Garnishment and Attachment. — The right of a participant in the Supplemental Retirement Income Plan to the benefits provided under this Article is nonforfeitable and exempt from levy, sale, and garnishment.

(h) Notwithstanding any other provisions of law, any pending or inchoate rights of a member of the Law-Enforcement Officers' Retirement System as of their transfer to the State Retirement System on January 1, 1985, including the rights to a vested deferred retirement allowance and to commence retirement at certain ages with required years of service as a law-enforcement officer, shall in no way be diminished; provided, however, in no event may a member commence retirement and continue membership service with the same Retirement System. (1983 (Reg. Sess., 1984), c. 1034, s. 248; 1985, c. 479, s. 196(s); 1989, c. 792, s. 2.7; 1995, c. 361, s. 5.)

Editor's Note. — Section 143-166, referred to in subdivision (a)(8) and (a)(10) of this section, was repealed by Session Laws 1985, c. 479, s. 196(t).

Section 143-166.03, referred to in subdivisions (a)(11) and (a)(12) of this section, was repealed by Session Laws 1985, c. 479, s. 196(t).

CASE NOTES

Cited in Braswell v. Ellis, 950 F. Supp. 145 (E.D.N.C. 1995); Carter v. Good, 951 F. Supp. 1235 (W.D.N.C. 1996).

§§ 143-166.31 through 143-166.39: Reserved for future codification purposes.

ARTICLE 12D.

Separation Allowances for Law-Enforcement Officers.

§ 143-166.40. Rules for selection and retention of law-enforcement officers; rules exempt from Administrative Procedure Act.

(a) Except as otherwise provided by State and federal law, the head of each principal State department may establish rules and procedures for the selection and retention of sworn law-enforcement officers to ensure that they are physically, emotionally, and intellectually qualified to perform their duties. These rules and procedures shall not establish any mandatory age limit for service as a law-enforcement officer that conflicts with a federal statute.

(b) These rules and procedures are exempt from the provisions of Chapter 150B of the General Statutes. (1983 (Reg. Sess., 1984), c. 1034, s. 104; 1987, c. 827, s. 1.)

§ 143-166.41. Special separation allowance.

(a) Notwithstanding any other provision of law, every sworn law-enforcement officer as defined by G.S. 135-1(11b) or G.S. 143-166.30(a)(4) employed by

a State department, agency, or institution who qualifies under this section shall receive, beginning on the last day of the month in which he retires on a basic service retirement under the provisions of G.S. 135-5(a) or G.S. 143-166(y), an annual separation allowance equal to eighty-five hundredths percent (0.85%) of the annual equivalent of the base rate of compensation most recently applicable to him for each year of creditable service. The allowance shall be paid in 12 equal installments on the last day of each month. To qualify for the allowance the officer shall:

(1) Have (i) completed 30 or more years of creditable service or, (ii) have attained 55 years of age and completed five or more years of creditable service; and

(2) Not have attained 62 years of age; and

(3) Have completed at least five years of continuous service as a law enforcement officer as herein defined immediately preceding a service retirement. Any break in the continuous service required by this subsection because of disability retirement or disability salary continuation benefits shall not adversely affect an officer's qualification to receive the allowance, provided the officer returns to service within 45 days after the disability benefits cease and is otherwise qualified to receive the allowance.

(b) As used in this section, "creditable service" means the service for which credit is allowed under the retirement system of which the officer is a member, provided that at least fifty percent (50%) of the service is as a law enforcement officer as herein defined.

(c) Payment to a retired officer under the provisions of this section shall cease at the first of:

(1) The death of the officer;

(2) The last day of the month in which the officer attains 62 years of age; or

(3) The first day of reemployment by any State department, agency, or institution, except that this subdivision does not apply to an officer returning to State employment in a position exempt from the State Personnel Act in an agency other than the agency from which that officer retired.

(d) This section does not affect the benefits to which an individual may be entitled from State, federal, or private retirement systems. The benefits payable under this section shall not be subject to any increases in salary or retirement allowances that may be authorized by the General Assembly for employees of the State or retired employees of the State.

(e) The head of each State department, agency, or institution shall determine the eligibility of employees for the benefits provided herein.

(f) The Director of the Budget may authorize from time to time the transfer of funds within the budgets of each State department, agency, or institution necessary to carry out the purposes of this Article. These funds shall be taken from those appropriated to the department, agency, or institution for salaries and related fringe benefits.

(g) The head of each State department, agency, or institution shall make the payments set forth in subsection (a) to those persons certified under subsection (e) from funds available under subsection (f). (1983 (Reg. Sess., 1984), c. 1034, s. 104; 1985, c. 479, s. 143; 1985 (Reg. Sess., 1986), c. 1014, ss. 51, 52; 2002-126, s. 28.14.)

Editor's Note. — Section 143-166, referred to in subsection (a) of this section, was repealed by Session Laws 1985, c. 479, s. 196(t), effective January 1, 1986. See now G.S. 143-166.50, 143-166.60.

Session Laws 2002-126, s. 1.2, provides:

"This act shall be known as 'The Current Operations, Capitol Improvements, and Finance Act of 2002'."

Session Laws 2002-126, s. 31.6 is a severability clause.

Effect of Amendments. — Session Laws 2002-126, s. 28.14, effective July 1, 2002, rewrote subsection (c).

CASE NOTES

Amount of Separation Allowance Mandatory. — This statute permits local governments to determine eligibility and requires them to make payments, but it does not authorize local governments to determine the amount of the separation allowance differently from the mandate of subsection (a). Bowers v. City of High Point, 339 N.C. 413, 451 S.E.2d 284 (1994).

Eligibility. — Since the initial eligibility requirement for a separation allowance under G.S. 143-166.41 was that police officers retire on a service retirement, police officer was not eligible because he retired on a disability retirement. Cochrane v. City of Charlotte, 148 N.C. App. 621, 559 S.E.2d 260, 2002 N.C. App. LEXIS 45 (2002), cert. denied, 356 N.C. 160, 568 S.E.2d 189 (2002).

Police officer who retired on disability retirement was not eligible for a special separation allowance because he did not retire on a service retirement and was, therefore, not among the class of persons statutorily eligible for a special separation allowance. Cochrane v. City of Charlotte, 148 N.C. App. 621, 559 S.E.2d 260, 2002 N.C. App. LEXIS 45 (2002), cert. denied, 356 N.C. 160, 568 S.E.2d 189 (2002).

Creditable Service. — When a police officer retired on disability retirement, his time spent on disability retirement could not be considered "creditable service" for purposes of determining eligibility for a special separation allowance. Cochrane v. City of Charlotte, 148 N.C. App. 621, 559 S.E.2d 260, 2002 N.C. App. LEXIS 45 (2002), cert. denied, 356 N.C. 160, 568 S.E.2d 189 (2002).

"Base rate of compensation" refers to that portion of compensation which is relatively stable and forms the foundation or groundwork of the employee's entire compensation scheme; this would generally be the minimum amount of compensation to which the employee is entitled in any given pay period relatively independent of factors other than the employment relationship itself. Bowers v. City of High Point, 339 N.C. 413, 451 S.E.2d 284 (1994).

In this section "base rate of compensation" has a definite meaning not subject to alteration by local governments and does not include overtime pay, longevity pay, or pay for unused accrued vacation. Bowers v. City of High Point, 339 N.C. 413, 451 S.E.2d 284 (1994).

Authority of Municipalities. — This section and G.S. 143-166.42 do not authorize municipalities to make separation allowances based on overtime pay, longevity pay, and accrued vacation. Bowers v. City of High Point, 339 N.C. 413, 451 S.E.2d 284 (1994).

§ 143-166.42. Special separation allowances for local officers.

On and after January 1, 1987, the provisions of G.S. 143-166.41 shall apply to all eligible law-enforcement officers as defined by G.S. 128-21(11b) or G.S. 143-166.50(a)(3) who are employed by local government employers, except as may be provided by this section. As to the applicability of the provisions of G.S. 143-166.41 to locally employed officers, the governing body for each unit of local government shall be responsible for making determinations of eligibility for their local officers retired under the provisions of G.S. 128-27(a) and for making payments to their eligible officers under the same terms and conditions, other than the source of payment, as apply to each State department, agency, or institution in payments to State officers according to the provisions of G.S. 143-166.41. (1985 (Reg. Sess., 1986), c. 1019, s. 2.)

CASE NOTES

Authority of Municipalities. — Section 143-166.41 and this section do not authorize municipalities to make separation allowances based on overtime pay, longevity pay, and accrued vacation. Bowers v. City of High Point, 339 N.C. 413, 451 S.E.2d 284 (1994).

OPINIONS OF ATTORNEY GENERAL

"Creditable service," for purposes of determining a local law enforcement officer's eligibility for the special separation allowance benefit and for calculating the amount of that benefit, is service for which credit is allowed under either retirement system of which the officer is a member. See opinion of Attorney General to Claire McNaught, Public Safety Attorney, City of Winston-Salem, 56 N.C.A.G. 40 (1986).

A local law enforcement officer's eligibility for the special separation allowance benefit is in all instances determined by the officer's local government employer. See opinion of Attorney General to Claire McNaught, Public Safety Attorney, City of Winston-Salem, 56 N.C.A.G. 40 (1986).

§§ 143-166.43 through 143-166.49: Reserved for future codification purposes.

Article 12E.

Retirement Benefits for Local Governmental Law-Enforcement Officers.

§ 143-166.50. Retirement benefits for local governmental law-enforcement officers.

(a) Definitions. — The following words and phrases as used in this Article, unless a different meaning is plainly required by the context, have the following meaning:

(1) "Beneficiary" means any person in receipt of a retirement allowance or other benefit from a Retirement System.

(2) "Employer" means a county, city, town or other political subdivision of the State.

(3) "Law-enforcement officer" means a full-time paid employee of an employer, who possesses the power of arrest, who has taken the law enforcement oath administered under the authority of the State as prescribed by G.S. 11-11, and who is certified as a law enforcement officer under the provisions of Chapter 17C of the General Statutes or certified as a deputy sheriff under the provisions of Chapter 17E of the General Statutes. "Law enforcement officer" also means the sheriff of the county. The number of paid personnel employed as law enforcement officers by a law enforcement agency may not exceed the number of law enforcement positions approved by the applicable local governing board.

(4) "Law-Enforcement Officers' Retirement System" means the system provided for under Article 12 of Chapter 143 of the General Statutes, as it existed prior to January 1, 1986.

(5) "Local Governmental Employees' Retirement System" means the Local Governmental Employees' Retirement System of North Carolina provided for under Article 3 of Chapter 128 of the General Statutes.

(6) "Member" means an officer included in the membership of a retirement system, including former officers no longer employed who also elected to leave their accumulated contributions on deposit with a Retirement System.

(7) "Officer" means a "law-enforcement officer."

(8) "State" means the State of North Carolina.

(b) Basic Retirement System. — On and after January 1, 1986, law-enforcement officers employed by an employer shall be members of the Local Government Employees' Retirement System, and beneficiaries who were last

employed as officers by an employer, or who are surviving beneficiaries of officers last employed by an employer, are beneficiaries of the Local Governmental Employees' Retirement System and paid in benefit amounts then in effect. All members of the Law-Enforcement Officers' Retirement System last employed and paid by an employer are members of the Local Retirement System.

(c) Rights. — Notwithstanding any other provisions of law, any accrued or inchoate rights of a member of the Law-Enforcement Officers' Retirement System as of his transfer to the Local Governmental Employees' Retirement System on January 1, 1986, including the rights to a vested deferred retirement allowance and to commence retirement at certain ages with required years of service as a law-enforcement officer, may in no way be diminished; provided, however, in no event may a member commence retirement and continue membership service with the same Retirement System after January 1, 1986.

(d) Court Cost Receipts. — Of the sum derived from the cost of court provided for in G.S. 7A-304(a)(3), the amount designated for this Article, except for the amount designated for the provisions of G.S. 143-166.50(e), shall be paid over to the pension accumulation fund of the Local Governmental Employees' Retirement System and shall offset, to the extent of these receipts, the employers' normal contribution rate required in G.S. 128-30(d)(2) as it pertains to law enforcement officers.

(e) Supplemental Retirement Income Plan for Local Governmental Law-Enforcement Officers. — As of January 1, 1986, all law-enforcement officers employed by a local government employer, are participating members of the Supplemental Retirement Income Plan as provided by Article 5 of Chapter 135 of the General Statutes. In addition to the contributions transferred from the Law-Enforcement Officers' Retirement System, participants may make voluntary contributions to the Supplemental Retirement Income Plan to be credited to the designated individual accounts of participants; provided, in no instance shall the total contributions by a participant exceed ten percent (10%) of a participant's compensation within any calendar year. From July 1, 1987, until July 1, 1988, local government employers of law enforcement officers shall contribute an amount equal to at least two percent (2%) of participating local officers' monthly compensation to the Supplemental Retirement Income Plan to be credited to the designated individual accounts of participating local officers; and on and after July 1, 1988, local government employers of law enforcement officers shall contribute an amount equal to five percent (5%) of participating local officers' monthly compensation to the Supplemental Retirement Income Plan to be credited to the designated individual accounts of participating local officers.

Additional contributions shall also be made to the individual accounts of all participants in the Plan, except for Sheriffs, on a per capita equal-share basis from the sum of one dollar and twenty-five cents ($1.25) for each cost of court collected under G.S. 7A-304.

(e1) Rights of Participants under the Uniformed Services Employment and Reemployment Rights Act. — A participant whose employment is interrupted by reason of service in the Uniformed Services, as that term is defined in section 4303(16) of the Uniformed Services Employment and Reemployment Rights Act, Public Law 103-353, hereafter referred to as "USERRA", shall be entitled to all rights and benefits that the participant would have been entitled to under this section had the participant's employment not been interrupted, provided that the participant returns to service as a law enforcement officer while the participant's reemployment rights are protected under the provisions of USERRA. (1985, c. 479, s. 196(t); c. 729, ss. 6, 7; 1985 (Reg. Sess., 1986), c. 1015, s. 2; c. 1019, s. 1; 1995, c. 361, s. 6; 1997-144, s. 2.)

Local Modification. — Catawba: 1995, c. 306, s. 1; 1995 (Reg. Sess., 1996), c. 693, s. 2; Mecklenburg: 1995, c. 532, s. 1; 1995 (Reg. Sess., 1996), c. 693, s. 1; Eastern Band of the Cherokee: 1987, c. 427, s. 9.

Editor's Note. — Article 12 of Chapter 143, referred to in subdivision (a)(4) of this section, was repealed by Session Laws 1985, c. 479, s. 196(t).

CASE NOTES

This Section Found Controlling. — Because G.S. 128-23(g) is more specific than 143-166.50(b), when there is a conflict, G.S. 128-23(g) controls. Taylor v. City of Lenoir, 129 N.C. App. 174, 497 S.E.2d 715 (1998), appeal dismissed, 140 N.C. App. 337, 536 S.E.2d 848 (2000).

Town, Not Officers, Must Fund Mandatory Contribution. — A town may increase or decrease the salary of its police officers according to its own discretion, as long as the town and not the officers fund the mandatory two percent contribution; where the contribution is funded from the salary increase of the officers, the ordinance providing for same violates this section. Abeyounis v. Town of Wrightsville Beach, 102 N.C. App. 341, 401 S.E.2d 847 (1991).

OPINIONS OF ATTORNEY GENERAL

Funding of Employer's Contribution. — A local government employer may not use a local law enforcement officer's salary increase, or a portion thereof, to fund the employer's mandated contribution to the Supplemental Retirement Income Plan. See opinion of Attorney General to Sheriff John H. Baker, Jr., Wake County Sheriff's Department, 57 N.C.A.G. 24 (1987).

§§ 143-166.51 through 143-166.59: Reserved for future codification purposes.

Article 12F.

Separate Insurance Benefits Plan for State and Local Governmental Law-Enforcement Officers.

§ 143-166.60. Separate insurance benefits plan for law-enforcement officers.

(a) A Separate Insurance Benefits Plan, hereinafter called the "Plan", is to be an employee welfare benefit plan, established for the benefit of (i) all law enforcement officers, as defined in G.S. 135-1(11b) and G.S. 128-21(11b) employed by the State and local governments and (ii) all former law-enforcement officers previously employed by the State and local governments, who had 20 or more years of service as an officer or are in receipt of a disability retirement allowance from any State-administered retirement system or are in receipt of a benefit from the Disability Income Plan of North Carolina, who shall be participants.

(b) The Boards of Trustees of the Teachers' and State Employees' Retirement System and the Local Governmental Employees' Retirement System shall jointly administer the Plan and shall, under the terms and conditions otherwise appearing in this Article, provide Plan benefits either (i) by establishing a separate trust fund in conformance with Section 501(c)(9) of the Internal Revenue Code of 1954 as amended or, (ii) by causing the Plan to affiliate with a master trust providing the same benefits for participants.

(c) The initial assets of the Plan are the assets of the former Separate Benefit Plan established under G.S. 143-166.04 as it existed prior to January

1, 1986, which shall be transferred to the Plan on January 1, 1986. The Plan shall be separate and apart from any retirement systems or plans.

(d) The Boards of Trustees shall promulgate rules and regulations as are necessary to establish benefits under the Plan, within the availability of funds, to provide:

(1) An accident and sickness disability insurance benefit;

(2) A group life insurance benefit for participants employed by an employer at the time of death, not to exceed five thousand dollars ($5,000);

(3) A group life insurance benefit for participants who are eligible former officers, not to exceed four thousand dollars ($4,000); and

(4) An accidental line-of-duty insurance death benefit not to exceed two thousand one hundred dollars ($2,100) in total on account of the death of a participant caused by an accident while in the actual performance of duty as an officer.

(e) The insurance benefit of the Plan on account of the death of a participant shall be payable to the surviving spouse of the participant or otherwise to the participant's estate; provided, should a participant instruct the Board of Trustees in writing that he does not wish these benefits to be paid to his spouse or estate, then the benefits shall be paid to the person or persons as the participant may name for this purpose. The life insurance benefits shall be payable only on account of participants in the Plan for six or more months or, if an actively employed officer, at any time after employment if death results from an accident. The accident and sickness disability insurance benefits shall be payable to a participant at any time after becoming a participant in the Plan.

(f) Should amounts in the trust fund of the Plan be insufficient at any time to enable the Boards of Trustees to pay benefits due in full, then an equitable graded percentage of the payment shall be made.

(g) The provisions of the State and Local Retirement Systems pertaining to administration and management of funds under G.S. 128-28, G.S. 128-29, G.S. 135-6 and G.S. 135-7 are made applicable to the Plan.

(h) Exemption from Garnishment and Attachment. — The right of a participant in the Separate Insurance Benefits Plan to the benefits provided under this Article is nonforfeitable and exempt from levy, sale, and garnishment. (1985, c. 479, s. 196(t); 1987, c. 738, s. 29(p); 1989, c. 792, s. 2.8; 2003-284, s. 30.19B(b).)

Study Commission on State Disability Income Plan, Death Benefit Plan, and Separate Insurance Benefits Plan for Law Enforcement Officers. — Session Laws 2003-284, s. 30.20(a)-(i), provides: "(a) There is established a Study Commission on the State Disability Income Plan, the State Death Benefit Plan, and the Separate Insurance Benefits Plan for Law Enforcement Officers.

"(b) The Commission shall be comprised of seven members as follows:

"(1) Two persons appointed by the President Pro Tempore of the Senate. One of these appointees shall be a State employee.

"(2) Two persons appointed by the Speaker of the House of Representatives. One of these appointees shall be a State employee.

"(3) The State Treasurer, or the Treasurer's designee.

"(4) The Executive Administrator of the Teachers' and State Employees' Comprehensive Major Medical Plan.

"(5) The President of the North Carolina Association of Educators, or the President's designee.

"Any vacancy shall be filled by the officer who made the original appointment.

"(c) The Commission shall study the plan design, funding, and administration of the Disability Income Plan of North Carolina established pursuant to Article 6 of Chapter 135 of the General Statutes, the Death Benefit Plan established pursuant to G.S. 135-5(l), and the Separate Insurance Benefits Plan for State and Local Governmental Law Enforcement Officers established pursuant to G.S. 143-166.60 to determine what changes, if any, should be made to those Plans. The Commission shall consider what changes could be made to the Plans that would enhance the efficiency of and reduce the cost of the Plans to the State and its employees.

"(d) The President Pro Tempore of the Senate and the Speaker of the House of Representatives shall designate cochairs of the Commission from among their respective appointees. The Commission shall meet upon the call of the cochairs. Members of the Commission shall receive per diem, subsistence, and travel allowance in accordance with G.S. 120-3.1, 138-5, or 138-6, as appropriate. The Commission, while in the discharge of official duties, may exercise all powers provided for under the provisions of G.S. 120-19 and G.S. 120-19.1 through G.S. 120-19.4. The Commission shall terminate the earlier of the delivery of its final report or December 31, 2004.

"(e) The Legislative Services Commission, through the Legislative Services Officer, shall assign professional staff to assist the Commission in its work. The House of Representatives' and the Senate's Directors of Legislative Assistants shall assign clerical staff to the Commission, and the expenses relating to the clerical employees shall be borne by the Commission. Subject to the approval of the Legislative Services Commission, the Commission may meet in the Legislative Building or the Legislative Office Building.

"(f) The Commission shall employ an actuary with expertise in the areas of disability income insurance and group life insurance to assist the Commission in its work pursuant to the procedure set forth in G.S. 120-32.02. This actuary shall not be a State employee or a person currently under contract with the State to provide services. If necessary, the Commission may hire other employees as provided in G.S. 120-32.02.

"(g) The Commission may meet during a regular or extra session of the General Assembly, subject to approval of the President Pro Tempore of the Senate and the Speaker of the House of Representatives.

"(h) The Commission shall submit a report of the results of its study, including any legislative recommendations, to the General Assembly not later than January 1, 2005.

"(i) Of the funds appropriated to the General Assembly, the Legislative Services Commission shall allocate funds to implement the provisions of subsections (a) through (i) of this section."

Session Laws 2003-284, s. 1.2, provides: "This act shall be known as the 'Current Operations and Capital Improvements Appropriations Act of 2003'."

Session Laws 2003-284, s. 49.3, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 2003-2005 fiscal biennium, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 2003-2005 fiscal biennium."

Session Laws 2003-284, s. 49.5 is a severability clause.

Effect of Amendments. — Session Laws 2003-284, s. 30.19B(b), effective July 1, 2003, in subsection (a), deleted "Of the sum derived from the cost of court provided for in G.S. 7A-304(a)(3), the amount designated for this Article shall be set aside and held in a separate fund to create" at the beginning of the first sentence; and made minor stylistic changes throughout.

§§ 143-166.61 through 143-166.69: Reserved for future codification purposes.

Article 12G.

Transfers of Assets of Law-Enforcement Officers' Retirement System to Other Retirement Systems.

§ 143-166.70. Transfers of assets of Law-Enforcement Officers' Retirement System to other retirement systems.

As of January 1, 1986, assets of the Law-Enforcement Officers' Retirement System, provided for under Article 12 of Chapter 143 of the General Statutes, as it existed prior to January 1, 1986, shall be transferred to the Local Governmental Employees' Retirement System provided for under Article 3 of Chapter 128 of the General Statutes, and the Supplemental Retirement Income Plan of North Carolina, provided for under Article 5 of Chapter 135 of the General Statutes, in the amounts calculated and in the order of precedence enumerated as follows:

(1) The regular accumulated contributions of members of the Law-Enforcement Officers' Retirement System shall be transferred from the annuity savings fund of the Law-Enforcement Officers' Retirement System to the annuity savings fund of the Local Governmental Employees' Retirement System to the credit of each individual member.

(2) An amount equal to the present value of the liabilities on account of the retirement allowances payable to beneficiaries of the Law-Enforcement Officers' Retirement System, as calculated by the Retirement System's consulting actuary, shall be transferred from the pension accumulation fund of the Law-Enforcement Officers' Retirement System to the pension accumulation fund of the Local Governmental Employees' Retirement System.

(3) After the transfer provided for above, the remaining assets in the pension accumulation fund of the Law-Enforcement Officers' Retirement System shall be transferred to the pension accumulation fund of the Local Governmental Employees' Retirement System with the amount of such assets to be taken into account by the Retirement System's consulting actuary in determining the employers' rates of contribution under G.S. 128-30(d)(9).

(4) The special annuity account accumulated contributions shall be transferred from the special annuity savings fund of the Law-Enforcement Officers' Retirement System to the Supplemental Retirement Income Plan of North Carolina, or some other employer-sponsored trust qualified under Sections 401(a) and 401(k) of the Internal Revenue Code of 1954 as amended.

(5) The separate trust fund reserves held under the death benefit plan provided for in G.S. 143-166.02, as it existed prior to January 1, 1986, shall be transferred to the separate trust fund for the death benefit plan provided for in G.S. 128-27(1) [128-27(*l*)]. (1985, c. 479, s. 196(u).)

Editor's Note. — Article 12 of Chapter 143, referred to in this section, was repealed by Session Laws 1985, c. 479, s. 196(t).

Section 143-166.02, referred to in subdivision (5) of this section, was repealed by Session Laws 1985, c. 479, s. 196(t).

The reference to G.S. 128-27(1) in subdivision (5) was apparently intended to refer to G.S. 128-27(*l*).

CASE NOTES

Applied in Mathews v. Board of Trustees, 97 N.C. App. 186, 385 S.E.2d 343 (1989).

§§ 143-166.71 through 143-166.79: Reserved for future codification purposes.

Article 12H.

Sheriffs' Supplemental Pension Fund Act of 1985.

§ 143-166.80. Short title and purpose.

(a) This Article shall be known and may be cited as the "Sheriffs' Supplemental Pension Fund Act of 1985".

(b) The purpose of this Article is to create a pension fund to supplement local government retirement benefits which will attract the most highly qualified talent available within the State to the position of sheriff and to fully recognize

that sheriffs are constitutional officials elected by the people and are also officers of the court enforcing the laws of the State of North Carolina. (1985, c. 729, s. 1.)

§ 143-166.81. Scope.

(a) This Article provides supplemental pension benefits for all county sheriffs who are retired from the Local Governmental Employees' Retirement System or an equivalent locally sponsored plan as herein described.

(b) The North Carolina Department of Justice shall administer the provisions of this Article.

(c) The provisions of this Article shall be subject to future legislative change or revision, and no person is deemed to have acquired any vested right to a pension payment provided by this Article. (1985, c. 729, s. 1.)

§ 143-166.82. Assets.

(a) On and after July 1, 1985, each Clerk of Superior Court shall remit to the Department of Justice the monthly receipts collected pursuant to G.S. 7A-304(a)(3a) to be deposited to the credit of the Sheriffs' Supplemental Pension Fund, hereinafter referred to as the Fund, to be used in making monthly pension payments to eligible retired sheriffs under the provisions of this Article and to pay the cost of administering the provisions of this Article.

(b) The State Treasurer shall be the custodian of the Sheriffs' Supplemental Pension Fund and shall invest its assets in accordance with the provisions of G.S. 147-69.2 and G.S. 147-69.3. (1985, c. 729, s. 1.)

§ 143-166.83. Disbursements.

(a) Repealed by Session Laws 1991 (Reg. Sess., 1992), c. 900, s. 54.

(b) Immediately following January 1, 1993, and the first of January of each succeeding calendar year thereafter, the Department of Justice shall divide an amount equal to ninety percent (90%) of the assets of the Fund at the end of the preceding calendar year and shall add to that amount any assets remaining pursuant to subsection (f) of this section and disburse the same as monthly payments in accordance with the provisions of this Article.

(c) Ten percent (10%) of the Fund's assets as of January 1, 1993, and at the beginning of each calendar year thereafter, may be used by the Department of Justice in administering the provisions of this Article. This ten percent (10%) is to be derived from the Fund's assets prior to the addition of assets remaining pursuant to subsection (f) of this section.

(d) All the Fund's disbursements shall be conducted in the same manner as disbursements are conducted for other special funds of the State.

(e) If, for any reason, the Fund shall be insufficient to pay any pension benefits or other charges, then all benefits or payments shall be reduced pro rata for as long as the deficiency in amount exists. No claim shall accrue with respect to any amount by which a pension payment shall have been reduced.

(f) Any assets remaining after reserving an amount equal to the disbursements required under subsections (b) and (c) of this section shall be accrued and included in disbursements for pensioners in succeeding years. (1985, c. 729, s. 1; 1985 (Reg. Sess., 1986), c. 1030, ss. 1, 2; 1991 (Reg. Sess., 1992), c. 900, s. 54(a).)

§ 143-166.84. Eligibility.

(a) Each county sheriff who has retired from the Local Governmental Employees' Retirement System, and who has attained the age of 55 years or

attained 30 years of creditable service regardless of age, and who has completed at least 10 years of eligible service as sheriff, is entitled to receive a monthly pension under this Article.

(a1) Each county sheriff who withdrew any service standing to his credit in the Local Governmental Employees' Retirement System prior to July 1, 1986, and who has attained the age of 55 or attained 30 creditable years of service regardless of age, and who has completed at least 10 years of eligible service as sheriff, is entitled to receive a monthly pension under this Article provided the sheriff is not eligible to receive any retirement benefit from any State or locally sponsored plan.

(a2) Each county sheriff who has been approved for disability benefits from the Local Governmental Employees' Retirement System is eligible to receive benefits from the Fund based on years of creditable service as sheriff, regardless of age, provided the retiree has at least 10 years of eligible service as sheriff.

(b) Each eligible retired sheriff as defined in subsections (a), (a1), and (a2) of this section relating to age and service shall be entitled to receive a monthly pension under this Article beginning with the month immediately following the effective date of retirement. (1985, c. 729, s. 1; 1985 (Reg. Sess., 1986), c. 1030, ss. 3, 5(a); 1987, c. 177, s. 3; 1989 (Reg. Sess., 1990) c. 1079, s. 1; 1991 (Reg. Sess., 1992), c. 900, s. 54(b).)

§ 143-166.85. Benefits.

(a) An eligible retired sheriff shall be entitled to and receive an annual pension benefit, payable in equal monthly installments, equal to one share for each full year of eligible service as sheriff multiplied by his total number of years of eligible service. The amount of each share shall be determined by dividing the total number of years of eligible service for all eligible retired sheriffs on December 31 of each calendar year into the amount to be disbursed as monthly pension payments in accordance with the provisions of G.S., 143-166.83(b). In no event however shall a monthly pension under this Article exceed an amount, which when added to a retired allowance at retirement from the Local Governmental Employees' Retirement System or to the amount he would have been eligible to receive if service had not been forfeited by the withdrawal of accumulated contributions, is greater than seventy-five percent (75%) of a sheriff's equivalent annual salary immediately preceding retirement computed on the latest monthly base rate, to a maximum amount of one thousand two hundred dollars ($1,200).

(b) All monthly pensions payable under this Article shall be paid on the last business day of each month.

(c) At the death of the pensioner, benefits for the current calendar year will continue and be paid in monthly installments to the decedent's spouse or estate, in accordance with the provisions of Chapter 28A of the General Statutes. Benefits will cease upon the last payment being made in December of the current year.

(d) Monthly pensions payable under this Article will cease upon the full-time reemployment of a pensioner with an employer participating in the Local Governmental Employees' Retirement System for as long as the pensioner is so reemployed.

(e) Repealed by Session Laws 1989, c. 792, s. 2.9.

(f) Nothing contained in this Article shall preclude or in any way affect the benefits that a pensioner may be entitled to from any state, federal or private pension, retirement or other deferred compensation plan. (1985, c. 729, s. 1; 1985 (Reg. Sess., 1986), c. 1030, ss. 4, 5(b); 1987, c. 177, s. 4; 1989, c. 792, s. 2.9; 1989 (Reg. Sess., 1990), c. 1079, s. 2; 1991 (Reg. Sess., 1992), c. 900, s. 54(c).)

Article 13.

Publications.

§ 143-167: Transferred to G.S. 147-54.1 by Session Laws 1943, c. 543.

§ 143-168. Reports; conciseness.

The annual or biennial reports now authorized or required to be printed by the several State agencies and institutions shall be as compact and concise as is consistent with an intelligent understanding of the work of those agencies and institutions. The details of the work of the agencies and institutions shall not be printed when not necessary to an intelligent understanding of such work, but totals and results may be tabulated and printed in their reports. (1911, c. 211, s. 2; 1917, c. 202, s. 2; C.S., s. 7294; 1931, c. 261, s. 3; 1955, c. 983; 1961, c. 243, s. 2; 1983, c. 866, s. 1.)

§ 143-169. Limitations on publications.

(a) Repealed by Session Laws 1983, c. 866, s. 2.

(b) Every publication published at State expense which makes use of the multicolor process is prohibited except:

(1) In cases of scientific illustrations when the illustrations would be unintelligible if published in black and white;

(2) When the publication is a project of the Department of Environment and Natural Resources, or is a part of the magazine "Wildlife in North Carolina," published under the auspices of the Wildlife Resources Commission; or

(3) When the express approval of the Department of Administration is obtained.

(c) Every publication published at State expense shall be prepared in accordance with the recycling and reuse requirements set forth in G.S. 130A-309.14(j). (1911, c. 211, s. 2; C.S., s. 7302; 1931, c. 261, s. 3; c. 312, ss. 14, 15; 1955, c. 1203; 1961, c. 243, s. 3; 1973, c. 1262, s. 86; 1977, c. 771, s. 4; 1983, c. 866, s. 2; 1989, c. 727, s. 218(100); 1993, c. 448, s. 4; 1997-443, s. 11A.119(a).)

§ 143-169.1. State agency public document mailing lists to be updated.

(a) On or before July 1 of each year, beginning with July 1, 1976, the head of every agency of this State shall certify to the Director of the Budget that the mailing lists for each public document issued by his agency have been carefully reviewed, updated and corrected within the previous 12 months. The above date may be extended by the Director of the Budget for 90 days for good cause shown. The reviewed, updated and corrected mailing lists shall be comprised only of those persons and organizations who, within the previous 12 months, have either requested that they be included in such a mailing list or have renewed a request that they be so included, or are recipients contemplated for receipt of the pertinent public document by express provision of statute or judicial order, but this sentence does not apply to mailing lists of alumni of a constituent institution of The University of North Carolina, used or maintained by the constituent institution.

(b), (c) Repealed by Session Laws 1989, c. 715, s. 2. (1975, c. 362, s. 1; 1983, c. 866, ss. 3-5; 1989, c. 715, s. 2; 1993, c. 448, s. 5.)

§ 143-169.2. Definitions.

(a) For the purposes of this Article, the term "public document" shall mean any annual, biennial, regular or special report or publication of which at least 200 copies are printed, but shall not include intra-agency communications nor agency correspondence.

(b) For the purposes of this Article, the term "agency" shall mean and include, as the context may require, State department, institution, university, commission, committee, board, licensing board, division, bureau, officer or official; provided, however, the provisions of G.S. 143-169.1 shall not apply to the General Assembly, the Department of Revenue, the Department of Commerce, or to the Administrative Office of the Courts and the court system, nor shall the provisions of G.S. 143-170.2 and 143-170.3 apply to the General Assembly or to the Administrative Office of the Courts and the courts system. (1989, c. 715, s. 3; c. 751, ss. 7(16), 18; 1991 (Reg. Sess., 1992), c. 959, s. 35.)

§ 143-170: Repealed by Session Laws 1955, c. 986.

§ 143-170.1. Statement of cost of public documents; chief administrator charged with compliance.

(a) Every agency of this State publishing a public document, other than one published for the principal purpose of sale to the public, shall cause the following statement to be printed adjacent to the identification of the agency responsible for the publication:

"(Number of copies) copies of this public document were printed at a cost of $____, or $____ per copy."

For the purposes of this Article the term "cost" shall include printing costs in the form of labor and materials, and other identifiable design, typesetting, and binding costs.

(a1) Any public document without a statement of cost shall not be mailed or distributed at public expense.

(a2) Whenever a public document that is published by an agency of this State is printed on recycled paper, the document shall contain a printed statement or symbol indicating that the document was printed on recycled paper.

(a3) If an agency fails to comply with this section, then the agency's printing budget for the fiscal year following the violation shall be reduced by ten percent (10%).

(b) The chief administrator of the agency authorizing the printing is charged with agency compliance with the provisions of this Article. (1983, c. 866, ss. 6, 7; 1989, c. 34; 1993, c. 256, s. 4; 1995, c. 324, s. 6.10.)

§ 143-170.2. Publication procedure manuals.

(a) The State Librarian in consultation with the State Auditor shall administer and periodically revise guidelines to be used by all State agencies and community colleges in developing publication procedures manuals for public documents. The initial guidelines developed by the Department of Administration shall be released no later than December 1, 1989 and shall address at least the following elements of publication production for public documents:

(1) Bibliographic style, substantially in accord with a recognized style manual approved by the State Librarian; provided, however, the Department shall not develop guidelines concerning the design, layout, size or appearance of publications except as otherwise permitted herein;

(2) Procedures for the notification of the State Library for title changes in serial publications;
(3) Pricing of documents for resale;
(4) Use of publication services at State-operated printing facilities;
(5) Purchase of commercial publication services; and
(6) The distribution of publications.

The Department of Administration shall submit the initial guidelines to State agencies for review and comment for a period of 60 days; provided, however, that submission to the University of North Carolina General Administration shall satisfy this requirement with respect to universities. The Department, in consultation with at least the State Librarian and the State Auditor, shall consider the comments of the State agencies before adopting final guidelines. The Department of Administration shall adopt and release the final guidelines no later than four months after the release of the initial guidelines.

(b) Upon the adoption and release of final guidelines by the Department of Administration, each State agency and community college shall within four months thereafter adopt a publication procedures manual for public documents consistent with the guidelines established pursuant to subsection (a) of this section and an administrative review and approval process to ensure appropriate review and approval of its public documents.

(c) Each State agency and community college shall submit to the State Library for review and retention a copy of its publication procedures manual and its administrative review procedure for public documents. Any revisions made by an agency shall also be submitted to the State Library within 30 days of adoption by the agency.

(d) Repealed by Session Laws 1991, c. 757.

(d1) The State Library may revise the final statewide guidelines, originally issued April 1, 1990, by the Department of Administration, at any time after July 1, 1990, provided that there be distribution of any proposed revisions to all agencies and institutions subject to these provisions, and that there be a 30-day review period for these agencies to comment. (1989, c. 715, s. 1; 1991, c. 757, s. 1.)

§ 143-170.3. Reports; audits.

(a) The Department of Administration shall report to the Joint Legislative Commission on Governmental Operations each State agency and community college that fails to timely adopt and submit to the Department the information required by G.S. 143-170.2. The initial report shall be made by January 1, 1991.

(b) Upon the determination of the State Auditor that a State agency or community college has failed to substantially comply with its publications procedure manual or its administrative review and approval process for public documents, the State Auditor shall report the noncompliance to the Joint Legislative Commission on Governmental Operations within 60 days if the General Assembly is not in session, and to the President Pro Tempore of the Senate, the Speaker of the House, and the Senate and House Appropriations Committee Chairmen within 30 days if the General Assembly is in session.

(c) The State Librarian and the University Librarian of the University of North Carolina at Chapel Hill shall identify the types of publications for which the use of acid-free paper is desirable and, with the assistance of the Department of Administration, shall study the availability of acid-free paper and the costs associated with purchasing and using acid-free paper. The State Librarian and the University Librarian of the University of North Carolina at Chapel Hill shall report to the Joint Legislative Commission on Governmental

Operations no later than November 1, 1990 the information required by this subsection. (1989, c. 715, s. 1.)

§ 143-170.4. Administrative Office of the Courts; publications procedures manual; reports.

Not later than June 1, 1990, the Administrative Office of the Courts, after review of the Department of Administration's state publications procedures guidelines and after consultation with the State Librarian and State Auditor, shall adopt (i) a publications procedures manual for public documents, other than the official reports of the North Carolina Supreme Court and the North Carolina Court of Appeals and official forms published by the Administrative Office of the Courts pursuant to G.S. 7A-343, that addresses the elements of publication production described in G.S. 143-170.2 and (ii) an administrative review and approval process to ensure appropriate review and approval of its public documents. The initial guidelines and the administrative review and approval process shall be reported to the Joint Legislative Commission on Governmental Operations by January 1, 1991. (1989, c. 715, s. 1; 2001-424, s. 22.6(b).)

§ 143-170.5. Designated public documents to be printed on alkaline paper.

The State Librarian and the University Librarian at the University of North Carolina at Chapel Hill shall designate annually as provided by G.S. 125-11.13 those State documents that must be printed on alkaline paper. Each agency publishing a State document designated by the State Librarian and the University Librarian at the University of North Carolina at Chapel Hill as one that must be printed on alkaline paper shall comply with that publication requirement. (1991, c. 224, s. 2; 1993, c. 553, s. 4.)

Article 14.

North Carolina Zoological Authority.

§§ 143-171 through 143-176.1: Repealed by Session Laws 1973, c. 1262, s. 85.

Cross References. — As to the North Carolina Zoological Park Council, see G.S. 143B-335 and 143B-336.

§ 143-177. Right to receive gifts.

In order to carry out the purposes of this Article, the Board is authorized to acquire by gift or will, absolutely or in trust, from individuals, corporations, or any other source money or other property, or any interests in property, which may be retained, sold or otherwise used to promote the purposes of this Article. The use of gifts shall be subject to such limitations as may be imposed thereon by donors, notwithstanding any other provisions of this Article. (1969, c. 1104, s. 8.)

§ 143-177.1. North Carolina Zoological Park Fund.

All gifts made to the North Carolina Zoological Park for the purposes of this Article shall be exempt from every form of taxation including, but not by the way of limitation, ad valorem, intangible, gift, inheritance and income taxation. Proceeds from the sale of any property acquired under the provisions of this Article shall be deposited in the North Carolina State treasury and shall be credited to the North Carolina Zoological Park. (1969, c. 1104, s. 9; 1973, c. 1262, s. 85.)

§ 143-177.2. Cities and counties.

Cities and counties are hereby authorized to expend funds derived from nontax sources and to make gifts of surplus property, to assist in carrying out the purposes of this Article. (1969, c. 1104, s. 10.)

§ 143-177.3. Sources of funds.

(a) It is the intent of this Article that the funds for the creation, establishment, construction, operation and maintenance of the North Carolina Zoological Park shall be obtained primarily from private sources; however, the Council under the supervision and approval and with the assistance of the Secretary of Environment and Natural Resources is hereby authorized to receive and expend such funds as may from time to time become available by appropriation or otherwise from the State of North Carolina; provided, that the North Carolina Zoological Park Council shall not in any manner pledge the faith and credit of the State of North Carolina for any of its purposes.

(b) The Council with the approval of the Secretary of Environment and Natural Resources is authorized to establish and set admission fees which are reasonable and consistent with the purpose and function of the North Carolina Zoological Park. (1969, c. 1104, s. 11; 1973, c. 1262, s. 85; 1977, c. 771, s. 4; 1981, c. 278, s. 1; 1989, c. 727, s. 218(101); 1997-443, s. 11A.119(a).)

Article 15.

Council of State Governments.

§§ 143-178 through 143-185: Repealed by Session Laws 1975, c. 879, s. 25.

Cross References. — As to the North Carolina Council on Interstate Cooperation, see G.S. 143B-379 through 143B-384.

§ 143-186. Council of State Governments a joint governmental agency.

The Council of State Governments is hereby declared to be a joint governmental agency of this State and of the other states which cooperate through it. (1937, c. 374, s. 10; 1959, c. 137, s. 4.)

§ 143-187: Transferred to G.S. 143-186 by Session Laws 1959, c. 137, s. 4.

§ 143-188: Repealed by Session Laws 1959, c. 137, s. 1.

Article 16.

Spanish-American War Relief Fund.

§§ 143-189, 143-190: Repealed by Session Laws 1961, c. 481.

Article 17.

State Post-War Reserve Fund.

§ 143-191. Appropriation for fund.

There is hereby appropriated from the general fund of the State the sum of twenty million dollars ($20,000,000), the said sum, together with the investments and income therefrom, to be hereafter known and designated as the State Post-War Reserve Fund. (1943, c. 6, s. 1.)

§ 143-192. Fund to be invested by Governor and Council of State; State Treasurer custodian.

The Governor and Council of State are hereby fully authorized and directed to invest the said fund exclusively in bonds of the United States of America, of such series as may be readily converted into money and notes or certificates of indebtedness of the United States of America, or in bonds, notes or other obligations of any agency or instrumentality of the United States of America, when the payment of principal and interest thereof is fully guaranteed by the United States of America, and in bonds or notes of the State of North Carolina. The interest and revenues received from such investments, or profits realized in the sale thereof, shall become a part of the said State Post-War Reserve Fund and shall be likewise invested. Bonds of the State of North Carolina purchased for the said fund shall not be cancelled or retired but shall remain in full force and the income therefrom reinvested as hereinbefore provided. The State Treasurer shall be custodian of all securities and investments made under authority of this Article. (1943, c. 6, s. 2.)

§ 143-193. Fund to be held for such use as directed by General Assembly.

The said State Post-War Reserve Fund shall be held for such use as shall hereafter be directed by an act of the General Assembly of North Carolina, and no other use thereof whatsoever shall be made. (1943, c. 6, s. 3.)

CASE NOTES

Applied in Slade v. New Hanover County Bd. of Educ., 10 N.C. App. 287, 178 S.E.2d 316 (1971).

§ 143-194. Report to General Assembly.

The Governor and Council of State shall make a report in writing to the General Assembly, not later than the tenth day of each regular or special session thereof, stating the nature and amount of all receipts and disbursements from the said fund and the amount contained in said fund, and giving an itemized statement of all investments made as herein authorized, which report shall be spread upon the journals of the Senate and House of Representatives. (1943, c. 6, s. 4.)

Article 18.

Rules and Regulations Filed with Secretary of State.

§§ 143-195 through 143-198.1: Repealed by Session Laws 1973, c. 1331, s. 2.

Cross References. — For present provisions as to rule making by administrative agencies, see G.S. 150B-18 et seq. For present provisions as to publication of administrative rules, see G.S. 150B-21.17 et seq.

Article 19.

Roanoke Island Historical Association.

§ 143-199. Association under patronage and control of State.

Roanoke Island Historical Association, Incorporated is hereby permanently placed under the patronage and control of the State. (1945, c. 953, s. 1.)

Cross References. — As to recreation of Roanoke Island Historical Association, see G.S. 143B-92. For statute declaring the Association not to be a State agency, see G.S. 143B-93.

§ 143-200. Members of board of directors; terms; appointment.

The governing body of the Association shall be a board of directors consisting of the Governor of the State, the Attorney General, the Superintendent of Public Instruction, the Chair of the Dare County Board of Commissioners, and the Secretary of Cultural Resources, or their designees, as ex officio members, and the following 21 members: J. Spencer Love, Greensboro; Miles Clark, Elizabeth City; Mrs. Richard J. Reynolds, Winston-Salem; D. Hiden Ramsey, Asheville; Mrs. Charles A. Cannon, Concord; Dr. Fred Hanes, Durham; Mrs. Frank P. Graham, Chapel Hill; Bishop Thomas C. Darst, Wilmington; W. Dorsey Pruden, Edenton; John A. Buchanan, Durham; William B. Rodman, Jr., Washington; J. Melville Broughton, Raleigh; Melvin R. Daniels, Manteo; Paul Green, Chapel Hill; Samuel Selden, Chapel Hill; R. Bruce Etheridge, Manteo; Theodore S. Meekins, Manteo; Roy L. Davis, Manteo; M. K. Fearing, Manteo; A. R. Newsome, Chapel Hill. The members of the board of directors herein named other than the ex officio members, shall serve for a term of three years and until their successors are appointed. Appointments thereafter shall be made by the membership of the Association in regular annual meeting or special meeting called for such purpose. In the event the Association through its membership should fail to make such appointments, then the appointments

shall be made by the Governor of the State. If a vacancy occurs between annual meetings, the board of directors may fill the vacancy until the next annual meeting. All vacancies occurring on the board of directors not filled by the board of directors within 30 days of the vacancy shall be filled by the Governor of the State. (1945, c. 953, s. 2; 1973, c. 476, s. 48; 1996, 2nd Ex. Sess., c. 18, s. 11.1(a); 1999-32, s. 1; 1999-431, s. 3.1.)

Editor's Note. — Session Laws 1999-431, s. 4, provides that unless otherwise provided for in the act, appointments are for terms to begin when the bill becomes law.

§ 143-201. Bylaws; officers of board.

The said board of directors when organized under the terms of this Article shall have authority to adopt bylaws for the organization and said bylaws shall thereafter be subject to change only by three-fifths vote of a quorum of said board of directors; the board of directors shall choose from its membership or from the membership of the Association a chairman, a vice-chairman, a secretary and a treasurer, which offices in the discretion of the board may be combined in one, and also a historian and a general counsel. The board also in its discretion may choose one or more honorary vice-chairmen. The duly elected officers of the Association shall serve as an advisory committee to the Secretary of Cultural Resources concerning matters relating to "The Lost Colony" historical drama. (1945, c. 953, s. 3; 1973, c. 476, s. 87.)

§ 143-202. Exempt from taxation; gifts and donations.

The said Association is and shall be an educational and charitable association within the meaning of the laws of the State of North Carolina, and the property and income of such Association, real and personal, shall be exempt from all taxation. The said Association is authorized and empowered to receive gifts and donations and administer the same for the charitable and educational purposes for which the Association is formed and in keeping with the will of the donors, and such gifts and donations to the extent permitted by law shall be exempted from the purpose of income taxes and gift taxes. (1945, c. 953, s. 4.)

§ 143-203: Repealed by Session Laws 1983, c. 913, s. 39.

§ 143-204: Repealed by Session Laws 1977, c. 996, s. 3.

Article 19B.

Historic Swansboro Commission.

§§ 143-204.5 through 143-204.7: Repealed by Session Laws 1973, c. 476, s. 116.

Cross References. — As to transfer of functions of the Historic Swansboro Commission to the Department of Cultural Resources, see G.S. 143B-51.

Article 19C.

Outdoor Historical Dramas.

§ 143-204.8. Allotments to outdoor historical dramas.

(a) Upon the application of an outdoor historical drama corporation or trust, approved by the Secretary of Cultural Resources, the Governor and the Council of State may order an allotment from the Contingency and Emergency Fund of the State not to exceed fifteen thousand dollars ($15,000) a year to that outdoor historical drama corporation or trust to aid in the production of an outdoor historical drama if the provisions of subsection (b) of this section are met.

(b) An allotment shall only be made under this section upon evidence submitted to the Governor and Council of State by the Secretary of Cultural Resources that during the immediately preceding season of production, the drama was operated at a deficit because of inclement weather or other circumstances beyond the control of the corporation or trust and that contributions or gifts made to the corporation or trust are deductible for income tax purposes under the Internal Revenue Code.

(c) For purposes of this section, an "outdoor historical drama corporation or trust," means only the following corporations or trusts presenting outdoor historical dramas:

Corporation or Trust	*Outdoor Historical Drama*
Cherokee Historical Association, Incorporated	"Unto These Hills"
The Committee for an Outdoor Drama at Bath, Incorporated	"Blackbeard — The Knight of the Black Flag"
The Duplin Outdoor Drama Society, Incorporated	"The Liberty Cart: A Duplin Story"
Eastern Stage, Inc.	"First for Freedom"
The Moore County Historical Association, Incorporated	"The House in the Horseshoe"
The Outdoor Theatre Fund Charitable Trust	"From This Day Forward"
"Revolution!", Incorporated	"Revolution!"
Roanoke Island Historical Association, Incorporated	"The Lost Colony"
Robeson Historical Drama, Incorporated	"Strike at the Wind"
Snow Camp Historical Drama Society, Incorporated	"Sword of Peace"
Southern Appalachian Historical Association, Incorporated	"Horn in the West"
The Waxhaws Historical Festival	"Listen and Remember"

The above listing of dramas is for informational purposes only and shall not be construed to limit the eligibility of the specified outdoor historical drama corporation or trust to receive allotments under this section.

(d) An outdoor historical drama corporation or trust which has applied for or received an allotment under this section shall permit the State Auditor to inspect and audit its financial records. (1977, c. 996, s. 1; 1987 (Reg. Sess., 1988), c. 1086, s. 44; 1989, c. 752, s. 21; 1991, c. 636, s. 16.)

Article 20.

Recreation Commission.

§§ 143-205 through 143-210.1: Repealed by Session Laws 1969, c. 1145, s. 4.

Cross References. — As to transfer of functions, property, etc., of the Recreation Commission to the Department of Local Affairs, see G.S. 143-326.

Article 21.

Water and Air Resources.

Part 1. Organization and Powers Generally; Control of Pollution.

§ 143-211. Declaration of public policy.

(a) It is hereby declared to be the public policy of this State to provide for the conservation of its water and air resources. Furthermore, it is the intent of the General Assembly, within the context of this Article and Articles 21A and 21B of this Chapter, to achieve and to maintain for the citizens of the State a total environment of superior quality. Recognizing that the water and air resources of the State belong to the people, the General Assembly affirms the State's ultimate responsibility for the preservation and development of these resources in the best interest of all its citizens and declares the prudent utilization of these resources to be essential to the general welfare.

(b) It is the public policy of the State to maintain, protect, and enhance water quality within North Carolina. Further, it is the public policy of the State that the cumulative impact of transfers from a source river basin shall not result in a violation of the antidegradation policy set out in 40 Code of Federal Regulations § 131.12 (1 July 1997 Edition) and the statewide antidegradation policy adopted pursuant thereto.

(c) It is the purpose of this Article to create an agency which shall administer a program of water and air pollution control and water resource management. It is the intent of the General Assembly, through the duties and powers defined herein, to confer such authority upon the Department of Environment and Natural Resources as shall be necessary to administer a complete program of water and air conservation, pollution abatement and control and to achieve a coordinated effort of pollution abatement and control with other jurisdictions. Standards of water and air purity shall be designed to protect human health, to prevent injury to plant and animal life, to prevent damage to public and private property, to insure the continued enjoyment of the natural attractions of the State, to encourage the expansion of employment

opportunities, to provide a permanent foundation for healthy industrial development and to secure for the people of North Carolina, now and in the future, the beneficial uses of these great natural resources. It is the intent of the General Assembly that the powers and duties of the Environmental Management Commission and the Department of Environment and Natural Resources be construed so as to enable the Department and the Commission to qualify to administer federally mandated programs of environmental management and to qualify to accept and administer funds from the federal government for such programs. (1951, c. 606; 1967, c. 892, s. 1; 1973, c. 1262, s. 23; 1977, c. 771, s. 4; 1979, 2nd Sess., c. 1158, s. 2; 1989, c. 135, s. 1; c. 727, s. 218(102); 1997-443, s. 11A.119(a); 1998-168, s. 1.)

Cross References. — As to organization of the Department of Environment and Natural Resources, see G.S. 143B-279.1 et seq. As to the Environmental Management Commission, see G.S. 143B-282 through 143B-285.

Express Review Pilot Program. — Session Laws 2003-284, ss. 11.4A(a)-(e), provide: "(a) The Department of Environment and Natural Resources may develop the Express Review Pilot Program, a pilot program to provide express permit and certification reviews. Participation in the Express Review Pilot Program is voluntary, and the program is to become supported by the fees determined pursuant to subsection (b) of this section. The Department of Environment and Natural Resources shall determine the project applications to review under the Express Review Pilot Program from those who request to participate in the Pilot Program. The Express Review Pilot Program may be applied to any one or all of the permits, approvals, or certifications in the following programs: the erosion and sedimentation control program, the coastal management program, and the water quality programs, including water quality certifications and stormwater management. The Express Review Pilot Program shall focus on the following permits or certifications:

"(1) Stormwater permits under Part 1 of Article 21 of Chapter 143 of the General Statutes.

"(2) Stream origination certifications under Article 21 of Chapter 143 of the General Statutes.

"(3) Water quality certification under Article 21 of Chapter 143 of the General Statutes.

"(4) Erosion and sedimentation control permits under Article 4 of Chapter 113A of the General Statutes.

"(5) Permits under the Coastal Area Management Act (CAMA), Part 4 of Article 7 of Chapter 113A of the General Statutes.

"(b) The Department of Environment and Natural Resources may establish up to eight positions to administer the Express Review Pilot Program and may determine the fees for express application review under the Pilot Program. Notwithstanding G.S. 143-215.3D, the maximum permit application fee to be charged under subsection (a) of this section for the express review of a project application requiring all of the permits under subdivisions (1) through (5) of subsection (a) of this section shall not exceed five thousand five hundred dollars ($5,500). Notwithstanding G.S. 143-215.3D, the maximum permit application fee to be charged for the express review of a project application requiring all of the permits under subdivisions (1) through (4) of subsection (a) of this section shall not exceed four thousand five hundred dollars ($4,500). Notwithstanding G.S. 143-215.3D, the maximum permit application fee charged for the express review of a project application for any other combination of permits under subdivisions (1) through (5) of subsection (a) of this section shall not exceed four thousand dollars ($4,000). Express review of a project application involving additional permits or certifications issued by the Department of Environment and Natural Resources other than those under subdivisions (1) through (5) of subsection (a) of this section may be allowed by the Department, and, notwithstanding G.S. 143-215.3D or any other statute or rule that sets a permit fee, the maximum permit application fee charged for the express review of a project application shall not exceed four thousand dollars ($4,000), plus one hundred fifty percent (150%) of the fee that would otherwise apply by statute or rule for that particular permit or certification. Additional fees, not to exceed fifty percent (50%) of the original permit application fee under this section, may be charged for subsequent reviews due to the insufficiency of the permit applications. The Department of Environment and Natural Resources may establish the procedure by which the amount of the fees under this subsection is determined, and the fees and procedures are not rules under G.S. 150B-2(8a) for the Express Review Pilot Program under this section.

"(c) The funds appropriated to the Department of Environment and Natural Resources in this act for the 2003-2004 fiscal year shall be used for the costs of implementing the Express Review Pilot Program under this section during the 2003-2004 fiscal year.

"(d) The Express Review Fund is created as a special nonreverting fund. The Express Review Fund shall be used for the costs of implementing the Express Review Pilot Program under this section. All fees collected under this section shall be credited to the Express Review Fund. If the Express Review Pilot Program is abolished, the funds in the Express Review Fund shall be credited to the General Fund.

"(e) No later than May 1, 2004, the Department of Environment and Natural Resources shall report to the General Assembly its findings on the success of the Express Review Pilot Program and whether it recommends that the Pilot Program be continued or expanded."

Session Laws 2001-355, ss. 1 to 6 provide for the implementation of the Tar-Pamlico River Basin-Nutrient Sensitive Waters Management Strategy: Agricultural Nutrient Control Strategy, as adopted by the Environmental Management Commission on 12 October 2000 and approved by the Rules Review Commission on 20 November 2000, to become effective on 1 September 2001. A Local Advisory Committee is to be appointed in each county or watershed, as specified in the Basin Oversight Committee, within the Tar-Pamlico River Basin; these committees terminate upon a finding by the Environmental Management Commission that the long-term maintenance of nutrient loads is assured. Under the act, the Soil and Water Commission is to approve best management practices for pasture-based production or management of livestock, including a point system applicable thereto. Harvesting of trees is also addressed. Furthermore, the Basin Oversight Committee is to develop a nutrient loading accounting methodology, to be approved by the Environmental Management Commission no later than 1 March 2003. The Environmental Management Commission may adopt and revise a temporary rule incorporating the provisions of the act until a permanent rule can be adopted. Session Laws 2001-355, s. 7, provides that ss. 2 and 3 of the act expire when the temporary rule becomes effective, and s. 4 expires upon a finding that the long-term maintenance of nutrient loads in the Tar-Pamlico River Basin is assured.

CASE NOTES

Purpose. — This section sets the goal which the General Assembly wants to reach in the administration of its water program. Town of Spruce Pine v. Avery County, 346 N.C. 787, 488 S.E.2d 144 (1997).

General Assembly's omission of citizen suit provision only bears on citizen enforcement of state regulatory scheme rather than demonstrating any legislative intent to preempt private rights of action at common law. Biddix v. Henredon Furn. Indus., Inc., 76 N.C. App. 30, 331 S.E.2d 717 (1985).

Evidence of Injury Sufficient to Be "Person Aggrieved." — Where person alleged sufficient injury in fact to interests within the zone of those to be protected and regulated by the statute, and rules and standards promulgated pursuant thereto, he was, therefore, a "person aggrieved" within the meaning and intent of the Air Pollution Control Act. Empire Power Co. v. North Carolina Dep't of Env't, Health & Natural Resources, 337 N.C. 569, 447 S.E.2d 768, rehearing denied, 338 N.C. 314, 451 S.E.2d 634 (1994).

General Assembly Did Not Intend to Act with Respect to Common Law Rights. — Notwithstanding the General Assembly's omission of specific statutory language reserving common law rights, by enacting legislation to seek state administration of the Federal Water Pollution Control Act the General Assembly did not intend to act with respect to common law riparian rights for waste discharges in excess of a National Pollutant Discharge Elimination System permit. Biddix v. Henredon Furn. Indus., Inc., 76 N.C. App. 30, 331 S.E.2d 717 (1985).

Common-Law Actions of Nuisance and Continuing Trespass Not Preempted. — The Clean Water Act does not preempt the common-law actions of nuisance and continuing trespass to land for the discharge of industrial waste in violation of an applicable National Pollutant Discharge Elimination System permit. Biddix v. Henredon Furn. Indus., Inc., 76 N.C. App. 30, 331 S.E.2d 717 (1985).

The very complex and comprehensive set of

regulatory requirements and controls established under the pertinent provisions of Chapter 143 of the General Statutes are clearly distinguishable from the parameters of a private nuisance as that term was understood under common law. State ex rel. Cobey v. Ballard, 110 N.C. App. 486, 429 S.E.2d 735 (1993).

The case at bar should have been characterized as an action in nuisance, thus qualifying it as a cause of action which existed at the adoption of our State's 1868 Constitution and satisfying the first prong of the test in State ex rel. Rhodes v. Simpson, 325 N.C. 514, 385 S.E.2d 329 (1989). State ex rel. Cobey v. Ballard, 110 N.C. App. 486, 429 S.E.2d 735 (1993).

Cited in Lewis v. White, 287 N.C. 625, 216 S.E.2d 134 (1975); State ex rel. Tenn. Dep't of Health & Env't v. Environmental Mgt. Comm'n, 78 N.C. App. 763, 338 S.E.2d 781 (1986); In re Envtl. Mgt. Comm'n, 80 N.C. App. 1, 341 S.E.2d 588 (1986); Rudd v. Electrolux Corp., 982 F. Supp. 355 (M.D.N.C. 1997); N.C. Home Bldrs. Ass'n v. Envtl. Mgmt. Comm'n, 155 N.C. App. 408, 573 S.E.2d 732, 2002 N.C. App. LEXIS 1617 (2002), cert. denied, 357 N.C. 62, 579 S.E.2d 392 (2003); Brinkman v. Barrett Kays & Assocs., P.A., 155 N.C. App. 738, 575 S.E.2d 40, 2003 N.C. App. LEXIS 17 (2003).

§ 143-212. Definitions.

Unless a different meaning is required by the context, the following definitions apply to this Article and Articles 21A and 21B of this Chapter:

(1) "Area of the State" means a municipality, a county, a portion of a county or a municipality, or other substantial geographic area of the State designated by the Commission.

(2) "Commission" means the North Carolina Environmental Management Commission.

(3) "Department" means the Department of Environment and Natural Resources.

(4) "Person" includes individuals, firms, partnerships, associations, institutions, corporations, municipalities and other political subdivisions, and governmental agencies.

(5) "Secretary" means the Secretary of Environment and Natural Resources.

(6) "Waters" means any stream, river, brook, swamp, lake, sound, tidal estuary, bay, creek, reservoir, waterway, or other body or accumulation of water, whether surface or underground, public or private, or natural or artificial, that is contained in, flows through, or borders upon any portion of this State, including any portion of the Atlantic Ocean over which the State has jurisdiction. (1987, c. 827, s. 152A; 1989, c. 727, s. 218(103); 1989 (Reg. Sess., 1990), c. 1004, s. 19(b); 1991 (Reg. Sess., 1992), c. 1028, s. 1; 1997-443, s. 11A.119(a).)

CASE NOTES

Statutory Authority over Wetlands. — Because the definition of water provided in G.S. 143-212(6) was sufficiently broad to include the classification of wetlands, the absence of the term wetlands in the definition did not deprive the North Carolina Environmental Management Commission of statutory authority to classify waters and to adopt standards for wetlands. N.C. Home Bldrs. Ass'n v. Envtl. Mgmt. Comm'n, 155 N.C. App. 408, 573 S.E.2d 732, 2002 N.C. App. LEXIS 1617 (2002), cert. denied, 357 N.C. 62, 579 S.E.2d 392 (2003).

Editor's Note. — A former G.S. 143-212 was repealed by Session Laws 1973, c. 1262, s. 23.

OPINIONS OF ATTORNEY GENERAL

The Water Quality Committee of the Environmental Management Commission is authorized to adopt rules requiring permits for impacts to isolated wetlands and surface waters. See opinion of Attorney General to Dr. Charles H. Peterson, Vice Chairman, Environmental Management Commission, and Ms. Coleen Sullins, Water Quality Section, Division of Water Quality, 2001 N.C. AG LEXIS 33 (9/5/01).

§ 143-213. Definitions.

Unless the context otherwise requires, the following terms as used in this Article and Articles 21A and 21B of this Chapter are defined as follows:

(1) The term "air cleaning device" means any method, process or equipment which removes, reduces, or renders less noxious air contaminants discharged into the atmosphere.

(2) The term "air contaminant" means particulate matter, dust, fumes, gas, mist, smoke, or vapor or any combination thereof.

(3) The term "air contamination" means the presence in the outdoor atmosphere of one or more air contaminants which contribute to a condition of air pollution.

(4) The term "air contamination source" means any source at, from, or by reason of which there is emitted into the atmosphere any air contaminant.

(5) The term "air pollution" shall mean the presence in the outdoor atmosphere of one or more air contaminants in such quantities and duration as is or tends to be injurious to human health or welfare, to animal or plant life or to property or that interferes with the enjoyment of life or property.

(6) to (8) Repealed by Session Laws 1987, c. 827, s. 153.

(9) Whenever reference is made in this Article to the "discharge of waste," it shall be interpreted to include discharge, spillage, leakage, pumping, placement, emptying, or dumping into waters of the State, or into any unified sewer system or arrangement for sewage disposal, which system or arrangement in turn discharges the waste into the waters of the State.

(10) The term "disposal system" means a system for disposing of waste, and including sewer systems and treatment works.

(11) Repealed by Session Laws 1987, c. 827, s. 153.

(12) The term "emission" means a release into the outdoor atmosphere of air contaminants.

(13) The term "outlet" means the terminus of a sewer system, or the point of emergence of any waste or the effluent therefrom, into the waters of the State.

(14) Repealed by Session Laws 1987, c. 827, s. 153.

(15) The term "sewer system" means pipelines or conduits, pumping stations, and force mains, and all other construction, devices, and appliances appurtenant thereto, used for conducting wastes to a point of ultimate disposal.

(16) The term "standard" or "standards" means such measure or measures of the quality of water and air as are established by the Commission pursuant to G.S. 143-214.1 and G.S. 143-215.

(16a) "Stormwater" means the flow of water which results from precipitation and which occurs immediately following rainfall or a snowmelt.

(17) The term "treatment works" means any plant, septic tank disposal field, lagoon, pumping station, constructed drainage ditch or surface water intercepting ditch, incinerator, area devoted to sanitary landfill, or other works not specifically mentioned herein, installed for the purpose of treating, equalizing, neutralizing, stabilizing or disposing of waste.

(18) "Waste" shall mean and include the following:

a. "Sewage," which shall mean water-carried human waste discharged, transmitted, and collected from residences, buildings, industrial establishments, or other places into a unified sewerage system or an arrangement for sewage disposal or a group of such

sewerage arrangements or systems, together with such ground, surface, storm, or other water as may be present.

b. "Industrial waste" shall mean any liquid, solid, gaseous, or other waste substance or a combination thereof resulting from any process of industry, manufacture, trade or business, or from the development of any natural resource.

c. "Other waste" means sawdust, shavings, lime, refuse, offal, oil, tar chemicals, dissolved and suspended solids, sediment, and all other substances, except industrial waste, sewage, and toxic chemicals which may be discharged into or placed in such proximity to the water that drainage therefrom may reach the water.

d. "Toxic waste" means that waste, or combinations of wastes, including disease-causing agents, which after discharge and upon exposure, ingestion, inhalation, or assimilation into any organism, either directly from the environment or indirectly by ingestion through food chains, will cause death, disease, behavioral abnormalities, cancer, genetic mutations, physiological malfunctions (including malfunctions in reproduction) or physical deformities, in such organisms or their offspring.

(19) The term "water pollution" means the man-made or man-induced alteration of the chemical, physical, biological, or radiological integrity of the waters of the State, including, but specifically not limited to, alterations resulting from the concentration or increase of natural pollutants caused by man-related activities.

(20) Repealed by Session Laws 1987, c. 827, s. 153.

(21) The term "watershed" means a natural area of drainage, including all tributaries contributing to the supply of at least one major waterway within the State, the specific limits of each separate watershed to be designated by the Commission.

(22) The term "complex sources" means any facility which is or may be an air pollution source or which will induce or tend to induce development or activities which will or may be air pollution sources, and which shall include, but not be limited to, shopping centers; sports complexes; drive-in theaters; parking lots and garages; residential, commercial, industrial or institutional developments; amusement parks and recreation areas; highways; and any other facilities which will result in increased emissions from motor vehicles or stationary sources.

(23) The term "effluent standards or limitations" means any restrictions established pursuant to this Article on quantities, rates, characteristics and concentrations of chemical, physical, biological and other constituents of wastes which are discharged from any pretreatment facility or from any outlet or point source to the waters of the State.

(24) The term "point source" means any discernible, confined, and discrete conveyance, including, but specifically not limited to, any pipe, ditch, channel, tunnel, conduit, well, discrete fissure, container, rolling stock, or concentrated animal-feeding operation from which wastes are or may be discharged to the waters of the State.

(25) The term "pretreatment facility" means any treatment works installed for the purpose of treating, equalizing, neutralizing or stabilizing waste from any source prior to discharge to any disposal system subject to effluent standards or limitations.

(26) The term "pretreatment standards" means effluent standards or limitations applicable to waste discharged from a pretreatment facility.

(27) The term "Clean Air Act" refers to the federal Clean Air Act, as amended, codified generally at 42 U.S.C. § 7401 et seq.

(28) The term "nonattainment area" refers to an area which is shown to exceed any national ambient air quality standard for such pollutant.

(29) The term "prevention of significant deterioration" refers to the statutory and regulatory requirements arising from the Clean Air Act designed to prevent the significant deterioration of air quality in areas with air quality better than required by the national ambient air quality standards.

(29a) Reserved.

(29b) "Title II" means Title II of the 1990 amendments to the federal Clean Air Act and the National Emission Standards Act (Pub. L. 101-549, 104 Stat. 2471, 42 U.S.C. § 7521 et seq.).

(29c) "Title III" means Title III of the 1990 amendments to the federal Clean Air Act (Pub. L. 101-549, 104 Stat. 2531, 42 U.S.C. § 7412 et seq.).

(29d) "Title IV" means Title IV of the 1990 amendments to the federal Clean Air Act (Pub. L. 101-549, 104 Stat. 2584, 42 U.S.C. § 7651 et seq.).

(29e) "Title V" means Title V of the 1990 amendments to the federal Clean Air Act (Pub. L. 101-549, 104 Stat. 2635, 42 U.S.C. § 7661 et seq.).

(29f) through (29o) Reserved.

(29p) "Title V Account" means the Account established in G.S. 143-215.3A(b).

(30) The term "waste treatment management practice" means any method, measure or practice to control plant site runoff, spillage or leaks, sludge or waste disposal and drainage from raw material storage which are associated with, or ancillary to the industrial manufacturing or treatment process of the class or category of point sources to which the management practice is applied. Waste treatment management practices may only be imposed, supplemental to effluent limitations, for a class or category of point sources, for any specific pollutant which has been designated as toxic or hazardous pursuant to sections 307(a)(1) or 311 of the Federal Water Pollution Control Act. (1951, c. 606; 1957, c. 1275, s. 1; 1959, c. 779, s. 8; 1967, c. 892, s. 1; 1971, c. 1167, s. 4; 1973, c. 821, ss. 1-3; c. 1262, s. 23; 1977, c. 771, s. 4; 1979, c. 545, ss. 8-10; c. 633, s. 1; 1987, c. 827, ss. 153, 154; 1989, c. 135, s. 2; c. 447, s. 1; c. 742, s. 7; 1991, c. 287, s. 1; c. 403, s. 1; c. 552, s. 1; 1991 (Reg. Sess., 1992), c. 889, ss. 1, 2; c. 1028, s. 2; c. 1039, s. 13; 1993, c. 400, ss. 1(a)-(c).)

Cross References. — As to the organization of the Department of Environment and Natural Resources, see G.S. 143B-279.1 et seq.

Editor's Note. — Session Laws 1991, c. 403, s. 6 provides: "This act shall not be construed to obligate the General Assembly to make any appropriation to implement the provisions of this act. Each agency to which this act applies shall implement the provisions of this act from funds otherwise appropriated or available to that agency."

Subdivisions (29f) through (29o) were reserved, and subdivision (29p) was so designated, at the direction of the Revisor of Statutes.

Legal Periodicals. — For survey of 1979 administrative law, see 58 N.C.L. Rev. 1185 (1980).

§ 143-214: Repealed by Session Laws 1973, c. 1262, s. 23.

§ 143-214.1. Water; water quality standards and classifications; duties of Commission.

(a) Development and Adoption of Classifications and Standards. — The Commission is hereby directed and empowered, as rapidly as possible within the limits of funds and facilities available to it, and subject to the procedural requirements of this Article:

(1) To develop and adopt, after proper study, a series of classifications and the standards applicable to each such classification, which will be appropriate for the purpose of classifying each of the waters of the State in such a way as to promote the policy and purposes of this Article most effectively;

(2) To survey all the waters of the State and to separately identify all such waters as the Commission believes ought to be classified separately in order to promote the policy and purposes of this Article, omitting only such waters, as in the opinion of the Commission, are insufficiently important to justify classification or control under this Article; and

(3) To assign to each identified water of the State such classification, from the series adopted as specified above, as the Commission deems proper in order to promote the policy and purposes of this Article most effectively.

(b) Criteria for Classification. — In developing and adopting classifications, and the standards applicable to each, the Commission shall recognize that a number of different classifications should be provided for (with different standards applicable to each) so as to give effect to the need for balancing conflicting considerations as to usage and other variable factors; that different classifications with different standards applicable thereto may frequently be appropriate for different segments of the same water; and that each classification and the standards applicable thereto should be adopted with primary reference to the best usage to be made of the waters to which such classification will be assigned.

(c) Criteria for Standards. — In establishing the standards applicable to each classification, the Commission shall consider and the standards when finally adopted and published shall state: the extent to which any physical, chemical, or biological properties should be prescribed as essential to the contemplated best usage.

(d) Criteria for Assignment of Classifications. — In assigning to each identified water the appropriate classifications (with its accompanying standards), the Commission shall consider, and the decision of the Commission when finally adopted and published shall contain its conclusions with respect to the following factors as related to such identified waters:

(1) The size, depth, surface area covered, volume, direction and rate of flow, stream gradient and temperature of the water;

(2) The character of the district bordering said water, including any peculiar suitability such district may have or any dominant economic interest or development which has become established in relation to or by reason of any particular use of such water;

(3) The uses and extent thereof which have been made, are being made, or may in the future be made, of such water for domestic consumption, bathing, fish or wildlife and their culture, industrial consumption, transportation, fire prevention, power generation, scientific or research uses, the disposal of sewage, industrial wastes and other wastes, or any other uses;

(4) In revising existing or adopting new water quality classifications or standards, the Commission shall consider the use and value of State waters for public water supply, propagation of fish and wildlife,

recreation, agriculture, industrial and other purposes, use and value for navigation, and shall take into consideration, among other things, an estimate as prepared under section 305(b)(1) of the Federal Water Pollution Control Act amendments of 1972 of the environmental impact, the economic and social costs necessary to achieve the proposed standards, the economic and social benefits of such achievement and an estimate of the date of such achievement;

(5) With regard to the groundwaters, the factors to be considered shall include the natural quality of the water below land surface and the condition of occurrences, recharge, movement and discharge, the vulnerability to pollution from wastewaters and other substances, and the potential for improvement of the quality and quantity of the water.

(e) Chapter 150B of the General Statutes governs the adoption and publication of rules under this Article.

(f), (g) Repealed by Session Laws 1987, c. 827, s. 156. (1951, c. 606; 1957, c. 1275, s. 2; 1967, c. 892, s. 1; 1969, c. 822, s. 1; 1973, c. 1262, s. 23; 1975, c. 19, s. 50; c. 583, s. 8; c. 655, s. 5; 1977, c. 771, s. 4; 1979, c. 633, s. 6; 1979, 2nd Sess., c. 1199; 1983, c. 296, s. 1; 1987, c. 827, ss. 154, 156.)

Editor's Note. — Session Laws 1998-138, s. 1, provided: "Pursuant to G.S. 150B-21.3(b), the amendments to 15A NCAC 2B.0316, (Tar-Pamlico River Basin), as adopted by the Environmental Management Commission and approved by the Rules Review Commission on 15 January 1998, are disapproved. The Environmental Management Commission may adopt, pursuant to G.S. 150B-21.1 and consistent with G.S. 143-214.1, 143-215.1, and 143-215.3(a)(1), a temporary rule that incorporates the amendments to 15A NCAC 2B.0316 that are disapproved by this act, except that the primary classification of the portion of the Tar River designated as Index Number 28-(74) may not be reclassified from WS-IV to WS-V by a temporary rule pursuant to this act."

Session Laws 1999-329, s. 1.1 provides that this act shall be known as the "Clean Water Act of 1999."

Session Laws 1999-329, s. 7.1, provides that, notwithstanding G.S. 150B-21.1(a)(2) and s. 8.6 of Session Laws 1997-458, the Environmental Management Commission may adopt temporary rules to protect water quality standards and uses as required to implement basinwide water quality management plans for the Cape Fear, Catawba, and Tar-Pamlico River Basins pursuant to G.S. 143-214.1, 143-214.7, 143-215.3, and 143B-282. The Commission is to provide notice and the opportunity for a hearing prior to the adoption of a temporary rule under this provision. Section 7.2 provides that s. 7.1 is to continue in effect until July 1, 2001. Section 7.3 provides that 7.1 through 7.3 are not to be construed to invalidate any development and implementation of basinwide water quality management plans by the Envirnomental Management Commission and the Department of Environment and Natural Resources occurring prior to the effective date thereof (July 21, 1999).

Session Laws 1999-329, s. 13.7 provides that this act shall not be construed to obligate the General Assembly to appropriate funds to implement the provisions of this act. Every State agency to which this act applies shall implement the provisions of this act from funds otherwise appropriated or available to that agency.

Session Laws 1999-329, s. 13.8 contains a severability clause.

Session Laws 2001-355, ss. 1 to 6 provide for the implementation of the Tar-Pamlico River Basin-Nutrient Sensitive Waters Management Strategy: Agricultural Nutrient Control Strategy, as adopted by the Environmental Management Commission on 12 October 2000 and approved by the Rules Review Commission on 20 November 2000, to become effective on 1 September 2001. A Local Advisory Committee is to be appointed in each county or watershed, as specified in the Basin Oversight Committee, within the Tar-Pamlico River Basin; these committees terminate upon a finding by the Environmental Management Commission that the long-term maintenance of nutrient loads is assured. Under the act, the Soil and Water Commission is to approve best management practices for pasture-based production or management of livestock, including a point system applicable thereto. Harvesting of trees is also addressed. Furthermore, the Basin Oversight Committee is to develop a nutrient loading accounting methodology, to be approved by the Environmental Management Commission no later than 1 March 2003. The Environmental Management Commission may adopt and revise a temporary rule incorporating the provisions of the act until a permanent rule can

be adopted. Session Laws 2001-355, s. 7 provides that ss. 2 and 3 of the act expire when the temporary rule becomes effective, and s. 4 expires upon a finding that the long-term maintenance of nutrient loads in the Tar-Pamlico River Basin is assured.

Session Laws 2001-361, s. 1, provides "Notwithstanding G.S. 150B-21.3(b), 15ANCAC 2B.0315 (Neuse River Basin), as amended by the Environmental Management Commission on 12 October 2000 and approved by the Rules Review Commission on 16 November 2000, becomes effective on 1 July 2004 unless the 2004 Regular Session of the 2003 General Assembly specifically disapproves 15A NCAC2B.0315 (Neuse River Basin), as amended by the Environmental Management Commission on 12 October 2000 and approved by the Rules Review Commission on 16 November 2000, by enactment of a bill as provided in G.S. 150B-21.3(b)."

Session Laws 2001-418, s. 4(a), as amended by Session Laws 2003-340, s. 5, provides: "Notwithstanding G.S. 150B-21.1(d), temporary rules 15A NCAC 2B.0243 and 15A NCAC 2B.0244, which were adopted pursuant to Section 7.1 of S.L. 1999-329 and which became effective on or before 1 July 2001, shall continue in effect until 1 September 2004 in order to provide sufficient time for the Environmental Management Commission to further consult with businesses and industries, local governments, landowners, and other interested or potentially affected persons in the upper and lower Catawba River Basin as to the appropriate scope of permanent rules to protect water quality and riparian buffers in that river basin. In developing permanent rules, the Commission shall consider whether riparian buffers on the mainstem of the Catawba River and on lake shorelines are adequate to protect water quality in the river and whether riparian buffer protection requirements should or should not be extended to some or all of the tributary streams in the river basin, taking into account the sources of water quality degradation in the river, the topography of the land in the river basin, and other relevant factors."

Session Laws 2001-418, s. 4(b), provides: "Vested rights recognized or established under the common law or by G.S. 153A-344(b), 153A-344.1, 160A-385(b), or 160A-385.1 shall include the right, as provided in this subsection, to undertake and complete development in the Catawba River Basin without application of temporary rule 15A NCAC 2B.0243. The Commission and the Department shall not apply temporary rule 15A NCAC 2B.0243 to development with vested rights recognized or established under G.S. 153A-344(b), 153A-344.1, 160A-385(b), or 160A-385.1 prior to 1 July 2001. The Commission and the Department shall not apply temporary rule 15A NCAC 2B.0243 to development with vested rights recognized or established under the common law prior to the date this section becomes effective if the Commission has issued a certification pursuant to G.S. 143B-282(a)(1)u. prior to 1 July 2001. The Commission shall not adopt or enforce rules that confer or restrict a vested right to undertake or complete development. It is the intent of the General Assembly that this subsection apply only to the particular circumstances that are the subject of this section. This subsection does not establish a precedent as to the application of vesting under a zoning or land-use planning program administered by a local government or to any other environmental program."

Session Laws 2001-418, s. 4(c) provides: "Notwithstanding G.S. 150B-21.3(a), this section shall not be construed to authorize the adoption of additional temporary rules related to protection of water quality and riparian buffers."

Session Laws 2001-491, s. 16.1 provides that "The Secretary of the Department of Environment and Natural Resources, in cooperation with the Director of the South Carolina Department of Health and Environmental Control, shall study strategies and mechanisms to promote better coordination of the activities of the two states on water quality and water supply within the Catawba-Wateree River basin. This study may include the following topics:

"(1) The need for and development of a memorandum of agreement between North and South Carolina to ensure cooperation, coordination and integrated management in addressing issues related to the basin, all within the framework of currently existing programs and agencies of the two states.

"(2) The development of a shared model and common procedures for use by both states in collecting and reporting data and information concerning water quality and water supply within the entire basin.

"(3) The desirability and feasibility of establishing joint, basinwide goals, policies, planning and implementation tools, and the desirability of different types of decision-making structures for accomplishing the joint activities.

"(4) Any other related topics.

"The Secretary shall submit a report on the results of this study, including any recommended legislation, to the 2002 Regular Session of the 2001 General Assembly."

Session Laws 2003-433, ss. 1 and 2, provide: "Pursuant to G.S. 150B-21.3(b), 15A NCAC 2B.0225 (Outstanding Resource Waters) and 15A NCAC 2B.0316 (Tar-Pamlico River Basin), as adopted by the Environmental Management Commission on 11 July 2002 and approved by the Rules Review Commission on 15 August 2002, are approved effective 1 August 2003

with respect to all waters and lands that are located west of Nash County State Road 1003 (Red Oak Road).

"With respect to all waters and lands that are located east of Nash County State Road 1003 (Red Oak Road), 15A NCAC 2B.0225 (Outstanding Resource Waters) and 15A NCAC 2B.0316 (Tar-Pamlico River Basin), as adopted by the Environmental Management Commission on 11 July 2002 and approved by the Rules Review Commission on 15 August 2002, shall not become effective as provided in G.S. 150B-21.3(b) and shall become effective only as the 2004 Regular Session of the 2003 General Assembly may provide by law."

Avery County, 346 N.C. 787, 488 S.E.2d 144 (1997); N.C. Home Bldrs. Ass'n v. Envtl. Mgmt. Comm'n, 155 N.C. App. 408, 573 S.E.2d 732, 2002 N.C. App. LEXIS 1617 (2002), cert. denied, 357 N.C. 62, 579 S.E.2d 392 (2003).

§ 143-214.2. Prohibited discharges.

(a) The discharge of any radiological, chemical or biological warfare agent or high-level radioactive waste to the waters of the State is prohibited.

(b) The discharge of any wastes to the subsurface or groundwaters of the State by means of wells is prohibited. This section shall not be construed to prohibit the operation of closed-loop groundwater remediation systems in accordance with G.S. 143-215.1A.

(c) Unless permitted by a rule of the Commission, the discharge of wastes, including thermal discharges, to the open waters of the Atlantic Ocean over which the State has jurisdiction are prohibited. (1973, c. 698, s. 2; c. 1262, s. 23; 1987, c. 827, ss. 154, 157; 1991 (Reg. Sess., 1992), c. 786, s. 2.)

Legal Periodicals. — For article, "North Carolina Employment Law After Coman: Reaffirming Basic Rights in the Workplace," see 24 Wake Forest L. Rev. 905 (1989).

OPINIONS OF ATTORNEY GENERAL

Dumping Waste Prohibited Within Three Miles of Seashore. — North Carolina General Statutes specifically prohibit the dumping of waste materials such as bags of medical refuse and other forms of ocean dumping or the introduction of other pollutants in coastal waters if the waste materials are dumped within three miles of the Atlantic seashore. See opinion of the Attorney General to Lieutenant Governor Robert B. Jordan, III, 58 N.C.A.G. 57 (1988).

§ 143-214.2A. Prohibited disposal of medical waste.

(a) Violation. — It is unlawful for any person to engage in conduct which causes or results in the dumping, discharging, or disposal directly or indirectly, of any medical waste as defined in G.S. 130A-290 to the open waters of the Atlantic Ocean over which the State has jurisdiction or to any waters of the State.

(b) Civil Penalty. —

(1) A civil penalty of not more than twenty-five thousand dollars ($25,000) may be assessed by the Secretary against any person for a first violation of this section and an additional penalty of twenty-five thousand dollars ($25,000) may be assessed for each day during which the violation continues. A civil penalty of not more than fifty thousand

dollars ($50,000) may be assessed by the Secretary for a second or further violation and an additional penalty of fifty thousand dollars ($50,000) may be assessed for each day during which the violation continues.

(2) In determining the amount of the penalty the Secretary shall consider the factors set out in G.S. 143B-282.1(b). The procedures set out in G.S. 143B-282.1 shall apply to civil penalty assessments that are presented to the Commission for final agency decision.

(3) The Secretary shall notify any person assessed a civil penalty of the assessment and the specific reasons therefor by registered or certified mail, or by any means authorized by G.S. 1A-1, Rule 4. Contested case petitions shall be filed within 30 days of receipt of the notice of assessment.

(4) Requests for remission of civil penalties shall be filed with the Secretary. Remission requests shall not be considered unless made within 30 days of receipt of the notice of assessment. Remission requests must be accompanied by a waiver of the right to a contested case hearing pursuant to Chapter 150B and a stipulation of the facts on which the assessment was based. Consistent with the limitations in G.S. 143B-282.1(c) and (d), remission requests may be resolved by the Secretary and the violator. If the Secretary and the violator are unable to resolve the request, the Secretary shall deliver remission requests and his recommended action to the Committee on Civil Penalty Remissions of the Environmental Management Commission appointed pursuant to G.S. 143B-282.1(c).

(5) If any civil penalty has not been paid within 30 days after notice of assessment has been served on the violator, the Secretary shall request the Attorney General to institute a civil action in the Superior Court of any county in which the violator resides or has his or its principal place of business to recover the amount of the assessment, unless the violator contests the assessment as provided in subdivision (3) of this subsection, or requests remission of the assessment in whole or in part as provided in subdivision (4) of this subsection. If any civil penalty has not been paid within 30 days after the final agency decision or court order has been served on the violator, the Secretary shall request the Attorney General to institute a civil action in the Superior Court of any county in which the violator resides or has his or its principal place of business to recover the amount of the assessment.

(6) Repealed by Session Laws 1995 (Regular Session, 1996), c. 743, s. 12.

(7) The clear proceeds of civil penalties assessed pursuant to this subsection shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2.

(c) Criminal Penalties. —

(1) A person who willfully violates this section is guilty of a Class 1 misdemeanor.

(2) A person who willfully violates this section and in so doing releases medical waste that creates a substantial risk of physical injury to any person who is not a participant in the offense is guilty of a Class F felony which may include a fine not to exceed fifty thousand dollars ($50,000) per day of violation.

(d) Restoration. —

(1) Any person having control over medical waste discharged in violation of this section shall immediately undertake to collect, remove, and dispose of the medical waste discharged and to restore the area affected by the discharge as nearly as may be to the condition existing

prior to the discharge. If it is not feasible to collect and remove the medical waste, the person responsible shall take all practicable actions and measures to otherwise contain, treat, and disperse the medical waste; but no chemical or other dispersants or treatment materials shall be used for such purposes unless they shall have been previously approved by the Department.

(2) Notwithstanding the requirements of subdivision (1), the Department is authorized and empowered to utilize any staff, equipment and materials under its control or supplied by other cooperating State or local agencies, and to contract with any agent or contractor that it deems appropriate to take such actions as are necessary, to collect, investigate, perform surveillance over, remove, contain, treat or disperse or dispose of medical waste discharged into the waters of the State in violation of this section, and to perform any necessary restoration. The Secretary shall keep a record of all expenses incurred in carrying out any project or activity authorized under this section, including actual expenses incurred for services performed by the State's personnel and for use of the State's equipment and material.

(3) Every person owning or having control over medical waste discharged in violation of, or in circumstances likely to constitute a violation of this section, upon discovery that the discharge of medical waste has occurred, shall immediately notify the Department, or any of its agents or employees, of the nature, location and time of the discharge and of the measures which are being taken or are proposed to be taken to contain, remove, treat and dispose of the medical waste. The agent or employee of the department receiving the notification shall immediately notify the Secretary or such member of the permanent staff of the Department as the Secretary may designate.

(4) Any person who discharges medical waste in violation of this section or violates any order or rule of the Commission regarding the prohibitions concerning medical waste, or fails to perform any duty imposed regarding medical waste, and in the course thereof causes the death of, or injury to fish, animals, vegetation or other resources of the State, or otherwise causes a reduction in the quality of the waters of the State below the standards set by the Commission, or causes the incurring of costs by the State for the containment, removal, treatment, or dispersal, or disposal of such medical waste, shall be liable to pay the State damages. Such damages shall be an amount equal to the cost of all reasonable and necessary investigations made or caused to be made by the State in connection with such violation and the sum of money necessary to restock such waters, replenish such resources, contain, remove, treat, or disperse, or dispose of such medical waste, or otherwise restore such waters and adjacent lands prior to the injury as such condition is determined by the Commission in conference with the Wildlife Resources Commission, the Marine Fisheries Commission, and any other State agencies having an interest affected by such violation (or by the designees of any such boards, commissions, and agencies).

(5) Upon receipt of the estimate of damages caused, the Department shall give written notice by registered or certified mail to the person responsible for the death, killing, or injury to fish, animals, vegetation, or other resources of the State, or any reduction in quality of the waters of the State, or the costs of the removal, treatment or disposal of such discharge, describing the damages and their causes with reasonable specificity, and shall request payment from such person. Damages shall become due and payable upon receipt of such notice.

The Environmental Management Commission, if collection or other settlement of the damages is not obtained within a reasonable time, shall bring a civil action to recover such damages in the superior court in the county in which the discharge of waste or the damages to resources occurred, or in Wake County if the discharge or resource damage occurs in the open waters of the Atlantic Ocean. The assessment of damages is not a contested case under G.S. 150B-23.

(6) "Person having control over medical waste" shall mean, but shall not be limited to, any person using, storing, or transporting medical waste immediately prior to a discharge of such waste into the waters of the State, and specifically shall include carriers and bailees of such medical waste. (1989, c. 742, s. 8; 1989 (Reg. Sess., 1990), c. 1036, s. 9; 1993, c. 539, ss. 1016, 1312; 1994, Ex. Sess., c. 24, s. 14(c); 1995 (Reg. Sess., 1996), c. 743, s. 12; 1998-215, s. 60.)

Legal Periodicals. — For article, "Coastal Management Law in North Carolina: 1974-1994," see 72 N.C.L. Rev. 1413 (1994).

§ 143-214.2B. Storage of waste on vessels.

The operator of a vessel in the State's waters shall take precautions to ensure that certain items do not enter and contaminate the waters. The operator shall store fuel, oil, paint, varnish, solvent, pesticide, insecticide, fungicide, algicide, or any other hazardous liquid in one or more closed containers that are adequate to prevent the release of the items into the waters of the State. (1993, c. 466, s. 5.)

§ 143-214.3. Revision to water quality standard.

(a) Any person subject to the provisions of G.S. 143-215.1 may petition the Commission for a hearing pursuant to G.S. 143-215.4 for a revision to water quality standards adopted pursuant to G.S. 143-214.1 as such water quality standards may apply to a specific stream segment into which the petitioner discharges or proposes to discharge.

(b) Upon a finding by the Commission that:

(1) Natural background conditions in the stream segment preclude the attainment of the applicable water quality standards; or

(2) Irretrievable and uncontrollable man-induced conditions preclude the attainment of the applicable water quality standards; or

(3) Application of effluent limitations for existing sources established or proposed pursuant to G.S. 143-215.1 more restrictive than those effluent standards and limitations determined or promulgated by the United States Environmental Protection Agency pursuant to section 301 of the Federal Water Pollution Control Act in order to achieve and maintain applicable water quality standards would result in adverse social and economic impact, disproportionate to the benefits to the public health, safety or welfare as a result of maintaining the standards; and

(4) There exists no reasonable relationship between the cost to the petitioner of achieving the effluent limitations necessary to comply with applicable water quality standards to the benefits, including the incremental benefits to the receiving waters, to be obtained from the application of the said effluent limitations;

Then the Commission shall revise the standard or standards, as such standard may apply to the petitioner, provided that such revised standards shall be no

less stringent than that which can be achieved by the application of the highest level of treatment which will result in benefits, including the incremental benefits to the receiving waters, having a reasonable relationship to the cost to the petitioner to apply such treatment, as determined by the evidence; provided, however, in no event shall these standards be less stringent than the level attainable with the application by the petitioner of those effluent standards and limitations determined or promulgated by the United States Environmental Protection Agency pursuant to section 301 of the Federal Water Pollution Control Act; provided, further, that no revision shall be granted which would endanger human health or safety. (1979, c. 929; 1987, c. 827, s. 154.)

Legal Periodicals. — For survey of 1979 administrative law, see 58 N.C.L. Rev. 1185 (1980).

§ 143-214.4. Certain cleaning agents containing phosphorus prohibited.

(a) No person may manufacture, store, sell, use, or distribute for sale or use any cleaning agent containing phosphorus in the State, except as otherwise provided in this section.

(b) As used in this section, "cleaning agent" means a laundry detergent, dishwashing compound, household cleaner, metal cleaner or polish, industrial cleaner, or other substance that is used or intended for use for cleaning purposes.

(c) This section shall not apply to cleaning agents which are used:

(1) In agricultural or dairy production;

(2) To clean commercial food or beverage processing equipment or containers;

(3) As industrial sanitizers, metal brighteners, or acid cleaners, including those containing phosphoric acid or trisodium phosphate;

(4) In industrial processes for metal, fabric or fiber cleaning and conditioning;

(5) In hospitals, clinics, nursing homes, other health care facilities, or veterinary hospitals or clinics;

(6) By a commercial laundry or textile rental service company or any other commercial entity: (i) to provide laundry service to hospitals, clinics, nursing homes, other health care facilities, or veterinary hospitals or clinics; (ii) to clean textile products supplied to industrial or commercial users of the products on a rental basis; or (iii) to clean professional, industrial or commercial work uniforms;

(7) In the manufacture of health care or veterinary supplies;

(8) In any medical, biological, chemical, engineering or other such laboratory, including those associated with any academic or research facility;

(9) As water softeners, antiscale agents, or corrosion inhibitors, where such use is in a closed system such as a boiler, air conditioner, cooling tower, or hot water heating system;

(10) To clean hard surfaces including windows, sinks, counters, floors, ovens, food preparation surfaces, and plumbing fixtures.

(d) This section shall not apply to cleaning agents which:

(1) Contain phosphorus in an amount not exceeding five-tenths of one percent (0.5%) by weight which is incidental to manufacturing;

(2) Contain phosphorus in an amount not exceeding eight and seven-tenths percent (8.7%) by weight and which are intended for use in a commercial or household dishwashing machine;

(3) Are manufactured, stored, sold, or distributed for use solely outside the State.

(e) The Commission may permit the use of a cleaning agent which contains phosphorus in an amount exceeding five-tenths of one percent (0.5%) but not exceeding eight and seven-tenths percent (8.7%) by weight upon a finding that there is no adequate substitute for such cleaning agent, or that compliance with this section would otherwise be unreasonable or create a significant hardship on the user. The Commission shall adopt rules to administer this subsection.

(f) Any person who manufactures, sells or distributes any cleaning agent in violation of this section shall be guilty of a Class 3 misdemeanor punishable only by a fine not to exceed fifty dollars ($50.00).

(g) Any person who uses any cleaning agent in violation of the provisions of this section shall be responsible for an infraction for which the sanction is a penalty of not more than ten dollars ($10.00). Notwithstanding G.S. 143-3.1(a), the clear proceeds of infractions pursuant to this section shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2. (1987, c. 111, s. 1; c. 817; c. 827, s. 154; 1993, c. 539, s. 1017; 1994, Ex. Sess., c. 24, s. 14(c); 1998-215, s. 61.)

§ 143-214.5. Water supply watershed protection.

(a) Policy Statement. — This section provides for a cooperative program of water supply watershed management and protection to be administered by local governments consistent with minimum statewide management requirements established by the Commission. If a local government fails to adopt a water supply watershed protection program or does not adequately carry out its responsibility to enforce the minimum water supply watershed management requirements of its approved program, the Commission shall administer and enforce the minimum statewide requirements. The reduction of agricultural nonpoint source discharges shall be accomplished primarily through the Agriculture Cost Share Program for Nonpoint Source Pollution Control.

(b) Development and Adoption of Water Supply Watershed Classifications and Management Requirements. — The Commission shall adopt rules for the classification of water supply watersheds and that establish minimum statewide water supply watershed protection requirements applicable to each classification to protect surface water supplies by (i) controlling development density, (ii) providing for performance-based alternatives to development density controls that are based on sound engineering principles, or (iii) a combination of both (i) and (ii). The Commission may designate water supply watersheds or portions thereof as critical water supply watersheds and impose management requirements that are more stringent than the minimum statewide water supply watershed management requirements. The Commission may adopt rules that require that any permit issued by a local government for a development or construction activity conducted by that local government within a designated water supply watershed be approved by the Department prior to issuance. Any variance from the minimum statewide water supply watershed management requirements must be approved by the Commission prior to the issuance of a permit by a local government. Except as provided by G.S. 153A-347 and G.S. 160A-392, the power to implement this section with respect to development or construction activities that are conducted by State agencies is vested exclusively in the Commission.

(c) Classification of Water Supply Watersheds. — The Commission shall assign to each water supply watershed in the State the appropriate classification with the applicable minimum management requirements. The Commission may reclassify water supply watersheds as necessary to protect future

water supplies or improve protection at existing water supplies. A local government shall not be required to submit a revised water supply watershed protection program to the Commission earlier than 270 days after it receives notice of a reclassification from the Commission.

(d) Mandatory Local Programs. — The Department shall assist local governments to develop water supply watershed protection programs that comply with this section. Local government compliance programs shall include an implementing local ordinance and shall provide for maintenance, inspection, and enforcement procedures. As part of its assistance to local governments, the Commission shall approve and make available a model local water supply watershed management and protection ordinance. The model management and protection ordinance adopted by the Commission shall, at a minimum, include as options (i) controlling development density, (ii) providing for performance-based alternatives to development density controls that are based on sound engineering principles, and (iii) a combination of both (i) and (ii). Local governments shall administer and enforce the minimum management requirements. Every local government that has within its jurisdiction all or a portion of a water supply watershed shall submit a local water supply watershed management and protection ordinance to the Commission for approval. Local governments may adopt such ordinances pursuant to their general police power, power to regulate the subdivision of land, zoning power, or any combination of such powers. In adopting a local ordinance that imposes water supply watershed management requirements that are more stringent than those adopted by the Commission, a county must comply with the notice provisions of G.S. 153A-343 and a municipality must comply with the notice provisions of G.S. 160A-384. This section shall not be construed to affect the validity of any local ordinance adopted for the protection of water supply watersheds prior to completion of the review of the ordinance by the Commission or prior to the assumption by the Commission of responsibility for a local water supply watershed protection program. Local governments may create or designate agencies to administer and enforce such programs. The Commission shall approve a local program only if it determines that the requirements of the program equal or exceed the minimum statewide water supply watershed management requirements adopted pursuant to this section.

(d1) A local ordinance adopted to implement the minimum statewide water supply watershed management requirements applicable to agriculture and silviculture activities shall be no more restrictive than those adopted by the Commission. In adopting minimum statewide water supply watershed management requirements applicable to agriculture activities, the Commission shall consider the policy regarding agricultural nonpoint source discharges set out in subsection (a) of this section. The Commission may by rule designate another State agency to administer the minimum statewide water supply watershed management requirements applicable to agriculture and silviculture activities. If the Commission designates another State agency to administer the minimum statewide water supply watershed management requirements applicable to agriculture and silviculture activities, management requirements adopted by local governments shall not apply to such activities.

(e) Assumption of Local Programs. — The Commission shall assume responsibility for water supply watershed protection, within all or the affected portion of a water supply watershed, if a local government fails to adopt a program that meets the requirements of this section or whenever a local government fails to adequately administer and enforce the provisions of its program. The Commission shall not assume responsibility for an approved local water supply watershed protection program until it or its designee notifies the local government in writing by certified mail, return receipt requested, of local program deficiencies, recommendations for changes and improvements in the

local program, and the deadline for compliance. The Commission shall allow a local government a minimum of 120 days to bring its program into compliance. The Commission shall order assumption of an approved local program if it finds that the local government has made no substantial progress toward compliance. The Commission may make such finding at any time between 120 days and 365 days after receipt of notice under this subsection by the local government, with no further notice. Proceedings to review such orders by the Commission shall be conducted by the superior court pursuant to Article 4 of Chapter 150B of the General Statutes based on the agency record submitted to the Commission by the Secretary.

(f) State Enforcement Authority. — The Commission may take any appropriate preventive or remedial enforcement action authorized by this Part against any person who violates any minimum statewide water supply watershed management requirement.

(g) Civil Penalties. — A local government that fails to adopt a local water supply watershed protection program as required by this section or willfully fails to administer or enforce the provisions of its program in substantial compliance with the minimum statewide water supply watershed management requirements shall be subject to a civil penalty pursuant to G.S. 143-215.6A(e). In any area of the State that is not covered by an approved local water supply watershed protection program, any person who violates or fails to act in accordance with any minimum statewide water supply watershed management requirement or more stringent management requirement adopted by the Commission for a critical water supply watershed established pursuant to this section shall be subject to a civil penalty as specified in G.S. 143-215.6A(a)(7).

The clear proceeds of civil penalties provided for in this section shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2.

(h) Planning Grants to Local Governments. — The Secretary may make annual grants to local governments for the purpose of assisting in the development of local water supply watershed protection programs. The Secretary shall develop and administer generally applicable criteria under which local governments may qualify for such assistance. Such criteria shall give priority to local governments that are not then administering zoning ordinances in affected water supply watershed areas.

(i) Every State agency shall act in a manner consistent with the policies and purposes of this section, and shall comply with the minimum statewide water supply watershed management requirements adopted by the Commission and with all water supply watershed management and protection ordinances adopted by local governments. (1989, c. 426, s. 1; 1991, c. 342, s. 9; c. 471, s. 2; c. 579, s. 1; 1991 (Reg. Sess., 1992), c. 890, s. 14; 1998-215, s. 62.)

Editor's Note. — Session Laws 1989, c. 426, s. 7 provided: "This act shall not affect the validity of any local ordinance relating to watershed protection adopted prior to the effective date of this act [June 23, 1989]."

Session Laws 1989, c. 426, s. 7.1 provided: "Nothing herein contained shall be construed to obligate the General Assembly to appropriate funds to implement the provisions of this act."

Session Laws 1995, c. 301, provides that, since certain water supply watersheds meet the standards of more than one classification under the water supply watershed protection program, the Environmental Management Commission shall reexamine, under G.S. 143-214.5, the classification of any water supply watershed that was classified as a WS-III water supply watershed on March 1, 1995, and that meets certain other criteria; that reclassification of any such watershed shall reduce the land area affected; that any watershed that is reclassified as a WS-IV watershed shall not thereafter be reclassified to a more restrictive classification; and that if the Commission fails to reexamine the classification of and watershed that meets the criteria of this section by October 1, 1995, that watershed shall automatically be reclassified as WS-IV watershed on that date.

Legal Periodicals. — For comment, "Legal

Analysis of the Constitutionality of the Water Supply Watershed Protection Act of 1989 and the Hyde Bill," see 29 Wake Forest L. Rev. 1279 (1994).

CASE NOTES

Constitutionality. — The Water Supply Water Protection Act (WSWPA) does not violate the Equal Protection Clauses of the Fourteenth Amendment to the Constitution of the United States and Article I, Section 19 of the Constitution of North Carolina because it is not applied equally throughout the state, as the unconstitutional 1993 amendment may be expunged, leaving the WSWPA intact. Town of Spruce Pine v. Avery County, 346 N.C. 787, 488 S.E.2d 144 (1997).

Purpose of Subsection (b). — Subsection (b) provides for the management of watersheds by controlling development density, performance-based alternatives, or a combination of both. Town of Spruce Pine v. Avery County, 346 N.C. 787, 488 S.E.2d 144 (1997).

County had standing and was entitled to challenge the constitutionality of the Water Supply Watershed Protection Act. Town of Spruce Pine v. Avery County, 123 N.C. App. 704, 475 S.E.2d 233 (1996), rev'd on other grounds, 346 N.C. 787, 488 S.E.2d 144 (1997).

§ 143-214.6. Watershed Protection Advisory Council.

(a) Creation. — There is created the Watershed Protection Advisory Council.

(b) Membership. — The Council shall consist of not more than 20 members appointed or designated as follows:

(1) The Secretary or his designee;

(2) The Secretary of Transportation or his designee;

(3) Repealed by Session Laws 1989, c. 727, s. 159.

(4) The Commissioner of Agriculture or his designee;

(5) One member each from two different lead regional organizations to be appointed by the Commission from nominations submitted by lead regional organizations;

(6) Three representatives of county government, one to be appointed by the General Assembly upon recommendation of the President Pro Tempore of the Senate, one to be appointed by the General Assembly upon recommendation of the Speaker of the House of Representatives, and one to be appointed by the Commission, from three lists of three nominees each submitted by the North Carolina Association of County Commissioners;

(7) Three representatives of municipal government, one to be appointed by the General Assembly upon recommendation of the President Pro Tempore of the Senate, one to be appointed by the General Assembly upon recommendation of the Speaker of the House of Representatives, and one to be appointed by the Commission, from three lists of three nominees each submitted by the North Carolina League of Municipalities;

(8) One member appointed by the Commission who has technical or professional expertise in the area of land use planning;

(9) One member who is a local health director appointed by the Commission upon recommendation of the Secretary;

(10) Two members appointed by the Commission who shall be actively involved with or have had extensive experience in the field of land development upon the recommendation of the North Carolina Home Builders Association;

(11) One member appointed by the Commission who has technical or professional expertise in the area of water resources;

(12) One soil and water conservation district supervisor appointed by the Secretary;

(13) Two members appointed by the Commission who represent the interests of the environmental and conservation community.

(c) Functions and Duties. — The Advisory Council shall assist the Secretary and the Commission in an advisory capacity on:

(1) Development of necessary water supply watershed protection rules; and

(2) Such other water supply watershed protection matters as the Council or Secretary consider appropriate.

(c1) Terms of Office and Removal from Office. — Persons appointed to the Council pursuant to subdivisions (5) through (13) of subsection (b) of this section shall be appointed for two-year terms and until their successors are appointed and qualify. All terms shall begin on 1 July of odd numbered years. Appointments to fill vacancies shall be for the balance of the unexpired term. Vacancies in appointments made by the General Assembly shall be filled in accordance with G.S. 120-122. The General Assembly shall have the power, in accordance with G.S. 143B-13, to remove any member appointed by it. The Governor shall have the power, in accordance with G.S. 143B-13, to remove any other member.

(c2) Quorum. — A majority of the Council shall constitute a quorum for the transaction of business.

(d) Multiple Offices. — Any person who is a member of the Council may hold such membership concurrently with and in addition to any other elective or appointive office or offices such person is permitted to hold under G.S. 128-1.1.

(e) Chairman and Vice-Chairman. — The Council shall annually elect a Chairman and Vice-Chairman from among its members.

(f) Compensation. — Members of the Council who are not State employees shall receive per diem and necessary travel and subsistence expenses in accordance with the provisions of G.S. 138-5. (1989, c. 426, s. 2; c. 603, s. 2; c. 727, s. 159.)

Editor's Note. — Session Laws 1989, c. 426, s. 7 provided: "This act shall not affect the validity of any local ordinance relating to watershed protection adopted prior to the effective date of this act [June 23, 1989]."

Session Laws 1989, c. 426, s. 7.1 provided: "Nothing herein contained shall be construed to obligate the General Assembly to appropriate funds to implement the provisions of this act."

CASE NOTES

Constitutionality. — The Water Supply Water Protection Act (WSWPA) does not violate the Equal Protection Clauses of the Fourteenth Amendment to the Constitution of the United States and Article I, Section 19 of the Constitution of North Carolina because it is not applied equally throughout the state, as the unconstitutional 1993 amendment may be expunged, leaving the WSWPA intact. Town of Spruce Pine v. Avery County, 346 N.C. 787, 488 S.E.2d 144 (1997).

County had standing and was entitled to challenge the constitutionality of the Water Supply Watershed Protection Act. Town of Spruce Pine v. Avery County, 123 N.C. App. 704, 475 S.E.2d 233 (1996), rev'd on other grounds, 346 N.C. 787, 488 S.E.2d 144 (1997).

§ 143-214.7. Stormwater runoff rules and programs.

(a) Policy, Purpose and Intent. — The Commission shall undertake a continuing planning process to develop and adopt a statewide plan with regard to establishing and enforcing stormwater rules for the purpose of protecting the surface waters of the State. It is the purpose and intent of this section that, in developing stormwater runoff rules and programs, the Commission may utilize stormwater rules established by the Commission to protect classified shellfish waters, water supply watersheds, and outstanding resource waters;

and to control stormwater runoff disposal in coastal counties and other nonpoint sources. Further, it is the intent of this section that the Commission phase in the stormwater rules on a priority basis for all sources of pollution to the water. The plan shall be applied evenhandedly throughout the State to address the State's water quality needs. The Commission shall continually monitor water quality in the State and shall revise stormwater runoff rules as necessary to protect water quality. As necessary, the stormwater rules shall be modified to comply with federal regulations.

(b) The Commission shall implement stormwater runoff rules and programs for point and nonpoint sources on a phased-in statewide basis. The Commission shall consider standards and best management practices for the protection of the State's water resources in the following order of priority:

(1) Classified shellfish waters.
(2) Water supply watersheds.
(3) Outstanding resource waters.
(4) High quality waters.
(5) All other waters of the State to the extent that the Commission finds control of stormwater is needed to meet the purposes of this Article.

(c) The Commission shall develop model stormwater management programs that may be implemented by State agencies and units of local government. Model stormwater management programs shall be developed to protect existing water uses and assure compliance with water quality standards and classifications. A State agency or unit of local government may submit to the Commission for its approval a stormwater control program for implementation within its jurisdiction. To this end, State agencies may adopt rules, and units of local government are authorized to adopt ordinances and regulations necessary to establish and enforce stormwater control programs. Units of local government are authorized to create or designate agencies or subdivisions to administer and enforce the programs. Two or more units of local government are authorized to establish a joint program and to enter into any agreements that are necessary for the proper administration and enforcement of the program.

(d) The Commission shall review each stormwater management program submitted by a State agency or unit of local government and shall notify the State agency or unit of local government that submitted the program that the program has been approved, approved with modifications, or disapproved. The Commission shall approve a program only if it finds that the standards of the program equal or exceed those of the model program adopted by the Commission pursuant to this section.

(e) The Commission shall annually report to the Environmental Review Commission on the implementation of this section, including the status of any stormwater control programs administered by State agencies and units of local government, on or before 1 October of each year. (1989, c. 447, s. 2; 1995, c. 507, s. 27.8(q); 1997-458, s. 7.1.)

Editor's Note. — For provisions regarding the implementation of the "Tar-Pamlico River Basin-Nutrient Sensitive Waters Management Strategy: Agricultural Nutrient Control Strategy," see editor's note under G.S. 143-214.1.

§ 143-214.8. Wetlands Restoration Program: established.

The Wetlands Restoration Program is established within the Department of Environment and Natural Resources. The Wetlands Restoration Program shall be developed by the Department as a nonregulatory statewide wetlands restoration program for the acquisition, maintenance, restoration, enhancement, and creation of wetland and riparian resources that contribute to the

protection and improvement of water quality, flood prevention, fisheries, wildlife habitat, and recreational opportunities. The Wetlands Restoration Program shall consist of the following components:

(1) Restoration and perpetual maintenance of wetlands.
(2) Development of restoration plans.
(3) Landowner contact and land acquisition.
(4) Evaluation of site plans and engineering studies.
(5) Oversight of construction and monitoring of restoration sites.
(6) Land ownership and management.
(7) Mapping, site identification, and assessment of wetlands functions.
(8) Oversight of private wetland mitigation banks to facilitate the components of the Wetlands Restoration Program. (1996, 2nd Ex. Sess., c. 18, s. 27.4(a); 1997-443, s. 11A.119(a).)

Editor's Note. — Session Laws 1996, Second Extra Session, c. 18, s. 1.1, provides: "This act shall be known as the Current Operations Appropriations Act of 1996."

Session Laws 1996, Second Extra Session, c. 18, s. 27.4(c), (d), and (e), provide that the Department of Environment, Health, and Natural Resources (now the Department of Environment and Natural Resources) is directed to negotiate and enter into a Memorandum of Agreement with the United States Army Corps of Engineers regarding the restoration, creation, enhancement, and preservation of wetlands and the compensatory mitigation required of permit applicants under 33 U.S.C. § 1344; for the appropriation of funds for staff and expenses to implement the Wetlands Restoration Program; and that the Environmental Review Commission shall study private mitigation banks and compare with the Wetlands Restoration Program and report to the 1997 General Assembly.

Session Laws 1996, Second Extra Session, c. 18, s. 29.2, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 1996-97 fiscal year, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 1996-97 fiscal year."

Session Laws 1996, Second Extra Session, c. 18, s. 29.5, is a severability clause.

§ 143-214.9. Wetlands Restoration Program: purposes.

The purposes of the program are as follows:

(1) To restore wetlands functions and values across the State to replace critical functions lost through historic wetlands conversion and through current and future permitted impacts. It is not the policy of the State to destroy upland habitats unless it would further the purposes of the Wetlands Restoration Program.
(2) To provide a consistent and simplified approach to address mitigation requirements associated with permits or authorizations issued by the United States Army Corps of Engineers under 33 U.S.C. § 1344.
(3) To streamline the wetlands permitting process, minimize delays in permit decisions, and decrease the burden of permit applicants of planning and performing compensatory mitigation for wetlands losses.
(4) To increase the ecological effectiveness of compensatory mitigation.
(5) To achieve a net increase in wetland acres, functions, and values in each major river basin.
(6) To foster a comprehensive approach to environmental protection. (1996, 2nd Ex. Sess., c. 18, s. 27.4(a).)

§ 143-214.10. Wetlands Restoration Program: development and implementation of basinwide restoration plans.

Develop Basinwide Restoration Plans. — The Department shall develop basinwide plans for wetlands and riparian area restoration with the goal of

protecting and enhancing water quality, flood prevention, fisheries, wildlife habitat, and recreational opportunities within each of the 17 major river basins in the State. Beginning July 1, 1997, the Department shall develop and begin implementing a basinwide restoration plan for each of the 17 river basins in the State in accordance with the basinwide schedule currently established by the Division of Water Quality. (1996, 2nd Ex. Sess., c. 18, s. 27.4(a).)

§ 143-214.11. Wetlands Restoration Program: compensatory mitigation.

(a) Definition. — For purposes of this section, the term "compensatory mitigation" means the restoration, creation, enhancement, or preservation of wetlands or other areas required as a condition of a section 404 permit issued by the United States Army Corps of Engineers.

(b) Department of Environment and Natural Resources to Coordinate Compensatory Mitigation. — All compensatory mitigation required by permits or authorizations issued by the United States Army Corps of Engineers under 33 U.S.C. § 1344 shall be coordinated by the Department consistent with the basinwide plans for wetlands restoration and rules developed by the Environmental Management Commission. All compensatory wetlands mitigation, whether performed by the Department or by permit applicants, shall be consistent with the basinwide restoration plans.

(c) Mitigation Emphasis on Replacing Ecological Function Within Same River Basin. — The emphasis of mitigation is on replacing functions within the same river basin unless it is demonstrated that restoration of other areas would be more beneficial to the overall purposes of the Wetlands Restoration Program.

(d) Compensatory Mitigation Options Available to Applicant. — An applicant may satisfy compensatory wetlands mitigation requirements by the following actions, if those actions are consistent with the basinwide restoration plans and also meet or exceed the requirements of the United State Army Corps of Engineers:

(1) Payment of a fee established by the Department into the Wetlands Restoration Fund established in G.S. 143-214.12.

(2) Donation of land to the Wetlands Restoration Program or to other public or private nonprofit conservation organizations as approved by the Department.

(3) Participation in a private wetlands mitigation bank.

(4) Preparing and implementing a wetlands restoration plan.

(e) Payment Schedule. — A standardized schedule of per-acre payment amounts shall be established by the Environmental Management Commission. The monetary payment shall be based on the ecological functions and values of wetlands permitted to be lost and on the cost of restoring or creating wetlands capable of performing the same or similar functions, including directly related costs of wetlands restoration planning, long-term monitoring, and maintenance of restored areas.

(f) Mitigation Banks. — State agencies and private mitigation banking companies shall demonstrate that adequate, dedicated financial surety exists to provide for the perpetual land management and hydrological maintenance of lands acquired by the State as mitigation banks, or proposed to the State as privately operated and permitted mitigation banks. (1996, 2nd Ex. Sess., c. 18, s. 27.4(a); 1997-443, s. 11A.119(a).)

§ 143-214.12. Wetlands Restoration Program: Wetlands Restoration Fund.

(a) Wetlands Restoration Fund. — The Wetlands Restoration Fund is established as a nonreverting fund within the Department. The Fund shall be treated as a special trust fund and shall be credited with interest by the State Treasurer pursuant to G.S. 147-69.2 and G.S. 147-69.3. The Wetlands Restoration Fund shall provide a repository for monetary contributions and donations or dedications of interests in real property to promote projects for the restoration, enhancement, preservation, or creation of wetlands and riparian areas and for payments made in lieu of compensatory mitigation as described in subsection (b) of this section. No funds shall be expended from this Fund for any purpose other than those directly contributing to the acquisition, perpetual maintenance, enhancement, restoration, or creation of wetlands and riparian areas in accordance with the basinwide plan as described in G.S. 143-214.10.

(a1) The Department may distribute funds from the Wetlands Restoration Fund directly to a federal or State agency, a local government, or a private, nonprofit conservation organization to acquire, manage, and maintain real property or an interest in real property for the purposes set out in subsection (a) of this section. A recipient of funds under this subsection shall grant a conservation easement in the real property or interest in real property acquired with the funds to the Department in a form that is acceptable to the Department. The Department may convey real property or an interest in real property that has been acquired under the Wetlands Restoration Program to a federal or State agency, a local government, or a private, nonprofit conservation organization to acquire, manage, and maintain real property or an interest in real property for the purposes set out in subsection (a) of this section. A grantee of real property or an interest in real property under this subsection shall grant a conservation easement in the real property or interest in real property to the Department in a form that is acceptable to the Department.

(b) Authorized Methods of Payment. — A person subject to a permit or authorization issued by the United States Army Corps of Engineers under 33 U.S.C. § 1344, may contribute to the Wetlands Restoration Program, to comply with conditions to, or terms of, the permit or authorization, if participation in the Wetlands Restoration Program will meet the mitigation requirements of the United States Army Corps of Engineers. The Department shall, at the discretion of the applicant, accept payment into the Wetlands Restoration Fund in lieu of other compensatory mitigation requirements of any authorizations issued by the United States Army Corps of Engineers under 33 U.S.C. § 1344 if the contributions will meet the mitigation requirements of the United States Army Corps of Engineers. Payment may be made in the form of monetary contributions according to a fee schedule established by the Environmental Management Commission or in the form of donations of real property provided that the property is approved by the Department as a suitable site consistent with the basinwide wetlands restoration plan.

(c) Accounting of Payments. — The Department shall provide an itemized statement that accounts for each payment into the Fund. The statement shall include the expenses and activities financed by the payment. (1996, 2nd Ex. Sess., c. 18, s. 27.4(a); 1997-496, s. 13; 1999-329, s. 6.1.)

Editor's Note. — Session Laws 1999-329, s. 13.7 provides that this act shall not be construed to obligate the General Assembly to appropriate funds to implement the provisions of this act. Every State agency to which this act applies shall implement the provisions of this act from funds otherwise appropriated or available to that agency.

§ 143-214.13. Wetlands Restoration Program: reporting requirement.

(a) The Department of Environment and Natural Resources shall report each year by November 1 to the Environmental Review Commission regarding its progress in implementing the Wetlands Restoration Program and its use of the funds in the Wetlands Restoration Fund. The report shall document statewide wetlands losses and gains and compensatory mitigation performed under G.S. 143-214.8 through G.S. 143-214.12. The report shall also provide an accounting of receipts and disbursements of the Wetlands Restoration Fund, an analysis of the per-acre cost of wetlands restoration, and a cost comparison on a per-acre basis between the State's Wetlands Restoration Program and private mitigation banks. The Department shall also send a copy of its report to the Fiscal Research Division of the General Assembly.

(b) The Department shall maintain an inventory of all property that is held, managed, maintained, enhanced, restored, or used to create wetlands under the Wetlands Restoration Program. The inventory shall also list all conservation easements held by the Department. The inventory shall be included in the annual report required under subsection (a) of this section. (1996, 2nd Ex. Sess., c. 18, s. 27.4(a); 1997-443, s. 11A.119(a); 1999-329, s. 6.2.)

Editor's Note. — Session Laws 1999-329, s. 13.7 provides that this act shall not be construed to obligate the General Assembly to appropriate funds to implement the provisions of this act. Every State agency to which this act applies shall implement the provisions of this act from funds otherwise appropriated or available to that agency.

§ 143-214.14. Cooperative State-local coalition water quality protection plans.

(a) Definitions. — The following definitions apply in this section:

(1) "Basin" means a river basin as defined in G.S. 143-215.22G or any subbasin or segment thereof.

(2) "Coalition plan" means a water quality protection plan developed by a coalition of local governments for water quality protection of a basin.

(3) "Local government" means a city, county, special district, authority, or other political subdivision of the State.

(4) "Water quality protection" means management of water use, quantity, and quality.

(b) Legislative Findings. — This section establishes a framework to encourage State-local pollutant reduction strategies for basins under the supervision and coordination of the Commission. The General Assembly finds that:

(1) Water quality conditions and sources of water contamination may vary from one basin to another.

(2) Water quality conditions and sources of water contamination may vary within a basin.

(3) Some local governments have demonstrated greater capacity than others to protect and improve water quality conditions.

(4) In some areas of the State artificial alteration of watercourses by surface water impoundments or other means may have a significant effect on water quality.

(5) Imposition of standard basinwide water quality protection requirements and strategies may not equitably address the varying conditions and needs of all areas.

(6) There is a need to develop distinct approaches to address water quality protection in basins in the State, drawing upon the resources of local governments and the State, under the supervision and coordination of the Commission.

(c) Legislative Goals and Policies. — It is the goal of the General Assembly that, to the extent practicable, the State shall adopt water quality protection plans that are developed and implemented in cooperation and coordination with local governments and that the State shall adopt water quality protection requirements that are proportional to the relative contributions of pollution from all sources in terms of both the loading and proximity of those sources. Furthermore, it is the goal of the General Assembly to encourage and support State-local partnerships for improved water quality protection through the provision of technical and financial assistance available through the Clean Water Management Trust Fund, the Wetlands Restoration Fund, water quality planning and project grant programs, the State's revolving loan and grant programs for water and wastewater facilities, other funding sources, and future appropriations. The Commission shall implement these goals in accordance with the standards, procedures, and requirements set out in this section.

(d) The Commission may, as an alternative method of attaining water quality standards in a basin, approve a coalition plan proposed by a coalition of local governments whose territorial area collectively includes the affected basin in the manner provided by this section. The Commission may approve a coalition plan proposed by a coalition of local governments whose territorial area or water quality protection plan does not include all of an affected basin if the Commission determines that the omission will not adversely affect water quality.

(e) A coalition of local governments choosing to propose a coalition plan to the Commission shall do so through a nonprofit corporation the coalition of local governments incorporates with the Secretary of State.

(f) The Commission may approve a coalition plan only if the Commission first determines that:

(1) The basin under consideration is an appropriate unit for water quality planning.

(2) The coalition plan meets the requirements of subsection (g) of this section.

(3) The coalition of local governments has formed a nonprofit corporation pursuant to subsection (e) of this section.

(4) The coalition plan has been approved by the governing board of each local government that is a member of the coalition of local governments proposing the coalition plan.

(5) The coalition plan will provide a viable alternative method of attaining equivalent compliance with federal and State water quality standards, classifications, and management practices in the affected basin.

(g) A coalition plan shall include all of the following:

(1) An assessment of water quality and related water quantity management in the affected basin.

(2) A description of the goals and objectives for protection and improvement of water quality and related water quantity management in the affected basin.

(3) A workplan that describes proposed water quality protection strategies, including point and nonpoint source programs, for achieving the specified goals and objectives; an implementation strategy including specified tasks, timetables for action, implementation responsibilities of State and local agencies; and sources of funding, where applicable.

(4) A description of the performance indicators and benchmarks that will be used to measure progress in achieving the specified goals and objectives, and an associated monitoring framework.

(5) A timetable for reporting to the Commission on progress in implementing the coalition plan.

(h) A coalition plan shall cover a specified period. The coalition plan may provide for the phasing in of specific strategies, tasks, or mechanisms by specified dates within the period covered by the plan. The Commission may approve one or more successive coalition plan periods. The coalition plan may include strategies that vary among the subareas or jurisdictions of the geographic area covered by the coalition plan.

(i) If a local government chooses to withdraw from a coalition of local governments or fails to implement a coalition plan, the remaining members of a coalition of local governments may prepare and submit a revised coalition plan for approval by the Commission. If the Commission determines that an approved coalition plan no longer provides a viable alternative method of attaining equivalent compliance with federal and State water quality standards, classifications, and management practices, the Commission may suspend or revoke its approval of the coalition plan.

(j) The Commission may approve one or more amendments to a coalition plan proposed by a coalition of local governments through its nonprofit corporation with the approval of the governing board of each local government that is a member of the coalition of local governments that proposed the coalition plan.

(k) With the approval of the Commission, any coalition of local governments with an approved coalition plan may establish and implement a pollutant trading program for specific pollutants between and among point source dischargers and nonpoint pollution sources.

(*l*) The Commission shall submit an annual progress report on the implementation of this section to the Environmental Review Commission on or before 1 October of each year. (1997-493, s. 1.)

Legal Periodicals. — For 1997 legislative survey, see 20 Campbell L. Rev. 450.

§§ 143-214.15 through 143-214.19: Reserved for future codification purposes.

§ 143-214.20. Riparian Buffer Protection Program: Alternatives to maintaining riparian buffers; compensatory mitigation fees.

(a) The Commission shall establish a program to provide alternatives for persons who would otherwise be required to maintain riparian buffers and who can demonstrate that they have attempted to avoid and minimize the loss of the riparian buffer and that there is no practical alternative to the loss of the buffer. This program is intended to allow these persons to perform compensatory mitigation in lieu of complying with laws and rules that require that riparian buffers be protected and maintained. Alternatives shall include, but are not limited to:

(1) Payment of a compensatory mitigation fee into the Riparian Buffer Restoration Fund.

(2) Donation of real property or of an interest in real property to the Department, another State agency, a unit of local government, or a private nonprofit conservation organization if both the donee organization and the donated real property or interest in real property are approved by the Department. The Department may approve a donee organization only if the donee agrees to maintain the real property or interest in real property as a riparian buffer. The Department may approve a donation of real property or an interest in real property only if the real property or interest in real property either:

a. Is a riparian buffer that will provide protection of water quality that is equivalent to or greater than that provided by the riparian buffer that is lost in the same river basin as the riparian buffer that is lost; or

b. Will be used to restore, create, enhance, or maintain a riparian buffer that will provide protection of water quality that is equivalent to or greater than that provided by the riparian buffer that is lost in the same river basin as the riparian buffer that is lost.

(3) Restoration or enhancement of an existing riparian buffer that is not otherwise required to be protected, or creation of a new riparian buffer, that will provide protection of water quality that is equivalent to or greater than that provided by the riparian buffer that is lost in the same river basin as the riparian buffer that is lost and that is approved by the Department.

(4) Construction of an alternative measure that reduces nutrient loading as well or better than the riparian buffer that is lost in the same river basin as the riparian buffer that is lost and that is approved by the Department.

(b) Compensatory mitigation is available for loss of a riparian buffer along an intermittent stream, a perennial stream, or a perennial waterbody.

(c) The Commission shall establish a standard schedule of compensatory mitigation fees. The compensatory mitigation fee schedule shall be based on the area of the riparian buffer that is permitted to be lost and the cost to provide equivalent or greater protection of water quality in the same river basin as that provided by the riparian buffer this is lost by:

(1) Restoration or enhancement of existing riparian buffers.

(2) Acquisition of land for and creation of new riparian buffers.

(3) Maintenance and monitoring of restored, enhanced, or created riparian buffers over time.

(4) Construction of alternative measures that reduce nutrient loading.

(d) The Commission may adopt rules to implement this section. (1999-448, s. 1.)

Editor's Note. — Session Laws 1999-448 provided: "Whereas, in 1996 the General Assembly established a goal to reduce the average annual load of nitrogen delivered from point and nonpoint sources to the Neuse River Estuary by a minimum of thirty percent (30%) of the average load for the period 1991 through 1995 by the year 2001 and directed the Environmental Management Commission to develop and adopt a plan to achieve this goal; and

"Whereas, in 1997 the General Assembly directed the Environmental Management Commission to develop and implement a basin wide water quality plan for each of the State's 17 major river basins; and

"Whereas, in 1997, in response to these legislative mandates, the Environmental Management Commission adopted a Neuse River Nutrient Sensitive Waters Management Strategy as temporary and permanent rules and adopted revisions to these rules in 1998; and

"Whereas, in 1998 the General Assembly enacted legislation to disapprove 15A NCAC 2B.0233 (Neuse River Nutrient Sensitive Waters Management Strategy: Protection and Maintenance of Riparian Areas with Existing Forest Vegetation) as a permanent rule while continuing this rule in effect as a temporary rule with certain modifications until the Environmental Management Commission adopted a revised temporary and permanent rule; and

"Whereas, the 1998 legislation established a Stakeholder Advisory Committee to assist the Environmental Management Commission with the development of (i) a revised temporary rule, (ii) rules and recommended legislation to provide for compensatory mitigation as an alternative to the maintenance of riparian buffers, and (iii) rules and recommended legislation to authorize the Environmental Management Commission to delegate responsibility for the implementation and enforcement of the State's riparian buffer protection requirements to local governments; and

"Whereas, the Stakeholder Advisory Committee, after many hours of work, submitted a report and recommendations to the Environmental Management Commission; and

"Whereas, that report included recommended legislation pertaining to compensatory

mitigation and delegation to local governments; and

"Whereas, at its meeting on 8 April 1999, the Environmental Management Commission accepted these recommendations and forwarded them to the Environmental Review Commission."

§ 143-214.21. Riparian Buffer Protection Program: Riparian Buffer Restoration Fund.

The Riparian Buffer Restoration Fund is established as a nonreverting fund within the Department. The Fund shall be treated as a special trust fund and shall be credited with interest by the State Treasurer pursuant to G.S. 147-69.2 and G.S. 147-69.3. The Riparian Buffer Restoration Fund shall provide a repository for monetary contributions to promote projects for the restoration, enhancement, or creation of riparian buffers or to construct approved alternative measures that reduce nutrient loading as well or better than the riparian buffer that is lost and for compensatory mitigation fees paid to the Department. The Fund shall be administered by the Division of Water Quality within the Department. Moneys shall be expended from the Fund only for those purposes directly related to the restoration, acquisition, creation, enhancement, and maintenance of riparian buffers or to construct approved alternative measures that reduce nutrient loading as well or better than the riparian buffer that is lost to offset the benefits to water quality, including the removal of nutrients, lost through the loss of buffers. Compensatory mitigation fees paid into the Fund in connection with the loss of riparian buffers in a river basin and the interest earned on those fees may be used only for projects in that river basin. (1998-221, s. 1.5(b); 1999-448, s. 2.)

Editor's Note. — See the Editor's Note under G.S. 143-214.20, relating to Session Laws 1999-448.

§ 143-214.22. Riparian Buffer Protection Program: Department may accept donations of real property.

The Department may accept donations of real property and interests in real property if the real property or interest in real property is a riparian buffer or will be used to restore, create, enhance, or maintain a riparian buffer that will provide protection of water quality. (1998-221, s. 1.13; 1999-448, s. 3.)

Editor's Note. — Session Laws 1998-221, s. 1.13 was codified as this section at the direction of the Revisor of Statutes.

Session Laws 1998-221, s. 1.7, provides: "Recognition of vested development rights. — (a) Vested rights recognized or established under the common law or by G.S. 153A-344(b), 153A-344.1, 160A-385(b), or 160A-385.1 shall include the right as provided in this section, to undertake and complete development in the Neuse River Basin without application of temporary rule 15A NCAC 2B.0233 and the revised temporary rule required by Section 1.8 of this act. The Commission and the Department shall not apply temporary rule 15A NCAC 2B.0233 and the revised temporary rule required by Section 1.8 of this act to development with vested rights recognized or established under G.S. 153A-344(b), 153A-344.1, 160A-385(b), or 160A-385.1 prior to 22 July 1997. The Commission and the Department shall not apply temporary rule 15A NCAC 2B.0233 and the revised temporary rule required by Section 1.8 of this act to development with vested rights recognized or established under the common law prior to the date this Part becomes effective if the Commission has issued a certification pursuant to G.S. 143B-282(a)(1)u. prior to 22 July 1997. See also the Editor's note under G.S. 143-214.20, relating to Session Laws 1999-448.

Session Laws 1998-221, s. 5.2, contains a severability clause.

§ 143-214.23. Riparian Buffer Protection Program: Delegation of riparian buffer protection requirements to local governments.

(a) The Commission may delegate responsibility for the implementation and enforcement of the State's riparian buffer protection requirements to units of local government that have the power to regulate land use. A delegation under this section shall not affect the jurisdiction of the Commission over State agencies and units of local government. Any unit of local government that has the power to regulate land use may request that responsibility for the implementation and enforcement of the State's riparian buffer protection requirements be delegated to the unit of local government. To this end, units of local government may adopt ordinances and regulations necessary to establish and enforce the State's riparian buffer protection requirements.

(b) Within 90 days after the Commission receives a complete application requesting delegation of responsibility for the implementation and enforcement of the State's riparian buffer protection requirement, the Commission shall review the application and notify the unit of local government that submitted the application whether the application has been approved, approved with modifications, or disapproved. The Commission shall not approve a delegation unless the Commission finds that local implementation and enforcement of the State's riparian buffer protection requirements will equal implementation and enforcement by the State.

(c) If the Commission determines that a unit of local government is failing to implement or enforce the State's riparian buffer protection requirements, the Commission shall notify the unit of local government in writing and shall specify the deficiencies in implementation and enforcement. If the local government has not corrected the deficiencies within 90 days after the unit of local government receives the notification, the Commission shall rescind delegation and shall implement and enforce the State's riparian buffer protection program. If the unit of local government indicates that it is willing and able to resume implementation and enforcement of the State's riparian buffer protection requirements, the unit of local government may reapply for delegation under this section.

(d) The Department shall provide technical assistance to units of local government in the development, implementation, and enforcement of the State's riparian buffer protection requirements.

(e) The Department shall provide a stream identification training program to train individuals to determine the existence of surface water for purposes of rules adopted by the Commission for the protection and maintenance of riparian buffers. The Department may charge a fee to cover the full cost of the training program. No fee shall be charged to an employee of the State who attends the training program in connection with the employee's official duties.

(f) The Commission may adopt rules to implement this section. (1999-448, s. 1.)

Editor's Note. — Session Laws 1999-448, s. 1, originally enacted this section as G.S. 143-215.23; however, it has been redesignated as G.S. 143-214.23 at the direction of the Revisor of Statutes.

§ 143-214.24. Riparian Buffer Protection Program: Coordination with River Basin Associations.

(a) Prior to drafting temporary or permanent rules that require the preservation of riparian buffers in a river basin, the Department shall consult with major stakeholders who may have an interest in the proposed rules, including

the board of directors or representatives designated by the board of directors of any river basin association in the affected river basin that meets all of the following criteria:

(1) The association is a nonprofit corporation, as defined by G.S. 55A-1-40.
(2) The association has as its primary purpose the conservation, preservation, and restoration of the environmental and natural resources of the river basin in which it is located.
(3) Membership in the association is open on a nondiscriminatory basis to all citizens in the river basin.
(4) The membership of the board of directors of the association includes at least one representative from each county with a significant portion of its territory in the river basin.
(5) The membership of the association includes significant representation from each of the following categories of persons:
    a. Elected local officials.
    b. Persons involved in agriculture.
    c. Persons involved in residential and commercial land development.
    d. Persons involved in forestry.
    e. Representatives of community-based organizations.
    f. Representatives of organizations that advocate for protection of the environment and conservation of natural resources.
    g. Persons with special training and scientific expertise in protection of water who are affiliated with colleges and universities.
    h. Private property owners.
    i. Persons with a general interest in water quality protection.

(b) The purpose of the consultation required by subsection (a) of this section is to assure that major stakeholders who may have an interest in the proposed rules have an opportunity to inform the Department of their concerns before the Department drafts the rules. (2000-172, s. 5.1.)

§ 143-214.25. (Expires September 1, 2004) Riparian Buffer Protection Program: Surface Water Identification Training and Certification Program.

(a) The Division of Water Quality of the Department shall develop a program to train and certify individuals to determine the presence of surface waters that would require the application of rules adopted by the Commission for the protection of riparian buffers. The Division may train and certify employees of the Division as determined by the Director of the Division of Water Quality; employees of units of local government to whom responsibility for the implementation and enforcement of the riparian buffer protection rules is delegated pursuant to G.S. 143-214.23; and employees of the Division of Forest Resources of the Department as determined by the Director of the Division of Forest Resources who are Registered Foresters under Chapter 89B of the General Statutes. The Director of the Division of Water Quality may review the determinations made by individuals who are certified pursuant to this section, may override a determination made by an individual certified under this section, and, if the Director of the Division of Water Quality determines that an individual is failing to make correct determinations, revoke the certification of that individual.

(b) The Division of Water Quality shall develop standard forms for use in making and reporting determinations. Each individual who is certified to make determinations under this section shall prepare a written report of each determination and shall submit the report to the agency that employs the individual. Each agency shall maintain reports of determinations made by its employees, shall forward a copy of each report to the Director of the Division

§ 143-214.25 has a delayed expiration date. See notes for date.

of Water Quality, and shall maintain these reports and all other records related to determinations so that they will be readily accessible to the public. (2001-404, s. 1.)

Editor's Note. — Session Laws 2001-404, s. 2, provides: "In implementing the Surface Water Identification Training and Certification Program established by G.S. 143-214.25, as enacted by Section 1 of this act, the Division of Water Quality of the Department of Environment and Natural Resources shall give priority to training and certifying the most highly qualified and experienced personnel in each agency. The Division of Water Quality shall evaluate the effectiveness of the Surface Water Identification Training and Certification Program and shall submit written reports of its findings and recommendations, if any, to the Environmental Review Commission on or before 1 September 2002, 1 September 2003, and 1 March 2004."

Session Laws 2001-404, s. 3, provides: "This act shall not be construed to obligate the General Assembly to appropriate any funds to implement the provisions of this act. Every agency to which this act applies shall implement the provisions of this act with funds otherwise appropriated or available to the agency."

Session Laws 2001-404, s. 4, makes this section effective September 6, 2001, and provides that it will expire on September 1, 2004.

§ 143-215. Effluent standards or limitations.

(a) The Commission is authorized and directed to develop, adopt, modify and revoke effluent standards or limitations and waste treatment management practices as it determines necessary to prohibit, abate, or control water pollution. The effluent standards or limitations and management practices may provide, without limitation, standards or limitations or management practices for any point source or sources; standards, limitations, management practices, or prohibitions for toxic wastes or combinations of toxic wastes discharged from any point source or sources; and pretreatment standards for wastes discharged to any disposal system subject to effluent standards or limitations or management practices.

(b) The effluent standards or limitations developed and adopted by the Commission shall provide limitations upon the effluents discharged from pretreatment facilities and from outlets and point sources to the waters of the State adequate to limit the waste loads upon the waters of the State to the extent necessary to maintain or enhance the chemical, physical, biological and radiological integrity of the waters. The management practices developed and adopted by the Commission shall prescribe practices necessary to be employed in order to prevent or reduce contribution of pollutants to the State's waters.

(c), (d) Repealed by Session Laws 1995, c. 507, s. 27.

(e) Repealed by Session Laws 1997-458, s. 13.1. (1967, c. 892, s. 1; 1971, c. 1167, s. 5; 1973, c. 821, s. 4; c. 929; c. 1262, s. 23; 1975, c. 583, s. 1; 1979, c. 633, ss. 2-4; 1987, c. 827, ss. 154, 158; 1989, c. 168, s. 48; 1991, c. 403, s. 2; 1991 (Reg. Sess., 1992), c. 890, s. 15; 1995, c. 507, s. 27.8(s); 1995 (Reg. Sess., 1996), c. 626, s. 4; 1997-458, s. 13.1.)

Editor's Note. — Session Laws 1991, c. 403, s. 6 provides: "This act shall not be construed to obligate the General Assembly to make any appropriation to implement the provisions of this act. Each agency to which this act applies shall implement the provisions of this act from funds otherwise appropriated or available to that agency."

CASE NOTES

Cited in Biddix v. Henredon Furn. Indus., Inc., 76 N.C. App. 30, 331 S.E.2d 717 (1985); State ex rel. McDevitt v. Acme Petro. & Fuel Co., — F.3d —, 2002 U.S. App. LEXIS 4538 (4th Cir. Mar. 19, 2002).

§ 143-215.1. Control of sources of water pollution; permits required.

(a) Activities for Which Permits Required. — No person shall do any of the following things or carry out any of the following activities unless that person has received a permit from the Commission and has complied with all conditions set forth in the permit:

(1) Make any outlets into the waters of the State.

(2) Construct or operate any sewer system, treatment works, or disposal system within the State.

(3) Alter, extend, or change the construction or method of operation of any sewer system, treatment works, or disposal system within the State.

(4) Increase the quantity of waste discharged through any outlet or processed in any treatment works or disposal system to any extent that would result in any violation of the effluent standards or limitations established for any point source or that would adversely affect the condition of the receiving waters to the extent of violating any applicable standard.

(5) Change the nature of the waste discharged through any disposal system in any way that would exceed the effluent standards or limitations established for any point source or that would adversely affect the condition of the receiving waters in relation to any applicable standards.

(6) Cause or permit any waste, directly or indirectly, to be discharged to or in any manner intermixed with the waters of the State in violation of the water quality standards applicable to the assigned classifications or in violation of any effluent standards or limitations established for any point source, unless allowed as a condition of any permit, special order or other appropriate instrument issued or entered into by the Commission under the provisions of this Article.

(7) Cause or permit any wastes for which pretreatment is required by pretreatment standards to be discharged, directly or indirectly, from a pretreatment facility to any disposal system or to alter, extend or change the construction or method of operation or increase the quantity or change the nature of the waste discharged from or processed in that facility.

(8) Enter into a contract for the construction and installation of any outlet, sewer system, treatment works, pretreatment facility or disposal system or for the alteration or extension of any such facility.

(9) Dispose of sludge resulting from the operation of a treatment works, including the removal of in-place sewage sludge from one location and its deposit at another location, consistent with the requirement of the Resource Conservation and Recovery Act and regulations promulgated pursuant thereto.

(10) Cause or permit any pollutant to enter into a defined managed area of the State's waters for the maintenance or production of harvestable freshwater, estuarine, or marine plants or animals.

(11) Cause or permit discharges regulated under G.S. 143-214.7 that result in water pollution.

(12) Construct or operate an animal waste management system, as defined in G.S. 143-215.10B, without obtaining a permit under either this Part or Part 1A of this Article.

(a1) In the event that both effluent standards or limitations and classifications and water quality standards are applicable to any point source or sources and to the waters to which they discharge, the more stringent among the standards established by the Commission shall be applicable and controlling.

(a2) No permit shall be granted for the disposal of waste in waters classified as sources of public water supply where the head of the agency that administers the public water supply program pursuant to Article 10 of Chapter 130A of the General Statutes, after review of the plans and specifications for the proposed disposal facility, determines and advises the Commission that any outlet for the disposal of waste is, or would be, sufficiently close to the intake works or proposed intake works of a public water supply as to have an adverse effect on the public health.

(a3) If the Commission denies an application for a permit, the Commission shall state in writing the reason for the denial and shall also state the Commission's estimate of the changes in the applicant's proposed activities or plans that would be required in order that the applicant may obtain a permit.

(a4) The Department shall regulate wastewater systems under rules adopted by the Commission for Health Services pursuant to Article 11 of Chapter 130A of the General Statutes except as otherwise provided in this subsection. No permit shall be required under this section for a wastewater system regulated under Article 11 of Chapter 130A of the General Statutes. The following wastewater systems shall be regulated by the Department under rules adopted by the Commission:

(1) Wastewater systems designed to discharge effluent to the land surface or surface waters.

(2) Wastewater systems designed for groundwater remediation, groundwater injection, or landfill leachate collection and disposal.

(3) Wastewater systems designed for the complete recycle or reuse of industrial process wastewater.

(b) Commission's Power as to Permits. —

(1) The Commission shall act on all permits so as to prevent, so far as reasonably possible, considering relevant standards under State and federal laws, any significant increase in pollution of the waters of the State from any new or enlarged sources. No permit shall be denied and no condition shall be attached to the permit, except when the Commission finds such denial or such conditions necessary to effectuate the purposes of this Article.

(2) The Commission shall also act on all permits so as to prevent violation of water quality standards due to the cumulative effects of permit decisions. Cumulative effects are impacts attributable to the collective effects of a number of projects and include the effects of additional projects similar to the requested permit in areas available for development in the vicinity. All permit decisions shall require that the practicable waste treatment and disposal alternative with the least adverse impact on the environment be utilized.

(3) General permits may be issued under rules adopted pursuant to Chapter 150B of the General Statutes. Such rules may provide that minor activities may occur under a general permit issued in accordance with conditions set out in such rules. All persons covered under general permits shall be subject to all enforcement procedures and remedies applicable under this Article.

(4) The Commission shall have the power:

a. To grant a permit with such conditions attached as the Commission believes necessary to achieve the purposes of this Article.

b. To require that an applicant satisfy the Department that the applicant, or any parent, subsidiary, or other affiliate of the applicant or parent:
1. Is financially qualified to carry out the activity for which the permit is required under subsection (a) of this section; and
2. Has substantially complied with the effluent standards and limitations and waste management treatment practices applicable to any activity in which the applicant has previously engaged, and has been in substantial compliance with other federal and state laws, regulations, and rules for the protection of the environment.
3. As used in this subdivision, the words "affiliate," "parent," and "subsidiary" have the same meaning as in 17 Code of Federal Regulations § 240.12b-2 (1 April 1990 Edition).
4. For a privately owned treatment works that serves 15 or more service connections or that regularly serves 25 or more individuals, financial qualification may be demonstrated through the use of a letter of credit, insurance, surety, trust agreement, financial test, bond, or a guarantee by corporate parents or third parties who can pass the financial test. No permit shall be issued under this section for a privately owned treatment works that serves 15 or more service connections or that regularly serves 25 or more individuals, until financial qualification is established and the issuance of the permit shall be contingent on the continuance of the financial qualification for the duration of the activity for which the permit was issued.

c. To modify or revoke any permit upon not less than 60 days' written notice to any person affected.

d. To designate certain classes of minor activities for which a general permit may be issued, after considering:
1. The environmental impact of the activities;
2. How often the activities are carried out;
3. The need for individual permit oversight; and
4. The need for public review and comment on individual permits.

e. To designate certain classes of minor activities for which:
1. Performance conditions may be established by rule; and
2. Individual or general permits are not required.

(5) The Commission shall not issue a permit for a new municipal or domestic wastewater treatment works that would discharge to the surface waters of the State or for the expansion of an existing municipal or domestic wastewater treatment works that would discharge to the surface waters of the State unless the applicant for the permit demonstrates to the satisfaction of the Commission that:

a. The applicant has prepared and considered an engineering, environmental, and fiscal analysis of alternatives to the proposed facility.

b. The applicant is in compliance with the applicable requirements of the systemwide municipal and domestic wastewater collection systems permit program adopted by the Commission.

(b1) Repealed by Session Laws 1991, c. 156, s. 1.

(c) Applications for Permits and Renewals for Facilities Discharging to the Surface Waters. —

(1) All applications for permits and for renewal of existing permits for outlets and point sources and for treatment works and disposal

systems discharging to the surface waters of the State shall be in writing, and the Commission may prescribe the form of such applications. All applications shall be filed with the Commission at least 180 days in advance of the date on which it is desired to commence the discharge of wastes or the date on which an existing permit expires, as the case may be. The Commission shall act on a permit application as quickly as possible. The Commission may conduct any inquiry or investigation it considers necessary before acting on an application and may require an applicant to submit plans, specifications, and other information the Commission considers necessary to evaluate the application.

a. The Department shall refer each application for permit, or renewal of an existing permit, for outlets and point sources and treatment works and disposal systems discharging to the surface waters of the State to its staff for written evaluation and proposed determination with regard to issuance or denial of the permit. If the Commission concurs in the proposed determination, it shall give notice of intent to issue or deny the permit, along with any other data that the Commission may determine appropriate, to be given to the appropriate State, interstate and federal agencies, to interested persons, and to the public.

a1. The Commission shall prescribe the form and content of the notice. Public notice shall be given at least 45 days prior to any proposed final action granting or denying the permit. Public notice shall be given by publication of the notice one time in a newspaper having general circulation within the county.

b. Repealed by Session Laws 1987, c. 734.

(3) If any person desires a public hearing on any application for permit or renewal of an existing permit provided for in this subsection, he shall so request in writing to the Commission within 30 days following date of the notice of intent. The Commission shall consider all such requests for hearing, and if the Commission determines that there is a significant public interest in holding such hearing, at least 30 days' notice of such hearing shall be given to all persons to whom notice of intent was sent and to any other person requesting notice. At least 30 days prior to the date of hearing, the Commission shall also cause a copy of the notice thereof to be published at least one time in a newspaper having general circulation in such county. In any county in which there is more than one newspaper having general circulation in that county, the Commission shall cause a copy of such notice to be published in as many newspapers having general circulation in the county as the Commission in its discretion determines may be necessary to assure that such notice is generally available throughout the county. The Commission shall prescribe the form and content of the notices.

The Commission shall prescribe the procedures to be followed in hearings. If the hearing is not conducted by the Commission, detailed minutes of the hearing shall be kept and shall be submitted, along with any other written comments, exhibits or documents presented at the hearing, to the Commission for its consideration prior to final action granting or denying the permit.

(4) Not later than 60 days following notice of intent or, if a public hearing is held, within 90 days following consideration of the matters and things presented at such hearing, the Commission shall grant or deny any application for issuance of a new permit or for renewal of an existing permit. All permits or renewals issued by the Commission

and all decisions denying application for permit or renewal shall be in writing.

(5) No permit issued pursuant to this subsection (c) shall be issued or renewed for a term exceeding five years.

(6) The Commission shall not act upon an application for a new nonmunicipal domestic wastewater discharge facility until it has received a written statement from each city and county government having jurisdiction over any part of the lands on which the proposed facility and its appurtenances are to be located which states whether the city or county has in effect a zoning or subdivision ordinance and, if such an ordinance is in effect, whether the proposed facility is consistent with the ordinance. The Commission shall not approve a permit application for any facility which a city or county has determined to be inconsistent with its zoning or subdivision ordinance unless it determines that the approval of such application has statewide significance and is in the best interest of the State. An applicant for a permit shall request that each city and county government having jurisdiction issue the statement required by this subdivision by mailing by certified mail, return receipt requested, a written request for such statement and a copy of the draft permit application to the clerk of the city or county. If a local government fails to mail the statement required by this subdivision, as evidenced by a postmark, within 15 days after receiving and signing for the certified mail, the Commission may proceed to consider the permit application notwithstanding this subdivision.

(c1) Any person who is required to obtain an individual wastewater permit under this section for a facility discharging to the surface waters of the State that have been classified as nutrient sensitive waters (NSW) under rules adopted by the Commission shall not discharge more than an average annual mass load of total nitrogen than would result from a discharge of the permitted flow, determined at the time the Commission makes a finding that those waters are experiencing or are subject to excessive growth of microscopic or macroscopic vegetation, having a total nitrogen concentration of five and one-half milligrams of nitrogen per liter (5.5 mg/l). The total nitrogen concentration of 5.5 mg/l for nutrient sensitive waters required by this subsection applies only to:

(1) Facilities that were placed into operation prior to 1 July 1997 or for which an authorization to construct was issued prior to 1 July 1997 and that have a design capacity to discharge 500,000 gallons per day or more.

(2) Facilities for which an authorization to construct is issued on or after 1 July 1997.

(c2) Any person who is required to obtain an individual wastewater permit under this section for a facility discharging to the surface waters of the State that have been classified as nutrient sensitive waters (NSW) under rules adopted by the Commission where phosphorous is designated by the Commission as a nutrient of concern shall not discharge more than an average annual mass load of total phosphorous than would result from a discharge of the permitted flow, determined at the time the Commission makes a finding that those waters are experiencing or are subject to excessive growth of microscopic or macroscopic vegetation, having a total phosphorous concentration of two milligrams of phosphorous per liter (2.0 mg/l). The total phosphorous concentration of 2.0 mg/l for nutrient sensitive waters required by this subsection applies only to:

(1) Facilities that were placed into operation prior to 1 July 1997 or for which an authorization to construct was issued prior to 1 July 1997

and that have a design capacity to discharge 500,000 gallons per day or more.

(2) Facilities for which an authorization to construct is issued on or after 1 July 1997.

(c3) A person to whom subsection (c1) or (c2) of this section applies may meet the limits established under those subsections either individually or on the basis of a cooperative agreement with other persons who hold individual wastewater permits if the cooperative agreement is approved by the Commission. A person to whom subsection (c1) or (c2) of this section applies whose agreement to accept wastewater from another wastewater treatment facility that discharges into the same water body and that results in the elimination of the discharge from that wastewater treatment facility shall be allowed to increase the average annual mass load of total nitrogen and total phosphorous that person discharges by the average annual mass load of total nitrogen and total phosphorous of the wastewater treatment facility that is eliminated. If the wastewater treatment facility that is eliminated has a permitted flow of less than 500,000 gallons per day, the average annual mass load of total nitrogen or phosphorous shall be calculated from the most recent available data. A person to whom this subsection applies shall comply with nitrogen and phosphorous discharge monitoring requirements established by the Commission. This average annual load of nitrogen or phosphorous shall be assigned to the wastewater discharge allocation of the wastewater treatment facility that accepts the wastewater.

(c4) A person to whom subsection (c1) of this section applies may request the Commission to approve a total nitrogen concentration greater than that set out in subsection (c1) of this section at a decreased permitted flow so long as the average annual mass load of total nitrogen is equal to or is less than that required under subsection (c1) of this section. A person to whom subsection (c2) of this section applies may request the Commission to approve a total phosphorous concentration greater than that set out in subsection (c2) of this section at a decreased permitted flow so long as the average annual mass load of total phosphorous is equal to or is less than that required under subsection (c2) of this section. If, after any 12-month period following approval of a greater concentration at a decreased permitted flow, the Commission finds that the greater concentration at a decreased permitted flow does not result in an average annual mass load of total nitrogen or total phosphorous equal to or less than those that would be achieved under subsections (c1) and (c2) of this section, the Commission shall rescind its approval of the greater concentration at a decreased permitted flow and the requirements of subsections (c1) and (c2) of this section shall apply.

(c5) For surface waters to which the limits set out in subsection (c1) or (c2) of this section apply and for which a calibrated nutrient response model that meets the requirements of this subsection has been approved by the Commission, mass load limits for total nitrogen or total phosphorous shall be based on the results of the nutrient response model. A calibrated nutrient response model shall be developed and maintained with current data, be capable of predicting the impact of nitrogen or phosphorous in the surface waters, and incorporated into nutrient management plans by the Commission. The maximum mass load for total nitrogen or total phosphorous established by the Commission shall be substantiated by the model and may require individual discharges to be limited at concentrations that are different than those set out in subsection (c1) or (c2) of this section. A calibrated nutrient response model shall be developed by the Department in conjunction with the affected parties and is subject to approval by the Commission.

(c6) For surface waters that the Commission classifies as nutrient sensitive waters (NSW) on or after 1 July 1997, the Commission shall establish a date

by which facilities that were placed into operation prior to the date on which the surface waters are classified NSW or for which an authorization to construct was issued prior to the date on which the surface waters are classified NSW must comply with subsections (c1) and (c2) of this section. The Commission shall establish the compliance date at the time of the classification. The Commission shall not establish a compliance date that is more than five years after the date of the classification. The Commission may extend the compliance date as provided in G.S. 143-215.1B. A request to extend a compliance date shall be submitted within 120 days of the date on which the Commission reclassifies a surface water body as NSW.

(d) Applications and Permits for Sewer Systems, Sewer System Extensions and Pretreatment Facilities, Land Application of Waste, and for Wastewater Treatment Facilities Not Discharging to the Surface Waters of the State. —

(1) All applications for new permits and for renewals of existing permits for sewer systems, sewer system extensions and for disposal systems, and for land application of waste, or treatment works which do not discharge to the surface waters of the State, and all permits or renewals and decisions denying any application for permit or renewal shall be in writing. The Commission shall act on a permit application as quickly as possible. The Commission may conduct any inquiry or investigation it considers necessary before acting on an application and may require an applicant to submit plans, specifications, and other information the Commission considers necessary to evaluate the application. If the Commission fails to act on an application for a permit, including a renewal of a permit, within 90 days after the applicant submits all information required by the Commission, the application is considered to be approved. Permits and renewals issued in approving such facilities pursuant to this subsection shall be effective until the date specified therein or until rescinded unless modified or revoked by the Commission. Local governmental units to whom pretreatment program authority has been delegated shall establish, maintain, and provide to the public, upon written request, a list of pretreatment applications received.

(2) An applicant for a permit to dispose of petroleum contaminated soil by land application shall give written notice that he intends to apply for such a permit to each city and county government having jurisdiction over any part of the land on which disposal is proposed to occur. The Commission shall not accept such a permit application unless it is accompanied by a copy of the notice and evidence that the notice was sent to each such government by certified mail, return receipt requested. The Commission may consider, in determining whether to issue the permit, the comments submitted by local governments.

(d1) Each applicant under subsections (c) or (d) for a permit (or the renewal thereof) for the operation of a treatment works for a private multi-family or single family residential development, in which the owners of individual residential units are required to organize as a lawfully constituted and incorporated homeowners' association of a subdivision, condominium, planned unit development, or townhouse complex, shall be required to enter into an operational agreement with the Commission as a condition of any such permit granted. The agreement shall address, as necessary, construction, operation, maintenance, assurance of financial solvency, transfers of ownership and abandonment of the plant, systems, or works, and shall be modified as necessary to reflect any changed condition at the treatment plant or in the development. Where the Commission finds appropriate, it may require any other private residential subdivision, condominium, planned unit development or townhouse complex which is served by a private treatment works and does

not have a lawfully constituted and incorporated homeowners' association, and for which an applicant applies for a permit or the renewal thereof under subsections (c) or (d), to incorporate as a lawfully constituted homeowners' association, and after such incorporation, to enter into an operational agreement with the Commission and the applicant as a condition of any permit granted under subsections (c) or (d). The local government unit or units having jurisdiction over the development shall receive notice of the application within an established comment period and prior to final decision.

(e) Administrative Review. — A permit applicant or permittee who is dissatisfied with a decision of the Commission may commence a contested case by filing a petition under G.S. 150B-23 within 30 days after the Commission notifies the applicant or permittee of its decision. If the permit applicant or permittee does not file a petition within the required time, the Commission's decision is final and is not subject to review.

(f) Local Permit Programs for Sewer Extension. — Municipalities, counties, local boards or commissions, water and sewer authorities, or groups of municipalities and counties may establish and administer within their utility service areas their own general permit programs in lieu of State permit required in G.S. 143-215.1(a)(2), (3), and (8) above, for construction, operation, alteration, extension, change of proposed or existing sewer system, subject to the prior certification of the Commission. For purposes of this subsection, the service area of a municipality shall include only that area within the corporate limits of the municipality and that area outside a municipality in its extraterritorial jurisdiction where sewer service is already being provided by the municipality to the permit applicant or connection to the municipal sewer system is immediately available to the applicant; the service areas of counties and the other entities or groups shall include only those areas where sewer service is already being provided to the applicant by the permitting authority or connection to the permitting authority's system is immediately available. No later than the 180th day after the receipt of a program and statement submitted by any local government, commission, authority, or board the Commission shall certify any local program that:

(1) Provides by ordinance or local law for requirements compatible with those imposed by this Part and the rules implementing this Part;
(2) Provides that the Department receives notice and a copy of each application for a permit and that it receives copies of approved permits and plans upon request by the Commission;
(3) Provides that plans and specifications for all construction, extensions, alterations, and changes be prepared by or under the direct supervision of an engineer licensed to practice in this State;
(4) Provides for the adequate enforcement of the program requirements by appropriate administrative and judicial process;
(5) Provides for the adequate administrative organization, engineering staff, financial and other resources necessary to effectively carry out its plan review program;
(6) Provides that the system is capable of interconnection at an appropriate time with an expanding municipal, county, or regional system;
(7) Provides for the adequate arrangement for the continued operation, service, and maintenance of the sewer system; and
(8) Is approved by the Commission as adequate to meet the requirements of this Part and the rules implementing this Part.

The Commission may deny, suspend, or revoke certification of a local program upon a finding that a violation of the provisions in subsection (f) of this section has occurred. A denial, suspension, or revocation of a certification of a local program shall be made only after notice and a public hearing. If the failure of a local program to carry out this subsection creates an imminent

hazard, the Commission may summarily revoke the certification of the local program. Chapter 150B of the General Statutes does not apply to proceedings under this subsection.

Notwithstanding any other provision of this subsection, if the Commission determines that a sewer system, treatment works, or disposal system is operating in violation of the provisions of this Article and that the appropriate local authorities have not acted to enforce those provisions, the Commission may, after written notice to the appropriate local government, take enforcement action in accordance with the provisions of this Article.

(g) Any person who is required to hold a permit under this section shall submit to the Department a written description of his current and projected plans to reduce the discharge of waste and pollutants under such permit by source reduction or recycling. The written description shall accompany the payment of the annual permit fee. The written description shall also accompany any application for a new permit, or for modification of an existing permit, under this section. The written description required by this subsection shall not be considered part of a permit application and shall not serve as the basis for the denial of a permit or permit modification.

(h) Each applicant for a new permit or the modification of an existing permit issued under subsection (c) of this section shall include with the application: (i) the extent to which the new or modified facility is constructed in whole or in part with funds provided or administered by the State or a unit of local government, (ii) the impact of the facility on water quality, and (iii) whether there are cost-effective alternative technologies that will achieve greater protection of water quality. The Commission shall prepare a quarterly summary and analysis of the information provided by applicants pursuant to this subsection. The Commission shall submit the summary and analysis required by this subsection to the Environmental Review Commission (ERC) as a part of each quarterly report that the Commission is required to make to the ERC under G.S. 143B-282(b). (1951, c. 606; 1955, c. 1131, s. 1; 1959, c. 779, s. 8; 1967, c. 892, s. 1; 1971, c. 1167, s. 6; 1973, c. 476, s. 128; c. 821, s. 5; c. 1262, s. 23; 1975, c. 19, s. 51; c. 583, ss. 2-4; c. 655, ss. 1, 2; 1977, c. 771, s. 4; 1979, c. 633, s. 5; 1985, c. 446, s. 1; c. 697, s. 2; 1985 (Reg. Sess., 1986), c. 1023, ss. 1-5; 1987, c. 461, s. 1; c. 734, s. 1; c. 827, ss. 154, 159; 1989, c. 51, s. 2; c. 168, s. 29; c. 453, ss. 1, 2; c. 494, s. 1; c. 727, ss. 160, 161; 1989 (Reg. Sess., 1990), c. 1004, s. 17; c. 1024, s. 33; c. 1037, s. 1; 1991, c. 156, s. 1; c. 498, s. 1; 1991 (Reg. Sess., 1992), c. 944, s. 12; 1995 (Reg. Sess., 1996), c. 626, s. 2; 1997-458, ss. 6.1, 9.1, 11.2; 1997-496, s. 3; 1998-212, s. 14.9H(b), (d); 1999-329, s. 10.1.)

Editor's Note. — This section was amended by Session Laws 1995 (Reg. Sess., 1996), c. 626, s. 2, in the coded bill drafting format provided by G.S. 120-20.1. The subsection designation (a4) was assigned by the Revisor of Statutes.

Session Laws 1997-458, s. 1.2(b), as amended by Session Laws 1998-188, s. 3, by Session Laws 1999-329, s. 2.2, by Session Laws 2001-254, s. 2, and by Session Laws 2003-266, s. 2, provides: "In order to protect travel and tourism, effective 1 September 2007, no animal waste management system shall be permitted except under an individual permit issued under Part 1 of Article 21 of Chapter 143 of the General Statutes in any county in the State: (i) that has a population of less than 75,000 according to the most recent decennial federal census; (ii) in which there is more than one hundred fifty million dollars ($150,000,000) of expenditures for travel and tourism based on the most recent figures of the Department of Commerce; and (iii) that is not in the coastal area as defined by G.S. 113A-103."

Session Laws 1997-458, s. 6.4, provides G.S. 143-215.1(c5), as enacted by Section 6.1 of this act, shall not be construed to invalidate any limit established by the Environmental Management Commission prior to the date this act becomes effective. A limit established by the Environmental Management Commission prior to the date this act becomes effective may be altered pursuant to a calibrated nutrient response model approved by the Commission in accordance with G.S. 143-215.1(c5), as enacted by Section 6.1 of this act.

Session Laws 1997-458, s. 13.3, contains a severability clause.

As to a moratorium on the construction or

expansion of swine farms or lagoons or animal waste management systems for swine farms, established by Session Laws 1997-458, ss. 1.1 and 1.2, as amended by Session Laws 1998-188, ss. 2 and 3, by Session Laws 1999-329, ss. 2.1 and 2.2, by Session Laws 2001-254, ss. 1 and 2, and by Session Laws 2003-266, ss. 1 and 2, see the Editor's notes following G.S. 143-215.10A.

Session Laws 1998-212, s. 14.9H(e), provides: "The Environmental Management Commission shall present the first summary and analysis required by G.S. 143-215.1(h), as enacted by subsection (d) of this section, as a part of the quarterly report to the Environmental Review Commission due on or before 15 April 1999 under G.S. 143B-282(b), as amended by subsection (f) of this section."

Session Laws 1999-329, s. 13.7, provides that this act shall not be construed to obligate the General Assembly to appropriate funds to implement the provisions of this act. Every State agency to which this act applies shall implement the provisions of this act from funds otherwise appropriated or available to that agency.

Session Laws 2001-361, s. 1, provides: "Notwithstanding G.S. 150B-21.3(b), 15A NCAC 2B.0315 (Neuse River Basin), as amended by the Environmental Management Commission on 12 October 2000 and approved by the Rules Review Commission on 16 November 2000, becomes effective on 1 July 2004 unless the 2004 Regular Session of the 2003 General Assembly specifically disapproves 15A NCAC 2B.0315 (Neuse River Basin), as amended by the Environmental Management Commission on 12 October 2000 and approved by the Rules Review Commission on 16 November 2000, by enactment of a bill as provided in G.S. 150B-21.3(b)."

Session Laws 2001-491, s. 16.1, provides that "The Secretary of the Department of Environment and Natural Resources, in cooperation with the Director of the South Carolina Department of Health and Environmental Control, shall study strategies and mechanisms to promote better coordination of the activities of the two states on water quality and water supply within the Catawba-Wateree River basin. This study may include the following topics:

"(1) The need for and development of a memorandum of agreement between North and South Carolina to ensure cooperation, coordination and integrated management in addressing issues related to the basin, all within the framework of currently existing programs and agencies of the two states.

"(2) The development of a shared model and common procedures for use by both states in collecting and reporting data and information concerning water quality and water supply within the entire basin.

"(3) The desirability and feasibility of establishing joint, basinwide goals, policies, planning and implementation tools, and the desirability of different types of decision-making structures for accomplishing the joint activities.

"(4) Any other related topics.

"The Secretary shall submit a report on the results of this study, including any recommended legislation, to the 2002 Regular Session of the 2001 General Assembly."

Session Laws 2003-28, s. 1, provides that notwithstanding 15A NCAC 2H.0225(e), the Department of Environment and Natural Resources, pursuant to the powers relative to general permits and to permits for facilities not discharging to the surface waters of the State that are granted to the Environmental Management Commission under G.S. 143-215.1 and G.S. 143-215.10C and delegated by the Commission to the Department, shall extend the expiration of general permits AWG100000 (Swine), AWG200000 (Cattle), and AWG300000 (Poultry) until 1 October 2004. Subject to the provisions of 40 Code of Federal Regulations Part 123 (1 July 2002 Edition) and of subsections (g) and (h) of 15 NCAC 2H.0225, the Department of Environment and Natural Resources shall extend the expiration of individual certificates of coverage issued under these general permits until 1 October 2004.

Session Laws 2003-28, s. 2, provides: "The Department of Environment and Natural Resources shall study the use of general nondischarge permits for animal waste management systems for swine, cattle, and poultry operations to protect water quality, including the impact of the use of general permits for swine, cattle, and poultry operations on the land application and potential discharge of nitrogen and phosphorous to surface water and groundwater in the State. In conducting this study, the Department shall consult with the Department of Agriculture and Consumer Services; the College of Agriculture and Life Sciences at North Carolina State University; representatives of swine, cattle, and poultry farmers; representatives of environmental protection and natural resources conservation groups; and other interested parties. In the course of the study required by this section, the Department of Environment and Natural Resources shall prepare draft revised general permits for animal waste management systems that serve swine, cattle, and poultry operations and shall circulate these draft permits, along with drafts of the forms that farmers would be required to use in connection with these permits, among interested parties for comment. Consistent with water quality protection goals and strategies, the Department of Environment and Natural Resources may further revise the draft revised general permits and associated forms on the basis of comment from

interested parties. The Department of Environment and Natural Resources shall report its findings and recommendations to the Environmental Review Commission on or before 1 March 2004."

Session Laws 2003-433, ss. 1 and 2, provide: "Pursuant to G.S. 150B-21.3(b), 15A NCAC 2B.0225 (Outstanding Resource Waters) and 15A NCAC 2B.0316 (Tar-Pamlico River Basin), as adopted by the Environmental Management Commission on 11 July 2002 and approved by the Rules Review Commission on 15 August 2002, are approved effective 1 August 2003 with respect to all waters and lands that are located west of Nash County State Road 1003 (Red Oak Road).

"With respect to all waters and lands that are located east of Nash County State Road 1003 (Red Oak Road), 15A NCAC 2B.0225 (Outstanding Resource Waters) and 15A NCAC 2B.0316 (Tar-Pamlico River Basin), as adopted by the Environmental Management Commission on 11 July 2002 and approved by the Rules Review Commission on 15 August 2002, shall not become effective as provided in G.S. 150B-21.3(b) and shall become effective only as the 2004 Regular Session of the 2003 General Assembly may provide by law."

Legal Periodicals. — For note on estuarine pollution, see 49 N.C.L. Rev. 921 (1971).

For 1997 legislative survey, see 20 Campbell L. Rev. 450.

CASE NOTES

Authority to Issue Permits. — G.S. 143-215.1 authorizes the North Carolina Environmental Management Commission to issue permits in order to control sources of water pollution. N.C. Forestry Ass'n v. N.C. Dep't of Env't & Natural Res., 154 N.C. App. 18, 571 S.E.2d 602, 2002 N.C. App. LEXIS 1411 (2002).

G.S. 143-215.1(b) gives the North Carolina Environmental Management Commission authority to issue general National Pollutant Discharge Elimination System permits. N.C. Forestry Ass'n v. N.C. Dep't of Env't & Natural Res., 154 N.C. App. 18, 571 S.E.2d 602, 2002 N.C. App. LEXIS 1411 (2002).

G.S. 143-215.1 does not require the North Carolina Environmental Management Commission to make general National Pollutant Discharge Elimination System permits available, and availability of general permits depends on, inter alia, the need for individual permit oversight and the need for public review and comment on individual permits, under G.S. 143-215.1(b)(4). N.C. Forestry Ass'n v. N.C. Dep't of Env't & Natural Res., 154 N.C. App. 18, 571 S.E.2d 602, 2002 N.C. App. LEXIS 1411 (2002).

Permit Types. — Under G.S. 143-215.1, National Pollutant Discharge Elimination System permits may be "general," prescribing conditions to be applied to a group or category of discharges, or "individual," tailored to the particular discharge and location. N.C. Forestry Ass'n v. N.C. Dep't of Env't & Natural Res., 154 N.C. App. 18, 571 S.E.2d 602, 2002 N.C. App. LEXIS 1411 (2002).

Review of G.S. 143-215.1(b) and the history of general National Pollutant Discharge Elimination System permits reveals their primary purpose is to alleviate the North Carolina Environmental Management Commission's administrative burden, so the statute does not define a right to a general permit, abrogation of which provides the grounds for an administrative hearing pursuant to the North Carolina Administrative Procedure Act, G.S. 150B-1 et seq. N.C. Forestry Ass'n v. N.C. Dep't of Env't & Natural Res., 154 N.C. App. 18, 571 S.E.2d 602, 2002 N.C. App. LEXIS 1411 (2002).

Right to Appeal from Consent Special Order. — "Procedural injury," whereby petitioner State of Tennessee's right to be heard on certain aspects of a National Pollutant Discharge Elimination System (NPDES) permit was substantially impaired, was sufficient under G.S. 150B-43 to qualify petitioner as an "aggrieved person" for purposes of appeal of issuance of Commission's consent special order with corporation. In addition, where the consent special order contained provisions substantially identical to provisions which petitioner opposed in the proposed NPDES permit, which affected the property rights of the petitioner in the Pigeon River, these allegations also established petitioner's "aggrieved person" status. State ex rel. Tenn. Dep't of Health & Env't v. Environmental Mgt. Comm'n, 78 N.C. App. 763, 338 S.E.2d 781 (1986).

Same — Contested Case. — A permitting decision, that is, the process by which a National Pollutant Discharge Elimination System permit is issued by the Department of Environmental Health and Natural Resources (now the Department of Environment and Natural Resources), is a "contested case" so that no additional administrative hearing is required before seeking judicial review. Citizens for Clean Indus., Inc. v. Lofton, 109 N.C. App. 229, 427 S.E.2d 120 (1993), overruled on other grounds, Empire Power Co. v. North Carolina Dep't of Env't, Health & Natural Resources, 337 N.C. 569, 447 S.E.2d 768, rehearing denied, 338 N.C. 314, 451 S.E.2d 634 (1994).

G.S. 143-215.1(e) allows contested case review to a National Pollutant Discharge Elimination System permit applicant or permittee who is dissatisfied with a decision of the North

Carolina Environmental Management Commission. N.C. Forestry Ass'n v. N.C. Dep't of Env't & Natural Res., 154 N.C. App. 18, 571 S.E.2d 602, 2002 N.C. App. LEXIS 1411 (2002).

Testimony of Director of Division of Environmental Management concerning harm to the regulatory process and community was competent evidence to support the findings of the N.C. Environmental Management Commission imposing civil penalty for violations of subdivision (a)(2) of this section. Chesapeake Microfilm, Inc. v. North Carolina Dep't of Env't, Health & Natural Resources, 111 N.C. App. 737, 434 S.E.2d 218 (1993), appeal dismissed, cert. denied, 335 N.C. 768, 442 S.E.2d 511, aff'd per curiam, 337 N.C. 797, 448 S.E.2d 514 (1994).

Cited in Biddix v. Henredon Furn. Indus., Inc., 76 N.C. App. 30, 331 S.E.2d 717 (1985); Concerned Citizens v. North Carolina Envtl. Mgt. Comm'n, 89 N.C. App. 708, 367 S.E.2d 13 (1988); Brinkman v. Barrett Kays & Assocs., P.A., 155 N.C. App. 738, 575 S.E.2d 40, 2003 N.C. App. LEXIS 17 (2003).

OPINIONS OF ATTORNEY GENERAL

Exception to Swine Farm Moratorium. — A swine waste operation general permit and the certificates of coverage issued under this section on the morning of August 27, 1997, were effective, and construction or expansion thereunder could proceed as a statutory exception to the swine farm moratorium signed by the Governor in the afternoon of August 27, 1997. See opinion of Attorney General to Mr. Preston Howard, Director Division of Water Quality Department of Environment and Natural Resources, 1997 N.C.A.G. 59 (9/22/97).

For a general discussion of the validity of three permit conditions, see opinion of Attorney General to Senator John H. Kerr, III, North Carolina General Assembly, 1998 N.C.A.G. 29 (6/7/98).

§ 143-215.1A. Closed-loop groundwater remediation systems allowed.

(a) The phrase "closed-loop groundwater remediation system" means a system and attendant processes for cleaning up contaminated groundwater by pumping groundwater, treating the groundwater to reduce the concentration of or remove contaminants, and reintroducing the treated water beneath the surface so that the treated groundwater will be recaptured by the system.

(b) The Secretary may issue a permit for the siting, construction, and operation of a closed-loop groundwater remediation system. Permits shall be issued in accordance with G.S. 143-215.1 and applicable rules of the Commission. A permit issued under this section constitutes prior permission under G.S. 87-88.

(c) A permit for a closed-loop groundwater remediation system shall specify the location at which groundwater is to be reintroduced and shall specify design, construction, operation, and closure requirements for the closed-loop groundwater remediation system necessary to ensure that the treated groundwater will be captured by the contaminant and removal system that extracts the groundwater for treatment. The Secretary may impose any additional permit conditions or limitations necessary to:

(1) Achieve efficient, effective groundwater remediation.
(2) Minimize the possibility of spills or other releases from the closed-loop groundwater remediation system.
(3) Specify or limit the distance between the point at which contaminated groundwater is extracted and the point at which treated groundwater is reintroduced.
(4) Specify the minimum or maximum gradients between the point at which contaminated groundwater is extracted and the point at which treated groundwater is reintroduced.
(5) Specify or limit the chemical, physical, or biological treatment processes that may be used.
(6) Protect the environment or public health.

(d) The Commission may adopt rules to implement this section. (1991 (Reg. Sess., 1992), c. 786, s. 3.)

§ 143-215.1B. Extension of date for compliance with nitrogen and phosphorous discharge limits.

(a) The Commission may extend a compliance date established under G.S. 143-215.1(c6) only in accordance with the requirements of this section and only upon the request of a person who holds a permit under G.S. 143-215.1 that authorizes a discharge into surface waters to which the limits set out in subsections (c1) or (c2) of G.S. 143-215.1 apply. The Commission shall act on a request for an extension of a compliance date within 120 days after the Commission receives the request. The Commission shall not extend a compliance date if the Commission concludes, on the basis of the scientific data available to the Commission at the time of the request, that the extension will result in a violation of the antidegradation policy set out in 40 Code of Federal Regulations § 131.12 (1 July 1997 Edition). The Commission shall not extend a compliance date unless the Commission finds that the permit holder needs additional time to develop a calibrated nutrient response model that meets the requirements of this section. If the Commission requires an individual discharge to be limited to a maximum mass load or concentration that is different from those set out in subsections (c1) or (c2) of G.S. 143-215.1, the maximum mass load or concentration shall be substantiated by the model.

(b) The Commission shall determine the extended compliance date by adding to the date on which the Commission grants the extension: (i) two years for the collection of data needed to prepare a calibrated nutrient response model; (ii) a maximum of one year to prepare the calibrated nutrient response model; (iii) the amount of time, if any, that is required for the Commission to develop a nutrient management strategy and to adopt rules or to modify discharge permits to establish maximum mass loads or concentration limits based on the calibrated nutrient response model; and (iv) a maximum of three years to plan, design, finance, and construct a facility that will comply with those maximum mass loads and concentration limits. If the Commission finds that additional time is needed to complete the construction of a facility, the Commission may further extend an extended compliance date by a maximum of two additional years.

(c) Notwithstanding the provisions of G.S. 150B-21.1(a), the Commission may adopt temporary rules to establish maximum mass loads or concentration limits pursuant to this section or as may otherwise be necessary to implement this section.

(d) A permit holder who is granted an extended compliance date under this section shall:

(1) Develop a calibrated nutrient response model in conjunction with other affected parties and in accordance with a timetable for the development of the model that has been approved by the Commission. The model shall be based on current data, capable of predicting the impact of nitrogen and phosphorous in the surface waters, capable of being incorporated into any nutrient management plan developed by the Commission, and approved by the Commission.

(2) Evaluate and optimize the operation of all facilities operated by the permit holder that are permitted under G.S. 143-215.1(c) and that discharge into the nutrient sensitive waters (NSW) for which the compliance date is extended pursuant to this section in order to reduce nutrient loading.

(3) Evaluate methods to reduce the total mass load of waste that is discharged from all facilities operated by the permit holder that are permitted under G.S. 143-215.1(c) and that discharge into the nutrient sensitive waters (NSW) for which the compliance date is extended pursuant to this section and determine whether these methods are cost-effective.

(4) Evaluate methods to reduce the discharge of treated effluent from all facilities operated by the permit holder that are permitted under G.S. 143-215.1(c) and that discharge into the nutrient sensitive waters (NSW) for which the compliance date is extended pursuant to this section; including land application of treated effluent, the use of restored or created wetlands that are not located in a 100-year floodplain to polish treated effluent, and other methods to reuse treated effluent; and determine whether these methods are cost-effective.

(5) Report to the Commission on progress in the development of the calibrated nutrient response model, on efforts to optimize the operation of facilities, on the evaluation of methods of reducing the total mass load of waste, and on the evaluation of methods to reduce the discharge of treated effluent. The Commission shall establish a schedule for reports that requires the permit holder to report on at least a semiannual basis.

(e) The Commission may revoke an extension granted under this section and impose the limits set out in subsections (c1) and (c2) of G.S. 143-215.1 if the Commission determines that a permit holder who has obtained an extension under this section has, at any time during the period of the extension:

(1) Failed to comply with the requirements of subsection (d) of this section; or

(2) Violated any conditions or limitations of any permit issued under G.S. 143-215.1 or special order issued under G.S. 143-215.2 if the violation is the result of conduct by the permit holder that results in a significant violation of water quality standards. (1998-212, s. 14.9H(c).)

Editor's Note. — Session Laws 1997-458, s. 6.3, as amended by Session Laws 1998-212, s. 14.9H(a) provides: "By November 1997, the Environmental Management Commission shall develop a schedule of dates between 1 January 1998 and 1 January 2003, by which facilities in existence on 1 July 1997 must comply with G.S. 143-215.1(c1) and G.S. 143-215.1(c2), as enacted by Section 6.1 of this act. The schedule of compliance dates shall follow as closely as possible the dates on which permits for existing facilities must be renewed. New facilities and expansions of existing facilities for which an application for a permit is received by the Department of Environment and Natural Resources on behalf of the Environmental Management Commission prior to the date this act becomes effective shall be treated as existing facilities. For surface waters to which the limit set out in G.S. 143-215.1(c1) applies where nitrogen is not designated by the Commission as a nutrient of concern, the Commission may extend the compliance date established pursuant to this section as provided in G.S. 143-215.1B, which applies to this section notwithstanding the absence of a reference to this section in G.S. 143-215.1B(a). A request to extend a compliance date under this section shall be submitted to the Commission no later than 1 January 1999."

§ 143-215.1C. Report to wastewater system customers on system performance; publication of notice of discharge of untreated wastewater and waste.

(a) Report to Wastewater System Customers. — The owner or operator of any wastewater collection or treatment works, the operation of which is primarily to collect or treat municipal or domestic wastewater and for which a permit is issued under this Part, shall provide to the users or customers of the collection system or treatment works and to the Department an annual report that summarizes the performance of the collection system or treatment works and the extent to which the collection system or treatment works has violated the permit or federal or State laws, regulations, or rules related to the

protection of water quality. The report shall be prepared on either a calendar or fiscal year basis and shall be provided no later than 60 days after the end of the calendar or fiscal year.

(b) Publication of Notice of Discharge of Untreated Wastewater. — The owner or operator of any wastewater collection or treatment works, the operation of which is primarily to collect or treat municipal or domestic wastewater and for which a permit is issued under this Part shall:

(1) In the event of a discharge of 1,000 gallons or more of untreated wastewater to the surface waters of the State, issue a press release to all print and electronic news media that provide general coverage in the county where the discharge occurred setting out the details of the discharge. The owner or operator shall issue the press release within 48 hours after the owner or operator has determined that the discharge has reached the surface waters of the State. The owner or operator shall retain a copy of the press release and a list of the news media to which it was distributed for at least one year after the discharge and shall provide a copy of the press release and the list of the news media to which it was distributed to any person upon request.

(2) In the event of a discharge of 15,000 gallons or more of untreated wastewater to the surface waters of the State, publish a notice of the discharge in a newspaper having general circulation in the county in which the discharge occurs and in each county downstream from the point of discharge that is significantly affected by the discharge. The Secretary shall determine, at the Secretary's sole discretion, which counties are significantly affected by the discharge and shall approve the form and content of the notice and the newspapers in which the notice is to be published. The notice shall be captioned "NOTICE OF DISCHARGE OF UNTREATED SEWAGE". The owner or operator shall publish the notice within 10 days after the Secretary has determined the counties that are significantly affected by the discharge and approved the form and content of the notice and the newspapers in which the notice is to be published. The owner or operator shall file a copy of the notice and proof of publication with the Department within 30 days after the notice is published. Publication of a notice of discharge under this subdivision is in addition to the requirement to issue a press release under subdivision (1) of this subsection.

(c) Publication of Notice of Discharge of Untreated Waste. — The owner or operator of any wastewater collection or treatment works, other than a wastewater collection or treatment works the operation of which is primarily to collect or treat municipal or domestic wastewater, for which a permit is issued under this Part shall:

(1) In the event of a discharge of 1,000 gallons or more of untreated waste to the surface waters of the State, issue a press release to all print and electronic news media that provide general coverage in the county where the discharge occurred setting out the details of the discharge. The owner or operator shall issue the press release within 48 hours after the owner or operator has determined that the discharge has reached the surface waters of the State. The owner or operator shall retain a copy of the press release and a list of the news media to which it was distributed for at least one year after the discharge and shall provide a copy of the press release and the list of the news media to which it was distributed to any person upon request.

(2) In the event of a discharge of 15,000 gallons or more of untreated waste to the surface waters of the State, publish a notice of the

discharge in a newspaper having general circulation in the county in which the discharge occurs and in each county downstream from the point of discharge that is significantly affected by the discharge. The Secretary shall determine, at the Secretary's sole discretion, which counties are significantly affected by the discharge and shall approve the form and content of the notice and the newspapers in which the notice is to be published. The notice shall be captioned "NOTICE OF DISCHARGE OF UNTREATED WASTE". The owner or operator shall publish the notice within 10 days after the Secretary has determined the counties that are significantly affected by the discharge and approved the form and content of the notice and the newspapers in which the notice is to be published. The owner or operator shall file a copy of the notice and proof of publication with the Department within 30 days after the notice is published. Publication of a notice of discharge under this subdivision is in addition to the requirement to issue a press release under subdivision (1) of this subsection. (1999-329, s. 8.1; 1999-456, s. 68.)

Editor's Note. — Session Laws 1999-329, s. 13.7 provides that this act shall not be construed to obligate the General Assembly to appropriate funds to implement the provisions of this act. Every State agency to which this act applies shall implement the provisions of this act from funds otherwise appropriated or available to that agency.

§ 143-215.2. Special orders.

(a) Issuance. — The Commission may, after the effective date of classifications, standards and limitations adopted pursuant to G.S. 143-214.1 or G.S. 143-215, or a water supply watershed management requirement adopted pursuant to G.S. 143-214.5, issue, and from time to time modify or revoke, a special order, or other appropriate instrument, to any person whom it finds responsible for causing or contributing to any pollution of the waters of the State within the area for which standards have been established. The order or instrument may direct the person to take, or refrain from taking an action, or to achieve a result, within a period of time specified by the special order, as the Commission deems necessary and feasible in order to alleviate or eliminate the pollution. The Commission is authorized to enter into consent special orders, assurances of voluntary compliance or other similar documents by agreement with the person responsible for pollution of the water, subject to the provisions of subsection (a1) of this section regarding proposed orders, and the consent order, when entered into by the Commission after public review, shall have the same force and effect as a special order of the Commission issued pursuant to hearing.

(a1) Public Notice and Review of Consent Orders.

(1) The Commission shall give notice of a proposed consent order to the proper State, interstate, and federal agencies, to interested persons, and to the public. The Commission may also provide any other data it considers appropriate to those notified. The Commission shall prescribe the form and content of the notice. The notice shall be given at least 45 days prior to any final action regarding the consent order. Public notice shall be given by publication of the notice one time in a newspaper having general circulation within the county in which the pollution originates.

(2) Any person who desires a public meeting on any proposed consent order may request one in writing to the Commission within 30 days following date of the notice of the proposed consent order. The Commission shall consider all such requests for meetings. If the Commission determines that there is significant public interest in

holding a meeting, the Commission shall schedule a meeting and shall give notice of such meeting at least 30 days in advance to all persons to whom notice of the proposed consent order was given and to any other person requesting notice. At least 30 days prior to the date of meeting, the Commission shall also have a copy of the notice of the meeting published at least one time in a newspaper having general circulation within the county in which the pollution originates. The Commission shall prescribe the form and content of notices under this subsection.

(3) The Commission shall prescribe the procedures to be followed in such meetings. If the meeting is not conducted by the Commission, detailed minutes of the meeting shall be kept and shall be submitted, along with any other written comment, exhibits or other documents presented at the meeting, to the Commission for its consideration prior to final action granting or denying the consent order.

(4) The Commission shall take final action on a proposed consent not later than 60 days following notice of the proposed consent order or, if a public meeting is held, within 90 days following such meeting.

(b) Procedure to Contest Certain Orders. — A special order that is issued without the consent of the person affected may be contested by that person by filing a petition for a contested case under G.S. 150B-23 within 30 days after the order is issued. If the person affected does not file a petition within the required time, the order is final and is not subject to review.

(c) Repealed by Session Laws 1987, c. 827, s. 160.

(d) Effect of Compliance. — Any person who installs a treatment works for the purpose of alleviating or eliminating water pollution in compliance with the terms of, or as a result of the conditions specified in, a permit issued pursuant to G.S. 143-215.1, or a special order, consent special order, assurance of voluntary compliance or similar document issued pursuant to this section, or a final decision of the Commission or a court rendered pursuant to either of said sections, shall not be required to take or refrain from any further action nor be required to achieve any further results under the terms of this or any other State law relating to the control of water pollution, for a period to be fixed by the Commission or court as it shall deem fair and reasonable in the light of all the circumstances after the date when such special order, consent special order, assurance of voluntary compliance, other document, or decision, or the conditions of such permit become finally effective, if:

(1) The treatment works result in the elimination or alleviation of water pollution to the extent required by such permit, special order, consent special order, assurance of voluntary compliance or other document, or decision and complies with any other terms thereof; and

(2) Such person complies with the terms and conditions of such permit, special order, consent special order, assurance of voluntary compliance, other document, or decision within the time limit, if any, specified therein or as the same may be extended, and thereafter remains in compliance. (1951, c. 606; 1955, c. 1131, s. 2; 1967, c. 892, s. 1; 1973, c. 698, s. 3; c. 1262, s. 23; 1975, c. 19, s. 52; 1979, c. 889; 1987, c. 827, ss. 154, 160; 1989, c. 426, s. 3; c. 766, s. 1; 1995 (Reg. Sess., 1996), c. 626, s. 3.)

Editor's Note. — Session Laws 1989, c. 426, which amended this section, in s. 7 provided: "This act shall not affect the validity of any local ordinance relating to watershed protection adopted prior to the effective date of this act [June 23, 1989]."

Section 7.1 of Session Laws 1989, c. 426 provided: "Nothing herein contained shall be construed to obligate the General Assembly to appropriate funds to implement the provisions of this act."

Legal Periodicals. — For note on estuarine pollution, see 49 N.C.L. Rev. 921 (1971).

CASE NOTES

Effect of Consent Special Order. — A consent special order has the same force and effect as a special order issued pursuant to a hearing; thus a consent special order is a final decision by the Commission. State ex rel. Tenn. Dep't of Health & Env't v. Environmental Mgt. Comm'n, 78 N.C. App. 763, 338 S.E.2d 781 (1986).

Right to Appeal from Consent Special Order. — "Procedural injury," whereby petitioner State of Tennessee's right to be heard on certain aspects of a National Pollutant Discharge Elimination System (NPDES) permit was substantially impaired, was sufficient under G.S. 150B-43 to qualify petitioner as an "aggrieved person" for purposes of appeal of issuance of Commission's consent special order with corporation. In addition, where the consent special order contained provisions substantially identical to provisions which petitioner opposed in the proposed NPDES permit, which affected the property rights of the petitioner in the Pigeon River, these allegations also established petitioner's "aggrieved person" status. State ex rel. Tenn. Dep't of Health & Env't v. Environmental Mgt. Comm'n, 78 N.C. App. 763, 338 S.E.2d 781 (1986).

Case challenging a consent special order entered into by Commission and a corporation, which order was alleged to intrude upon the NPDES permit process (which process requires a hearing), was "contested" for the purposes of G.S. 150B-43. State ex rel. Tenn. Dep't of Health & Env't v. Environmental Mgt. Comm'n, 78 N.C. App. 763, 338 S.E.2d 781 (1986).

County had standing and was entitled to challenge the constitutionality of the Water Supply Watershed Protection Act. Town of Spruce Pine v. Avery County, 123 N.C. App. 704, 475 S.E.2d 233 (1996), rev'd on other grounds, 346 N.C. 787, 488 S.E.2d 144 (1997).

Cited in Scarborough v. Adams, 264 N.C. 631, 142 S.E.2d 608 (1965).

§ 143-215.3. General powers of Commission and Department; auxiliary powers.

(a) Additional Powers. — In addition to the specific powers prescribed elsewhere in this Article, and for the purpose of carrying out its duties, the Commission shall have the power:

(1) To make rules implementing Articles 21, 21A, 21B, or 38 of this Chapter.

(1a) To adopt fee schedules and collect fees for the following:

a. Processing of applications for permits or registrations issued under Article 21, other than Parts 1 and 1A, Articles 21A, 21B, and 38 of this Chapter;

b. Administering permits or registrations issued under Article 21, other than Parts 1 and 1A, Articles 21A, 21B, and 38 of this Chapter including monitoring compliance with the terms of those permits; and

c. Reviewing, processing, and publicizing applications for construction grant awards under the Federal Water Pollution Control Act.

No fee may be charged under this provision, however, to a farmer who submits an application that pertains to his farming operations.

(1b) The fee to be charged pursuant to G.S. 143-215.3(a)(1a) for processing an application for a permit under G.S. 143-215.108 and G.S. 143-215.109 of Article 21B of this Chapter may not exceed five hundred dollars ($500.00). The fee to be charged pursuant to G.S. 143-215.3(a)(1a) for processing a registration under Part 2A of this Article or Article 38 of this Chapter may not exceed fifty dollars ($50.00) for any single registration. An additional fee of twenty percent (20%) of the registration processing fee may be assessed for a late registration under Article 38 of this Chapter. The fee for administering and compliance monitoring under Article 21, other than Parts 1 and 1A, and G.S. 143-215.108 and G.S. 143-215.109 of Article 21B shall be charged on an annual basis for each year of the permit term and may not exceed one thousand five hundred dollars ($1,500) per year. Fees

for processing all permits under Article 21A and all other sections of Article 21B shall not exceed one hundred dollars ($100.00) for any single permit. The total payment for fees that are set by the Commission under this subsection for all permits for any single facility shall not exceed seven thousand five hundred dollars ($7,500) per year, which amount shall include all application fees and fees for administration and compliance monitoring. A single facility is defined to be any contiguous area under one ownership and in which permitted activities occur. For all permits issued under these Articles where a fee schedule is not specified in the statutes, the Commission, or other commission specified by statute shall adopt a fee schedule in a rule following the procedures established by the Administrative Procedure Act. Fee schedules shall be established to reflect the size of the emission or discharge, the potential impact on the environment, the staff costs involved, relative costs of the issuance of new permits and the reissuance of existing permits, and shall include adequate safeguards to prevent unusual fee assessments which would result in serious economic burden on an individual applicant. A system shall be considered to allow consolidated annual payments for persons with multiple permits. In its rulemaking to establish fee schedules, the Commission is also directed to consider a method of rewarding facilities which achieve full compliance with administrative and self-monitoring reporting requirements, and to consider, in those cases where the cost of renewal or amendment of a permit is less than for the original permit, a lower fee for the renewal or amendment.

(1c) Moneys collected pursuant to G.S. 143-215.3(a)(1a) shall be used to:

a. Eliminate, insofar as possible, backlogs of permit applications awaiting agency action;

b. Improve the quality of permits issued;

c. Improve the rate of compliance of permitted activities with environmental standards; and

d. Decrease the length of the processing period for permit applications.

(1d) The Commission may adopt and implement a graduated fee schedule sufficient to cover all direct and indirect costs required for the State to develop and administer a permit program which meets the requirements of Title V. The provisions of subdivision (1b) of this subsection do not apply to the adoption of a fee schedule under this subdivision. In adopting and implementing a fee schedule, the Commission shall require that the owner or operator of all air contaminant sources subject to the requirement to obtain a permit under Title V to pay an annual fee, or the equivalent over some other period, sufficient to cover costs as provided in section 502(b)(3)(A) of Title V. The fee schedule shall be adopted according to the procedures set out in Chapter 150B of the General Statutes.

a. The total amount of fees collected under the fee schedule adopted pursuant to this subdivision shall conform to the requirements of section 502(b)(3)(B) of Title V. No fee shall be collected for more than 4,000 tons per year of any individual regulated pollutant, as defined in section 502(b)(3)(B)(ii) of Title V, emitted by any source. Fees collected pursuant to this subdivision shall be credited to the Title V Account.

b. The Commission may reduce any permit fee required under this section to take into account the financial resources of small business stationary sources as defined under Title V and regulations promulgated by the United States Environmental Protection Agency.

c. When funds in the Title V Account exceed the total amount necessary to cover the cost of the Title V program for the next fiscal year, the Secretary shall reduce the amount billed for the next fiscal year so that the excess funds are used to supplement the cost of administering the Title V permit program in that fiscal year.

(1e) The Commission shall collect the application, annual, and project fees for processing and administering permits, certificates of coverage under general permits, and certifications issued under Parts 1 and 1A of this Article and for compliance monitoring under Parts 1 and 1A of this Article as provided in G.S. 143-215.3D and G.S. 143-215.10G.

(2) To direct that such investigation be conducted as it may reasonably deem necessary to carry out its duties as prescribed by this Article or Article 21A or Article 21B of this Chapter, and for this purpose to enter at reasonable times upon any property, public or private, for the purpose of investigating the condition of any waters and the discharge therein of any sewage, industrial waste, or other waste or for the purpose of investigating the condition of the air, air pollution, air contaminant sources, emissions, or the installation and operation of any air-cleaning devices, and to require written statements or the filing of reports under oath, with respect to pertinent questions relating to the operation of any air-cleaning device, sewer system, disposal system, or treatment works. In the case of effluent or emission data, any records, reports, or information obtained under this Article or Article 21A or Article 21B of this Chapter shall be related to any applicable effluent or emission limitations or toxic, pretreatment, or new source performance standards. No person shall refuse entry or access to any authorized representative of the Commission or Department who requests entry for purposes of inspection, and who presents appropriate credentials, nor shall any person obstruct, hamper or interfere with any such representative while in the process of carrying out his official duties.

(3) To conduct public hearings and to delegate the power to conduct public hearings in accordance with the procedures prescribed by this Article or by Article 21B of this Chapter.

(4) To delegate such of the powers of the Commission as the Commission deems necessary to one or more of its members, to the Secretary or any other qualified employee of the Department. The Commission shall not delegate to persons other than its own members and the designated employees of the Department the power to conduct hearings with respect to the classification of waters, the assignment of classifications, air quality standards, air contaminant source classifications, emission control standards, or the issuance of any special order except in the case of an emergency under subdivision (12) of this subsection for the abatement of existing water or air pollution. Any employee of the Department to whom a delegation of power is made to conduct a hearing shall report the hearing with its evidence and record to the Commission.

(5) To institute such actions in the superior court of any county in which a violation of this Article, Article 21B of this Chapter, or the rules of the Commission has occurred, or, in the discretion of the Commission, in the superior court of the county in which any defendant resides, or has his or its principal place of business, as the Commission may deem necessary for the enforcement of any of the provisions of this Article, Article 21B of this Chapter, or of any official action of the Commission, including proceedings to enforce subpoenas or for the punishment of contempt of the Commission.

(6) To agree upon or enter into any settlements or compromises of any actions and to prosecute any appeals or other proceedings.

(7) To direct the investigation of any killing of fish and wildlife which, in the opinion of the Commission, is of sufficient magnitude to justify investigation and is known or believed to have resulted from the pollution of the waters or air as defined in this Article, and whenever any person, whether or not he shall have been issued a certificate of approval, permit or other document of approval authorized by this or any other State law, has negligently, or carelessly or unlawfully, or willfully and unlawfully, caused pollution of the waters or air as defined in this Article, in such quantity, concentration or manner that fish or wildlife are killed as the result thereof, the Commission, may recover, in the name of the State, damages from such person. The measure of damages shall be the amount determined by the Department and the North Carolina Wildlife Resources Commission, whichever has jurisdiction over the fish and wildlife destroyed to be the replacement cost thereof plus the cost of all reasonable and necessary investigations made or caused to be made by the State in connection therewith. Upon receipt of the estimate of damages caused, the Department shall notify the persons responsible for the destruction of the fish or wildlife in question and may effect such settlement as the Commission may deem proper and reasonable, and if no settlement is reached within a reasonable time, the Commission shall bring a civil action to recover such damages in the superior court in the county in which the discharge took place. Upon such action being brought the superior court shall have jurisdiction to hear and determine all issues or questions of law or fact, arising on the pleadings, including issues of liability and the amount of damages. On such hearing, the estimate of the replacement costs of the fish or wildlife destroyed shall be prima facie evidence of the actual replacement costs of such fish or wildlife. In arriving at such estimate, any reasonably accurate method may be used and it shall not be necessary for any agent of the Wildlife Resources Commission or the Department to collect, handle or weigh numerous specimens of dead fish or wildlife.

The State of North Carolina shall be deemed the owner of the fish or wildlife killed and all actions for recovery shall be brought by the Commission on behalf of the State as the owner of the fish or wildlife. The fact that the person or persons alleged to be responsible for the pollution which killed the fish or wildlife holds or has held a certificate of approval, permit or other document of approval authorized by this Article or any other law of the State shall not bar any such action. The proceeds of any recovery, less the cost of investigation, shall be used to replace, insofar as and as promptly as possible, the fish and wildlife killed, or in cases where replacement is not practicable, the proceeds shall be used in whatever manner the responsible agency deems proper for improving the fish and wildlife habitat in question. Any such funds received are hereby appropriated for these designated purposes. Nothing in this paragraph shall be construed in any way to limit or prevent any other action which is now authorized by this Article.

(8) After issuance of an appropriate order, to withhold the granting of any permit or permits pursuant to G.S. 143-215.1 or G.S. 143-215.108 for the construction or operation of any new or additional disposal system or systems or air-cleaning device or devices in any area of the State. Such order may be issued only upon determination by the Commission, after public hearing, that the permitting of any new or additional

source or sources of water or air pollution will result in a generalized condition of water or air pollution within the area contrary to the public interest, detrimental to the public health, safety, and welfare, and contrary to the policy and intent declared in this Article or Article 21B of this Chapter. The Commission may make reasonable distinctions among the various sources of water and air pollution and may direct that its order shall apply only to those sources which it determines will result in a generalized condition of water or air pollution.

The determination of the Commission shall be supported by detailed findings of fact and conclusions set forth in the order and based upon competent evidence of record. The order shall describe the geographical area of the State affected thereby with particularity and shall prohibit the issuance of permits pending a determination by the Commission that the generalized condition of water or air pollution has ceased.

Notice of hearing shall be given in accordance with the provisions of G.S. 150B-21.2.

A person aggrieved by an order of the Commission under this subdivision may seek judicial review of the order under Article 4 of Chapter 150B of the General Statutes without first commencing a contested case. An order may not be stayed while it is being reviewed.

(9) If an investigation conducted pursuant to this Article or Article 21B of this Chapter reveals a violation of any rules, standards, or limitations adopted by the Commission pursuant to this Article or Article 21B of this Chapter, or a violation of any terms or conditions of any permit issued pursuant to G.S. 143-215.1 or 143-215.108, or special order or other document issued pursuant to G.S. 143-215.2 or G.S. 143-215.110, the Commission may assess the reasonable costs of any investigation, inspection or monitoring survey which revealed the violation against the person responsible therefor. If the violation resulted in an unauthorized discharge to the waters or atmosphere of the State, the Commission may also assess the person responsible for the violation for any actual and necessary costs incurred by the State in removing, correcting or abating any adverse effects upon the water or air resulting from the unauthorized discharge. If the person responsible for the violation refuses or fails within a reasonable time to pay any sums assessed, the Commission may institute a civil action in the superior court of the county in which the violation occurred or, in the Commission's discretion, in the superior court of the county in which such person resides or has his or its principal place of business, to recover such sums.

(10) To require a laboratory facility that performs any tests, analyses, measurements, or monitoring required under this Article or Article 21B of this Chapter to be certified annually by the Department, to establish standards that a laboratory facility and its employees must meet and maintain in order for the laboratory facility to be certified, and to charge a laboratory facility a fee for certification. Fees collected under this subdivision shall be credited to the Water and Air Account and used to administer this subdivision. These fees shall be applied to the cost of certifying commercial, industrial, and municipal laboratory facilities.

(11) Repealed by Session Laws 1983, c. 296, s. 6.

(12) To declare an emergency when it finds that a generalized condition of water or air pollution which is causing imminent danger to the health or safety of the public. Regardless of any other provisions of law, if the

Department finds that such a condition of water or air pollution exists and that it creates an emergency requiring immediate action to protect the public health and safety or to protect fish and wildlife, the Secretary of the Department with the concurrence of the Governor, shall order persons causing or contributing to the water or air pollution in question to reduce or discontinue immediately the emission of air contaminants or the discharge of wastes. Immediately after the issuance of such order, the chairman of the Commission shall fix a place and time for a hearing before the Commission to be held within 24 hours after issuance of such order, and within 24 hours after the commencement of such hearing, and without adjournment thereof, the Commission shall either affirm, modify or set aside the order.

In the absence of a generalized condition of air or water pollution of the type referred to above, if the Secretary finds that the emissions from one or more air contaminant sources or the discharge of wastes from one or more sources of water pollution is causing imminent danger to human health and safety or to fish and wildlife, he may with the concurrence of the Governor order the person or persons responsible for the operation or operations in question to immediately reduce or discontinue the emissions of air contaminants or the discharge of wastes or to take such other measures as are, in his judgment, necessary, without regard to any other provisions of this Article or Article 21B of this Chapter. In such event, the requirements for hearing and affirmance, modification or setting aside of such orders set forth in the preceding paragraph of this subdivision shall apply.

(13) Repealed by Session Laws 1983, c. 296, s. 6.

(14) To certify and approve, by appropriate delegations and conditions in permits required by G.S. 143-215.1, requests by publicly owned treatment works to implement, administer and enforce a pretreatment program for the control of pollutants which pass through or interfere with treatment processes in such treatment works; and to require such programs to be developed where necessary to comply with the Federal Water Pollution Control Act and the Resource Conservation and Recovery Act, including the addition of conditions and compliance schedules in permits required by G.S. 143-215.1. Pretreatment programs submitted by publicly owned treatment works shall include, at a minimum, the adoption of pretreatment standards, a permit or equally effective system for the control of pollutants contributed to the treatment works, and the ability to effectively enforce compliance with the program.

(15) To adopt rules for the prevention of pollution from underground tanks containing petroleum, petroleum products, or hazardous substances. Rules adopted under this section may incorporate standards and restrictions which exceed and are more comprehensive than comparable federal regulations.

(16) To adopt rules limiting the manufacture, storage, sale, distribution or use of cleaning agents containing phosphorus pursuant to G.S. 143-214.4(e), and to adopt rules limiting the manufacture, storage, sale, distribution or use of cleaning agents containing nitrilotriacetic acid.

(17) To adopt rules to implement Part 2A of Article 21A of Chapter 143.

(b) Research Functions. — The Department shall have the power to conduct scientific experiments, research, and investigations to discover economical and practical corrective methods for air pollution and waste disposal problems. To this end, the Department may cooperate with any public or private agency or agencies in the conduct of such experiments, research, and investigations, and

may, when funds permit, establish research studies in any North Carolina educational institution, with the consent of such institution. In addition, the Department shall have the power to cooperate and enter into contracts with technical divisions of State agencies, institutions and with municipalities, industries, and other persons in the execution of such surveys, studies, and research as it may deem necessary in fulfilling its functions under this Article or Article 21B of this Chapter. All State departments shall advise with and cooperate with the Department on matters of mutual interest.

(c) Relation with the Federal Government. — The Commission as official water and air pollution control agency for the State is delegated to act in local administration of all matters covered by any existing federal statutes and future legislation by Congress relating to water and air quality control. In order for the State of North Carolina to effectively participate in programs administered by federal agencies for the regulation and abatement of water and air pollution, the Department is authorized to accept and administer funds provided by federal agencies for water and air pollution programs and to enter into contracts with federal agencies regarding the use of such funds.

(d) Relations with Other States. — The Commission or the Department may, with the approval of the Governor, consult with qualified representatives of adjoining states relative to the establishment of regulations for the protection of waters and air of mutual interest, but the approval of the General Assembly shall be required to make any regulations binding.

(e) Variances. — Any person subject to the provisions of G.S. 143-215.1 or 143-215.108 may apply to the Commission for a variance from rules, standards, or limitations established pursuant to G.S. 143-214.1, 143-215, or 143-215.107. The Commission may grant such variance, for fixed or indefinite periods after public hearing on due notice, or where it is found that circumstances so require, for a period not to exceed 90 days without prior hearing and notice. Prior to granting a variance hereunder, the Commission shall find that:

(1) The discharge of waste or the emission of air contaminants occurring or proposed to occur do not endanger human health or safety; and

(2) Compliance with the rules, standards, or limitations from which variance is sought cannot be achieved by application of best available technology found to be economically reasonable at the time of application for such variances, and would produce serious hardship without equal or greater benefits to the public, provided that such variances shall be consistent with the provisions of the Federal Water Pollution Control Act as amended or the Clean Air Act as amended; and provided further, that any person who would otherwise be entitled to a variance or modification under the Federal Water Pollution Control Act as amended or the Clean Air Act as amended shall also be entitled to the same variance from or modification in rules, standards, or limitations established pursuant to G.S. 143-214.1, 143-215, and 143-215.107, respectively.

(f) Notification of Completed Remedial Action. — The definitions set out in G.S. 130A-310.31(b) apply to this subsection. Any person may submit a written request to the Department for a determination that groundwater has been remediated to meet the standards and classifications established under this Part. A request for a determination that groundwater has been remediated to meet the standards and classifications established under this Part shall be accompanied by the fee required by G.S. 130A-310.39(a)(2). If the Department determines that groundwater has been remediated to established standards and classifications, the Department shall issue a written notification that no further remediation of the groundwater will be required. The notification shall state that no further remediation of the groundwater will be required unless the Department later determines, based on new information or information

not previously provided to the Department, that the groundwater has not been remediated to established standards and classifications or that the Department was provided with false or incomplete information. Under any of those circumstances, the Department may withdraw the notification and require responsible parties to remediate the groundwater to established standards and classifications. (1951, c. 606; 1957, c. 1267, s. 3; 1959, c. 779, s. 8; 1963, c. 1086; 1967, c. 892, s. 1; 1969, c. 538; 1971, c. 1167, ss. 7, 8; 1973, c. 698, ss. 1-7, 9, 17; c. 712, s. 1; c. 1262, ss. 23, 86; c. 1331, s. 3; 1975, c. 583, ss. 5, 6; c. 655, s. 3; 1977, c. 771, s. 4; 1979, c. 633, ss. 6-8; 1979, 2nd Sess., c. 1158, ss. 1, 3, 4; 1983, c. 296, ss. 5-8; 1985, c. 551, s. 2; 1987, c. 111, s. 2; c. 767, s. 1; c. 827, ss. 1, 154, 161, 266; 1987 (Reg. Sess., 1988), c. 1035, s. 2; 1989, c. 500, s. 122; c. 652, s. 1; 1991, c. 552, ss. 2, 11; c. 712, s. 2; 1991 (Reg. Sess., 1992), c. 890, s. 16; c. 1039, ss. 14, 20.1; 1993, c. 344, s. 2; c. 400, ss. 1(c), 2, 3, 15; c. 496, s. 4; 1993 (Reg. Sess., 1994), c. 694, s. 1; 1995, c. 484, s. 5; 1997-357, s. 6; 1997-496, s. 4; 1998-212, s. 29A.11(b).)

Cross References. — As to powers and duties of the Environmental Management Commission under the North Carolina Well Construction Act, see G.S. 87-83 to 87-96. As to powers and duties of the commission with regard to water resources, see G.S. 143-354.

Editor's Note. — Session Laws 1997-357, s. 8, provides: "This act shall not be construed to obligate the General Assembly to make any appropriation to implement the provisions of this act. The Department of Environment, Health, and Natural Resources [now the Department of Environment and Natural Resources] shall implement the provisions of this act from funds otherwise available or appropriated to the Department."

Session Laws 1998-138, s. 1, provided: "Pursuant to G.S. 150B-21.3(b), the amendments to 15A NCAC 2B.0316, (Tar-Pamlico River Basin), as adopted by the Environmental Management Commission and approved by the Rules Review Commission on 15 January 1998, are disapproved. The Environmental Management Commission may adopt, pursuant to G.S. 150B-21.1 and consistent with G.S. 143-214.1, 143-215.1, and 143-215.3(a)(1), a temporary rule that incorporates the amendments to 15A NCAC 2B.0316 that are disapproved by this act, except that the primary classification of the portion of the Tar River designated as Index Number 28- (74) may not be reclassified from WS-IV to WS-V by a temporary rule pursuant to this act."

Session Laws 1999-329, s. 7.1, provides that, notwithstanding G.S. 150B-21.1(a)(2) and s. 8.6 of Session Laws 1997-458, the Environmental Management Commission may adopt temporary rules to protect water quality standards and uses as required to implement basinwide water quality management plans for the Cape Fear, Catawba, and Tar-Pamlico River Basins pursuant to G.S. 143-214.1, 143-214.7, 143-215.3, and 143B-282. The Commission is to provide notice and the opportunity for a hearing prior to the adoption of a temporary rule under this provision. Section 7.2 provides that s. 7.1 is to continue in effect until July 1, 2001. Section 7.3 provides that 7.1 through 7.3 are not to be construed to invalidate any development and implementation of basinwide water quality management plans by the Envirnomental Management Commission and the Department of Environment and Natural Resources occurring prior to the effective date thereof (July 21, 1999).

Session Laws 2001-355, ss. 1 to 6 provide for the implementation of the Tar-Pamlico River Basin-Nutrient Sensitive Waters Management Strategy: Agricultural Nutrient Control Strategy, as adopted by the Environmental Management Commission on 12 October 2000 and approved by the Rules Review Commission on 20 November 2000, to become effective on 1 September 2001. A Local Advisory Committee is to be appointed in each county or watershed, as specified in the Basin Oversight Committee, within the Tar-Pamlico River Basin; these committees terminate upon a finding by the Environmental Management Commission that the long-term maintenance of nutrient loads is assured. Under the act, the Soil and Water Commission is to approve best management practices for pasture-based production or management of livestock, including a point system applicable thereto. Harvesting of trees is also addressed. Furthermore, the Basin Oversight Committee is to develop a nutrient loading accounting methodology, to be approved by the Environmental Management Commission no later than 1 March 2003. The Environmental Management Commission may adopt and revise a temporary rule incorporating the provisions of the act until a permanent rule can be adopted. Session Laws 2001-355, s. 7 provides that ss. 2 and 3 of the act expire when the temporary rule becomes effective, and s. 4 expires upon a finding that the long-term maintenance of nutrient loads in the Tar-Pamlico River Basin is assured.

Session Laws 2001-361, s. 1, provides "Not-

withstanding G.S. 150B-21.3(b), 15ANCAC 2B.0315 (Neuse River Basin), as amended by the Environmental Management Commission on 12 October 2000 and approved by the Rules Review Commission on 16 November 2000, becomes effective on 1 July 2004 unless the 2004 Regular Session of the 2003 General Assembly specifically disapproves 15A NCAC2B.0315 (Neuse River Basin), as amended by the Environmental Management Commission on 12 October 2000 and approved by the Rules Review Commission on 16 November 2000, by enactment of a bill as provided in G.S. 150B-21.3(b)."

Session Laws 2001-418, s. 4(a), as amended by Session Laws 2003-340, s. 5, provides: "Notwithstanding G.S. 150B-21.1(d), temporary rules 15A NCAC 2B.0243 and 15A NCAC 2B.0244, which were adopted pursuant to Section 7.1 of S.L. 1999-329 and which became effective on or before 1 July 2001, shall continue in effect until 1 September 2004 in order to provide sufficient time for the Environmental Management Commission to further consult with businesses and industries, local governments, landowners, and other interested or potentially affected persons in the upper and lower Catawba River Basin as to the appropriate scope of permanent rules to protect water quality and riparian buffers in that river basin. In developing permanent rules, the Commission shall consider whether riparian buffers on the mainstem of the Catawba River and on lake shorelines are adequate to protect water quality in the river and whether riparian buffer protection requirements should or should not be extended to some or all of the tributary streams in the river basin, taking into account the sources of water quality degradation in the river, the topography of the land in the river basin, and other relevant factors."

Session Laws 2001-418, s. 4(b), provides: "Vested rights recognized or established under the common law or by G.S. 153A-344(b), 153A-344.1, 160A-385(b), or 160A-385.1 shall include the right, as provided in this subsection, to undertake and complete development in the Catawba River Basin without application of temporary rule 15A NCAC 2B.0243. The Commission and the Department shall not apply temporary rule 15A NCAC 2B.0243 to development with vested rights recognized or established under G.S. 153A-344(b), 153A-344.1, 160A-385(b), or 160A-385.1 prior to 1 July 2001. The Commission and the Department shall not apply temporary rule 15A NCAC 2B.0243 to development with vested rights recognized or established under the common law prior to the date this section becomes effective if the Commission has issued a certification pursuant to G.S. 143B-282(a)(1)u. prior to 1 July 2001. The Commission shall not adopt or enforce rules that confer or restrict a vested right to undertake or complete development. It is the intent of the General Assembly that this subsection apply only to the particular circumstances that are the subject of this section. This subsection does not establish a precedent as to the application of vesting under a zoning or land-use planning program administered by a local government or to any other environmental program."

Session Laws 2001-418, s. 4(c), provides: "Notwithstanding G.S. 150B-21.3(a),this section shall not be construed to authorize the adoption of additional temporary rules related to protection of water quality and riparian buffers."

CASE NOTES

As to the power of regional boards to adopt air quality and emission control standards, see State v. W.N.C. Pallet & Forest Prods. Co., 283 N.C. 705, 198 S.E.2d 433 (1973).

Judicial Notice of Regional Board and Its Rules and Regulations. — Court cannot take judicial notice that a regional air pollution board known as the Western North Carolina Regional Air Pollution Agency has been created by two or more municipalities or counties by joint resolution or contract. A fortiori, the Court cannot take judicial notice of the contents of any rules and regulations which such a board may have adopted. State v. W.N.C. Pallet & Forest Prods. Co., 283 N.C. 705, 198 S.E.2d 433 (1973).

Warrant Charging Violation of Regional Board's Regulation Held Insufficient. — A warrant which charged a violation of a regulation of the Western North Carolina Regional Air Pollution Agency, but did not allege verbatim or in substance the provisions of the alleged regulation, nor allege when and under what circumstances the alleged regulation was adopted, nor that a copy thereof had been filed with the State Board of Water and Air Resources (now the Environmental Management Commission) and with the clerk of court of the county was insufficient to show that a violation of the regulation constituted a criminal offense. State v. W.N.C. Pallet & Forest Prods. Co., 283 N.C. 705, 198 S.E.2d 433 (1973).

OPINIONS OF ATTORNEY GENERAL

Adoption of Rules. — The Water Quality Committee of the Environmental Management Commission is authorized to adopt rules requiring permits for impacts to isolated wetlands and surface waters. See opinion of Attorney General to Dr. Charles H. Peterson, Vice Chairman, Environmental Management Commission, and Ms. Coleen Sullins, Water Quality Section, Division of Water Quality, 2001 N.C. AG LEXIS 33 (9/5/01).

As to authority of local air pollution control program, see opinion of Attorney General to Mr. W.E. Knight, N.C. Department of Water and Air Resources, 40 N.C.A.G. 526 (1970).

§ 143-215.3A. Water and Air Quality Account; use of application and permit fees; Title V Account; I & M Air Pollution Control Account; reports.

(a) The Water and Air Quality Account is established as a nonreverting account within the Department. Revenue in the Account shall be applied to the costs of administering the programs for which the fees were collected. Revenue credited to the Account pursuant to G.S. 105-449.125, 105-449.134, and 105-449.43 shall be used to administer the air quality program. Except for the following fees, all application fees and permit administration fees collected by the State for permits issued under Articles 21, 21A, 21B, and 38 of this Chapter shall be credited to the Account:

(1) Fees collected under Part 2 of Article 21A and credited to the Oil or Other Hazardous Substances Pollution Protection Fund.
(2) Fees credited to the Title V Account.
(3) Fees credited to the Wastewater Treatment Works Emergency Maintenance, Operation and Repair Fund under G.S. 143-215.3B.
(4) Fees collected under G.S. 143-215.28A.
(5) Fees collected under G.S. 143-215.94C shall be credited to the Commercial Leaking Petroleum Underground Storage Tank Cleanup Fund.

(a1) The total monies collected per year from fees for permits under G.S. 143-215.3(a)(1a), after deducting those monies collected under G.S. 143-215.3(a)(1d), shall not exceed thirty percent (30%) of the total budgets from all sources of environmental permitting and compliance programs within the Department. This subsection shall not be construed to relieve any person of the obligation to pay a fee established under this Article or Articles 21A, 21B, or 38 of this Chapter.

(b) The Title V Account is established as a nonreverting account within the Department. Revenue in the Account shall be used for developing and implementing a permit program that meets the requirements of Title V. The Title V Account shall consist of fees collected pursuant to G.S. 143-215.3(a)(1d) and G.S. 143-215.106A. Fees collected under G.S. 143-215.3(a)(1d) shall be used only to cover the direct and indirect costs required to develop and administer the Title V permit program, and fees collected under G.S. 143-215.106A shall be used only for the eligible expenses of the Title V program. Expenses of the Air Quality Compliance Advisory Panel, the ombudsman for the Small Business Stationary Source Technical and Environmental Compliance Assistance Program, support staff, equipment, legal services provided by the Attorney General, and contracts with consultants and program expenses listed in section 502(b)(3)(A) of Title V shall be included among Title V program expenses.

(b1) The I & M Air Pollution Control Account is established as a nonreverting account within the Department. Fees transferred to the Division of Air Quality of the Department pursuant to G.S. 20-183.7(c) shall be credited to the I & M Air Pollution Control Account and shall be applied to the costs of developing and implementing an air pollution control program for mobile sources.

(c) The Department shall report to the Environmental Review Commission and the Fiscal Research Division on the cost of the State's environmental permitting programs contained within the Department on or before 1 November of each year. In addition, the Department shall report to the Environmental Review Commission and the Fiscal Research Division on the cost of the Title V Program on or before 1 November of each year. The reports shall include, but are not limited to, fees set and established under this Article, fees collected under this Article, revenues received from other sources for environmental permitting and compliance programs, changes made in the fee schedule since the last report, anticipated revenues from all other sources, interest earned and any other information requested by the General Assembly. (1987, c. 767, s. 2; 1989, c. 500, s. 121; c. 727, s. 218(104); 1989 (Reg. Sess., 1990), c. 976, s. 2; 1991, c. 552, s. 3; 1991 (Reg. Sess., 1992), c. 1039, s. 12; 1993, c. 400, s. 14; 1995, c. 390, s. 28; 1995 (Reg. Sess., 1996), c. 743, s. 13; 1998-212, s. 29A.11(c); 2001-452, s. 2.4; 2001-474, s. 27.)

Editor's Note. — Session Laws 2002-126, s. 12.6(a), provides: "The Department of Environment and Natural Resources may use up to two million five hundred thousand dollars ($2,500,000) from the Inactive Hazardous Sites Cleanup Fund established in G.S. 130A-310.11 for the 2002-2003 fiscal year for the detoxification and remediation of the landfill located in Warren County that contains polychlorinated biphenyl (PCBs) and dioxin/furan contaminated materials."

Session Laws 2002-126, s. 12.6(b), provides: "Notwithstanding the provisions of G.S. 143-215.3A, the Department of Environment and Natural Resources also may use up to five hundred thousand dollars ($500,000) for the 2002-2003 fiscal year from the fees collected for water quality permits under G.S. 143-215.3D and credited to the Water Permits Fund if both of the following conditions are satisfied:

"(1) The detoxification and remediation of the landfill located in Warren County cannot be completed without funds in addition to those that are authorized for this purpose under subsection (a) of this section.

"(2) All other funds, including all contingency funds, available to the Department for the detoxification and remediation of the landfill located in Warren County that contains polychlorinated biphenyl (PCBs) and dioxin/furan contaminated materials have been spent or encumbered."

Session Laws 2002-126, s. 12.6(c), provides: "It is the intent of the General Assembly that the funds authorized under this section will be sufficient to complete the detoxification and remediation of this landfill, based on representations made to the General Assembly."

Session Laws 2002-126, s. 1.2, provides: "This act shall be known as 'The Current Operations, Capitol Improvements, and Finance Act of 2002'."

Session Laws 2002-126, s. 31.3, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 2002-2003 fiscal year, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 2002-2003 fiscal year. For example, uncodified provisions of this act relating to the Medicaid program apply only to the 2002-2003 fiscal year."

Session Laws 2002-126, s. 31.6 is a severability clause.

Session Laws 2003-284, ss. 11.3(a) and (b), provide: "(a) Notwithstanding the provisions of G.S. 143-215.3A, the Department of Environment and Natural Resources may use up to five hundred thousand dollars ($500,000) for the 2003-2004 fiscal year from the fees collected for water quality permits under G.S. 143-215.3D and credited to the Water Permits Fund if both of the following conditions are satisfied:

"(1) The detoxification and remediation of the landfill located in Warren County cannot be completed without these additional funds.

"(2) All other funds, including all contingency funds, available to the Department for the detoxification and remediation of the landfill located in Warren County that contains polychlorinated biphenyl (PCBs) and dioxin/furan contaminated materials have been spent or encumbered.

"(b) It is the intent of the General Assembly that the funds authorized under subsection (a) of this section will be sufficient to complete the

detoxification and remediation of this landfill, based on representations made to the General Assembly."

Session Laws 2003-284, s. 1.2, provides: "This act shall be known as the 'Current Operations and Capital Improvements Appropriations Act of 2003'."

Session Laws 2003-284, s. 49.3, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 2003-2005 fiscal biennium, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 2003-2005 fiscal biennium."

Session Laws 2003-284, s. 49.5 is a severability clause.

§ 143-215.3B. Wastewater Treatment Works Emergency Maintenance, Operation and Repair Fund.

(a) There is established under the control and direction of the Department of Environment and Natural Resources a Wastewater Treatment Works Emergency Maintenance, Operation and Repair Fund. The Fund shall be maintained as a separate nonlapsing, nonreverting, revolving fund and shall consist of any monies appropriated to the Fund by the General Assembly or designated for such purposes pursuant to subsection (b). The Fund shall be invested by the State Treasurer in accordance with law.

(b) A portion, not to exceed one hundred dollars ($100.00) per permit, of the monies charged pursuant to G.S. 143-215.3(a)(1a)a. for application fees for treatment works permits under G.S. 143-215.1(c) and (d), shall be designated by the Environmental Management Commission for deposit into the Fund. This section applies only to applicants who apply for a permit or renewal of a permit to operate treatment works of design flow capacity of less than or equal to 100,000 gallons per day. The portion of the application fee to be deposited in the Fund shall be set forth in the fee schedule established for treatment works permits pursuant to G.S. 143-215.3(a)(1b) and shall be established by adoption of a rule pursuant to the procedures of the Administrative Procedure Act and the application of the factors set forth in G.S. 143-215.3(a)(1b).

(c) If the Environmental Management Commission finds that any person holding a wastewater discharge or nondischarge permit issued pursuant to G.S. 143-215.1 has violated the terms of the permit or the provisions of Article 21, and if the Commission has notified the permittee in writing of the violation and that it proposes to pay for corrective action from the Fund, the Commission may order corrective action to remedy the violations of the permit or Article 21 and shall pay the costs of the corrective action from the Fund. Monies from this Fund may only be used for corrective action at permitted facilities with design flow capacity of less than or equal to 100,000 gallons per day. The Commission may thereafter bring an action in a court of competent jurisdiction to recover from the permittee any amounts which have been expended from the Fund for corrective action. Any sums recovered as the result of such action, or otherwise recovered from the permittee, shall be paid into the Fund.

(d) All monies paid into the Fund and the investment earnings thereon shall be accumulated in the Fund until the Fund balance reaches seven hundred fifty thousand dollars ($750,000). Once the Fund balance reaches seven hundred and fifty thousand dollars ($750,000) the Commission shall revise the application fee charged pursuant to G.S. 143-215.3(a)(1a)a. to reduce the application fee by the amount designated for deposit into the Fund, provided that the Commission may at any time increase the application fee, within the limit set forth in G.S. 143-215.3(a)(1b), to be paid into the Fund in a manner which will insure that a sufficient minimum balance is maintained in the Fund.

(e) The Department shall provide an annual accounting of the Fund to the General Assembly. (1987, c. 767, s. 3; c. 827, s. 266; 1989, c. 727, s. 218(105); 1997-443, s. 11A.119(a).)

Editor's Note. — Session Laws 1987, c. 830, s. 99 provided: "In case of any conflict between the provisions of G.S. 143-215.3A and G.S. 143-215.3B as enacted by Chapter 767, Session Laws of 1987, and the provisions of Section 155 of Chapter 738, Session Laws of 1987, the provisions of G.S. 143-215.3A and G.S. 143-215.3B shall prevail."

§ 143-215.3C. Confidential information protected.

(a) Information obtained under this Article or Article 21A or 21B of this Chapter shall be available to the public except that, upon a showing satisfactory to the Commission by any person that information to which the Commission has access, if made public, would divulge methods or processes entitled to protection as trade secrets pursuant to G.S. 132-1.2, the Commission shall consider the information confidential.

(b) Effluent data, as defined in 40 Code of Federal Regulations § 2.302 (1 July 1993 Edition) and emission data, as defined in 40 Code of Federal Regulations § 2.301 (1 July 1993 Edition) is not entitled to confidential treatment under this section.

(c) Confidential information may be disclosed to any officer, employee, or authorized representative of any federal or state agency if disclosure is necessary to carry out a proper function of the Department or other agency or when relevant in any proceeding under this Article or Article 21A or Article 21B of this Chapter.

(d) The Commission shall provide for adequate notice to any person who submits information of any decision that the information is not entitled to confidential treatment and of any decision to release information that the person who submits the information contends is entitled to confidential treatment. Any person who requests information and any person who submits information who is dissatisfied with a decision of the Commission to withhold or release information may request a declaratory ruling from the Commission under G.S. 150B-4 within 10 days after the Commission notifies the person of its decision. The information may not be released by the Commission until the Commission issues a declaratory ruling or, if judicial review of the final agency decision is sought by any party, the information may not be released by the Commission until a final judicial determination has been made. (1993 (Reg. Sess., 1994), c. 694, s. 2.)

§ 143-215.3D. Fee schedule for water quality permits.

(a) Annual fees for discharge and nondischarge permits under G.S. 143-215.1. —

(1) Major Individual NPDES Permits. — The annual fee for an individual permit for a point source discharge of 1,000,000 or more gallons per day, a publicly owned treatment works (POTW) that administers a POTW pretreatment program, as defined in 40 Code of Federal Regulations § 403.3 (1 July 1996 Edition), or an industrial waste treatment works that has a high toxic pollutant potential shall be two thousand eight hundred sixty-five dollars ($2,865).

(2) Minor Individual NPDES Permits. — The annual fee for an individual permit for a point source discharge other than a point source discharge to which subdivision (1) of this subsection applies shall be seven hundred fifteen dollars ($715.00).

(3) Single-Family Residence. — The annual fee for a certificate of coverage under a general permit for a point source discharge or an individual nondischarge permit from a single-family residence shall be fifty dollars ($50.00).

(4) Stormwater and Wastewater Discharge General Permits. — The annual fee for a certificate of coverage under a general permit for a

point source discharge of stormwater or wastewater shall be eighty dollars ($80.00).

(5) Recycle Systems. — The annual fee for an individual permit for a recycle system nondischarge permit shall be three hundred dollars ($300.00).

(6) Major Nondischarge Permits. — The annual fee for an individual permit for a nondischarge of 10,000 or more gallons per day or requiring 300 or more acres of land shall be one thousand ninety dollars ($1,090).

(7) Minor Nondischarge Permits. — The annual fee for an individual permit for a nondischarge of less than 10,000 gallons per day or requiring less than 300 acres of land shall be six hundred seventy-five dollars ($675.00).

(8) Animal Waste Management Systems. — The annual fee for animal waste management systems shall be as set out in G.S. 143-215.10G.

(b) Application fee for new discharge and nondischarge permits. — An application for a new permit of the type set out in subsection (a) of this section shall be accompanied by an initial application fee equal to the annual fee for that permit. If a permit is issued, the application fee will be applied as the annual fee for the first year that the permit is in effect. If the application is denied, the application fee shall not be refunded.

(c) Application and annual fees for consent special orders. —

(1) Major Consent Special Orders. — If the Commission enters into a consent special order, assurance of voluntary compliance, or similar document pursuant to G.S. 143-215.2 for an activity subject to an annual fee under subdivision (1) or (6) of subsection (a) of this section, the initial project fee shall be four hundred dollars ($400.00) and the annual fee shall be five hundred dollars ($500.00). These fees shall be in addition to the annual fee due under subsection (a) of this section.

(2) Minor Consent Special Orders. — If the Commission enters into a consent special order, assurance of voluntary compliance, or similar document pursuant to G.S. 143-215.2 for an activity subject to an annual fee under subdivision (2) or (7) of subsection (a) of this section, the initial project fee shall be four hundred dollars ($400.00) and the annual fee shall be two hundred fifty dollars ($250.00). These fees shall be in addition to the annual fee due under subsection (a) of this section.

(d) Fee for major permit modifications. — An application for a major modification of a permit of the type set out in subsection (a) of this section shall be accompanied by an application fee equal to thirty percent (30%) of the annual fee applicable to that permit. A major modification of a permit is any modification that would allow an increase in the volume or pollutant load of the discharge or nondischarge or that would result in a significant relocation of the point of discharge, as determined by the Commission. This fee shall be in addition to the fees due under subsections (a) and (c) of this section. If the application is denied, the application fee shall not be refunded.

(e) Other fees under this Article. —

(1) Sewer System Extension Permits. — The application fee for a permit for the construction of a new sewer system or for the extension of an existing sewer system shall be four hundred dollars ($400.00).

(2) State Stormwater Permits. — The application fee for a permit regulating stormwater runoff under G.S. 143-214.7 and G.S. 143-215.1 shall be four hundred twenty dollars ($420.00).

(3) Major Water Quality Certifications. — The fee for a water quality certification involving one acre or more of wetland fill or 150 feet or more of stream impact shall be four hundred seventy-five dollars ($475.00).

(4) Minor Water Quality Certifications. — The fee for a water quality certification involving less than one acre of wetland fill or less than 150 feet of stream impact shall be two hundred dollars ($200.00).

(5) Permit for Land Application of Petroleum Contaminated Soils. — The fee for a permit to apply petroleum contaminated soil to land shall be four hundred dollars ($400.00).

(6) Fee Nonrefundable. — If an application for a permit or a certification described in this subsection is denied, the application or certification fee shall not be refunded.

(7) Limit Water Quality Certification Fee Required for CAMA Permit. — An applicant for a permit under Article 7 of Chapter 113A of the General Statutes for which a water quality certification is required shall pay a fee established by the Secretary. The Secretary shall not establish a fee that exceeds the greater of the fee for a permit under Article 7 of Chapter 113A of the General Statutes or the fee for a water quality certification under subdivision (3) or (4) of this subsection. (1998-212, s. 29A.11(a); 1999-413, s. 6.)

Express Review Pilot Program. — Session Laws 2003-284, ss. 11.4A(a)-(e), provide: "(a) The Department of Environment and Natural Resources may develop the Express Review Pilot Program, a pilot program to provide express permit and certification reviews. Participation in the Express Review Pilot Program is voluntary, and the program is to become supported by the fees determined pursuant to subsection (b) of this section. The Department of Environment and Natural Resources shall determine the project applications to review under the Express Review Pilot Program from those who request to participate in the Pilot Program. The Express Review Pilot Program may be applied to any one or all of the permits, approvals, or certifications in the following programs: the erosion and sedimentation control program, the coastal management program, and the water quality programs, including water quality certifications and stormwater management. The Express Review Pilot Program shall focus on the following permits or certifications:

"(1) Stormwater permits under Part 1 of Article 21 of Chapter 143 of the General Statutes.

"(2) Stream origination certifications under Article 21 of Chapter 143 of the General Statutes.

"(3) Water quality certification under Article 21 of Chapter 143 of the General Statutes.

"(4) Erosion and sedimentation control permits under Article 4 of Chapter 113A of the General Statutes.

"(5) Permits under the Coastal Area Management Act (CAMA), Part 4 of Article 7 of Chapter 113A of the General Statutes.

"(b) The Department of Environment and Natural Resources may establish up to eight positions to administer the Express Review Pilot Program and may determine the fees for express application review under the Pilot Program. Notwithstanding G.S. 143-215.3D, the maximum permit application fee to be charged under subsection (a) of this section for the express review of a project application requiring all of the permits under subdivisions (1) through (5) of subsection (a) of this section shall not exceed five thousand five hundred dollars ($5,500). Notwithstanding G.S. 143-215.3D, the maximum permit application fee to be charged for the express review of a project application requiring all of the permits under subdivisions (1) through (4) of subsection (a) of this section shall not exceed four thousand five hundred dollars ($4,500). Notwithstanding G.S. 143-215.3D, the maximum permit application fee charged for the express review of a project application for any other combination of permits under subdivisions (1) through (5) of subsection (a) of this section shall not exceed four thousand dollars ($4,000). Express review of a project application involving additional permits or certifications issued by the Department of Environment and Natural Resources other than those under subdivisions (1) through (5) of subsection (a) of this section may be allowed by the Department, and, notwithstanding G.S. 143-215.3D or any other statute or rule that sets a permit fee, the maximum permit application fee charged for the express review of a project application shall not exceed four thousand dollars ($4,000), plus one hundred fifty percent (150%) of the fee that would otherwise apply by statute or rule for that particular permit or certification. Additional fees, not to exceed fifty percent (50%) of the original permit application fee under this section, may be charged for subsequent reviews due to the insufficiency of the permit applications. The Department of Environment and Natural Resources may establish the procedure by which the amount of the fees under this subsection is

determined, and the fees and procedures are not rules under G.S. 150B-2(8a) for the Express Review Pilot Program under this section.

"(c) The funds appropriated to the Department of Environment and Natural Resources in this act for the 2003-2004 fiscal year shall be used for the costs of implementing the Express Review Pilot Program under this section during the 2003-2004 fiscal year.

"(d) The Express Review Fund is created as a special nonreverting fund. The Express Review Fund shall be used for the costs of implementing the Express Review Pilot Program under this section. All fees collected under this section shall be credited to the Express Review Fund. If the Express Review Pilot Program is abolished, the funds in the Express Review Fund shall be credited to the General Fund.

"(e) No later than May 1, 2004, the Department of Environment and Natural Resources shall report to the General Assembly its findings on the success of the Express Review Pilot Program and whether it recommends that the Pilot Program be continued or expanded."

Editor's Note. — Session Laws 2002-126, s. 12.6(a), provides: "The Department of Environment and Natural Resources may use up to two million five hundred thousand dollars ($2,500,000) from the Inactive Hazardous Sites Cleanup Fund established in G.S. 130A-310.11 for the 2002-2003 fiscal year for the detoxification and remediation of the landfill located in Warren County that contains polychlorinated biphenyl (PCBs) and dioxin/furan contaminated materials."

Session Laws 2002-126, s. 12.6(b), provides: "Notwithstanding the provisions of G.S. 143-215.3A, the Department of Environment and Natural Resources also may use up to five hundred thousand dollars ($500,000) for the 2002-2003 fiscal year from the fees collected for water quality permits under G.S. 143-215.3D and credited to the Water Permits Fund if both of the following conditions are satisfied:

"(1) The detoxification and remediation of the landfill located in Warren County cannot be completed without funds in addition to those that are authorized for this purpose under subsection (a) of this section.

"(2) All other funds, including all contingency funds, available to the Department for the detoxification and remediation of the landfill located in Warren County that contains polychlorinated biphenyl (PCBs) and dioxin/furan contaminated materials have been spent or encumbered."

Session Laws 2002-126, s. 12.6(c), provides: "It is the intent of the General Assembly that the funds authorized under this section will be sufficient to complete the detoxification and remediation of this landfill, based on representations made to the General Assembly."

Session Laws 2002-126, s. 1.2, provides: "This act shall be known as 'The Current Operations, Capitol Improvements, and Finance Act of 2002'."

Session Laws 2002-126, s. 31.3, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 2002-2003 fiscal year, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 2002-2003 fiscal year. For example, uncodified provisions of this act relating to the Medicaid program apply only to the 2002-2003 fiscal year."

Session Laws 2002-126, s. 31.6 is a severability clause.

Session Laws 2003-284, s. 1.2, provides: "This act shall be known as the 'Current Operations and Capital Improvements Appropriations Act of 2003'."

Session Laws 2003-284, s. 49.3, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 2003-2005 fiscal biennium, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 2003-2005 fiscal biennium."

Session Laws 2003-284, s. 49.5 is a severability clause.

§ 143-215.4. Mailing list for rules; procedures for public input; form of order or decision; seal; official notice.

(a) Mailing List. — When the Commission proposes or adopts a rule establishing water quality classifications and standards under G.S. 143-214.1 or establishing effluent standards or waste treatment management practices under G.S. 143-215, it shall send notice of the action to each person who has requested to be notified of these matters. The Department shall maintain a mailing list for this purpose on which it shall record the name and address of each person who has made a written request to be on the list and the date on which the request was made. In making a request to be put on the list, a person may request to be added to the list for a specified period or indefinitely.

(b) Procedures for Public Input. —

(1) The Commission may, on its own motion or when required by federal law, request public comments on or hold public hearings on matters within the scope of its authority under this Article or Articles 21A or 21B of this Chapter. To request public comments on a matter, the Commission shall notify appropriate agencies of the opportunity to submit written comments to the Commission on the matter and shall publish a notice in a newspaper having general circulation in the affected area, stating the matter under consideration by the Commission and informing the public of its opportunity to submit written comments to the Commission on the matter. A public comment period shall extend for at least 30 days after the notice is published.

(2) To hold a public hearing on a matter, the Commission shall notify, by personal service or certified mail, persons directly affected by the matter under consideration and shall publish a notice in a newspaper having general circulation in the affected area, stating the matter under consideration by the Commission and the time, date, and place of a public hearing to be held on the matter. A public hearing shall be held no sooner than 20 days after the notice is published. The proceedings at a public hearing held under this subsection shall be recorded. Upon payment of a fee established by the Commission, any person may obtain a copy of the record of the public hearing. After a public hearing, the Commission shall accept written comments for the time period prescribed by the Commission.

(3) This subsection does not apply to rule-making proceedings, contested case hearings, or the issuance of permits required under Title V. The Commission shall establish procedures for public hearings, public notice, and public comment respecting permits required by Title V as provided by G.S. 143-215.111(4).

(4) The Commission may hold a public meeting on any matter within its scope of authority. The Commission may hold a public meeting in addition to any public hearing that is required under any provision of law, but a public meeting may not be substituted for any required public hearing. Except as may be otherwise provided by law, the Commission may determine the procedures for any public meeting it holds.

(c) Decisions and Orders. — An order or decision of the Commission shall state the Commission's findings of fact and conclusions of law and shall state the statute or rule on which the order or decision is based.

(d) Seal/Official Notice. — The Department shall have the authority to adopt a seal which shall be judicially noticed by the courts of the State. Any document, proceeding, order, decree, special order, rule, rule of procedure or any other official act or records of the Commission or its minutes may be certified by the secretary of the department under his hand and the seal of the Department and when so certified shall be received in evidence in all actions or proceedings in the courts of the State without further proof of the identity of the same if such records are competent, relevant and material in any such action or proceeding. The Commission shall have the right to take official notice of all studies, reports, statistical data or any other official reports or records of the federal government or of any sister state and all such records, reports and data may be placed in evidence by the Commission or by any other person or interested party where material, relevant and competent. (1951, c. 606; 1967, c. 892, s. 1; 1973, c. 698, s. 10; c. 1262, s. 23; 1977, c. 374, s. 1; c. 771, s. 4; 1983, c. 296, s. 9; 1987, c. 827, ss. 154, 162, 169; 1993, c. 400, s. 4; 1995, c. 504, s. 10; 1997-496, s. 5.)

CASE NOTES

§ 143-215.5. Judicial review.

(a) Article 4 of Chapter 150B of the General Statutes governs judicial review of a final agency decision or order of the Secretary or of the Commission under this Article and Articles 21A and 21B of this Chapter. If a case that concerns an action of the Secretary or of the Commission under this Article or Article 21A or 21B of this Chapter is appealed from the superior court to the Appellate Division of the General Court of Justice, no bond shall be required of the Secretary or of the Commission.

(b) A person aggrieved, as defined in G.S. 150B-2, other than the applicant or permittee, who seeks judicial review of a final agency decision on an application for a permit required under Title V shall file a petition for judicial review under G.S. 150B-45 within 30 days after public notice of the final agency decision is given as provided in rules adopted by the Commission pursuant to G.S. 143-215.4(b)(3). A permit applicant, permittee, or other person aggrieved who seeks judicial review of a failure of the Commission to act within the time specified in rules adopted pursuant to G.S. 143-215.108(d)(2) on an application for a permit required by Title V or G.S. 143-215.108 shall file a petition for judicial review under G.S. 150B-45 within 30 days after the expiration of the time specified for action on the application. (1951, c. 606; 1967, c. 892, s. 1; 1973, c. 108, s. 88; c. 698, s. 11; c. 1262, s. 23; 1983, c. 296, s. 4; 1987, c. 827, ss. 154, 163; 1991 (Reg. Sess., 1992), c. 1028, s. 3; 1993, c. 400, s. 5.)

Legal Periodicals. — For note on estuarine pollution, see 49 N.C.L. Rev. 921 (1971).

CASE NOTES

Finality of Consent Special Order. — A consent special order has the same force and effect as a special order issued pursuant to a hearing; thus a consent special order is a final decision by the Commission. State ex rel. Tenn. Dep't of Health & Env't v. Environmental Mgt. Comm'n, 78 N.C. App. 763, 338 S.E.2d 781 (1986).

Right to Appeal from Consent Special Order. — "Procedural injury," whereby petitioner State of Tennessee's right to be heard on certain aspects of a National Pollutant Discharge Elimination System (NPDES) permit was substantially impaired, was sufficient under G.S. 150B-43 to qualify petitioner as an "aggrieved person" for purposes of appeal of issuance of Commission's consent special order with corporation. In addition, where the consent special order contained provisions substantially identical to provisions which petitioner opposed in the proposed NPDES permit, which affected the property rights of the petitioner in the Pigeon River, these allegations also established petitioner's "aggrieved person" status. State ex rel. Tenn. Dep't of Health & Env't v. Environmental Mgt. Comm'n, 78 N.C. App. 763, 338 S.E.2d 781 (1986).

Cited in High Rock Lake Ass'n v. North Carolina Envtl. Mgt. Comm'n, 39 N.C. App. 699, 252 S.E.2d 109 (1979); Concerned Citizens v. North Carolina Envtl. Mgt. Comm'n, 89 N.C. App. 708, 367 S.E.2d 13 (1988).

§ 143-215.6: Recodified as §§ 143-215.6A to 143-215.6C.

§ 143-215.6A. Enforcement procedures: civil penalties.

(a) A civil penalty of not more than twenty-five thousand dollars ($25,000) may be assessed by the Secretary against any person who:

(1) Violates any classification, standard, limitation, or management practice established pursuant to G.S. 143-214.1, 143-214.2, or 143-215.

(2) Is required but fails to apply for or to secure a permit required by G.S. 143-215.1, or who violates or fails to act in accordance with the terms, conditions, or requirements of such permit or any other permit or certification issued pursuant to authority conferred by this Part, including pretreatment permits issued by local governments and laboratory certifications.

(3) Violates or fails to act in accordance with the terms, conditions, or requirements of any special order or other appropriate document issued pursuant to G.S. 143-215.2.

(4) Fails to file, submit, or make available, as the case may be, any documents, data, or reports required by this Article or G.S. 143-355(k) relating to water use information.

(5) Refuses access to the Commission or its duly designated representative to any premises for the purpose of conducting a lawful inspection provided for in this Article.

(6) Violates a rule of the Commission implementing this Part, Part 2A of this Article, or G.S. 143-355(k).

(7) Violates or fails to act in accordance with the statewide minimum water supply watershed management requirements adopted pursuant to G.S. 143-214.5, whether enforced by the Commission or a local government.

(8) Violates the offenses set out in G.S. 143-215.6B.

(9) Is required, but fails, to apply for or to secure a certificate required by G.S. 143-215.22I, or who violates or fails to act in accordance with the terms, conditions, or requirements of the certificate.

(10) Violates subsections (c1) through (c5) of G.S. 143-215.1 or a rule adopted pursuant to subsections (c1) through (c5) of G.S. 143-215.1.

(b) If any action or failure to act for which a penalty may be assessed under this section is continuous, the Secretary may assess a penalty not to exceed twenty-five thousand dollars ($25,000) per day for so long as the violation continues, unless otherwise stipulated.

(b1) The Secretary may assess a civil penalty of more than ten thousand dollars ($10,000) or, in the case of a continuing violation, more than ten thousand dollars ($10,000) per day, against a violator only if a civil penalty has been imposed against the violator within the five years preceding the violation. The Secretary may assess a civil penalty of more than ten thousand dollars ($10,000) or, in the case of a continuing violation, more than ten thousand dollars ($10,000) per day for so long as the violation continues, for a violation of subdivision (4) of subsection (a) of this section only if the Secretary determines that the violation is intentional.

(c) In determining the amount of the penalty the Secretary shall consider the factors set out in G.S. 143B-282.1(b). The procedures set out in G.S. 143B-282.1 shall apply to civil penalty assessments that are presented to the Commission for final agency decision.

(d) The Secretary shall notify any person assessed a civil penalty of the assessment and the specific reasons therefor by registered or certified mail, or by any means authorized by G.S. 1A-1, Rule 4. Contested case petitions shall be filed within 30 days of receipt of the notice of assessment.

(e) Consistent with G.S. 143B-282.1, a civil penalty of not more than ten thousand dollars ($10,000) per month may be assessed by the Commission

against any local government that fails to adopt a local water supply watershed protection program as required by G.S. 143-214.5, or willfully fails to administer or enforce the provisions of its program in substantial compliance with the minimum statewide water supply watershed management requirements. No such penalty shall be imposed against a local government until the Commission has assumed the responsibility for administering and enforcing the local water supply watershed protection program. Civil penalties shall be imposed pursuant to a uniform schedule adopted by the Commission. The schedule of civil penalties shall be based on acreage and other relevant cost factors and shall be designed to recoup the costs of administration and enforcement.

(f) Requests for remission of civil penalties shall be filed with the Secretary. Remission requests shall not be considered unless made within 30 days of receipt of the notice of assessment. Remission requests must be accompanied by a waiver of the right to a contested case hearing pursuant to Chapter 150B and a stipulation of the facts on which the assessment was based. Consistent with the limitations in G.S. 143B-282.1(c) and (d), remission requests may be resolved by the Secretary and the violator. If the Secretary and the violator are unable to resolve the request, the Secretary shall deliver remission requests and his recommended action to the Committee on Civil Penalty Remissions of the Environmental Management Commission appointed pursuant to G.S. 143B-282.1(c).

(g) If any civil penalty has not been paid within 30 days after notice of assessment has been served on the violator, the Secretary shall request the Attorney General to institute a civil action in the Superior Court of any county in which the violator resides or has his or its principal place of business to recover the amount of the assessment, unless the violator contests the assessment as provided in subsection (d) of this section, or requests remission of the assessment in whole or in part as provided in subsection (f) of this section. If any civil penalty has not been paid within 30 days after the final agency decision or court order has been served on the violator, the Secretary shall request the Attorney General to institute a civil action in the Superior Court of any county in which the violator resides or has his or its principal place of business to recover the amount of the assessment. Such civil actions must be filed within three years of the date the final agency decision or court order was served on the violator.

(h) Repealed by Session Laws 1995 (Regular Session, 1996), c. 743, s. 14.

(h1) The clear proceeds of civil penalties assessed by the Secretary or the Commission pursuant to this section shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2.

(i) As used in this subsection, "municipality" refers to any unit of local government which operates a wastewater treatment plant. As used in this subsection, "unit of local government" has the same meaning as in G.S. 130A-290. The provisions of this subsection shall apply whenever a municipality that operates a wastewater treatment plant with an influent bypass diversion structure and with a permitted discharge of 10 million gallons per day or more into any of the surface waters of the State that have been classified as nutrient sensitive waters (NSW) under rules adopted by the Commission is subject to a court order which specifies (i) a schedule of activities with respect to the treatment of wastewater by the municipality; (ii) deadlines for the completion of scheduled activities; and (iii) stipulated penalties for failure to meet such deadlines. A municipality as specified herein that violates any provision of such order for which a penalty is stipulated shall pay the full amount of such penalty as provided in the order unless such penalty is modified, remitted, or reduced by the court.

(j) Local governments certified and approved to administer and enforce pretreatment programs by the Commission pursuant to G.S. 143-215.3(a)(14)

may assess civil penalties for violations of their respective programs in accordance with the powers conferred upon the Commission and the Secretary in this section, except that actions for collection of unpaid civil penalties shall be referred to the attorney representing the assessing local government. The total of the civil penalty assessed by a local government and the civil penalty assessed by the Secretary for any violation may not exceed the maximum civil penalty for such violation under this section.

(k) A person who has been assessed a civil penalty by a local government as provided by subsection (j) of this section may request a review of the assessment by filing a request for review with the local government within 30 days of the date the notice of assessment is received. If a local ordinance provides for a local administrative hearing, the hearing shall afford minimum due process including an unbiased hearing official. The local government shall make a final decision on the request for review within 90 days of the date the request for review is filed. The final decision on a request for review shall be subject to review by the superior court pursuant to Article 27 of Chapter 1 of the General Statutes. If the local ordinance does not provide for a local administrative hearing, a person who has been assessed a civil penalty by a local government as provided by subsection (j) of this section may contest the assessment by filing a civil action in superior court within 60 days of the date the notice of assessment is received. (1951, c. 606; 1967, c. 892, s. 1; 1973, c. 698, s. 12; c. 712, s. 2; c. 1262, s. 23; c. 1331, s. 3; 1975, c. 583, s. 7; c. 842, ss. 6, 7; 1977, c. 771, s. 4; 1979, c. 633, ss. 9-11; 1981, c. 514, s. 1; c. 585, s. 13; 1987, c. 271; c. 827, ss. 154, 164; 1989, c. 426, s. 4; 1989 (Reg. Sess., 1990), c. 951, s. 1; c. 1036, s. 3; c. 1045, s. 1; c. 1075, s. 6; 1991, c. 579, s. 2; c. 725, s. 3; 1993, c. 348, s. 2; 1995 (Reg. Sess., 1996), c. 743, s. 14; 1997-458, s. 6.2; 1998-215, s. 63; 1999-329, ss. 5.1, 5.3, 5.5, 5.7.)

Editor's Note. — For provisions regarding the implementation of the "Tar-Pamlico River Basin-Nutrient Sensitive Waters Management Strategy: Agricultural Nutrient Control Strategy," see editor's note under G.S. 143-214.1.

The subsection designations for subsections (f), (g) and (h) of this section were assigned by the Revisor of Statutes, the designations in Session Laws 1989 (Reg. Sess., 1990), c. 1036, s. 3 having been (a)(6), (a)(7) and (a)(8), respectively.

Session Laws 1989, c. 426, which amended this section, in s. 7 provided: "This act shall not affect the validity of any local ordinance relating to watershed protection adopted prior to the effective date of this act [June 23, 1989]."

Section 7.1 of Session Laws 1989, c. 426 provided: "Nothing herein contained shall be construed to obligate the General Assembly to appropriate funds to implement the provisions of this act."

Session Laws 1999-329, s. 1.1 provides that this act shall be known as the "Clean Water Act of 1999."

Session Laws 1999-329, s. 5.7, effective October 1, 2002, and applicable to violations that occur on or after that date, substituted "five years" for "four years" in subsection (b1).

Session Laws 1999-329, s. 5.8 provides that section 5.7 of this act is effective 1 October 2002 and applies to violations that occur on or after 1 October 2002 and shall not be construed to affect the validity of any civil penalty that is assessed prior to 1 October 2002.

Session Laws 1999-329, s. 13.7 provides that this act shall not be construed to obligate the General Assembly to appropriate funds to implement the provisions of this act. Every State agency to which this act applies shall implement the provisions of this act from funds otherwise appropriated or available to that agency.

Session Laws 1999-329, s. 13.8 contains a severability clause.

CASE NOTES

Commission Has Exclusive Jurisdiction over Laws Protecting Water and Air. — By enacting former G.S. 143-215.6, the General Assembly placed subject matter jurisdiction over the assessment and adjudication of civil penalties relating to violations of laws protecting North Carolina's water and air exclusively in the Environmental Management Commission (EMC). State ex rel. Envtl. Mgt. Comm'n v. House of Raeford Farms, Inc., 101 N.C. App. 433, 400 S.E.2d 107 (1991), discretionary review denied, 328 N.C. 576, 403 S.E.2d 521 (1991), decided under former § 143-215.6.

Action for Damages for Willful or Negligent Discharge. — Willful or negligent discharges in violation of a National Pollutant Discharge Elimination System permit afford a basis for an action in damages to a riparian owner. Biddix v. Henredon Furn. Indus., Inc., 76 N.C. App. 30, 331 S.E.2d 717 (1985).

Cited in Biddix v. Henredon Furn. Indus., Inc., 76 N.C. App. 30, 331 S.E.2d 717 (1985); House of Raeford Farms, Inc. v. City of Raeford, 112 N.C. App. 522, 435 S.E.2d 829 (1993); Brinkman v. Barrett Kays & Assocs., P.A., 155 N.C. App. 738, 575 S.E.2d 40, 2003 N.C. App. LEXIS 17 (2003).

§ 143-215.6B. Enforcement procedures: criminal penalties.

(a) For purposes of this section, the term "person" shall mean, in addition to the definition contained in G.S. 143-212, any responsible corporate or public officer or employee; provided, however, that where a vote of the people is required to effectuate the intent and purpose of this Article by a county, city, town, or other political subdivision of the State, and the vote on the referendum is against the means or machinery for carrying said intent and purpose into effect, then, and only then, this section shall not apply to elected officials or to any responsible appointed officials or employees of such county, city, town, or political subdivision.

(b) No proceeding shall be brought or continued under this section for or on account of a violation by any person who has previously been convicted of a federal violation based upon the same set of facts.

(c) In proving the defendant's possession of actual knowledge, circumstantial evidence may be used, including evidence that the defendant took affirmative steps to shield himself from relevant information. Consistent with the principles of common law, the subjective mental state of defendants may be inferred from their conduct.

(d) For the purposes of the felony provisions of this section, a person's state of mind shall not be found "knowingly and willfully" or "knowingly" if the conduct that is the subject of the prosecution is the result of any of the following occurrences or circumstances:

(1) A natural disaster or other act of God which could not have been prevented or avoided by the exercise of due care or foresight.

(2) An act of third parties other than agents, employees, contractors, or subcontractors of the defendant.

(3) An act done in reliance on the written advice or emergency on-site direction of an employee of the Department. In emergencies, oral advice may be relied upon if written confirmation is delivered to the employee as soon as practicable after receiving and relying on the advice.

(4) An act causing no significant harm to the environment or risk to the public health, safety, or welfare and done in compliance with other conflicting environmental requirements or other constraints imposed in writing by environmental agencies or officials after written notice is delivered to all relevant agencies that the conflict exists and will cause a violation of the identified standard.

(5) Violations of permit limitations causing no significant harm to the environment or risk to the public health, safety, or welfare for which

no enforcement action or civil penalty could have been imposed under any written civil enforcement guidelines in use by the Department at the time, including but not limited to, guidelines for the pretreatment permit civil penalties. This subdivision shall not be construed to require the Department to develop or use written civil enforcement guidelines.

(6) Occasional, inadvertent, short-term violations of permit limitations causing no significant harm to the environment or risk to the public health, safety, or welfare. If the violation occurs within 30 days of a prior violation or lasts for more than 24 hours, it is not an occasional, short-term violation.

(e) All general defenses, affirmative defenses, and bars to prosecution that may apply with respect to other criminal offenses under State criminal offenses may apply to prosecutions brought under this section or other criminal statutes that refer to this section and shall be determined by the courts of this State according to the principles of common law as they may be applied in the light of reason and experience. Concepts of justification and excuse applicable under this section may be developed in the light of reason and experience.

(f) Any person who negligently violates any: (i) classification, standard, or limitation established in rules adopted by the Commission pursuant to G.S. 143-214.1, 143-214.2, or 143-215; (ii) term, condition, or requirement of a permit issued pursuant to this Part, including permits issued pursuant to G.S. 143-215.1, pretreatment permits issued by local governments, and laboratory certifications; (iii) term, condition, or requirement of a special order or other appropriate document issued pursuant to G.S. 143-215.2; or (iv) rule of the Commission implementing this Part; and any person who negligently fails to apply for or to secure a permit required by G.S. 143-215.1 shall be guilty of a Class 2 misdemeanor which may include a fine not to exceed fifteen thousand dollars ($15,000) per day of violation, provided that such fine shall not exceed a cumulative total of two hundred thousand dollars ($200,000) for each period of 30 days during which a violation continues.

(g) Any person who knowingly and willfully violates any (i) classification, standard, or limitation established in rules adopted by the Commission pursuant to G.S. 143-214.1, 143-214.2, or 143-215; (ii) term, condition, or requirement of a permit issued pursuant to this Part, including permits issued pursuant to G.S. 143-215.1, pretreatment permits issued by local governments, and laboratory certifications; or (iii) term, condition, or requirement of a special order or other appropriate document issued pursuant to G.S. 143-215.2; and any person who knowingly and willfully fails to apply for or to secure a permit required by G.S. 143-215.1 shall be guilty of a Class I felony, which may include a fine not to exceed one hundred thousand dollars ($100,000) per day of violation, provided that this fine shall not exceed a cumulative total of five hundred thousand dollars ($500,000) for each period of 30 days during which a violation continues. For the purposes of this subsection, the phrase "knowingly and willfully" shall mean intentionally and consciously as the courts of this State, according to the principles of common law interpret the phrase in the light of reason and experience.

(h)(1) Any person who knowingly violates any: (i) classification, standard, or limitation established in rules adopted by the Commission pursuant to G.S. 143-214.1, 143-214.2, 143-215; (ii) term, condition, or requirement of a permit issued pursuant to this Part, including permits issued pursuant to G.S. 143-215.1, pretreatment permits issued by local governments, and laboratory certifications; or (iii) term, condition, or requirement of a special order or other appropriate document issued pursuant to G.S. 143-215.2; and any person who knowingly

fails to apply for or to secure a permit required by G.S. 143-215.1 and who knows at that time that he thereby places another person in imminent danger of death or serious bodily injury shall be guilty of a Class C felony, which may include a fine not to exceed two hundred fifty thousand dollars ($250,000) per day of violation, provided that this fine shall not exceed a cumulative total of one million dollars ($1,000,000) for each period of 30 days during which a violation continues.

(2) For the purposes of this subsection, a person's state of mind is knowing with respect to:
   a. His conduct, if he is aware of the nature of his conduct;
   b. An existing circumstance, if he is aware or believes that the circumstance exists; or
   c. A result of his conduct, if he is aware or believes that his conduct is substantially certain to cause danger of death or serious bodily injury.

(3) Under this subsection, in determining whether a defendant who is a natural person knew that his conduct placed another person in imminent danger of death or serious bodily injury:
   a. The person is responsible only for actual awareness or actual belief that he possessed; and
   b. Knowledge possessed by a person other than the defendant but not by the defendant himself may not be attributed to the defendant.

(4) It is an affirmative defense to a prosecution under this subsection that the conduct charged was conduct consented to by the person endangered and that the danger and conduct charged were reasonably foreseeable hazards of an occupation, a business, or a profession; or of medical treatment or medical or scientific experimentation conducted by professionally approved methods and such other person had been made aware of the risks involved prior to giving consent. The defendant may establish an affirmative defense under this subdivision by a preponderance of the evidence.

(i) Any person who knowingly makes any false statement, representation, or certification in any application, record, report, plan, or other document filed or required to be maintained under this Article or a rule implementing this Article; or who knowingly makes a false statement of a material fact in a rulemaking proceeding or contested case under this Article; or who falsifies, tampers with, or knowingly renders inaccurate any recording or monitoring device or method required to be operated or maintained under this Article or rules of the Commission implementing this Article shall be guilty of a Class 2 misdemeanor which may include a fine not to exceed ten thousand dollars ($10,000).

(j) Repealed by Session Laws 1993, c. 539, s. 1315.

(k) The Secretary shall refer to the State Bureau of Investigation for review any discharge of waste by any person or facility in any manner that violates this Article or rules adopted pursuant to this Article that involves the possible commission of a felony. Upon receipt of a referral under this section, the State Bureau of Investigation may conduct an investigation and, if appropriate, refer the matter to the district attorney in whose jurisdiction any criminal offense has occurred. This subsection shall not be construed to limit the authority of the Secretary to refer any matter to the State Bureau of Investigation for review. (1951, c. 606; 1967, c. 892, s. 1; 1973, c. 698, s. 12; c. 712, s. 2; c. 1262, s. 23; c. 1331, s. 3; 1975, c. 583, s. 7; c. 842, ss. 6, 7; 1977, c. 771, s. 4; 1979, c. 633, ss. 9-11; 1981, c. 514, s. 1; c. 585, s. 13; 1987, c. 271; c. 827, ss. 154, 164; 1989, c. 426, s. 4; 1989 (Reg. Sess., 1990), c. 1004, s. 48; c. 1045, s. 2; 1991, c. 725, s. 4; 1993, c. 539, ss. 1018, 1019, 1313-1315; 1994, Ex. Sess., c. 24, s. 14(c); 1997-458, s. 11.1.)

Editor's Note. — For provisions regarding the implementation of the "Tar-Pamlico River Basin-Nutrient Sensitive Waters Management Strategy: Agricultural Nutrient Control Strategy," see editor's note under G.S. 143-214.1.

CASE NOTES

Cited in Brinkman v. Barrett Kays & Assocs., P.A., 155 N.C. App. 738, 575 S.E.2d 40, 2003 N.C. App. LEXIS 17 (2003).

§ 143-215.6C. Enforcement procedures: injunctive relief.

Whenever the Department has reasonable cause to believe that any person has violated or is threatening to violate any of the provisions of this Part, any of the terms of any permit issued pursuant to this Part, or a rule implementing this Part, the Department may, either before or after the institution of any other action or proceeding authorized by this Part, request the Attorney General to institute a civil action in the name of the State upon the relation of the Department for injunctive relief to restrain the violation or threatened violation and for such other and further relief in the premises as the court shall deem proper. The Attorney General may institute such action in the superior court of the county in which the violation occurred or may occur or, in his discretion, in the superior court of the county in which the person responsible for the violation or threatened violation resides or has his or its principal place of business. Upon a determination by the court that the alleged violation of the provisions of this Part or the regulations of the Commission has occurred or is threatened, the court shall grant the relief necessary to prevent or abate the violation or threatened violation. Neither the institution of the action nor any of the proceedings thereon shall relieve any party to such proceedings from any penalty prescribed for violation of this Part. For purposes of this section references to "this part" include G.S. 143-355(k) relating to water use information. (1951, c. 606; 1967, c. 892, s. 1; 1973, c. 698, s. 12; c. 712, s. 2; c. 1262, s. 23; c. 1331, s. 3; 1975, c. 583, s. 7; c. 842, ss. 6, 7; 1977, c. 771, s. 4; 1979, c. 633, ss. 9-11; 1981, c. 514, s. 1; c. 585, s. 13; 1987, c. 217; c. 827, ss. 154, 164; 1989, c. 426, s. 4; 1989 (Reg. Sess., 1990), c. 1045, s. 3.)

Editor's Note. — For provisions regarding the implementation of the "Tar-Pamlico River Basin-Nutrient Sensitive Waters Management Strategy: Agricultural Nutrient Control Strategy," see editor's note under G.S. 143-214.1.

§ 143-215.6D. Additional requirements applicable to certain municipal wastewater treatment facilities.

(a) As used in this section, "municipal" and "municipality" refer to any unit of local government which operates a wastewater treatment plant. As used in this section, "unit of local government" has the same meaning as in G.S. 130A-290.

(b) A municipality that operates a wastewater treatment plant with an influent bypass diversion structure and with a permitted discharge of five million gallons per day or more into any of the surface waters of the State shall maintain a notification list of units of local government which have requested to be on such list. Any unit of local government with territorial jurisdiction over or adjacent to any part of the surface waters of the State located within 100 miles downstream from the point of discharge from a municipal wastewater

treatment plant to which this section applies as measured along the path of the stream, and any unit of local government which withdraws water from such surface waters to supply water to the public, may request the municipality operating the wastewater treatment plant to include the names of appropriate officials of the unit of local government on the notification list required by this subsection. The municipality operating such municipal wastewater treatment plant shall give notice of each instance when untreated or partially treated wastewater is diverted so as to bypass the wastewater treatment plant to each person on the notification list at least 24 hours before any such instance which is planned or anticipated and within 24 hours after any such instance which is unplanned or unanticipated. (1989 (Reg. Sess., 1990), c. 951, s. 2; c. 1075, s. 6.)

§ 143-215.6E. Violation Points System applicable to swine farms.

(a) The Commission shall develop a Violation Points System applicable to permits for animal waste management systems for swine farms. This system shall operate in addition to the provisions of G.S. 143-215.6A. This system shall not alter the authority of the Commission to revoke a permit for an animal waste management system for a swine farm. The Violation Points System shall provide that:

(1) Violations that involve the greatest harm to the natural resources of the State, the groundwater or surface water quantity or quality, public health, or the environment shall receive the most points and shall be considered significant violations.

(2) Violations that are committed willfully or intentionally shall be considered significant violations.

(3) The number of points received shall be directly related to the degree of negligence or willfulness.

(4) The commission of three significant violations, or the commission of lesser violations that result in a predetermined cumulative number of points, within a limited period of time of not less than five years shall result in the mandatory revocation of a permit.

(5) The commission of one willful violation that results in serious harm may result in the revocation of a permit.

(b) In developing the Violation Points System under this section, the Commission shall determine the:

(1) Number of points that lesser violations must cumulatively total to result in the revocation of a permit.

(2) Limited period of time during which the commission of three significant violations, or the commission of a greater number of lesser violations, will result in the revocation of the operator's permit. This limited period of time shall not be less than five years.

(3) Duration of the permit revocation.

(4) Conditions under which the person whose permit is revoked may reapply for another permit for an animal waste management system for a swine farm.

(c) In developing the Violation Points System under this section, the Commission shall provide for an appeals process. (1997-458, s. 10.1.)

Editor's Note. — Session Laws 1997-458, s. 10.2 provides: "(a) The Department of Environment, Health, and Natural Resources [now the Department of Environment and Natural Resources] shall develop a recommended system of civil penalties applicable to integrators of swine operations. These civil penalties shall be imposed upon the revocation of a permit of an operator under contract with that integrator for the production of swine at the time the violation that resulted in the revocation of the operator's permit occurred, whether or not that operator was under contract with that integrator throughout the period of time all the viola-

tions that contributed to this permit revocation occurred. In conjunction with developing this system of civil penalties for integrators of swine operations, the Environmental Management Commission shall provide that the Director of the Division of Water Quality of the Department of Environment, Health, and Natural Resources [now the Department of Environment and Natural Resources] notify all integrators of all violations assessed against operators who are under contract for the production of swine with that integrator and, upon the written request by the integrator, notify that integrator of all violations assessed an operator with whom the integrator contemplates entering into a contract. The Environmental Management Commission shall also study the issue of liability for cleanup costs and appropriate penalties for integrators of swine operations if an operator commits a willful, wanton, or grossly negligent violation that results in significant environmental damage.

"(b) No later than 1 March 1998, the Department of Environment, Health, and Natural Resources [now the Department of Environment and Natural Resources] shall report its findings and recommendations, including legislative proposals, if any, on the issues to be studied under subsection (a) of this section. This report shall include a recommended system of civil penalties applicable to integrators of swine operations for violations by growers who are under contract with that integrator for the production of swine. The Environmental Review Commission shall determine whether to submit a legislative proposal based upon this recommended system to the 1997 General Assembly, 1998 Regular Session."

Session Laws 1997-468, s. 13.3, contains a severability clause.

§ 143-215.7. Effect on laws applicable to public water supplies and the sanitary disposal of sewage.

This Article shall not be construed as amending, repealing, or in any manner abridging or interfering with the provisions of Article 10 of Chapter 130A of the General Statutes relating to the control of public water supplies; nor shall the provisions of this Article be construed as being applicable to or in anywise affecting the authority of the Department to control the sanitary disposal of sewage as provided in Article 11 of Chapter 130A of the General Statutes, or as affecting the powers, duties and authority of local health departments or as affecting the charter powers, or other lawful authority of municipal corporations, to pass ordinances in regard to sewage disposal. (1951, c. 606; 1957, c. 1357, s. 11; 1967, c. 892, s. 1; 1973, c. 476, s. 128; 1987, c. 827, s. 165; 1989, c. 727, s. 162; 1997-502, s. 9.)

§ 143-215.8: Repealed by Session Laws 1973, c. 698, s. 13.

Cross References. — For present provisions covering the subject matter of the repealed section, see G.S. 143-215.6C.

§ 143-215.8A. Planning.

(a) Policy, Purpose and Intent. — The Commission and Department shall undertake a continuing planning process to develop and adopt plans and programs to assure that the policy, purpose and intent declared in this Article are carried out with regard to establishing and enforcing standards of water purity designed to protect human health, to prevent injury to plant and animal life, to prevent damage to public and private property, to enhance the quality of the environment, to insure the continued enjoyment of the natural attractions of the State, to encourage the expansion of employment opportunities, to provide a permanent foundation for healthy industrial development, and to insure the beneficial use of the water resources of the State.

(b) Goals. — The goals of the continuing planning process shall be the enhancement of the quality of life and protection of the environment through development by the Commission of water quality plans and programs utilizing

the resources of the State on a priority basis to attain, maintain, and enhance water quality standards and water purity throughout the State.

(c) Statewide and Regional Planning. — The planning process may be conducted on a statewide or regional basis, as the Commission shall determine appropriate. If the Commission elects to proceed on a regional basis, it shall delineate the boundaries of each region by preparation of appropriate maps; by description referring to geographical features, established landmarks or political boundaries; or such other manner that the extent and limits of each region shall be easily ascertainable. The Commission shall consult officials and agencies of localities and regions in the development of plans affecting those areas.

(d) Local Planning Organizations. — The Commission shall submit to the Governor or his designee any plans, projections, data, comments or recommendations that he may request. If the Governor determines that the goals of this section will be more expeditiously and efficiently achieved, he may designate a representative organization, capable of carrying out a planning process for any region of the State or area therein, to develop plans, consistent with the State's water quality management plans, for the control or abatement of water pollution within such region or area. The Commission shall consult with, advise, and assist any organization so designated in the preparation of its plans and shall submit to the Governor the Commission's comments and recommendations regarding such plans. All such organizations shall submit plans developed by them to the Governor for review, and no plan shall be effective until concurred in and approved by him.

(e) Interstate Planning Regions. — The Governor may consult and cooperate with the governor of any adjoining state in establishing an interstate planning region or area and in designating a representative organization, capable of carrying out a planning process for the region or area, to develop plans, consistent with the State's water quality management plans, for the control or abatement of water pollution within such region or area, if he determines that such region or area has common water quality control problems for which an interstate plan would be most effective.

(f) Repealed by Session Laws 1987, c. 827, s. 166, effective August 13, 1987.

(1973, c. 698, s. 13; c. 1262, s. 23; 1977, c. 771, s. 4; 1987, c. 827, ss. 154, 166.)

§ 143-215.8B. Basinwide water quality management plans.

(a) The Commission shall develop and implement a basinwide water quality management plan for each of the 17 major river basins in the State. In developing and implementing each plan, the Commission shall consider the cumulative impacts of all of the following:

(1) All activities across a river basin and all point sources and nonpoint sources of pollutants, including municipal wastewater facilities, industrial wastewater systems, septic tank systems, stormwater management systems, golf courses, farms that use fertilizers and pesticides for crops, public and commercial lawns and gardens, atmospheric deposition, and animal operations.

(2) All transfers into and from a river basin that are required to be registered under G.S 143-215.22H.

(b) Each basinwide water quality management plan shall:

(1) Provide that all point sources and nonpoint sources of pollutants jointly share the responsibility of reducing the pollutants in the State's waters in a fair, reasonable, and proportionate manner, using computer modeling and the best science and technology reasonably available and considering future anticipated population growth and economic development.

(2) If any of the waters located within the river basin are designated as nutrient sensitive waters, then the basinwide water quality management plan shall establish a goal to reduce the average annual mass load of nutrients that are delivered to surface waters within the river basin from point and nonpoint sources. The Commission shall establish a nutrient reduction goal for the nutrient or nutrients of concern that will result in improvements to water quality such that the designated uses of the water, as provided in the classification of the water under G.S. 143-214.1(d), are not impaired. The plan shall require that incremental progress toward achieving the goal be demonstrated each year. The Commission shall develop a five-year plan to achieve the goal. In developing the plan, the Commission shall determine and allow appropriate credit toward achieving the goal for reductions of water pollution by point and nonpoint sources through voluntary measures.

(c) The Commission shall review and revise its 17 basinwide water quality management plans at least every five years to reflect changes in water quality, improvements in modeling methods, improvements in wastewater treatment technology, and advances in scientific knowledge and, as need to support designated uses of water, modifications to management strategies.

(d) The Commission and the Department shall each report on or before 1 October of each year on an annual basis to the Environmental Review Commission on the progress in developing and implementing basinwide water quality management plans and on increasing public involvement and public education in connection with basinwide water quality management planning. The report to the Environmental Review Commission by the Department shall include a written statement as to all concentrations of heavy metals and other pollutants in the surface waters of the State that are identified in the course of preparing or revising the basinwide water quality management plans.

(e) A basinwide water quality management plan is not a rule and Article 2A of Chapter 150B of the General Statutes does not apply to the development of basinwide water quality management plans. Any water quality standard or classification and any requirement or limitation of general applicability that implements a basinwide water quality management plan is a rule and must be adopted as provided in Article 2A of Chapter 150B of the General Statutes. (1997-458, s. 8.2; 1998-168, s. 2.)

Cross References. — As to the Roanoke River Basin Bi-State Commission and the Roanoke River Basin Authority Committee, see G.S. 77-90 et seq.

Editor's Note. — Session Laws 1997-458, s. 8.1, provides: "The General Assembly makes the following findings:

"(1) There are 17 major river basins in the State.

"(2) Many activities occur in the vicinity of each of these river basins, and the activities and conditions in one river basin may vary greatly from those in another river basin.

"(3) The public is focusing on the swine industry's role in degrading water quality, but, in fact, numerous other industries and even private citizens are responsible for contributing pollutants to the waters of the State. Among the point source and nonpoint sources of pollutants in our State's waters are: municipal wastewater facilities, industrial wastewater systems, septic tank systems, stormwater management systems, golf courses, farms that use fertilizers and pesticides for crops, public and commercial lawns and gardens, and atmospheric deposition, as well as animal operations.

"(4) The best and most effective approach to protecting and improving water quality is a comprehensive, systemwide management approach.

"(5) Basinwide water quality management is an approach already being taken by the Department of Environment, Health, and Natural Resources [now the Department of Environment and Natural Resources] to improve the efficiency, effectiveness, and consistency of its water quality protection program. It is not a new regulatory program; it is a watershed-based approach that provides for basinwide permitting and integration of point and nonpoint source controls through existing regulatory and cooperative programs. The Neuse River Basinwide Manage-

ment Plan has already been released. Seventeen basinwide plans are planned to be prepared by the Department over the next five years.

"(6) The better solution to improving water quality lies not in abandoning efforts under way in an effort to find a new solution, but to accelerate effective efforts currently in progress by establishing a deadline for completing, and expediting the implementation of, the 17 comprehensive conservation and management plans for each major river basin in the State.

"(7) The public should be informed of the complexity of the problems regarding water quality so that the public can appreciate the effectiveness of a systemwide approach and the degree of effort that has already been expended to address these problems. Public involvement should be encouraged, and public education should be enhanced."

Legal Periodicals. — For 1997 legislative survey, see 20 Campbell L. Rev. 450.

§ 143-215.8C. Neuse River Modeling and Monitoring Project reports.

The Primary Investigator or Researcher receiving funding pursuant to Subsection 14.14(a) of S.L. 1998-212 shall provide progress reports to the Environmental Review Commission, the Joint Legislative Commission on Governmental Operations, the Scientific Advisory Council on Water Resources and Coastal Fisheries Management, and the Fiscal Research Division on 1 January and 1 July of each year until the project or study is complete. Upon completion of the project or study, the Primary Investigator or Researcher shall provide a final report to the entities listed above. (2001-452, s. 2.5.)

§ 143-215.8D. North Carolina Water Quality Workgroup; Rivernet.

(a) The Department of Environment and Natural Resources and North Carolina State University shall jointly establish the North Carolina Water Quality Workgroup. The Workgroup shall work collaboratively with the appropriate divisions of the Department of Environment and Natural Resources and North Carolina State University, the Scientific Advisory Council on Water Resources and Coastal Fisheries Management, the Environmental Management Commission, and the Environmental Review Commission to identify the scientific and State agency databases that can be used to formulate public policy regarding the State's water quality, evaluate those databases to determine the information gaps in those databases, and establish the priorities for obtaining the information lacking in those databases. The Workgroup shall have the following duties:

(1) To address specifically the ongoing need of evaluation, synthesis, and presentation of current scientific knowledge that can be used to formulate public policy on water quality issues.

(2) To identify knowledge gaps in the current understanding of water quality problems and fill these gaps with appropriate research projects.

(3) To maintain a web-based water quality data distribution site.

(4) To organize and evaluate existing scientific and State agency water quality databases.

(5) To prioritize recognized knowledge gaps in water quality issues for immediate funding.

(b) The North Carolina Water Quality Workgroup shall be composed of no more than 15 members. Those members shall be jointly appointed by the Chancellor of North Carolina State University and the Secretary of Environment and Natural Resources. Any person appointed as a member of the Workgroup shall be knowledgeable in one of the following areas:

(1) Water Quality Assessment, Water Quality Monitoring, and Water Quality Permitting.
(2) Nutrient Management.
(3) Water Pollution Control.
(4) Waste Management.
(5) Groundwater Resources.
(6) Stream Hydrology.
(7) Aquatic Biology.
(8) Environmental Education and Web-Based Data Dissemination.

(c) North Carolina State University shall provide meeting facilities for the North Carolina Water Quality Workgroup as requested by the Chair.

(d) The members of the North Carolina Water Quality Workgroup shall select a Chair. The Chair shall call meetings of the Workgroup and set the meeting agenda.

(e) The Chair of the North Carolina Water Quality Workgroup shall report each year by January 30 to the Scientific Advisory Council on Water Resources and Coastal Fisheries Management, to the Environmental Review Commission, to the Cochairs of the House of Representatives and Senate Appropriations Subcommittees on Natural and Economic Resources, and to the Chancellor of North Carolina State University or the Chancellor's designee on the previous year's activities, findings, and recommendations of the North Carolina Water Quality Workgroup.

(f) The North Carolina Water Quality Workgroup shall develop a water quality monitoring system to be known as Rivernet that effectively uses the combined resources of North Carolina State University and State agencies. The Rivernet system shall be designed to implement advances in monitoring technology and information management systems with web-based data dissemination in the waters that are impaired based on the criteria of the State's basinwide water quality management plans. Water quality and nutrient parameters shall be continuously monitored at each station, and the data shall be sent back to a centralized computer server.

The Rivernet system shall be coordinated with related data collection and monitoring activities of the Department of Environment and Natural Resources, the Water Resources Research Institute, the North Carolina Water Quality Workgroup, and other research efforts pursued by academic institutions or State government entities. If the North Carolina Water Quality Workgroup chooses to employ a technology for which there are testing procedure guidelines promulgated by the United States Environmental Protection Agency, the American Public Health Association, the American Water Works Association, or the Water Environment Federation then the testing procedures shall comply with the appropriate guidelines. If the North Carolina Water Quality Workgroup chooses to employ a technology for which there are no testing procedure guidelines promulgated by any of the groups cited in this subsection, then the North Carolina Water Quality Workgroup may establish testing procedure guidelines.

The Rivernet system shall also have the capabilities to trigger alarms and notify the appropriate member of the Workgroup when monitoring stations exceed defined limits indicating a spill or a significant water quality or nutrient measurement event, which then can be comprehensively analyzed. (2001-424, s. 19.5.)

§ 143-215.9. Restrictions on authority of the Commission.

Nothing in this Article shall be construed to:

(1) Grant to the Commission any jurisdiction or authority with respect to air contamination existing solely within commercial and industrial plants, works or shops;

(2) Affect the relations between employers and employees with respect or arising out of conditions of air contamination or air pollution;
(3) Supersede or limit the applicability of any law, rules and regulations or ordinances relating to industrial health or safety. (1967, c. 892, s. 1; 1973, c. 1262, s. 23; 1987, c. 827, s. 154.)

CASE NOTES

Cited in State ex rel. Wallace v. Bone, 304 N.C. 591, 286 S.E.2d 79 (1982).

§ 143-215.9A. Reports.

(a) The Department shall report to the Environmental Review Commission and the Fiscal Research Division on or before 1 October of each year on the status of facilities discharging into surface waters during the previous fiscal year. The report shall include:
(1) The names and locations of all persons permitted under G.S. 143-215.1(c).
(2) The number of compliance inspections of persons permitted under G.S. 143-215.1(c) that the Department has conducted since the last report.
(3) The number of violations found during each inspection, including the date on which the violation occurred and the nature of the violation; the status of enforcement actions taken and pending; and the penalties imposed, collected, and in the process of being negotiated for each violation.
(4) Any other information that the Department determines to be appropriate or that is requested by the Environmental Review Commission or the Fiscal Research Division.

(b) The information to be included in the report pursuant to subsection (a) of this section shall be itemized by each regional office of the Department, with totals for the State indicated.
(c) Repealed by Session Laws 2002-148, s. 5. (1998-221, s. 4.1; 2002-148, s. 5.)

Effect of Amendments. — Session Laws 2002-148, s. 5, effective October 9, 2002, rewrote the section.

§ 143-215.9B. Systemwide municipal and domestic wastewater collection system permit program report.

The Environmental Management Commission shall develop and implement a permit program for municipal and domestic wastewater collection systems on a systemwide basis. The collection system permit program shall provide for performance standards, minimum design and construction requirements, a capital improvement plan, operation and maintenance requirements, and minimum reporting requirements. In order to ensure an orderly and cost-effective phase-in of the collection system permit program, the Commission shall implement the permit program over a five-year period beginning 1 July 2000. The Commission shall issue permits for approximately twenty percent (20%) of municipal and domestic wastewater collection systems that are in operation on 1 July 2000 during each of the five calendar years beginning 1 July 2000 and shall give priority to those collection systems serving the largest populations, those under a moratorium imposed by the Commission under G.S.

143-215.67, and those for which the Department of Environment and Natural Resources has issued a notice of violation for the discharge of untreated wastewater. The Commission shall report on its progress in developing and implementing the collection system permit program required by this section as a part of each quarterly report the Environmental Management Commission makes to the Environmental Review Commission pursuant to G.S. 143B-282(b). (2001-452, s. 2.6.)

Editor's Note. — Session Laws 2001-452, s. 2.9, provides: "The Department of Environment and Natural Resources shall report to the Environmental Review Commission and the Fiscal Research Division of the General Assembly on or before 15 October of each year on the Wastewater Discharge Elimination Program."

§ 143-215.10: Repealed by Session Laws 1973, c. 1262, s. 23.

Part 1A. Animal Waste Management Systems.

§ 143-215.10A. Legislative findings and intent.

The General Assembly finds that animal operations provide significant economic and other benefits to this State. The growth of animal operations in recent years has increased the importance of good animal waste management practices to protect water quality. It is critical that the State balance growth with prudent environmental safeguards. It is the intention of the State to promote a cooperative and coordinated approach to animal waste management among the agencies of the State with a primary emphasis on technical assistance to farmers. To this end, the General Assembly intends to establish a permitting program for animal waste management systems that will protect water quality and promote innovative systems and practices while minimizing the regulatory burden. Technical assistance, through operations reviews, will be provided by the Division of Soil and Water Conservation. Permitting, inspection, and enforcement will be vested in the Division of Water Quality. (1995 (Reg. Sess., 1996), c. 626, s. 1; 1996, 2nd Ex. Sess., c. 18, s. 27.34(a); 2002-176, s. 1.2.)

Interagency Group To Provide Information. — Session Laws 1995 (Reg. Sess., 1996), c. 626, s. 18, as amended by Session Laws 1996, Second Extra Session, c. 18, s. 27.34(e), provides for the creation of an interagency group to address questions and provide uniform interpretations to technical specialists regarding the requirements of animal waste management rules, to publish its decisions on those questions, to provide uniform strategies for operators of intensive livestock operations to meet the December 31, 1997 deadline to obtain an approved animal waste management plan, and to develop by August 1, 1996, a standard for the use of riparian buffers, decide which standard best protects water quality, and submit that standard; provides who shall provide representatives; and provides that the group shall remain in existence until such time after December 31, 1997, that the Secretary of Environment, Health, and Natural Resources [now the Department of Environment and Natural Resources] determines the group is no longer needed to resolve issues related to certifying animal waste management plans.

Session Laws 1997-443, s. 15.3(a) and (c), provide that the interagency group created in Session Laws 1995 (Reg. Sess., 1996), c. 626, s. 18 and the Department of Enviroment, Health, and Natural Resources [Department of Environment and Natural Resources] shall, by October 1, 1997, revise the general permits for animal waste management systems that were previously developed by the Department and revise the proposed time schedule for issuing those general permits, and shall submit a joint report to the Environmental Review Commission by October 1, 1997, and that after the revised general permits are adopted, the Department shall issue the revised general permit to all animal waste management operations currently holding general permits.

Annual Inspection Pilot Program. — Session Laws 1997-443, s. 15.4, as amended by Session Laws 1999-329, ss. 3.1, 3.3, by Session Laws 2001-254, s. 5, by Session Laws 2002-176,

ss. 1.1, 1.2, and by Session Laws 2003-340, ss. 6.1, 6.2, provides that the Department of Environment and Natural Resources shall develop and implement a pilot program, to begin no later than 1 November 1997, and to terminate 1 September 2005, regarding the annual inspections of animal operations that are subject to a permit under Article 21 of Chapter 143 of the General Statutes, choosing two counties to participate in the program (Columbus and Jones), and adding Brunswick County to the program. The Division of Soil and Water Conservation of the Department of Environment and Natural Resources is to conduct inspections of animal operations in those three counties at least once a year for violations of water quality standards and compliance. In addition, the Department of Environment and Natural Resources, in consultation with both the Division of Water Quality and the Division of Soil and Water Conservation, is to submit semiannual interim reports no later than 15 April and 15 October of each year beginning 15 October 1999 and shall submit a final report no later than 15 October 2005 to the Environmental Review Commission and to the Fiscal Research Division, which reports shall indicate whether the pilot program has increased the effectiveness of the annual inspections program or the response to complaints and reported problems, specifically whether the pilot program had resulted in identifying violations earlier, taking corrective actions earlier, increasing compliance with the animal waste management plans and permit conditions, improving the time to respond to discharges, complaints, and reported problems, improving communications between farmers and Department employees, and any other consequences deemed pertinent by the Department. These reports shall also compare the costs of conducting operations reviews and inspections under the pilot program with the costs of conducting operations reviews and inspections pursuant to G.S. 143-215.10D and G.S. 143-215.10F and the resources that would be required to expand the pilot program to all counties. The final report is to include a recommendation as to whether to continue or expand the pilot program under the act, which recommendation may be submitted to the General Assembly.

Session Laws 1999-329, s. 3.2, directs that the two counties that were selected for the pilot program pursuant to Section 15.4(a) of S.L. 1997-443, Columbus County and Jones County, shall remain in the pilot program. In addition, Brunswick County shall be added to the program.

Session Laws 1997-443, s. 1.1, provides: "This act shall be known as 'The Current Operations and Capital Improvements Appropriations Act of 1997.'"

Session Laws 1997-443, s. 35.2, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 1997-99 fiscal biennium, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 1997-99 fiscal biennium."

Moratorium On Swine Farm Construction Or Expansion. — Session Laws 1997-458, s. 1.1, as amended by Session Laws 1998-188, s. 2, by Session Laws 1999-329, s. 2.1, by Session Laws 2001-254, s. 1, and by Session Laws 2003-266, s. 1, provides: "(a) Moratorium Established. — As used in this section:

"(1) 'Swine farm' and 'lagoon' have the same meaning as in G.S. 106-802.

"(2) 'Animal waste management system' has the same meaning as in G.S. 143-215.10B.

"(3) 'Anaerobic lagoon' means a lagoon that treats waste by converting it into carbon dioxide, methane, ammonia, and other gaseous compounds; organic acids; and cell tissue through an anaerobic process.

"(4) 'Anaerobic process' means a biological treatment process that occurs in the absence of dissolved oxygen.

"(a1) There is hereby established a moratorium on the construction or expansion of swine farms and on lagoons and animal waste management systems for swine farms. The purposes of this moratorium are to allow time for the completion of ongoing evaluations of animal waste management technologies and related research and studies; to allow the General Assembly to receive and act on the findings and recommendations of those evaluations, research, and studies; and to allow for the implementation of any legislation that may be enacted. Except as provided in subsection (b) of this section, the Environmental Management Commission shall not issue a permit for an animal waste management system for a new swine farm or the expansion of an existing swine farm for a period beginning on 1 March 1997 and ending on 1 September 2007. The construction or expansion of a swine farm or animal waste management system for a swine farm is prohibited during the period of the moratorium regardless of the date on which a site evaluation for the swine farm is completed and regardless of whether the animal waste management system is permitted under G.S. 143-215.1 or Part 1A of Article 21 of Chapter 143 of the General Statutes or deemed permitted under 15A North Carolina Administrative Code 2H.0217.

"(b) Exceptions. — The moratorium established by subsection (a1) of this section does not prohibit:

"(1) Construction to repair a component of an existing swine farm or lagoon.

"(2) Construction to replace a component of an existing swine farm or lagoon if the replacement does not result in an increase in swine

population, except as provided in subdivision (3) (7), or (8) of this subsection.

"(3) Construction or expansion for the purpose of increasing the swine population to the projected population or to the population that the animal waste management system serving that swine farm is designed to accommodate, as set forth in a certified animal waste management plan filed with the Department of Environment, Health, and Natural Resources [now the Department of Environment and Natural Resources] prior to 1 March 1997.

"(4) Construction or expansion for the purpose of complying with applicable animal waste management rules and not for the purpose of increasing the swine population.

"(5) Construction or expansion, if the person undertaking the construction or expansion of the swine farm, lagoon, or animal waste management system has been issued a permit for that construction or expansion under G.S. 143-215.1 or Part 1A of Article 21 of Chapter 143 of the General Statutes prior to the date this act becomes effective.

"(6) Construction or expansion, if the person undertaking the construction or expansion of the swine farm, lagoon, or animal waste management system has, prior to 1 March 1997, either:

"a. Laid a foundation for a component of the swine farm, lagoon, or animal waste management system.

"b. Entered into a bona fide written contract for the construction or expansion of the swine farm, lagoon, or animal waste management system.

"c. Been approved for a loan or line of credit to finance the construction or expansion of the swine farm, lagoon, or animal waste management system and has obligated or expended funds derived from the loan or line of credit.

"(7) Construction or expansion of an animal waste management system that does not employ an anaerobic lagoon as the primary method of treatment, does not employ land application of waste except by injection into soil or by surface application if the injection or surface application meets the equirements of sub-subdivisions a. through e. of this subdivision, and is designed to be the subject of a research project. The Environmental Management Commission shall issue a permit for the construction or expansion of an animal waste management system under this subdivision only if the Commission determines, after consultation with the Animal and Poultry Waste Management Center of North Carolina State University, that additional research is necessary to evaluate whether the animal waste treatment system will:

"a. Eliminate the discharge of animal waste to surface waters and groundwater through direct discharge, seepage, or runoff.

"b. Substantially eliminate atmospheric emissions of ammonia.

"c. Substantially eliminate the emission of odor that is detectable beyond the boundaries of the parcel or tract of land on which the swine farm is located.

"d. Substantially eliminate the release of disease-transmitting vectors and airborne pathogens.

"e. Substantially eliminate nutrient and heavy metal contamination of soil and groundwater.

"(8) Construction or expansion of an animal waste management system that does not employ an anaerobic lagoon as the primary method of treatment and does not employ land application of waste except by injection into soil or by surface application if the injection or surface application meets the requirements of sub-subdivisions a. through e. of this subdivision. The Environmental Management Commission may issue permits under this subdivision only in a manner consistent with G.S. 143-215.1(b)(2). The Commission shall issue a permit for the construction or expansion of an animal waste management system under this subdivision only if the Commission determines, after consultation with the Animal and Poultry Waste Management Center of North Carolina State University, that the animal waste management system has been in use on a swine farm with climatic conditions and soil characteristics that are similar to those that will be encountered at the proposed site of the swine farm for at least a year, that the animal waste management system has been evaluated for at least a year, and that sufficient data exists to establish that the animal waste management system will:

"a. Eliminate the discharge of animal waste to surface waters and groundwater through direct discharge, seepage, or runoff.

"b. Substantially eliminate atmospheric emissions of ammonia.

"c. Substantially eliminate the emission of odor that is detectable beyond the boundaries of the parcel or tract of land on which the swine farm is located.

"d. Substantially eliminate the release of disease-transmitting vectors and airborne pathogens.

"e. Substantially eliminate nutrient and heavy metal contamination of soil and groundwater.

"(c) Establishing Eligibility for an Exemption. — It shall be the responsibility of an applicant for a permit for an animal waste management system for a new swine farm or for the expansion of an existing swine farm under subdivisions (1) through (8) of subsection (b) of this section to provide information and documentation to the Department of Environment, Health, and Natural Resources [now the

Department of Environment and Natural Resources] that establishes, to the satisfaction of the Department, that the applicant is eligible for the permit. In demonstrating eligibility for a permit under this section, the burden of proof shall be on the applicant.

"(d) Rule Making Not Required; Administrative and Judicial Review. — Notwithstanding the provisions of Article 2A of Chapter 150B of the General Statutes, this section shall not be construed to obligate the Commission or the Department to adopt a temporary or permanent rule to implement this section. The Commission and the Department shall implement the provisions of this section by evaluating each application for a permit for an animal waste management system on a case-by-case basis. A decision of the Commission or the Department under this section is subject to administrative and judicial review as provided in Articles 3 and 4 of Chapter 150B of the General Statutes."

Session Laws 1997-458, s. 1.2, amended by Session Laws 1998-188, s. 3, by Session Laws 1999-329, s. 2.2, by Session Laws 2001-254, s. 2, and by Session Laws 2003-266, s. 2, provides: "As used in this section, 'swine farm' and 'lagoon' have the same meaning as in G.S. 106-802. As used in this section, 'animal waste management system' has the same meaning as in G.S. 143-215.10B. There is hereby established a moratorium for any new or expanding swine farm or lagoon for which a permit is required under Parts 1 or 1A of Article 21 of Chapter 143 of the General Statutes in any county in the State: (i) that has a population of less than 75,000 according to the most recent decennial federal census; (ii) in which there is more than one hundred fifty million dollars ($150,000,000) of expenditures for travel and tourism based on the most recent figures of the Department of Commerce; and (iii) that is not in the coastal area as defined by G.S. 113A-103. Effective 1 January 1997, until 1 September 2007, the Environmental Management Commission shall not issue a permit for an animal waste management system, as defined in G.S. 143-215.10B, or for a new or expanded swine farm or lagoon, as defined in G.S. 106-802. The exemptions set out in subsection (b) of Section 1.1 of this act do not apply to the moratorium established under this section.

"(b) In order to protect travel and tourism, effective 1 September 2007, no animal waste management system shall be permitted except under an individual permit issued under Part 1 of Article 21 of Chapter 143 of the General Statutes in any county in the State: (i) that has a population of less than 75,000 according to the most recent decennial federal census; (ii) in which there is more than one hundred fifty million dollars ($150,000,000) of expenditures for travel and tourism based on the most recent figures of the Department of Commerce; and (iii) that is not in the coastal area as defined by G.S. 113A-103."

The preamble to Session Laws 2003-266, provides: "Whereas, the 1997 General Assembly established moratoria on the construction or expansion of certain swine farms and on lagoons and animal waste management systems for certain swine farms; and

"Whereas, one of the original purposes of these moratoria was to allow completion of certain studies related to swine farms and animal waste management systems; and

"Whereas, the 1998 General Assembly extended these moratoria and established exceptions for animal waste management systems that meet certain performance standards; and

"Whereas, the 1999 General Assembly and the 2001 General Assembly further extended the moratoria so that moratoria have remained in effect continuously since 1 March 1997; and

"Whereas, on 25 July 2000, the Attorney General of North Carolina entered into an agreement with Smithfield Foods, Incorporated, and certain other companies; and

"Whereas, on 13 March 2002, the Attorney General of North Carolina entered into an agreement with Frontline Farmers, Incorporated; and

"Whereas, the companies that are parties to these agreements constitute a significant portion of the swine production capacity of the State; and

"Whereas, these agreements commit the companies that are parities to these agreements to work cooperatively to develop and implement animal waste management technologies that meet the performance standards established by the General Assembly; and

"Whereas, the companies that are parties to these agreements have agreed to provide substantial resources to assist the State in the development and implementation of animal waste management technologies that meet the performance standards established by the General Assembly and that are economically feasible; and

"Whereas, the Animal and Poultry Waste Management Center at North Carolina State University is currently evaluating a number of animal waste management technologies in order to identify one or more technologies that meet the performance standards established by the General Assembly and that are economically feasible, as provided in the Smithfield and related agreements; and

"Whereas, on 28 January 2003, the Environmental Review Commission received a report from the Animal and Poultry Waste Management Center on progress in the evaluation of animal waste management technologies; and

"Whereas, based on this report, it appears that additional time will be needed to complete

the evaluation of all technologies currently being evaluated; and

"Whereas, it also appears that the General Assembly will need some time to consider the results of this evaluation process once it has been completed and to enact whatever legislation it determines to be appropriate; and

"Whereas, it further appears that some time may be required for the implementation of any legislation that may be enacted by the General Assembly; Now, therefore,

"The General Assembly of North Carolina enacts:"

Session Laws 2003-340, s. 7, provides: "The moratorium established by Section 1.2 of S.L. 1997-458; as amended by Section 3 of S.L. 1998-188, Section 2.2 of S.L. 1999-329, Section 2 of S.L. 2001-254, and Section 2 of S.L. 2003-266; on new swine farms and lagoons and on the expansion of existing swine farms and lagoons shall not apply to any swine farm or lagoon that would otherwise be prohibited by the moratorium if, on or before 27 August 1997, the Soil and Water Conservation Commission allocated funds under the Agriculture Cost Share Program for Nonpoint Source Pollution Control established pursuant to G.S. 143-215.74 for the construction or expansion of the otherwise prohibited swine farm or lagoon. The Environmental Management Commission may issue a permit for an animal waste management system, as defined by G.S. 143-215.10B, or for a new swine farm or lagoon or the expansion of an existing swine farm or lagoon, as defined in G.S. 106-802, that is authorized by this section."

Definitions Applicable to This Part Only. — Session Laws 1999-329, s. 4.1, provides: "The definitions set out in G.S. 143-215.10B apply to this Part. The definitions set out in this section apply only to this Part and shall not be construed to apply to any regulatory program. As used in this Part:

"(1) 'Inactive lagoon' means a lagoon into which animal waste has not been lawfully discharged for a period of one year or more.

"(2) 'Lagoon' means a lagoon, as defined in G.S. 106-802, that is a component of an animal waste management system that serves an animal operation."

Inventory of Inactive Lagoons. — Session Laws 1999-329, s. 4.2, directs the Department of Environment and Natural Resources to develop an inventory of all inactive lagoons and to rank each inactive lagoon on the inventory based on the extent to which the lagoon constitutes a threat to public health, the environment, or the State's natural resources. The Department is to submit this inventory to the Environmental Review Commission on or before 1 March 2000.

General Provisions. — Session Laws 1999-329, s. 13.7 provides that this act shall not be construed to obligate the General Assembly to appropriate funds to implement the provisions of this act. Every State agency to which this act applies shall implement the provisions of this act from funds otherwise appropriated or available to that agency.

Session Laws 1999-329, s. 13.8 contains a severability clause.

Session Laws 2001-254, s. 7, is a severability clause.

Session Laws 2003-266, s. 3, is a severability clause.

Legal Periodicals. — For note, "Hog Farms and Nuisance Law in Parker v. Barefoot: Has North Carolina Become a Hog Heaven and Waste Lagoon?" see 77 N.C. L. Rev. 2355 (1999).

For note, "Preemption Hogwash: North Carolina's Judicial Repeal of Local Authority to Regulate Hog Farms in Craig v. County of Chatham," see 80 N.C.L. Rev. 2121 (2002).

CASE NOTES

Generally. — It was not the role of the judicial branch to pre-empt the legislative branch's policy considerations and appropriate authorization of an activity; where hog farming companies' lagoon waste management systems existed pursuant to express legislative authority, the trial court properly declined to enjoin the operation as a nuisance. Neuse River Found. v. Smithfield Foods, Inc., 155 N.C. App. 110, 574 S.E.2d 48, 2002 N.C. App. LEXIS 1637 (2002), cert. denied, 356 N.C. 675, 577 S.E.2d 628 (2003).

Statutory Intent. — Animal Waste Management Systems component of the statewide regulations indicated the General Assembly's intent to adopt a comprehensive, statewide approach to the regulation of animal waste systems, preempting a county's attempt to do the same. Craig v. County of Chatham, 356 N.C. 40, 565 S.E.2d 172, 2002 N.C. LEXIS 539 (2002).

Cited in Craig v. County of Chatham, 143 N.C. App. 30, 545 S.E.2d 455, 2001 N.C. App. LEXIS 221 (2001), cert. granted, 354 N.C. 68, 553 S.E.2d 37 (2001).

OPINIONS OF ATTORNEY GENERAL

Exception to Swine Farm Moratorium. — A swine waste operation general permit and the certificates of coverage issued under this section on the morning of August 27, 1997, were effective, and construction or expansion thereunder could proceed as a statutory exception to the swine farm moratorium signed by the Governor in the afternoon of August 27, 1997. See opinion of Attorney General to Mr. Preston Howard, Director Division of Water Quality Department of Environment and Natural Resources, 1997 N.C.A.G. 59 (9/22/97).

§ 143-215.10B. Definitions.

As used in this Part:

(1) "Animal operation" means any agricultural farming activity involving 250 or more swine, 100 or more confined cattle, 75 or more horses, 1,000 or more sheep, or 30,000 or more confined poultry with a liquid animal waste management system. A public livestock market regulated under Article 35 of Chapter 106 of the General Statutes is an animal operation for purposes of this Part.

(2) "Animal waste" means livestock or poultry excreta or a mixture of excreta with feed, bedding, litter, or other materials from an animal operation.

(3) "Animal waste management system" means a combination of structures and nonstructural practices serving a feedlot that provide for the collection, treatment, storage, or land application of animal waste.

(4) "Division" means the Division of Water Quality of the Department.

(5) "Feedlot" means a lot or building or combination of lots and buildings intended for the confined feeding, breeding, raising, or holding of animals and either specifically designed as a confinement area in which animal waste may accumulate or where the concentration of animals is such that an established vegetative cover cannot be maintained. A building or lot is not a feedlot unless animals are confined for 45 or more days, which may or may not be consecutive, in a 12-month period. Pastures shall not be considered feedlots for purposes of this Part.

(6) "Technical specialist" means an individual designated by the Soil and Water Conservation Commission, pursuant to rules adopted by that Commission, to certify animal waste management plans. (1995 (Reg. Sess., 1996), c. 626, s. 1; 1996, 2nd Ex. Sess., c. 18, s. 27.34(b); 2001-326, s. 1.)

Cross References. — As to a moratorium on the construction or expansion of swine farms or lagoons or animal waste management systems for swine farms, established by Session Laws 1997-458, ss. 1.1 and 1.2, as amended by Session Laws 1998-188, ss. 2 and 3, by Session Laws 1999-329, ss. 2.1 and 2.2, by Session Laws 2001-254, ss. 1 and 2, and by Session Laws 2003-266, ss. 1 and 2, see the Editor's notes following G.S. 143-215.10A.

CASE NOTES

Applied in Craig v. County of Chatham, 356 N.C. 40, 565 S.E.2d 172, 2002 N.C. LEXIS 539 (2002).

Cited in Craig v. County of Chatham, 143 N.C. App. 30, 545 S.E.2d 455, 2001 N.C. App. LEXIS 221 (2001), cert. granted, 354 N.C. 68, 553 S.E.2d 37 (2001).

§ 143-215.10C. Applications and permits.

(a) No person shall construct or operate an animal waste management system for an animal operation without first obtaining an individual permit or a general permit under this Article. The Commission shall develop a system of individual and general permits for animal operations based on species, number of animals, and other relevant factors. It is the intent of the General Assembly that most animal waste management systems be permitted under a general permit. The Commission, in its discretion, may require that an animal waste management system be permitted under an individual permit if the Commission determines that an individual permit is necessary to protect water quality, public health, or the environment.

(b) An animal waste management system shall be designed, constructed, and operated so that the animal operation served by the animal waste management system does not cause pollution in the waters of the State except as may result because of rainfall from a storm event more severe than the 25-year, 24-hour storm.

(c) The Commission shall act on a permit application as quickly as possible and may conduct any inquiry or investigation it considers necessary before acting on an application.

(d) All applications for permits or for renewal of an existing permit shall be in writing, and the Commission may prescribe the form of the applications. All applications shall include an animal waste management system plan approved by a technical specialist. The Commission may require an applicant to submit additional information the Commission considers necessary to evaluate the application. Permits and renewals issued pursuant to this section shall be effective until the date specified therein or until rescinded unless modified or revoked by the Commission.

(e) Animal waste management plans shall include all of the following components:

(1) A checklist of potential odor sources and a choice of site-specific, cost-effective remedial best management practices to minimize those sources.

(2) A checklist of potential insect sources and a choice of site-specific, cost-effective best management practices to minimize insect problems.

(3) Provisions that set forth acceptable methods of disposing of mortalities.

(4) Provisions regarding best management practices for riparian buffers or equivalent controls, particularly along perennial streams.

(5) Provisions regarding the use of emergency spillways and site-specific emergency management plans that set forth operating procedures to follow during emergencies in order to minimize the risk of environmental damage.

(6) Provisions regarding periodic testing of waste products used as nutrient sources as close to the time of application as practical and at least within 60 days of the date of application and periodic testing, at least annually, of soils at crop sites where the waste products are applied. Nitrogen shall be the rate-determining element. Zinc and copper levels in the soils shall be monitored, and alternative crop sites shall be used when these metals approach excess levels.

(7) Provisions regarding waste utilization plans that assure a balance between nitrogen application rates and nitrogen crop requirements, that assure that lime is applied to maintain pH in the optimum range for crop production, and that include corrective action, including revisions to the waste utilization plan based on data of crop yields and

crops analysis, that will be taken if this balance is not achieved as determined by testing conducted pursuant to subdivision (6) of this subsection.

(8) Provisions regarding the completion and maintenance of records on forms developed by the Department, which records shall include information addressed in subdivisions (6) and (7) of this subsection, including the dates and rates that waste products are applied to soils at crop sites, and shall be made available upon request by the Department.

(f) Any operator of an animal operation with a dry litter animal waste management system involving 30,000 or more birds shall develop an animal waste management plan that complies with the testing and record-keeping requirements under subdivisions (6) through (8) of subsection (e) of this section. Any operator of this type of animal waste management system shall retain records required under this section and by the Department on-site for three years.

(g) The Commission shall encourage the development of alternative and innovative animal waste management technologies. The Commission shall provide sufficient flexibility in the regulatory process to allow for the timely evaluation of alternative and innovative animal waste management technologies and shall encourage operators of animal waste management systems to participate in the evaluation of these technologies. The Commission shall provide sufficient flexibility in the regulatory process to allow for the prompt implementation of alternative and innovative animal waste management technologies that are demonstrated to provide improved protection to public health and the environment.

(h) The owner or operator of an animal waste management system shall:

(1) In the event of a discharge of 1,000 gallons or more of animal waste to the surface waters of the State, issue a press release to all print and electronic news media that provide general coverage in the county where the discharge occurred setting out the details of the discharge. The owner or operator shall issue the press release within 48 hours after the owner or operator has determined that the discharge has reached the surface waters of the State. The owner or operator shall retain a copy of the press release and a list of the news media to which it was distributed for at least one year after the discharge and shall provide a copy of the press release and the list of the news media to which it was distributed to any person upon request.

(2) In the event of a discharge of 15,000 gallons or more of animal waste to the surface waters of the State, publish a notice of the discharge in a newspaper having general circulation in the county in which the discharge occurs and in each county downstream from the point of discharge that is significantly affected by the discharge. The Secretary shall determine, at the Secretary's sole discretion, which counties are significantly affected by the discharge and shall approve the form and content of the notice and the newspapers in which the notice is to be published. The notice shall be captioned "NOTICE OF DISCHARGE OF ANIMAL WASTE". The owner or operator shall publish the notice within 10 days after the Secretary has determined the counties that are significantly affected by the discharge and approved the form and content of the notice and the newspapers in which the notice is to be published. The owner or operator shall file a copy of the notice and proof of publication with the Department within 30 days after the notice is published. Publication of a notice of discharge under this subdivision is in addition to the requirement to issue a press release under subdivision (1) of this subsection.

(i) A person who obtains an individual permit under G.S. 143-215.1 for an animal waste management system that serves a public livestock market shall not be required to obtain a permit under this Part and is not subject to the requirements of this Part. (1995 (Reg. Sess., 1996), c. 626, s. 1; 1997-458, s. 9.2; 1999-329, s. 8.2; 1999-456, s. 68; 2001-254, ss. 3, 4; 2001-326, s. 2.)

Editor's Note. — Session Laws 1999-329, s. 13.7, provides that this act shall not be construed to obligate the General Assembly to appropriate funds to implement the provisions of this act. Every State agency to which this act applies shall implement the provisions of this act from funds otherwise appropriated or available to that agency.

Session Laws 2003-28, s. 1, provides that notwithstanding 15A NCAC 2H.0225(e), the Department of Environment and Natural Resources, pursuant to the powers relative to general permits and to permits for facilities not discharging to the surface waters of the State that are granted to the Environmental Management Commission under G.S. 143-215.1 and G.S. 143-215.10C and delegated by the Commission to the Department, shall extend the expiration of general permits AWG100000 (Swine), AWG200000 (Cattle), and AWG300000 (Poultry) until 1 October 2004. Subject to the provisions of 40 Code of Federal Regulations Part 123 (1 July 2002 Edition) and of subsections (g) and (h) of 15 NCAC 2H.0225, the Department of Environment and Natural Resources shall extend the expiration of individual certificates of coverage issued under these general permits until 1 October 2004.

Session Laws 2003-28, s. 2, provides: "The Department of Environment and Natural Resources shall study the use of general nondischarge permits for animal waste management systems for swine, cattle, and poultry operations to protect water quality, including the impact of the use of general permits for swine, cattle, and poultry operations on the land application and potential discharge of nitrogen and phosphorous to surface water and groundwater in the State. In conducting this study, the Department shall consult with the Department of Agriculture and Consumer Services; the College of Agriculture and Life Sciences at North Carolina State University; representatives of swine, cattle, and poultry farmers; representatives of environmental protection and natural resources conservation groups; and other interested parties. In the course of the study required by this section, the Department of Environment and Natural Resources shall prepare draft revised general permits for animal waste management systems that serve swine, cattle, and poultry operations and shall circulate these draft permits, along with drafts of the forms that farmers would be required to use in connection with these permits, among interested parties for comment. Consistent with water quality protection goals and strategies, the Department of Environment and Natural Resources may further revise the draft revised general permits and associated forms on the basis of comment from interested parties. The Department of Environment and Natural Resources shall report its findings and recommendations to the Environmental Review Commission on or before 1 March 2004."

OPINIONS OF ATTORNEY GENERAL

Certain Animal Feeding Operations (CAFOs). — Subsection (b) is consistent with and at least as stringent as the federal NPDES requirements for certain animal feeding operations and, therefore, no permit terms can excuse a discharge of pollution to waters except as may result because of rainfall from a storm event more severe than the 25-year, 24-hour storm. See opinion of Attorney General to Daniel C. Oakley, General Counsel, North Carolina Department of Environment and Natural Resources, 2002 N.C. AG LEXIS 17 (5/17/02).

Co-Permittees on NPDES General CAFO Permit. — Any entity, including an integrator, that exercises substantial operational control over CAFOs and the owner/ooperator of the animal operation such that it can fairly be determined to be "constructing or operating" an animal waste management system, can be included as a required co-permittee on the NPDES general CAFO permit. See opinion of Attorney General to Daniel C. Oakley, General Counsel, North Carolina Department of Environment and Natural Resources, 2002 N.C. AG LEXIS 17 (5/17/02).

CASE NOTES

Applied in Craig v. County of Chatham, 143 N.C. App. 30, 545 S.E.2d 455, 2001 N.C. App. LEXIS 221 (2001), cert. granted, 354 N.C. 68, 553 S.E.2d 37 (2001); Craig v. County of

Chatham, 356 N.C. 40, 565 S.E.2d 172, 2002 N.C. LEXIS 539 (2002).

§ 143-215.10D. Operations review.

(a) The Division, in cooperation with the Division of Soil and Water Conservation, shall develop a reporting procedure for use by technical specialists who conduct operations reviews of animal operations. The reporting procedure shall be consistent with the Division's inspection procedure of animal operations and with this Part. The report shall include any corrective action recommended by the technical specialist to assist the owner or operator of the animal operation in complying with all permit requirements. The report shall be submitted to the Division within 10 days following the operations review unless the technical specialist observes a violation described in G.S. 143- 215.10E. If the technical specialist finds a violation described in G.S. 143-215.10E, the report shall be filed with the Division immediately.

(b) As part of its animal waste management plan, each animal operation shall have an operations review at least once a year. The operations review shall be conducted by a technical specialist employed by the Division of Soil and Water Conservation of the Department, a local Soil and Water Conservation District, or the federal Natural Resources Conservation Services working under the direction of the Division of Soil and Water Conservation.

(c) Operations reviews shall not be performed by technical specialists with a financial interest in any animal operation. (1995 (Reg. Sess., 1996), c. 626, s. 1.)

CASE NOTES

Cited in Craig v. County of Chatham, 143 N.C. App. 30, 545 S.E.2d 455, 2001 N.C. App. LEXIS 221 (2001), cert. granted, 354 N.C. 68, 553 S.E.2d 37 (2001).

§ 143-215.10E. Violations requiring immediate notification.

(a) Any employee of a State agency or unit of local government lawfully on the premises and engaged in activities relating to the animal operation who observes any of the following violations shall immediately notify the owner or operator of the animal operation and the Division:

(1) Any direct discharge of animal waste into the waters of the State.

(2) Any deterioration or leak in a lagoon system that poses an immediate threat to the environment.

(3) Failure to maintain adequate storage capacity in a lagoon that poses an immediate threat to public health or the environment.

(4) Overspraying animal waste either in excess of the limits set out in the animal waste management plan or where runoff enters waters of the State.

(5) Any discharge that bypasses a lagoon system.

(b) Any employee of a federal agency lawfully on the premises and engaged in activities relating to the animal operation who observes any of the above violations is encouraged to immediately notify the Division. (1995 (Reg. Sess., 1996), c. 626, s. 1.)

CASE NOTES

Cited in Craig v. County of Chatham, 143 N.C. App. 30, 545 S.E.2d 455, 2001 N.C. App. LEXIS 221 (2001), cert. granted, 354 N.C. 68, 553 S.E.2d 37 (2001).

§ 143-215.10F. Inspections.

The Division shall conduct inspections of all animal operations that are subject to a permit under G.S. 143-215.10C at least once a year to determine whether the system is causing a violation of water quality standards and whether the system is in compliance with its animal waste management plan or any other condition of the permit. (1995 (Reg. Sess., 1996), c. 626, s. 1.)

Cross References. — For note regarding pilot program for annual inspections of animal operations subject to a permit under Part 1A of Article 21 of Chapter 143, see Editor's Note under G.S. 143-215.10A regarding Session Laws 1997-443, s. 15.4.

CASE NOTES

Cited in Craig v. County of Chatham, 143 N.C. App. 30, 545 S.E.2d 455, 2001 N.C. App. LEXIS 221 (2001), cert. granted, 354 N.C. 68, 553 S.E.2d 37 (2001).

§ 143-215.10G. Fees for animal waste management systems.

(a) Department shall charge an annual permit fee of all animal operations that are subject to a permit under G.S. 143-215.10C for animal waste management systems according to the following schedule:

(1) For a system with a design capacity of 38,500 or more and less than 100,000 pounds steady state live weight, fifty dollars ($50.00).

(2) For a system with a design capacity of 100,000 or more and less than 800,000 pounds steady state live weight, one hundred fifty dollars ($150.00).

(3) For a system with a design capacity of 800,000 pounds or more steady state live weight, three hundred dollars ($300.00).

(b) An application for a new permit under this section shall be accompanied by an initial application fee equal to the annual fee for that permit. If a permit is issued, the application fee will be applied as the annual fee for the first year that the permit is in effect. If the application is denied, the application fee shall not be refunded.

(c) Fees collected under this section shall be credited to the Water and Air Quality Account. The Department shall use fees collected pursuant to this section to cover the costs of administering this Part. (1995 (Reg. Sess., 1996), c. 626, s. 1; 1997-496, s. 14; 1998-212, s. 29A.11(d).)

Editor's Note. — Session Laws 1998-212, s. 29A.11(h), provides: "This section shall not be construed to relieve any person of the obligation to pay any fee due for any activity described in this section under the schedule of fees in effect prior to the date this section becomes effective."

§ 143-215.10H. Swine integrator registration.

(a) Definitions. — As used in this section:

(1) "Grower" means a person who holds a permit for an animal waste management system under this Part or Part 1 of this Article for a swine farm, or who operates a swine farm that is subject to an operations review conducted pursuant to G.S. 143-215.10D or an inspection conducted pursuant to G.S. 143-215.10F.

(2) "Swine farm" has the same meaning as in G.S. 106-802.

(3) "Swine operation integrator" or "integrator" means a person, other than a grower, who provides 250 or more animals to a swine farm and

who either has an ownership interest in the animals or otherwise establishes management and production standards for the permit holder for the maintenance, care, and raising of the animals. An ownership interest includes a right or option to purchase the animals.

(b) Registration Required. — As part of an operations review conducted pursuant to G.S. 143-215.10D or an inspection conducted pursuant to G.S. 143-215.10F, the Department shall require a grower to register any swine operation integrator with which the grower has a contractual relationship to raise swine. The registration shall be in writing and shall include only:

(1) The name of the owner of the swine farm.
(2) The mailing address of the owner of the swine farm.
(3) The physical location of the swine farm.
(4) The swine farm facility number.
(5) A description of the animal waste management system for the swine farm.
(6) The name and address of the grower, if different from the owner of the swine farm.
(7) The name and mailing address of the integrator.

(c) Notice of Termination or New Relationship. — If the swine operation integrator removes all animals from a swine farm or terminates the integrator's relationship with the swine farm, the grower shall notify the Department of the termination or removal within 30 days. If the grower terminates the grower's relationship with the integrator or enters into a relationship with a different integrator, the grower shall notify the Department of the termination or new relationship within 30 days.

(d) Disclosure of Violations. — The Department shall notify a swine operation integrator of all notices of deficiencies and violations of laws and rules governing the animal waste management system at any swine farm for which the integrator has been registered with the Department. A notice of deficiency or violation of any law or rule governing an animal waste management system is a public record within the meaning of G.S. 132-1 and is subject to disclosure as provided in Chapter 132 of the General Statutes. (1998-188, s. 1.)

§§ 143-215.10I through 143-215.10L: Reserved for future codification purposes.

§ 143-215.10M. Reports.

(a) The Department shall report to the Environmental Review Commission and the Fiscal Research Division on or before 1 October of each year as required by this section. Each report shall include:

(1) The number of permits for animal waste management systems, itemized by type of animal subject to such permits, issued since the last report.
(2) The number of operations reviews of animal waste management systems that the Division of Soil and Water Conservation has conducted since the last report.
(3) The number of operations reviews of animal waste management systems conducted by agencies other than the Division of Soil and Water Conservation that have been conducted since the last report.
(4) The number of reinspections associated with operations reviews conducted by the Division of Soil and Water Conservation since the last report.
(5) The number of reinspections associated with operations reviews conducted by agencies other than the Division of Soil and Water Conservation since the last report.

(6) The number of compliance inspections of animal waste management systems that the Division of Water Quality has conducted since the last report.

(7) The number of follow-up inspections associated with compliance inspections conducted by the Division of Water Quality since the last report.

(8) The average length of time for each category of reviews and inspections under subdivisions (2) through (7) of this subsection.

(9) The number of violations found during each category of review and inspection under subdivisions (2) through (7) of this subsection, the status of enforcement actions taken and pending, and the penalties imposed, collected, and in the process of being negotiated for each such violation.

(10) Any other information that the Department determines to be appropriate or that is requested by the Environmental Review Commission or the Fiscal Research Division.

(b) The information to be included in the reports pursuant to subsection (a) of this section shall be itemized by each regional office of the Department, with totals for the State indicated.

(c) Repealed by Session Laws 2002-148, s. 6 effective October 9, 2002. (1998-221, s. 4.2; 2002-148, s. 6.)

Editor's Note. — This section was enacted as G.S. 143-215.10H, and was recodified as this section at the direction of the Revisor of Statutes.

Effect of Amendments. — Session Laws 2002-148, s. 6, effective October 9, 2002, in subsection (a), rewrote the introductory paragraph, and deleted "and a total for that calendar year" following "last report" at the end of subdivisions (1), (2), (3), (4), (5), and (6); and repealed subsection (c), requiring quarterly status reports.

Part 2. Regulation of Use of Water Resources.

§ 143-215.11. Short title.

This Part shall be known and may be cited as the Water Use Act of 1967. (1967, c. 933, s. 1.)

§ 143-215.12. Declaration of purpose.

It is hereby declared that the general welfare and public interest require that the water resources of the State be put to beneficial use to the fullest extent to which they are capable, subject to reasonable regulation in order to conserve these resources and to provide and maintain conditions which are conducive to the development and use of water resources. (1967, c. 933, s. 2.)

§ 143-215.13. Declaration of capacity use areas.

(a) The Environmental Management Commission may declare and delineate from time to time, and may modify, capacity use areas of the State where it finds that the use of groundwater or surface water or both require coordination and limited regulation for protection of the interests and rights of residents or property owners of such areas or of the public interest.

(b) Within the meaning of this Part "a capacity use area" is one where the Commission finds that the aggregate uses of groundwater or surface water, or both, in or affecting said area (i) have developed or threatened to develop to a degree which requires coordination and regulation, or (ii) exceed or threaten to exceed, or otherwise threaten or impair, the renewal or replenishment of such waters or any part of them.

(c) The Commission may declare and delineate capacity use areas in accordance with the following procedures:

(1) Whenever the Commission believes that a capacity use situation exists or may be emerging in any area of the State, it may direct the Department to investigate and report to the Commission thereon.

(2) In conducting its investigation the Department shall consult with all interested persons, groups and agencies; may retain consultants; and shall consider all factors relevant to the conservation and use of water in the area, including established or pending water classifications under Part 1 of this Article and the criteria for such classifications. Following its investigation the Department shall render a written report to the Commission. This report shall indicate whether the water use problems of the area involve surface waters, groundwaters or both and shall identify the Department's suggested boundaries for any capacity use area that may be proposed. It shall present such alternatives as the Department deems appropriate, including actions by any agency or person which might preclude the need for additional regulation at that time, and measures which might be employed limited to surface water or groundwater.

(3) If the Commission finds, following its review of the departmental report (or thereafter following its evaluation of measures taken falling short of regulation) that a capacity use area should be declared, it may adopt a rule declaring said capacity use area. A rule declaring an area to be a capacity use area shall delineate the boundaries of the area.

(4) to (6) Repealed by Session Laws 1981, c. 585, s. 3.

(7) Repealed by Session Laws 1987, c. 827, s. 167.

(d) The Commission may conduct a public hearing pursuant to the provisions of this subsection in any area of the State, whether or not a capacity use area has been declared, when it has reason to believe that the withdrawal of water from or the discharge of water pollutants to the waters in such area is having an unreasonably adverse effect upon such waters. If the Commission determines that withdrawals of water from or discharge of water pollutants to the waters within such area has resulted or probably will result in a generalized condition of water depletion or water pollution within the area to the extent that the availability or fitness for use of such water has been impaired for existing or proposed uses and that injury to the public health, safety or welfare will result if increased or additional withdrawals or discharges occur, the Commission may issue a rule:

(1) Prohibiting any person withdrawing waters in excess of 100,000 gallons per day from increasing the amount of the withdrawal above such limit as may be established in the rule.

(2) Prohibiting any person from constructing, installing or operating any new well or withdrawal facilities having a capacity in excess of a rate established in the rule; but such prohibition shall not extend to any new well or facility having a capacity of less than 10,000 gallons per day.

(3) Prohibiting any person discharging water pollutants to the waters from increasing the rate of discharge in excess of the rate established in the rule.

(4) Prohibiting any person from constructing, installing or operating any facility that will or may result in the discharge of water pollutants to the waters in excess of the rate established in the rule.

(5) Prohibiting any agency or political subdivision of the State from issuing any permit or similar document for the construction, installation, or operation of any new or existing facilities for withdrawing water from or discharging water pollutants to the waters in such area in excess of the rates established in the rule.

The determination of the Commission shall be based upon the record of the public hearing and other information considered by the Commission in the rule-making proceeding. The rule shall describe the geographical area of the State affected thereby with particularity and shall provide that the prohibitions set forth therein shall continue pending a determination by the Commission that the generalized condition of water depletion or water pollution within the area has ceased.

Upon issuance of any rule by the Commission pursuant to this subsection, a certified copy of such rule shall be mailed by registered or certified mail to the governing body of every county, city, town, and affected political subdivision lying, in whole or in part, within the area and to every affected or interested State and federal agency. A certified copy of the rule shall be posted at the courthouse in every county lying, in whole or in part, within the area, and a notice setting forth the substantive provisions and effective date of the rule shall be published once a week for two successive weeks in a newspaper or newspapers having general circulation within the area. After publication of notice is completed, any person violating any provision of such rule after the effective date thereof shall be subject to the penalties and proceedings set forth in G.S. 143-215.17. (1967, c. 933, s. 3; 1973, c. 698, s. 14; c. 1262, s. 23; 1977, c. 771, s. 4; 1981, c. 585, ss. 1-4; 1987, c. 827, ss. 154, 167.)

Legal Periodicals. — For survey of 1981 administrative law, see 60 N.C.L. Rev. 1165 (1982).

CASE NOTES

Environmental Management Commission's determination of capacity use areas is discretionary. High Rock Lake Ass'n v. North Carolina Envtl. Mgt. Comm'n, 51 N.C. App. 275, 276 S.E.2d 472 (1981).

As to the scope of judicial review for the Environmental Management Commission's determination that a given area should or should not be declared a capacity use area, see High Rock Lake Ass'n v. North Carolina Envtl. Mgt. Comm'n, 51 N.C. App. 275, 276 S.E.2d 472 (1981).

Refusal by Commission to declare Yadkin River Basin a capacity use area was not arbitrary or capricious. See High Rock Lake Ass'n v. North Carolina Envtl. Mgt. Comm'n, 51 N.C. App. 275, 276 S.E.2d 472 (1981).

Informal Rule-Making Procedure Held Not Subject to Review. — An informal hearing conducted by the Commission to consider whether to initiate a proceeding to declare the Yadkin River Basin a capacity use area was no more than a rule-making type procedure, and thus plaintiffs were not entitled to judicial review under G.S. 150B-43 et seq. High Rock Lake Ass'n v. North Carolina Envtl. Mgt. Comm'n, 39 N.C. App. 699, 252 S.E.2d 109 (1979), decided prior to the 1987 amendments to this section.

Subsection (d) of this section operates as a statutory limitation on the standing of parties interested in or affected by the action to seek judicial review. High Rock Lake Ass'n v. North Carolina Envtl. Mgt. Comm'n, 39 N.C. App. 699, 252 S.E.2d 109 (1979).

Plaintiffs Held Not Entitled to Judicial Review. — A hearing held by the Commission to serve the function of a general information gathering tool to inject public participation at a stage of decision-making generally reserved to staff participation was an informal stage of the decision-making process with respect to this section's considerations, and the use of evidence presented at that hearing to consider whether to initiate a proceeding under this section was purely within the discretion of the Commission. Since no order was issued by the Commission which in turn could have adversely affected plaintiffs, they were not entitled to judicial review under this section. High Rock Lake Ass'n v. North Carolina Envtl. Mgt. Comm'n, 39 N.C. App. 699, 252 S.E.2d 109 (1979).

Applied in Biddix v. Henredon Furn. Indus., Inc., 76 N.C. App. 30, 331 S.E.2d 717 (1985).

§ 143-215.14. Rules within capacity use areas; scope and procedures.

(a) Following the declaration of a capacity use area by the Commission, it shall prepare proposed rules to be applied in said area, containing such of the following provisions as the Commission finds appropriate concerning the use of surface waters or groundwaters or both:

(1) Provisions requiring water users within the area to submit reports not more frequently than at 30-day intervals concerning quantity of water used or withdrawn, sources of water and the nature of the use thereof.

(2) With respect to surface waters, groundwaters, or both: provisions concerning the timing of withdrawals; provisions to protect against or abate salt water encroachment; provisions to protect against or abate unreasonable adverse effects on other water users within the area, including but not limited to adverse effects on public use.

(3) With respect to groundwaters: provisions concerning well-spacing controls; and provisions establishing a range of prescribed pumping levels (elevations below which water may not be pumped) or maximum pumping rates, or both, in wells or for the aquifer or for any part thereof based on the capacities and characteristics of the aquifer.

(4) Such other provisions not inconsistent with this Part as the Commission finds necessary to implement the purposes of this Part.

(b) In adopting rules for a capacity use area, the Commission shall consider the factors listed in G.S. 143-215.15(h). (1967, c. 933, s. 4; 1973, c. 1262, s. 23; 1981, c. 585, s. 5; 1987, c. 827, ss. 154, 168.)

CASE NOTES

Applied in High Rock Lake Ass'n v. North Carolina Envtl. Mgt. Comm'n, 39 N.C. App. 699, 252 S.E.2d 109 (1979).

§ 143-215.15. Permits for water use within capacity use areas — Procedures.

(a) In areas declared by the Commission to be capacity use areas no person shall (after the expiration of such period, not in excess of six months, as the Commission may designate) withdraw, obtain, or utilize surface waters or groundwaters or both, as the case may be, in excess of 100,000 gallons per day for any purpose unless such person shall first obtain a permit therefor from the Commission.

(b) When sufficient evidence is provided by the applicant that the water withdrawn or used from a stream or the ground is not consumptively used, a permit therefor shall be issued by the Commission without a hearing and without the conditions provided in subsection (c) of this section. Applications for such permits shall set forth such facts as the Commission shall deem necessary to enable it to establish and maintain adequate records of all water uses within the capacity use area.

(c) In all cases in which sufficient evidence of a nonconsumptive use is not presented the Department shall notify each person required by this Part to secure a permit of the Commission's proposed action concerning such permit, and shall transmit with such notice a copy of any permit it proposes to issue to such persons, which permit will become final unless a request for a hearing is made within 15 days from the date of service of such notice. If sufficient evidence of a nonconsumptive use is not presented, the Commission may: (i) grant such permit with conditions as the Commission deems necessary to

implement the rules adopted pursuant to G.S. 143-215.14; (ii) grant any temporary permit for such period of time as the Commission shall specify where conditions make such temporary permit essential, even though the action allowed by such permit may not be consistent with the Commission's rules applicable to such capacity use area; (iii) modify or revoke any permit upon not less than 60 days' written notice to any person affected; and (iv) deny such permit if the application therefor or the effect of the water use proposed or described therein upon the water resources of the area is found to be contrary to public interest. Before issuing a permit under this subsection, the Commission shall notify the permit applicant of its proposed action by sending the permit applicant a copy of the permit the Commission proposes to issue. Unless the permit applicant contests the proposed permit, the proposed permit shall become effective on the date set in the proposed permit. A water user who is dissatisfied with a decision of the Commission concerning that user's or another user's permit application or permit may commence a contested case under G.S. 150B-23.

(d) The Commission shall give notice of receipt of an application for a permit under this Part to all other holders of permits and applicants for permits under this Part within the same capacity use area, and to all other persons who have requested to be notified of permit applications. Notice of receipt of an application shall be given within 10 days of the receipt of the application by the Commission. The Commission shall also give notice of its proposed action on any permit application under this Part to all permit holders or permit applicants within the same capacity use area at least 18 days prior to the effective date of the proposed action. Notices of receipt of applications for permits and notice of proposed action on permits shall be by first-class mail and shall be effective upon depositing the notice, postage prepaid, in the United States mail.

(e) Repealed by Session Laws 1981, c. 585, s. 8.

(f)(1) Recodified as 143-215.4(d) by Session Laws 1987, c. 827, s. 169.

(2), (3) Repealed by Session Laws 1987, c. 827, s. 169.

(g) Repealed by Session Laws 1987, c. 827, s. 169.

(h) In determining whether to issue, modify, revoke, or deny a permit under this section, the Commission shall consider:

(1) The number of persons using an aquifer or stream and the object, extent and necessity of their respective withdrawals or uses;
(2) The nature and size of the stream or aquifer;
(3) The physical and chemical nature of any impairment of the aquifer or stream, adversely affecting its availability or fitness for other water uses (including public use);
(4) The probable severity and duration of such impairment under foreseeable conditions;
(5) The injury to public health, safety or welfare which would result if such impairment were not prevented or abated;
(6) The kinds of businesses or activities to which the various uses are related;
(7) The importance and necessity of the uses claimed by permit applicants (under this section), or of the water uses of the area (under G.S. 143-215.14) and the extent of any injury or detriment caused or expected to be caused to other water uses (including public use);
(8) Diversion from or reduction of flows in other watercourses or aquifers; and
(9) Any other relevant factors. (1967, c. 933, s. 5; 1973, c. 108, s. 89; c. 698, s. 15; c. 1262, s. 23; 1977, c. 771, s. 4; 1981, c. 585, ss. 6-10; 1987, c. 827, ss. 154, 169.)

CASE NOTES

Applied in High Rock Lake Ass'n v. North Carolina Envtl. Mgt. Comm'n, 39 N.C. App. 699, 252 S.E.2d 109 (1979).

Cited in State ex rel. Wallace v. Bone, 304 N.C. 591, 286 S.E.2d 79 (1982).

§ 143-215.16. Permits for water use within capacity use areas — Duration, transfer, reporting, measurement, present use, fees and penalties.

(a) No permit under G.S. 143-215.15 shall be issued for a longer period than the longest of the following: (i) 10 years, or (ii) the duration of the existence of a capacity use area, or (iii) the period found by the Commission to be necessary for reasonable amortization of the applicant's water-withdrawal and water-using facilities. Permits may be renewed following their expiration upon compliance with the provisions of G.S. 143-215.15.

(b) Permits shall not be transferred except with the approval of the Commission.

(c) Every person in a capacity use area who is required by this Part to secure a permit shall file with the Commission in the manner prescribed by the Commission a certified statement of quantities of water used and withdrawn, sources of water, and the nature of the use thereof not more frequently than 30-day intervals. Such statements shall be filed on forms furnished by the Department within 90 days after the adoption of an order by the Commission declaring a capacity use area. Water users in a capacity use area not required to secure a permit shall comply with procedures established to protect and manage the water resources of the area. Such procedures shall be adapted to the specific needs of the area, shall be within the provisions of this and other North Carolina water resource acts, and shall be adopted after public hearing in the area. The requirements embodied in the two preceding sentences shall not apply to individual domestic water use.

(d) If any person who is required to secure a permit under this Part is unable to furnish accurate information concerning amounts of water being withdrawn or used, or if there is evidence that his certified statement is false or inaccurate or that he is withdrawing or using a larger quantity of water or under different conditions than has been authorized by the Commission, the Commission shall have the authority to require such person to install water meters, or some other more economical means for measuring water use acceptable to the Commission. In determining the amount of water being withdrawn or used by a permit holder or applicant the Commission may use the rated capacity of his pumps, the rated capacity of his cooling system, data furnished by the applicant, or the standards or methods employed by the United States Geological Survey in determining such quantities or by any other accepted method.

(e) In any case where a permit applicant can prove to the Commission's satisfaction that the applicant was withdrawing or using water prior to the date of declaration of a capacity use area, the Commission shall take into consideration the extent to which such prior use or withdrawal was reasonably necessary in the judgment of the Commission to meet its needs, and shall grant a permit which shall meet those reasonable needs. Provided, however, that the granting of such permit shall not have unreasonably adverse effects upon other water uses in the area, including public use, and including potential as well as present use.

(f) The Commission shall also take into consideration in the granting of any permit the prior investments of any person in lands, and plans for the usage of water in connection with such lands which plans have been submitted to the

Commission within a reasonable time after June 27, 1967. Provided, however, that the granting of such permit shall not have unreasonably adverse effects upon other water uses in the area, including public use, and including potential as well as present use.

(g) It is the intention of the General Assembly that if the provisions of subsection (e) or subsection (f) of this section are held invalid as a grant of an exclusive or separate emolument or privilege, within the meaning of Article I, Sec. 7 of the North Carolina Constitution, the remainder of this Part shall be given effect without the invalid provision or provisions.

(h) Pending the issuance or denial of a permit pursuant to subsection (e) or (f) of this section, the applicant may continue the same withdrawal or use which existed prior to the date of declaration of the capacity use area. (1967, c. 933, s. 6; 1973, c. 1262, s. 23; 1977, c. 771, s. 4; 1987, c. 827, s. 154.)

Editor's Note. — The reference to the Constitution in subsection (g) is to the Constitution adopted in 1868, as amended. See now N.C. Const., Art. I, § 32.

CASE NOTES

Applied in High Rock Lake Ass'n v. North Carolina Envtl. Mgt. Comm'n, 39 N.C. App. 699, 252 S.E.2d 109 (1979).

§ 143-215.17. Enforcement procedures.

(a) Criminal Penalties. — Any person who shall be adjudged to have violated any provision of this Part shall be guilty of a Class 3 misdemeanor and shall only be liable to a penalty of not less than one hundred dollars ($100.00) nor more than one thousand dollars ($1,000) for each violation. In addition, if any person is adjudged to have committed such violation willfully, the court may determine that each day during which such violation continued constitutes a separate violation subject to the foregoing penalty.

(b) Civil Penalties. —

(1) The Secretary may assess a civil penalty of not less than one hundred dollars ($100.00) nor more than two hundred fifty dollars ($250.00) against any person who violates any provisions of, or any order issued pursuant to this Part, or who violates a rule of the Commission implementing this Part.

(2) If any action or failure to act for which a penalty may be assessed under this Part is willful, the Secretary may assess a penalty not to exceed two hundred fifty dollars ($250.00) per day for each day of violation.

(3) In determining the amount of the penalty the Secretary shall consider the factors set out in G.S. 143B-282.1(b). The procedures set out in G.S. 143B-282.1 shall apply to civil penalty assessments that are presented to the Commission for final agency decision.

(4) The Secretary shall notify any person assessed a civil penalty of the assessment and the specific reasons therefor by registered or certified mail, or by any means authorized by G.S. 1A-1, Rule 4. Contested case petitions shall be filed within 30 days of receipt of the notice of assessment.

(5) Requests for remission of civil penalties shall be filed with the Secretary. Remission requests shall not be considered unless made within 30 days of receipt of the notice of assessment. Remission requests must be accompanied by a waiver of the right to a contested case hearing pursuant to Chapter 150B and a stipulation of the facts

on which the assessment was based. Consistent with the limitations in G.S. 143B-282.1(c) and (d), remission requests may be resolved by the Secretary and the violator. If the Secretary and the violator are unable to resolve the request, the Secretary shall deliver remission requests and his recommended action to the Committee on Civil Penalty Remissions of the Environmental Management Commission appointed pursuant to G.S. 143B-282.1(c).

(6) If any civil penalty has not been paid within 30 days after notice of assessment has been served on the violator, the Secretary shall request the Attorney General to institute a civil action in the Superior Court of any county in which the violator resides or has his or its principal place of business to recover the amount of the assessment, unless the violator contests the assessment as provided in subdivision (4) of this subsection, or requests remission of the assessment in whole or in part as provided in subdivision (5) of this subsection. If any civil penalty has not been paid within 30 days after the final agency decision or court order has been served on the violator, the Secretary shall request the Attorney General to institute a civil action in the Superior Court of any county in which the violator resides or has his or its principal place of business to recover the amount of the assessment.

(7) Repealed by Session Laws 1995 (Regular Session, 1996), c. 743, s. 15.

(8) The clear proceeds of civil penalties assessed pursuant to this subsection shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2.

(c) Injunctive Relief. — Upon violation of any of the provisions of this Part, a rule implementing this Part, or an order issued under this Part, the Secretary may, either before or after the institution of proceedings for the collection of the penalty imposed by this Part for such violations, request the Attorney General to institute a civil action in the superior court of the county or counties where the violation occurred in the name of the State upon the relation of the Department for injunctive relief to restrain the violation or require corrective action, and for such other or further relief in the premises as said court shall deem proper. Neither the institution of the action nor any of the proceedings thereon shall relieve any party to such proceedings from the penalty prescribed by this Part for any violation of same. (1967, c. 933, s. 7; 1973, c. 698, s. 16; c. 1262, s. 23; 1975, c. 842, s. 2; 1977, c. 771, s. 4; 1981, c. 585, s. 11; 1987, c. 827, ss. 154, 170; 1989 (Reg. Sess., 1990), c. 1036, s. 4; 1993, c. 539, s. 1020; 1994, Ex. Sess., c. 24, s. 14(c); 1995 (Reg. Sess., 1996), c. 743, s. 15; 1998-215, s. 64.)

§ 143-215.18. Map or description of boundaries of capacity use areas.

(a) The Commission in designating and the Department in recommending the boundaries of any capacity use area may define such boundaries by showing them on a map or drawings, by a written description, or by any combination thereof, to be designated appropriately and filed permanently with the Department. Alterations in these lines shall be indicated by appropriate entries upon or additions to such map or description. Such entries shall be made under the direction of the Secretary of Environment and Natural Resources. Photographic, typed or other copies of such map or description, certified by the Secretary of Environment and Natural Resources, shall be admitted in evidence in all courts and shall have the same force and effect as would the original map or description. If the boundaries are changed pursuant to other provisions of this Part, the Department may provide for the redrawing

of any such map. A redrawn map shall supersede for all purposes the earlier map or all maps which it is designated to replace.

(b) The Department shall file with the Secretary of State a certified copy of the map, drawings, description or combination thereof, showing the boundaries of any capacity use area designated by the Commission; and a certified copy of any redrawn or altered map or drawing, and of any amendments or additions to written descriptions, showing alterations to said boundaries. (1967, c. 933, s. 8; 1973, c. 1262, s. 23; c. 1331, s. 3; 1977, c. 771, s. 4; 1987, c. 827, ss. 154, 171; 1989, c. 727, s. 218(107); 1997-443, s. 11A.119(a).)

§ 143-215.19. Administrative inspection; reports.

(a) When necessary for enforcement of this Part, and when authorized by rules of the Commission, employees of the Commission may inspect any property, public or private, to investigate:

(1) The condition, withdrawal or use of any waters;

(2) Water sources; or

(3) The installation or operation of any well or surface water withdrawal or use facility.

(b) The Commission's rules must state appropriate standards for determining when property may be inspected under subsection (a).

(c) Entry to inspect property may be made without the possessor's consent only if the employee seeking to inspect has a valid administrative inspection warrant issued pursuant to G.S. 15-27.2.

(d) The Commission may also require the owner or possessor of any property to file written statements or submit reports under oath concerning the installation or operation of any well or surface water withdrawal or use facility.

(e) The Commission shall accompany any request or demand for information under this section with a notice that any trade secrets or confidential information concerning business activities is entitled to confidentiality as provided in this subsection. Upon a contention by any person that records, reports or information or any particular part thereof to which the Commission has access under this section, if made public would divulge methods or processes entitled to protection as trade secrets or would divulge confidential information concerning business activities, the Commission shall consider the material referred to as confidential, except that it may be made available in a separate file marked "Confidential Business Information" to employees of the department concerned with carrying out the provisions of this Part for that purpose only. The disclosure or use of such information in any administrative or judicial proceeding shall be governed by the rules of evidence, but the affected business shall be notified by the Commission at least seven days prior to any such proposed disclosure or use of information, and the Commission will not oppose a motion by any affected business to intervene as a party to the judicial or administrative proceeding. (1967, c. 933, s. 9; 1973, c. 1262, s. 23; 1981, c. 585, s. 12; 1987, c. 827, ss. 154, 172.)

§ 143-215.20: Repealed by Session Laws 1987, c. 827, s. 173.

§ 143-215.21. Definitions.

Unless the context otherwise requires, the following terms as used in this Part are defined as follows:

(1), (2) Repealed by Session Laws 1987, c. 827, s. 174.

(3) "Consumptive use" means any use of water withdrawn from a stream or the ground other than a "nonconsumptive use," as defined in this Part.

(4) Repealed by Session Laws 1987, c. 827, s. 174.

(5) "Nonconsumptive use" means (i) the use of water withdrawn from a stream in such a manner that it is returned to the stream without substantial diminution in quantity at or near the point from which it was taken; or, if the user owns both sides of the stream at the point of withdrawal, the water is returned to the stream upstream of the next property below the point of diversion on either side of the stream; (ii) the use of water withdrawn from a groundwater system or aquifer in such a manner that it is returned to the groundwater system or aquifer from which it was withdrawn without substantial diminution in quantity or substantial impairment in quality at or near the point from which it was withdrawn; (iii) provided, however, that (in determining whether a use of groundwater is nonconsumptive) the Commission may take into consideration whether any material injury or detriment to other water users of the area by reason of reduction of water pressure in the aquifer or system has not been adequately compensated by the permit applicant who caused or substantially contributed to such injury or detriment.

(6), (7) Repealed by Session Laws 1987, c. 827, s. 174. (1967, c. 933, s. 11; 1973, c. 1262, s. 23; 1977, c. 771, s. 4; 1987, c. 827, ss. 154, 174.)

§ 143-215.22. Law of riparian rights not changed.

Nothing contained in this Part shall change or modify existing common or statutory law with respect to the relative rights of riparian owners concerning the use of surface water in this State. (1967, c. 933, s. 12.)

CASE NOTES

Applied in Biddix v. Henredon Furn. Indus., Inc., 76 N.C. App. 30, 331 S.E.2d 717 (1985).

§ 143-215.22A. Water withdrawal policy; remedies.

(a) It is against the public policy of North Carolina to withdraw water from any major river or reservoir if both of the following factors are present: (i) the withdrawal will cause the natural flow of water in the river or a portion of the reservoir to be reversed; and (ii) substantial portions of the water are not returned to the river system after use. For purposes of this section, a withdrawal will cause natural flow to be reversed if as a result of the withdrawal, the rate of flow in the river or discrete portion of the reservoir is 15 cubic feet per second or more, moving in a generally opposite direction than prior to the withdrawal, over a distance of more than one mile. To correct for periodic effects, including tidal influences and reservoir fluctuations, flow speed and direction shall be calculated by using annual average flow data to determine pre-withdrawal flows, and projected annual average flow assuming the maximum practical rate of withdrawal, to determine post-withdrawal flows.

(b) This section shall not be construed to create an independent cause of action by the State or by any person. This section shall not apply to any project or facility for which a withdrawal of water began prior to the date this section is effective. (1991, c. 567, s. 1; c. 712, ss. 5, 6.)

§ 143-215.22B. Roanoke River Basin water rights.

The State reserves and allocates to itself, as protector of the public interest, all rights in the water located in those portions of Kerr Lake and Lake Gaston that are in the State. (1995, c. 504, s. 1.)

§§ 143-215.22C through 143-215.22F: Reserved for future codification purposes.

Part 2A. Registration of Water Withdrawals and Transfers; Regulation of Surface Water Transfers.

§ 143-215.22G. Definitions.

In addition to the definitions set forth in G.S. 143-212 and G.S. 143-213, the following definitions apply to this Part.

(1) "River basin" means any of the following river basins designated on the map entitled "Major River Basins and Sub-basins in North Carolina" and filed in the Office of the Secretary of State on 16 April 1991. The term "river basin" includes any portion of the river basin that extends into another state. Any area outside North Carolina that is not included in one of the river basins listed in this subdivision comprises a separate river basin.

a.	1-1	Broad River.
b.	2-1	Haw River.
c.	2-2	Deep River.
d.	2-3	Cape Fear River.
e.	2-4	South River.
f.	2-5	Northeast Cape Fear River.
g.	2-6	New River.
h.	3-1	Catawba River.
i.	3-2	South Fork Catawba River.
j.	4-1	Chowan River.
k.	4-2	Meherrin River.
l.	5-1	Nolichucky River.
m.	5-2	French Broad River.
n.	5-3	Pigeon River.
o.	6-1	Hiwassee River.
p.	7-1	Little Tennessee River.
q.	7-2	Tuskasegee (Tuckasegee) River.
r.	8-1	Savannah River.
s.	9-1	Lumber River.
t.	9-2	Big Shoe Heel Creek.
u.	9-3	Waccamaw River.
v.	9-4	Shallotte River.
w.	10-1	Neuse River.
x.	10-2	Contentnea Creek.
y.	10-3	Trent River.
z.	11-1	New River.
aa.	12-1	Albemarle Sound.
bb.	13-1	Ocoee River.
cc.	14-1	Roanoke River.
dd.	15-1	Tar River.
ee.	15-2	Fishing Creek.
ff.	15-3	Pamlico River and Sound.
gg.	16-1	Watauga River.
hh.	17-1	White Oak River.
ii.	18-1	Yadkin (Yadkin-Pee Dee) River.
jj.	18-2	South Yadkin River.
kk.	18-3	Uwharrie River.
ll.	18-4	Rocky River.

(2) "Surface water" means any of the waters of the State located on the land surface that are not derived by pumping from groundwater.
(3) "Transfer" means the withdrawal, diversion, or pumping of surface water from one river basin and discharge of all or any part of the water in a river basin different from the origin. However, notwithstanding the basin definitions in G.S. 143-215.22G(1), the following are not transfers under this Part:
a. The discharge of water upstream from the point where it is withdrawn.
b. The discharge of water downstream from the point where it is withdrawn. (1991, c. 712, s. 1; 1993, c. 348, s. 1; 1997-443, s. 15.48(b).)

Cross References. — As to establishment of a pilot program for the removal of abandoned vessels in the Neuse River Basin, see the Editor's Note at G.S. 76-40.

Editor's Note. — This Part was enacted by Session Laws 1991, c. 712, s. 1, which enacted sections numbered G.S. 143-215.22A and 143-215.22B. These sections were renumbered as G.S. 143-215.22G and 143-215.22H, and this section was placed in this Part, by the Revisor of Statutes.

§ 143-215.22H. Registration of water withdrawals and transfers required.

(a) Any person who withdraws 100,000 gallons per day or more of water from the surface or groundwaters of the State or who transfers 100,000 gallons per day or more of water from one river basin to another shall register the withdrawal or transfer with the Commission. A person registering a water withdrawal or transfer shall provide the Commission with the following information:
(1) The maximum daily amount of the water withdrawal or transfer expressed in thousands of gallons per day.
(1a) The monthly average withdrawal or transfer expressed in thousands of gallons per day.
(2) The location of the points of withdrawal and discharge and the capacity of each facility used to make the withdrawal or transfer.
(3) The monthly average discharge expressed in thousands of gallons per day.

(b) Any person initiating a new water withdrawal or transfer of 100,000 gallons per day or more shall register the withdrawal or transfer with the Commission not later than six months after the initiation of the withdrawal or transfer. The information required under subsection (a) of this section shall be submitted with respect to the new withdrawal or transfer.

(b1) Subsections (a) and (b) of this section shall not apply to a person who withdraws or transfers less than 1,000,000 gallons per day of water for activities directly related or incidental to the production of crops, fruits, vegetables, ornamental and flowering plants, dairy products, livestock, poultry, and other agricultural products.

(c) A unit of local government that has completed a local water supply plan that meets the requirements of G.S. 143-355(l) and that has periodically revised and updated its plan as required by the Department has satisfied the requirements of this section and is not required to separately register a water withdrawal or transfer or to update a registration under this section.

(d) Any person who is required to register a water withdrawal or transfer under this section shall update the registration by providing the Commission with a current version of the information required by subsection (a) of this section at five-year intervals following the initial registration. A person who

submits information to update a registration of a water withdrawal or transfer is not required to pay an additional registration fee under G.S. 143-215.3(a)(1a) and G.S. 143-215.3(a)(1b), but is subject to the late registration fee established under this section in the event that updated information is not submitted as required by this subsection.

(e) Any person who is required to register a water transfer or withdrawal under this section and fails to do so shall pay, in addition to the registration fee required under G.S. 143-215.3(a)(1a) and G.S. 143-215.3(a)(1b), a late registration fee of five dollars ($5.00) per day for each day the registration is late up to a maximum of five hundred dollars ($500.00). A person who is required to update a registration under this section and fails to do so shall pay a fee of five dollars ($5.00) per day for each day the updated information is late up to a maximum of five hundred dollars ($500.00). A late registration fee shall not be charged to a farmer who submits a registration that pertains to farming operations. (1991, c. 712, s. 1; 1993, c. 344, s. 1; c. 553, s. 81; 1998-168, s. 3.)

Editor's Note. — Session Laws 1998-168, s. 8 provides any person who is required to register a water withdrawal or transfer as a result of the amendments to G.S. 143-215.22H made by Section 3 of S.L. 1998-168 shall provide the information required by G.S. 143-215.22H(a) on the basis of water withdrawn or transferred during the 1999 calendar year.

Legal Periodicals. — For legislative survey, see 21 Campbell L. Rev. 323 (1999).

§ 143-215.22I. Regulation of surface water transfers.

(a) No person, without first securing a certificate from the Commission, may:

(1) Initiate a transfer of 2,000,000 gallons of water or more per day from one river basin to another.

(2) Increase the amount of an existing transfer of water from one river basin to another by twenty-five percent (25%) or more above the average daily amount transferred during the year ending July 1, 1993, if the total transfer including the increase is 2,000,000 gallons or more per day.

(3) Increase an existing transfer of water from one river basin to another above the amount approved by the Commission in a certificate issued under G.S. 162A-7 prior to July 1, 1993.

(b) Notwithstanding the provisions of subsection (a) of this section, a certificate shall not be required to transfer water from one river basin to another up to the full capacity of a facility to transfer water from one basin to another if the facility was existing or under construction on July 1, 1993.

(c) An applicant for a certificate shall petition the Commission for the certificate. The petition shall be in writing and shall include the following:

(1) A description of the facilities to be used to transfer the water, including the location and capacity of water intakes, pumps, pipelines, and other facilities.

(2) A description of the proposed uses of the water to be transferred.

(3) The water conservation measures to be used by the applicant to assure efficient use of the water and avoidance of waste.

(4) Any other information deemed necessary by the Commission for review of the proposed water transfer.

(d) Upon receipt of the petition, the Commission shall hold a public hearing on the proposed transfer after giving at least 30 days' written notice of the hearing as follows:

(1) By publishing notice in the North Carolina Register.

(2) By publishing notice in a newspaper of general circulation in the area of the river basin downstream from the point of withdrawal.

(3) By giving notice by first-class mail to each of the following:

a. A person who has registered under this Part a water withdrawal or transfer from the same river basin where the water for the proposed transfer would be withdrawn.
b. A person who secured a certificate under this Part for a water transfer from the same river basin where the water for the proposed transfer would be withdrawn.
c. A person holding a National Pollutant Discharge Elimination System (NPDES) wastewater discharge permit exceeding 100,000 gallons per day for a discharge located downstream from the proposed withdrawal point of the proposed transfer.
d. The board of county commissioners of each county that is located entirely or partially within the river basin that is the source of the proposed transfer.
e. The governing body of any public water supply system that withdraws water downstream from the withdrawal point of the proposed transfer.

(e) The notice of the public hearing shall include a nontechnical description of the applicant's request and a conspicuous statement in bold type as to the effects of the water transfer on the source and receiving river basins. The notice shall further indicate the procedure to be followed by anyone wishing to submit comments on the proposed water transfer.

(f) In determining whether a certificate may be issued for the transfer, the Commission shall specifically consider each of the following items and state in writing its findings of fact with regard to each item:

(1) The necessity, reasonableness, and beneficial effects of the amount of surface water proposed to be transferred and its proposed uses.
(2) The present and reasonably foreseeable future detrimental effects on the source river basin, including present and future effects on public, industrial, and agricultural water supply needs, wastewater assimilation, water quality, fish and wildlife habitat, hydroelectric power generation, navigation, and recreation. Local water supply plans that affect the source major river basin shall be used to evaluate the projected future municipal water needs in the source major river basin.
(2a) The cumulative effect on the source major river basin of any water transfer or consumptive water use that, at the time the Commission considers the application for a certificate is occurring, is authorized under this section, or is projected in any local water supply plan that has been submitted to the Department in accordance with G.S. 143-355(*l*).
(3) The detrimental effects on the receiving river basin, including effects on water quality, wastewater assimilation, fish and wildlife habitat, navigation, recreation, and flooding.
(4) Reasonable alternatives to the proposed transfer, including their probable costs, and environmental impacts.
(5) If applicable to the proposed project, the applicant's present and proposed use of impoundment storage capacity to store water during high-flow periods for use during low-flow periods and the applicant's right of withdrawal under G.S. 143-215.44 through G.S. 143-215.50.
(6) If the water to be withdrawn or transferred is stored in a multipurpose reservoir constructed by the United States Army Corps of Engineers, the purposes and water storage allocations established for the reservoir at the time the reservoir was authorized by the Congress of the United States.
(7) Any other facts and circumstances that are reasonably necessary to carry out the purposes of this Part.

(f1) An environmental assessment as defined by G.S. 113A-9(1) shall be prepared for any petition for a certificate under this section. The determination of whether an environmental impact statement shall also be required shall be made in accordance with the provisions of Article 1 of Chapter 113A of the General Statutes. The applicant who petitions the Commission for a certificate under this section shall pay the cost of special studies necessary to comply with Article 1 of Chapter 113A of the General Statutes.

(g) A certificate shall be granted for a water transfer if the applicant establishes and the Commission concludes by a preponderance of the evidence based upon the findings of fact made under subsection (f) of this section that: (i) the benefits of the proposed transfer outweigh the detriments of the proposed transfer, and (ii) the detriments have been or will be mitigated to a reasonable degree. The conditions necessary to ensure that the detriments are and continue to be mitigated to a reasonable degree shall be attached to the certificate in accordance with subsection (h) of this section.

(h) The Commission may grant the certificate in whole or in part, or deny the certificate. The Commission may also grant a certificate with any conditions attached that the Commission believes are necessary to achieve the purposes of this Part. The conditions may include mitigation measures proposed to minimize any detrimental effects of the proposed transfer and measures to protect the availability of water in the source river basin during a drought or other emergency. The certificate shall include a drought management plan that specifies how the transfer shall be managed to protect the source river basin during drought conditions. The certificate shall indicate the maximum amount of water that may be transferred. No person shall transfer an amount of water that exceeds the amount in the certificate.

(i) In cases where an applicant requests approval to increase a transfer that existed on July 1, 1993, the Commission shall have authority to approve or disapprove only the amount of the increase. If the Commission approves the increase, however, the certificate shall be issued for the amount of the existing transfer plus the requested increase. Certificates for transfers approved by the Commission under G.S. 162A-7 shall remain in effect as approved by the Commission and shall have the same effect as a certificate issued under this Part.

(j) In the case of water supply problems caused by drought, a pollution incident, temporary failure of a water plant, or any other temporary condition in which the public health requires a transfer of water, the Secretary of Environment and Natural Resources may grant approval for a temporary transfer. Prior to approving a temporary transfer, the Secretary shall consult with those parties listed in G.S. 143-215.22I(d)(3) that are likely to be affected by the proposed transfer. However, the Secretary shall not be required to satisfy the public notice requirements of this section or make written findings of fact and conclusions in approving a temporary transfer under this subsection. If the Secretary approves a temporary transfer under this subsection, the Secretary shall specify conditions to protect other water users. A temporary transfer shall not exceed six months in duration, but the approval may be renewed for a period of six months by the Secretary based on demonstrated need as set forth in this subsection.

(k) The substantive restrictions and conditions upon surface water transfers authorized in this section may be imposed pursuant to any federal law that permits the State to certify, restrict, or condition any new or continuing transfers or related activities licensed, relicensed, or otherwise authorized by the federal government.

(*l*) When any transfer for which a certificate was issued under this section equals eighty percent (80%) of the maximum amount authorized in the certificate, the applicant shall submit to the Department a detailed plan that

specifies how the applicant intends to address future foreseeable water needs. If the applicant is required to have a local water supply plan, then this plan shall be an amendment to the local water supply plan required by G.S. 143-355(*l*). When the transfer equals ninety percent (90%) of the maximum amount authorized in the certificate, the applicant shall begin implementation of the plan submitted to the Department.

(m) It is the public policy of the State to maintain, protect, and enhance water quality within North Carolina. Further, it is the public policy of the State that the cumulative impact of transfers from a source river basin shall not result in a violation of the antidegradation policy set out in 40 Code of Federal Regulations § 131.12 (1 July 1997 Edition) and the statewide antidegradation policy adopted pursuant thereto. (1993, c. 348, s. 1; 1997-443, ss. 11A.119(a), 15.48(c); 1997-524, s. 1; 1998-168, s. 4; 2001-474, s. 28.)

Editor's Note. — G.S.162A-7, referred to in subdivision (a)(3), was repealed by Session Laws 1993, c. 348, s. 6, effective January 1, 1994.

Legal Periodicals. — For legislative survey, see 21 Campbell L. Rev. 323 (1999).

CASE NOTES

Editor's Note. — *The cases cited below were decided under former G.S. 162A-7, dealing with prerequisites to acquisition of water, etc., by eminent domain.*

Procedures for eminent domain governing cities and counties apply to water and sewer authorities. Orange Water and Sewer Auth. v. Estate of Armstrong, 34 N.C. App. 162, 237 S.E.2d 486, cert. denied, 293 N.C. 593, 239 S.E.2d 265 (1977).

With additional requirement that a certificate of authorization be obtained before an action in eminent domain is commenced. Orange Water and Sewer Auth. v. Estate of Armstrong, 34 N.C. App. 162, 237 S.E.2d 486, cert. denied, 293 N.C. 593, 239 S.E.2d 265 (1977).

But water and sewer authority's right of eminent domain is not dormant before certification. Orange Water and Sewer Auth. v. Estate of Armstrong, 34 N.C. App. 162, 237 S.E.2d 486, cert. denied, 293 N.C. 593, 239 S.E.2d 265 (1977).

And Authority May Enter and Survey Prior to Instituting Proceedings. — A water and sewer authority, having the power of eminent domain possessed by cities, may enter lands for the purpose of making surveys prior to the institution of eminent domain proceedings. Orange Water and Sewer Auth. v. Estate of Armstrong, 34 N.C. App. 162, 237 S.E.2d 486, cert. denied, 293 N.C. 593, 239 S.E.2d 265 (1977).

Factors to Be Considered. — The legislature, in granting the Environmental Management Commission authority to issue certificates authorizing land and water rights acquisition, intended that the Commission consider carefully not only the development of water resources, but also the effect of that development on present beneficial users within the watershed. In re Environmental Mgt. Comm'n, 53 N.C. App. 135, 280 S.E.2d 520 (1981), aff'd, 80 N.C. App. 1, 341 S.E.2d 588 (1986).

Former G.S. 162A-7(c) required only that the Environmental Management Commission "specifically consider" the listed factors. It did not require the Environmental Management Commission to make findings regarding each factor. In re Environmental Mgt. Comm'n, 80 N.C. App. 1, 341 S.E.2d 588, cert. denied, 317 N.C. 334, 346 S.E.2d 139 (1986), endorsing the making of findings as a means of insuring that each factor is specifically considered.

The seventh listed factor in former G.S. 162A-7 was a "catch all" provision that allowed the Environmental Management Commission to consider all other factors as would, in the board's opinion, produce the maximum beneficial use of water for affected areas of the estate. In re Environmental Mgt. Comm'n, 80 N.C. App. 1, 341 S.E.2d 588, cert. denied, 317 N.C. 334, 346 S.E.2d 139 (1986).

Not Limited to Listed Factors. — While directing that the Environmental Management Commission shall specifically consider the listed factors, former G.S. 162A-7 contained no language limiting the Environmental Management Commission's consideration to those factors. Clearly, the Environmental Management Commission has some latitude and discretion as to the factors to consider in each situation and the weight to be given them in reaching a decision. The only limitation is that the Environmental Management Commission's consideration of any factor relate to the maximum beneficial use of the State's water resources. In

re Environmental Mgt. Comm'n, 80 N.C. App. 1, 341 S.E.2d 588, cert. denied, 317 N.C. 334, 346 S.E.2d 139 (1986).

Water quality is not only a permissible consideration for the Environmental Management Commission, but also one that is important if not essential to the responsible exercise of the police power. In re Environmental Mgt. Comm'n, 80 N.C. App. 1, 341 S.E.2d 588, cert. denied, 317 N.C. 334, 346 S.E.2d 139 (1986).

Local or Regional Factors. — The Environmental Management Commission is required to give paramount consideration to the statewide effect of the proposed project. However, this does not preclude consideration by the Environmental Management Commission of local or regional factors. On the contrary, the language of the statute assumes that some consideration will be given to local and regional concerns, but requires that the larger interest of the State be of "paramount" concern. In re Environmental Mgt. Comm'n, 80 N.C. App. 1, 341 S.E.2d 588, cert. denied, 317 N.C. 334, 346 S.E.2d 139 (1986).

Alternatives to Proposed Projects. — Former G.S. 162A-7 contemplated the consideration of one or more alternatives to the project for which the certificate of authority was sought. In re Environmental Mgt. Comm'n, 80 N.C. App. 1, 341 S.E.2d 588, cert. denied, 317 N.C. 334, 346 S.E.2d 139 (1986).

Proceedings Governed by Administrative Procedure Act. — The Environmental Management Commission's proceedings under former G.S. 162A-7 were governed by the Administrative Procedure Act, G.S. 150B-1 et seq. The evidentiary standards set forth therein apply equally to any findings made by the agency. In re Environmental Mgt. Comm'n, 80 N.C. App. 1, 341 S.E.2d 588, cert. denied, 317 N.C. 334, 346 S.E.2d 139 (1986).

§ 143-215.22J. Scientific Advisory Council on Water Resources and Coastal Fisheries Management established; membership, compensation.

(a) The Scientific Advisory Council on Water Resources and Coastal Fisheries Management (hereinafter "Council") is created in the Department of Environment and Natural Resources.

(b) The Council shall have eight members, including the Secretary of Environment and Natural Resources, who shall chair the Council, and the Dean of the College of Agriculture and Life Sciences of North Carolina State University. The members of the Council shall elect a vice-chair from among the Council membership. The Chair of the Council shall solicit three recommendations from the scientific community including private scientists representing industrial and environmental concerns, as well as the academic community for each of the six appointees and shall select members from among those recommendations. Members shall have the following qualifications:

(1) One member with expertise and training in water quality;
(2) One member with expertise and training in coastal or marine fisheries;
(3) One member with expertise and training in resource economics;
(4) One member with expertise and training in physical modeling;
(5) One member with expertise and training in wetlands; and
(6) One member with expertise and training in the social sciences.

The members shall be appointed for staggered two-year terms and may be reappointed for subsequent terms. Members shall serve at the pleasure of the Secretary.

(c) To the extent that funds are made available, members of the Council shall receive per diem and necessary travel and subsistence expenses in accordance with G.S. 138-5.

(d) A majority of the Council shall constitute a quorum for the transaction of its business.

(e) The Council may use funds allocated to it to employ an administrative staff person to assist the Council in carrying out its duties. The Secretary shall provide clerical and other support staff services needed by the Council.

(f) The Council shall meet quarterly, or more frequently at the request of the Chair or three members of the Council. (1995 (Reg. Sess., 1996), c. 633, s. 3(a); 1997-443, s. 11A.119(a); 2001-474, s. 29.)

§ 143-215.22K. Scientific Advisory Council on Water Resources and Coastal Fisheries Management; functions and responsibilities.

(a) The Council shall have the following responsibilities:

(1) Review a plan prepared by the Department concerning the statewide implementation of an interagency comprehensive coordinated water resources and coastal fisheries management programs.

(2) Discuss the limitations and problems associated with existing laws, regulations, programs, and services related to water resources and coastal fisheries.

(3) Evaluate trends and conditions of the State's water quality resources and coastal fisheries management.

(4) Oversee the development of a comprehensive monitoring program including:

a. Participating in the overall design of the plan relating to the collection and use of data;

b. Evaluating statewide and national water resource and coastal fisheries programs;

c. Coordinating funding sources for programs;

d. Evaluating and developing research to address water quality and fisheries issues; and

e. Reviewing procedures for awarding grants to local agencies providing services.

(5) Identify research and outreach needs and to commission studies to respond to those needs.

(6) Assist in developing and maintaining interagency training and technical assistance in the provision of water resource and coastal fisheries programs.

(b) The Secretary shall seek the advice of the Council on issues involving changes in water quality and fisheries management.

(c) The Council shall submit a written annual report not later than October 1 of each year, to the Secretary, the Governor, the Environmental Review Commission and the Joint Legislative Commission on Governmental Operations. The report shall address the progress in implementation of a coordinated water resources and coastal fisheries management program. The report shall include an accounting of funds expended and anticipated funding needs for full implementation of recommended programs. (1995 (Reg. Sess., 1996), c. 633, s. 3(a).)

Part 3. Dam Safety Law.

§ 143-215.23. Short title.

This Part shall be known and may be cited as the Dam Safety Law of 1967. (1967, c. 1068, s. 1.)

Legal Periodicals. — For article, "North Carolina Employment Law After Coman: Reaffirming Basic Rights in the Workplace," see 24 Wake Forest L. Rev. 905 (1989).

§ 143-215.24. Declaration of purpose.

It is the purpose of this Part to provide for the certification and inspection of dams in the interest of public health, safety, and welfare, in order to reduce the risk of failure of dams; to prevent injuries to persons, damage to downstream property and loss of reservoir storage; and to ensure maintenance of minimum stream flows of adequate quantity and quality below dams. (1967, c. 1068, s. 2; 1977, c. 878, s. 1; 1993, c. 394, s. 1.)

CASE NOTES

Applied in Wells v. Benson, 40 N.C. App. 704, 253 S.E.2d 602 (1979).

§ 143-215.25. Definitions.

As used in this Part, unless the context otherwise requires:

(1) "Dam" means a structure and appurtenant works erected to impound or divert water.

(2) "Minimum stream flow" or "minimum flow" means a stream flow of a quantity and quality sufficient in the judgment of the Department to meet and maintain stream classifications and water quality standards established by the Department under G.S. 143-214.1 and applicable to the waters affected by the project under consideration, and to maintain aquatic habitat in the length of the stream that is affected. (1967, c. 1068, s. 3; 1973, c. 1262, ss. 23, 38; 1977, c. 771, s. 4; c. 878, ss. 2, 4; 1983, c. 306; 1987, c. 827, ss. 154, 175; 1993, c. 394, s. 2.)

§ 143-215.25A. Exempt dams.

(a) Except as otherwise provided in this Part, this Part does not apply to any dam:

(1) Constructed by the United States Army Corps of Engineers, the Tennessee Valley Authority, or another agency of the United States government, when the agency designed or approved plans for the dam and supervised its construction.

(2) Constructed with financial assistance from the United States Soil Conservation Service, when that agency designed or approved plans for the dam and supervised its construction.

(3) Licensed by the Federal Energy Regulatory Commission, or for which a license application is pending with the Federal Energy Regulatory Commission.

(4) For use in connection with electric generating facilities under the jurisdiction of the North Carolina Utilities Commission, except that a dam operated by a small power producer, as defined in G.S. 62-3(27a), shall be subject to the provisions of this Part even though the dam is constructed pursuant to a certificate of public convenience and necessity issues by the North Carolina Utilities Commission.

(5) Under a single private ownership that provides protection only to land or other property under the same ownership and that does not pose a threat to human life or property below the dam.

(6) That is less than 15 feet in height or that has an impoundment capacity of less than 10 acre-feet, unless the Department determines that failure of the dam could result in loss of human life or significant damage to property below the dam.

(b) The exemption from this Part for a dam described in subdivisions (1) and (2) of subsection (a) of this section does not apply after the supervising federal agency relinquishes authority for the operation and maintenance of the dam to a local entity. (1993, c. 394, s. 3.)

§ 143-215.26. Construction of dams.

(a) No person shall begin the construction of any dam until at least 10 days after filing with the Department a statement concerning its height, impoundment capacity, purpose, location and other information required by the Department. A person who constructs a dam, including a dam that is otherwise exempt from this Part under subdivisions (4) or (5) of G.S. 143-215.25A(a), shall comply with the malaria control requirements of the Department. If on the basis of this information the Department is of the opinion that the proposed dam is not exempt from the provisions of this Part, it shall so notify the applicant, and construction shall not be commenced until a full application is filed by the applicant and approved as provided by G.S. 143-215.29. The Department may also require of applicants so notified the filing of any additional information it deems necessary, including, but not limited to, streamflow and rainfall data, maps, plans and specifications. Every applicant for approval of a dam subject to the provisions of this Part shall also file with the Department the certificate of an engineer legally qualified in this State. The certificate shall state that the person who files the certificate is responsible for the design of the dam and that the design is safe and adequate.

(b) The Department shall send a copy of each completed application to the State Health Director, the Wildlife Resources Commission, the Department of Transportation, and other State and local agencies it considers appropriate for review and comment. (1967, c. 1068, s. 4; 1973, c. 476, s. 128; c. 507, s. 5; c. 1262, s. 23; 1987, c. 827, s. 176; 1989, c. 727, s. 163; 1993, c. 394, s. 4; 1995, c. 509, s. 80.)

§ 143-215.27. Repair, alteration, or removal of dam.

(a) Before commencing the repair, alteration or removal of a dam, application shall be made for written approval by the Department, except as otherwise provided by this Part. The application shall state the name and address of the applicant, shall adequately detail the changes it proposes to effect and shall be accompanied by maps, plans and specifications setting forth such details and dimensions as the Department requires. The Department may waive any such requirements. The application shall give such other information concerning the dam and reservoir required by the Department, such information concerning the safety of any change as it may require, and shall state the proposed time of commencement and completion of the work. When an application has been completed it may be referred by the Department for agency review and report, as provided by subsection (b) of G.S. 143-215.26 in the case of original construction.

(b) When repairs are necessary to safeguard life and property they may be started immediately but the Department shall be notified forthwith of the proposed repairs and of the work under way, and they shall be made to conform to its orders. (1967, c. 1068, s. 5; 1979, c. 55, s. 1.)

CASE NOTES

Applied in Wells v. Benson, 40 N.C. App. 704, 253 S.E.2d 602 (1979).

§ 143-215.28. Action by Commission upon applications.

(a) Following receipt of agency comments the Commission shall approve, disapprove, or approve subject to conditions necessary to ensure safety and to satisfy minimum stream flow requirements, all applications made pursuant to this Part.

(b) A defective application shall not be rejected but notice of the defects shall be sent to the applicant by registered mail. If the applicant fails to file a perfected application within 30 days the original shall be canceled unless further time is allowed.

(c) If the Commission disapproves an application, one copy shall be returned with a statement of its objections. If an application is approved, the approval shall be attached thereto, and a copy returned by registered mail. Approval shall be granted under terms, conditions and limitations which the Commission deems necessary to safeguard life and property.

(d) Construction shall be commenced within one year after the date of approval of the application or such approval is void. The Commission upon written application and good cause shown may extend the time for commencing construction. Notice by registered mail shall be given the Commission at least 10 days before construction is commenced. (1967, c. 1068, s. 6; 1973, c. 1262, s. 23; 1987, c. 827, s. 154.)

CASE NOTES

Applied in Wells v. Benson, 40 N.C. App. 704, 253 S.E.2d 602 (1979).

Cited in State ex rel. Wallace v. Bone, 304 N.C. 591, 286 S.E.2d 79 (1982).

§ 143-215.28A. Application fees.

(a) In accordance with G.S. 143-215.3(a)(1a), the Commission may establish a fee schedule for processing applications for approvals of construction or removal of dams issued under this Part. In establishing the fee schedule, the Commission shall consider the administrative and personnel costs incurred by the Department for processing the applications and for related compliance activities. The total amount of fees collected in any fiscal year may not exceed one-third of the total personnel and administrative costs incurred by the Department for processing the applications and for related compliance activities in the prior fiscal year. An approval fee may not exceed the larger of two hundred dollars ($200.00) or two percent (2%) of the actual cost of construction or removal of the applicable dam. The provisions of G.S. 143-215.3(a)(1b) do not apply to these fees.

(b) The Dam Safety Account is established as a nonreverting account within the Department. Fees collected under this section shall be credited to the Account and shall be applied to the costs of administering this Part. (1989 (Reg. Sess., 1990), c. 976, s. 1; 1991 (Reg. Sess., 1992), c. 1039, s. 15; 1993, c. 394, s. 5.)

§ 143-215.29. Supervision by qualified engineers; reports and modification during work.

(a) Any project for which the Commission's approval is required under G.S. 143-215.26, 143-215.27, and 143-215.28, and any project undertaken pursuant to an order of the Commission issued pursuant to this section or G.S. 143-215.32 shall be designed and supervised by an engineer legally qualified in the State of North Carolina.

(b) During the construction, enlargement, repair, alteration or removal of a dam, the Commission may require such progress reports from the supervising engineer as it deems necessary.

(c) If during construction, reconstruction, repair, alteration or enlargement of any dam, the Commission finds the work is not being done in accordance with the provisions of the approval and the approved plans and specifications, it shall give written notice by registered mail or personal service to the person who received the approval and to the person in charge of construction at the dam. The notice shall state the particulars in which compliance has not been made, and shall order immediate compliance with the terms of the approval, and the approved plans and specifications. The Commission may order that no further construction work be undertaken until such compliance has been effected and approved by the Commission. A failure to comply with the approval and the approved plans and specifications shall render the approval revocable unless compliance is made after notice as provided in this section. (1967, c. 1068, s. 7; 1973, c. 1262, s. 23; 1977, c. 878, s. 5; 1987, c. 827, s. 154.)

CASE NOTES

Cited in State ex rel. Wallace v. Bone, 304 N.C. 591, 286 S.E.2d 79 (1982).

§ 143-215.30. Notice of completion; certification of final approval.

(a) Immediately upon completion, enlargement, repair, alteration or removal of a dam, notice of completion shall be given the Commission. As soon as possible thereafter supplementary drawings or descriptive matter showing or describing the dam as actually constructed shall be filed with the Department in such detail as the Commission may require.

(b) When an existing dam is enlarged, the supplementary drawings and descriptive matter need apply only to the new work.

(c) The completed work shall be inspected by the supervising engineers, and upon finding that the work has been done as required and that the dam is safe and satisfies minimum streamflow requirements, they shall file with the Department a certificate that the work has been completed in accordance with approved design, plans, specifications and other requirements. Unless the Commission has reason to believe that the dam is unsafe or is not in compliance with any applicable rule or law, the Commission shall grant final approval of the work in accordance with the certificate, subject to such terms as it deems necessary for the protection of life and property.

(d) Pending issuance of the Commission's final approval, the dam shall not be used except on written consent of the Commission, subject to conditions it may impose. (1967, c. 1068, s. 8; 1973, c. 1262, s. 23; 1987, c. 827, ss. 154, 177.)

§ 143-215.31. Supervision over maintenance and operation of dams.

(a) The Commission shall have jurisdiction and supervision over the maintenance and operation of dams to safeguard life and property and to satisfy minimum streamflow requirements. The Commission may adopt standards for the maintenance and operation of dams as may be necessary for the purposes of this Part. The Commission may vary the standards applicable to various dams, giving due consideration to the minimum flow requirements of the stream, the type and location of the structure, the hazards to which it may be exposed, and the peril of life and property in the event of failure of a dam to perform its function.

(b) The Department, consistent with rules adopted by the Commission, may impose any condition or requirement in orders and written approvals issued under this Part that is necessary to ensure that stream classifications, water quality standards, and aquatic habitat requirements are met and maintained, including conditions and requirements relating to the release or discharge of designated flows from dams, the location and design of water intakes and outlets, the amount and timing of the withdrawal of water from a reservoir, and the construction of submerged weirs or other devices intended to maintain minimum streamflows.

The Commission shall adopt rules that specify the minimum streamflow in the length of the stream affected.

(c) The minimum streamflow in the length of the stream affected by a dam that is operated by a small power producer, as defined in G.S. 62-3(27a), that diverts water from 4,000 feet or less of the natural streambed and where the water is returned to the same stream shall be:

(1) The minimum average flow for a period of seven consecutive days that would have an average occurrence of once in 10 years in the absence of the dam, or ten percent (10%) of the average annual flow of the stream in the absence of the dam, whichever is less, if prior to 1 January 1995 the small power producer was either licensed by the Federal Energy Regulatory Commission or held a certificate of public convenience and necessity issued by the North Carolina Utilities Commission.

(2) The minimum average flow for a period of seven consecutive days that would have an average occurrence of once in 10 years in the absence of the dam, or ten percent (10%) of the average annual flow of the stream in the absence of the dam, whichever is greater, if subdivision (1) of this subsection does not apply.

(3) To protect the habitat of the Cape Fear Shiner and other aquatic species, 28 cubic feet per second for any dam that diverts water from 2,500 feet or more of the natural streambed of any stream on which six or more dams operated by small power producers were located on 1 January 1995, notwithstanding subdivisions (1) and (2) of this subsection.

(d) Subsection (c) of this section establishes the policy of this State with respect to minimum streamflows in the length of the stream affected by a dam that is operated by a small power producer, as defined in G.S. 62-3(27a), that diverts water from 4,000 feet or less of the natural streambed and where the water is returned to the same stream, whether the dam is subject to or exempt from this Part. In its comments and recommendations to the Federal Energy Regulatory Commission regarding the minimum streamflow in the length of the stream affected by a dam that is operated by a small power producer, as defined in G.S. 62-3(27a), that diverts water from 4,000 feet or less of the natural streambed and where the water is returned to the same stream, the Commission and the Department shall not advocate or recommend a minimum streamflow that exceeds the minimum streamflow that would be required under subsection (c) of this section.

(e) The minimum streamflow in the length of the stream affected by a dam to which subsections (c) and (d) of this section do not apply shall be established as provided in subsection (b) of this section. Subsections (c) and (d) of this section do not apply if the length of the stream affected:

(1) Receives a discharge of waste from a treatment works for which a permit is required under Part 1 of this Article; or

(2) Includes any part of a river or stream segment that:

a. Is designated as a component of the State Natural and Scenic Rivers System by G.S. 113A-35.1 or G.S. 113A-35.2.

b. Is designated as a component of the national Wild and Scenic Rivers System by 16 U.S.C. § 1273 and 1274. (1967, c. 1068, s. 9; 1973, c. 1262, s. 23; 1987, c. 827, s. 154; 1993, c. 394, s. 6; c. 553, s. 80; 1995, c. 184, s. 1; c. 439, s. 1.)

CASE NOTES

§ 143-215.32. Inspection of dams.

(a) The Department may at any time inspect any dam, including a dam that is otherwise exempt from this Part, upon receipt of a written request of any affected person or agency, or upon a motion of the Environmental Management Commission. Within the limits of available funds the Department shall endeavor to provide for inspection of all dams at intervals of approximately five years.

(b) If the Department upon inspection finds that any dam is not sufficiently strong, is not maintained in good repair or operating condition, is dangerous to life or property, or does not satisfy minimum streamflow requirements, the Department shall present its findings to the Commission and the Commission may issue an order directing the owner or owners of the dam to make at his or her expense maintenance, alterations, repairs, reconstruction, change in construction or location, or removal as may be deemed necessary by the Commission within a time limited by the order, not less than 90 days from the date of issuance of each order, except in the case of extreme danger to the safety of life or property, as provided by subsection (c) of this section.

(c) If at any time the condition of any dam becomes so dangerous to the safety of life or property, in the opinion of the Environmental Management Commission, as not to permit sufficient time for issuance of an order in the manner provided by subsection (b) of this section, the Environmental Management Commission may immediately take such measures as may be essential to provide emergency protection to life and property, including the lowering of the level of a reservoir by releasing water impounded or the destruction in whole or in part of the dam or reservoir. The Environmental Management Commission may recover the costs of such measures from the owner or owners by appropriate legal action.

(d) An order issued under this Part shall be served on the owner of the dam as provided in G.S. 1A-1, Rule 4. (1967, c. 1068, s. 10; 1973, c. 1262, s. 23; 1977, c. 878, s. 3; 1987, c. 827, s. 154; 1993, c. 394, s. 7.)

CASE NOTES

Threat of Damage to Surrounding Property Owners Prerequisite to Requiring Repair of Dam. — The evils which the Dam Safety Law seeks to prevent are evils which ensue from dam failure. It is only in the event that the condition of a dam is such as to present a threat of physical damage to surrounding property owners that the Commission is empowered to require owners to repair the dam. Wells v. Benson, 40 N.C. App. 704, 253 S.E.2d 602 (1979).

The Dam Safety Law does not authorize the Environmental Management Commission to require the owners of a private washed-out dam to repair rather than remove the dam when the condition of the dam is not such as to present a threat of physical damage to surrounding property owners. Wells v. Benson, 40 N.C. App. 704, 253 S.E.2d 602 (1979).

§ 143-215.33. Administrative hearing.

A person to whom a decision or a dam safety order is issued under this Part may contest the decision or order by filing a contested case petition in accordance with G.S. 150B-23. A person to whom a decision is issued must file a contested case petition within 30 days after the decision is mailed to that person. A person to whom a dam safety order is issued must file a contested case petition within 10 days after the order is served. (1967, c. 1068, s. 11; 1973, c. 1262, s. 23; 1975, c. 842, s. 4; 1977, c. 878, s. 6; 1979, c. 55, s. 2; 1987, c. 827, s. 178; 1993, c. 394, s. 8.)

CASE NOTES

Threat of Damage to Surrounding Property Owners Prerequisite to Requiring Repair of Dam. — The evils which the Dam Safety Law seeks to prevent are evils which ensue from dam failure. It is only in the event that the condition of a dam is such as to present a threat of physical damage to surrounding property owners that the Commission is empowered to require owners to repair the dam. Wells v. Benson, 40 N.C. App. 704, 253 S.E.2d 602 (1979).

The Dam Safety Law does not authorize the Environmental Management Commission to require the owners of a private washed-out dam to repair rather than remove the dam when the condition of the dam is not such as to present a threat of physical damage to surrounding property owners. Wells v. Benson, 40 N.C. App. 704, 253 S.E.2d 602 (1979).

Petitioners Held Not Entitled to Notice of Commission's Actions and Orders. — Petitioners who were not landowners whose property would be endangered by a failure of a private dam were not entitled to notice of actions and orders of the Environmental Management Commission with respect to the dam. Wells v. Benson, 40 N.C. App. 704, 253 S.E.2d 602 (1979).

§ 143-215.34. Investigations by Department; employment of consultants.

The Department shall make such investigations and assemble such data as it deems necessary for a proper review and study of the design and construction of dams, reservoirs and appurtenances, and for such purposes may enter upon private property. The Department may employ or make such agreements with geologists, engineers, or other expert consultants and such assistants as it deems necessary to carry out the provisions of this Part. (1967, c. 1068, s. 12; 1973, c. 1262, s. 23; 1987, c. 827, s. 179.)

§ 143-215.35. Liability for damages.

No action shall be brought against the State of North Carolina, the Department, or the Commission or any agent of the Commission or any employee of the State or the Department for damages sustained through the partial or total failure of any dam or its maintenance by reason of any supervision or other action taken pursuant to or under this Part. Nothing in this Part shall relieve an owner or operator of a dam from the legal duties, obligations and liabilities arising from such ownership or operation. (1967, c. 1068, s. 13; 1973, c. 1262, s. 23; 1987, c. 827, s. 154.)

§ 143-215.36. Enforcement procedures.

(a) Criminal Penalties. — Any person who shall be adjudged to have violated this Article shall be guilty of a Class 3 misdemeanor and shall only be liable to a penalty of not less than one hundred dollars ($100.00) nor more than one thousand dollars ($1,000) for each violation. In addition, if any person is adjudged to have committed such violation willfully, the court may determine

that each day during which such violation continued constitutes a separate violation subject to the foregoing penalty.

(b) Civil Penalties. —

(1) The Secretary may assess a civil penalty of not less than one hundred dollars ($100.00) nor more than five hundred dollars ($500.00) against any person who violates any provisions of this Part, a rule implementing this Part, or an order issued under this Part.

(2) If any action or failure to act for which a penalty may be assessed under this Part is willful, the Secretary may assess a penalty not to exceed five hundred dollars ($500.00) per day for each day of violation.

(3) In determining the amount of the penalty, the Secretary shall consider the factors set out in G.S. 143B-282.1(b). The procedures set out in G.S. 143B-282.1 shall apply to civil penalty assessments that are presented to the Commission for final agency decision.

(4) The Secretary shall notify any person assessed a civil penalty of the assessment and the specific reasons therefor by registered or certified mail, or by any means authorized by G.S. 1A-1, Rule 4. Contested case petitions shall be filed in accordance with G.S. 150B-23 within 30 days of receipt of the notice of assessment.

(5) Requests for remission of civil penalties shall be filed with the Secretary. Remission requests shall not be considered unless made within 30 days of receipt of the notice of assessment. Remission requests must be accompanied by a waiver of the right to a contested case hearing pursuant to Chapter 150B and a stipulation of the facts on which the assessment was based. Consistent with the limitations in G.S. 143B-282.1(c) and G.S. 143-282.1(d), remission requests may be resolved by the Secretary and the violator. If the Secretary and the violator are unable to resolve the request, the Secretary shall deliver remission requests and his recommended action to the Committee on Civil Penalty Remissions of the Environmental Management Commission appointed pursuant to G.S. 143B-282.1(c).

(6) If any civil penalty has not been paid within 30 days after notice of assessment has been served on the violator, the Secretary shall request the Attorney General to institute a civil action in the Superior Court of any county in which the violator resides or has his or its principal place of business to recover the amount of the assessment, unless the violator contests the assessment as provided in subdivision (4) of this subsection. If any civil penalty has not been paid within 30 days after the final agency decision or court order has been served on the violator, the Secretary shall request the Attorney General to institute a civil action in the Superior Court of any county in which the violator resides or has his or its principal place of business to recover the amount of the assessment. A civil action shall be filed within three years of the date the final agency decision was served on the violator.

(7) The Secretary may delegate his powers and duties under this section to the Director of the Division of Land Resources of the Department.

(8) The clear proceeds of civil penalties assessed pursuant to this subsection shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2.

(c) Injunctive Relief. — Upon violation of any of the provisions of this Part, a rule implementing this Part, or an order issued under this Part, the Secretary may, either before or after the institution of proceedings for the collection of the penalty imposed by this Part for such violations, request the Attorney General to institute a civil action in the superior court of the county or counties where the violation occurred in the name of the State upon the

relation of the Department for injunctive relief to restrain the violation or require corrective action, and for such other or further relief in the premises as said court shall deem proper. Neither the institution of the action nor any of the proceedings thereon shall relieve any party to such proceedings from the penalty prescribed by this Part for any violation of the same. (1967, c. 1068, s. 14; 1973, c. 1262, s. 23; 1975, c. 842, s. 3; 1977, c. 771, s. 4; 1987, c. 827, ss. 154, 180; 1989 (Reg. Sess., 1990), c. 1036, s. 5; 1991, c. 342, ss. 10, 11; 1993, c. 394, s. 9; c. 539, s. 1021; 1994, Ex. Sess., c. 24, s. 14(c); 1998-215, s. 65.)

§ 143-215.37. Rights of investigation, entry, access, and inspection.

The Commission shall have the right to direct the conduct of such investigations as it may reasonably deem necessary to carry out its duties prescribed in this Part, and the Department shall have the right to conduct such investigations, and for this purpose the employees of the Department and agents of the Commission have the right to enter at reasonable times on any property, public or private, for the purpose of investigating the condition, construction, or operation of any dam or associated equipment facility or property, and to require written statements or the filing of reports under oath, with respect to pertinent questions relating to the construction or operation of any dam: Provided, that no person shall be required to disclose any secret formula, processes or methods used in any manufacturing operation or any confidential information concerning business activities carried on by him or under his supervision. No person shall refuse entry or access to any authorized representative of the Commission or Department who requests entry for purposes of inspection, and who presents appropriate credentials, nor shall any person obstruct, hamper or interfere with any such representative while in the process of carrying out his official duties. (1967, c. 1068, s. 15; 1973, c. 1262, s. 23.)

Part 4. Federal Water Resources Development Projects.

§ 143-215.38. Short title.

This Part shall be known as and may be cited as the Federal Water Resources Development Law of 1969. (1969, cc. 724, 968.)

OPINIONS OF ATTORNEY GENERAL

As to authority of state, counties, municipalities and local government units to contract with the Secretary of the Army for water resources projects, see opinion of Attorney General to Major General R.H. Free, Division Engineer, U.S. Army Corps of Engineers, 41 N.C.A.G. 522 (1971).

§ 143-215.39. Public policy.

It is hereby declared the public policy of the State of North Carolina to encourage development of such river and harbor, flood control and other similar civil works projects as will accrue to the general or special benefit of any county or municipality of North Carolina or to any region of the State. To this end, it is also hereby declared that within the meaning of the North Carolina Constitution expenditures for such projects and obligations incurred for such projects are for public purposes, that county and municipal and other local government expenditures and obligations incurred therefor are necessary expenses, and that county expenditures therefor are for special purposes for

which the special approval of the General Assembly is hereby given. (1969, cc. 724, 968.)

Editor's Note. — The reference to the Constitution in this section is to the Constitution adopted in 1868, as amended.

CASE NOTES

Cited in United States v. 30.60 Acres of Land, 535 F. Supp. 33 (E.D.N.C. 1981).

§ 143-215.40. Resolutions and ordinances assuring local cooperation.

(a) The boards of commissioners of the several counties, in behalf of their respective counties, the governing bodies of the several municipalities, in behalf of their respective municipalities, the governing bodies of any other local government units, in behalf of their units, and the North Carolina Environmental Management Commission, in behalf of the State of North Carolina, subject to the approval of the Governor, are hereby authorized to adopt such resolutions or ordinances as may be required giving assurances to any appropriate agency of the United States government for the fulfillment of the required items of local cooperation as expressed in acts of Congress or congressional documents, as conditions precedent to the accomplishment of river and harbor, flood control or other such civil works projects, when it shall appear, and is determined by such board or governing body that any such project will accrue to the general or special benefit of such county or municipality or to a region of the State. In each case where the subject of such local cooperation requirements comes before a board of county commissioners or the governing body of any municipality or other local unit a copy of its final action, whether it be favorable or unfavorable, shall be sent to the Secretary of Environment and Natural Resources for the information of the Governor. Prior to taking any action under this section, the Governor may consult with the Advisory Budget Commission.

(b) Within the meaning of this Part, a "local government unit" means any local subdivision or unit of government or local public corporate entity (other than a county or municipality), including any manner of special district or public authority. (1969, cc. 724, 968; 1973, c. 1262, s. 23; 1977, c. 771, s. 4; 1983, c. 717, s. 69; 1985 (Reg. Sess., 1986), c. 955, ss. 91, 92; 1989, c. 727, s. 218(108); 1997-443, s. 11A.119(a).)

§ 143-215.41. Items of cooperation to which localities and the State may bind themselves.

Such resolutions and ordinances may irrevocably bind such county, municipality, other local unit, or the State of North Carolina, acting through the Commission, to the following when included as requirements of local cooperation for a federal water resources development project:

(1) To provide, without cost to the United States, all lands, easements, and rights-of-way required for construction and subsequent maintenance of the project and for aids to navigation, if required, upon the request of the Chief of Engineers, or other official to be required in the general public interest for initial and subsequent disposal of spoil, and also necessary retaining dikes, bulkheads, and embankments therefor, or the costs of such retaining works;

(2) To hold and save the United States free from damages due to the construction works and subsequent maintenance of the project;
(3) To provide firm assurances that riverside terminal and transfer facilities will be constructed at the upper limit of the modified project to permit transfer of commodities from or to plants and barges;
(4) To provide and maintain, without cost to the United States, depths in berthing areas and local access channels serving the terminals commensurate with depths provided in related project areas;
(5) To accomplish, without cost to the United States, such alterations, if any, as required in sewer, water supply, drainage, electrical power lines, and other utility facilities, as well as their maintenance;
(6) To provide, without cost to the United States, all lands, easements, rights-of-way, utility relocations and alterations, and, with the concurrence and under the direction of the Board of Transportation, highway or highway bridge construction and alterations necessary for project construction;
(7) To adjust all claims concerning water rights;
(8) To maintain and operate the project after completion, without cost to the United States, in accordance with regulations prescribed by the Secretary of the Army or other responsible federal official, board, or agency;
(9) To provide a cash contribution for project costs assigned to project features other than flood control;
(10) To prevent future encroachment which might interfere with proper functioning of the project for flood control;
(11) To provide or satisfy any other items or conditions of local cooperation as stipulated in the congressional or other federal document covering the particular project involved.

This section shall not be interpreted as limiting but as descriptive of the items of local cooperation, the accomplishment of which counties, municipalities and the State are herein authorized to irrevocably bind themselves; it being intended to authorize counties, municipalities and the Commission in behalf of the State to comply fully and completely with all of the items of local cooperation as contemplated by Congress and as stipulated in the congressional acts or documents concerned, or project reports by the Army Chief of Engineers, the Administrator of the Soil Conservation Service, the Board of Directors of the Tennessee Valley Authority, or other responsible federal official, board or agency. (1969, cc. 724, 968; 1973, c. 507, s. 5; c. 1262, s. 23; c. 1446, s. 14; 1987, c. 827, s. 154.)

§ 143-215.42. Acquisition of lands.

(a) For the purpose of complying with the terms of local cooperation as specified in this Part, and as stipulated in the congressional document covering the particular project involved, any county, municipality, other local government unit or the State of North Carolina, acting on behalf of the Commission, may acquire the necessary lands, or interest in lands, by lease, purchase, gift or condemnation. A municipality, county or other local government unit may acquire such lands by any of the aforesaid means outside as well as inside its territorial boundaries, if the local governing body finds that substantial benefits will accrue to property inside such territorial boundaries as a result of such acquisition.

(b) The power of condemnation herein granted to counties, municipalities and other local government units may be exercised only after:
(1) The municipality, county or other local unit makes application to the Commission, identifying the land sought to be condemned and stating the purposes for which said land is needed; and

(2) The Commission finds that the land is sought to be acquired for a proper purpose within the intent of this Part. The findings of the Commission will be conclusive in the absence of fraud, notwithstanding any other provision of law.

(c) The Department shall certify copies of the Commission's findings to the applicant municipality, county, or other local unit, and to the clerk of superior court of the county or counties wherein any of the land sought to be condemned lies for recordation in the special proceedings thereof.

(d) For purposes of this section:

(1) The term "interest in land" means any land, right-of-way, rights of access, privilege, easement, or other interest in or relating to land. Said "interest in land" does not include an interest in land which is held or used in whole or in part for a public water supply, unless such "interest in land" is not necessary or essential for such uses or purposes.

(2) A "description" of land shall be sufficient if the boundaries of the land are described in such a way as to convey an intelligent understanding of the location of the land. In the discretion of the applicant, boundaries may be described by any of the following methods or by any combination thereof: by reference to a map; by metes and bounds; by general description referring to natural boundaries, or to boundaries of existing political subdivisions or municipalities, or to boundaries of particular tracts or parcels of land.

(e) The procedure in all condemnation proceedings pursuant to this section shall conform as nearly as possible to the procedure provided in Article 3 of Chapter 40A of the General Statutes.

(f) Interests in land acquired pursuant to this section may be used in such manner and for such purpose as the condemning authority deems best. If the local government unit so determines, such lands may be sold, leased, or rented, subject to the prior approval of the Commission. The State may sell, lease or rent any lands acquired by it, and if the Commission is participating with any local government unit or units in a water resources project under this Article, may convey such lands or interests to the unit or units as a part of its participation therein.

(g) This section is intended to confer supplementary and additional authority, and not to confer exclusive authority nor to impose cumulative requirements. If a municipality, county or other local government unit is authorized to acquire lands or interests in lands by some other law (such as by General Statutes Chapter 139, 153A, 160A, or 162A) as well as by this section, compliance with the requirements of this section or the requirements of such other law will be sufficient.

(h) This section shall not authorize acquisition by condemnation of interests in land within the boundaries of any project to be constructed by the Tennessee Valley Authority, its agents or subdivision or any project licensed by the Federal Power Commission or interests in land owned or held for use by a public utility, as defined in G.S. 62-3. No commission created pursuant to G.S. 158-8 shall condemn or acquire any property to be used by the Tennessee Valley Authority, its agents or subdivision. (1969, cc. 724, 968; 1973, c. 621, ss. 2-4; c. 1262, s. 23; 1977, c. 771, s. 4; 1987, c. 827, ss. 154, 181.)

§ 143-215.43. Additional powers.

For the purpose of complying with requirements of local cooperation as described in this Part, county and municipal governing bodies shall also have the power to accept funds, and to use general tax funds for necessary project purposes, including project maintenance. (1969, cc. 724, 968.)

Part 5. Right of Withdrawal of Impounded Water.

§ 143-215.44. Right of withdrawal.

(a) A person who lawfully impounds water for the purpose of withdrawal shall have a right of withdrawal of excess volume of water attributable to the impoundment. Within the meaning of this subsection, the word "purpose" shall include one of several purposes in a multiple purpose impoundment.

(b) A "right of withdrawal," within the meaning of this Part, is an interest which establishes a right to withdraw an excess volume of water superior to other interests in the water.

(c) "Excess volume of water," within the meaning of this Part, is that volume which may be withdrawn from an impoundment or from a watercourse below the impoundment without foreseeably reducing the rate of flow of a watercourse below that which would obtain in that watercourse if the impoundment did not exist.

(d) "Impound," within the meaning of this Part, shall include but is not limited to financial contributions or the assurance of financial contributions in the construction or operation of an impoundment.

(e) Repealed by Session Laws 1987, c. 827, s. 182. (1971, c. 111, s. 1; 1987, c. 827, s. 182.)

§ 143-215.45. Transfer of right of withdrawal.

A person with a right of withdrawal may assign or transfer it in whole or in part to another, subject to those rights of reassignment or transfer by the State specified in G.S. 143-354(a)(11). A person who has a right of withdrawal of excess volume of water by virtue of an assignment or transfer has an interest in water superior to other interests only to the extent that his withdrawal is in accordance with the terms of the assignment or transfer. (1971, c. 111, s. 1; 1991, c. 342, s. 12.)

§ 143-215.46. Exercise of right of withdrawal.

A person may exercise right of withdrawal by withdrawing directly from the impoundment, from a watercourse below the impoundment, or from both; provided, however, that the exercise of the right of withdrawal shall not require any person other than the holder of said right to incur additional capital expenditures in order to enable the holder of said right to withdraw any excess volume of water from a watercourse below the impoundment. (1971, c. 111, s. 1.)

§ 143-215.47. Effect of right of withdrawal on discharges of water.

Neither a right of withdrawal nor any assignment or transfer of said right may be asserted in defense against a claim that the method of releasing or discharging water is improper, that the quality of water has been impaired by the withdrawal or release of the water or by its return to the stream following its use, that water has been diverted without authority from the basin from which it was withdrawn, or that water resulting from augmentation of the natural streamflow to control water quality has been withdrawn. (1971, c. 111, s. 1.)

§ 143-215.48. Determining streamflows.

(a) In litigation in which the rate of flow of water that would exist in the absence of an impoundment is in issue, that rate shall be deemed to be the minimum average flow for a period of seven consecutive days that have an average recurrence of once in 10 years unless a party to the litigation introduces a calculation that more closely approximates the actual rate. A determination made by the Commission (i) of either that minimum average flow, or (ii) that adopts a calculation that more closely approximates the actual rate of flow, and introduced by one of the parties to the litigation, shall be prima facie correct.

(b) The Commission is authorized to make the determinations specified in subsection (a) of this section and to require the submission of such reports and such inspections as are necessary to permit those determinations. (1971, c. 111, s. 1; 1973, c. 1262, s. 23; 1987, c. 827, s. 154.)

§ 143-215.49. Right of withdrawal for use in community water supply.

A person operating a municipal, county, community or other local water distribution or supply system and having a right of withdrawal may assert that right when its withdrawal is for use in any such water system as well as in other circumstances. (1971, c. 111, s. 1.)

§ 143-215.50. Interpretation with other statutes.

Whether rights of withdrawal shall have effect in a capacity use area declared by the Commission under the Water Use Act of 1967 shall be in the discretion of the Commission. This Part shall be subject to the provisions of the Water and Air Resources Act, and the Dam Safety Law of 1967. (1971, c. 111, s. 1; 1973, c. 1262, s. 23; 1987, c. 827, s. 154.)

Part 6. Floodplain Regulation.

§ 143-215.51. Purposes.

The purposes of this Part are to:

(1) Minimize the extent of floods by preventing obstructions that inhibit water flow and increase flood height and damage.

(2) Prevent and minimize loss of life, injuries, property damage, and other losses in flood hazard areas.

(3) Promote the public health, safety, and welfare of citizens of North Carolina in flood hazard areas. (1971, c. 1167, s. 3; 1973, c. 621, s. 5; 2000-150, s. 1.)

Legal Periodicals. — For survey of 1983 developments in property law, see 62 N.C.L. Rev. 1346 (1984).

§ 143-215.52. Definitions.

(a) As used in this Part:

(1) "Artificial obstruction" means any obstruction to the flow of water in a stream that is not a natural obstruction, including any that, while not a significant obstruction in itself, is capable of accumulating debris and thereby reducing the flood-carrying capacity of the stream.

(1a) "Base flood" or "100-year flood" means a flood that has a one percent (1%) chance of being equaled or exceeded in any given year. The term "base flood" is used in the National Flood Insurance Program to indicate the minimum level of flooding to be addressed by a community in its floodplain management regulations.

(1b) "Base floodplain" or "100-year floodplain" means that area subject to a one percent (1%) or greater chance of flooding in any given year, as shown on the current floodplain maps prepared pursuant to the National Flood Insurance Program or approved by the Department.

(1c) "Department" means the Department of Crime Control and Public Safety.

(1d) "Flood hazard area" means the area designated by a local government, pursuant to this Part, as an area where development must be regulated to prevent damage from flooding. The flood hazard area must include and may exceed the base floodplain.

(2) Repealed by Session Laws 2000, c. 150, s. 1, effective August 2, 2000.

(3) "Local government" means any county or city, as defined in G.S. 160A-1.

(3a) "Lowest floor", when used in reference to a structure, means the lowest enclosed area, including a basement, of the structure. An unfinished or flood resistant enclosed area, other than a basement, that is usable solely for parking vehicles, building access, or storage is not a lowest floor.

(4) "Natural obstruction" includes any rock, tree, gravel, or other natural matter that is an obstruction and has been located within the 100-year floodplain by a nonhuman cause.

(4b) "Secretary" means the Secretary of Crime Control and Public Safety.

(5) "Stream" means a watercourse that collects surface runoff from an area of one square mile or greater.

(6) "Structure" means a walled or roofed building, including a mobile home and a gas or liquid storage tank.

(b) As used in this Part, the terms "artificial obstruction" and "structure" do not include any of the following:

(1) An electric generation, distribution, or transmission facility.

(2) A gas pipeline or gas transmission or distribution facility, including a compressor station or related facility.

(3) A water treatment or distribution facility, including a pump station.

(4) A wastewater collection or treatment facility, including a lift station.

(5) Processing equipment used in connection with a mining operation.

(1971, c. 1167, s. 3; 2000-150, s. 1.)

§ 143-215.53: Repealed by Session Laws 2000-150, s. 1, effective August 2, 2000.

§ 143-215.54. Regulation of flood hazard areas; prohibited uses.

(a) A local government may adopt ordinances to regulate uses in flood hazard areas and grant permits for the use of flood hazard areas that are consistent with the requirements of this Part.

(b) The following uses may be made of flood hazard areas without a permit issued under this Part, provided that these uses comply with local land-use ordinances and any other applicable laws or regulations:

(1) General farming, pasture, outdoor plant nurseries, horticulture, forestry, mining, wildlife sanctuary, game farm, and other similar agricultural, wildlife and related uses;

(2) Ground level loading areas, parking areas, rotary aircraft ports and other similar ground level area uses;
(3) Lawns, gardens, play areas and other similar uses;
(4) Golf courses, tennis courts, driving ranges, archery ranges, picnic grounds, parks, hiking or horseback riding trails, open space and other similar private and public recreational uses.
(5) Land application of waste at agronomic rates consistent with a permit issued under Part 1 or Part 1A of Article 21 of Chapter 143 of the General Statutes or an approved animal waste management plan.
(6) Land application of septage consistent with a permit issued under G.S. 130A-291.1.

(c) New solid waste disposal facilities, hazardous waste management facilities, salvage yards, and chemical storage facilities are prohibited in the 100-year floodplain except as authorized under G.S. 143-215.54A(b). (1971, c. 1167, s. 3; 1973, c. 621, s. 8; 1979, c. 413, ss. 1, 2; 2000-150, s. 1.)

§ 143-215.54A. Minimum standards for ordinances; variances for prohibited uses.

(a) A flood hazard prevention ordinance adopted by a county or city pursuant to this Part shall, at a minimum:
(1) Meet the requirements for participation in the National Flood Insurance Program and of this section.
(2) Prohibit new solid waste disposal facilities, hazardous waste management facilities, salvage yards, and chemical storage facilities in the 100-year floodplain except as authorized under subsection (b) of this section.
(3) Provide that a structure or tank for chemical or fuel storage incidental to a use that is allowed under this section or to the operation of a water treatment plant or wastewater treatment facility may be located in a 100-year floodplain only if the structure or tank is either elevated above base flood elevation or designed to be watertight with walls substantially impermeable to the passage of water and with structural components capable of resisting hydrostatic and hydrodynamic loads and the effects of buoyancy.

(b) A flood hazard prevention ordinance may include a procedure for granting variances for uses prohibited under G.S. 143-215.54(c). A county or city shall notify the Secretary of its intention to grant a variance at least 30 days prior to granting the variance. A county or city may grant a variance upon finding that all of the following apply:
(1) The use serves a critical need in the community.
(2) No feasible location exists for the location of the use outside the 100-year floodplain.
(3) The lowest floor of any structure is elevated above the base flood elevation or is designed to be watertight with walls substantially impermeable to the passage of water and with structural components capable of resisting hydrostatic and hydrodynamic loads and the effects of buoyancy.
(4) The use complies with all other applicable laws and regulations. (2000-150, s. 1.)

§ 143-215.55. Acquisition of existing structures.

A local government may acquire, by purchase, exchange, or condemnation an existing structure located in a flood hazard area in the area regulated by the local government if the local government determines that the acquisition is necessary to prevent damage from flooding. The procedure in all condemnation

proceedings pursuant to this section shall conform as nearly as possible to the procedure provided in Article 3 of Chapter 40A of the General Statutes. (1971, c. 1167, s. 3; 1987, c. 827, s. 183; 2000-150, s. 1.)

§ 143-215.56. Delineation of flood hazard areas and 100-year floodplains; powers of Department; powers of local governments and of the Department.

(a) For the purpose of delineating a flood hazard area and evaluating the possibility of flood damages, a local government may:

(1) Request technical assistance from the competent State and federal agencies, including the Army Corps of Engineers, the Natural Resources Conservation Service, the Tennessee Valley Authority, the Federal Emergency Management Agency, the North Carolina Department of Crime Control and Public Safety, the North Carolina Geodetic Survey, the North Carolina Geological Survey, and the U.S. Geological Survey, or successor agencies.

(2) Utilize the reports and data supplied by federal and State agencies as the basis for the exercise by local ordinance or resolution of the powers and responsibilities conferred on responsible local governments by this Part.

(b) The Department shall provide advice and assistance to any local government having responsibilities under this Part. In exercising this function the Department may furnish manuals, suggested standards, plans, and other technical data; conduct training programs; give advice and assistance with respect to delineation of flood hazard areas and the development of appropriate ordinances; and provide any other advice and assistance that the Department deems appropriate. The Department shall send a copy of every rule adopted to implement this Part to the governing body of each local government in the State.

(c) A local government may delineate any flood hazard area subject to its regulation by showing it on a map or drawing, by a written description, or any combination thereof, to be designated appropriately and filed permanently with the clerk of superior court and with the register of deeds in the county where the land lies. A local government may also delineate a flood hazard area by reference to a map prepared pursuant to the National Flood Insurance Program. Alterations in the lines delineated shall be indicated by appropriate entries upon or addition to the appropriate map, drawing, or description. Entries or additions shall be made by or under the direction of the clerk of superior court. Photographic, typed or other copies of the map, drawing, or description, certified by the clerk of superior court, shall be admitted in evidence in all courts and shall have the same force and effect as would the original map or description. A local government may provide for the redrawing of any map. A redrawn map shall supersede for all purposes the earlier map or maps that it is designated to replace upon the filing and approval thereof as designated and provided above.

(d) The Department may prepare a floodplain map that identifies the 100-year floodplain and base flood elevations for an area for the purposes of this Part if all of the following conditions apply:

(1) The 100-year floodplain and base flood elevations for the area are not identified on a floodplain map prepared pursuant to the National Flood Insurance Program within the previous five years.

(2) The Department determines that the 100-year floodplain and the base flood elevations for the area need to be identified and the use of the area regulated in accordance with the requirements of this Part in order to prevent damage from flooding.

(3) The Department prepares the floodplain map in accordance with the federal standards required for maps to be accepted for use in administering the National Flood Insurance Program.

(e) Prior to preparing a floodplain map pursuant to subsection (d) of this section, the Department shall advise each local government whose jurisdiction includes a portion of the area to be mapped.

(f) Upon completing a floodplain map pursuant to subsection (d) of this section, the Department shall both:

(1) Provide copies of the floodplain map to every local government whose jurisdiction includes a portion of the 100-year floodplain identified on the floodplain map.

(2) Submit the floodplain map to the Federal Emergency Management Agency for approval for use in administering the National Flood Insurance Program.

(g) Upon approval of a floodplain map prepared pursuant to subsection (d) of this section by the Federal Emergency Management Agency for use in administering the National Flood Insurance Program, it shall be the responsibility of each local government whose jurisdiction includes a portion of the 100-year floodplain identified in the floodplain map to incorporate the revised map into its floodplain ordinance. (1971, c. 1167, s. 3; 1973, c. 621, ss. 6, 7; c. 1262, s. 23; 1977, c. 374, s. 2; c. 771, s. 4; 1987, c. 827, ss. 154, 184; 2000-150, s. 1; 2002-165, s. 1.6.)

Effect of Amendments. — Session Laws 2002-165, s. 1.6, effective October 23, 2002, substituted "Natural Resources Conservation Service" for "Natural Resource Conservation Service" in subdivision (a)(1).

§ 143-215.57. Procedures in issuing permits.

(a) A local government may establish application forms and require maps, plans, and other information necessary for the issuance of permits in a manner consonant with the objectives of this Part. For this purpose a local government may take into account anticipated development in the foreseeable future that may be adversely affected by the obstruction, as well as existing development. They shall consider the effects of a proposed artificial obstruction in a stream in creating danger to life and property by:

(1) Water that may be backed up or diverted by the obstruction.

(2) The danger that the obstruction will be swept downstream to the injury of others.

(3) The injury or damage at the site of the obstruction itself.

(b) In prescribing standards and requirements for the issuance of permits under this Part and in issuing permits, local governments shall proceed as in the case of an ordinance for the better government of the county or city as the case may be. A city may exercise the powers granted in this Part not only within its corporate boundaries but also within the area of its extraterritorial zoning jurisdiction. A county may exercise the powers granted in this Part at any place within the county that is outside the zoning jurisdiction of a city in the county. If a city does not exercise the powers granted in this Part in the city's extraterritorial zoning jurisdiction, the county may exercise the powers granted in this Part in the city's extraterritorial zoning jurisdiction. The county may regulate territory within the zoning jurisdiction of any city whose governing body, by resolution, agrees to the regulation. The governing body of a city may, upon one year's written notice, withdraw its approval of the county regulations, and those regulations shall have no further effect within the city's jurisdiction.

(c) The local governing body is hereby empowered to adopt regulations it may deem necessary concerning the form, time, and manner of submission of

applications for permits under this Part. These regulations may provide for the issuance of permits under this Part by the local governing body or by an agency designated by the local governing body, as prescribed by the governing body. Every final decision granting or denying a permit under this Part shall be subject to review by the superior court of the county, with the right of jury trial at the election of the party seeking review. The time and manner of election of a jury trial shall be governed by G.S. 1A-1, Rule 38(b) of the Rules of Civil Procedure. Pending the final disposition of an appeal, no action shall be taken that would be unlawful in the absence of a permit issued under this Part. (1971, c. 1167, s. 3; 2000-150, s. 1.)

§ 143-215.58. Violations and penalties.

(a) Any willful violation of this Part or of any ordinance adopted (or of the provisions of any permit issued) under the authority of this Part shall constitute a Class 1 misdemeanor.

(a1) A local government may use all of the remedies available for the enforcement of ordinances under Chapters 153A and 160A of the General Statutes to enforce an ordinance adopted pursuant to this Part.

(b) Failure to remove any artificial obstruction or enlargement or replacement thereof, that violates this Part or any ordinance adopted (or the provision of any permit issued) under the authority of this Part, shall constitute a separate violation of this Part for each day that the failure continues after written notice from the county board of commissioners or governing body of a city.

(c) In addition to or in lieu of other remedies, the county board of commissioners or governing body of a city may institute any appropriate action or proceeding to restrain or prevent any violation of this Part or of any ordinance adopted (or of the provisions of any permit issued) under the authority of this Part, or to require any person, firm or corporation that has committed a violation to remove a violating obstruction or restore the conditions existing before the placement of the obstruction. (1971, c. 1167, s. 3; 1993, c. 539, s. 1022; 1994, Ex. Sess., c. 24, s. 14(c); 2000-150, s. 1.)

§ 143-215.59. Other approvals required.

(a) The granting of a permit under the provisions of this Part shall in no way affect any other type of approval required by any other statute or ordinance of the State or any political subdivision of the State, or of the United States, but shall be construed as an added requirement.

(b) No permit for the construction of any structure to be located within a flood hazard area shall be granted by a political subdivision unless the applicant has first obtained the permit required by any local ordinance adopted pursuant to this Part. (1971, c. 1167, s. 3; 2000-150, s. 1.)

§ 143-215.60. Liability for damages.

No action for damages sustained because of injury or property damage caused by a structure or obstruction for which a permit has been granted under this Part shall be brought against the State or any political subdivision of the State, or their employees or agents. (1971, c. 1167, s. 3; 2000-150, s. 1.)

§ 143-215.61. Floodplain management.

The provisions of this Part shall not preclude the imposition by responsible local governments of land use controls and other regulations in the interest of floodplain management for the 100-year floodplain. (1971, c. 1167, s. 3; 2000-150, s. 1.)

Part 6A. Hurricane Flood Protection and Beach Erosion Control Project Revolving Fund.

§ 143-215.62. Revolving fund established; conditions and procedures.

(a) There is established under the control and direction of the Department a Hurricane Flood Protection and Beach Erosion Control Project Revolving Fund, to consist of any moneys that may be appropriated for use through the fund by the General Assembly or that may be made available to it from any other source for the purpose of financing the local portion of the nonfederal share of the cost of hurricane flood protection and beach erosion control projects. The Department shall, when funds are available, and in accordance with priorities established by the Commission, make advances from the fund to any county or municipality for:

(1) Advance planning and engineering work necessary or desirable in order to promote the development, construction, or preservation of hurricane flood protection and beach erosion works or projects;

(2) Construction of hurricane flood protection and beach erosion control works or projects, or other related costs which are a responsibility of local government, including costs associated with construction, such as the acquisition of land or rights-of-way or the relocation of public roads and utilities;

(3) Maintenance and nourishment of the constructed works or project.

Such advances shall be subject to repayment by the recipient to the Department from the proceeds of bonds or other obligations for the beach erosion control and hurricane flood protection works or projects, or from other funds available to the recipient, including grants.

(b) Prior to making any advance to a county or municipal government the Commission shall advise the county or municipal government:

(1) Its opinion as to whether or not the projected works or project would further beach erosion control or provide protection to life or property from floodwaters resulting from hurricanes;

(2) Its opinion as to whether or not there is a reasonable prospect of federal aid in the financing of the projected works or project and whether or not the advance will exceed the local portion of the nonfederal share of the cost of the works or project to be financed by the county or municipality making the application;

(3) Its opinion as to whether or not the anticipated financial outlays in connection with the projected works or project for the county or municipality making the application would constitute an unreasonable burden on the citizens of the county or municipality.

The Commission shall authorize no advance to a county or municipal government without first receiving satisfactory assurances from such government that the projected works or project shall be undertaken and the funds advanced repaid as provided herein.

(c) Repayment of any advance may be in equal installments or in a lump sum, but the term for such repayment shall not exceed a term of 10 years. All moneys received from repayments on advances shall be paid into the revolving fund and shall be used for the purposes set forth in this section.

(d) Repealed by Session Laws 1987, c. 827, s. 185. (1971, c. 1159, s. 1; 1973, c. 1262, s. 23; 1977, c. 771, s. 4; 1987, c. 827, ss. 154, 185.)

Part 7. Water and Air Quality Reporting.

§ 143-215.63. Short title.

This Part shall be known and may be cited as the Water and Air Quality Reporting Act of 1971. (1971, c. 1167, s. 9.)

§ 143-215.64. Purpose.

The purpose of this Article is to require all persons who are subject to the provisions of G.S. 143-215.1, 143-215.108, or 143-215.109 to file reports with the Commission covering the discharge of waste and air contaminants to the waters and outdoor atmosphere of the State and to establish and maintain approved systems for monitoring the quantity and quality of such discharges and their effects upon the water and air resources of the State. (1971, c. 1167, s. 9; 1973, c. 1262, s. 23; 1987, c. 827, s. 154; 1989, c. 135, s. 3.)

§ 143-215.65. Reports required.

All persons subject to the provisions of G.S. 143-215.1, 143-215.108, or 143-215.109 who discharge wastes to the waters or emit air contaminants to the outdoor atmosphere of this State shall file at such frequencies as the Commission may specify and at least quarterly reports with the Commission setting forth the volume and characteristics of wastes discharged or air contaminants emitted daily or such other period of time as may be specified by the Commission in its rules. Such reports may be required less frequently than quarterly for any permit for a minor activity as defined in G.S. 143-215.1(b)(4)d and e. Such reports shall be filed on forms provided by the Department and approved by the Commission and shall include such pertinent data with reference to the total and average volume of wastes or air contaminants discharged, the strength and amount of each waste substance or air contaminant discharged, the type and degree of treatment such wastes or air contaminants received prior to discharge and such other information as may be specified by the Commission in its rules. The information shall be used by the Commission only for the purpose of air and water pollution control. The department shall provide proper and adequate facilities and procedures and the Commission shall adopt rules to safeguard the confidentiality of proprietary manufacturing processes except that confidentiality shall not extend to wastes discharged or air contaminants emitted. (1971, c. 1167, s. 9; 1973, c. 1262, s. 23; 1975, c. 655, s. 4; 1987, c. 827, ss. 154, 186; 1989, c. 135, s. 4; c. 453, s. 3.)

§ 143-215.66. Monitoring required.

In order to provide for adequately monitoring the discharge of wastes to the waters and the emission of contaminants to the outdoor atmosphere and their effects upon the quality of the environment, all persons subject to the provisions of G.S. 143-215.1, 143-215.108, or 143-215.109 who cause such discharges or emissions shall establish and maintain adequate water and air quality monitoring systems and report the data obtained therefrom to the Commission. Each monitoring system shall include the collection of water or air quality data as appropriate from such locations, in such detail, and with such frequency as required by rule of the Commission for evaluating the efficiency of treatment facilities or air-cleaning devices and the effects of the discharges or emissions upon the waters and air resources of the State. (1971, c. 1167, s. 9; 1973, c. 1262, s. 23; 1987, c. 827, ss. 154, 187; 1989, c. 135, s. 5.)

§ 143-215.67. Acceptance of wastes to disposal systems and air-cleaning devices.

(a) No person subject to the provisions of G.S. 143-215.1, 143-215.108, or 143-215.109 shall willfully cause or allow the discharge of any wastes or air contaminants to a waste-disposal system or air-cleaning device in excess of the capacity of the disposal system or cleaning device or any wastes or air contaminants which the disposal system or cleaning device cannot adequately treat. This subsection does not prohibit the discharge of waste to a treatment works operated by a public utility or unit of local government in excess of the capacity of the treatment works by any person who holds a valid building permit issued prior to the date on which the public utility or unit of local government receives the notice required by subsection (c) of this section if the Commission finds that the discharge of waste will not result in any significant degradation in the quality of the waters ultimately receiving the discharge as provided in subsection (b) of this section.

(b) The Commission may authorize a unit of government subject to the provisions of subsection (a) of this section to accept additional wastes to its waste-disposal system upon a finding by the Commission (i) that the unit of government has secured a grant or has otherwise secured financing for planning, design, or construction of a new or improved waste disposal system which will adequately treat the additional waste, and (ii) the additional waste will not result in any significant degradation in the quality of the waters ultimately receiving the discharge. The Commission may impose such conditions on permits issued under G.S. 143-215.1 as it deems necessary to implement the provisions of this subsection, including conditions on the size, character, and number of additional dischargers. Nothing in this subsection shall be deemed to authorize a unit of government to violate water quality standards, effluent limitations or the terms of any order or permit issued under Part 1 of this Article nor does anything herein preclude the Commission from enforcing by appropriate means the provisions of Part 1 of this Article.

(c) The Commission may impose a moratorium on the addition of waste to a treatment works if the Commission determines that the treatment works is not capable of adequately treating additional waste. The Commission shall give notice of its intention to impose a moratorium at least 45 days prior to the effective date of the moratorium to any person who holds a permit for a treatment works subject to the moratorium. Except to the extent that the provisions of subsection (b) of this section apply, the Commission shall not issue a permit for a sewer line that will connect to a treatment works that the Commission has determined to be incapable of treating additional waste from the date on which the Commission determines that the treatment works is incapable of adequately treating additional waste until the moratorium on the addition of waste to the treatment works is lifted.

(d) A public utility or unit of local government that operates a treatment works shall give notice of a moratorium on the discharge of additional waste to the treatment works within 15 days of the date on which the public utility or unit of local government receives notice of the moratorium from the Commission. The public utility or unit of local government shall give public notice of a moratorium by publication of the notice one time in a newspaper having general circulation in the county in which the treatment works is located. The Commission shall prescribe the form and content of the notice. (1971, c. 1167, s. 9; 1979, c. 566; 1987, c. 827, s. 154; 1989, c. 135, s. 6; 1995, c. 202, s. 1.)

§ 143-215.68: Repealed by Session Laws 1987, c. 827, s. 188.

§ 143-215.69. Enforcement procedures.

(a)(1) Criminal Penalties. — Except as provided in subdivision (2) of this subsection, any person who violates any provisions of this Part or any rules adopted by the Commission for its implementation shall be guilty of a Class 3 misdemeanor and shall be only liable to a penalty of not less than one hundred dollars ($100.00), nor more than one thousand dollars ($1,000) for each violation and each day such person shall fail to comply after having been officially notified by the Commission shall constitute a separate offense subject to the foregoing penalty.

(2) Any person who violates any provision of this Part or any rule adopted by the Commission to implement this Part that imposes a requirement that is also a requirement under Title V or any rule adopted by the Commission to implement Title V shall be subject to punishment as provided by G.S. 143-215.114B.

(b) Civil Penalties. — The Commission may assess a civil penalty against a person who violates this Part or a rule of the Commission implementing this Part. For persons subject to the provisions of G.S. 143-215.1, the amount of the penalty shall not exceed the maximum imposed in G.S. 143-215.6A and shall be assessed in accordance with the procedure set out in G.S. 143-215.6A for assessing a civil penalty. For persons subject to the provisions of Title V, G.S. 143-215.108, or G.S. 143-215.109, the amount of penalty shall not exceed the maximum imposed in G.S. 143-215.114A and shall be assessed in accordance with the procedure set out in G.S. 143-215.114A for assessing a civil penalty. The clear proceeds of civil penalties assessed under this subsection shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2.

(c) Injunctive Relief. — Upon violation of any of the provisions of this Part, a rule implementing this Part, or an order issued under this Part, the Secretary may, either before or after the institution of proceedings for the collection of the penalty imposed by this Part for such violations, request the Attorney General to institute a civil action in the superior court of the county or counties where the violation occurred in the name of the State upon the relation of the Department for injunctive relief to restrain the violation or require corrective action, and for such other or further relief in the premises as said court shall deem proper. Neither the institution of the action nor any of the proceedings thereon shall relieve any party to such proceedings from the penalty prescribed by this Part for any violation of same.

(d) Repealed by Session Laws 1987, c. 827, s. 189. (1971, c. 1167, s. 9; 1973, c. 1262, s. 23; 1975, c. 842, s. 5; 1977, c. 771, s. 4; 1987, c. 827, ss. 154, 189; 1989 (Reg. Sess., 1990), c. 1045, s. 10; 1993, c. 400, s. 6; c. 539, s. 1023; 1994, Ex. Sess., c. 24, s. 14(c); 1998-215, s. 66.)

Part 8. Grants for Water Resources Development Projects.

§ 143-215.70. Secretary of Environment and Natural Resources authorized to accept applications.

The Secretary is authorized to accept applications for grants for nonfederal costs relating to water resources development projects from units of local government sponsoring such projects, except that this shall not include small watershed projects reviewed by the State Soil and Water Conservation Commission pursuant to G.S. 139-55. (1979, c. 1046, s. 1; 1987, c. 827, s. 154; 1989, c. 727, s. 218(109); 1997-443, s. 11A.119(a).)

§ 143-215.71. Purposes for which grants may be requested.

Applications for grants may be made for the nonfederal share of water resources development projects for the following purposes in amounts not to exceed the percentage of the nonfederal costs indicated:

(1) General navigation projects that are sponsored by local governments — eighty percent (80%);
(2) Recreational navigation projects — twenty-five percent (25%);
(3) Construction costs for water management (flood control and drainage) purposes, including utility and road relocations not funded by the State Department of Transportation — sixty-six and two-thirds percent (66 ⅔%), but only of that portion of the project specifically allocated for such flood control or drainage purposes;
(4) Stream restoration — sixty-six and two-thirds percent (66 ⅔%);
(5) Protection of privately owned beaches where public access is allowed and provided for — seventy-five percent (75%);
(6) Land acquisition and facility development for water-based recreation sites operated by local governments — fifty percent (50%);
(7) Aquatic weed control projects sponsored by local governments — fifty percent (50%). (1979, c. 1046, s. 1; 1983, c. 450; 1987, c. 781, s. 1.)

§ 143-215.72. Review of applications.

(a) The Secretary shall receive and review applications for the grants specified in this Part and approve, approve in part, or disapprove such applications.

(b) In reviewing each application, the Secretary shall consider:

(1) The economic, social, and environmental benefits to be provided by the projects;
(2) Regional benefits of projects to an area greater than the area under the jurisdiction of the local sponsoring entity;
(3) The financial resources of the local sponsoring entity;
(4) The environmental impact of the project;
(5) Any direct benefit to State-owned lands and properties. (1979, c. 1046, s. 1.)

§ 143-215.73. Recommendation and disbursal of grants.

After review of grant applications, project funds shall be disbursed and monitored by the Department. After review, but before transfer of funds from the Department's reserve fund into accounts for specific projects, the Secretary may forward the applications to the Advisory Budget Commission for its review of the recommendations. (1979, c. 1046, s. 1; 1983, c. 717, s. 70; 1985 (Reg. Sess., 1986), c. 955, s. 93; 1987, c. 827, s. 154.)

Part 8A. Water Resources Development Projects.

§ 143-215.73A. Water Resources Development Plan.

(a) Plan prepared. — Before 1 July in each calendar year, the Department of Environment and Natural Resources shall prepare a statewide plan for water resources development projects for a period of six years into the future. The plan shall be known as the Water Resources Development Plan. If the plan

differs from the Water Resources Development Plan adopted for the preceding calendar year, the Department shall indicate the changes and the reasons for such changes. The Department shall submit the plan to the Director of the Budget for review.

(b) Projects listed. — The plan shall list the following water resources development projects based on their status as of 1 May of the year in which the plan is prepared:

(1) Projects approved by the Congress of the United States.
(2) Projects for which the Congress of the United States has appropriated funds.
(3) Projects for which grant applications have been submitted under Part 8 of Article 21 of Chapter 143 of the General Statutes.
(4) Projects for which grant applications have been submitted under Article 4 of Chapter 139 of the General Statutes.
(5) Projects planned as federal reservoir projects but for which no federal funds are scheduled and for which local governments are seeking State financial assistance.

(c) Project priorities and funding recommendations. — The Department shall assign a priority to each project within each of the five categories listed under subsection (b) of this section either by giving the project a number, with "1" assigned to the highest priority, or by recommending no funding. The Department shall state its reasons for recommending the funding, deferral, or elimination of a project. The Department shall determine the priority of a project based on the following criteria: local interest in the project, the cost of the project to the State, the benefit of the project to the State, and the environmental impact of the project.

(d) Project information. — For each project listed under subsection (b) of this section, the Water Resources Development Plan shall:

(1) Provide a brief description.
(2) If federal, list the estimated cost of each of the following phases that have not been completed as of 1 July, (i) feasibility study, (ii) construction, (iii) operation and maintenance, and the amount of State funds required to match the federal funds needed.
(3) If State or local, list the estimated cost to complete the project and amount of State funds required under G.S. 143-215.71 or G.S. 139-54.
(4) Indicate the total cost to date and the State share of that cost.
(5) Indicate the status.
(6) Indicate the estimated completion date.

(e) Distribution of the plan. — The Director of the Budget shall provide copies of the plan to the members of the Advisory Budget Commission when the Advisory Budget Commission meets to deliberate on the biennial budget or on the revised budget for the second year of the biennium. The Director of the Budget shall also provide copies of the plan to the General Assembly along with the recommended biennial budget and the recommended revised budget for the second year of the biennium.

(f) Budget recommendations. — The Director of the Budget shall determine which projects, if any, will be included in the recommended biennial budget and in the recommended revised budget for the second year of the biennium. The budget document transmitted to the General Assembly shall identify the projects or types of projects recommended for funding. (1991, c. 181, s. 1; 1997-443, s. 11A.119(a).)

Part 9. Nonpoint Source Pollution Control Program.

§ 143-215.74. Agriculture cost share program.

(a) There is created the Agriculture Cost Share Program for Nonpoint Source Pollution Control. The program shall be created, implemented, and supervised by the Soil and Water Conservation Commission.

(b) The program shall be subject to the following requirements and limitations:

(1) The purpose of the program shall be to reduce the input of agricultural nonpoint source pollution into the water courses of the State.

(2) The program shall initially include the present 16 nutrient sensitive watershed counties and 17 additional counties.

(3) Subject to subdivision (7) of this subsection, priority designations for inclusions in the program shall be under the authority of the Soil and Water Conservation Commission. The Soil and Water Conservation Commission shall retain the authority to allocate the cost share funds.

(4) Areas shall be included in the program as the funds are appropriated and the technical assistance becomes available from the local Soil and Water Conservation District.

(5) Funding may be provided to assist practices including conservation tillage, diversions, filter strips, field borders, critical area plantings, sedimentation control structures, sod-based rotations, grassed waterways, strip-cropping, terraces, cropland conversion to permanent vegetation, grade control structures, water control structures, closure of lagoons, emergency spillways, riparian buffers or equivalent controls, odor control best management practices, insect control best management practices, and animal waste management systems and application. Funding for animal waste management shall be allocated for practices in river basins such that the funds will have the greatest impact in improving water quality.

(6) Except as provided in subdivision (8) of this subsection, State funding shall be limited to seventy-five percent (75%) of the average cost for each practice with the assisted farmer providing twenty-five percent (25%) of the cost, which may include in-kind support of the practice, with a maximum of seventy-five thousand dollars ($75,000) per year to each applicant.

(7) Priority designation for inclusion in the program for State funding shall be given to projects that improve water quality. To be eligible for cost share funds under this subdivision, a project shall be evaluated before funding is awarded and after the project is completed to determine the impact on water quality.

(8) For practices that are eligible for funding from the federal Conservation Reserve Enhancement Program, State funding from the program shall be limited to seventy-five percent (75%) of the average cost of each practice, with the remainder paid from funding from the Conservation Reserve Enhancement Program, other available federal funds, other State funds, or the assisted farmer, whose contribution may include in-kind support of the practice. This subdivision is subject to subdivision (9) of this subsection.

(9) When the applicant is either a limited-resource farmer or a beginning farmer, State funding shall be limited to ninety percent (90%) of the average cost for each practice with the assisted farmer providing ten percent (10%) of the cost, which may include in-kind support of the practice, with a maximum of one hundred thousand dollars ($100,000)

per year to each applicant. The following definitions apply in this subdivision:

a. Beginning farmer. — A farmer who has not operated a farm or who has operated a farm for not more than 10 years and who will materially and substantially participate in the operation of the farm.

b. Limited-resource farmer. — A farmer with direct and indirect gross farm sales that do not exceed one hundred thousand dollars ($100,000).

c. Materially and substantially participate. —

1. In the case of an individual, for the individual, including members of the immediate family of the individual, to provide substantial day-to-day labor and management of the farm, consistent with the practices in the county in which the farm is located.

2. In the case of an entity, for all members of the entity, to participate in the operation of the farm, with some members providing management and some members providing labor and management necessary for day-to-day activities such that if the members did not provide the management and labor, the operation of the farm would be seriously impaired.

(c) The program shall be reviewed, prior to implementation, by the Committee created by G.S. 143-215.74B. The Technical Review Committee shall meet quarterly to review the progress of this program.

(d) State funds for the program shall remain available until expended for the program.

(e) The Soil and Water Conservation Commission shall report on or before 31 January of each year to the Environmental Review Commission and the Fiscal Research Division. This report shall include a list of projects that received State funding pursuant to the program, the results of the evaluations conducted pursuant to subdivision (7) of subsection (b) of this section, findings regarding the effectiveness of each of these projects to accomplish its primary purpose, and any recommendations to assure that State funding is used in the most cost-effective manner and accomplishes the greatest improvement in water quality. (1985 (Reg. Sess., 1986), c. 1014, s. 149(a); 1987, c. 827, s. 154; c. 830, s. 102; 1995 (Reg. Sess., 1996), c. 626, ss. 9, 10; 1996, 2nd Ex. Sess., c. 18, s. 27.22(a), (b); 1997-496, s. 15; 1998-221, s. 3.1; 2002-165, s. 2.18; 2003-284, s. 11.6.)

Cross References. — For note regarding registration of operators of animal waste management systems and obtaining an approved animal waste management plan, see Editor's Note under G.S. 143-215.10A regarding Session Laws 1995 (Reg. Sess., 1996), c. 626, s. 14.

As to moratorium on the construction or expansion of swine farms or lagoons or animal waste management systems for swine farms, established by Session Laws 1997-458, ss. 1.1 and 1.2, as amended by Session Laws 1998-188, ss. 2 and 3, by Session Laws 1999-329, ss. 2.1 and 2.2, by Session Laws 2001-254, ss. 1 and 2, and by Session Laws 2003-266, ss. 1 and 2, see the Editor's notes following G.S. 143-215.10A.

Editor's Note. — Session Laws 2001-355, ss. 1 to 6, provide for the implementation of the Tar-Pamlico River Basin-Nutrient Sensitive Waters Management Strategy: Agricultural Nutrient Control Strategy, as adopted by the Environmental Management Commission on 12 October 2000 and approved by the Rules Review Commission on 20 November 2000, to become effective on 1 September 2001. A Local Advisory Committee is to be appointed in each county or watershed, as specified in the Basin Oversight Committee, within the Tar-Pamlico River Basin; these committees terminate upon a finding by the Environmental Management Commission that the long-term maintenance of nutrient loads is assured. Under the act, the Soil and Water Commission is to approve best management practices for pasture-based production or management of livestock, including a point system applicable thereto. Harvesting of trees is also addressed. Furthermore, the Basin Oversight Committee is to develop a nutrient loading accounting methodology, to be

approved by the Environmental Management Commission no later than 1 March 2003. The Environmental Management Commission may adopt and revise a temporary rule incorporating the provisions of the act until a permanent rule can be adopted. Session Laws 2001-355, s. 7 provides that ss. 2 and 3 of the act expire when the temporary rule becomes effective, and s. 4 expires upon a finding that the long-term maintenance of nutrient loads in the Tar-Pamlico River Basin is assured.

Session Laws 2003-284, s. 1.2, provides: "This act shall be known as the 'Current Operations and Capital Improvements Appropriations Act of 2003'."

Session Laws 2003-284, s. 49.5, is a severability clause.

Effect of Amendments. — Session Laws 2002-165, s. 2.18, effective October 23, 2002, substituted "sedimentation control" for "sediment control" in subdivision (b)(5).

Session Laws 2003-284, s. 11.6, effective July 1, 2003, added the last sentence in subdivision (b)(8); and added subdivision (b)(9).

§ 143-215.74A. Program participation.

Participation in the program shall be voluntary.

All participants in the program shall be required to match State funds at the same rate, and assistance from the Agriculture Extension Service at North Carolina State University shall also be used. (1985 (Reg. Sess., 1986), c. 1014, s. 149(a).)

§ 143-215.74B. Committee established.

Detailed plans for implementing the program shall be reviewed and suggested changes and reasons therefor shall be given by a committee consisting of the Master of the North Carolina State Grange, President of the North Carolina Farm Bureau Federation, the North Carolina Commissioner of Agriculture, the Dean of the School of Agriculture and Life Sciences at North Carolina State University, the Dean of the School of Agriculture at North Carolina Agricultural and Technical State University, the Chairman of the State Soil and Water Conservation Commission, the President of the North Carolina Association of Soil and Water Conservation Districts, the Executive Director of the Wildlife Resources Commission or a designee, and the Director of the Division of Marine Fisheries or a designee. The committee shall review the program prior to expenditure of any funds for the program. Certification documenting the committee's review of the program shall be made in writing to the Speaker of the House of Representatives, the President of the Senate, the Chairmen of the Appropriations Committees of the Senate and the House of Representatives, the Director of the Fiscal Research Division of the Legislative Services Office, and the Legislative Library. (1985 (Reg. Sess., 1986), c. 1014, s. 149(a); 1989, c. 500, s. 117; 1993, c. 321, s. 261.)

Editor's Note. — Session Laws 2001-355, ss. 1 to 6, provide for the implementation of the Tar-Pamlico River Basin-Nutrient Sensitive Waters Management Strategy: Agricultural Nutrient Control Strategy, as adopted by the Environmental Management Commission on 12 October 2000 and approved by the Rules Review Commission on 20 November 2000, to become effective on 1 September 2001. A Local Advisory Committee is to be appointed in each county or watershed, as specified in the Basin Oversight Committee, within the Tar-Pamlico River Basin; these committees terminate upon a finding by the Environmental Management Commission that the long-term maintenance of nutrient loads is assured. Under the act, the Soil and Water Commission is to approve best management practices for pasture-based production or management of livestock, including a point system applicable thereto. Harvesting of trees is also addressed. Furthermore, the Basin Oversight Committee is to develop a nutrient loading accounting methodology, to be approved by the Environmental Management Commission no later than 1 March 2003. The Environmental Management Commission may adopt and revise a temporary rule incorporating the provisions of the act until a permanent rule can be adopted. Session Laws 2001-355, s. 7, provides that ss. 2 and 3 of the act expire when the temporary rule becomes effective, and s. 4 expires upon a finding that the long-term maintenance of nutrient loads in the Tar-Pamlico River Basin is assured.

Part 9A. Application of Animal Waste.

§§ 143-215.74C through 143-215.74E: Repealed by Session Laws 1995 (Regular Session, 1996), c. 626, s. 13, effective January 1, 1997.

Editor's Note. — Session Laws 1995 (Reg. Sess., 1996), c. 626, s. 13, provides in part: "A person certified under Part 9A of Article 21 of Chapter 143 of the General Statutes shall be certified as an animal waste management system operator by the Water Pollution Control System Operators Certification Commission without additional preexamination training, examination, or payment of an initial certification fee. A person certified under Part 9A of Article 21 of Chapter 143 of the General Statutes shall complete approved additional training and pay the annual renewal fee in order to maintain certification."

Part 10. Stream Watch Program.

§ 143-215.74F. Program authorized.

The Department of Environment and Natural Resources may establish a Stream Watch Program to recognize and assist civic, environmental, educational, and other volunteer groups interested in good water resources management and protection. The goals of the Stream Watch Program are to encourage volunteer groups to adopt streams and other water bodies and to work toward their good management and protection; to increase public awareness of and involvement in water resources management; and to promote cooperative activities among volunteer groups, local government, industry, the Department of Environment and Natural Resources, and other agencies and entities for improved protection and management of water resources. (1989, c. 412, s. 1; c. 727, s. 218; 1997-443, s. 11A.119(a).)

§ 143-215.74G. Applications.

The Department may accept and approve applications to affiliate with the Stream Watch Program from volunteer groups willing to adopt a specific body of water and to conduct at least one project each year to promote the protection of the adopted body of water or to increase public understanding of water resources. (1989, c. 412, s. 1.)

§ 143-215.74H. Assistance.

The Department may provide technical, organizational, and financial assistance to stream watch groups from such resources as may be available to the Department. (1989, c. 412, s. 1.)

§ 143-215.74I. Projects.

The Department may encourage and assist stream watch groups to carry out projects for stream cleanup and restoration, stream surveillance and water quality monitoring, public education, the establishment of trails and greenways, recreational use of water bodies, and other activities in furtherance of the goals of the Stream Watch Program. (1989, c. 412, s. 1.)

Article 21A.

Oil Pollution and Hazardous Substances Control.

Part 1. General Provisions.

§ 143-215.75. Title.

This Article shall be known and may be cited as the "Oil Pollution and Hazardous Substances Control Act of 1978." (1973, c. 534, s. 1; 1979, c. 535, s. 1.)

Legal Periodicals. — For survey of 1979 administrative law, see 58 N.C.L. Rev. 1185 (1980).

For note, "Spillover from the Exxon Valdez: North Carolina's New Offshore Oil Spill Statute," see 68 N.C.L. Rev. 1214 (1990).

CASE NOTES

Action Against Sellers Where Land Found to Be Contaminated. — This article, which imposes a cleanup obligation for unlawful discharges of oil or hazardous substances only on persons who have control over such substances immediately prior to a discharge, and thus would not threaten subsequent purchasers with liability, could not be used to create a claim for breach of provision, in contract for the sale of land subsequently found by purchasers to be contaminated with chemicals, that there be no government regulations preventing their enjoyment of the property. Cameron v. Martin Marietta Corp., 729 F. Supp. 1529 (E.D.N.C. 1990).

Strict Liability Claim Not Preempted. — Developer's strict liability claim based on migration of methane gases from city landfill based on the North Carolina Oil Pollution and Hazardous Substances Control Act of 1978 was not preempted by the inverse condemnation provision (G.S. 40A-51). Ashley Park Charlotte Assocs. v. City of Charlotte, 827 F. Supp. 1223 (W.D.N.C. 1993).

Summary judgment based on statute of limitations was inappropriate on claims brought in 1988 under the Oil Pollution and Hazardous Substances Control Act (G.S. 143-215.75 et seq.) and for negligence, premised on contamination of well water with gasoline, where plaintiffs did not associate the bad taste in their well water with gasoline until 1986, several years after they stopped drinking it, and in that same year were officially informed that their water was contaminated with gasoline. James v. Clark, 118 N.C. App. 178, 454 S.E.2d 826 (1995).

Discharge Not Shown. — Plaintiff failed to prove that the defendants released a hazardous substance in sufficient quantities to constitute a discharge under the Oil Pollution and Hazardous Substances Control Act of 1978. Rudd v. Electrolux Corp., 982 F. Supp. 355 (M.D.N.C. 1997).

Common Law Not Abrogated. — The enactment of various environmental statutes has not abrogated common law protection of property encompassed by actions for negligence, trespass, or nuisance. Rudd v. Electrolux Corp., 982 F. Supp. 355 (M.D.N.C. 1997).

Cited in State Props., LLC v. Ray, 155 N.C. App. 65, 574 S.E.2d 180, 2002 N.C. App. LEXIS 1701 (2002), cert. denied, 356 N.C. 694, 577 S.E.2d 889 (2003).

OPINIONS OF ATTORNEY GENERAL

Dumping Waste Is Prohibited Within Three Miles of Seashore. — North Carolina General Statutes specifically prohibit the dumping of waste materials such as bags of medical refuse and other forms of ocean dumping or the introduction of other pollutants in coastal waters if the waste materials are dumped within three miles of the Atlantic seashore. See opinion of the Attorney General to Lieutenant Governor Robert B. Jordan, III, 58 N.C.A.G. 57 (Aug. 24, 1988).

§ 143-215.76. Purpose.

It is the purpose of this Article to promote the health, safety, and welfare of the citizens of this State by protecting the land and the waters over which this State has jurisdiction from pollution by oil, oil products, oil by-products, and other hazardous substances. It is not the intention of this Article to exercise jurisdiction over any matter as to which the United States government has exclusive jurisdiction, nor in any wise contrary to any governing provision of federal law, and no provision of this Article shall be so construed. The General Assembly further declares that it is the intent of this Article to support and complement applicable provisions of the Federal Water Pollution Control Act, as amended, 33 U.S.C. section 1251 et seq., as amended, and the National Contingency Plan for removal of oil adopted pursuant thereto. (1973, c. 534, s. 1; 1979, c. 535, s. 2.)

CASE NOTES

Cited in Ashley Park Charlotte Assocs. v. City of Charlotte, 827 F. Supp. 1223 (W.D.N.C. 1993); Jordan v. Foust Oil Co., 116 N.C. App. 155, 447 S.E.2d 491 (1994), cert. denied, 339 N.C. 613, 454 S.E.2d 252 (1995).

§ 143-215.77. Definitions.

As used in this Article, unless the context otherwise requires:

(1) "Barrel" shall mean 42 U.S. gallons at 60 degrees Fahrenheit.

(2) "Commission" means the North Carolina Environmental Management Commission.

(3) "Secretary" shall mean the North Carolina Secretary of Environment and Natural Resources.

(4) "Discharge" shall mean, but shall not be limited to, any emission, spillage, leakage, pumping, pouring, emptying, or dumping of oil or other hazardous substances into waters of the State or into waters outside the territorial limits of the State which affect lands, waters or uses related thereto within the territorial limits of the State, or upon land in such proximity to waters that oil or other hazardous substances is reasonably likely to reach the waters, but shall not include amounts less than quantities which may be harmful to the public health or welfare as determined pursuant to G.S. 143-215.77A; provided, however, that this Article shall not be construed to prohibit the oiling of driveways, roads or streets for reduction of dust or routine maintenance; provided further, that the use of oil or other hazardous substances, oil-based products, or chemicals on the land or waters by any State, county, or municipal government agency in any program of mosquito or other pest control, or their use by any person in accepted agricultural, horticultural, or forestry practices, or in connection with aquatic weed control or structural pest and rodent control, in a manner approved by the State, county, or local agency charged with authority over such uses, shall not constitute a discharge; provided, further, that the use of a pesticide regulated by the North Carolina Pesticide Board in a manner consistent with the labelling required by the North Carolina Pesticide Law shall not constitute a "discharge" for purposes of this Article. The word "discharge" shall also include any discharge upon land, whether or not in proximity to waters, which is intentional, knowing or willful.

(5) "Having control over oil or other hazardous substances" shall mean, but shall not be limited to, any person, using, transferring, storing, or transporting oil or other hazardous substances immediately prior to a

discharge of such oil or other hazardous substances onto the land or into the waters of the State, and specifically shall include carriers and bailees of such oil or other hazardous substances. This definition shall not include any person supplying or delivering oil into a petroleum underground storage tank that is not owned or operated by the person, unless:

a. The person knows or has reason to know that a discharge is occurring from the petroleum underground storage tank at the time of supply or delivery;

b. The person's negligence is a proximate cause of the discharge; or

c. The person supplies or delivers oil at a facility that requires an operating permit under G.S. 143-215.94U and a currently valid operating permit certificate is not held or displayed at the time of the supply or delivery.

(5a) "Hazardous substance" shall mean any substance, other than oil, which when discharged in any quantity may present an imminent and substantial danger to the public health or welfare, as designated pursuant to G.S. 143-215.77A.

(6) Repealed by Session Laws 1979, c. 981, s. 5.

(7) "Department" shall mean the Department of Environment and Natural Resources.

(8) "Oil" shall mean oil of any kind and in any form, including, but specifically not limited to, petroleum, crude oil, diesel oil, fuel oil, gasoline, lubrication oil, oil refuse, oil mixed with other waste, oil sludge, petroleum related products or by-products, and all other liquid hydrocarbons, regardless of specific gravity, whether singly or in combination with other substances.

(9) "Bailee" shall mean any person who accepts oil or other hazardous substances to hold in trust for another for a special purpose and for a limited period of time.

(10) "Carrier" shall mean any person who engages in the transportation of oil or other hazardous substances for compensation.

(11) "Oil terminal facility" shall mean any facility of any kind and related appurtenances located in, on or under the surface of any land, or water, including submerged lands, which is used or capable of being used for the purpose of transferring, transporting, storing, processing, or refining oil; but shall not include any facility having a storage capacity of less than 500 barrels, nor any retail gasoline dispensing operation serving the motoring public. A vessel shall be considered an oil terminal facility only in the event that it is utilized to transfer oil from another vessel to an oil terminal facility; or to transfer oil between one oil terminal facility and another oil terminal facility; or is used to store oil.

(12) "Operator" shall mean any person owning or operating an oil terminal facility or pipeline, whether by lease, contract, or any other form of agreement.

(13) "Person" shall mean any and all natural persons, firms, partnerships, associations, public or private institutions, municipalities or political subdivisions, governmental agencies, or private or public corporations organized or existing under the laws of this State or any other state or country.

(14) "Pipeline" shall mean any conduit, pipe or system of pipes, and any appurtenances related thereto and used in conjunction therewith, used, or capable of being used, for transporting or transferring oil to, from, or between oil terminal facilities.

(15) "Restoration" or "restore" shall mean any activity or project undertaken in the public interest or to protect public interest or to protect

public property or to promote the public health, safety or welfare for the purpose of restoring any lands or waters affected by an oil or other hazardous substances discharge as nearly as is possible or desirable to the condition which existed prior to the discharge.

(16) "Transfer" shall mean the transportation, on-loading or off-loading of oil or other hazardous substances between or among two or more oil terminal facilities; between or among oil terminal facilities and vessels; and between or among two or more vessels.

(17) "Vessel" shall include every description of watercraft or other contrivance used, or capable of being used, as a means of transportation on water, whether self-propelled or otherwise, and shall include, but shall not be limited to, barges and tugs; provided that the term "vessel" as used herein shall not apply to any pleasure, sport or commercial fishing vessel which has a fuel capacity of less than 500 gallons and is not used to transport petroleum, petroleum products, or general cargo.

(18) "Waters" shall mean any stream, river, creek, brook, run, canal, swamp, lake, sound, tidal estuary, bay, reservoir, waterway, wetlands, or any other body or accumulation of water, surface or underground, public or private, natural or artificial, which is contained within, flows through, or borders upon this State, or any portion thereof, including those portions of the Atlantic Ocean over which this State has jurisdiction. (1973, c. 534, s. 1; c. 1262, s. 23; 1977, c. 771, s. 4; 1979, c. 535, ss. 3-10; c. 981, ss. 3-5; 1979, 2nd Sess., c. 1209, ss. 1, 2; 1987, c. 827, s. 155; 1989, c. 656, s. 1; c. 727, s. 218(111); 1995, c. 377, s. 12; 1997-443, s. 11A.119(a).)

Legal Periodicals. — For survey of 1979 administrative law, see 58 N.C.L. Rev. 1185 (1980).

CASE NOTES

Statutory "control over" oil is not necessarily coextensive with physical control or possession of oil or ownership of oil at the time of its discharge, and since carriers and bailees are expressly included in the definition of "having control over," one need not have an ownership interest in oil to "have control over" it. Jordan v. Foust Oil Co., 116 N.C. App. 155, 447 S.E.2d 491 (1994), cert. denied, 339 N.C. 613, 454 S.E.2d 252 (1995).

Discharge Not Shown. — Plaintiff failed to prove that the defendants released a hazardous substance in sufficient quantities to constitute a discharge under the Oil Pollution and Hazardous Substances Control Act of 1978. Rudd v. Electrolux Corp., 982 F. Supp. 355 (M.D.N.C. 1997).

Cited in Wilson v. McLeod Oil Co., 327 N.C. 491, 398 S.E.2d 586 (1990); Cameron v. Martin Marietta Corp., 729 F. Supp. 1529 (E.D.N.C. 1990); Carpenter v. Brewer Hendley Oil Co., 145 N.C. App. 493, 549 S.E.2d 886, 2001 N.C. App. LEXIS 653 (2001); Springer-Eubank Co. v. Four County Elec. Membership Corp., 142 N.C. App. 496, 543 S.E.2d 197, 2001 N.C. App. LEXIS 140 (2001).

§ 143-215.77A. Designation of hazardous substances and determination of quantities which may be harmful.

(a) Those substances designated as hazardous as of June 1, 1980, by the Administrator of the United States Environmental Protection Agency under 33 U.S.C. 1321(b)(2)(A) are designated as hazardous substances for purposes of this Article.

(b) Such quantities of hazardous substances as may be harmful as determined as of June 1, 1980, by the Administrator of the United States Environ-

mental Protection Agency under 33 U.S.C. 1321(b)(4) are quantities which may be harmful for purposes of this Article.

(c) Changes by Administrator of the United States Environmental Protection Agency in the designation of hazardous substances and the determination of quantities which may be harmful shall be deemed to be made to the designation of hazardous substances and the determination of quantities for purposes of this Article, unless the Commission objects within 120 days of publication of the action in the Federal Register. The Commission may object to a change by the Administrator on the basis that the change is not consistent with the standards for determining hazardous substances or harmful quantities. Upon objection by the Commission to a change, the Commission shall initiate rule-making proceedings on the change. The change will not be made pending the hearing and a final determination by the Commission. After the hearing, the Commission may reject the change upon a finding that the change is not consistent with the standards for determining hazardous substances or harmful quantities. (1979, 2nd Sess., c. 1209, s. 3; 1987, c. 827, s. 190.)

CASE NOTES

Discharge Not Shown. — Plaintiff failed to prove that the defendants released a hazardous substance in sufficient quantities to constitute a discharge under the Oil Pollution and Hazardous Substances Control Act of 1978. Rudd v. Electrolux Corp., 982 F. Supp. 355 (M.D.N.C. 1997).

§ 143-215.78. Oil pollution control program.

The Department shall establish an oil pollution control program for the administration of this Article. The Department may employ and prescribe the duties of employees assigned to this activity. (1973, c. 534, s. 1; c. 1262, s. 23; 1979, c. 535, s. 11.)

§ 143-215.79. Inspections and investigations; entry upon property.

The Commission, through its authorized representatives, is empowered to conduct such inspections and investigations as shall be reasonably necessary to determine compliance with the provisions of this Article; to determine the person or persons responsible for violation of this Article; to determine the nature and location of any oil or other hazardous substances discharged to the land or waters of this State; and to enforce the provisions of this Article. The authorized representatives of the Commission are empowered upon presentation of their credentials to enter upon any private or public property, including boarding any vessel, for the purpose of inspection or investigation or in order to conduct any project or activity to contain, collect, disperse or remove oil or other hazardous substances discharges or to perform any restoration necessitated by an oil or other hazardous substances discharge. Neither the State nor its agencies, employees or agents shall be liable in trespass or damages arising out of the conduct of any inspection, investigation, or oil or other hazardous substances removal or restoration project or activity other than liability for damage to property or injury to persons arising out of the negligent or willful conduct of an employee or agent of the State during the course of an inspection, investigation, project or activity. (1973, c. 534, s. 1; c. 1262, s. 23; 1979, c. 535, s. 12; 1987, c. 827, s. 154.)

Legal Periodicals. — For survey of 1979 administrative law, see 58 N.C.L. Rev. 1185 (1980).

§ 143-215.80. Confidential information.

Any information relating to a secret process, device or method of manufacturing or production discovered or obtained in the course of an inspection, investigation, project or activity conducted pursuant to this Article shall not be revealed except as may be required by law or lawful order or process. (1973, c. 534, s. 1.)

§ 143-215.81. Authority supplemental.

The authority and powers granted under this Article shall be in addition to, and not in derogation of, any authority or powers vested in the Commission under any other provision of law, except to the extent that such other powers or authority may conflict directly with the powers and authority granted under this Article. (1973, c. 534, s. 1; c. 1262, s. 23; 1987, c. 827, ss. 154, 191.)

§ 143-215.82. Local ordinances.

Nothing in the Article shall be construed to deny any county, municipality, sanitary district, metropolitan sewerage district or other authorized local governmental entity, by ordinance, regulation or law, from exercising police powers with reference to the prevention and control of oil or other hazardous substances discharges to sewers or disposal systems. (1973, c. 534, s. 1; 1979, c. 535, s. 13.)

Part 2. Oil Discharge Controls.

§ 143-215.83. Discharges.

(a) Unlawful Discharges. — It shall be unlawful, except as otherwise provided in this Part, for any person to discharge, or cause to be discharged, oil or other hazardous substances into or upon any waters, tidal flats, beaches, or lands within this State, or into any sewer, surface water drain or other waters that drain into the waters of this State, regardless of the fault of the person having control over the oil or other hazardous substances, or regardless of whether the discharge was the result of intentional or negligent conduct, accident or other cause.

(b) Excepted Discharges. — This section shall not apply to discharges of oil or other hazardous substances in the following circumstances:

(1) When the discharge was authorized by an existing rule of the Commission.

(2) When any person subject to liability under this Article proves that a discharge was caused by any of the following:
   a. An act of God.
   b. An act of war or sabotage.
   c. Negligence on the part of the United States government or the State of North Carolina or its political subdivisions.
   d. An act or omission of a third party, whether any such act or omission was or was not negligent.
   e. Any act or omission by or at the direction of a law-enforcement officer or fireman.

(c) Permits. — Any person who desires or proposes to discharge oil or other hazardous substances onto the land or into the waters of this State shall first make application for and secure the permit required by G.S. 143-215.1. Application shall be made pursuant to the rules adopted by the Commission. Any permit granted pursuant to this subsection may contain such terms and conditions as the Commission shall deem necessary and appropriate to conserve and protect the land or waters of this State and the public interest therein. (1973, c. 534, s. 1; c. 1262, s. 23; 1979, c. 535, s. 14; 1987, c. 827, ss. 154, 192.)

CASE NOTES

Action Against Sellers Where Land Found to Be Contaminated. — This article, which imposes a cleanup obligation for unlawful discharges of oil or hazardous substances only on persons who have control over such substances immediately prior to a discharge, and thus would not threaten subsequent purchasers with liability, could not be used to create a claim for breach of provision, in contract for the sale of land subsequently found by purchasers to be contaminated with chemicals, that there be no government regulations preventing their enjoyment of the property. Cameron v. Martin Marietta Corp., 729 F. Supp. 1529 (E.D.N.C. 1990).

Discharge Not Shown. — Plaintiff failed to prove that the defendants released a hazardous substance in sufficient quantities to constitute a discharge under the Oil Pollution and Hazardous Substances Control Act of 1978. Rudd v. Electrolux Corp., 982 F. Supp. 355 (M.D.N.C. 1997).

Applied in Biddix v. Henredon Furn. Indus., Inc., 76 N.C. App. 30, 331 S.E.2d 717 (1985).

Cited in Jordan v. Foust Oil Co., 116 N.C. App. 155, 447 S.E.2d 491 (1994), cert. denied, 339 N.C. 613, 454 S.E.2d 252 (1995).

§ 143-215.84. Removal of prohibited discharges.

(a) Person Discharging. — Any person having control over oil or other hazardous substances discharged in violation of this Article shall immediately undertake to collect and remove the discharge and to restore the area affected by the discharge as nearly as may be to the condition existing prior to the discharge. If it is not feasible to collect and remove the discharge, the person responsible shall take all practicable actions to contain, treat and disperse the discharge; but no chemicals or other dispersants or treatment materials which will be detrimental to the environment or natural resources shall be used for such purposes unless they shall have been previously approved by the Commission. The owner of an underground storage tank who is the owner of the tank only because he is the owner of the land on which the underground storage tank is located, who did not know or have reason to know that the underground storage tank was located on his property, and who did not become the owner of the land as the result of a transfer or transfers to avoid liability for the underground storage tank shall not be deemed to be responsible for a release or discharge from the underground storage tank.

(a1) The Commission shall not require collection or removal of a discharge or restoration of an affected area under subsection (a) of this section if the person having control over oil or other hazardous substances discharged in violation of this Article complies with rules governing the collection and removal of a discharge and the restoration of an affected area adopted by the Commission pursuant to G.S. 143-214.1 or G.S. 143-215.94V. This subsection shall not be construed to affect the rights of any person under this Article or any other provision of law.

(b) Removal by Department. — Notwithstanding the requirements of subsection (a) of this section, the Department is authorized and empowered to utilize any staff, equipment and materials under its control or supplied by other cooperating State or local agencies and to contract with any agent or contractor that it deems appropriate to take such actions as are necessary to

collect, investigate, perform surveillance over, remove, contain, treat or disperse oil or other hazardous substances discharged onto the land or into the waters of the State and to perform any necessary restoration. The Secretary shall keep a record of all expenses incurred in carrying out any project or activity authorized under this section, including actual expenses incurred for services performed by the State's personnel and for use of the State's equipment and material. The authority granted by this subsection shall be limited to projects and activities that are designed to protect the public interest or public property, and shall be compatible with the National Contingency Plan established pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. section 1251 et seq.

(c), (d) Repealed by Session Laws 1989, c. 656, s. 2.

(e) Notification of Completed Removal of Prohibited Discharges. — The definitions set out in G.S. 130A-310.31(b) apply to this subsection. Any person may submit a written request to the Department for a determination that a discharge of oil or a hazardous substance in violation of this Article has been remediated to unrestricted use standards. A request for a determination that a discharge has been remediated to unrestricted use standards shall be accompanied by the fee required by G.S. 130A-310.39(a)(2). If the Department determines that the discharge has been remediated to unrestricted use standards, the Department shall issue a written notification that no further remediation of the discharge will be required. The notification shall state that no further remediation of the discharge will be required unless the Department later determines, based on new information or information not previously provided to the Department, that the discharge has not been remediated to unrestricted use standards or that the Department was provided with false or incomplete information. Under any of those circumstances, the Department may withdraw the notification and require responsible parties to remediate the discharge to unrestricted use standards.

(f) In order to reduce or eliminate the danger to public health or the environment posed by a discharge or release of oil or a hazardous substance, an owner, operator, or other responsible party may impose restrictions on the current or future use of the real property comprising any part of the site if the restrictions meet the requirements of this subsection. The restrictions must be agreed to by the owner of the real property, included in a remedial action plan for the site that has been approved by the Secretary, and implemented as a part of the remedial action program for the site. The Secretary may approve restrictions included in a remedial action plan in accordance with standards determined: (i) pursuant to rules for remediation of soil or groundwater contamination adopted by the Commission; (ii) with respect to the cleanup of a discharge or release from a petroleum underground storage tank, pursuant to rules adopted by the Commission pursuant to G.S. 143-215.94V; or (iii) as provided in G.S. 130A-310.3(d). Restrictions may apply to activities on, over, or under the land, including, but not limited to, use of groundwater, building, filling, grading, excavating, and mining. Any approved restriction shall be enforced by any owner, operator, or other party responsible for the oil or hazardous substance discharge site. Any land-use restriction may also be enforced by the Department through the remedies provided in this Article, Part 2 of Article 1 of Chapter 130A of the General Statutes, or by means of a civil action. The Department may enforce any land-use restriction without first having exhausted any available administrative remedies. A land-use restriction may also be enforced by any unit of local government having jurisdiction over any part of the site. A land-use restriction shall not be declared unenforceable due to lack of privity of estate or contract, due to lack of benefit to particular land, or due to lack of any property interest in particular land. Any person who owns or leases a property subject to a land-use restriction

under this Part shall abide by the land-use restriction. (1973, c. 534, s. 1; c. 1262, s. 23; 1975, c. 885; 1977, c. 771, s. 4; 1979, c. 535, s. 15; 1987, c. 827, ss. 154, 193; 1989, c. 656, s. 2; 1991, c. 538, s. 14; 1995, c. 377, s. 13; 1997-357, s. 7; 1997-394, s. 4; 1997-456, s. 50; 2001-384, s. 11.)

Editor's Note. — Session Laws 1997-357, s. 8, provides: "This act shall not be construed to obligate the General Assembly to make any appropriation to implement the provisions of this act. The Department of Environment, Health, and Natural Resources [now the Department of Environment and Natural Resources] shall implement the provisions of this act from funds otherwise available or appropriated to the Department."

Regarding modification of the rights and obligations of an owner, operator, or a landowner to whom G.S. 143-215.94E(b1) applies and who is eligible to have costs paid or reimbursed under G.S. 143-215.94B, as governed by G.S. 143-215.94E, see the Editor's Note to Session Laws 2003-352, s. 10, at G.S. 143-215.94E.

Legal Periodicals. — For note on the Brownfields Property Reuse Act of 1997, see 78 N.C.L. Rev. 1015 (1998).

CASE NOTES

Action Against Sellers Where Land Found to Be Contaminated. — This article, which imposes a cleanup obligation for unlawful discharges of oil or hazardous substances only on persons who have control over such substances immediately prior to a discharge, and thus would not threaten subsequent purchasers with liability, could not be used to create a claim for breach of provision, in contract for the sale of land subsequently found by purchasers to be contaminated with chemicals, that there be no government regulations preventing their enjoyment of the property. Cameron v. Martin Marietta Corp., 729 F. Supp. 1529 (E.D.N.C. 1990).

§ 143-215.85. Required notice.

(a) Except as provided in G.S. 143-215.94E(a1) and subsection (b) of this section, every person owning or having control over oil or other substances discharged in any circumstances other than pursuant to a rule adopted by the Commission, a regulation of the U. S. Environmental Protection Agency, or a permit required by G.S. 143-215.1 or the Federal Water Pollution Control Act, upon notice that such discharge has occurred, shall immediately notify the Department, or any of its agents or employees, of the nature, location and time of the discharge and of the measures which are being taken or are proposed to be taken to contain and remove the discharge. The agent or employee of the Department receiving the notification shall immediately notify the Secretary or such member or members of the permanent staff of the Department as the Secretary may designate. If the discharged substance of which the Department is notified is a pesticide regulated by the North Carolina Pesticide Board, the Department shall immediately inform the Chairman of the Pesticide Board. Removal operations under this Article of substances identified as pesticides defined in G.S. 143-460 shall be coordinated in accordance with the Pesticide Emergency Plan adopted by the North Carolina Pesticide Board; provided that, in instances where entry of such hazardous substances into waters of the State is imminent, the Department may take such actions as are necessary to physically contain or divert such substance so as to prevent entry into the surface waters.

(b) As used in this subsection, "petroleum" has the same meaning as in G.S. 143-215.94A. A person who owns or has control over petroleum that is discharged into the environment shall immediately take measures to collect and remove the discharge, report the discharge to the Department within 24 hours of the discharge, and begin to restore the area affected by the discharge in accordance with the requirements of this Article if the volume of the petroleum that is discharged is 25 gallons or more or if the petroleum causes a sheen on nearby surface water or if the petroleum is discharged at a distance

of 100 feet or less from any surface water body. If the volume of petroleum that is discharged is less than 25 gallons, the petroleum does not cause a sheen on nearby surface water, and the petroleum is discharged at a distance of more than 100 feet from all surface water bodies, the person who owns or has control over the petroleum shall immediately take measures to collect and remove the discharge. If a discharge of less than 25 gallons of petroleum cannot be cleaned up within 24 hours of the discharge or if the discharge causes a sheen on nearby surface water, the person who owns or has control over the petroleum shall immediately notify the Department. (1973, c. 534, s. 1; c. 1262, s. 23; 1977, c. 771, s. 4; c. 858, s. 1; 1979, c. 535, ss. 16, 17; 1987, c. 827, ss. 154, 194; 2000-54, s. 1.)

Legal Periodicals. — For survey of 1979 administrative law, see 58 N.C.L. Rev. 1185 (1980).

CASE NOTES

§ 143-215.85A. Recordation of oil or hazardous substance discharge sites.

(a) The owner of the real property on which a site is located that is subject to current or future use restrictions approved as provided in G.S. 143-215.84(f) shall submit to the Department a survey plat as required by this section within 180 days after the owner is notified to do so. The survey plat shall identify areas designated by the Department, shall be prepared and certified by a professional land surveyor, and shall be entitled "NOTICE OF OIL OR HAZARDOUS SUBSTANCE DISCHARGE SITE". Where an oil or hazardous substance discharge site is located on more than one parcel or tract of land, a composite map or plat showing all parcels or tracts may be recorded. The Notice shall include a legal description of the site that would be sufficient as a description in an instrument of conveyance, shall meet the requirements of G.S. 47-30 for maps and plats, and shall identify:

(1) The location and dimensions of the disposal areas and areas of potential environmental concern with respect to permanently surveyed benchmarks.

(2) The type, location, and quantity of oil or hazardous substances known to the owner of the site to exist on the site.

(3) Any restrictions approved by the Department on the current or future use of the site.

(b) After the Department approves and certifies the Notice, the owner of the site shall file the certified copy of the Notice in the register of deeds office in the county or counties in which the land is located within 15 days of the date on which the owner receives approval of the Notice from the Department.

(c) The register of deeds shall record the certified copy of the Notice and index it in the grantor index under the names of the owners of the lands.

(d) In the event that the owner of the site fails to submit and file the Notice required by this section within the time specified, the Secretary may prepare and file the Notice. The costs thereof may be recovered by the Secretary from any responsible party. In the event that an owner of a site who is not a responsible party submits and files the Notice required by this section, he may recover the reasonable costs thereof from any responsible party.

(e) When an oil or hazardous substance discharge site that is subject to current or future land-use restrictions under this section is sold, leased, conveyed, or transferred, the deed or other instrument of transfer shall contain in the description section, in no smaller type than that used in the body of the deed or instrument, a statement that the property has been used as an oil or hazardous substance discharge site and a reference by book and page to the recordation of the Notice.

(f) A Notice of Oil or Hazardous Substance Discharge Site filed pursuant to this section may, at the request of the owner of the land, be cancelled by the Secretary after the hazards have been eliminated. If requested in writing by the owner of the land and if the Secretary concurs with the request, the Secretary shall send to the register of deeds of each county where the Notice is recorded a statement that the hazards have been eliminated and request that the Notice be cancelled of record. The Secretary's statement shall contain the names of the owners of the land as shown in the Notice and reference the plat book and page where the Notice is recorded. The register of deeds shall record the Secretary's statement in the deed books and index it on the grantor index in the names of the owners of the land as shown in the Notice and on the grantee index in the name "Secretary of Environment and Natural Resources". The register of deeds shall make a marginal entry on the Notice showing the date of cancellation and the book and page where the Secretary's statement is recorded, and the register of deeds shall sign the entry. If a marginal entry is impracticable because of the method used to record maps and plats, the register of deeds shall not be required to make a marginal entry. (1997-394, s. 5; 1997-443, s. 11A.119(b); 1997-456, s. 55.6(a), (b).)

§ 143-215.86. Other State agencies and State-designated local agencies.

(a) Planning. — The State Emergency Response Commission shall be responsible for developing a program, including training, for the waters of the State, including offshore marine waters, to enable the State to respond to an emergency oil or other hazardous substances spillage. In carrying out its duties under this section, designated representatives of the State Emergency Response Commission, the Board of Transportation, the Wildlife Resources Commission, the Environmental Management Commission, the Division of Marine Fisheries, the Outer Continental Shelf Lands Office of the Department of Administration, and any other agency or agencies of the State which the State Emergency Response Commission shall deem necessary and appropriate, shall confer and establish plans and procedures for the assignment and utilization of personnel, equipment and material to be used in carrying out the purposes of this Part. Every State agency involved is authorized to adopt such rules as shall be necessary to effectuate the purposes of this section.

(b) Cooperative Effort. — The Board of Transportation, the North Carolina Wildlife Resources Commission, the Division of Marine Fisheries, and any other agency of this State and any local agency designated by the State shall cooperate with and lend assistance to the Commission by assigning to the Commission upon its request personnel, equipment, and material to be utilized in any project or activity related to the containment, collection, dispersal, or removal of oil or other hazardous substances discharged upon the land or discharged into waters affecting this State.

(c) Trucks. — The Secretary of Transportation may, after consultation with the Secretary of Environment and Natural Resources, purchase and equip a sufficient number of trucks designed to carry out the provisions of subsection (b) of this section. These trucks shall be maintained by the Department of Transportation and shall be strategically located at various locations through-

out the State so as to furnish a ready response when word of an oil or other hazardous substances discharge has been received. The Secretary of Environment and Natural Resources or his designee will, after consultation, decide where the trucks are to be located.

(d) Rules. — The Secretary of Transportation and the Secretary of Environment and Natural Resources or their designees shall adopt rules for the placement of these trucks and shall determine the manner and way in which they are to be used. The Secretary of Environment and Natural Resources shall reimburse the Department of Transportation for expenses incurred by the Department of Transportation during cleanups as provided in G.S. 143-215.88.

(e) Accounts. — Every State agency or other State-designated local agency participating in the containment, collection, dispersal, or removal of an oil or other hazardous substances discharge or in restoration necessitated by such discharge, shall keep a record of all expenses incurred in carrying out any such project or activity including the actual services performed by the agency's personnel and the use of the agency's personnel and the use of the agency's equipment and material. A copy of all records shall be delivered to the Commission upon completion of the project or activity. (1973, c. 507, s. 5; c. 534, s. 1; c. 1262, s. 23; 1979, c. 535, ss. 18, 19; 1987, c. 827, ss. 154, 195; 1989, c. 656, s. 3; c. 727, ss. 164, 165; 1997-443, s. 11A.119(a).)

Legal Periodicals. — For survey of 1979 administrative law, see 58 N.C.L. Rev. 1185 (1980).

§ 143-215.87. Oil or Other Hazardous Substances Pollution Protection Fund.

There is hereby established under the control and direction of the Department an Oil or Other Hazardous Substances Pollution Protection Fund which shall be a nonlapsing, revolving fund consisting of any moneys appropriated for such purpose by the General Assembly or that shall be available to it from any other source. The moneys shall be used to defray the expenses of any project or program for the containment, collection, dispersal or removal of oil or other hazardous substances discharged to the land or waters of this State, or discharged into waters outside the territorial limits of the State which affect land and waters or related uses within the State; to assess damages for injury to, destruction of, or loss of use of natural resources; and to develop and implement plans for restoration, rehabilitation, replacement, or acquisition of the equivalent of the natural resources injured by the discharge. In addition to any moneys that shall be appropriated or otherwise made available to it, the fund shall be maintained by fees, charges, or other moneys except for the clear proceeds of civil penalties paid to or recovered by or on behalf of the Department under the provisions of this Part. Any moneys paid to or recovered by or on behalf of the Department as fees, charges, or other payments as damages authorized by this Part except for the clear proceeds of civil penalties shall be paid to the Oil or Other Hazardous Substances Pollution Protection Fund in an amount equal to the sums expended from the fund for the project or activity.

The clear proceeds of civil penalties provided for in this section shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2. (1973, c. 534, s. 1; c. 1262, s. 23; 1979, c. 535, s. 20; 1989, c. 656, s. 4; 1993, c. 402, s. 10; 1998-215, s. 67(b).)

Legal Periodicals. — For survey of 1979 administrative law, see 58 N.C.L. Rev. 1185 (1980).

For note, "Spillover from the Exxon Valdez: North Carolina's New Offshore Oil Spill Statute," see 68 N.C.L. Rev. 1214 (1990).

§ 143-215.88. Payment to State agencies or State-designated local agencies.

Upon completion of any oil or other hazardous substances removal or restoration project or activity conducted pursuant to the provisions of this Part, each agency of the State or any State-designated local agency that has participated by furnishing personnel, equipment or material shall deliver to the Department a record of the expenses incurred by the agency. The amount of incurred expenses shall be disbursed by the Secretary to each such agency from the Oil or Other Hazardous Substances Pollution Protection Fund. Upon completion of any oil or other hazardous substances removal or restoration project or activity, the Secretary shall prepare a statement of all expenses and costs of the project or activity expended by the State and shall make demand for payment upon the person having control over the oil or other hazardous substances discharged to the land or waters of the State, unless the Commission shall determine that the discharge occurred due to any of the reasons stated in G.S. 143-215.83(b). Any person having control of oil or other hazardous substances discharged to the land or waters of the State in violation of the provisions of this Part and any other person causing or contributing to the discharge of oil or other hazardous substances shall be directly liable to the State for the necessary expenses of oil or other hazardous substances cleanup projects and activities arising from such discharge and the State shall have a cause of action to recover from any or all such persons. If the person having control over the oil or other hazardous substances discharged shall fail or refuse to pay the sum expended by the State, the Secretary shall refer the matter to the Attorney General of North Carolina, who shall institute an action in the name of the State in the Superior Court of Wake County, or in his discretion, in the superior court of the county in which the discharge occurred, to recover such cost and expenses. (1973, c. 534, s. 1; c. 1262, s. 23; 1977, c. 858, s. 2; 1979, c. 535, ss. 21, 22; 1987, c. 827, s. 154.)

§ 143-215.88A. Enforcement procedures: civil penalties.

(a) Any person who intentionally or negligently discharges oil or other hazardous substances, or knowingly causes or permits the discharge of oil in violation of this Part or fails to report a discharge as required by G.S. 143-215.85 or who fails to comply with the requirements of G.S. 143-215.84(a) or orders issued by the Commission as a result of violations thereof, shall incur, in addition to any other penalty provided by law, a penalty in an amount not to exceed five thousand dollars ($5,000) for every such violation, the amount to be determined by the Secretary after taking into consideration the factors set out in G.S. 143B-282.1(b), the amount expended by the violator in complying with the provisions of G.S. 143-215.84, and the estimated damages attributed to the violator under G.S. 143-215.90. Every act or omission which causes, aids or abets a violation of this subsection shall be considered a violation under the provisions of this subsection and subject to the penalty herein provided. The procedures set out in G.S. 143-215.6 and G.S. 143B-282.1 shall apply to civil penalties assessed under this section. The penalty herein provided for shall become due and payable when the person incurring the penalty receives a notice in writing from the Commission describing the violation with reasonable particularity and advising such person that the penalty is due. A person may contest a penalty by filing a petition for a contested case under G.S. 150B-23

within 30 days after receiving notice of the penalty. If any civil penalty has not been paid within 30 days after notice of assessment has been served on the violator, the Secretary shall request the Attorney General to institute a civil action in the Superior Court of any county in which the violator resides or has his or its principal place of business to recover the amount of the assessment, unless the violator contests the assessment as provided in this subsection, or requests remission of the assessment in whole or in part. If any civil penalty has not been paid within 30 days after the final agency decision or court order has been served on the violator, the Secretary shall request the Attorney General to institute a civil action in the Superior Court of any county in which the violator resides or has his or its principal place of business to recover the amount of the assessment. Notification received pursuant to this subsection or information obtained by the exploitation of such notification shall not be used against any person in any criminal case, except as prosecution for perjury or for giving a false statement.

(b) The civil penalties provided by this section, except the civil penalty for failure to report, shall not apply to the discharge of a pesticide regulated by the North Carolina Pesticide Board, if such discharge would constitute a violation of the North Carolina Pesticide Law and if such discharge has not entered the surface waters of the State.

(c) The clear proceeds of civil penalties provided for in this section shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2. (1973, c. 534, s. 1; 1973, c. 1262, s. 23; 1979, c. 535, ss. 25, 26; 1987, c. 270; c. 827, ss. 154, 197; 1989 (Reg. Sess., 1990), c. 1036, s. 6; c. 1045, s. 7; c. 1075, s. 8; 1998-215, s. 67(a).)

§ 143-215.88B. Enforcement procedures: criminal penalties.

(a) No proceeding shall be brought or continued under this section for or on account of a violation by any person who has previously been convicted of a federal violation based upon the same set of facts.

(b) In proving the defendant's possession of actual knowledge, circumstantial evidence may be used, including evidence that the defendant took affirmative steps to shield himself from relevant information. Consistent with the principles of common law, the subjective mental state of defendants may be inferred from their conduct.

(c) For the purposes of the felony provisions of this section, a person's state of mind shall not be found "knowingly and willfully" or "knowingly" if the conduct that is the subject of the prosecution is the result of any of the following occurrences or circumstances:

(1) A natural disaster or other act of God which could not have been prevented or avoided by the exercise of due care or foresight.

(2) An act of third parties other than agents, employees, contractors, or subcontractors of the defendant.

(3) An act done in reliance on the written advice or emergency on-site direction of an employee of the Department. In emergencies, oral advice may be relied upon if written confirmation is delivered to the employee as soon as practicable after receiving and relying on the advice.

(4) An act causing no significant harm to the environment or risk to the public health, safety, or welfare and done in compliance with other conflicting environmental requirements or other constraints imposed in writing by environmental agencies or officials after written notice is delivered to all relevant agencies that the conflict exists and will cause a violation of the identified standard.

(5) Violations of permit limitations causing no significant harm to the environment or risk to the public health, safety, or welfare for which no enforcement action or civil penalty could have been imposed under any written civil enforcement guidelines in use by the Department at the time, including but not limited to, guidelines for the pretreatment permit civil penalties. This subdivision shall not be construed to require the Department to develop or use written civil enforcement guidelines.

(d) All general defenses, affirmative defenses, and bars to prosecution that may apply with respect to other criminal offenses under State criminal offenses may apply to prosecutions brought under this section or other criminal statutes that refer to this section and shall be determined by the courts of this State according to the principles of common law as they may be applied in the light of reason and experience. Concepts of justification and excuse applicable under this section may be developed in the light of reason and experience.

(e) Any person who knowingly and willfully discharges or causes or permits the discharge of oil or other hazardous substances in violation of this Part shall be guilty of a Class H felony which may include a fine to be not more than one hundred thousand dollars ($100,000) per day of violation, provided that this fine shall not exceed a cumulative total of five hundred thousand dollars ($500,000) for each period of 30 days during which a violation continues. For the purposes of this subsection, the phrase "knowingly and willfully" shall mean intentionally and consciously as the courts of this State, according to the principles of common law interpret the phrase in the light of reason and experience.

(f)(1) Any person who knowingly discharges or causes or permits the discharge of oil or other hazardous substances in violation of this Part, and who knows at that time that he places another person in imminent danger of death or serious bodily injury shall be guilty of a Class C felony which may include a fine not to exceed two hundred fifty thousand dollars ($250,000) per day of violation, provided that this fine shall not exceed a cumulative total of one million dollars ($1,000,000) for each period of 30 days during which a violation continues.

(2) For the purposes of this subsection, a person's state of mind is knowing with respect to:

a. His conduct, if he is aware of the nature of his conduct;

b. An existing circumstance, if he is aware or believes that the circumstance exists; or

c. A result of his conduct, if he is aware or believes that his conduct is substantially certain to cause danger of death or serious bodily injury.

(3) Under this subsection, in determining whether a defendant who is a natural person knew that his conduct placed another person in imminent danger of death or serious bodily injury:

a. The person is responsible only for actual awareness or actual belief that he possessed; and

b. Knowledge possessed by a person other than the defendant but not by the defendant himself may not be attributed to the defendant.

(4) It is an affirmative defense to a prosecution under this subsection that the conduct charged was conduct consented to by the person endangered and that the danger and conduct charged were reasonably foreseeable hazards of an occupation, a business, or a profession; or of medical treatment or medical or scientific experimentation conducted by professionally approved methods and such other person had been

made aware of the risks involved prior to giving consent. The defendant may establish an affirmative defense under this subdivision by a preponderance of the evidence.

(g) The criminal penalties provided by this section shall not apply to the discharge of a pesticide regulated by the North Carolina Pesticide Board, if such discharge would constitute a violation of the North Carolina Pesticide Law and if such discharge has not entered the surface waters of the State.

(h) Any person who knowingly and willfully makes any false statement, representation, or certification in any application, record, report, plan, or other document filed or required to be maintained under this Article or rules adopted under this Article; or who knowingly and willfully makes a false statement of a material fact in a rule-making proceeding or contested case under this Article; or who falsifies, tampers with, or knowingly and willfully renders inaccurate any recording or monitoring device or method required to be operated or maintained under this Article or rules adopted under this Article is guilty of a Class I felony, which may include a fine not to exceed one hundred thousand dollars ($100,000) per day of violation, provided that the fine shall not exceed a cumulative total of five hundred thousand dollars ($500,000) for each period of 30 days during which a violation continues. (1973, c. 534, s. 1; 1973, c. 1262, s. 23; 1979, c. 535, ss. 25, 26; 1987, c. 270; c. 827, ss. 154, 197; 1989 (Reg. Sess., 1990), c. 1045, s. 8; 1993, c. 539, ss. 1316, 1317; 1994, Ex. Sess., c. 24, s. 14(c); 1997-394, s. 6.)

§ 143-215.89. Multiple liability for necessary expenses.

Any person liable for costs of cleanup of oil or other hazardous substances under this Part shall have a cause of action to recover such costs in part or in whole from any other person causing or contributing to the discharge of oil or other hazardous substances into the waters of the State, including any amount recoverable by the State as necessary expenses. The total recovery by the State for damage to the public resources pursuant to G.S. 143-215.90 and for the cost of oil or other hazardous substances cleanup, arising from any discharge, shall not exceed the applicable limits prescribed by federal law with respect to the United States government on account of such discharge. (1973, c. 534, s. 1; 1979, c. 535, s. 23; 1989 (Reg. Sess., 1990), c. 1045, s. 12.)

§ 143-215.90. Liability for damage to public resources.

(a) Any person who discharges oil or other hazardous substances in violation of this Article or violates any order, or rule of the Commission adopted pursuant to this Article, or fails to perform any duty imposed by this Article, or violates an order or other determination of the Commission made pursuant to the provisions of this Article, including the provisions of a discharge permit issued pursuant to G.S. 143-215.1, and in the course thereof causes the death of, or injury to fish, animals, vegetation or other resources of the State or otherwise causes a reduction in the quality of the waters of the State below the standards set by the Commission, shall be liable to pay the State damages. Such damages shall be an amount equal to the cost of all reasonable and necessary investigations made or caused to be made by the Commission in connection with such violation and the sum of money necessary to restock such waters, replenish such resources, or otherwise restore the rivers, streams, bays, tidal flats, beaches, estuaries or coastal waters and public lands adjoining the seacoast to their condition prior to the injury as such condition is determined by the Commission in conference with the Wildlife Resources Commission, and any other State agencies having an interest affected by such violation (or by the designees of any such boards, commissions, and agencies).

(b) Upon receipt of the estimate of damages caused, the Department shall give written notice by registered or certified mail to the person responsible for the death, killing, or injury to fish, animals, vegetation, or other resources of the State, or any reduction in quality of the waters of the State, describing the damages and their causes with reasonable specificity, and shall request payment from such person. Damages shall become due and payable upon receipt of such notice. A person may contest an assessment of damages by filing a petition for a contested case under G.S. 150B-23 within 30 days after receiving notice of the damages. In a contested case hearing, the estimate of the replacement cost of fish or animals or vegetation destroyed, and the estimate of costs of replacing or restoring other resources of the State, and the estimate of the cost of restoring the quality of waters of the State shall be prima facie evidence of the actual replacement of cost of fish, animals, vegetation or other resources of the State, and of the actual cost of restoring the quality of the waters of the State; provided, that such evidence is rebuttable. In arriving at such estimate, any reasonably accurate method may be used and it shall not be necessary for any agent of the Department or Wildlife Resources Commission to collect, handle, or weigh numerous specimens of dead or injured fish, animals, vegetation or other resources of the State, or to calculate the costs of restoring the quality of the waters using any technology other than that which is existing and practicable, as found to be such by the Secretary. Provided, that the Department may effect such mitigation of the amount of damages as the Commission may deem proper and reasonable. If a person fails to pay damages assessed against him, the Commission shall refer the matter to the Attorney General for collection. Any money recovered by the Attorney General or by payment of damages by the person charged therewith by the Department shall be transferred by the Commission to appropriate funds administered by the State agencies affected by the violation for use in such activities as food fish or shellfish management programs, wildlife and waterfowl management programs, water quality improvement programs and such other uses as may best mitigate the damage incurred as a result of the violation. No action shall be authorized under the provisions of this section against any person operating in compliance with the conditions of a waste discharge permit issued pursuant to G.S. 143-215.1 and the provisions of this Part.

(c) For the purpose of carrying out its duties under this Article, the Commission shall have the power to direct the investigation of any death, killing, or injury to fish, animals, vegetation or other resources of the State, or any reduction in quality of the waters of the State, which in the opinion of the Commission is of sufficient magnitude to justify investigation. (1973, c. 534, s. 1; c. 1262, s. 23; 1979, c. 535, s. 24; 1987, c. 827, ss. 154, 196.)

Legal Periodicals. — For survey of 1979 administrative law, see 58 N.C.L. Rev. 1185 (1980).

§ 143-215.91: Recodified as G.S. 143-215.88A, 143-215.88B.

§ 143-215.91A. Limited liability for volunteers in oil and hazardous substance abatement.

Part 5 of this Article shall apply to the determination of civil liability or penalty pursuant to this Article. (1987, c. 269, s. 3.)

§ 143-215.92. Lien on vessel.

Any vessel (other than one owned or operated by the State of North Carolina or its political subdivisions or the United States government) from which oil or other hazardous substances is discharged in violation of this Part or any rule prescribed pursuant thereto, shall be liable for the pecuniary penalty and costs of oil or other hazardous substances removal specified in this Part and such penalty and costs shall constitute a lien on such vessel; provided, however, that said lien shall not attach if a surety bond is posted with the Commission in an amount and with sureties acceptable to the Commission, or a cash deposit is made with the Commission in an amount acceptable to the Commission. Provided further, that such lien shall not have priority over any existing perfected lien or security interest. The Commission may adopt rules providing for such conditions, limitations, and requirements concerning the bond or deposit prescribed by this section as the Commission deems necessary. (1973, c. 534, s. 1; c. 1262, s. 23; 1979, c. 535, s. 27; 1987, c. 827, ss. 154, 198.)

§ 143-215.93. Liability for damage caused.

Any person having control over oil or other hazardous substances which enters the waters of the State in violation of this Part shall be strictly liable, without regard to fault, for damages to persons or property, public or private, caused by such entry, subject to the exceptions enumerated in G.S. 143-215.83(b). (1973, c. 534, s. 1; 1979, c. 535, s. 28.)

CASE NOTES

Statutory "control over" oil is not necessarily coextensive with physical control or possession of oil or ownership of oil at the time of its discharge, and since carriers and bailees are expressly included in the definition of "having control over," one need not have an ownership interest in oil to "have control over" it. Jordan v. Foust Oil Co., 116 N.C. App. 155, 447 S.E.2d 491 (1994), cert. denied, 339 N.C. 613, 454 S.E.2d 252 (1995).

Liability Shown. — Because defendant delivered gasoline several times into tanks it knew or should have known were leaking, these acts tended to show some legal responsibility on defendant's part for the unauthorized seepage and supported the claim of trespass, even though defendants did not own the land or the underground, storage tanks. Jordan v. Foust Oil Co., 116 N.C. App. 155, 447 S.E.2d 491 (1994), cert. denied, 339 N.C. 613, 454 S.E.2d 252 (1995).

Liability Not Shown. — Appellants failed to show that the potential sources of contamination from defendant's property caused them damage such that strict liability under the Oil Pollution and Hazardous Substances Control Act did not obtain. Ammons v. Wysong & Miles Co., 110 N.C. App. 739, 431 S.E.2d 524, cert. denied, 334 N.C. 619, 435 S.E.2d 332 (1993).

To establish a claim for damages caused by the contamination of well water, a plaintiff must offer more than evidence of the contamination of their water and a release of contaminants in the area. Ellington v. Hester, 127 N.C. App. 172, 487 S.E.2d 843, cert. denied, 347 N.C. 397, 494 S.E.2d 409 (1997).

Summary Judgment Upheld. — In case involving gasoline contamination of plaintiffs' wells, where the major oil loss was in 1978, trial court properly entered summary judgment in favor of defendant and her husband, who owned the property between Jan. 1962 and Jan. 1976 and had discontinued the sale of gasoline nearly four years before the major spill occurred, and in favor of defendant oil company, which last delivered gasoline to the property in 1974. Wilson v. McLeod Oil Co., 95 N.C. App. 479, 383 S.E.2d 392, appeal of right allowed pursuant to Rule 16(b) and petition allowed as to additional issues, 325 N.C. 714, 388 S.E.2d 473 (1989), rev'd on other grounds,, rehearing denied,.

Evidence Sufficient to Withstand Summary Judgment. — In case involving gasoline contamination of plaintiffs' wells, plaintiff produced sufficient evidence to withstand defendants' summary judgment, where plaintiff introduced evidence which tended to show that defendants' property was a potential source of contamination of plaintiffs' wells and that defendants either owned the property during the period of contamination or provided gasoline to the site. Wilson v. McLeod Oil Co., 95 N.C. App. 479, 383 S.E.2d 392, appeal of right allowed pursuant to Rule 16(b) and petition allowed as

to additional issues, 325 N.C. 714, 388 S.E.2d 473 (1989).

Cause of Action Barred by Statute of Limitations. — The three-year statute of limitations found in G.S. 1-52(2) barred an action brought under this Article, where plaintiff waited longer than three years after discovering the contamination to file the action. Wilson v. McLeod Oil Co., 327 N.C. 491, 398 S.E.2d 586 (1990), cert. denied, 328 N.C. 336, 402 S.E.2d 844 (1991).

Applied in Biddix v. Henredon Furn. Indus., Inc., 76 N.C. App. 30, 331 S.E.2d 717 (1985).

Cited in Ashley Park Charlotte Assocs. v. City of Charlotte, 827 F. Supp. 1223 (W.D.N.C. 1993).

§ 143-215.93A. Limitation on liability of persons engaged in removal of oil discharges.

(a) Except as provided in subsection (b) of this section, a person is not liable under this Part, Part 2C of this Article, Articles 21 and 21B of this Chapter, other provisions of the General Statutes relating to protection of the environment or public health, Chapter 1B of the General Statutes, or common law causes of action in tort for removal costs or damages which result from, arise out of, or are related to the discharge or threatened discharge of oil, when such removal costs or damages result from acts or omissions in the course of rendering care, assistance, or advice consistent with the National Contingency Plan or as otherwise directed by the President of the United States, the Federal On-Scene Coordinator, the Governor, the Secretary, the Secretary of Crime Control and Public Safety, or any person designated to direct oil discharge removal activities by the President of the United States, the Governor, the Secretary, or the Secretary of Crime Control and Public Safety.

(b) The limitation on liability under subsection (a) of this section does not apply:

(1) To a responsible party;

(2) To a response under CERCLA/SARA or under Part 4 of Article 9 of Chapter 130A of the General Statutes;

(3) To a response under Part 3 of Article 9 of Chapter 130A of the General Statutes;

(4) To a cleanup under Part 2A of this Article;

(5) With respect to personal injury or wrongful death; or

(6) If the person is grossly negligent or engages in willful misconduct.

(c) A responsible party is liable for any removal costs and damages that another person is relieved of under this section.

(d) Nothing in this section affects the obligation of an owner or operator to respond immediately to a discharge, or the threat of a discharge, of oil.

(e) As used in this section:

(1) "CERCLA/SARA" means the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, Pub. L. No. 96-510, 94 Stat. 2767, 42 U.S.C. § 9601 et seq., as amended, and the Superfund Amendments and Reauthorization Act of 1986, Pub. L. No. 99-499, 100 Stat. 1613, as amended.

(2) "Damages" has the same meaning as in the Oil Pollution Act of 1990, 33 U.S.C. § 2701, and G.S. 143-215.94BB.

(3) "Federal On-Scene Coordinator" means a person designated as such in the National Contingency Plan.

(4) "National Contingency Plan" has the same meaning as in 33 U.S.C. § 1321, as amended.

(5) "Oil Pollution Act of 1990" means the Oil Pollution Act of 1990, Pub. L. No. 101-380, 104 Stat. 484, which appears generally as 33 U.S.C. § 2701 et seq., as amended.

(6) "Remove" or "removal" has the same meaning as in the Oil Pollution Act of 1990, 33 U.S.C. § 2701.

(7) "Removal costs" has the same meaning as in the Oil Pollution Act of 1990, 33 U.S.C. § 2701.

(8) "Responsible party" means a person who is a "responsible party" as defined in the Oil Pollution Act of 1990, 33 U.S.C. § 2701, and who is liable for removal costs or damages which result from, arise out of, or are related to the discharge or threatened discharge of oil. (1991, c. 432, s. 1.)

§ 143-215.94. Joint and several liability.

In order to provide maximum protection for the public interest, any actions brought pursuant to G.S. 143-215.88 through 143-215.91(a), 143-215.93 or any other section of this Article, for recovery of cleanup costs or for civil penalties or for damages, may be brought against any one or more of the persons having control over the oil or other hazardous substances or causing or contributing to the discharge of oil or other hazardous substances. All said persons shall be jointly and severally liable, but ultimate liability as between the parties may be determined by common-law principles. (1973, c. 534, s. 1; 1977, c. 858, s. 3; 1979, c. 535, s. 29.)

Legal Periodicals. — For note, "Underground Storage Tanks: A Lawyer's Guide to Recent Federal and North Carolina Legislation," see 12 Campbell L. Rev. 447 (1990).

CASE NOTES

Applied in Wilson v. McLeod Oil Co., 95 N.C. App. 479, 383 S.E.2d 392 (1989), rev'd on other grounds, Wilson v. McLeod Oil Co., 327 N.C. 491, 398 S.E.2d 586 (1990); Carpenter v. Brewer Hendley Oil Co., 145 N.C. App. 493, 549 S.E.2d 886, 2001 N.C. App. LEXIS 653 (2001).

Part 2A. Leaking Petroleum Underground Storage Tank Cleanup.

§ 143-215.94A. Definitions.

Unless a different meaning is required by the context, the following definitions shall apply throughout this Part and Part 2B of this Article:

(1a) "Affiliate" has the same meaning as in 17 Code of Federal Regulations § 240.12(b)-2 (1 April 1994 Edition), which defines "affiliate" as a person that directly, or indirectly through one or more intermediaries, controls, is controlled by, or is under common control of another person.

(1b) "Commercial Fund" means the Commercial Leaking Petroleum Underground Storage Tank Cleanup Fund established pursuant to this Part.

(2) "Commercial underground storage tank" means any one or combination of tanks (including underground pipes connected thereto) used to contain an accumulation of petroleum products, the volume of which (including the volume of the underground pipes connected thereto) is ten percent (10%) or more beneath the surface of the ground. The term "commercial underground storage tank" does not include any:

a. Farm or residential underground storage tank of 1,100 gallons or less capacity used for storing motor fuel for noncommercial purposes;

b. Underground storage tank of 1,100 gallons or less capacity used for storing heating oil for consumptive use on the premises where stored;

c. Underground storage tank of more than 1,100 gallon capacity used for storing heating oil for consumptive use on the premises where stored by four or fewer households;
d. Septic tank;
e. Pipeline facility (including gathering lines) regulated under:
1. The Natural Gas Pipeline Safety Act of 1968 (49 U.S.C. § 1671 et seq.);
2. The Hazardous Liquid Pipeline Safety Act of 1979 (49 U.S.C. § 2001 et seq.); or
3. Any intrastate pipeline facility regulated under State laws comparable to the provisions of the Natural Gas Pipeline Safety Act of 1968 or the Hazardous Liquid Pipeline Safety Act of 1979;
f. Surface impoundment, pit, pond, or lagoon;
g. Storm water or waste water collection system;
h. Flow-through process tank;
i. Liquid trap or associated gathering lines directly related to oil or gas production and gathering operations; or
j. Storage tank situated in an underground area (such as a basement, cellar, mineworking, drift, shaft, or tunnel) if the storage tank is situated upon or above the surface of the floor.

(2a) "Cost-effective cleanup" means the cleanup method that meets all of the following criteria:
a. Addresses imminent threats to human health or the environment.
b. Provides for the cleanup or removal of all contaminated soil except in circumstances where it is impractical to remove contaminated soil.
c. Is approved by the Commission for remediation of the site.
d. Is the least expensive cleanup based on total cost, including costs not eligible for reimbursement from the Commercial Fund or the Noncommercial Fund.

(3) "Council" means the North Carolina Petroleum Underground Storage Tank Funds Council.

(3a) "Facility" means an underground storage tank, or two or more underground storage tanks located in close proximity to each other and having the same owner or operator, that are located on a single tract of land or on contiguous tracts of land that are owned or controlled by the same person. As used in this subdivision, the terms "owner", "operator", and "person" include any affiliate, parent, and subsidiary of the owner, operator, or person, respectively. The owner or person having control of the land on which an underground storage tank is located, or on which two or more underground storage tanks are located, need not be the owner or operator of the underground storage tank or underground storage tanks. The term "facility", as defined in this subdivision, does not apply to a "pipeline facility", as that phrase is used in subdivisions (2) and (7) of this section.

(4) "Heating oil" means petroleum that is No. 1, No. 2, No. 4-light, No. 4-heavy, No. 5-light, No. 5-heavy, or No. 6 technical grades of fuel oil; other residual fuel oils, including Navy Special Fuel Oil and Bunker C; and other fuels when used as substitutes for one of these fuel oils for the purpose of heating.

(5) "Loan Fund" means the Groundwater Protection Loan Fund.

(6) "Noncommercial Fund" means the Noncommercial Leaking Petroleum Underground Storage Tank Cleanup Fund established pursuant to this Part.

(7) "Noncommercial underground storage tank" means any one or combination of tanks (including underground pipes connected thereto) used

to contain an accumulation of petroleum products, the volume of which (including the volume of the underground pipes connected thereto) is ten percent (10%) or more beneath the surface of the ground. The term "noncommercial storage tank" does not include any:

a. Commercial underground storage tanks;
b. Septic tank;
c. Pipeline facility (including gathering lines) regulated under:
   1. The Natural Gas Pipeline Safety Act of 1968 (49 U.S.C. § 1671 et seq.);
   2. The Hazardous Liquid Pipeline Safety Act of 1979 (49 U.S.C. § 2001 et seq.); or
   3. Any intrastate pipeline facility regulated under State laws comparable to the provisions of the Natural Gas Pipeline Safety Act of 1968 or the Hazardous Liquid Pipeline Safety Act of 1979;
d. Surface impoundment, pit, pond, or lagoon;
e. Storm water or waste water collection system;
f. Flow-through process tank;
g. Liquid trap or associated gathering lines directly related to oil or gas production and gathering operations; or
h. Storage tank situated in an underground area (such as a basement, cellar, mineworking, drift, shaft, or tunnel) if the storage tank is situated upon or above the surface of the floor.

(8) "Operator" means any person in control of, or having responsibility for, the operation of an underground storage tank.

(9) "Owner" means:

a. In the case of an underground storage tank in use on 8 November 1984, or brought into use after that date, any person who owns an underground storage tank used for the storage, use, or dispensing of petroleum products; and
b. In the case of an underground storage tank in use before 8 November 1984, but no longer in use on or after that date, any person who owned such tank immediately before the discontinuation of its use.

(9a) "Parent" has the same meaning as in 17 Code of Federal Regulations § 240.12(b)-2 (1 April 1994 Edition), which defines "parent" as an affiliate that directly, or indirectly through one or more intermediaries, controls another person.

(10) "Petroleum" or "petroleum product" means crude oil or any fraction thereof which is a liquid at standard conditions of temperature and pressure (60 degrees Fahrenheit and 14.7 pounds per square inch absolute), including any such liquid which consists of a blend of petroleum and alcohol and which is intended for use as a motor fuel. The terms "petroleum" and "petroleum product" do not include any hazardous substance as defined in Section 101(14) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, Pub. L. No. 96-510, 94 Stat. 2767, 42 U.S.C. § 9601(14) as amended; any substance regulated as a hazardous waste under Subtitle C of Title II of the Resource Conservation and Recovery Act of 1976, Pub. L. 94-580, 90 Stat. 2806, 42 U.S.C. § 6921 et seq., as amended; or any mixture of petroleum or a petroleum product containing any such hazardous substance or hazardous waste in greater than de minimis quantities.

(11) "Subsidiary" has the same meaning as in 17 Code of Federal Regulations § 240.12(b)-2 (1 April 1994 Edition), which defines "subsidiary" as an affiliate that is directly, or indirectly through one or more

intermediaries, controlled by another person. (1987 (Reg. Sess., 1988), c. 1035, s. 1; 1989, c. 652, s. 3; 1991, c. 538, s. 1; 1995, c. 377, s. 4; 1997-456, s. 27; 2003-352, s. 1.)

Cross References. — As to imposition of land-use restrictions to reduce danger to public health at contaminated sites, see G.S. 143B-279.9.

Editor's Note. — Subsections (0) and (1) were redesignated as subsections (1a) and (1b) pursuant to Session Laws 1997-456, s. 27 which authorized the Revisor of Statutes to renumber or reletter sections and parts of sections having a number or letter designation that is incompatible with the General Assembly's computer database.

Session Laws 2001-454, s. 1, provides: "There is appropriated from the Noncommercial Leaking Petroleum Underground Storage Tank Cleanup Fund to the Department of Environment and Natural Resources the sum of four hundred ninety-five thousand dollars ($495,000) for the 2001-2002 fiscal year and the sum of four hundred ninety-five thousand dollars ($495,000) for the 2002-2003 fiscal year to implement the provisions of Parts 2A and 2B of Article 21A of Chapter 143 of the General Statutes."

Session Laws 2001-454, s. 2, provides: "The Environmental Review Commission shall evaluate the increased funding for implementation of the provisions of Parts 2A and 2B of Article 21A of Chapter 143 of the General Statutes authorized by Section 1 of this act [Session Laws 2001-454, s. 1]. The Commission shall determine whether adjustments should be made to the amounts appropriated from the Commercial Leaking Petroleum Underground Storage Tank Cleanup Fund and the Noncommercial Leaking Petroleum Underground Storage Tank Cleanup Fund to implement Parts 2A and 2B of Article 21A of Chapter 143 of the General Statutes. The Commission shall report its findings and recommendations, if any, to the 2003 General Assembly."

Session Laws 2003-352, s. 11, provides: "In order to reduce costs associated with the assessment and cleanup of discharges and releases of petroleum from petroleum underground storage tanks, the Environmental Management Commission may adopt temporary and permanent rules to modify the testing requirements set out in 15A NCAC 2L.0115 (Risk-Based Assessment and Corrective Action for Petroleum Underground Storage Tanks). Reference to this section shall satisfy the requirement for a statement of finding of need for a temporary rule."

Session Laws 2003-352, s. 12(a), provides: "The Environmental Review Commission may study issues related to the Leaking Petroleum Underground Storage Tank Cleanup Program. The Commission may evaluate any of the following:

"(1) The adequacy of program funding.

"(2) Options for management of available funds, including prioritization of cleanups and preapproval of cleanups.

"(3) Changes in deductible and co-payment requirements.

"(4) Options to increase program funding.

"(5) The availability and use of private insurance to pay or reimburse the costs of the assessment and cleanup of releases and discharges of petroleum from petroleum underground storage tanks and of any liability of owners and operators of those tanks to third parties.

"(6) Issues related to the inclusion of aboveground storage tanks in the program, including registration, fees and other funding issues, cleanup standards, and regulation of these tanks.

"(7) Issues related to the provision of liability protection to a bona fide purchaser of a petroleum-contaminated property who has knowledge of, but did not cause or contribute to, the contamination of the property."

Session Laws 2003-352, s. 12(b), provides: "The Commission may report its findings and recommendations, including any proposed legislation, to the 2004 Regular Session of the 2003 General Assembly, or to the 2005 General Assembly."

Effect of Amendments. — Session Laws 2003-352, s. 1, effective July 27, 2003, inserted subdivision (2a).

CASE NOTES

Company as "Operator" of Two Storage Tanks. — Substantial evidence, including evidence that only petitioner company's employees used two underground storage tanks and that the company's employees maintained the tanks, supported the finding of respondent, the North Carolina Department of Environment and Natural Resources, that the company was the "operator" of the tanks within the meaning of G.S. 143-215.94A(8). Dixie Lumber Co. of Cherryville, Inc. v. N.C. Dep't of Env't, Health & Natural Res., 150 N.C. App. 144, 563 S.E.2d

212, 2002 N.C. App. LEXIS 407 (2002), cert. denied, 356 N.C. 161, 568 S.E.2d 192 (2002).

Cited in Carpenter v. Brewer Hendley Oil Co., 145 N.C. App. 493, 549 S.E.2d 886, 2001 N.C. App. LEXIS 653 (2001).

§ 143-215.94B. Commercial Leaking Petroleum Underground Storage Tank Cleanup Fund.

(a) There is established under the control and direction of the Department the Commercial Leaking Petroleum Underground Storage Tank Cleanup Fund. This Commercial Fund shall be a nonreverting revolving fund consisting of any monies appropriated for such purpose by the General Assembly or available to it from grants, other monies paid to it or recovered on behalf of the Commercial Fund, and fees paid pursuant to this Part.

(b) The Commercial Fund shall be used for the payment of the following costs up to an aggregate maximum of one million dollars ($1,000,000) per occurrence resulting from a discharge or release of a petroleum product from a commercial underground storage tank:

(1) For discharges or releases discovered or reported between 30 June 1988 and 31 December 1991 inclusive, the cleanup of environmental damage as required by G.S. 143-215.94E(a) in excess of fifty thousand dollars ($50,000) per occurrence.

(2) For discharges or releases discovered on or after 1 January 1992 and reported between 1 January 1992 and 31 December 1993 inclusive, the cleanup of environmental damage as required by G.S. 143-215.94E(a) in excess of twenty thousand dollars ($20,000) per occurrence.

(2a) For discharges or releases discovered and reported on or after 1 January 1994 and prior to 1 January 1995, the cleanup of environmental damage as required by G.S. 143-215.94E(a) in excess of twenty thousand dollars ($20,000) if the owner or operator (i) notifies the Department prior to 1 January 1994 of its intent to permanently close the tank in accordance with applicable regulations or to upgrade the tank to meet the requirements that existing underground storage tanks must meet by 22 December 1998, (ii) commences closure or upgrade of the tank prior to 1 July 1994, and (iii) completes closure or upgrade of the tank prior to 1 January 1995.

(3) For discharges or releases reported on or after 1 January 1994, the cleanup of environmental damage as required by G.S. 143-215.94E(a) in excess of twenty thousand dollars ($20,000) if, prior to the discharge or release, the commercial underground storage tank from which the discharge or release occurred met the performance standards applicable to tanks installed after 22 December 1988 or met the requirements that existing underground storage tanks must meet by 22 December 1998.

(4) For discharges or releases reported on or after 1 January 1994 from a commercial underground storage tank that does not qualify under subdivision (2a) of this subsection or does not meet the standards in subdivision (3) of this subsection, sixty percent (60%) of the costs per occurrence of the cleanup of environmental damage as required by G.S. 143-215.94E(a) that exceeds twenty thousand dollars ($20,000) but is not more than one hundred fifty-seven thousand five hundred dollars ($157,500) and one hundred percent (100%) of the costs above this amount, up to the limits established in this section.

(5) Compensation to third parties for bodily injury and property damage in excess of one hundred thousand dollars ($100,000) per occurrence.

(6) Reimbursing the State for damages or other costs incurred as a result of a loan from the Loan Fund. The per occurrence limit does not apply to reimbursements to the State under this subdivision.

(7) Recordation of residual petroleum as required by G.S. 143B-279.11 if the Commercial Fund is responsible for the payment of costs under subdivisions (1) through (4) of this subsection.

(b1) In the event that two or more discharges or releases at any one facility, the first of which was discovered or reported on or after 30 June 1988, result in more than one plume of soil, surface water, or groundwater contamination, the Commercial Fund shall be used for the payment of the costs of the cleanup of environmental damage as required by G.S. 143-215.94E(a) in excess of the multiple discharge amount up to the applicable aggregate maximum specified in subsections (b) and (b2) of this section. The multiple discharge amount shall be calculated as follows:

(1) Each discharge or release shall be considered separately as if it were the only discharge or release, and the cost for which the owner or operator is responsible under subdivisions (1), (2), (2a), or (3) of subsection (b) of this section, whichever are applicable, shall be determined for each discharge or release. For each discharge or release for which subdivision (4) of subsection (b) of this section is applicable, the cost for which the owner or operator is responsible, for the purpose of this subsection, shall be seventy-five thousand dollars ($75,000). For purposes of this subsection, two or more discharges or releases that result in a single plume of soil, surface water, or groundwater contamination shall be considered as a single discharge or release.

(2) The multiple discharge amount shall be the lesser of:

a. The sum of all the costs determined as set out in subdivision (1) of this subsection; or

b. The product of the highest of the costs determined as set out in subdivision (1) of this subsection multiplied by one and one-half (1½).

(b2) In the event that the aggregate costs per occurrence described in subsection (b) or (b1) of this section exceed one million dollars ($1,000,000), the Commercial Fund shall be used for the payment of eighty percent (80%) of the costs in excess of one million dollars ($1,000,000) up to a maximum of one million five hundred thousand dollars ($1,500,000). The Department shall not pay or reimburse costs under this subsection unless the owner, operator, or landowner eligible for reimbursement under G.S. 143-215.94E(b1) submits proof that the owner, operator, or landowner eligible for reimbursement under G.S. 143-215.94E(b1) has paid at least twenty percent (20%) of the costs for which reimbursement is sought.

(b3) For purposes of subsections (b) and (b1) of this section, the cleanup of environmental damage includes connection of a third party to a public water system if the Department determines that connection of the third party to a public water system is a cost-effective measure, when compared to other available measures, to reduce risk to human health or the environment. A payment or reimbursement under this subsection is subject to the requirements and limitations of this section. This subsection shall not be construed to limit any right or remedy available to a third party under any other provision of law. This subsection shall not be construed to require a third party to connect to a public water system. Except as provided by this subsection, connection to a public water system does not constitute cleanup under Part 2 of this Article, G.S. 143-215.94E, G.S. 143-215.94V, any other applicable statute, or at common law.

(b4) The Commercial Fund shall pay any claim made after 1 September 2001 for compensation to third parties pursuant to subdivision (5) of subsection (b) of this section only if the owner, operator, or other party responsible for the discharge or release has complied with the requirements of G.S. 143B-

279.9 and G.S. 143B-279.11, unless compliance is prohibited by another provision of law.

(c) The Commercial Fund is to be available on an occurrence basis, without regard to number of occurrences associated with tanks owned or operated by the same owner or operator.

(d) The Commercial Fund shall not be used for:

(1) Costs incurred as a result of a discharge or release from an aboveground tank, aboveground pipe or fitting not connected to an underground storage tank, or vehicle.

(2) The removal or replacement of any tank, pipe, fitting or related equipment.

(3) Costs incurred as a result of a discharge or release of petroleum from a transmission pipeline.

(4) Costs intended to be paid by the Noncommercial Fund.

(5) Costs associated with the administration of any underground storage tank program other than the program administered pursuant to this Part.

(6) Costs paid or reimbursed by or from any source other than the Commercial Fund, including but not limited to, any payment or reimbursement made under a contract of insurance.

(7) Costs incurred as a result of the cleanup of environmental damage to groundwater to a more protective standard than the risk-based standard required by the Department unless the cleanup of environmental damage to groundwater to a more protective standard is necessary to resolve a claim for compensation by a third party for property damage.

(8) Costs in excess of those required to achieve the most cost-effective cleanup.

(e) The Commercial Fund shall be treated as a special trust fund and shall be credited with interest by the State Treasurer pursuant to G.S. 147-69.2 and G.S. 147-69.3.

(f) **(Effective until October 1, 2006)** During each fiscal year, the Department may use up to two million five hundred thousand dollars ($2,500,000) of the funds in the Commercial Fund for performance-based cleanups as provided in this subsection. The Department may also use any funds that are available from any other source and that are specifically intended to be used for performance-based cleanups as provided in this section. Each performance-based cleanup shall comply with the requirements of this Part and any other provisions of law that govern the cleanup of environmental damage resulting from the discharge or release of a petroleum product from a commercial underground storage tank. The Department or any owner, operator, or landowner may contract for performance-based cleanups with environmental services firms that the Department has determined to be qualified to satisfactorily complete the work associated with a cleanup. Before the award of the contract, the environmental services firms shall secure a surety or performance bond equal to the price of the firm's services under the contract and shall demonstrate having secured the surety or performance bond to the satisfaction of the Department. The surety shall be liable on the bond obligation when the environmental services firms fail to perform as specified in the contract. A performance-based contract shall provide that cleanup will be completed within the time and for the cost stated in the contract. The Department or any owner, operator, or landowner shall select environmental services firms for performance-based cleanup through a competitive bidding process. The Commission shall adopt rules governing the competitive bidding process and any other rules necessary to implement this subsection. The rules shall establish qualifications for environmental services firms and for individ-

uals and firms that provide engineering services as part of a contract to satisfactorily complete work associated with cleanup. (1987 (Reg. Sess., 1988), c. 1035, s. 1; 1989, c. 652, ss. 4, 16; 1991, c. 538, ss. 2, 3; 1991 (Reg. Sess., 1992), c. 817, s. 1; 1993, c. 400, s. 15; c. 402, s. 1; 1995, c. 377, s. 5; 1998-161, s. 2; 2001-384, ss. 4, 5, 8; 2001-442, s. 1; 2003-352, ss. 2, 3.)

Editor's Note. — Session Laws 2001-442, ss. 6(a) to (c), provide: "(a) This act constitutes a recent act of the General Assembly within the meaning of G.S. 150B-21.1.

"(b) Notwithstanding G.S. 150B-21.1(a)(2) and 26 NCAC 2C.0102(11), the Environmental Management Commission may adopt temporary rules to implement this act [Session Laws 2001-442] until 1 July 2002. Prior to the adoption of a temporary rule under this section [s. 6 of Session Laws 2001-442], the Commission shall publish a notice of intent to adopt a temporary rule in the North Carolina Register. The notice shall set out the text of the proposed temporary rule and include the name of the person to whom questions and written comment on the proposed temporary rule may be submitted. The Commission shall accept written comment on the proposed temporary rule for at least 30 days after the notice of intent to adopt a temporary rule is published in the North Carolina Register.

"(c) Notwithstanding G.S. 150B-21.1(a)(2) and 26 NCAC 2C.0102(11), the State Building Commission may adopt temporary rules to authorize open-end design agreements for design and construction of wetland, stream, and buffer creation, mitigation, and restoration projects. Prior to the adoption of a temporary rule under this section [s. 6 of Session Laws 2001-442], the Commission shall publish a notice of intent to adopt a temporary rule in the North Carolina Register. The notice shall set out the text of the proposed temporary rule and include the name of the person to whom questions and written comment on the proposed temporary rule may be submitted. The Commission shall accept written comment on the proposed temporary rule for at least 30 days after the notice of intent to adopt a temporary rule is published in the North Carolina Register. The State Building Commission is authorized to adopt temporary rules under this section until 1 July 2002."

Session Laws 2001-442, s. 7, as amended by Session Laws 2003-340, s. 2, provides: "Beginning 1 September 2003, the Secretary of Environment and Natural Resources shall submit an annual report to the Environmental Review Commission on the implementation of Sections 1 through 6 of this act [ss. 1 to 6 of Session Laws 2001-442] as a part of the report required by G.S. 143-215.94M." Section 8 of Session Laws 2001-442 provides that s. 7 expires October 1, 2006.

Session Laws 2001-442, s. 8, provides that s. 1 of this act, which added subsection (f) of this section, expires October 1, 2006.

Regarding modification of the rights and obligations of an owner, operator, or a landowner to whom G.S. 143-215.94E(b1) applies and who is eligible to have costs paid or reimbursed under G.S. 143-215.94B, as governed by G.S. 143-215.94E, see the Editor's Note to Session Laws 2003-352, s. 10, at G.S. 143-215.94E.

Session Laws 2003-352, s. 11, provides: "In order to reduce costs associated with the assessment and cleanup of discharges and releases of petroleum from petroleum underground storage tanks, the Environmental Management Commission may adopt temporary and permanent rules to modify the testing requirements set out in 15A NCAC 2L.0115 (Risk-Based Assessment and Corrective Action for Petroleum Underground Storage Tanks). Reference to this section shall satisfy the requirement for a statement of finding of need for a temporary rule."

Effect of Amendments. — Session Laws 2003-352, ss. 2 and 3, effective July 27, 2003, added subdivision (d)(8); and rewrote subsection (f).

Legal Periodicals. — For legislative survey, see 21 Campbell L. Rev. 323 (1999).

CASE NOTES

Cited in Dixie Lumber Co. of Cherryville, Inc. v. N.C. Dep't of Env't, Health & Natural Res., 150 N.C. App. 144, 563 S.E.2d 212, 2002 N.C. App. LEXIS 407 (2002), cert. denied, 356 N.C. 161, 568 S.E.2d 192 (2002).

§ 143-215.94C. Commercial leaking petroleum underground storage tank cleanup fees.

(a) For purposes of this subsection, each compartment of a commercial underground storage tank that is designed to independently contain a petroleum product is a separate petroleum commercial underground storage tank. The owner or operator of a commercial petroleum underground storage tank shall pay to the Secretary for deposit into the Commercial Fund an annual operating fee according to the following schedule:

(1) For each petroleum commercial underground storage tank of 3,500 gallons or less capacity — two hundred dollars ($200.00).

(2) For each petroleum commercial underground storage tank of more than 3,500 gallon capacity — three hundred dollars ($300.00).

(b) The annual operating fee shall be determined on a calendar year basis. For petroleum commercial underground storage tanks in use on 1 January and remaining in use on or after 1 December of that year, the annual operating fee due for that year shall be as specified in subsection (a) of this section. For a petroleum commercial underground storage tank that is first placed in use in any year, the annual operating fee due for that year shall be determined by multiplying one-twelfth (1/12) of the amount specified in subsection (a) of this section by the number of months remaining in the calendar year. For a petroleum commercial underground storage tank that is permanently removed from use in any year, the annual operating fee due for that year shall be determined by multiplying one-twelfth (1/12) of the amount specified in subsection (a) of this section by the number of months in the calendar year preceding the permanent removal from use. In calculating the pro rata annual operating fee for a tank that is first placed in use or permanently removed during a calendar year under the preceding two sentences, a partial month shall count as a month, except that where a tank is permanently removed and replaced by another tank, the total of the annual operating fee for the tank that is removed and the replacement tank shall not exceed the annual operating fee for the replacement tank. The annual operating fee shall be due and payable on the first day of the month in accordance with a staggered schedule established by the Department. The Department shall implement a staggered schedule to the end that the total amount of fees to be collected by the Department is approximately the same each quarter. A person who owns or operates more than one petroleum commercial underground storage tank may request that the fee for all tanks be due at the same time. The fee for all commercial underground storage tanks located at the same facility shall be due at the same time. A person who owns or operates 12 or more commercial petroleum storage tanks may request that the total of all fees be paid in four equal payments to be due on the first day of each calendar quarter, provided that the fee for all commercial underground storage tanks located at the same facility shall be due at the same time.

(c) Beginning no later than sixty days before the first due date of the annual operating fee imposed by this section, any person who deposits a petroleum product in a commercial underground storage tank that would be subject to the annual operating fee shall, at least once in each calendar year during which such deposit of a petroleum product is made, notify the owner or operator of the duty to pay the annual operating fee. The requirement to notify pursuant to this subsection does not constitute a duty owed by the person depositing a petroleum product in a commercial underground storage tank to the owner or operator and the person depositing a petroleum product in an underground storage tank shall not incur any liability to the owner or operator for failure to give notice of the duty to pay the operating fee.

(d) Repealed by Session Laws 1991, c. 538, s. 3.1.

(e) An owner or operator of a commercial underground storage tank who fails to pay an annual operating fee due under this section within 30 days of the date that the fee is due shall pay, in addition to the fee, a late penalty of five dollars ($5.00) per day per commercial underground storage tank, up to a maximum equal to the annual operating fee due. The Department may waive a late penalty in whole or in part if:

(1) The late penalty was incurred because of the late payment or nonpayment of an annual operating fee by a previous owner or operator.

(2) The late penalty was incurred because of a billing error for which the Department is responsible.

(3) Where the late penalty was incurred because the annual operating fee was not paid by the owner or operator due to inadvertence or accident.

(4) Where payment of the late penalty will prevent the owner or operator from complying with any substantive law, rule, or regulation applicable to underground storage tanks and intended to prevent or mitigate discharges or releases or to facilitate the early detection of discharges or releases. (1987 (Reg. Sess., 1988), c. 1035, s. 1; 1989, c. 652, ss. 5, 16; 1991, c. 538, ss. 3.1, 4, 5; 1993, c. 400, s. 15; c. 402, s. 2; 1995, c. 377, s. 6; 1995 (Reg. Sess., 1996), c. 648, s. 2.)

CASE NOTES

Reimbursement Properly Denied for Failure to Pay Operator Fee. — Where substantial evidence supported the finding by respondent, the North Carolina Department of Environment and Natural Resources, that petitioner company was the "operator" of two underground petroleum storage tanks and it was undisputed that the company had not paid the operator fees required by G.S. 143-215.94C(a), the department properly determined that, pursuant to G.S. 143-215.94E(g)(3) and N.C. Admin. Code Tit. 15A, R. 2P.0401(b), the company was not entitled to reimbursement for the its costs of cleaning up certain petroleum releases from the tanks. Dixie Lumber Co. of Cherryville, Inc. v. N.C. Dep't of Env't, Health & Natural Res., 150 N.C. App. 144, 563 S.E.2d 212, 2002 N.C. App. LEXIS 407 (2002), cert. denied, 356 N.C. 161, 568 S.E.2d 192 (2002).

§ 143-215.94D. Noncommercial Leaking Petroleum Underground Storage Tank Cleanup Fund.

(a) There is established under the control and direction of the Department the Noncommercial Leaking Petroleum Underground Storage Tank Cleanup Fund. This Noncommercial Fund shall be a nonreverting revolving fund consisting of any monies appropriated for such purpose by the General Assembly or available to it from grants, or other monies paid to it or recovered on behalf of the Noncommercial Fund.

(b) The Noncommercial Fund shall be used for the payment of the costs set out in subsection (b1) of this section, up to an aggregate maximum of one million dollars ($1,000,000) per occurrence resulting from a discharge or release of a petroleum product from:

(1) Noncommercial underground storage tanks if the discharge or release meets the minimum priority criteria for corrective action established by the Department.

(2) Commercial underground storage tanks if the owner or operator cannot be identified or fails to proceed with the cleanup.

(3) Commercial underground storage tanks that were taken out of operation prior to 1 January 1974 if, at the time the discharge or release is discovered, neither the owner or operator owns or leases the lands on which the tank is located.

(4) Commercial underground storage tanks if the owner of the commercial underground storage tank is the owner only as a result of owning the

land on which the commercial underground storage tank is located, the owner did not know or have reason to know that the underground storage tank was located on the property, and the land was not transferred to the owner to avoid liability for the commercial underground storage tank.

(b1) The Noncommercial Fund shall be used for the payment of the costs of:

(1) The cleanup of environmental damage as required by G.S. 143-215.94E(a).

(2) Compensation to third parties for bodily injury and property damage in excess of one hundred thousand dollars ($100,000) per occurrence.

(3) Reimbursing the State for damages or other costs incurred as a result of a loan from the Loan Fund. The per occurrence limit does not apply to reimbursements to the State under this subdivision.

(4) Recordation of residual petroleum as required by G.S. 143B-279.11 if the Noncommercial Fund is responsible for the payment of costs under subdivisions (1) through (3) of this subsection and subsection (b) of this section.

(b2) The Noncommercial Fund may be used by the Department for the payment of costs necessary to render harmless any commercial or noncommercial underground storage tank from which a discharge or release has not occurred but which poses an imminent hazard to the environment if the owner or operator cannot be identified or located, or if the owner or operator fails to take action to render harmless the underground storage tank within 90 days after having been notified of the imminent hazard posed by the underground storage tank. The Secretary may seek to recover the costs of the action from the owner or operator as provided in G.S. 143-215.94G.

(b3) For purposes of subsection (b1) of this section, the cleanup of environmental damage includes connection of a third party to a public water system if the Department determines that connection of the third party to a public water system is a cost-effective measure, when compared to other available measures, to reduce risk to human health or the environment. A payment or reimbursement under this subsection is subject to the requirements and limitations of this section. This subsection shall not be construed to limit any right or remedy available to a third party under any other provision of law. This subsection shall not be construed to require a third party to connect to a public water system. Except as provided by this subsection, connection to a public water system does not constitute cleanup under Part 2 of this Article, G.S. 143-215.94E, G.S. 143-215.94V, any other applicable statute, or at common law.

(b4) The Noncommercial Fund shall pay any claim made after 1 September 2001 for compensation to third parties pursuant to subdivision (2) of subsection (b1) of this section only if the owner, operator, or other party responsible for the discharge or release has complied with the requirements of G.S. 143B-279.9 and G.S. 143B-279.11, unless compliance is prohibited by another provision of law.

(c) The Noncommercial Fund is to be available on an occurrence basis, without regard to number of occurrences associated with tanks owned or operated by the same owner or operator.

(d) The Noncommercial Fund shall not be used for:

(1) Costs incurred as a result of a discharge or release from an aboveground tank, aboveground pipe or fitting not connected to an underground storage tank, or vehicle.

(2) The removal or replacement of any tank, pipe, fitting or related equipment.

(3) Costs incurred as a result of a discharge or release of petroleum from a transmission pipeline.

(4) Costs intended to be paid for by the Commercial Fund.
(5) Costs associated with the administration of any underground storage tank program other than the program administered pursuant to this Part.
(6) Costs paid or reimbursed by or from any source other than the Noncommercial Fund, including, but not limited to, any payment or reimbursement made under a contract of insurance.
(7) Costs incurred as a result of the cleanup of environmental damage to groundwater to a more protective standard than the risk-based standard required by the Department unless the cleanup of environmental damage to groundwater to a more protective standard is necessary to resolve a claim for compensation by a third party for property damage.
(8) Costs in excess of those required to achieve the most cost-effective cleanup.

(e) The Noncommercial Fund shall be treated as a special trust fund and shall be credited with interest by the State Treasurer pursuant to G.S. 147-69.2 and G.S. 147-69.3.

(f) **(Effective until October 1, 2006)** During each fiscal year the Department may use up to two hundred fifty thousand dollars ($250,000) of the funds in the Noncommercial Fund for performance-based cleanups as provided in this subsection. The Department may also use any funds that are available from any other source and that are specifically intended to be used for performance-based cleanups as provided in this section. Each performance-based cleanup shall comply with the requirements of this Part and any other provisions of law that govern the cleanup of environmental damage resulting from the discharge or release of a petroleum product from a noncommercial underground storage tank. The Department or any owner, operator, or landowner may contract for performance-based cleanups with environmental services firms that the Department has determined to be qualified to satisfactorily complete the work associated with a cleanup. Before the award of the contract, the environmental services firms shall secure a surety or performance bond equal to the price of the firm's services under the contract and shall demonstrate having secured the surety or performance bond to the satisfaction of the Department. The surety shall be liable on the bond obligation when the environmental services firms fail to perform as specified in the contract. A performance-based contract shall provide that cleanup will be completed within the time and for the cost stated in the contract. The Department or any owner, operator, or landowner shall select environmental services firms for performance-based cleanup through a competitive bidding process and any other rules necessary to implement this subsection. The Commission shall adopt rules governing the competitive bidding process. The rules shall establish qualifications for environmental services firms and for individuals and firms that provide engineering services as part of a contract to satisfactorily complete work associated with cleanup. (1987 (Reg. Sess., 1988), c. 1035, s. 1; 1989, c. 652, ss. 6, 16; 1991, c. 538, s. 6; 1991 (Reg. Sess., 1992), c. 890, s. 17; 1993, c. 400, s. 15; 1995, c. 377, s. 7; 1998-161, ss. 3, 11(a); 2001-384, ss. 6, 7, 9; 2001-442, s. 2; 2003-352, ss. 4, 5.)

Editor's Note. — Session Laws 2001-442, ss. 6(a) to (c), provide: "(a) This act constitutes a recent act of the General Assembly within the meaning of G.S. 150B-21.1.

"(b) Notwithstanding G.S. 150B-21.1(a)(2) and 26 NCAC 2C.0102(11), the Environmental Management Commission may adopt temporary rules to implement this act [Session Laws 2001-442] until 1 July 2002. Prior to the adoption of a temporary rule under this section [s. 6 of Session Laws 2001-442], the Commission shall publish a notice of intent to adopt a temporary rule in the North Carolina Register. The notice shall set out the text of the proposed temporary rule and include the name of the person to whom questions and written com-

ment on the proposed temporary rule may be submitted. The Commission shall accept written comment on the proposed temporary rule for at least 30 days after the notice of intent to adopt a temporary rule is published in the North Carolina Register.

"(c) Notwithstanding G.S. 150B-21.1(a)(2) and 26 NCAC 2C.0102(11), the State Building Commission may adopt temporary rules to authorize open-end design agreements for design and construction of wetland, stream, and buffer creation, mitigation, and restoration projects. Prior to the adoption of a temporary rule under this section [s. 6 of Session Laws 2001-442], the Commission shall publish a notice of intent to adopt a temporary rule in the North Carolina Register. The notice shall set out the text of the proposed temporary rule and include the name of the person to whom questions and written comment on the proposed temporary rule may be submitted. The Commission shall accept written comment on the proposed temporary rule for at least 30 days after the notice of intent to adopt a temporary rule is published in the North Carolina Register. The State Building Commission is authorized to adopt temporary rules under this section until 1 July 2002."

Session Laws 2001-442, s. 7, as amended by Session Laws 2003-340, s. 2, provides: "Beginning 1 September 2003, the Secretary of Environment and Natural Resources shall submit an annual report to the Environmental Review Commission on the implementation of Sections 1 through 6 of this act [ss. 1 to 6 of Session Laws 2001-442] as a part of the report required by G.S. 143-215.94M." Section 8 of Session Laws 2001-442 provides that s. 7 expires October 1, 2006.

Session Laws 2001-442, s. 8, provides that s. 2 of this act, which added subsection (f) of this section, expires October 1, 2006.

Session Laws 2003-352, s. 11, provides: "In order to reduce costs associated with the assessment and cleanup of discharges and releases of petroleum from petroleum underground storage tanks, the Environmental Management Commission may adopt temporary and permanent rules to modify the testing requirements set out in 15A NCAC 2L.0115 (Risk-Based Assessment and Corrective Action for Petroleum Underground Storage Tanks). Reference to this section shall satisfy the requirement for a statement of finding of need for a temporary rule."

Effect of Amendments. — Session Laws 2003-352, ss. 4 and 5, effective July 27, 2003, added subdivision (d)(8); and rewrote subsection (f).

Legal Periodicals. — For legislative survey, see 21 Campbell L. Rev. 323 (1999).

§ 143-215.94E. Rights and obligations of the owner or operator.

(a) Upon a determination that a discharge or release of petroleum from an underground storage tank has occurred, the owner or operator of the underground storage tank shall notify the Department pursuant to G.S. 143-215.85. The owner or operator of the underground storage tank shall immediately undertake to collect and remove the discharge or release and to restore the area affected in accordance with the requirements of this Article.

(a1) If a spill or overfill associated with a petroleum underground storage tank results in a release of petroleum to the environment of 25 gallons or more or causes a sheen on nearby surface water, the owner or operator of the petroleum underground storage tank shall immediately clean up the spill or overfill, report the spill or overfill to the Department within 24 hours of the spill or overfill, and begin to restore the area affected in accordance with the requirements of this Article. The owner or operator of a petroleum underground storage tank shall immediately clean up a spill or overfill of less than 25 gallons of petroleum that does not cause a sheen on nearby surface water. If a spill or overfill of less than 25 gallons of petroleum cannot be cleaned up within 24 hours of the spill or overfill or causes a sheen on nearby surface water, the owner or operator of the petroleum underground storage tank shall immediately notify the Department.

(b) In the case of a discharge or release from a commercial underground storage tank where the owner or operator has been identified and has proceeded with cleanup, the owner or operator may elect to have the Commercial Fund pay or reimburse the owner or operator for any costs described in subsection (b) or (b1) of G.S. 143-215.94B that exceed the amounts for which the owner or operator is responsible under that subsection. The sum of

payments by the owner or operator and the payments from the Commercial Fund shall not exceed one million dollars ($1,000,000) per discharge or release except as provided in G.S. 143-215.94B(b2).

(b1) In the case of a discharge or release from a commercial underground storage tank where the owner and operator cannot be identified or located, or where the owner and operator fail to proceed as required by subsection (a) of this section, if the current landowner of the land in which the commercial underground storage tank is located notifies the Department in accordance with G.S. 143-215.85 and undertakes to collect and remove the discharge or release and to restore the area affected in accordance with the requirements of this Article and applicable federal and State laws, regulations, and rules, the current landowner may elect to have the Commercial Fund pay or reimburse the current landowner for any costs described in subdivisions (1), (2), (2a), (3), and (4) of G.S. 143-215.94B(b) or G.S. 143-215.94B(b1) that exceed the amounts for which the owner or operator is responsible under that subsection. The current landowner is not eligible for payment or reimbursement until the current landowner has paid the costs described in subdivisions (1), (2), (2a), (3), and (4) of G.S. 143-215.94B(b) or G.S. 143-215.94B(b1) for which the owner or operator is responsible. Eligibility for reimbursement under this subsection may be transferred from a current landowner who has paid the costs described in subdivisions (1), (2), (2a), (3), and (4) of G.S. 143-215.94B(b) or G.S. 143-215.94B(b1) to a subsequent landowner. The sum of payments from the Commercial Fund and from all other sources shall not exceed one million dollars ($1,000,000) per discharge or release except as provided in G.S. 143-215.94B(b2). This subsection shall not be construed to require a current landowner to cleanup a discharge or release of petroleum from an underground storage tank for which the current landowner is not otherwise responsible. This subsection does not alter any right, duty, obligation, or liability of a current landowner, former landowner, subsequent landowner, owner, or operator under other provisions of law. This subsection shall not be construed to limit the authority of the Department to engage in a cleanup under this Article or any other provision of law. In the event that an owner or operator is subsequently identified or located, the Secretary shall seek reimbursement as provided in G.S. 143-215.94G(d). The current landowner shall submit documentation of all expenditures as required by G.S. 143-215.94G(b).

(c) In the case of a discharge or release from a noncommercial underground storage tank or a commercial underground storage tank eligible for the Noncommercial Fund in accordance with G.S. 143-215.94D(b), the owner or operator may elect to have the Noncommercial Fund pay or reimburse the owner or operator for the costs described in G.S. 143-215.94D(b1) up to a maximum of one million dollars ($1,000,000) per discharge or release.

(c1) In the case of a discharge or release from a noncommercial underground storage tank where the owner and operator cannot be identified or located, or where the owner and operator fail to proceed as required by subsection (a) of this section, if the current landowner of the land in which the noncommercial underground storage tank is located notifies the Department in accordance with G.S. 143-215.85 and undertakes to collect and remove the discharge or release and to restore the area affected in accordance with the requirements of this Article and applicable federal and State laws, regulations, and rules, the current landowner may elect to have the Noncommercial Fund pay or reimburse the current landowner for ninety percent (90%) of any costs described in subdivisions (1) and (2) of G.S. 143-215.94D(b1) that exceed five thousand dollars ($5,000). Eligibility for reimbursement under this subsection may be transferred to a subsequent landowner from a current landowner who has paid the costs for which the landowner is responsible under this subsection. The sum of payments from the Noncommercial Fund and from all other

sources shall not exceed one million dollars ($1,000,000) per discharge or release. This subsection shall not be construed to require a current landowner to clean up a discharge or release of petroleum from an underground storage tank for which the current landowner is not otherwise responsible. This subsection does not alter any right, duty, obligation, or liability of a current landowner, former landowner, subsequent landowner, owner, or operator under other provisions of law. This subsection shall not be construed to limit the authority of the Department to engage in a cleanup under this Article or any other provision of law. The current landowner shall submit documentation of all expenditures as required by G.S. 143-215.94G(b).

(d) In any case where the costs described in G.S. 143-215.94B(b), 143-215.94B(b1), or 143-215.94D(b1) exceed one million dollars ($1,000,000), or one million five hundred thousand dollars ($1,500,000) if G.S. 143-215.94B(b2) applies, the provisions of Article 21A of this Chapter or any other applicable statute or common law principle regarding liability shall apply for the amount in excess of one million dollars ($1,000,000) or, if G.S. 143-215.94B(b2) applies, one million five hundred thousand dollars ($1,500,000). Nothing contained in this Part shall limit or modify any liability that any party may have pursuant to Article 21A of this Chapter, any other applicable statute, or at common law.

(e) When an owner, operator, or landowner pays the costs described in G.S. 143-215.94B(b), 143-215.94B(b1), or 143-215.94D(b1) resulting from a discharge or release of petroleum from an underground storage tank, the owner, operator, or landowner may seek reimbursement from the appropriate fund for any costs that the owner, operator, or landowner may elect to have either the Commercial Fund or the Noncommercial Fund pay in accordance with subsections (b), (b1), (c), and (c1) of this section. The Department may contract for any services necessary to evaluate any claim for reimbursement or compensation from either the Commercial Fund or the Noncommercial Fund, may contract for any expert witness or consultant services necessary to defend any decision to pay or deny any claim for reimbursement, and may pay the cost of these services from the fund against which the claim is made; provided that in any fiscal year the Department shall not expend from either fund more than one percent (1%) of the unobligated balance of the fund on 30 June of the previous fiscal year. The cost of contractual services to evaluate a claim or for expert witness or consultant services to defend a decision with respect to a claim shall be included as costs under G.S. 143-215.94B(b), 143-215.94B(b1), and 143-215.94D(b1). An owner or operator whose claim for reimbursement is denied may appeal a decision of the Department as provided in Article 3 of Chapter 150B of the General Statutes. If the owner or operator is eligible for reimbursement under this section and the cleanup extends beyond a period of three months, the owner or operator may apply to the Department for interim reimbursements to which he is entitled under this section on a quarterly basis. If the Department fails to notify an owner or operator of its decision on a claim for reimbursement under this subsection within 90 days after the date the claim is received by the Department, the owner or operator may elect to consider the claim to have been denied, and may appeal the denial as provided in Article 3 of Chapter 150B of the General Statutes.

(e1) The Department shall not pay any third party or reimburse any owner or operator who has paid any third party pursuant to any settlement agreement or consent judgment relating to a claim by or on behalf of a third party for compensation for bodily injury or property damage unless the Department has approved the settlement agreement or consent judgment prior to entry into the settlement agreement or consent judgment by the parties or entry of a consent judgment by the court. The approval or disapproval by the Department of a proposed settlement agreement or consent judgment shall be subject to challenge only in a contested case filed under

Chapter 150B of the General Statutes. The Secretary shall make the final agency decision in a contested case proceeding under this subsection.

(e2) The Commission may require an owner, operator, or landowner to obtain approval from the Department before proceeding with any task that will result in a cost that is eligible to be paid or reimbursed under G.S. 143-215.94B(b), 143-215.94B(b1), or 143-215.94D(b1). The Commission shall specify by rule those tasks for which preapproval is required. The Department shall deny any request for payment or reimbursement of the cost of any task for which preapproval is required if the owner, operator, or landowner failed to obtain preapproval of the task. The Department shall pay or reimburse the cost of a task for which preapproval is not required only if the cost is eligible to be paid under G.S. 143-215.94B(b), 143-215.94B(b1), or 143-215.94D(b1) and if the Department determines that the cost is reasonable and necessary. The Commission shall adopt rules governing reimbursement of necessary and reasonable costs. In all cases, the Department shall require an owner, operator, or landowner to submit documentation sufficient to establish that a cost is eligible to be paid or reimbursed under this Part before the Department pays or reimburses the cost.

(f) Repealed by Session Laws 2003-352, s. 6, effective July 27, 2003.

(f1) Any person seeking payment or reimbursement from either the Commercial Fund or the Noncommercial Fund shall certify to the Department that the costs to be paid or reimbursed by the Commercial Fund or the Noncommercial Fund are not eligible to be paid or reimbursed by or from any other source, including any contract of insurance. If any cost paid or reimbursed by the Commercial Fund or the Noncommercial Fund is eligible to be paid or reimbursed by or from another source, that cost shall not be paid from, or if paid shall be repaid to, the Commercial Fund or the Noncommercial Fund. As used in this Part, the phrase "any other source including any contract of insurance" does not include self-insurance.

(g) No owner or operator shall be reimbursed pursuant to this section, and the Department shall seek reimbursement of the appropriate fund or of the Department for any monies disbursed from the appropriate fund or expended by the Department if any of the following apply:

(1) The owner or operator has willfully violated any substantive law, rule, or regulation applicable to underground storage tanks and intended to prevent or mitigate discharges or releases or to facilitate the early detection of discharges or releases.

(2) The discharge or release is the result of the owner's or operator's willful or wanton misconduct.

(3) The owner or operator has failed to pay any annual tank operating fee due pursuant to G.S. 143-215.94C.

(h) Subdivision (1) of subsection (g) of this section shall not be construed to limit the right of an owner or operator to contest notices of violation or orders issued by the Department. Subdivision (1) of subsection (g) of this section shall not apply to a payment or reimbursement pursuant to this section if, at the time of the discharge or release, the owner or operator holds a valid operating permit as required by G.S. 143-215.94U.

(i) An owner or operator who notifies the Department of an intention to close or upgrade a commercial underground storage tank as provided in G.S. 143-215.94B(b)(2a) shall commence the closure or upgrade prior to 1 July 1994 and shall complete the closure or upgrade prior to 1 January 1995. An owner who notifies the Department of an intention to close or upgrade a commercial underground storage tank and who fails to commence and complete the closure as specified in this subsection is subject to a civil penalty as provided in G.S. 143-215.94W. The provisions of G.S. 143-215.94B(b)(2a) do not apply if an owner or operator who notifies the Department of an intention to close or

upgrade a commercial underground storage tank fails to commence or complete the closure or upgrade within the dates specified in this subsection.

The clear proceeds of civil penalties provided for in this subsection shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2. (1987 (Reg. Sess., 1988), c. 1035, s. 1; 1989, c. 652, ss. 7, 16; 1991, c. 538, ss. 7, 22; 1991 (Reg. Sess., 1992), c. 817, s. 2; 1993, c. 400, s. 15; c. 402, s. 3; 1995, c. 377, s. 8; 1995 (Reg. Sess., 1996), c. 648, ss. 3, 4; 1998-161, ss. 4, 5, 8(a), (b), 11(b); 1998-215, s. 68; 2000-172, s. 7.1; 2003-352, ss. 6, 7.)

Editor's Note. — Session Laws 2003-352, s. 10, provides: "The definitions set out in G.S. 143-212 and G.S. 143-215.94A apply to this section. The rights and obligations of an owner, operator, or a landowner to whom G.S. 143-215.94E(b1) applies who is eligible to have costs paid or reimbursed under G.S. 143-215.94B shall be governed by G.S. 143-215.94E as modified by this section. The Department shall establish the degree of risk to human health and the environment posed by a discharge or release of petroleum from a commercial underground storage tank and shall determine a schedule for further assessment and cleanup based on the degree of risk to human health and the environment posed by the discharge or release. If any of the costs of assessment and cleanup of the discharge or release from a commercial underground storage tank are eligible to be paid from the Commercial Fund, the Department shall also consider the availability of funds in the Commercial Fund and the order in which the discharge or release was reported in determining the schedule. The Department may revise the schedule that applies to the assessment and cleanup of any discharge or release at any time based on its reassessment of any of the foregoing factors. The lack of availability of funds in the Commercial Fund shall not relieve an owner or operator of responsibility to immediately undertake to collect and remove the discharge or release or to conduct any assessment or cleanup ordered by the Department or be a defense against any violations and penalties issued to the owner or operator for failure to conduct required assessment or cleanup. If the owner or operator takes initial steps to collect and remove the discharge or release as required by the Department and completes initial assessment required to determine degree of risk, the owner or operator shall not be subject to any violation or penalty for any failure to proceed with further assessment or cleanup under G.S.143-215.84 or G.S. 143-215.94E before the owner or operator is authorized to proceed with further assessment or cleanup pursuant to the schedule set by the Department. Once the Department has determined a schedule for the assessment and cleanup of a discharge or release from a commercial underground storage tank, an owner, operator, or other person responsible for the assessment and cleanup is not eligible to have the costs of the assessment or cleanup paid or reimbursed from the Commercial Fund until such time as further assessment or cleanup is authorized by the Department pursuant to the schedule. An owner, operator, or other person may undertake further assessment or cleanup before receiving authorization from the Department. An owner, operator, or other person who undertakes further assessment or cleanup before receiving authorization from the Department shall be reimbursed only after the Department has paid or reimbursed the costs for all assessments and cleanups that the Department has authorized."

Session Laws 2003-352, s. 11, provides: "In order to reduce costs associated with the assessment and cleanup of discharges and releases of petroleum from petroleum underground storage tanks, the Environmental Management Commission may adopt temporary and permanent rules to modify the testing requirements set out in 15A NCAC 2L.0115 (Risk-Based Assessment and Corrective Action for Petroleum Underground Storage Tanks). Reference to this section shall satisfy the requirement for a statement of finding of need for a temporary rule."

Effect of Amendments. — Session Laws 2003-352, ss. 6 and 7, effective July 27, 2003, repealed subsection (f); and at the end of subsection (g), added "any of the following apply" and made minor stylistic and punctuation changes in subdivisions (g)(1) and (g)(2).

Legal Periodicals. — For legislative survey, see 21 Campbell L. Rev. 323 (1999).

CASE NOTES

Reimbursement Properly Denied for Failure to Pay Operator Fee. — Where substantial evidence supported the finding by respondent, the North Carolina Department of Environment and Natural Resources, that petitioner company was the "operator" of two underground petroleum storage tanks and it was undisputed that the company had not paid the operator fees required by G.S. 143-215.94C(a), the department properly deter-

mined that, pursuant to G.S. 143-215.94E(g)(3) and N.C. Admin. Code Tit. 15A, R. 2P.0401(b), the company was not entitled to reimbursement for the its costs of cleaning up certain petroleum releases from the tanks. Dixie Lumber Co. of Cherryville, Inc. v. N.C. Dep't of Env't, Health & Natural Res., 150 N.C. App. 144, 563 S.E.2d 212, 2002 N.C. App. LEXIS 407 (2002), cert. denied, 356 N.C. 161, 568 S.E.2d 192 (2002).

Relationship to Regulation Regarding Timing of Fee Payment. — The requirement of N.C. Admin. Code Tit. 15A, R. 2P.0401(b) that the fees assessed to operators of underground petroleum storage tanks must be paid prior to the discovery of the release of petroleum does not conflict with G.S. 143-215.94E(g)(3). Dixie Lumber Co. of Cherryville, Inc. v. N.C. Dep't of Env't, Health & Natural Res., 150 N.C. App. 144, 563 S.E.2d 212, 2002 N.C. App. LEXIS 407 (2002), cert. denied, 356 N.C. 161, 568 S.E.2d 192 (2002).

§ 143-215.94F. Limited amnesty.

Any owner or operator who reports a suspected discharge or release from an underground storage tank prior to 1 October 1989 shall not be liable for any civil penalty that might otherwise be imposed pursuant to G.S. 143-215.88A(a) for violations of G.S. 143-215.83(a) and G.S. 143-215.85. The limited amnesty provided by this section shall not apply upon a finding by the Commission that the discharge or release was the result of gross negligence or an intentional act. (1987 (Reg. Sess., 1988), c. 1035, s. 1; 1989, c. 652, s. 8.)

§ 143-215.94G. Authority of the Department to engage in cleanups; actions for fund reimbursement.

(a) The Department may use staff, equipment, or materials under its control or provided by other cooperating federal, State, or local agencies and may contract with any agent or contractor it deems appropriate to investigate a release, to develop and implement a cleanup plan, to provide interim alternative sources of drinking water to third parties, and to pay the initial costs for providing permanent alternative sources of drinking water to third parties, and shall pay the costs resulting from commercial underground storage tanks from the Commercial Fund and shall pay the costs resulting from noncommercial underground storage tanks from the Noncommercial Fund, whenever there is a discharge or release of petroleum from any of the following:

(1) A noncommercial underground storage tank.

(2) An underground storage tank whose owner or operator cannot be identified or located.

(3) An underground storage tank whose owner or operator fails to proceed as required by G.S. 143-215.94E(a).

(4) A commercial underground storage tank taken out of operation prior to 1 January 1974 if, when the discharge or release is discovered, neither the owner nor operator owns or leases the land on which the underground storage tank is located.

(a1) Every State agency shall provide to the Department to the maximum extent feasible such staff, equipment, and materials as may be available and useful to the development and implementation of a cleanup program.

(a2) The cost of any action authorized under subsection (a) of this section shall be paid, to the extent funds are available, from the following sources in the order listed:

(1) Any funds to which the State is entitled under any federal program providing for the cleanup of petroleum discharges or releases from underground storage tanks, including, but not limited to, the Leaking Underground Storage Tank Trust Fund established pursuant to 26 U.S.C. § 4081 and 42 U.S.C. § 6991b(h).

(2) The Commercial Fund or the Noncommercial Fund.

(a3) **(Effective until October 1, 2006)** The Department may implement the provisions of subsection (a) of this section as provided in G.S. 143-215.94B(f) and G.S. 143-215.94D(f).

(b) Whenever the discharge or release of a petroleum product is from a commercial underground storage tank, the Department may supervise the cleanup of environmental damage required by G.S. 143-215.94E(a). If the owner or operator elects to have the Commercial Fund reimburse or pay for any costs allowed under subsection (b) or (b1) of G.S. 143-215.94B, the Department shall require the owner or operator to submit documentation of all expenditures claimed for the purposes of establishing that the owner or operator has spent the amounts required to be paid by the owner or operator pursuant to and in accordance with G.S. 143-215.94E(b). The Department shall allow credit for all expenditures that the Department determines to be reasonable and necessary. The Department may not pay for any costs for which the Commercial Fund was established until the owner or operator has paid the amounts specified in G.S. 143-215.94E(b).

(c) The Secretary shall keep a record of all expenses incurred for the services of State personnel and for the use of the State's equipment and material.

(d) The Secretary shall seek reimbursement through any legal means available, for:

(1) Any costs not authorized to be paid from either the Commercial or the Noncommercial Fund;

(2) The amounts provided for in G.S. 143-215.94B(b) or G.S. 143-215.94B(b1) required to be paid for by the owner or operator pursuant to G.S. 143-215.94E(b) where the owner or operator of a commercial underground storage tank is later identified or located;

(3) The amounts provided for in G.S. 143-215.94B(b) or G.S. 143-215.94B(b1) required to be paid for by the owner or operator pursuant to G.S. 143-215.94E(b) where the owner or operator of a commercial underground storage tank failed to proceed as required by G.S. 143-215.94E(a);

(3a) The amounts provided for by G.S. 143-215.94B(b)(5) required to be paid by the owner or operator to third parties for the cost of providing interim alternative sources of drinking water to third parties and the initial cost of providing permanent alternative sources of drinking water to third parties;

(4) Any funds due under G.S. 143-215.94E(g); and

(5) Any funds to which the State is entitled under any federal program providing for the cleanup of petroleum discharges or releases from underground storage tanks.

(e) In the event that a civil action is commenced to secure reimbursement pursuant to subdivisions (1) through (4) of subsection (d) of this section, the Secretary may recover, in addition to any amount due, the costs of the action, including but not limited to reasonable attorney's fees and investigation expenses. Any monies received or recovered as reimbursement shall be paid into the appropriate fund or other source from which the expenditures were made.

(f) In the event that a recovery equal to or in excess of the amounts required to be paid for by the owner or operator pursuant to G.S. 143-215.94E(b) is recovered pursuant to subdivisions (2) and (3) of subsection (d) of this section for the costs described in G.S. 143-215.94B(b) or G.S. 143-215.94B(b1), the Department shall transfer funds from the Commercial Fund that would have been paid from the Commercial Fund pursuant to subsection (b) or (b2) of G.S. 143-215.94B if the owner or operator had proceeded with the cleanup, but which were paid from the Noncommercial Fund, into the Noncommercial Fund. (1987 (Reg. Sess., 1988), c. 1035, s. 1; 1989, c. 652. ss. 9, 16; 1991, c. 538, ss. 8, 23; 1993, c. 400, s. 15; c. 402, s. 4; 1995, c. 377, s. 9; 2001-442, s. 3.)

Editor's Note. — Session Laws 2001-442, ss. 6(a) to (c), provide: "(a) This act constitutes a recent act of the General Assembly within the meaning of G.S. 150B-21.1.

"(b) Notwithstanding G.S. 150B-21.1(a)(2) and 26 NCAC 2C.0102(11), the Environmental Management Commission may adopt temporary rules to implement this act [Session Laws 2001-442] until 1 July 2002. Prior to the adoption of a temporary rule under this section [s. 6 of Session Laws 2001-442], the Commission shall publish a notice of intent to adopt a temporary rule in the North Carolina Register. The notice shall set out the text of the proposed temporary rule and include the name of the person to whom questions and written comment on the proposed temporary rule may be submitted. The Commission shall accept written comment on the proposed temporary rule for at least 30 days after the notice of intent to adopt a temporary rule is published in the North Carolina Register.

"(c) Notwithstanding G.S. 150B-21.1(a)(2) and 26 NCAC 2C.0102(11), the State Building Commission may adopt temporary rules to authorize open-end design agreements for design and construction of wetland, stream, and buffer creation, mitigation, and restoration projects. Prior to the adoption of a temporary rule under this section [s. 6 of Session Laws 2001-442], the Commission shall publish a notice of intent to adopt a temporary rule in the North Carolina Register. The notice shall set out the text of the proposed temporary rule and include the name of the person to whom questions and written comment on the proposed temporary rule may be submitted. The Commission shall accept written comment on the proposed temporary rule for at least 30 days after the notice of intent to adopt a temporary rule is published in the North Carolina Register. The State Building Commission is authorized to adopt temporary rules under this section until 1 July 2002."

Session Laws 2001-442, s. 7, as amended by Session Laws 2003-340, s. 2, provides: "Beginning 1 September 2003, the Secretary of Environment and Natural Resources shall submit an annual report to the Environmental Review Commission on the implementation of Sections 1 through 6 of this act [ss. 1 to 6 of Session Laws 2001-442] as a part of the report required by G.S. 143-215.94M." Section 8 of Session Laws 2001-442 provides that s. 7 expires October 1, 2006.

Session Laws 2001-442, s. 8, provides that s. 3 of this act, which added subsection (a3) of this section, expires October 1, 2006.

Effect of Amendments. — Session Laws 2001-442, s. 3, effective October 1, 2001, added subsection (a3). As to the expiration of this amendment, see the Editor's Note.

§ 143-215.94H. Financial responsibility.

The Department shall require each owner and operator of a petroleum underground storage tank who is required to demonstrate financial responsibility under rules promulgated by the United States Environmental Protection Agency pursuant to 42 U.S.C. § 6991b(d) to maintain evidence of financial responsibility of not less than the amounts required to be paid for by the owner or operator pursuant to G.S. 143-215.94E(b) per occurrence for costs described in G.S. 143-215.94B(b) and G.S. 143-215.94D(b1). Financial responsibility may be established in accordance with rules adopted by the Commission which shall provide that financial responsibility may be established by either insurance, guarantee, surety bond, letter of credit, qualification as a self-insurer, or any combination thereof. The compliance date schedule for demonstrating financial responsibility shall conform to the schedule adopted by the Environmental Protection Agency. (1987 (Reg. Sess., 1988), c. 1035, s. 1; 1989, c. 652, s. 10; 1993, c. 402, s. 5.)

§ 143-215.94I. Insurance pools authorized; requirements.

(a) As used in this section, "Commissioner" means the Commissioner of Insurance of the State of North Carolina.

(b) Owners and operators of underground storage tanks may demonstrate financial responsibility by establishing insurance pools which provide insurance coverage to pool members in at least the minimum amounts specified in G.S. 143-215.94H. Each such pool shall be operated by a board of trustees consisting of at least five persons who are elected or appointed officials of pool members. The board of trustees of each pool shall:

(1) Establish terms and conditions of coverage within the pool, including underwriting criteria, applicable deductible levels, the maximum level of claims that the pool will self-insure, and exclusions of coverage;
(2) Ensure that all valid claims are paid promptly;
(3) Take all necessary precautions to safeguard the assets of the pool;
(4) Maintain minutes of its meetings and make those minutes available to the Commissioner;
(5) Designate an administrator to carry out the policies established by the board of trustees and to provide continual management of the pool, and delineate in written minutes of its meetings the areas of authority it delegates to the pool's administrator;
(6) Establish the amount of insurance to be purchased by the pool to provide coverage over and above the claims that are not to be satisfied directly from the pool's resources;
(7) Establish the amount, if any, of aggregate excess insurance coverage to be purchased and maintained in the event that the pool's resources are exhausted in a given fiscal period; and
(8) Establish guidelines for membership in the pool, including the amount of money to be collected from each pool member to form and fund the pool.

(c) The board of trustees may not:
(1) Extend credit to individual members for payment of a premium, except pursuant to payment plans approved by the Commissioner; or
(2) Borrow any monies from the pool or in the name of the pool, except in the ordinary course of business, without first advising the Commissioner of the nature and purpose of the loan and obtaining prior approval from the Commissioner.

(d) A contract or agreement made pursuant to this section must contain provisions:
(1) For a system or program of loss control;
(2) For termination of membership including both:
a. Cancellation of individual membership in the pool by the pool; and
b. Election by an individual member of the pool to terminate its participation;
(3) That a pool or a terminating member must provide at least 90 days' written notice of cancellation or termination;
(4) Requiring the pool to pay all claims for which each member incurs liability during each member's period of membership, except:
a. Where a member has individually retained the risk;
b. Where the risk is not covered; or
c. For amounts of claims above the coverage provided by the pool;
(5) For the maintenance of claim reserves equal to known incurred losses and loss adjustment expenses and to an estimate of incurred but not reported losses;
(6) For compliance with any applicable federal requirements regarding financial responsibility for underground storage tanks;
(7) For a final accounting and settlement of the obligations of or refunds to a terminating member to occur when all incurred claims are concluded, settled, or paid;
(8) That the pool may establish offices where necessary in this State and employ necessary staff to carry out the purposes of the pool;
(9) That the pool may retain legal counsel, actuaries, claims adjusters, auditors, engineers, private consultants, and advisors, and other persons as the board of trustees or the administrator deems to be necessary;

(10) That the pool may make and alter bylaws and rules pertaining to the exercise of its purpose and powers;

(11) That the pool may purchase, lease, or rent real and personal property it deems to be necessary; and

(12) That the pool may enter into financial services agreements with financial institutions and that it may issue checks in its own name.

(e) In the event that either the pool or an individual pool member gives notice of an intent to cancel or terminate participation in the pool as provided by subdivision (4) of subsection (d) of this section, the pool shall so notify both the Commissioner and the Secretary within five business days of the issuance or receipt of such notice by the pool. In addition, the pool shall notify both the Commissioner and the Secretary within five business days of the date such cancellation or termination becomes effective, unless notice of cancellation or termination is rescinded.

(f) The formation and operation of an insurance pool under this section shall be subject to approval by the Commissioner who shall, after notice and hearing, establish reasonable requirements and rules for the approval and monitoring of such pools, including prior approval of pool administrators and provisions for periodic examinations of financial condition. The Commissioner may disapprove an application for the formation of an insurance pool, and may suspend or withdraw such approval whenever he finds that such applicant or pool:

(1) Has refused to submit its books, papers, accounts, or affairs to the reasonable inspection of the Commissioner or his representative;

(2) Has refused, or its officers, agents, or administrators have refused, to furnish satisfactory evidence of its financial and business standing or solvency;

(3) Is insolvent, or is in such condition that its further transaction of business in this State is hazardous to its members and creditors in this State and to the public;

(4) Has refused or neglected to pay a valid final judgment against it within 60 days after its rendition;

(5) Has violated any law of this State or has violated or exceeded the powers granted by its members;

(6) Has failed to pay any taxes, fees, or charges imposed in this State within 60 days after they are due and payable, or within 60 days after final disposition or any legal contest with respect to liability therefor; or

(7) Has been found insolvent by a court of any other state, by the insurance regulator or other proper officer or agency of any other state, and has been prohibited from doing business in such state.

(g) Each pool shall be audited annually at the expense of the pool by a certified public accounting firm, with a copy of the report available to the governing body or chief executive officer of each member of the pool and to the Commissioner. The board of trustees of the pool shall obtain an appropriate actuarial evaluation of the loss and loss adjustment expense reserves of the pool, including an estimate of losses and loss adjustment expenses incurred but not reported. The provisions of G.S. 58-2-131, 58-2-132, 58-2-133, 58-2-134, 58-2-150, 58-2-155, 58-2-165, 58-2-180, 58-2-185, 58-2-190, 58-2-200, and 58-6-5 apply to each pool and to persons that administer the pools. Annual financial statements required by G.S. 58-2-165 shall be filed by each pool within 60 days after the end of the pool's fiscal year. All financial statements required by this section shall be prepared in accordance with generally accepted statutory accounting principles.

(h) If, as a result of the annual audit or an examination by the Commissioner, it appears that the assets of a pool are insufficient to enable the pool to

discharge its legal liabilities and other obligations, the Commissioner shall notify the administrator and the board of trustees of the pool of the deficiency and his list of recommendations to abate the deficiency, including a recommendation not to add any new members until the deficiency is abated. If the pool fails to comply with the recommendations within 30 days after the date of the notice, the Commissioner may apply to the Superior Court of Wake County for an order requiring the pool to abate the deficiency and authorizing the Commissioner to appoint one or more special deputy commissioners, counsel, clerks, or assistants to oversee the implementation of the Court's order. The Commissioner has all of the powers granted to him under Article 17A of General Statute Chapter 58 relating to rehabilitation and liquidation of insurers; and the provisions of that Article apply to this section to the extent they are not in conflict with this section. The compensation and expenses of such persons shall be fixed by the Commissioner, subject to the approval of the Court, and shall be paid out of the funds or assets of the pool.

(i) Each pool contract shall provide that the members of the pool shall be assessed on a pro rata basis as calculated by the amount of each member's average annual contribution in order to satisfy the amount of any deficiency where a pool is determined to be insolvent, financially impaired, or is otherwise found to be unable to discharge its legal liabilities and other obligations.

(j) In the event that the Commissioner finds that a pool is insolvent, financially impaired, or otherwise, unable to discharge its legal liabilities or obligations, or if the Commissioner at any time has reason to believe that any owner or operator is unable to demonstrate financial responsibility as required by G.S. 143-215.94H and rules adopted by the Commission as a result of the financial condition of the pool or for any other reason, the Commissioner shall so notify the Secretary.

(k) The provisions of Article 48 of Chapter 58 do not apply to any risks retained by any pool. (1987 (Reg. Sess., 1988), c. 1035, s. 1; 1989, c. 652, s. 11; 1995, c. 193, s. 66; 1999-132, s. 11.11.)

Editor's Note. — Much of Article 17A of Chapter 58, referred to in subsection (h) of this section, was repealed by Session Laws 1989, c. 452, which also enacted an Article 46 of Chapter 58, containing similar provisions of those contained in the repealed sections of Article 17A. Article 46 of Chapter 58 has been recodified as Article 30 of Chapter 58.

§ 143-215.94J. Limitation of liability of the State of North Carolina.

(a) No claim filed against either the Commercial Fund or the Noncommercial Fund shall be paid except from assets of the respective fund as provided for in this Part or as may otherwise be authorized by law.

(b) This Part shall not be construed to obligate the General Assembly to make any appropriation to implement the provisions of this Part; nor shall it be construed to obligate the Secretary to take any action pursuant to this Part for which funds are not available from appropriations or otherwise.

(c) The Secretary may budget anticipated receipts as needed to implement this Part.

(d) Should the Secretary find that the Noncommercial Fund balance is insufficient to satisfy all claims and other obligations of the Noncommercial Fund incurred pursuant to this Part, the Secretary may transfer funds which would otherwise revert to the General Fund to the Noncommercial Fund in order to meet such claims and obligations.

(e) If at any time either fund balance is insufficient to pay all valid claims against it, the claims shall be paid in full in the order in which they are finally determined. The Secretary may retain not more than five hundred thousand dollars ($500,000) in the Noncommercial Fund as a contingency reserve and

not apply the reserve to the claims. The Department may use the contingency reserve to conduct cleanups in accordance with G.S. 143-215.94G when an imminent hazard poses a threat to human health or to significant natural resources. (1987 (Reg. Sess., 1988), c. 1035, s. 1; 1989, c. 652, s. 16; 1991, c. 538, s. 9; 1993, c. 400, s. 15.)

§ 143-215.94K. Enforcement.

The provisions of G.S. 143-215.94W through G.S. 143-215.94Y shall apply to this Part. (1987 (Reg. Sess., 1988), c. 1035, s. 1; 1989, c. 652, s. 16; 1993, c. 400, s. 15; 1995, c. 377, s. 10.)

§ 143-215.94L. Adoption of rules; administrative procedure; short title; miscellaneous provisions.

(a) The Commission may adopt rules necessary to implement the provisions of this Part. Except as may be otherwise specifically provided, the provisions of Chapter 150B of the General Statutes apply to this Part.

(b) This Part shall be administered by the Department consistent with the provisions of Title VI, § 601 of the Hazardous and Solid Waste Amendments of 1984, Pub. L. No. 98-616, 42 U.S.C. § 6991 et seq., as amended. The provisions of 40 Code of Federal Regulations Part 280, Subpart I — Lender Liability (1 July 1997 Edition) apply to this Part and Part 2B of this Article.

(c) The provisions of this Part and of Part 2 of this Article are intended to be complementary. This Part shall not be construed to limit the liability under G.S. 143-215.84(a) of any person or to limit the authority of the Department to take any action pursuant to G.S. 143-215.84(b).

(d) This Part shall be known and may be cited as the Leaking Petroleum Underground Storage Tank Cleanup Act of 1988. (1987 (Reg. Sess., 1988), c. 1035, s. 1; 1991, c. 538, ss. 10, 16; 1993, c. 400, s. 15; 1998-161, s. 9.)

§ 143-215.94M. Reports.

(a) The Secretary shall present an annual report to the Environmental Review Commission which shall include at least the following:

(1) A list of all discharges or releases of petroleum from underground storage tanks;

(2) A list of all cleanups requiring State funding through the Noncommercial Fund and a comprehensive budget to complete such cleanups;

(3) A list of all cleanups undertaken by tank owners or operators and the status of these cleanups;

(4) A statement of receipts and disbursements for both the Commercial Fund and the Noncommercial Fund;

(5) A statement of all claims against both the Commercial Fund and the Noncommercial Fund, including claims paid, claims denied, pending claims, anticipated claims, and any other obligations;

(6) The adequacy of both the Commercial Fund and the Noncommercial Fund to carry out the purposes of this Part together with any recommendations as to measures that may be necessary to assure the continued solvency of the Commercial Fund and the Noncommercial Fund; and

(7) A statement of the condition of the Loan Fund and a summary of all activity under the Loan Fund.

(b) The report required by this section shall be made by the Secretary on or before 1 September of each year. (1987 (Reg. Sess., 1988), c. 1035, s. 1; 1989, c. 652, ss. 12, 16; 1991, c. 538, s. 11; 1993, c. 400, s. 15; c. 402, s. 6; 2002-148, s. 7.)

Editor's Note. — Session Laws 2001-442, s. 7, as amended by Session Laws 2003-340, s. 2, provides: "Beginning 1 September 2003, the Secretary of Environment and Natural Resources shall submit an annual report to the Environmental Review Commission on the implementation of Sections 1 through 6 of this act [ss. 1 to 6 of Session Laws 2001-442] as a part of the report required by G.S. 143-215.94M." Section 8 of Session Laws 2001-442 provides that s. 7 expires October 1, 2006.

Effect of Amendments. — Session Laws 2002-148, s. 7, effective October 9, 2002, substituted "an annual report" for "a semiannual report" in the introductory paragraph of subsection (a); and rewrote subsection (b).

§ 143-215.94N. Applicability.

(a) The provisions of this Part as they relate to costs paid from the Commercial Fund apply only to discharges or releases that are discovered or reported on or after 30 June 1988 from a commercial underground storage tank.

(b) The provisions of this Part as they relate to costs paid from the Noncommercial Fund apply to discharges or releases without regard to the date discovered or reported; however, reimbursement of costs under G.S. 143-215.94G(d)(1), (2), (3), (3a), and (4) shall be for the full amount of the costs paid for from the Noncommercial Fund and shall not be limited pursuant to G.S. 143-215.94E(b) for discharges or releases from commercial underground storage tanks discovered or reported on or before 30 June 1988. (1989, c. 652, ss. 13, 16; 1993, c. 400, s. 15; 1995, c. 377, s. 11.)

§ 143-215.94O. Petroleum Underground Storage Tank Funds Council.

(a) The North Carolina Petroleum Underground Storage Tank Funds Council is created. The Council shall be composed of 11 members as follows:

(1) An employee of the Department who is not employed by the section responsible for the administration of the underground storage tank cleanup program who shall be appointed by the Secretary and who shall serve at the pleasure of the Secretary.

(2) Five members appointed by the General Assembly upon the recommendation of the President Pro Tempore of the Senate as follows:
   a. One who shall, at the time of appointment, be actively connected with a petroleum refining company or an organization representing petroleum refining companies.
   b. One who shall, at the time of appointment, be actively connected with a petroleum marketer or an organization representing petroleum marketers.
   c. One who shall, at the time of appointment, be actively connected with an environmental insurance carrier or an organization representing environmental insurance carriers.
   d. One who shall, at the time of appointment, be actively connected with a commercial lending institution or an organization representing commercial lending institutions.
   e. One who shall, at the time of appointment, be actively engaged in farming and the owner of a noncommercial petroleum underground storage tank or actively connected with an organization representing farmers.

(3) Five members appointed by the General Assembly upon the recommendation of the Speaker of the House of Representatives as follows:
   a. One who shall, at the time of appointment, be an owner or operator of a convenience store that markets petroleum products or is actively connected with an organization representing convenience store owners or operators.

b. One who shall, at the time of appointment, be a motor fuel service station dealer or actively connected with an organization representing motor fuel service station dealers.
c. One who shall, at the time of appointment, be actively connected with an environmental advocacy organization.
d. One who shall, at the time of appointment, have special training and experience in the remediation of groundwater contamination resulting from leaking petroleum underground storage tanks.
e. One who shall, at the time of appointment, be the owner of a noncommercial petroleum underground storage tank and not eligible for appointment under subdivisions (1), (2)a. through (2)d., or (3)a. through (3)d. of this subsection.

(b) The members of the Council shall elect a chairman and a vice-chairman.

(c) All appointments made by the General Assembly shall be for a term of two years. Terms shall expire on 30 June except that members shall serve until their successors are appointed and duly qualified as provided in G.S. 128-7. The General Assembly shall have the power to remove, in accordance with G.S. 143B-13, any member appointed by the General Assembly.

(d) The Secretary shall provide staff assistance to the Council from the agency responsible for administration of the underground storage tank cleanup program.

(e) Members of the Council who are not State employees shall be reimbursed for their expenses in accordance with G.S. 138-5. Members of the Council who are State employees shall be reimbursed for their expenses in accordance with G.S. 138-6.

(f) The Council shall meet upon the call of the Chairman or a majority of its members. A majority of its members shall constitute a quorum for the transaction of business.

(g) The Council shall:
(1) Review the administration of the Commercial Fund, the Noncommercial Fund, and the Loan Fund.
(2) Advise the Secretary and the Commission on any matter relating to the effective and efficient implementation of this Part.
(3) Advise the Secretary on the adequacy of the funds to carry out the purposes of this Part.
(4) Recommend rules, in accordance with generally accepted standards prevailing among commercial lending institutions, for use by the Department in determining eligibility for loans, interest rates, terms, and conditions applicable to loans, and in managing the Loan Fund.
(5) Recommend rules and comment on proposed rules governing reimbursement of necessary and reasonable costs under G.S. 143-215.94E(e). (1989, c. 652, s. 16; 1991, c. 538, ss. 12, 21; 1991 (Reg. Sess., 1992), c. 817, s. 3; 1993, c. 400, s. 15; 1995 (Reg. Sess., 1996), c. 743, s. 16.)

§ 143-215.94P. Groundwater Protection Loan Fund.

(a) There is established under the control and direction of the Department the Groundwater Protection Loan Fund. This Loan Fund shall be a nonreverting revolving fund consisting of any monies appropriated to it by the General Assembly or available to it from grants, and other monies paid to it or recovered on behalf of the Loan Fund. The Loan Fund shall be credited with interest on the Loan Fund by the State Treasurer pursuant to G.S. 147-69.2 and G.S. 147-69.3.

(b) The Loan Fund shall be used to provide loans to the owners of commercial petroleum underground storage tanks who are creditworthy but

may be unable to secure conventional loans to upgrade or replace commercial underground storage tanks in use on 1 July 1991 so as to meet the performance standards applicable to tanks installed after 22 December 1988 or the requirements that existing underground storage tanks must meet by 22 December 1998. All applications for loans under this section must be received by the Department prior to 1 January 1995.

(c) The Department shall adopt rules for use in managing the Loan Fund. Rules for managing the Loan Fund shall be based on generally accepted standards prevailing among commercial lending institutions with such modifications as may be necessary to achieve the purpose of this section to make loans available to creditworthy applicants. The Department shall administer the loan program through existing commercial lending institutions. In the event that the Department is unable to arrange for the administration of the loan program through existing commercial institutions in all or any part of the State, the Department may administer the loan program through the Office of State Budget and Management. Each commercial institution or agency that administers any part of the loan program shall collect all charges for securing and administering each loan, including but not limited to application fees, recording costs, collection costs, and attorneys' fees from the borrower. Receipt of a loan from the Loan Fund is not a right, duty, or privilege; therefore, Article 3 of Chapter 150B of the General Statutes does not apply to the grant or denial of a loan from the Loan Fund.

(d) Funds received in repayment of loans made from the Loan Fund shall be deposited into the Loan Fund until the proceeds of all approved loans are disbursed to the borrowers. Thereafter, funds received in repayment of loans made from the Loan Fund and any other funds remaining in the Loan Fund shall be deposited in the Commercial Fund.

(e) In the event of a default on a loan from the Loan Fund or a violation of a loan agreement, the Secretary may request the Attorney General to bring a civil action for collection of the amount owed or other appropriate relief. An action shall be filed in the superior court of the county where the loan recipient resides, where the loan recipient does business, or where the tanks replaced or upgraded by the loan are located. In an action, the Attorney General may recover all costs of litigation, including attorneys' fees.

(f) If the State incurs liability in extending credit from the Loan Fund and, as a result of the liability, the State is ordered to pay or, as part of a settlement agreement, agrees to pay damages or other costs, the State shall seek reimbursement for the amount of the damages or other costs from the following sources in the order listed:

(1) Any funds to which the State is entitled under any federal program providing for the cleanup of petroleum discharges or releases from underground storage tanks, including but not limited to the Leaking Underground Storage Tank Trust Fund established pursuant to 26 U.S.C. § 4081 and 42 U.S.C. § 6991b(h).

(2) The Noncommercial Fund.

(3) The Commercial Fund. (1989, c. 652, s. 16; 1991, c. 538, ss. 13, 21; 1993, c. 400, s. 15; c. 402, s. 7; 2000-140, s. 93.1(a); 2001-424, s. 12.2(b).)

§§ 143-215.94Q through 143-215.94S: Reserved for future codification purposes.

Part 2B. Underground Storage Tank Regulation.

§ 143-215.94T. Adoption and implementation of regulatory program.

(a) The Commission shall adopt, and the Department shall implement and enforce, rules relating to underground storage tanks as provided by G.S. 143-215.3(a)(15) and G.S. 143B-282(2)h. These rules shall include standards and requirements applicable to both existing and new underground storage tanks and tank systems, may include different standards and requirements based on tank capacity, tank location, tank age, and other relevant factors, and shall include, at a minimum, standards and requirements for:

(1) Design, construction, and installation, including monitoring systems.
(2) Notification to the Department, inspection, and registration.
(3) Recordation of tank location.
(4) Modification, retrofitting, and upgrading.
(5) General operating requirements.
(6) Release detection.
(7) Release reporting, investigation, and confirmation.
(8) Corrective action.
(9) Repair.
(10) Closure.
(11) Financial responsibility.
(12) Tank tightness testing procedures and certification of persons who conduct tank tightness tests.
(13) Secondary containment for nontank components of petroleum underground storage tank systems.

(b) Rules adopted pursuant to subsection (a) of this section that apply only to commercial underground storage tanks shall not apply to any:

(1) Farm or residential underground storage tank of 1,100 gallons or less capacity used for storing motor fuel for noncommercial purposes.
(2) Underground storage tank of 1,100 gallons or less capacity used for storing heating oil for consumptive use on the premises where stored.
(3) Underground storage tank of more than 1,100 gallon capacity used for storing heating oil for consumptive use on the premises where stored by four or fewer households.

(c) Rules adopted pursuant to subdivision (13) of subsection (a) of this section shall require secondary containment for all nontank components of underground storage tank systems, including all piping and fittings, pump heads, and dispensers. Secondary containment requirements shall include standards for double wall piping and fittings and sump containment for pump heads and dispensers. The rules shall provide for monthly monitoring of double wall interstices and sump containments. The rules shall apply to any underground storage tank system that is installed on or after the date on which the rules become effective and to the replacement of any nontank component of an underground storage tank system on or after that date. (1989, c. 652, s. 14; 1998-161, s. 10; 1999-328, s. 4.12; 2003-352, s. 8.)

Editor's Note. — Session Laws 1999-328, s. 5.1, provides that this act shall not be construed to obligate the General Assembly to appropriate any funds to implement the provisions of this act. Every State agency to which this act applies shall implement the provisions of this act from funds otherwise appropriated or available to that agency.

Session Laws 2001-454, s. 1, provides: "There is appropriated from the Noncommercial Leaking Petroleum Underground Storage Tank Cleanup Fund to the Department of Environment and Natural Resources the sum of four hundred ninety-five thousand dollars ($495,000) for the 2001-2002 fiscal year and the sum of four hundred ninety-five thousand dollars ($495,000) for the 2002-2003 fiscal year to implement the provisions of Parts 2A and 2B of

Article 21A of Chapter 143 of the General Statutes."

Session Laws 2001-454, s. 2, provides: "The Environmental Review Commission shall evaluate the increased funding for implementation of the provisions of Parts 2A and 2B of Article 21A of Chapter 143 of the General Statutes authorized by Section 1 of this act [Session Laws 2001-454, s. 1]. The Commission shall determine whether adjustments should be made to the amounts appropriated from the Commercial Leaking Petroleum Underground Storage Tank Cleanup Fund and the Noncommercial Leaking Petroleum Underground Storage Tank Cleanup Fund to implement Parts 2A and 2B of Article 21A of Chapter 143 of the General Statutes. The Commission shall report its findings and recommendations, if any, to the 2003 General Assembly."

Session Laws 2003-352, s. 11, provides: "In order to reduce costs associated with the assessment and cleanup of discharges and releases of petroleum from petroleum underground storage tanks, the Environmental Management Commission may adopt temporary and permanent rules to modify the testing requirements set out in 15A NCAC 2L.0115 (Risk-Based Assessment and Corrective Action for Petroleum Underground Storage Tanks). Reference to this section shall satisfy the requirement for a statement of finding of need for a temporary rule."

Effect of Amendments. — Session Laws 2003-352, s. 8, effective August 1, 2003, added subdivision (a)(13); and added subsection (c).

Legal Periodicals. — For legislative survey, see 21 Campbell L. Rev. 323 (1999).

§ 143-215.94U. Registration of petroleum commercial underground storage tanks; operation of petroleum underground storage tanks; operating permit required.

(a) The owner or operator of each petroleum commercial underground storage tank shall annually obtain an operating permit from the Department for the facility at which the tank is located. The Department shall issue an operating permit only if the owner or operator:

(1) Has notified the Department of the existence of all tanks as required by 40 Code of Federal Regulations § 280.22 (1 July 1994 Edition) or 42 U.S.C. § 6991a, if applicable, at the facility;

(2) Has paid all fees required under G.S. 143-215.94C for all commercial petroleum underground storage tanks located at the facility;

(3) Complies with applicable release detection, spill and overfill protection, and corrosion protection requirements set out in rules adopted pursuant to this Chapter, notifies the Department of the method or combination of methods of leak detection, spill and overfill protection, and corrosion protection in use, and certifies to the Department that all applicable release detection, spill and overfill protection, and corrosion protection requirements are being met for all petroleum underground storage tanks located at the facility;

(4) If applicable, complies with the Stage I vapor control requirements set out in 15A North Carolina Administrative Code 2D.0928, effective 1 March 1991, notifies the Department of the method or combination of methods of vapor control in use, and certifies to the Department that all Stage I vapor control requirements are being met for all petroleum underground storage tanks located at the facility; and

(5) Has substantially complied with the air quality, groundwater quality, and underground storage tank standards applicable to any activity in which the applicant has previously engaged and has been in substantial compliance with federal and State laws, regulations, and rules for the protection of the environment. In determining substantial compliance, the compliance history of the owner or operator and any parent, subsidiary, or other affiliate of the owner, operator, or parent may be considered.

(b) The operating permit shall be issued at the time the commercial underground storage annual tank operating fee required under G.S. 143-215.94C(a) is paid and shall be valid from the first day of the month in which the fee is due through the last day of the last month for which the fee is paid in accordance with the schedule established by the Department under G.S. 143-215.94C(b).

(c) No person shall place a petroleum product, and no owner or operator shall cause a petroleum product to be placed, into an underground storage tank at a facility for which the owner or operator does not hold a currently valid operating permit.

(d) The Department shall issue an operating permit certificate for each facility that meets the requirements of subsection (a) of this section. The operating permit certificate shall identify the number of tanks at the facility and shall conspicuously display the date on which the permit expires. Except for the owner or operator, no person shall be liable under subsection (c) of this section if an unexpired operating permit certificate is displayed at the facility, unless the person knows or has reason to know that the owner or operator does not hold a currently valid operating permit for the facility.

(e) The Department may revoke an operating permit only if the owner or operator fails to continuously meet the requirements set out in subdivisions (1) through (4) of subsection (a) of this section. If the Department revokes an operating permit, the owner or operator of the facility for which the operating permit was issued shall immediately surrender the operating permit certificate to the Department, unless the revocation is stayed pursuant to G.S. 150B-33. An owner or operator may challenge a decision by the Department to deny or revoke an operating permit by filing a contested case under Article 3 of Chapter 150B of the General Statutes. The Secretary shall make the final agency decision regarding the revocation of a permit under this section. (1995, c. 377, s. 2; 1998-161, s. 6.)

§ 143-215.94V. Standards for petroleum underground storage tank cleanup.

(a) Legislative findings and intent.

(1) The General Assembly finds that:

a. The goals of the underground storage tank program are to protect human health and the environment. Maintaining the solvency of the Commercial Fund and the Noncommercial Fund is essential to these goals.

b. The sites at which discharges or releases from underground storage tanks occur vary greatly in terms of complexity, soil types, hydrogeology, other physical and chemical characteristics, current and potential future uses of groundwater, and the degree of risk that each site may pose to human health and the environment.

c. Risk-based corrective action is a process that recognizes this diversity and utilizes an approach where assessment and remediation activities are specifically tailored to the conditions and risks of a specific site.

d. Risk-based corrective action gives the State flexibility in requiring different levels of cleanup based on scientific analysis of different site characteristics, and allowing no action or no further action at sites that pose little risk to human health or the environment.

e. A risk-based approach to the cleanup of environmental damage can adequately protect human health and the environment while preventing excessive or unproductive cleanup efforts, thereby

assuring that limited resources are directed toward those sites that pose the greatest risk to human health and the environment.

(2) The General Assembly intends:

a. To direct the Commission to adopt rules that will provide for risk-based assessment and cleanup of discharges and releases from petroleum underground storage tanks. These rules are intended to combine groundwater standards that protect current and potential future uses of groundwater with risk-based analysis to determine the appropriate cleanup levels and actions.

b. That these rules apply to all discharges or releases that are reported on or after the date the rules become effective in order to ascertain whether cleanup is necessary, and if so, the appropriate level of cleanup.

c. That these rules may be applied to any discharge or release that has been reported at the time the rules become effective at the discretion of the Commission.

d. That these rules and decisions of the Commission and the Department in implementing these rules facilitate the completion of more cleanups in a shorter period of time.

e. That neither the Commercial Fund nor the Noncommercial Fund be used to clean up sites where the Commission has determined that a discharge or release poses a degree of risk to human health or the environment that is no greater than the acceptable level of risk established by the Commission.

f. Repealed by Session Laws 1998-161, s. 11(c), effective retroactively to January 1, 1998.

g. That the Commercial Fund and the Noncommercial Fund be used to perform the most cost-effective cleanup that addresses imminent threats to human health and the environment.

(b) The Commission shall adopt rules to establish a risk-based approach for the assessment, prioritization, and cleanup of discharges and releases from petroleum underground storage tanks. The rules shall address, at a minimum, the circumstances where site-specific information should be considered, criteria for determining acceptable cleanup levels, and the acceptable level or range of levels of risk to human health and the environment.

(c) The Commission may require an owner or operator or a landowner eligible for payment or reimbursement under subsections (b), (b1), (c), and (c1) of G.S. 143-215.94E to provide information necessary to determine the degree of risk to human health and the environment that is posed by a discharge or release from a petroleum underground storage and to identify the most cost-effective cleanup that addresses imminent threats to human health and the environment.

(d) If the Commission concludes that a discharge or release poses a degree of risk to human health or the environment that is no greater than the acceptable level of risk established by the Commission, the Commission shall notify an owner, operator, or landowner who provides the information required by subsection (c) of this section that no cleanup, further cleanup, or further action will be required unless the Commission later determines that the discharge or release poses an unacceptable level of risk or a potentially unacceptable level of risk to human health or the environment. If the Commission concludes that a discharge or release poses a degree of risk to human health or the environment that requires further cleanup, the Commission shall notify the owner, operator, or landowner who provides the information required by subsection (c) of this section of the cleanup method approved by the Commission as the most cost-effective cleanup method for the site. This section shall not be construed to prohibit an owner, operator, or landowner

from selecting a cleanup method other than the cost-effective cleanup method approved by the Commission so long as the Commission determines that the alternative cleanup method will address imminent threats to human health and the environment.

(e) If the Commission concludes under subsection (d) of this section that no cleanup, no further cleanup, or no further action will be required, the Department shall not pay or reimburse any costs otherwise payable or reimbursable under this Article from either the Commercial or Noncommercial Fund, other than reasonable and necessary to conduct the risk assessment required by this section, unless:

(1) Cleanup is ordered or damages are awarded in a finally adjudicated judgment in an action against the owner or landowner.

(2) Cleanup is required or damages are agreed to in a consent judgment approved by the Department prior to its entry by the court.

(3) Cleanup is required or damages are agreed to in a settlement agreement approved by the Department prior to its execution by the parties.

(4) The payment or reimbursement is for costs that were incurred prior to or as a result of notification of a determination by the Commission that no cleanup, no further cleanup, or no action is required.

(5) The payment or reimbursement is for costs that were incurred as a result of a later determination by the Commission that the discharge or release poses a threat or potential threat to human health or the environment as provided in subsection (d) of this section.

(e1) If the Commission concludes under subsection (d) of this section that further cleanup is required and notifies the owner, operator, or landowner of the cleanup method approved by the Commission as the most cost-effective cleanup method for the site, the Department shall not pay or reimburse any costs otherwise payable or reimbursable under this Article from either the Commercial Fund or Noncommercial Fund, other than those costs that are reasonable and necessary to conduct the risk assessment and to implement the cost-effective cleanup method approved by the Commission. If the owner, operator, or landowner selects a cleanup method other than the one identified by the Commission as the most cost-effective cleanup, the Department shall not pay or reimburse for costs in excess of the cost of implementing the approved cost-effective cleanup.

(f) This section shall not be construed to limit the authority of the Commission to require investigation, initial response, and abatement of a discharge or release pending a determination by the Commission under subsection (d) of this section as to whether cleanup, further cleanup, or further action will be required.

(g) Subsections (c) through (e1) of this section apply only to assessments and cleanups in progress or begun on or after 2 January 1998.

(h) If a discharge or release of petroleum from an underground storage tank results in contamination in soil or groundwater that becomes commingled with contamination that is the result of a discharge or release of petroleum from a source of contamination other than an underground storage tank, the cleanup of petroleum may proceed under rules adopted pursuant to this section. The Department shall not pay or reimburse any costs associated with the assessment or remediation of that portion of contamination that results from a release or discharge of petroleum from a source other than an underground storage tank from either the Commercial Fund or the Noncommercial Fund. (1995, c. 377, s. 1; 1998-161, s. 11(c); 2003-352, s. 9.)

Editor's Note. — Session Laws 1995 (Reg. Sess., 1996), c. 648, s. 8, provides: "Nothing in this act shall be construed to waive the sovereign immunity of the State for any action or

omission of the State or of any agent or employee of the State in implementing the provisions of this act. The provisions of Article 31 of Chapter 143 of the General Statutes, Tort Claims against State Departments and Agencies, shall not apply to any action or omission of the State or of any agent or employee of the State in implementing the provisions of this act. There shall be no liability for negligence on the part of the State or of any agent or employee for any action or omission in implementing the provisions of this act."

Regarding modification of the rights and obligations of an owner, operator, or a landowner to whom G.S. 143-215.94E(b1) applies and who is eligible to have costs paid or reimbursed under G.S. 143-215.94B, as governed by G.S. 143-215.94E, see the Editor's Note to Session Laws 2003-352, s. 10, at G.S. 143-215.94E.

Session Laws 2003-352, s. 11, provides: "In order to reduce costs associated with the assessment and cleanup of discharges and releases of petroleum from petroleum underground storage tanks, the Environmental Management Commission may adopt temporary and permanent rules to modify the testing requirements set out in 15A NCAC 2L.0115 (Risk-Based Assessment and Corrective Action for Petroleum Underground Storage Tanks). Reference to this section shall satisfy the requirement for a statement of finding of need for a temporary rule."

Effect of Amendments. — Session Laws 2003-352, s. 9, effective July 27, 2003, added subdivision (a)(2)g.; in subsection (c), substituted "and to identify the most cost-effective cleanup that addresses imminent threats to human health and the environment" for "tank"; in subsection (d), added the second and last sentences; inserted subsection (e1); substituted "(c) through (e1)" for "(c) through (e)," and made minor stylistic changes in subsection (g); and added subsection (h).

§ 143-215.94W. Enforcement procedures: civil penalties.

(a) A civil penalty of not more than ten thousand dollars ($10,000) may be assessed by the Secretary against any person who:

(1) Violates any provision of this Part or rule adopted pursuant to this Part.
(2) Fails to apply for or to secure a permit required by this Part.
(3) Violates or fails to act in accordance with the terms, conditions, or requirements of any permit issued pursuant to this Part.
(4) Fails to file, submit, or make available, as the case may be, any documents, data, or reports required by this Part.
(5) Violates or fails to act in accordance with the terms, conditions, or requirements of any special order or other appropriate document issued pursuant to G.S. 143-215.2 or fails to comply with the requirements of G.S. 143B-279.9 through G.S. 143B-279.11.
(6) Falsifies or tampers with any recording or monitoring device or method required to be operated or maintained under this Part or rules implementing this Part.
(7) Knowingly renders inaccurate any recording or monitoring device or method required to be operated or maintained under this Part or rules implementing this Part.
(8) Knowingly makes any false statement, representation, or certification in any application, record, report, plan, or other document filed or required to be maintained under this Part or a rule implementing this Part.
(9) Knowingly makes a false statement of a material fact in a rule-making proceeding or contested case under this Part.
(10) Refuses access to the Commission or its duly designated representative to any premises for the purpose of conducting a lawful inspection provided for in this Part.

(b) If any action or failure to act for which a penalty may be assessed under this section is continuous, the Secretary may assess a penalty not to exceed ten thousand dollars ($10,000) per day for so long as the violation continues. A penalty for a continuous violation shall not exceed two hundred thousand dollars ($200,000) for each period of 30 days during which the violation continues.

(c) In determining the amount of the penalty, the Secretary shall consider the factors set out in G.S. 143B-282.1(b). The procedures set out in G.S. 143B-282.1 shall apply to civil penalty assessments that are presented to the Commission for final agency decision.

(d) The Secretary shall notify any person assessed a civil penalty of the assessment and the specific reasons therefor by registered or certified mail, or by any means authorized by G.S. 1A-1, Rule 4. Contested case petitions shall be filed pursuant to G.S. 150B-23 within 30 days of receipt of the notice of assessment. The Secretary shall make the final decision regarding assessment of a civil penalty under this section.

(e) Requests for remission of civil penalties shall be filed with the Secretary. Remission requests shall not be considered unless made within 30 days of receipt of the notice of assessment. Remission requests must be accompanied by a waiver of the right to a contested case hearing pursuant to Chapter 150B and a stipulation of the facts on which the assessment was based. Consistent with the limitations in G.S. 143B-282.1(c) and (d), remission requests may be resolved by the Secretary and the violator. If the Secretary and the violator are unable to resolve the request, the Secretary shall deliver remission requests and his recommended action to the Committee on Civil Penalty Remissions of the Environmental Management Commission appointed pursuant to G.S. 143B-282.1(c).

(f) If any civil penalty has not been paid within 30 days after notice of assessment has been served on the violator, the Secretary shall request the Attorney General to institute a civil action in the superior court of any county in which the violator resides or has his or its principal place of business to recover the amount of the assessment, unless the violator contests the assessment as provided in subsection (d) of this section, or requests remission of the assessment in whole or in part as provided in subsection (e) of this section. If any civil penalty has not been paid within 30 days after the final agency decision or court order has been served on the violator, the Secretary shall request the Attorney General to institute a civil action in the superior court of any county in which the violator resides or has his or its principal place of business to recover the amount of the assessment. Such civil actions must be filed within three years of the date the final agency decision or court order was served on the violator.

(g) Repealed by Session Laws 1995 (Regular Session, 1996), c. 743, s. 17.

(h) The clear proceeds of civil penalties assessed pursuant to this section shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2. (1995, c. 377, s. 3; 1995 (Reg. Sess., 1996), c. 743, s. 17; 1998-215, s. 69; 2002-90, s. 6.)

Editor's Note. — Session Laws 2002-90, s. 8, provides in part: "This act applies retroactively to any cleanup of a discharge or release of petroleum from an underground storage tank pursuant to Part 2A of Article 21A of Chapter 143 of the General Statutes except that land-use restrictions and recordation of residual contamination are not required with respect to a discharge or release of petroleum for which the Department of Environment and Natural Resources issued a determination that no further action is required prior to 1 September 2001."

Effect of Amendments. — Session Laws 2002-90, s. 6, effective retroactively to 1 September 2001, added "or fails to comply with the requirements of G.S. 143B-279.9 through G.S. 143B-279.11" at the end of subdivision (a)(5). See editor's note for applicability.

§ 143-215.94X. Enforcement procedures: criminal penalties.

(a) Any person who negligently commits any of the offenses set out in subdivisions (1) through (9) of G.S. 143-215.94W(a) shall be guilty of a Class 2 misdemeanor which may include a fine not to exceed fifteen thousand dollars ($15,000) per day of violation, provided that such fine shall not exceed a cumulative total of two hundred thousand dollars ($200,000) for each period of 30 days during which a violation continues.

(b) Any person who knowingly and willfully commits any of the offenses set out in subdivisions (1) through (5) of G.S. 143-215.94W(a) shall be guilty of a Class I felony, which may include a fine not to exceed one hundred thousand dollars ($100,000) per day of violation, provided that this fine shall not exceed a cumulative total of five hundred thousand dollars ($500,000) for each period of 30 days during which a violation continues. For the purposes of this subsection, the phrase "knowingly and willfully" shall mean intentionally and consciously as the courts of this State, according to the principles of common law interpret the phrase in the light of reason and experience.

(c)(1) Any person who knowingly commits any of the offenses set out in subdivisions (1) through (5) of G.S. 143-215.94W(a) and who knows at that time that he thereby places another person in imminent danger of death or serious bodily injury shall be guilty of a Class C felony, which may include a fine not to exceed two hundred fifty thousand dollars ($250,000) per day of violation, provided that this fine shall not exceed a cumulative total of one million dollars ($1,000,000) for each period of 30 days during which a violation continues.

(2) For the purposes of this subsection, a person's state of mind is knowing with respect to:

a. His conduct, if he is aware of the nature of his conduct;

b. An existing circumstance, if he is aware or believes that the circumstance exists; or

c. A result of his conduct, if he is aware or believes that his conduct is substantially certain to cause danger of death or serious bodily injury.

(3) Under this subsection, in determining whether a defendant who is a natural person knew that his conduct placed another person in imminent danger of death or serious bodily injury:

a. The person is responsible only for actual awareness or actual belief that he possessed; and

b. Knowledge possessed by a person other than the defendant but not by the defendant himself may not be attributed to the defendant.

(4) It is an affirmative defense to a prosecution under this subsection that the conduct charged was conduct consented to by the person endangered and that the danger and conduct charged were reasonably foreseeable hazards of an occupation, a business, or a profession; or of medical treatment or medical or scientific experimentation conducted by professionally approved methods and such other person had been made aware of the risks involved prior to giving consent. The defendant may establish an affirmative defense under this subdivision by a preponderance of the evidence.

(d) No proceeding shall be brought or continued under this section for or on account of a violation by any person who has previously been convicted of a federal violation based upon the same set of facts.

(e) In proving the defendant's possession of actual knowledge, circumstantial evidence may be used, including evidence that the defendant took affirmative steps to shield himself from relevant information. Consistent with

the principles of common law, the subjective mental state of defendants may be inferred from their conduct.

(f) For the purposes of the felony provisions of this section, a person's state of mind shall not be found "knowingly and willfully" or "knowingly" if the conduct that is the subject of the prosecution is the result of any of the following occurrences or circumstances:

(1) A natural disaster or other act of God which could not have been prevented or avoided by the exercise of due care or foresight.

(2) An act of third parties other than agents, employees, contractors, or subcontractors of the defendant.

(3) An act done in reliance on the written advice or emergency on-site direction of an employee of the Department. In emergencies, oral advice may be relied upon if written confirmation is delivered to the employee as soon as practicable after receiving and relying on the advice.

(4) An act causing no significant harm to the environment or risk to the public health, safety, or welfare and done in compliance with other conflicting environmental requirements or other constraints imposed in writing by environmental agencies or officials after written notice is delivered to all relevant agencies that the conflict exists and will cause a violation of the identified standard.

(5) Violations causing no significant harm to the environment or risk to the public health, safety, or welfare for which no enforcement action or civil penalty could have been imposed under any written civil enforcement guidelines in use by the Department at the time. This subdivision shall not be construed to require the Department to develop or use written civil enforcement guidelines.

(6) Occasional, inadvertent, short-term violations causing no significant harm to the environment or risk to the public health, safety, or welfare. If the violation occurs within 30 days of a prior violation or lasts for more than 24 hours, it is not an occasional, short-term violation.

(g) All general defenses, affirmative defenses, and bars to prosecution that may apply with respect to other criminal offenses under State criminal offenses may apply to prosecutions brought under this section or other criminal statutes that refer to this section and shall be determined by the courts of this State according to the principles of common law as they may be applied in the light of reason and experience. Concepts of justification and excuse applicable under this section may be developed in the light of reason and experience. (1995, c. 377, s. 3.)

§ 143-215.94Y. Enforcement procedures; injunctive relief.

Whenever the Department has reasonable cause to believe that any person has violated or is threatening to violate any of the provisions of this Part, any of the terms of any permit issued pursuant to this Part, or a rule implementing this Part or has failed to comply with the requirements of G.S. 143B-279.9 through G.S. 143B-279.11, the Department may, either before or after the institution of any other action or proceeding authorized by this Part, request the Attorney General to institute a civil action in the name of the State upon the relation of the Department for injunctive relief to restrain the violation or threatened violation and for such other and further relief in the premises as the court shall deem proper. The Attorney General may institute such action in the superior court of the county in which the violation occurred or may occur or, in his discretion, in the superior court of the county in which the person responsible for the violation or threatened violation resides or has his or its

principal place of business. Upon a determination by the court that the alleged violation of the provisions of this Part, the rules of the Commission, or the failure to comply with the requirements of G.S. 143B-279.9 through G.S. 143B-279.11 has occurred or is threatened, the court shall grant the relief necessary to prevent or abate the violation or threatened violation. Neither the institution of the action nor any of the proceedings thereon shall relieve any party to such proceedings from any penalty prescribed for violation of this Part or for failure to comply with the requirements of G.S. 143B-279.9 through G.S. 143B-279.11. (1995, c. 377, s. 3; 2002-90, s. 7.)

Editor's Note. — Session Laws 2002-90, s. 8, provides in part: "This act applies retroactively to any cleanup of a discharge or release of petroleum from an underground storage tank pursuant to Part 2A of Article 21A of Chapter 143 of the General Statutes except that land-use restrictions and recordation of residual contamination are not required with respect to a discharge or release of petroleum for which the Department of Environment and Natural Resources issued a determination that no further action is required prior to 1 September 2001."

Effect of Amendments. — Session Laws 2002-90, s. 7, effective retroactively to 1 September 2001, added provisions pertaining to a failure to comply with the requirements of G.S. 143B-279.9 through G.S. 143B-279.11 three times, and substituted "rules" for "regulations." See editor's note for applicability.

§ 143-215.94Z: Reserved for future codification purposes.

Part 2C. Offshore Oil and Gas Activities. Adverse Environmental Impact Protection.

§ 143-215.94AA. Declaration of public policy.

The General Assembly hereby finds and declares as follows:

(1) The traditional uses of the seacoast of the State are public and private recreation, commercial and sports fishing, and habitat for natural resources;

(2) The preservation of these uses is a matter of the highest urgency and priority, and such uses can only be preserved effectively by maintaining and enhancing the existing condition of the coastal waters, estuaries, wetlands, tidal flats, beaches, and public lands adjoining the seacoast;

(3) The coastal economy, including access to the coast of the State, depends, either directly or indirectly, upon a ready and continuous reserve of petroleum products and by-products, including that portion of the supply resulting from oil and gas activities on the Outer Continental Shelf;

(4) Offshore oil and natural gas exploration, production, processing, recovery, and transportation pose increased potential for damage to the State's coastal environment, to the traditional uses of the area, and to the beauty of the North Carolina coast;

(5) Spills, discharges, and escapes of pollutants occurring as a result of procedures involving offshore oil and natural gas related activities have occurred in the past, and future threats of potentially catastrophic proportions from such activities require adoption of this Part as mitigation against such events;

(6) The economic burdens imposed by the General Assembly upon those engaged in the offshore exploration, production, processing, recovery, and transportation of oil and natural gas are reasonable and necessary in light of the traditional uses and interests herein protected,

which are expressly declared to be of grave public interest and concern to the State in promoting its general interest and welfare promoting the public health, preventing diseases, and providing for the public safety. (1989, c. 656, s. 5; c. 770, s. 75.5.)

§ 143-215.94BB. Definitions.

In addition to the definitions set out in G.S. 143-215.77, as used in this Part, the following definitions shall apply:

(1) "Damages" are damages for any of the following:
   a. Injury or harm to real or personal property, which includes the cost of restoring, repairing, or replacing any real or personal property damaged or destroyed by a discharge under this section, any income lost from the time such property is damaged to the time such property is restored, repaired, or replaced, and any reduction in value of such property caused by such discharge by comparison with its value prior thereto.
   b. Business loss, including loss of income or impairment of earning capacity due to damage to real or personal property or to damage or destruction of natural resources upon which such income or earning capacity is reasonably dependent.
   c. Interest on loans obtained or other financial obligations incurred by an injured party for the purpose of ameliorating the adverse effects of a discharge pending the payment of a claim in full as provided by this Article.
   d. Costs of cleanup, removal, or treatment of natural gas, oil, or drilling waste discharges.
   e. Costs of restoration, rehabilitation, and, where possible, replacement of wildlife or other natural resources damaged as a result of a discharge.
   f. When the injured party is the State or one of its political subdivisions, in addition to any injury described in subparagraphs (a) to (e), inclusive, damages include all of the following:
      1. Injury to natural resources or wildlife, including recreational or commercial fisheries, and loss of use and enjoyment of public beaches and other public resources or facilities within the jurisdiction of the State or one of its political subdivisions.
      2. Costs to assess damages to natural resources, wildlife, or habitat.
      3. Costs incurred to monitor the cleanup of the natural gas, oil, or drilling waste spilled.
      4. Loss of State or local government tax revenues resulting from damages to real or personal property proximately resulting from a discharge.

(2) For the purposes of this Part, "oil" and "drilling wastes" include, but are not limited to: petroleum, refined or processed petroleum, petroleum by-products, oil sludge, oil refuse, oil mixed with wastes and chemicals, or other materials used in the exploration, recovery, or processing of oil. "Oil" does not include oil carried in a vessel for use as fuel in that vessel.

(3) "Natural gas" includes natural gas, liquified natural gas, and natural gas by-products. "Natural gas" does not include natural gas carried in a vessel for use as fuel in that vessel.

(4) "Exploration" means undersea boring, drilling, and soil sampling.

(5) "Injured party" means any person who suffers damages from natural gas, oil, or drilling waste which is discharged or leaks into marine

waters, or from offshore exploration. The State, or a county or municipality, may be an injured party.

(6) "Responsible person" means any of the following:

a. The owner or transporter of natural gas, oil, or drilling waste which causes an injury covered by this Part.

b. The owner, operator, lessee of, or person who charters by demise, any offshore well, undersea site, facility, oil rig, oil platform, vessel, or pipeline which is the source of natural gas, oil, drilling waste, or is the source or location of exploration which causes an injury covered by this Part.

"Responsible party" does not include the United States, the State, any county, municipality or public governmental agency; however, this exception to the definition of "responsible person" shall not be read to exempt utilities from the provisions of this Part.

(7) "Offshore waters" shall include both the territorial sea extending seaward from the coastline of North Carolina to the State and federal boundary, and United States jurisdictional waters of the Atlantic Ocean adjacent to the territorial sea of the State.

(8) "Natural resources" shall include "marine and estuarine resources" and "wildlife resources" as those terms are defined in G.S. 113-129(11) and G.S. 113-129(17), respectively. (1989, c. 656, s. 5; c. 770, s. 75.5.)

§ 143-215.94CC. Liability under this section; exceptions.

(a) Any responsible person shall be strictly liable, notwithstanding any language of limitation found in G.S. 143-215.89, for all cleanup and removal costs and all direct or indirect damages incurred within the territorial jurisdiction of the State by any injured party, which arise out of, or are caused by, the discharge or leaking of natural gas, oil, or drilling waste into or onto "coastal fishing waters" as defined in G.S. 113-129(4), or offshore waters, or by any exploration in or upon coastal fishing or offshore waters, from any of the following sources:

(1) Any offshore well or undersea site at which there is exploration for or extraction or recovery of natural gas or oil.

(2) Any offshore facility, oil rig, or oil platform at which there is exploration for, or extraction, recovery, processing, or storage of, natural gas or oil.

(3) Any vessel offshore in which natural gas, oil, or drilling waste is transported, processed or stored other than for purposes of fuel for the vessel carrying it.

(4) Any pipeline located offshore in which natural gas, oil, or drilling waste is transported.

(b) A responsible person is not liable to an injured party under this section for any of the following:

(1) Damages, other than costs of removal incurred by the State or a local government, caused solely by any act of war, hostilities, civil war, or insurrection or by an unanticipated grave natural disaster or other act of God of an exceptional, inevitable, and irresistible character, which could not have been prevented or avoided by the exercise of due care or foresight.

(2) Damages caused solely by the negligence or intentional malfeasance of that injured party.

(3) Damages caused solely by the criminal act of a third party other than the defendant or an agent or employee of the defendant. In any action arising under the provisions of this Article wherein this exception is

raised as a defense to liability, the burden of proving that the alleged third-party intervention occurred in such a manner as to limit the liability of the person sought to be held liable shall be upon the person charged.

(4) Natural seepage not caused by a responsible person.

(5) Discharge or leaking of oil or natural gas from a private pleasure boat or commercial fishing vessel having a fuel capacity of less than 500 gallons.

(6) Damages which arise out of, or are caused by, a discharge which is authorized by a State or federal permit.

(7) Damages that could have been mitigated by the injured party in accordance with common law.

(c) A court of suitable jurisdiction in any action under this Part may award reasonable costs of the suit and attorneys' fees, and the costs of any necessary expert witnesses, to any prevailing plaintiff. The court may award reasonable costs of the suit and attorneys' fees to any prevailing defendant only if the court finds that the plaintiff commenced or prosecuted the suit under this Part in bad faith or solely for purposes of harassing the defendant. (1989, c. 656, s. 5; c. 770, ss. 75.4, 75.5.)

§ 143-215.94DD. Joint and several liability; damages; personal injury.

(a) Liability under this Part shall be joint and several. However, this section does not bar a cause of action that a responsible person has or would have, by reason of subrogation or otherwise, against any person.

(b) This section does not prohibit any person from bringing an action for damages caused by natural gas, oil or drilling waste, or by exploration, under any other provisions or principle of law, including, but not limited to, common law. However, damages shall not be awarded pursuant to this section to an injured party for any loss or injury for which the party is or has been awarded damages under any other provisions or principles of law. G.S. 143-215.94CC(b) does not create any defense not otherwise available regarding any action brought under any other provision or principle of law, including, but not limited to, common law.

(c) This section shall not apply to claims for damages for personal injury or wrongful death, and does not limit the right of any person to bring such an action under any provision or theory of law. (1989, c. 656, s. 5; c. 770, s. 75.5.)

§ 143-215.94EE. Removal of prohibited discharges.

(a) The Department shall be authorized and empowered to proceed with the cleanup of discharges covered under this Part pursuant to the authority granted to the Department in G.S. 143-215.84(b) and G.S. 143-215.94HH(b)(2).

(b) Any unexplained discharge of oil, natural gas or drilling wastes occurring in waters beyond the jurisdiction of the State that for any reason penetrates within State jurisdiction shall be removed by or under the direction of the Department. Except for any expenses incurred by the responsible person, should such person become known, all expenses incurred in the removal of such discharges shall be paid promptly by the State from the Oil or Other Hazardous Substances Pollution Protection Fund established pursuant to G.S. 143-215.87 or from any other available sources. In the case of unexplained discharges, the matter shall be referred by the Secretary to the North Carolina Attorney General for collection of damages pursuant to G.S. 143-215.94FF of this Part. At his discretion, the Attorney General may refer the matter to the State Bureau of Investigation or other appropriate State or federal authority to determine the identity of the responsible person.

(c) Nothing in this section is intended to preclude cleanup and removal by any person threatened by such discharges, who, as soon as is reasonably possible, coordinates and obtains approval for such actions with ongoing State or federal operations and appropriate State and federal authorities.

(d) No action taken by any person to contain or remove an unlawful discharge shall be construed as an admission of liability for said discharge. (1989, c. 656, s. 5; c. 770, s. 75.5; 1991, c. 342, s. 13.)

§ 143-215.94FF. Authorization of the Attorney General; citizens' suits.

(a) For any violation of this Part, the Attorney General may, on behalf of the State and on behalf of affected citizens of the State as a class, bring a civil action in the Superior Court of Wake County against the alleged responsible person. The action may seek:

(1) Injunctive relief; or
(2) Damages caused by the violation; or
(3) Both damages and injunctive relief; or
(4) Such other and further relief in the premises as the Court shall deem proper.

(b) Any injured party under this Part may bring a civil action for damages against the alleged responsible person. Civil actions under this subsection shall be brought in the superior court of the county in which the alleged injury occurred or in which the alleged damaged property is located, or in the county in which the injured party resided.

(c) Nothing in this section shall restrict any right which any person (or class of persons) may have under any statute or common law to seek injunctive or other relief. (1989, c. 656, s. 5; c. 770, s. 75.5.)

§ 143-215.94GG. Notification by persons responsible for discharge.

(a) Any person responsible for an offshore discharge under this Part shall immediately notify the Division of Emergency Management pursuant to rules established by the Secretary of Crime Control and Public Safety, if any, but in no case later than two hours after the discharge. Failure to so notify the Division of Emergency Management shall make the responsible person liable to the penalties set out in subsection (b) of this section. No penalty shall be imposed under this section when the owner or operator has promptly reported the discharge to federal authorities designated pursuant to 33 U.S.C. § 1321.

(b) The civil penalty for failure to immediately report a discharge under this Part shall be determined by the Commission. In determining the amount of a penalty for failure to report under this section, the Commission shall take into consideration such circumstances as the gravity of the violation, the previous record of the responsible person in complying with the terms of this Article, whether the violator reported the discharge and if so after what period of time following the spill, the size of the business of the responsible person and the effect of the penalty on the violator's ability to continue in business, and other relevant factors; provided that the penalty assessed under this section shall not exceed the following daily maximum amounts, based upon the quantity of oil spilled:

(1) Up to 50,000 gallons ..... $ 50,000
(2) More than 50,000 gallons 250,000

For purposes of this section, each day or any part thereof during which a discharge goes unreported by the responsible person shall constitute a separate offense.

(c) The clear proceeds of penalties provided for in this section shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2. (1989, c. 656, s. 5; c. 770, s. 75.5; 1998-215, s. 70.)

§ 143-215.94HH. Oil spill contingency plan.

(a) The State Emergency Response Commission, in consultation with the Secretary of Administration or his designee in the Outer Continental Shelf Lands Office, shall develop a State oil spill contingency plan relating solely to the undersea exploration, extraction, production and transport of oil or natural gas in the marine environment off the North Carolina coast, including any such development on the Outer Continental Shelf seaward of the State's jurisdiction over its territorial waters.

(b) The Secretary of Crime Control and Public Safety or his designee shall establish, pursuant to such a plan, an emergency oil spill control network which shall be comprised of available equipment from appropriate State, county and municipal governmental agencies. Such network shall be employed to provide an immediate response to an oil discharge into the offshore marine environment which is reasonably likely to affect the State's coastal waters. Furthermore, such network shall be employed in conjunction with the cleanup operations under this Article or any applicable federal law, required of the owner or operator of the discharging operation, vessel, or facility, the Department of Environment and Natural Resources, and any federal agency.

(1) The Secretary of Crime Control and Public Safety or his designee shall make an inventory, including its location and condition, of all equipment owned by the State, its counties and municipalities, and private equipment that is available to the State for leasing in the case of an oil spill including costs of leasing, that would be capable of participating in discharge cleanup operations.

(2) The Secretary of Crime Control and Public Safety shall at his discretion have the power to deploy such equipment in participating in a discharge cleanup operation.

(3) The Secretary of Environment and Natural Resources shall be authorized to reimburse such State agencies, counties, and municipalities for use of such equipment with such funds as may be available from the "Oil or Other Hazardous Substances Pollution Protection Fund" created pursuant to G.S. 143-215.87 or any other sources.

(4) The oil spill contingency plan and oil spill response network developed pursuant to this section shall be reviewed and evaluated for adequacy and continued feasibility every three years, or more often if deemed appropriate by the Secretary of Crime Control and Public Safety. (1989, c. 656, s. 5; c. 727, s. 218(111a); c. 770, s. 75.5; 1997-443, s. 11A.119(a).)

§ 143-215.94II. Emergency proclamation; Governor's powers.

(a) Whenever any emergency exists or appears imminent, arising from the discharge of oil or other pollutants within the marine environment, the Governor shall by proclamation declare the fact and that a state of emergency exists in the appropriate sections of the State. Upon such proclamation, the Governor shall have all powers enumerated in G.S. 14-288.15, subject to the provisions of G.S. 14-288.16.

(b) If the Governor is unavailable, the Lieutenant Governor shall, by proclamation, declare the fact and that a state of emergency exists in the appropriate sections of the State.

(c) In performing his duties under this section, the Governor is authorized and directed to cooperate with all departments and agencies of the federal government, the offices and agencies of other states and foreign countries and the political subdivisions thereof, and private agencies in all matters pertaining to an emergency described herein.

(d) In addition to the powers enumerated in G.S. 14-288.15, in the case of such an emergency described in subsection (a) of this section, the Governor is further authorized and empowered to transfer any funds available to him by statute for emergency use into the Oil or Other Hazardous Substances Pollution Protection Fund created pursuant to G.S. 143-215.87, to be utilized for the purposes specified therein. (1989, c. 656, s. 5; c. 770, s. 75.5; 1991, c. 342, s. 14.)

§ 143-215.94JJ. Federal law.

Nothing in this Part shall authorize State agencies to impose any duties or obligations in conflict with limitations on State authority established by federal law at the time such agency action is taken. Likewise, no additional liability is established by this Part to the extent that, at the time of the injury, federal law establishes limits on liability which preempt State law. (1989, c. 656, s. 5; c. 770, s. 75.5.)

Part 3. Oil Terminal Facilities.

§ 143-215.95. Duties of Secretary.

The Secretary shall administer the provisions for registration of oil terminal facilities contained in this Part. In addition, he shall engage in such study and research concerning oil terminal facilities and their regulation in this State and elsewhere as may be required to furnish the General Assembly with a thorough factual basis for his recommendations for further legislation pursuant to this Part. (1973, c. 534, s. 1; 1977, c. 771, s. 4; 1987, c. 827, s. 154(3).)

§ 143-215.96. Oil terminal facility registration.

(a) The owner or operator of every oil terminal facility in the State shall secure a registration certificate from the Secretary. The Secretary shall not issue a registration certificate until the owner or operator has furnished the following information:

(1) Complete name of the owner and operator of the oil terminal facility together with addresses and telephone numbers;
(2) Number of employees of the oil terminal facility and the principal officers;
(3) Maps or sketches, based on criteria developed by the Secretary, showing property lines of the oil terminal facility and location of nearby watercourses or bodies of water as specified by the Secretary; and
(4) Summary of present and proposed procedures, if any, for prevention of oil spills.

(b) The owner or operator of an oil terminal facility shall secure a registration certificate no later than 30 days after the oil terminal facility begins operation. (1973, c. 534, s. 1; 1995, c. 504, s. 11.)

§ 143-215.97. Rules.

The Secretary may adopt rules to implement this Part. (1973, c. 534, s. 1; 1975, 2nd Sess., c. 983, s. 82; 1977, c. 771, s. 4; 1987, c. 827, s. 199.)

§ 143-215.98. Violations.

Any person who shall be adjudged to have violated any provision of this Part or any rule of the Secretary adopted hereunder shall be guilty of a Class 3 misdemeanor. (1973, c. 534, s. 1; 1977, c. 771, s. 4; 1987, c. 827, ss. 154(3), 200; 1993, c. 539, s. 1024; 1994, Ex. Sess., c. 24, s. 14(c).)

§ 143-215.99: Repealed by Session Laws 1975, c. 521, s. 1.

Part 4. Oil Refining Facility Permits.

§ 143-215.100. Oil refining facility permits.

No facility which is to be used or is capable of being used for the purpose of refining oil shall be initiated or constructed after July 1, 1975, without a permit from the Secretary. (1975, c. 521, s. 2; 1977, c. 771, s. 4; 1987, c. 827, s. 154(3).)

§ 143-215.101. Powers of the Secretary.

The Secretary has the power to:

(1) Adopt rules implementing this Part. Rules adopted under this Part may include the following matters:
   a. Requirements for submission of engineering reports, plans and specifications for the location and construction of oil terminal facilities.
   b. Establishment of procedures and methods of reporting discharges and other occurrences prohibited by this Article.
   c. Establishment of procedures, methods, means, and equipment to be used in the removal of oil pollutants.

(2) To deny the issuance of a permit upon a finding that:
   a. The installation will have substantial adverse effects on wildlife or on fresh water, estuarine or marine fisheries; or
   b. The operation of the installation will violate standards of air or water quality promulgated or administered by the Commission; or
   c. The installation will have a substantial adverse effect on a publicly owned park, forest, or recreation area.

(3) To grant permits for the operation of existing or proposed oil refining facilities and to impose such terms and conditions therein as it shall deem necessary and appropriate to effectuate the purposes of this Article.

(4) To require the installation of such facilities and the employment of such protective measures and operating procedures as are deemed necessary to prevent, insofar as possible, any oil discharges to the waters or lands of the State.

(5) Repealed by Session Laws 1987, c. 827, s. 201. (1975, c. 521, s. 2; 1987, c. 827, ss. 154, 201.)

§ 143-215.102. Penalties.

(a) Civil Penalty. — Any person who violates any provision of this Part, or any rule, regulation or order made pursuant to this Part, shall incur, in addition to any other penalty provided by law, a civil penalty in an amount not to exceed ten thousand dollars ($10,000) for every such violation, the amount

to be determined by the Secretary after taking into consideration the factors set out in G.S. 143B-282.1(b). The procedures set out in G.S. 143-215.6 and G.S. 143B-282.1 shall apply to civil penalties assessed under this section. The penalty herein provided for shall become due and payable when the person incurring the penalty receives a notice in writing from the Commission describing the violation with reasonable particularity and advising such person that the penalty is due. A person may contest a penalty by filing a petition for a contested case under G.S. 150B-23 within 30 days after receiving notice of the penalty. If any civil penalty has not been paid within 30 days after notice of assessment has been served on the violator, the Secretary shall request the Attorney General to institute a civil action in the Superior Court of any county in which the violator resides or has his or its principal place of business to recover the amount of the assessment, unless the violator contests the assessment, or requests remission of the assessment in whole or in part as provided in G.S. 143-215.6. If any civil penalty has not been paid within 30 days after the final agency decision or court order has been served on the violator, the Secretary shall request the Attorney General to institute a civil action in the Superior Court of any county in which the violator resides or has his or its principal place of business to recover the amount of the assessment.

The clear proceeds of civil penalties provided for in this section shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2.

(b) Criminal Penalties. — Any person who intentionally or knowingly or willfully violates any provision of this Part, or any rule, regulation or order made pursuant to this Part shall be guilty of a Class 2 misdemeanor which may include a fine to be not more than ten thousand dollars ($10,000). No proceeding shall be brought or continued under this subsection for or on account of a violation by any person who has previously been convicted of a federal violation or a local ordinance violation based upon the same set of facts. (1975, c. 521, s. 2; 1987, c. 827, s. 202; 1989 (Reg. Sess., 1990), c. 1036, s. 7; 1993, c. 539, s. 1025; 1994, Ex. Sess., c. 24, s. 14(c); 1998-215, s. 71.)

Part 5. Limitation on Liability for Hazardous Materials Abatement.

§ 143-215.103. Definitions.

As used in this Part, unless the context otherwise requires:

(1) "Discharge" shall mean leakage, seepage, or other release.

(2) "Hazardous materials" shall mean oil, low-level radioactive waste, and all materials and substances which are now or hereafter defined as toxic or hazardous by any State or federal law or by the regulations of any State or federal government agency.

(3) "Person" shall mean any individual, partnership, corporation, association, or other entity or employee thereof. (1987, c. 269, s. 1.)

§ 143-215.104. Limited liability for volunteers in hazardous material abatement.

Any person who provides assistance or advice in mitigating or attempting to mitigate the effects of an actual or threatened discharge of hazardous materials, or in preventing, cleaning up, or disposing of or in attempting to prevent, clean up or dispose of any such discharge, when the reasonably apparent circumstances indicate the need for prompt decisions and action, shall not be subject to civil liabilities of any type, unless:

(1) Prior to providing assistance or advice in mitigating or attempting to mitigate the effects of an actual or threatened discharge or in preventing, cleaning up, or disposal of or in attempting to prevent cleanup or disposal of any such discharge, he had incurred liability for the actual or threatened discharge;
(2) He receives compensation other than reimbursement for out-of-pocket expenses for his services in rendering assistance or advice, except that an individual receiving compensation for employment from his regular employer for services performed in preventing, cleaning up, or disposing of or in attempting to prevent, clean up or dispose of a discharge shall not be deemed to have received compensation if his employer is entitled to the protection afforded by this Part; or
(3) His act or omission led to damages resulting from his gross negligence, or from his reckless, wanton, or intentional misconduct.

The limited immunity provided herein shall not be applicable to any act or omission or occurrence involving the operation of a motor vehicle. The limited immunity provided herein is waived to the extent of any indemnification by insurance for damages caused by such volunteer. (1987, c. 269, s. 1.)

Part 6. Dry-Cleaning Solvent Cleanup.

(Repealed effective January 1, 2012 — See editor's notes)

§ 143-215.104A. (Repealed effective January 1, 2012 — See editor's notes) Title.

This part is the "Dry-cleaning Solvent Cleanup Act of 1997" and may be cited by that name. (1997-392, s. 1.)

Editor's Note. — Session Laws 1997-392, s. 5, as amended by Session Laws 2000-19, s. 17, provides: "This act constitutes a recent act of the General Assembly within the meaning of G.S. 150B-21.1. The Environmental Management Commission may adopt temporary rules to implement this act until 30 June 2001."

Session Laws 1997-392, s. 8, provided that Section 7 of this act, relating to reimbursement for dry-cleaning solvent contamination, is repealed effective January 1, 2000. Any reimbursement authorized pursuant to s. 7 prior to January 1, 2000, shall be paid in accordance with the provisions of that section. Section 4 of this act, which enacts new Article 5D of Chapter 105 of the General Statutes relating to the Dry-Cleaning Solvent Tax, is repealed effective January 1, 2010. Sections 1 and 4.1 of this act are repealed effective January 1, 2012. However:

"(1) G.S. 143-215.104K is not repealed to the extent that it applies to liability arising from dry-cleaning solvent contamination described in a Dry-Cleaning Solvent Assessment Agreement or Dry-Cleaning Solvent Remediation Agreement entered into by the Environmental Management Commission pursuant to G.S. 143-215.104H and G.S. 143-215.104I.

"(2) Any Dry-Cleaning Solvent Assessment Agreement or Dry-Cleaning Solvent Remediation Agreement in force as of January 1, 2012 shall continue to be governed by the provisions of Part 6 of Article 21A of Chapter 143 of the General Statutes as though those provisions had not been repealed.

"(3) G.S. 143-215.104D(b)(2) is not repealed; rules adopted by the Environmental Management Commission pursuant to G.S. 143-215.104D(b)(2) shall continue in effect; and those rules may be enforced pursuant to G.S. 143-215.104P, 143-215.104Q, and 143-215.104R, which shall remain in effect for that purpose."

Legal Periodicals. — For 1997 legislative survey, see 20 Campbell L. Rev. 443.

§ 143-215.104B. (Repealed effective January 1, 2012 — See editor's notes) Definitions.

(a) Unless a different meaning is required by the context or unless a different meaning is set out in subsection (b) of this section, the definitions in G.S. 143-215.77, 130A-2, and 130A-290 apply throughout this Part.

(b) Unless a different meaning is required by the context, the following definitions apply in this Part. The definitions set out in this subsection apply only to the implementation of this Part and do not define or limit the scope of any other remedial program:

(1) "Abandoned dry-cleaning facility site" or "abandoned site" means any real property or individual leasehold space on which a dry-cleaning facility or wholesale distribution facility formerly operated.

(2) "Affiliate" has the same meaning as in 17 Code of Federal Regulations § 240.12b-2 (1 April 1996 Edition).

(3) "Commission" means the Environmental Management Commission.

(4) "Contaminant" means a regulated substance released into the environment.

(5) Renumbered.

(6) "Disposal" shall have the meaning ascribed to it in G.S. 130A-290.

(7) "Dry-cleaning facility" means a place of business located in this State and engaged in on-site dry-cleaning operations, other than a commercial uniform service or commercial linen supply facility.

(8) "Dry-cleaning operations" means cleaning of apparel and household fabrics by using one or more dry-cleaning solvents instead of water.

(9) "Dry-cleaning solvent" means Perchloroethylene F-1,1,3 or 1,1,1 tricholorethane, a petroleum-based solvent, another comparable product used as a cleaning agent in a dry-cleaning operation or the degradation products from these hazardous substances.

(10) "Dry-cleaning solvent assessment agreement" or "assessment agreement" means an agreement between the Commission and a potentially responsible party who desires to assess whether a release of dry-cleaning solvents at a dry-cleaning facility, an abandoned dry-cleaning facility site, or a wholesale distribution facility may be eligible for remediation under this Part and whether any other contaminants that are identified in the agreement may require remediation under other remedial programs operated or administered by the Department.

(11) "Dry-cleaning solvent contamination" means the presence of dry-cleaning solvent in the waters or surface or subsurface soils of the State, the bedrock or other rock formations, or buildings in a concentration above the level requiring remediation pursuant to the rules implementing Article 21A of Chapter 143.

(12) "Dry-cleaning solvent remediation agreement" or "remediation agreement" means an agreement between the Commission and a potentially responsible party who desires to clean up dry-cleaning solvent contamination resulting from a release at a dry-cleaning facility, an abandoned dry-cleaning facility site, or a wholesale distribution facility under this Part and any other contaminants that are identified in the agreement under other remedial programs operated or administered by the Department.

(13) "Facility" means a dry-cleaning facility or a wholesale distribution facility.

(14) "Fund" means the Dry-Cleaning Solvent Cleanup Fund.

(15) "Hazardous waste" shall have the meaning ascribed to it in G.S. 130A-290.

Part 6 has a delayed repeal date. See notes.

(16) "Imminent hazard" means a situation that is likely to cause an immediate threat to human life, an immediate threat of serious physical injury, an immediate threat of serious adverse health effects, or a serious risk of irreparable damage to the environment if no immediate action is taken.

(17) "Local government" means a town, city, or county.

(18) "Operator" means any person operating a dry-cleaning facility or wholesale distribution facility, whether by lease, contract, or any other form of agreement.

(19) "Parent" has the same meaning as in 17 Code of Federal Regulations § 240.12b-2 (1 April 1996 Edition).

(20) Repealed by Session Laws 2000, ch. 19, s. 3, effective on and after April 1, 1998.

(21) "Potentially responsible party" means any person who may have liability for assessment, monitoring, treatment, mitigation, or remediation of dry-cleaning solvent contamination resulting from a release at a dry-cleaning facility, an abandoned dry-cleaning facility site, or a wholesale distribution facility.

(22) "Public health" means public health as the term is used in Article 9 of Chapter 130A of the General Statutes and "human health" as the term is used in Articles 21 and 21A of Chapter 143 of the General Statutes.

(23) "Regulated substance" means a hazardous waste, as defined in G.S. 130A-290; a hazardous substance, as defined in G.S. 143-215.77A; oil, as defined in G.S. 143-215.77; or other substance regulated under any remedial program implemented by the Department other than Part 2A of Article 21A of Chapter 143 of the General Statutes.

(24) "Release" means any spillage, leakage, pumping, placement, emptying, or dumping of dry-cleaning solvents resulting from a dry-cleaning operation or the operation of a wholesale distribution facility.

(25) "Remedial program" means a program implemented by the Department for the remediation of any contaminant, including the programs implemented under Article 9 of Chapter 130A of the General Statutes and the Oil Pollution and Hazardous Substances Control Act of 1978 under Part 2 of Article 21A of Chapter 143 of the General Statutes but not the remedial program implemented under Part 2A of Article 21A of Chapter 143 of the General Statutes.

(26) "Remediation" means action to clean up, mitigate, correct, abate, minimize, eliminate, control, or prevent the spreading, migration, leaking, leaching, volatilization, spilling, transporting, or further release of a contaminant into the environment in order to protect public health or the environment.

(27) "Response costs" means costs incurred in connection with a certified facility or abandoned site that the Commission determines are reasonably necessary and consistent with the applicable requirements of the Commission and any applicable dry-cleaning solvent assessment agreement or dry-cleaning solvent remediation agreement.

(28) "Subsidiary" has the same meaning as in 17 Code of Federal Regulations § 240.12b-2 (1 April 1996 Edition).

(29) "Treatment" shall have the meaning ascribed to it in G.S. 130A-290.

(29a) "Unrestricted use standards" when used in connection with "cleanup," "remediated", or "remediation" means that cleanup or remediation of contamination complies with generally applicable standards, guidance, or established methods governing the contaminants that are established by statute or adopted, published, or

Part 6 has a delayed repeal date. See notes.

implemented by the Commission, the Commission for Health Services, or the Department instead of the risk-based standards established by the Commission pursuant to this Part.

(30) "Waters" means any stream, river, creek, brook, run, canal, swamp, lake, sound, tidal estuary, bay, reservoir, waterway, wetlands, or any other body or accumulation of water, surface or underground, public or private, natural or artificial, that is contained within, flows through, or borders upon this State, or any portion thereof, including those portions of the Atlantic Ocean over which this State has jurisdiction.

(31) "Wholesale distribution facility" means a place of business located in this State and engaged in the storage, distribution, or sale of dry-cleaning solvents for use in dry-cleaning facilities.

(32) "Wholesale distributor" means a person who operates a wholesale distribution facility. (1997-392, s. 1; 2000-19, s. 3; 2001-384, s. 11.)

Cross References. — For a complete explanation of the repeal of this section, see the Editor's notes under G.S. 143-215.104A.

Editor's Note. — The definitions in subsections (b)(11), (b)(12), (b)(31) and (b)(32) were redesignated in alphabetical order at the direction of the Revisor of Statutes.

The definition in former subdivision (b)(5) was renumbered as subdivision (b)(29a) to maintain alphabetical order at the direction of the Revisor of Statutes.

Session Laws 2000-19, s. 20, contains a severability clause.

Session Laws 2000-19, s. 22, as amended by Session Laws 2001-265, s. 4, provides: "This act constitutes a recent act of the General Assembly within the meaning of G.S. 150B-21.1. The Environmental Management Commission and the Commission on Health Services may adopt temporary rules to implement the provisions of this act until 1 July 2002."

§ 143-215.104C. (Repealed effective January 1, 2012 — See notes) Dry-Cleaning Solvent Cleanup Fund.

(a) Creation. — The Dry-Cleaning Solvent Cleanup Fund is established as a special revenue fund to be administered by the Commission. Accordingly, revenue in the Fund at the end of a fiscal year does not revert and interest and other investment income earned by the Fund must be credited to it. The Fund is created to provide revenue to implement this Part.

(b) Sources of Revenue. — The following revenue is credited to the Fund:

(1) Dry-cleaning solvent taxes collected under Article 5D of Chapter 105 of the General Statutes.

(2) Recoveries made pursuant to G.S. 143-215.104N and G.S. 143-215.104O.

(3) Gifts and grants made to the Fund.

(4) Revenues credited to the Fund under G.S. 105-164.44E.

(c) Disbursements. — A claim filed against the Fund may be paid only from monies in the Fund and only in accordance with the provisions of this Part. Any obligation to pay or reimburse claims against the Fund shall be expressly contingent upon availability of monies in the Fund. Neither the State nor any of its agencies shall have any obligation to pay or reimburse any costs for which monies are not available in the Fund. The provisions of this Part shall not constitute a contract, either express or implied, to pay or reimburse costs in excess of the monies available in the Fund. In making disbursements from the Fund, the Commission shall obligate monies to facilities or sites with higher priority before facilities or sites of lower priority, and facilities or sites with equal priority in the order in which the facilities or sites were prioritized until the revenue is exhausted. Consistent with the provisions of this Part, the

Part 6 has a delayed repeal date. See notes.

Commission may disburse monies from the Fund to abate imminent hazards by dry-cleaning solvent contamination at abandoned dry-cleaning facility sites that have not been certified. Up to twenty percent (20%) of the amount of revenue credited to the Fund in a year may be used to defray costs incurred by the Department and the Attorney General's Office in connection with administration of the program described in this Part, including oversight of response activities. (1997-392, s. 1; 2000-19, ss. 2, 5, 5.1-5.3.)

Cross References. — As to transfer of sales and use taxes to Dry-Cleaning Solvent Cleanup Fund, see G.S. 105-164.44E. For a complete explanation of the repeal of this section, see the Editor's notes under G.S. 143-215.104A.

Editor's Note. — Session Laws 2000-19, s. 20, contains a severability clause.

Session Laws 2000-19, s. 22, as amended by Session Laws 2001-265, s. 4, provides: "This act constitutes a recent act of the General Assembly within the meaning of G.S. 150B-21.1. The Environmental Management Commission and the Commission on Health Services may adopt temporary rules to implement the provisions of this act until 1 July 2002."

Session Laws 2001-265, ss. 2(a) to (c), effective retroactively to January 1, 2000, provide: "(a) Any person who undertakes assessment or remediation of dry-cleaning solvent contamination pursuant to a notice of violation or enforcement action by the Department of Environment and Natural Resources during the period beginning 1 October 1997 and ending 30 June 2001 may, on or after 30 June 2001 and prior to 1 July 2002, seek reimbursement from the Dry-Cleaning Solvent Cleanup Fund for any costs exceeding fifty thousand dollars ($50,000). The Environmental Management Commission shall reimburse costs if it finds that the costs incurred were (i) appropriately documented and reasonably necessary to assess or remediate the dry-cleaning solvent contamination; (ii) for any of the activities described in subdivisions (1) through (7) of G.S. 143-215.104N(a); (iii) not subject to any of the limitations in subdivisions (4) through (9) of G.S. 143-215.104N(b); (iv) not reimbursable from pollution and remediation legal liability insurance; and (v) required by a notice of violation or a specific order of the Department of Environment and Natural Resources issued on or after 30 June 1996. No reimbursement may be paid pursuant to this section for dry-cleaning solvent contamination that did not result from operations at a dry-cleaning or wholesale distribution facility.

"(b) Any person who, as of 30 June 2001, is undertaking assessment or remediation of dry-cleaning solvent contamination may petition the Environmental Management Commission prior to 1 July 2002 to enter into a dry-cleaning solvent assessment agreement or dry-cleaning solvent remediation agreement with respect to the contamination. The Commission shall determine whether the cost of any assessment or remediation performed prior to entry into an agreement is necessary and reasonable. The Commission shall credit the costs of assessment or remediation that it determines to be necessary and reasonable, and that have been paid by the person, toward the financial responsibility requirements applicable to that person under G.S. 143-215.104F.

"(c) The total of all payments made pursuant to this section in a single fiscal year shall not exceed ten percent (10%) of the revenues credited to the Dry-Cleaning Solvent Cleanup Fund in the preceding fiscal year."

Effect of Amendments. — Session Laws 2000-19, ss. 2 and 5, effective June 26, 2000, added subdivision (b)(4); and in subsection (c), substituted "obligate monies to facilities ... abandoned sites were prioritized" for "pay the claims with the highest priority before claims of lower priority, and claims of equal priority in the order in which the facility or abandoned site was certified."

Session Laws 2000-19, s. 5.1, effective July 1, 2001, substituted "forty percent (40%)" for "twenty percent (20%)" in the last sentence of subsection (c).

Session Laws 2000-19, s. 5.2, effective July 1, 2002, substituted "forty-five percent (45%)" for "forty percent (40%)" in the last sentence of subsection (c).

Session Laws 2000-19, s. 5.3, effective July 1, 2003, substituted "twenty percent (20%)" for "forty-five percent (45%)" in the last sentence of subsection (c).

§ 143-215.104D. (Repealed effective January 1, 2012 — See notes) Powers of the Commission.

(a) Administrative Functions. — The Commission may delegate any or all of the powers enumerated in this subsection to the Department. The Commission shall:

Part 6 has a delayed repeal date. See notes.

(1) Accept petitions for certification and petitions to enter into dry-cleaning solvent assessment agreements or remediation agreements under this Part.

(2) Prioritize certified dry-cleaning facilities, certified wholesale distribution facilities, or certified abandoned dry-cleaning facility sites for the initiation of assessment or remediation activities that are reimbursable from the Fund.

(3) Develop forms to be used by persons applying for reimbursement of assessment or remediation costs.

(4) Schedule funding of assessment and remediation activities.

(5) Determine whether assessment or remediation is necessary at a site at which dry-cleaning solvent contamination has occurred.

(5a) Enter into contracts with private contractors for assessment and remediation activities at certified dry-cleaning facilities, certified wholesale distribution facilities, and certified abandoned dry-cleaning facility sites.

(6) Determine that all necessary assessment and remediation has been completed at a contamination site.

(7) Make payments from the Fund to reimburse the costs of assessment and remediation.

(b) Rule making. — The Commission shall adopt rules as are necessary to implement the provisions of this Part. Rules adopted by the Commission shall be consistent with and shall not duplicate, but may incorporate by reference, the rules adopted by the Commission for Health Services pursuant to Article 9 of Chapter 130A of the General Statutes. The Commission shall not delegate the rule-making powers provided in this subsection.

(1) The Commission may adopt rules governing:

a. Fees for response costs reimbursable under this Part.

b. The certification and decertification of facilities or abandoned sites.

c. The prioritization of facilities or abandoned sites and scheduling of funding for assessment and remediation activities. These rules shall provide for:

1. Consideration of the degree of harm or risk to public health and the environment.

2. Consideration of the order in which certification is issued for the facility or abandoned site.

3. Consideration of the relative cost of assessment and remediation activities.

4. Use of the Fund so as to maximize the reduction of harm or risk posed by certified facilities, certified abandoned sites, uncertified facilities and uncertified sites.

d. The disbursement of revenue from the Fund for payment or reimbursement of approved assessment or remediation costs.

e. The determination whether assessment or remediation is necessary at a contamination site.

f. The determination that all necessary assessment and remediation has been completed at a contamination site.

g. The terms and conditions of dry-cleaning solvent assessment agreements and remediation agreements.

h. The determination whether additional assessment or remediation is necessary at a contamination site previously closed under this Part.

(2) **(See editor's note)** The Commission may adopt rules establishing minimum management practices for handling of dry-cleaning solvent

Part 6 has a delayed repeal date. See notes.

at dry-cleaning facilities and wholesale distribution facilities. The rules may:

a. Require that all perchloroethylene dry-cleaning machines installed at a dry-cleaning facility after the effective date of the rule or temporary rule meet air emission standards that equal or exceed the standards that apply to comparable dry-to-dry perchloroethylene dry-cleaning machines with integral refrigerated condensation.

b. Prohibit the discharge of dry-cleaning solvents or water that contains dry-cleaning solvents into sanitary sewers, septic systems, storm sewers, or waters of the State.

c. Require spill containment structures around dry-cleaning machines, filters, stills, vapor adsorbers, solvent storage areas, and waste solvent storage areas.

d. Require floor sealants for cleaning room areas if the Commission finds the sealants to be effective.

e. Require, by 1 January 2002, the use of improved solvent transfer systems to prevent releases at the time of delivery of solvents to a dry-cleaning facility.

f. Require any other solvent-handling practices the Commission may find necessary and appropriate to minimize the risk of releases at dry-cleaning facilities or wholesale distribution facilities.

(3) The Commission shall adopt rules establishing a risk-based approach applicable to the assessment, prioritization, and remediation of dry-cleaning solvent contamination resulting from releases at facilities or abandoned sites certified pursuant to G.S. 143-215.104G. The rules shall address, at a minimum:

a. Criteria and methods for determining remediation requirements, including the level of remediation necessary to assure adequate protection of public health and the environment.

b. The circumstances under which information specific to the dry-cleaning solvent contamination site should be considered and required.

c. The circumstances under which restrictions on the future use of any remediated dry-cleaning solvent contamination site should be considered and required as a means of achieving and maintaining an adequate level of protection for public health and the environment.

d. Strategies for the assessment and remediation of dry-cleaning solvent contamination, including presumptive remedial responses sufficient to provide an adequate level of protection as described under sub-subdivision a. of this subdivision.

(c) All rules adopted by the Commission shall be applicable to all dry-cleaning facilities, wholesale distribution facilities, and abandoned dry-cleaning facilities in the State and shall, to the maximum extent practicable, be cost-effective and technically feasible while protecting public health and the environment from the release of dry-cleaning solvents.

(d) Unless otherwise provided in this Part, the Commission may delegate any of its rights, duties, and responsibilities under this Part to the Department. (1997-392, s. 1; 2000-19, s. 6.)

Cross References. — For a complete explanation of the repeal of the section, with exceptions, see the Editor's notes under G.S. 143-215.104A.

Part 6 has a delayed repeal date. See notes.

Editor's Note. — Session Laws 1997-392, s. 5, as amended by Session Laws 2000-19, s. 17, provides that the Act constitutes a recent act of the General Assembly under G.S. 150B-21.1 and the Environmental Management Commission may adopt temporary rules to implement this act until June 30, 2001.

Session Laws 2000-19, s. 19, which had authorized the Commission on Health Services to adopt a rule that requires a person who generates wastes at a dry-cleaning facility or wholesale distribution facility, other than wastewater generated from dry-cleaning processes, which contain solvents perchloroethylene, F-1,1,3, or 1,1,1 trichloroethane to deliver the wastes to a facility legally authorized to manage or recycle hazardous wastes containing these solvents, was repealed by Session Laws 2001-265, s. 3.

Session Laws 2000-19, s. 20, contains a severability clause.

The Commission on Health Services shall adopt a rule that, notwithstanding any other rule, requires that a person who generates wastes at a dry-cleaning facility or wholesale distribution facility that contains the solvents perchloroethylene, F-1,1,3, or 1,1,1 trichloroethane to deliver the wastes to a facility that is legally authorized to manage or recycle hazardous wastes containing these solvents. The rule required by this section shall not apply to the disposal of wastewater generated from the dry-cleaning process, which shall be regulated as otherwise provided by law.

Session Laws 2000-19, s. 22, as amended by Session Laws 2001-265, s. 4, provides: "This act constitutes a recent act of the General Assembly within the meaning of G.S. 150B-21.1. The Environmental Management Commission and the Commission on Health Services may adopt temporary rules to implement the provisions of this act until 1 July 2002."

§ 143-215.104E: Repealed by Session Laws 2000-19, s. 3, effective on and after April 1, 1998.

§ 143-215.104F. (Repealed effective January 1, 2012 — See notes) Requirements for certification, assessment agreements, and remediation agreements.

(a) Any person petitioning for certification of a facility or abandoned site pursuant to G.S. 143-215.104G, for a dry-cleaning solvent assessment agreement pursuant to G.S. 143-215.104H, or for a dry-cleaning solvent remediation agreement pursuant to G.S. 143-215.104I, shall meet the requirements set out in this section and any other applicable requirements of this Part.

(b) Requirements for Potentially Responsible Persons Generally. — Every petitioner shall provide the Commission with:

(1) Any information that the petitioner possesses relating to the contamination at the facility or abandoned site described in the petition.

(2) Information necessary to demonstrate the person's ability to incur the response costs specified in subsection (f) of this section.

(3) Repealed by Session Laws 2000, ch. 19, s. 3, effective on and after April 1, 1998.

(4) Information necessary to demonstrate that the petitioner, and any parent, subsidiary, or other affiliate of the petitioner, has substantially complied with:

a. The terms of any dry-cleaning solvent assessment agreement, dry-cleaning solvent remediation agreement, brownfields agreement, or other similar agreement to which the petitioner or any parent, subsidiary, or other affiliate of the petitioner has been a party.

b. The requirements applicable to any remediation in which the petitioner has previously engaged.

c. Federal and State laws, regulations, and rules for the protection of the environment.

Part 6 has a delayed repeal date. See notes.

(5) Evidence demonstrating that a release of dry-cleaning solvent has occurred at the facility or abandoned site and that the release has resulted in dry-cleaning solvent contamination.

(c) Requirement for Property Owners. — In addition to the information required by subsection (b) of this section, a petitioner who is the owner of the property on which the dry-cleaning solvent contamination identified in the petition is located shall provide the Commission a written agreement authorizing the Commission or its agent to have access to the property for purposes of conducting assessment or remediation activities or determining whether assessment or remediation activities are being conducted in compliance with this Part and any assessment agreement or remediation agreement.

(c1) Costs incurred by the petitioner for activities to obtain certification of a facility or abandoned site shall not be reimbursable from the Fund.

(d) The Commission shall reject any petition made pursuant to this Part in any of the following circumstances:

(1) The petitioner is an owner or operator of the facility described in the petition and the facility was not being operated in compliance with minimum management practices adopted by the Commission pursuant to G.S. 143-215.104D(b)(2) at the time the contamination was discovered.

(2) The petitioner is an owner or operator of the facility described in the petition and the petitioner owed delinquent taxes under Article 5D of Chapter 105 of the General Statutes at the time the dry-cleaning solvent contamination was discovered.

(3) Repealed by Session Laws 2000, ch. 19, s. 3, effective on and after April 1, 1998.

(e) The Commission may reject any petition made pursuant to this Part in any of the following circumstances:

(1) The petitioner fails to provide the information required by subsection (b) of this section.

(2) The petitioner falsified any information in its petition that was material to the determination of the priority ranking, the nature, scope and extent of contamination to be assessed or remediated, or the appropriate means to contain and remediate the contaminants.

(f) Financial Responsibility Requirements. — Each potentially responsible person who petitions the Commission to certify a facility or abandoned site shall accept written responsibility in the amount specified in this section for the assessment or remediation of the dry-cleaning solvent contamination identified in the petition. If two or more potentially responsible persons petition the Commission jointly, the requirements below shall be the aggregate requirements for the financial responsibility of all potentially responsible persons who are party to the petition. Unless an alternative arrangement is agreed to by co-petitioners, the financial responsibility requirements of this section shall be apportioned equally among the co-petitioners. The financial responsibility required shall be as follows:

(1) For dry-cleaning facilities owned by persons who employ fewer than five full-time employees, or the equivalent, in activities related to dry-cleaning operations during the calendar year preceding the date of the petition, the first five thousand dollars ($5,000) of the costs of assessment or remediation and one percent (1%) of the costs of assessment or remediation in excess of two hundred thousand dollars ($200,000) but not exceeding one million dollars ($1,000,000).

(2) For dry-cleaning facilities owned by persons who employ at least five but fewer than 10 full-time employees, or the equivalent, in activities

Part 6 has a delayed repeal date. See notes.

related to dry-cleaning operations during the calendar year preceding the date of the petition, the first ten thousand dollars ($10,000) of the costs of assessment or remediation, two percent (2%) of the costs of assessment or remediation in excess of two hundred thousand dollars ($200,000) but not exceeding five hundred thousand dollars ($500,000), and one percent (1%) of the costs of assessment or remediation in excess of five hundred thousand dollars ($500,000) but not exceeding one million dollars ($1,000,000).

(3) For dry-cleaning facilities owned by persons who employ 10 or more full-time employees, or the equivalent, in activities related to dry-cleaning operations during the calendar year preceding the date of the petition, the first fifteen thousand dollars ($15,000) of the costs of assessment or remediation, three percent (3%) of the costs of assessment or remediation in excess of two hundred thousand dollars ($200,000) but not exceeding five hundred thousand dollars ($500,000), and one percent (1%) of the costs of assessment or remediation in excess of five hundred thousand dollars ($500,000) but not exceeding one million dollars ($1,000,000).

(4) For wholesale distribution facilities and abandoned dry-cleaning facility sites, the first twenty-five thousands dollars ($25,000) of the costs of assessment or remediation, three percent (3%) of the costs of assessment or remediation in excess of two hundred thousand dollars ($200,000) but not exceeding five hundred thousand dollars ($500,000), and one percent (1%) of the costs of assessment or remediation in excess of five hundred thousand dollars ($500,000) but not exceeding one million dollars ($1,000,000).

(g) Repealed by Session Laws 2000, ch. 19, s. 3, effective on and after April 1, 1998. (1997-392, s. 1; 2000-19, ss. 3, 4, 7.)

Cross References. — For a complete explanation of the repeal of this section, see the Editor's notes under G.S. 143-215.104A.

Editor's Note. — Session Laws 1997-392, s. 6, made this section effective January 1, 1999.

Session Laws 1997-392, s. 7, as amended by Session Laws 2000-19, s. 18, provides that any person undertaking assessment or remediation of dry-cleaning solvent contamination pursuant to a notice of violation or an enforcement action by the Department of Environment and Natural Resources from October 1, 1997 to June 30, 2001, will be able, on or after June 30, 2001, to seek reimbursement from, the Dry-Cleaning Solvent Cleanup Fund for costs exceeding $50,000, provided certain conditions are met. Also, any person who, as of June 30, 2001, is undertaking assessment or remediation of dry-cleaning solvent contamination is eligible to petition the Commission to enter into an agreement regarding financial contribution of parties. The total payments made pursuant to this section in a single fiscal year are not to exceed ten percent of the revenues credited to the Cleanup Fund in the preceding fiscal year. Session Laws 1997-392, s. 8, provided that s. 7 would be repealed effective January 1, 2000.

Session Laws 2000-19, s. 20, contains a severability clause.

Session Laws 2000-19, s. 22, as amended by Session Laws 2001-265, s. 4, provides: "This act constitutes a recent act of the General Assembly within the meaning of G.S. 150B-21.1. The Environmental Management Commission and the Commission on Health Services may adopt temporary rules to implement the provisions of this act until 1 July 2002."

Session Laws 2001-265, ss. 2(a) to (c), effective retroactively to January 1, 2000, provide: "(a) Any person who undertakes assessment or remediation of dry-cleaning solvent contamination pursuant to a notice of violation or enforcement action by the Department of Environment and Natural Resources during the period beginning 1 October 1997 and ending 30 June 2001 may, on or after 30 June 2001 and prior to 1 July 2002, seek reimbursement from the Dry-Cleaning Solvent Cleanup Fund for any costs exceeding fifty thousand dollars ($50,000). The Environmental Management Commission shall reimburse costs if it finds that the costs incurred were (i) appropriately documented and reasonably necessary to assess or remediate the dry-cleaning solvent contamination; (ii) for any of the activities described in subdivisions (1) through (7) of G.S. 143-215.104N(a); (iii) not subject to any of the limitations in subdivisions

Part 6 has a delayed repeal date. See notes.

(4) through (9) of G.S. 143-215.104N(b); (iv) not reimbursable from pollution and remediation legal liability insurance; and (v) required by a notice of violation or a specific order of the Department of Environment and Natural Resources issued on or after 30 June 1996. No reimbursement may be paid pursuant to this section for dry-cleaning solvent contamination that did not result from operations at a dry-cleaning or wholesale distribution facility.

"(b) Any person who, as of 30 June 2001, is undertaking assessment or remediation of dry-cleaning solvent contamination may petition the Environmental Management Commission prior to 1 July 2002 to enter into a dry-cleaning solvent assessment agreement or dry-cleaning solvent remediation agreement with respect to the contamination. The Commission shall determine whether the cost of any assessment or remediation performed prior to entry into an agreement is necessary and reasonable. The Commission shall credit the costs of assessment or remediation that it determines to be necessary and reasonable, and that have been paid by the person, toward the financial responsibility requirements applicable to that person under G.S. 143-215.104F.

"(c) The total of all payments made pursuant to this section in a single fiscal year shall not exceed ten percent (10%) of the revenues credited to the Dry-Cleaning Solvent Cleanup Fund in the preceding fiscal year."

§ 143-215.104G. (Repealed effective January 1, 2012 — See notes) Certification of facilities and abandoned sites.

(a) A potentially responsible party may petition the Commission to certify a facility or abandoned site where a release of dry-cleaning solvent has occurred. The Commission shall certify the facility or abandoned site if the petitioner meets the applicable requirements of G.S. 143-215.104F. Upon its decision to certify a facility or abandoned site, the Commission shall inform the petitioner of its decision and of the initial priority ranking of the facility or site.

(b) Repealed by Session Laws 2000, ch. 19, s. 8, effective June 26, 2000.

(c) A potentially responsible party who petitions for certification of a facility or abandoned site shall provide the Commission with either of the following:

(1) A written statement of the petitioner's intent to enter into an assessment agreement or remediation agreement.

(2) A written statement of the petitioner's intent to conduct assessment and remediation activities pursuant to subsection (d) of this section.

(d) A person who has access to property that is contaminated by dry-cleaning solvent and who has successfully petitioned for certification of the facility or abandoned site from which the contamination is believed to have resulted may undertake assessment or remediation of dry-cleaning solvent contamination located on the property consistent with the standards established by the Commission pursuant to G.S. 143-215.104D(b)(3) without first entering into a dry-cleaning solvent assessment agreement or a dry-cleaning solvent remediation agreement. No assessment or remediation activities undertaken pursuant to this subsection shall rely on standards that require the creation of land-use restrictions. A person who undertakes assessment or remediation activities pursuant to this subsection shall provide the Commission prior written notice of the activity. Costs associated with assessment or remediation activities undertaken pursuant to this subsection shall not be eligible for reimbursement from the Fund.

(e) The rejection of any petition filed pursuant to this section shall not affect the rights of any other petitioner, other than any parent, subsidiary, or other affiliate of the petitioner, under this Part. The rejection of a petition or the decertification of a facility or abandoned site may be the basis for rejection of a petition by any parent, subsidiary, or other affiliate of the petitioner for the facility or abandoned site. (1997-392, s. 1; 2000-19, s. 8.)

Part 6 has a delayed repeal date. See notes.

Cross References. — For a complete explanation of the repeal of this section, see the Editor's notes under G.S. 143-215.104A.

Editor's Note. — Session Laws 1997-392, s. 6, made this section effective January 1, 1999.

Session Laws 2000-19, s. 20, contains a severability clause.

Session Laws 2000-19, s. 22, as amended by Session Laws 2001-265, s. 4, provides: "This act constitutes a recent act of the General Assembly within the meaning of G.S. 150B-21.1. The Environmental Management Commission and the Commission on Health Services may adopt temporary rules to implement the provisions of this act until 1 July 2002."

§ 143-215.104H. (Repealed effective January 1, 2012 — See notes) Dry-Cleaning Solvent Assessment Agreements.

(a) Assessment Agreements. — One or more potentially responsible parties may petition the Commission to enter into a dry-cleaning solvent assessment agreement regarding a facility or abandoned site that has been certified pursuant to G.S. 143-215.104G. The Commission may, in its discretion, enter into an assessment agreement with any potentially responsible party who satisfies the requirements of this section and the applicable requirements of G.S. 143-215.104F. If more than one potentially responsible party petitions the Commission, the Commission may enter into a single assessment agreement with one or more of the petitioners. The Commission shall not unreasonably refuse to enter into an assessment agreement pursuant to this section. The Commission may require the petitioners to provide the Commission with any information necessary to demonstrate:

(1) The priority ranking assigned to the facility or site is consistent with the rules adopted by the Commission.

(2) The projected schedule for funding of assessment activities is adequate.

(3) The assessment activities to be undertaken with respect to the dry-cleaning solvent contamination and any other contamination at the contamination site are adequate.

(4) The person who will be responsible for implementation of the activities is capable and qualified to conduct the assessment.

(4a) The amount of funds already expended by the petitioner for assessment or remediation of dry-cleaning solvent contamination at the facility or abandoned site.

(5) The petitioner has and will continue to have available the financial resources necessary to pay the costs of assessment activities and the share of response costs imposed on the petitioner by G.S. 143-215.104F.

(6) The permits or other authorizations required to conduct the assessment activities and to lawfully dispose of any hazardous substances or wastes generated by the assessment activities have been or can be obtained.

(7) The assessment activities will not increase the existing level of public exposure to health or environmental hazards at the contamination site.

(8) The costs to be incurred in connection with the assessment activities contemplated by the assessment agreement are reasonable and necessary.

(9) The petitioner has obtained the consent of other property owners to enter into their property for the purpose of conducting assessment activities specified in the assessment agreement.

(b) The terms and conditions of an assessment agreement regarding dry-cleaning solvent contamination shall be guided by and consistent with the

Part 6 has a delayed repeal date. See notes.

rules adopted by the Commission pursuant to G.S. 143-215.104D and the reimbursement authorities and limitations set out in this Part. An assessment agreement shall, subject to the availability of monies from the Fund:

(1) Repealed by Session Laws 2000, ch. 19, s. 9, effective June 26, 2000.

(1a) Require that the petitioner shall be liable to the Fund for an amount equal to the difference, if any, between the applicable amount for which the petitioner is responsible under G.S. 143-215.104F and the amount reasonably paid by the petitioner for assessment or remediation activities of the type specified in G.S. 143-215.104N(a)(1) through (7) and that are otherwise consistent with the requirements of this Part.

(2) Provide for the prompt reimbursement of response costs incurred in assessment activities that are found by the Commission to be consistent with the assessment agreement and this Part.

(c) The Commission may refuse to enter into a dry-cleaning solvent assessment agreement with any petitioner if:

(1) The petitioner will not accept financial responsibility for the share of the response costs required by G.S. 143-215.104F.

(2) The petitioner will not accept responsibility for conducting, supervising, or otherwise undertaking assessment activities required by the Commission.

(3) The petitioner fails to provide any information required by subsection (a) of this section.

(d) The refusal of the Commission to enter into a dry-cleaning solvent assessment agreement with any petitioner shall not affect the rights of any other petitioner under this Part, except that the refusal may be the basis for rejection of a petition by any parent, subsidiary or other affiliate of the petitioner for the facility or abandoned site.

(e) If the Commission determines from an assessment prepared pursuant to this Part that the degree of risk to public health or the environment resulting from dry-cleaning solvent contamination otherwise subject to assessment or remediation under this Part and Article 9 of Chapter 130A is acceptable in light of the criteria established pursuant to G.S. 143-215.104D(b)(3) and Article 9 of Chapter 130A, the Commission shall issue a written statement of its determination and notify the owner or operator of the facility or abandoned site responsible for the contamination that no cleanup, no further cleanup, or no further action is required in connection with the contamination.

(f) If the Commission determines that no remediation or further action is required in connection with dry-cleaning solvent contamination otherwise subject to assessment or remediation pursuant to this Part and Article 9 of Chapter 130A, the Commission shall not pay or reimburse any response costs otherwise payable or reimbursable under this Part from the Fund other than costs reasonable and necessary to conduct the risk assessment pursuant to this section and in compliance with a dry-cleaning solvent assessment agreement. (1997-392, s. 1; 2000-19, s. 9.)

Editor's Note. — Session Laws 1997-392, s. 6, made this section effective January 1, 1999.

Session Laws 2000-19, s. 20, contains a severability clause.

Session Laws 2000-19, s. 22, as amended by Session Laws 2001-265, s. 4, provides: "This act constitutes a recent act of the General Assembly within the meaning of G.S. 150B-21.1. The Environmental Management Commission and the Commission on Health Services may adopt temporary rules to implement the provisions of this act until 1 July 2002."

Part 6 has a delayed repeal date. See notes.

§ 143-215.104I. (Repealed effective January 1, 2012 — See notes) Dry-Cleaning solvent remediation agreements.

(a) Upon the completion of assessment activities required by a dry-cleaning solvent assessment agreement, one or more potentially responsible parties may petition the Commission to enter into a dry-cleaning solvent remediation agreement for any contamination requiring remediation. The Commission may, in its discretion, enter into a remediation agreement with any petitioner who satisfies the requirements of this section and the applicable requirements of G.S. 143-215.104F. If more than one potentially responsible party petitions the Commission, the Commission may enter into a single remediation agreement with one or more of the petitioners. The Commission shall not unreasonably refuse to enter into a remediation agreement pursuant to this section. The Commission may, in its discretion, enter into a remediation agreement that includes the assessment described in G.S. 143-215.104H. Petitioners shall provide the Commission with any information necessary to demonstrate:

(1) Repealed by Session Laws 2000, ch. 19, s. 10, effective June 26, 2000.

(2) As a result of the remediation agreement, the contamination site will be suitable for the uses specified in the remediation agreement while fully protecting public health and the environment from dry-cleaning solvent contamination and any other contaminants included in the remediation agreement.

(3) There is a public benefit commensurate with the liability protection provided under this Part.

(4) The petitioner has or can obtain the financial, managerial, and technical means to fully implement the remediation agreement and assure the safe use of the contamination site.

(5) The petitioner has complied with or will comply with all applicable procedural requirements.

(6) The remediation agreement will not cause the Department to violate the terms and conditions under which the Department operates and administers remedial programs, including the programs established or operated pursuant to Article 9 of Chapter 130A of the General Statutes, by delegation or similar authorization from the United States or its departments or agencies, including the United States Environmental Protection Agency.

(7) The priority ranking assigned to the facility or site is consistent with the rules adopted by the Commission or the priority ranking that the petitioner agrees to accept is consistent with the rules adopted by the Commission.

(8) The projected schedule for funding of remediation activities.

(9) The petitioner will continue to have available the financial resources necessary to satisfy the share of response costs imposed on the petitioner by G.S. 143-215.104F.

(10) The expenditures eligible for reimbursement from the Fund and to be incurred in connection with the remediation agreement are reasonable and necessary.

(11) The consent of other property owners to enter into their property for purposes of conducting remediation activities specified in the remediation agreement.

(b) In negotiating a remediation agreement, parties may rely on land-use restrictions that will be included in a Notice of Dry-Cleaning Solvent Remediation required under G.S. 143-215.104M. A remediation agreement

Part 6 has a delayed repeal date. See notes.

may provide for remediation in accordance with standards that are based on those land-use restrictions.

(c) A dry-cleaning solvent remediation agreement shall contain a description of the contamination site that would be sufficient as a description of the property in an instrument of conveyance and, as applicable, a statement of:

(1) Any remediation, including remediation of contaminants other than dry-cleaning solvents, to be conducted on the property, including:
   a. A description of specific areas where remediation is to be conducted.
   b. The remediation method or methods to be employed.
   c. The resources that the petitioner will make available and the degree to which the petitioner intends to rely on the Fund for resources.
   d. A schedule of remediation activities.
   e. Applicable remediation standards. Applicable remediation standards for dry-cleaning solvent contamination shall not exceed the requirements adopted by the Commission pursuant to G.S. 143-104D(b)(3).
   f. A schedule and the method or methods for evaluating the remediation.

(2) Any land-use restrictions that will apply to the contamination site or other property.

(3) The desired results of any remediation or land-use restrictions with respect to the contamination site.

(4) The guidelines, including parameters, principles, and policies within which the desired results are to be accomplished.

(5) The consequences of achieving or not achieving the desired results.

(6) The priority ranking of the facility or abandoned site.

(7) The person who will conduct the remediation if that person is not the potentially responsible party entering the remediation agreement.

(d) The Commission may refuse to enter into a dry-cleaning solvent assessment agreement or dry-cleaning solvent remediation agreement with any petitioner if:

(1) The petitioner will not accept financial responsibility for the share of the response costs established in G.S. 143-215.104F. This requirement shall not apply to a petitioner who (i) is the owner of property upon which the dry-cleaning solvent contamination is located, and (ii) is not a current or former owner or operator of a facility believed to be responsible for the contamination.

(2) The petitioner will not accept responsibility for conducting, supervising, or otherwise undertaking remediation activities required by the Commission.

(3) The petitioner fails to provide any information that is necessary to demonstrate the facts required to be shown by subsection (a) of this section.

(e) In addition to the bases set forth in subsection (d) of this section, the Commission may refuse to enter into a dry-cleaning solvent remediation agreement with the owner of the property on which a contamination site is located if the owner refuses to accept limitations on the future use of the property and to give notice of these limitations pursuant to G.S. 143-215.104M.

(f) The refusal of the Commission to enter into a dry-cleaning remediation agreement with any petitioner shall not affect the rights of any other petitioner, other than any parent, subsidiary, or other affiliate of the petitioner, under this Part. The refusal of the Commission to enter into a remediation

Part 6 has a delayed repeal date. See notes.

agreement may be the basis for rejection of a petition by any parent, subsidiary, or other affiliate of the petitioner for the facility or abandoned site.

(g) The terms and conditions of a dry-cleaning solvent remediation agreement concerned with dry-cleaning solvent contamination shall be guided by and consistent with the rules adopted by the Commission pursuant to G.S. 143-215.104D and the reimbursement authorities and limitations set out in this Part. A remediation agreement shall provide, subject to availability of monies in the Fund, for prompt reimbursement of response costs incurred in assessment or remediation activities that are found by the Commission to be consistent with the remediation agreement and this Part. A remediation agreement may provide that the Commission conduct assessment and remediation activities at the facility or abandoned site.

(h) Any failure of a petitioner or the petitioner's agents or employees to comply with the dry-cleaning solvent remediation agreement constitutes a violation of this Part by the petitioner. (1997-392, s. 1; 2000-19, ss. 10, 11, 13.)

Editor's Note. — Session Laws 1997-392, s. 6, made this section effective January 1, 1999.

Session Laws 2000-19, s. 20, contains a severability clause.

Session Laws 2000-19, s. 22, as amended by Session Laws 2001-265, s. 4, provides: "This act constitutes a recent act of the General Assembly within the meaning of G.S. 150B-21.1. The Environmental Management Commission and the Commission on Health Services may adopt temporary rules to implement the provisions of this act until 1 July 2002."

§ 143-215.104J. (Repealed effective January 1, 2012 — See notes) Decertification; termination of assessment agreements and remediation agreements.

(a) The Commission may decertify a facility or abandoned site or renegotiate or terminate an assessment agreement or remediation agreement with respect to any party thereto in the following circumstances:

(1) The owner or operator of the facility, at any time subsequent to the certification of the facility, violates any of the minimum management requirements adopted by the Commission pursuant to G.S. 143-215.104D(b)(2).

(2) In the case of dry-cleaning contamination on property that is owned by a petitioner, the petitioner fails to file a Notice of Dry-Cleaning Solvent Remediation, if required, as provided in G.S. 143-215.104M.

(3) The potentially responsible persons who are parties to a dry-cleaning solvent assessment agreement are unable to reach an agreement with the Commission to enter into a dry-cleaning solvent remediation agreement within the time specified in the assessment agreement.

(4) The payment of taxes assessed to the facility under Article 5D of Chapter 105 of the General Statutes is delinquent.

(5) Repealed by Session Laws 2000, ch. 19, s. 3, effective on or after April 1, 1998.

(6) The owner or operator fails to comply with all applicable requirements of this Part to complete any assessment or remediation activities required by an assessment agreement or remediation agreement.

(7) The owner or operator of a facility for which an assessment or remediation activity is scheduled or in progress transfers the ownership or operation of the facility or abandoned site to another person

Part 6 has a delayed repeal date. See notes.

without the prior consent of the Commission and the execution of a substitute assessment agreement or remediation agreement.

(8) The standards applied to the dry-cleaning solvent contamination remediation or containment under the provisions of this Part and the dry-cleaning solvent remediation agreement will, or are likely to, cause the Department to fail to comply with the terms and conditions under which it operates and administers a remediation program by delegation or similar authorization from the United States or one of its departments or agencies, including the Environmental Protection Agency.

(b) Prior to decertifying any facility or abandoned site or renegotiating or terminating any assessment agreement or remediation agreement, the Commission shall give the petitioners notice and opportunity for hearing. The Commission is not required to give the petitioners notice and opportunity for hearing when the Commission reasonably takes an emergency action to abate an imminent hazard caused by or arising from assessment or remediation activities at a contamination site whether the Commission issues a special order pursuant to G.S. 143-215.2 or takes other action.

(c) Decertification of any facility or abandoned site or renegotiation or termination of any assessment agreement or remediation agreement pursuant to this section shall not affect the rights of any petitioner, other than a petitioner whose violation of the provisions of subsection (a) of this section was the basis for the decertification, renegotiation, or termination and any parent, subsidiary, or other affiliate of that petitioner. If the Commission decertifies a facility or abandoned site or terminates an assessment agreement or remediation agreement with any party to the agreement pursuant to subsection (a) of this section, the Commission shall use its best efforts to negotiate a substitute agreement with any remaining parties to the agreement. (1997-392, s. 1; 2000-19, s. 3.)

Cross References. — For a complete explanation of the repeal of this section, see the Editor's notes under G.S. 143-215.104A.

Editor's Note. — Session Laws 1997-392, s. 6, made this section effective January 1, 1999.

Session Laws 2000-19, s. 20, contains a severability clause.

Session Laws 2000-19, s. 22, as amended by Session Laws 2001-265, s. 4, provides: "This act constitutes a recent act of the General Assembly within the meaning of G.S. 150B-21.1. The Environmental Management Commission and the Commission on Health Services may adopt temporary rules to implement the provisions of this act until 1 July 2002."

§ 143-215.104K. (Repealed effective January 1, 2012 — See notes) Liability protection.

(a) A potentially responsible party who enters into an assessment agreement or remediation agreement with the Commission and who is complying with the agreement shall not be held liable for assessment or remediation of areas of contamination identified in the agreement except as specified in the assessment agreement or remediation agreement, so long as the activities conducted at the contamination site by or under the control or direction of the petitioner do not increase the risk of harm to public health or the environment and the petitioner is not required to undertake additional remediation to unrestricted use standards pursuant to subsection (c) of this section. The liability protection provided under this Part applies to all of the following persons to the same extent as the petitioner, so long as these persons are not otherwise potentially responsible parties or parents, subsidiaries, or affiliates of potentially responsible parties and the person is not required to undertake

Part 6 has a delayed repeal date. See notes.

additional remediation to unrestricted use standards pursuant to subsection (c) of this section:

(1) Any person under the direction or control of the petitioner who directs or contracts for assessment, remediation, or redevelopment of the contamination site.

(2) Any future owner of the contamination site.

(3) A person who develops or occupies the contamination site.

(4) A successor or assign of any person to whom the liability protection provided under this Part applies.

(5) Any lender or fiduciary that provides financing for assessment, remediation, or redevelopment of the contamination site.

(b) A person who conducts an environmental assessment or transaction screen on contamination resulting from a release at a certified facility or certified abandoned site consistent with a dry-cleaning solvent assessment agreement, if any was required under this Part, and who is not otherwise a potentially responsible party is not a potentially responsible party as a result of conducting the environmental assessment or transaction screen unless that person increases the risk of harm to public health or the environment by failing to exercise due diligence and reasonable care in performing the environmental assessment or transaction screen.

(c) If a land-use restriction set out in a Notice of Dry-Cleaning Solvent Remediation required under G.S. 143-215.104M is violated, the owner of the contamination site at the time the land-use restriction is violated, the owner's successors and assigns, and the owner's agents who direct or contract for alteration of the contamination site in violation of a land-use restriction shall be liable for remediation of all contaminants to unrestricted use standards. A petitioner who completes the remediation or redevelopment required under a dry-cleaning solvent remediation agreement or other person who receives liability protection under this Part shall not be required to undertake additional remediation unless:

(1) The petitioner knowingly or recklessly provides false information that forms a basis for the remediation agreement or that is offered to demonstrate compliance with the remediation agreement or fails to disclose relevant information about contamination related to a facility or abandoned site.

(2) New information indicates the existence of previously unreported dry-cleaning solvent contaminants or any other contaminants to be remediated under the remediation agreement, or an area of previously unreported contamination by contaminants addressed in the remediation agreement is discovered to be associated with the facility or abandoned site and has not been remediated to unrestricted use standards, unless the remediation agreement is amended to include any previously unreported contaminants and any additional area of contamination. If the remediation agreement sets maximum concentrations for contaminants and new information indicates the existence of previously unreported areas of these contaminants, further remediation shall be required only if the areas of previously unreported contaminants raise the risk of the contamination to public health or the environment to a level less protective of public health and the environment than that required by the remediation agreement.

(3) The level of risk to public health and the environment from contaminants is unacceptable at or in the vicinity of the contamination site due to changes in exposure conditions, including (i) a change in land

Part 6 has a delayed repeal date. See notes.

use that increases the probability of exposure to contaminants at or in the vicinity of the contamination site or (ii) the failure of remediation to mitigate risks to the extent required to make the contamination site fully protective of public health and the environment as planned in the remediation agreement.

(4) The Commission obtains new information about a contaminant to be remediated under the remediation agreement and associated with the facility or abandoned site or exposures at or around the contamination site that raises the risk to public health or the environment associated with the contamination site beyond an acceptable range and in a manner or to a degree not anticipated in the remediation agreement. Any person whose use, including any change in use, of the contamination site causes an unacceptable risk to public health or the environment may be required by the Commission to undertake additional remediation measures under the provisions of this Part.

(5) A petitioner fails to file a timely and proper Notice of Dry-Cleaning Solvent Remediation under this Part.

(6) A facility or abandoned site loses its certification before the assessment and any remediation required under the provisions of this Part and the dry-cleaning solvent remediation agreement are completed to the satisfaction of the Department.

(7) The remediation required in the remediation agreement has resulted in notification from the United States or its departments and agencies, including the Environmental Protection Agency, that the Department will violate the terms and conditions under which it operates and administers remedial programs by delegation or similar authorization. (1997-392, s. 1; 2001-384, s. 11.)

Cross References. — For a complete explanation of the repeal of this section, see the editor's notes under G.S. 143-215.104A.

Editor's Note. — Session Laws 1997-392, s. 6, made this section effective January 1, 1999.

§ 143-215.104L. (Repealed effective January 1, 2012 — See notes) Public notice and community involvement.

(a) If a petitioner desires to enter into a dry-cleaning solvent remediation agreement based on remediation standards that rely on the creation of land-use restrictions, the petitioner shall notify the public and the community in which the facility or abandoned site is located of the planned remediation and redevelopment activities. The petitioner shall submit a Notice of Intent to Remediate a Dry-Cleaning Solvent Facility or Abandoned Site and a summary of the Notice of Intent to the Commission. The Notice of Intent shall provide, to the extent known, a legal description of the location of the contamination site, a map showing the location of the contamination site, a description of the contaminants involved and their concentrations in the media of the contamination site, a description of the future use of the contamination site, any proposed investigation and remediation, and a proposed Notice of Dry-Cleaning Solvent Remediation prepared in accordance with G.S. 143-215.104M. Both the Notice of Intent and the summary of the Notice of Intent shall state the time period and means for submitting written comment and for requesting a public meeting on the proposed dry-cleaning solvent remediation agreement. The summary of the Notice of Intent shall include a statement as to the public availability of the full Notice of Intent. After approval of the

Part 6 has a delayed repeal date. See notes.

Notice of Intent and summary of the Notice of Intent by the Commission, the petitioner shall provide a copy of the Notice of Intent to all local governments having jurisdiction over the contamination site. The petitioner shall publish the summary of the Notice of Intent in a newspaper of general circulation serving the area in which the contamination is located and shall file a copy of the summary of the Notice of Intent with the Codifier of Rules, who shall publish the summary of the Notice of Intent in the North Carolina Register. The petitioner shall also conspicuously post a copy of the summary of the Notice of Intent at the contamination site.

(b) Publication of the approved summary of the Notice of Intent in the North Carolina Register and publication in a newspaper of general circulation shall begin a public comment period of at least 60 days from the later date of publication. During the public comment period, members of the public, residents of the community in which the contamination site is located, and local governments having jurisdiction over the contamination site may submit comment on the proposed dry-cleaning solvent remediation agreement, including methods and degree of remediation, future land uses, and impact on local employment.

(c) Any person who desires a public meeting on a proposed dry-cleaning solvent remediation agreement shall submit a written request for a public meeting to the Commission within 30 days after the public comment period begins. The Commission shall consider all requests for a public meeting and shall hold a public meeting if the Commission determines that there is significant public interest in the proposed remediation agreement. If the Commission decides to hold a public meeting, the Commission shall, at least 30 days prior to the public meeting, mail written notice of the public meeting to all persons who requested the public meeting and to any other person who had previously requested notice. The Commission shall also direct the petitioner to publish, at least 30 days prior to the date of the public meeting, a notice of the public meeting at least one time in a newspaper having general circulation in the county where the contamination site is located. In any county in which there is more than one newspaper having general circulation, the Commission shall direct the petitioner to publish a copy of the notice in as many newspapers having general circulation in the county as the Commission in its discretion determines to be necessary to assure that the notice is generally available throughout the county. The Commission shall prescribe the form and content of the notice to be published. The Commission shall prescribe the procedures to be followed in the public meeting. The Commission shall take detailed minutes of the meeting. The minutes shall include any written dry-cleaning solvent remediation agreement. The Commission shall take into account the comment received during the comment period and at the public meeting if the Commission holds a public meeting. The Commission shall incorporate into the remediation agreement provisions that reflect comment received during the comment period and at the public meeting to the extent practical. The Commission shall give particular consideration to written comment that is supported by valid scientific and technical information and analysis. (1997-392, s. 1.)

Cross References. — For a complete explanation of the repeal of this section, see the editor's notes under G.S. 143-215.104A.

Editor's Note. — Session Laws 1997-392, s. 6, made this section effective January 1, 1999.

Part 6 has a delayed repeal date. See notes.

§ 143-215.104M. (Repealed effective January 1, 2012 — See notes) Notice of Dry-Cleaning Solvent Remediation; land-use restrictions in deeds.

(a) Land-Use Restriction. — In order to reduce or eliminate the danger to public health or the environment posed by a dry-cleaning solvent contamination site, the owner of property upon which dry-cleaning solvent contamination has been discovered may prepare and submit to the Commission for approval a Notice of Dry-Cleaning Solvent Remediation identifying the site on which the contamination has been discovered and providing for current or future restrictions on the use of the property. If a petitioner requests that a contamination site be remediated to standards that require land-use restrictions, the owner of the property must file a Notice of Dry-Cleaning Solvent Remediation for the remediation agreement to become effective.

(b) Notice of Restriction. — A Notice of Dry-Cleaning Solvent Remediation shall include:

(1) A survey plat of the contamination site that has been prepared and certified by a professional land surveyor and that meets the requirements of G.S. 47-30.

(2) A legal description of the property that would be sufficient as a description in an instrument of conveyance.

(3) A description of the location and dimensions of the areas of potential environmental concern with respect to permanently surveyed benchmarks.

(4) The type, location, and quantity of dry-cleaning solvent contamination known to exist on the property.

(5) Any restrictions on the current or future use of the property or other property that are necessary to assure adequate protection of public health and the environment as provided in rules adopted pursuant to G.S. 143-215.104D(b)(3). These land-use restrictions may apply to activities on, over, or under the land, including, but not limited to, use of groundwater, building, filling, grading, excavating, and mining. Where a contamination site encompasses more than one parcel or tract of land, a composite map or plat showing all parcels or tracts may be recorded.

(c) Recordation of Notice. — After the Commission approves and certifies the Notice of Dry-Cleaning Solvent Remediation under subsection (a) of this section, a certified copy of a Notice of Dry-Cleaning Solvent Remediation shall be filed in the office of the register of deeds of the county or counties in which the property described is located. The owner of the property shall file the Notice of Dry-Cleaning Solvent Remediation within 15 days of the property owner's receipt of the Commission's approval of the notice or the effective date of the dry-cleaning solvent remediation agreement, whichever is later. The register of deeds shall record the certified copy of the Notice of Dry-Cleaning Solvent Remediation and index it in the grantor index under the names of the owners of the land.

(d) Notice of Transfer. — When property for which a Notice of Dry-Cleaning Solvent Remediation has been filed is sold, leased, conveyed, or transferred, the deed or other instrument of transfer shall contain in the description section, in no smaller type than that used in the body of the deed or instrument, a statement that the property has been contaminated with dry-cleaning solvent and, if appropriate, cleaned up under this Part.

(e) Cancellation of Notice. — A Notice of Dry-Cleaning Solvent Remediation filed pursuant to this Part may, at the request of the owner of the property

Part 6 has a delayed repeal date. See notes.

subject to the Notice of Dry-Cleaning Solvent Remediation, be canceled by the Secretary after the risk to public health and the environment associated with the dry-cleaning solvent contamination and any other contaminants included in the dry-cleaning solvent remediation agreement has been eliminated as a result of remediation of the property. The Secretary shall forward notice of cancellation to the register of deeds of the county or counties where the Notice of Dry-Cleaning Solvent Remediation is recorded and request that the Notice of Dry-Cleaning Solvent Remediation be canceled. The notice of cancellation shall contain the names of the landowners as shown in the Notice of Dry-Cleaning Solvent Remediation. The register of deeds shall record the notice of cancellation in the deed books and index it on the grantor index in the name of the landowner as shown in the Notice of Dry-Cleaning Solvent Remediation and on the grantee index in the name "Secretary of Environment and Natural Resources". The register of deeds shall make a marginal entry on the Notice of Dry-Cleaning Solvent Remediation showing the date of cancellation and the book and page where the notice of cancellation is recorded, and the register of deeds shall sign the entry. If a marginal entry is impracticable because of the method used to record maps and plats, the register of deeds shall not be required to make a marginal entry.

(f) Enforcement. — Any restriction on the current or future use of property subject to a Notice of Dry-Cleaning Solvent Remediation filed pursuant to this section shall be enforced by any owner of the property or by any other potentially responsible party. Any land-use restriction may also be enforced by the Commission through the remedies provided in this Part or by means of a civil action in the superior court. The Commission may enforce any land-use restriction without first having exhausted any available administrative remedies. Restrictions also may be enforced by any unit of local government having jurisdiction over any part of the property by means of a civil action without the unit of local government having first exhausted any available administrative remedy. A land-use restriction may also be enforced by any person eligible for liability protection under this Part who will lose liability protection if the land-use restriction is violated. A restriction shall not be declared unenforceable due to lack of privity of estate or contract, due to lack of benefit to particular land, or due to lack of privity of any property interest in particular land. Any person who owns or leases a property subject to a land-use restriction under this section shall abide by the land-use restriction.

(g) Relation to Brownfields Notice. — Unless the Commission decertifies a previously certified facility or a previously certified abandoned site, this section shall apply in lieu of the provisions of Article 9 of Chapter 130A of the General Statutes and Parts 1 and 2 of Article 21A of Chapter 143 of the General Statutes for properties remediated under this Part. (1997-392, s. 1; 1997-443, s. 11A.119(b).)

Cross References. — For a complete explanation of the repeal of this section, see the editor's notes under G.S. 143-215.104A.

Editor's Note. — Session Laws 1997-392, s. 6, made this section effective January 1, 1999.

§ 143-215.104N. (Repealed effective January 1, 2012 — See notes) Reimbursement of dry-cleaning solvent assessment and remediation costs; limitations; collection of reimbursement.

(a) Reimbursement. — To the extent monies are available in the Fund for reimbursement of response costs, the Commission shall reimburse any person,

Part 6 has a delayed repeal date. See notes.

including a private contractor, responsible for implementing reasonable and necessary assessment and remediation activities at a contamination site associated with a certified facility or a certified abandoned site pursuant to a dry-cleaning solvent assessment agreement or dry-cleaning solvent remediation agreement for the following assessment and remediation response costs, for which appropriate documentation is submitted:

(1) Costs of assessment with respect to dry-cleaning solvent contamination.

(2) Costs of treatment or replacement of potable water supplies affected by the contamination.

(3) Costs of remediation of affected soil, groundwater, surface waters, bedrock or other rock formations, or buildings.

(4) Monitoring of the contamination.

(5) Inspection and supervision of activities described in this subsection.

(6) Reasonable costs of restoring property as nearly as practicable to the conditions that existed prior to activities associated with assessment and remediation conducted pursuant to this Part.

(7) Other activities reasonably required to protect public health and the environment.

(b) Limitations. — Notwithstanding subsection (a) of this section, the Commission shall not make any disbursement from the Fund:

(1) For costs incurred in connection with facilities or abandoned sites not certified pursuant to G.S. 143-215.104G.

(2) For costs not incurred pursuant to a dry-cleaning solvent assessment agreement or a dry-cleaning solvent remediation agreement.

(3) For costs incurred in connection with dry-cleaning solvent contamination from a facility or abandoned site for which funds obligated by petitioners pursuant to a dry-cleaning solvent assessment agreement or dry-cleaning solvent remediation agreement in accordance with G.S. 143-214.104F(f) are overdue.

(4) For costs at a contamination site that has been identified by the United States Environmental Protection Agency as a federal Superfund site pursuant to 40 Code of Federal Regulations, Part 300 (1 July 1996 Edition), except that the Commission may authorize distribution of the required State match in an amount not to exceed two hundred thousand dollars ($200,000) per year per site. The Commission shall not delegate its authority to disburse funds pursuant to this subdivision.

(5) For remediation beyond the level required under the Commission's risk-based criteria for determining the appropriate level of remediation.

(6) For assessment or remediation response costs incurred in connection with any individual dry-cleaning solvent assessment agreement or dry-cleaning solvent remediation agreement in excess of two hundred thousand dollars ($200,000) per year. However, that the Commission may disburse up to four hundred thousand dollars ($400,000) per year for assessment and remediation costs incurred in connection with a certified facility or a certified abandoned site that poses an imminent hazard.

(7) That would result in a diminution of the Fund balance below one hundred thousand dollars ($100,000), unless an emergency exists in connection with a dry-cleaning solvent contamination abandoned site that constitutes an imminent hazard.

(8) For any costs incurred in connection with dry-cleaning solvent contamination from a facility located on a United States military base or

Part 6 has a delayed repeal date. See notes.

owned by the United States or a department or agency of the United States.

(9) For any costs incurred in connection with dry-cleaning solvent contamination from a facility or abandoned site owned by the State or a department or agency of the State.

(c) The Commission shall not pay or reimburse any response costs arising from a dry-cleaning solvent assessment agreement or dry-cleaning solvent remediation agreement until the petitioners who are party to the agreement have paid all sums due under the agreement.

(d) Each dry-cleaning solvent assessment agreement or dry-cleaning solvent remediation agreements made by the Commission pursuant to this Part shall expressly state that the Commission's obligation to reimburse response costs incurred pursuant to these agreements shall be contingent upon the availability of monies from the Fund and that the State and its departments and agencies have no obligation to reimburse otherwise eligible expenses if monies are not available in the Fund to pay the reimbursements. If, at any time, the Commission determines that the cost of assessment and remediation activities reimbursable pursuant to existing dry-cleaning solvent assessment agreements and dry-cleaning solvent remediation agreements equals or exceeds the total revenues expected to be credited to the Fund over the life of the Fund, the Commission shall publish notice of the determination in the North Carolina Register. Following the publication of a notice pursuant to this section, the Commission may continue to enter into dry-cleaning solvent assessment agreements and dry-cleaning solvent remediation agreements until the day of adjournment of the first regular session of the General Assembly that begins after the date the notice is published, but shall have no authority to enter into additional dry-cleaning solvent assessment agreements and dry-cleaning solvent remediation agreements after that date unless the Commission first determines either (i) that revenues will be available from the Fund to reimburse the costs of assessment and remediation activities expected to be reimbursable pursuant to the agreements, or (ii) that assessment and remediation activities undertaken pursuant to the agreements will be paid entirely from sources other than the Fund. For the purposes of this subsection, the term "day of adjournment" shall mean: (i) in the case of a regular session held in an odd-numbered year, the day the General Assembly adjourns by joint resolution for more than 10 days, and (ii) in the case of a regular session held in an even-numbered year, the day the General Assembly adjourns sine die.

(e) The Commission shall pay the reimbursable response costs of eligible parties as they are incurred. If the cleanup of the contamination site is not completed as required by the remediation agreement, any response costs previously reimbursed for the cleanup shall be repaid to the Fund, with interest. The Commission shall request the Attorney General to commence a civil action to secure repayment of response costs and interest of the costs. (1997-392, s. 1; 2000-19, ss. 12, 14(a), (b).)

Cross References. — For a complete explanation of the repeal of this section, see the editor's notes under G.S. 143-215.104A.

Editor's Note. — Session Laws 1997-392, s. 6, made this section effective January 1, 1999.

Session Laws 1997-392, s. 7, as amended by Session Laws 2000-19, s. 18, provides that any person undertaking assessment or remediation of dry-cleaning solvent contamination pursuant to a notice of violation or an enforcement action by the Department of Environment and Natural Resources from October 1, 1997 to June 30, 2001, will be able, on or after June 30, 2001, to seek reimbursement from, the Dry-Cleaning Solvent Cleanup Fund for costs exceeding $50,000, provided certain conditions are met. Also, any person who, as of June 30, 2001, is undertaking assessment or remediation of dry-cleaning solvent contamination is eligible to petition the Commission to enter into an agree-

Part 6 has a delayed repeal date. See notes.

ment regarding financial contribution of parties. The total payments made pursuant to this section in a single fiscal year are not to exceed ten percent of the revenues credited to the Cleanup Fund in the preceding fiscal year. Session Laws 1997-392, s. 8, provided that s. 7 would be repealed effective January 1, 2000.

Session Laws 2000-19, s. 20, contains a severability clause.

Session Laws 2000-19, s. 22, as amended by Session Laws 2001-265, s. 4, provides: "This act constitutes a recent act of the General Assembly within the meaning of G.S. 150B-21.1. The Environmental Management Commission and the Commission on Health Services may adopt temporary rules to implement the provisions of this act until 1 July 2002."

Session Laws 2001-265, ss. 2(a) to 2(c), effective retroactively to January 1, 2000, provide: "(a) Any person who undertakes assessment or remediation of dry-cleaning solvent contamination pursuant to a notice of violation or enforcement action by the Department of Environment and Natural Resources during the period beginning 1 October 1997 and ending 30 June 2001 may, on or after 30 June 2001 and prior to 1 July 2002, seek reimbursement from the Dry-Cleaning Solvent Cleanup Fund for any costs exceeding fifty thousand dollars ($50,000). The Environmental Management Commission shall reimburse costs if it finds that the costs incurred were (i) appropriately documented and reasonably necessary to assess or remediate the dry-cleaning solvent contamination; (ii) for any of the activities described in subdivisions (1) through (7) of G.S. 143-215.104N(a); (iii) not subject to any of the limitations in subdivisions (4) through (9) of G.S. 143-215.104N(b); (iv) not reimbursable from pollution and remediation legal liability insurance; and (v) required by a notice of violation or a specific order of the Department of Environment and Natural Resources issued on or after 30 June 1996. No reimbursement may be paid pursuant to this section for dry-cleaning solvent contamination that did not result from operations at a dry-cleaning or wholesale distribution facility.

"(b) Any person who, as of 30 June 2001, is undertaking assessment or remediation of dry-cleaning solvent contamination may petition the Environmental Management Commission prior to 1 July 2002 to enter into a dry-cleaning solvent assessment agreement or dry-cleaning solvent remediation agreement with respect to the contamination. The Commission shall determine whether the cost of any assessment or remediation performed prior to entry into an agreement is necessary and reasonable. The Commission shall credit the costs of assessment or remediation that it determines to be necessary and reasonable, and that have been paid by the person, toward the financial responsibility requirements applicable to that person under G.S. 143-215.104F.

"(c) The total of all payments made pursuant to this section in a single fiscal year shall not exceed ten percent (10%) of the revenues credited to the Dry-Cleaning Solvent Cleanup Fund in the preceding fiscal year."

§ 143-215.104O. (Repealed effective January 1, 2012 — See notes) Remediation of uncertified sites.

(a) In the event the owner or operator of a facility or the current owner of an abandoned site cannot be identified or located, unreasonably refuses to enter into either an assessment agreement or remediation agreement or cannot be made to comply with the provisions of an assessment agreement or remediation agreement between the petitioner and the Commission, the Commission may direct the Department or a private contractor engaged by the Commission to use staff, equipment, or materials under the control of the Department or contractor or provided by other cooperating federal, State, or local agencies to develop and implement a plan for abatement of an imminent hazard, or to provide interim alternative sources of drinking water to third parties affected by dry-cleaning solvent contamination resulting from a release at the facility or abandoned site. The cost of any of these actions shall be paid from the Fund. The Department or private contractor shall keep a record of all expenses incurred for personnel and for the use of equipment and materials and all other expenses of developing and implementing the remediation plan.

(b) The Commission shall request the Attorney General to commence a civil action to secure reimbursement of costs incurred under this section.

(c) In the event a civil action is commenced pursuant to this Part to recover monies paid from the Fund, the Commission may recover, in addition to any

Part 6 has a delayed repeal date. See notes.

amount due, the costs of the action, including reasonable attorneys' fees and investigation expenses. Any monies received or recovered as reimbursement shall be paid into the Fund or other source from which the expenditures were made. (1997-392, s. 1; 2000-19, s. 15.)

Cross References. — For a complete explanation of the repeal of this section, see the editor's notes under G.S. 143-215.104A.

Editor's Note. — Session Laws 1997-392, s. 6, made this section effective January 1, 1999.

Session Laws 2000-19, s. 20, contains a severability clause.

Session Laws 2000-19, s. 22, as amended by Session Laws 2001-265, s. 4, provides: "This act constitutes a recent act of the General Assembly within the meaning of G.S. 150B-21.1. The Environmental Management Commission and the Commission on Health Services may adopt temporary rules to implement the provisions of this act until 1 July 2002."

§ 143-215.104P. (Repealed effective January 1, 2012 — See notes) Enforcement procedures; civil penalties.

(a) The Secretary may assess a civil penalty of not more than ten thousand dollars ($10,000) or, if the violation involves a hazardous waste, as defined in G.S. 130-290, of not more than twenty-five thousand dollars ($25,000) against any person who:

(1) Repealed by Session Laws 2000, ch. 19, s. 3, effective on and after April 1, 1998.

(2) Engages in dry-cleaning operations using dry-cleaning solvent for which the appropriate sales or use tax has not been paid.

(3) Fails to comply with rules adopted by the Commission pursuant to this Part.

(4) Fails to file, submit, or make available, as the case may be, any documents, data, or reports required by this Part.

(5) Violates or fails to act in accordance with the terms, conditions, or requirements of any special order or other appropriate document issued pursuant to G.S. 143-215.2.

(6) Falsifies or tampers with any recording or monitoring device or method required to be operated or maintained under this Part or rules implementing this Part.

(7) Knowingly renders inaccurate any recording or monitoring device or method required to be operated or maintained under this Part or rules implementing this Part.

(8) Knowingly makes any false statement, representation, or certification in any application, record, report, plan, or other document filed or required to be maintained under this Part or rule implementing this Part.

(9) Knowingly makes a false statement of material fact in a rule-making proceeding or contested case under this Part.

(10) Refuses access to the Commission or its duly designated representative to any premises for purposes of conducting a lawful inspection provided for in this Part or rule implementing this Part.

(b) If any action or failure to act for which a penalty may be assessed under subsection (a) of this section is continuous, the Secretary may assess a penalty not to exceed ten thousand dollars ($10,000) per day or, if the violation involves a hazardous waste, as defined in G.S. 130-290, not exceed twenty-five thousand dollars ($25,000) per day. A penalty for a continuous violation shall not exceed two hundred thousand dollars ($200,000) for each period of 30 days during which the violation continues.

Part 6 has a delayed repeal date. See notes.

(c) In determining the amount of the penalty, the Secretary shall consider the factors set out in G.S. 143B-282.1(b). The procedures set out in G.S. 143B-282.1 shall apply to civil penalty assessments that are presented to the Commission for final agency decision.

(d) The Secretary shall notify any person assessed a civil penalty for the assessment and the specific reasons therefor by registered or certified mail or by any means authorized by G.S. 1A-1, Rule 4. Contested case petitions shall be filed pursuant to G.S. 150B-23 within 30 days of receipt of the notice of assessment. The Secretary shall make the final decision regarding assessment of a civil penalty under this section.

(e) Requests for remission of civil penalties shall be filed with the Secretary. Remission requests shall not be considered unless made within 30 days of receipt of the notice of assessment. Remission requests must be accompanied by a waiver of the right to a contested case hearing pursuant to Chapter 150B of the General Statutes and a stipulation of the facts on which the assessment was based. Consistent with the limitations in G.S. 143B-282.1(c) and (d), remission requests may be resolved by the Secretary and the violator. If the Secretary and the violator are unable to resolve the request, the Secretary shall deliver the remission request and the recommended action to the Committee on Civil Penalty Remissions of the Environmental Management Commission appointed pursuant to G.S. 143B-282.1(c).

(f) If any civil penalty has not been paid within 30 days after notice of assessment has been served on the violator, the Secretary shall request the Attorney General to institute a civil action in the superior court of any county in which the violator resides or the violator's principal place of business is located in order to recover the amount of the assessment, unless the violator contests the assessment as provided in subsection (d) of this section or requests remission of the assessment in whole or in part as provided in subsection (e) of this section. If any civil penalty has not been paid within 30 days after the final agency decision or order has been served on the violator, the Secretary shall request the Attorney General to institute a civil action in the superior court of any county in which the violator resides or the violator's principal place of business is located to recover the amount of the assessment. A civil action must be filed within three years of the date the final agency decision or court order was served on the violator. (1997-392, s. 1; 2000-19, s. 3.)

Cross References. — For a complete explanation of the repeal of this section, see the editor's notes under G.S. 143-215.104A.

Editor's Note. — Session Laws 2000-19, s. 20, contains a severability clause.

Session Laws 2000-19, s. 22, as amended by Session Laws 2001-265, s. 4, provides: "This act constitutes a recent act of the General Assembly within the meaning of G.S. 150B-21.1. The Environmental Management Commission and the Commission on Health Services may adopt temporary rules to implement the provisions of this act until 1 July 2002."

§ 143-215.104Q. (Repealed effective January 1, 2012 — See notes) Enforcement procedures; criminal penalties.

(a) Any person who negligently commits any of the offenses set out in subdivisions (1) through (10) of G.S. 143-215.104P(a) shall be guilty of a Class 2 misdemeanor, which may include a fine not to exceed fifteen thousand dollars ($15,000) per day of violation, provided that the fine shall not exceed a cumulative total of two hundred thousand dollars ($200,000) for each period of 30 days during which a violation continues.

Part 6 has a delayed repeal date. See notes.

(b) Any person who knowingly and willfully commits any of the offenses set out in subdivisions (1) through (10) of G.S. 143-215.104P(a) shall be guilty of a Class I felony, which may include a fine not to exceed one hundred thousand dollars ($100,000) per day of violation, provided that this fine shall not exceed a cumulative total of five hundred thousand dollars ($500,000) for each period of 30 days during which the violation continues. For the purposes of this subsection, the phrase "knowingly and willfully" shall mean "intentionally and consciously" as the courts of this State, according to the principles of common law, interpret the phrase in the light of reason and experience.

(c)(1) Any person who knowingly commits any of the offenses set out in subdivisions (3) through (10) of G.S. 143-215.104P(a) and who knows at that time that he thereby places another person in imminent danger of death or serious bodily injury shall be guilty of a Class C felony, which may include a fine not to exceed two hundred fifty thousand dollars ($250,000) per day of violation, provided that this fine shall not exceed a cumulative total of one million dollars ($1,000,000) for each period of 30 days during which the violation continues.

(2) For the purposes of this subsection, a person's state of mind is knowing with respect to:

a. His conduct, if he is aware of the nature of his conduct.

b. An existing circumstance, if he is aware or believes that the circumstance exists.

c. A result of his conduct, if he is aware or believes that his conduct is substantially certain to cause danger of death or serious bodily injury.

(3) Under this subsection, the following should be considered in determining whether a defendant who is a natural person knew that his conduct placed another person in imminent danger of death or serious bodily injury:

a. The person is responsible only for actual awareness or actual belief that he possessed, and

b. Knowledge possessed by a person other than the defendant but not by the defendant himself may not be attributed to the defendant.

(4) It is an affirmative defense to a prosecution under this subsection that the conduct charged was conduct consented to by the person endangered and that the danger and conduct charged were reasonably foreseeable hazards of an occupation, a business or profession, or of medical treatment or medical or scientific experimentation conducted by professionally approved methods, and the person had been made aware of the risks involved prior to giving consent. The defendant may establish an affirmative defense under this subdivision by a preponderance of the evidence.

(d) No proceeding shall be brought or continued under this section for or on account of a violation by any person who has previously been convicted of a federal violation based upon the same set of facts.

(e) In proving the defendant's possession of actual knowledge, circumstantial evidence may be used, including evidence that the defendant took affirmative steps to shield himself from relevant information. Consistent with the principles of common law, the subjective mental state of defendants may be inferred from their conduct.

(f) For the purposes of the felony provisions of this section, a person's state of mind shall not be found "knowingly and willfully" or "knowingly" if the conduct that is the subject of the prosecution is the result of any of the following occurrences or circumstances:

Part 6 has a delayed repeal date. See notes.

(1) A natural disaster or other act of God that could not have been prevented or avoided by the exercise of due care or foresight.

(2) An act of third parties other than agents, employees, contractors, or subcontractors of the defendant.

(3) An act done in reliance on the written advice or emergency on-site direction of an employee of the Department. In emergencies, oral advice may be relied upon if written confirmation is delivered to the employee as soon as practicable after receiving and relying on the advice.

(4) An act causing no significant harm to the environment or risk to public health, safety, or welfare and done in compliance with other conflicting environmental requirements or other constraints imposed in writing by environmental agencies or officials after written notice is delivered to all relevant agencies that the conflict exists and will cause a violation of the identified standard.

(5) Violations causing no significant harm to the environment or risk to public health, safety, or welfare for which no enforcement action or civil penalty could have been imposed under any written civil enforcement guidelines in use by the Department at the time. This subdivision shall not be construed to require the Department to develop or use written civil enforcement guidelines.

(6) Occasional, inadvertent, short-term violations causing no significant harm to the environment or risk to public health, safety, or welfare. If the violation occurs within 30 days of a prior violation or lasts for more than 24 hours, it is not an occasional, short-term violation.

(g) All general defenses, affirmative defenses, and bars to prosecution that may apply with respect to other criminal offenses under law may apply to prosecutions brought under this section or other criminal statutes that refer to this section and shall be determined by the courts of this State according to the principles of common law as they may be applied in light of reason and experience. Concepts of justification and excuse applicable under this section may be developed in light of reason and experience.

(h) All general defenses, affirmative defenses, and bars to prosecution that may apply with respect to other criminal offenses under law may apply to prosecutions brought under this section or other criminal statutes that refer to this section and shall be determined by the courts of this State according to the principles of common law as they may be applied in light of reason and experience. Concepts of justification and excuse applicable under this section may be developed in light of reason and experience.

(i) For purposes of this section, the term "person" means, in addition to the definition contained in G.S. 143-212, any responsible corporate or public office or employee. If a vote of the people is required to effectuate the intent and purpose of this Article by a county, city, town, or other political subdivision of the State and the vote on the referendum is against the means or machinery for carrying out the intent and purpose, then this section shall not apply to elected officials or to any responsible appointed officials or employees of the county, city, town, or other political subdivision. (1997-392, s. 1.)

Part 6 has a delayed repeal date. See notes.

§ 143-215.104R. (Repealed effective January 1, 2012 — See notes) Enforcement procedures; injunctive relief.

Whenever the Commission has reasonable cause to believe that any person has violated or is threatening to violate any of the provisions of this Part or rule implementing this Part, the Commission may, either before or after the institution of any other action or proceeding authorized by this Part, request the Attorney General to institute a civil action in the name of the State upon the relation of the Commission for injunctive relief to restrain the violation or threatened violation and for other and further relief in the premises as the court shall deem proper. The Attorney General may institute an action in the superior court of the county in which the violation occurred or may occur or, in the Attorney General's discretion, in the superior court of the county in which the person responsible for the violation or threatened violation resides or has a principal place of business. Upon a determination by the court that the alleged violation of the provisions of this Part or the rules of the Commission has occurred or is threatened, the court shall grant the relief necessary to prevent or abate the violation or threatened violation. Neither the institution of the action nor any of the proceedings thereon shall relieve any party to the proceedings from any penalty prescribed for violation of this Part. In the event a civil action is commenced pursuant to this section, the Commission may recover the costs of the action, including attorneys' fees and investigation expenses. All monies received or recovered shall be paid into the Fund or other source from which the expenditures were made. (1997-392, s. 1.)

Cross References. — For a complete explanation of the repeal of this section, with exceptions, see the editor's notes under G.S. 143-215.104A.

§ 143-215.104S. (Repealed effective January 1, 2012 — See editor's notes) Appeals.

Any person who is aggrieved by a decision of the Commission under G.S. 143-215.104F through G.S. 143-215.104O may commence a contested case by filing a petition under G.S. 150B-23 within 60 days after the Commission's decision. If no contested case is initiated within the allotted time period, the Commission's decision shall be final and not subject to review. The Commission shall make the final agency decision in contested cases initiated pursuant to this section. Notwithstanding the provisions of G.S. 6-19.1, no party seeking to compel remediation of dry-cleaning solvent contamination in excess of that required by a dry-cleaning solvent remediation agreement approved by the Commission shall be eligible to recover attorneys' fees. The Commission shall not delegate its authority to make a final agency decision pursuant to this section. (1997-392, s. 1; 2000-19, s. 16; 2002-165, s. 1.5.)

Cross References. — For a complete explanation of the repeal of this section, with exceptions, see the editor's notes under G.S. 143-215.104A.

Editor's Note. — G.S. 143-215.104E, referred to in this section, was repealed by Session Laws 2000-19, s. 3, effective April 1, 1998.

Session Laws 2000-19, s. 20, contains a severability clause.

Session Laws 2000-19, s. 22, as amended by Session Laws 2001-265, s. 4, provides: "This act constitutes a recent act of the General Assembly within the meaning of G.S. 150B-21.1. The Environmental Management Commission and the Commission on Health Services may adopt temporary rules to implement the provisions of this act until 1 July 2002."

G.S. 143-215.104E, referred to in this section, was repealed by Session Laws 2000-19, s. 3, effective April 1, 1998.

Part 6 has a delayed repeal date. See notes.

Effect of Amendments. — Session Laws 2002-165, s. 1.5, effective October 23, 2002, substituted "G.S. 143-215.104F" for "G.S. 143-215.104E" in the first sentence.

§ 143-215.104T. (Repealed effective January 1, 2012 — See notes) Construction of this Part.

(a) This Part is not intended to and shall not be construed to:

(1) Affect the ability of local governments to regulate land use under Article 19 of Chapter 160A of the General Statutes and Article 18 of Chapter 153A of the General Statutes. The use of the identified contamination site and any land-use restrictions in the dry-cleaning solvent remediation agreement shall be consistent with local land-use controls adopted under those statutes.

(2) Amend, modify, repeal, or otherwise alter any provision of any remedial program or other provision of law relating to civil and criminal penalties or enforcement actions and remedies available to the Department, except as may be provided in a dry-cleaning solvent remediation agreement.

(3) Prevent or impede the immediate response of the Department or responsible party to an emergency that involves an imminent or actual release of a regulated substance that threatens public health or the environment.

(4) Relieve a person receiving liability protection under this Part from any liability for contamination later caused by that person at a facility or abandoned site.

(5) Affect the right of any person to seek any relief available against any party to the dry-cleaning solvent remediation agreement who may have liability with respect to the facility or abandoned site, except that this Part does limit the relief available against any party to a remediation agreement with respect to assessment or remediation of the contamination site to the assessment remediation required under the remediation agreement.

(6) Affect the right of any person who may have liability with respect to the facility or abandoned site to seek contribution from any other person who may have liability with respect to the facility or abandoned site and who neither received nor has liability protection under this Part.

(7) Prevent the State from enforcing specific numerical remediation standards, monitoring, or compliance requirements specifically required to be enforced by the federal government as condition to receive program authorization, delegation, primacy, or federal funds.

(8) Create a defense against the imposition of criminal and civil fines or penalties or administrative penalties otherwise authorized by law and imposed as the result of the illegal disposal of waste or from the pollution of the land, air, or waters of this State on a facility or abandoned site.

(9) Relieve a person of any liability for failure to exercise due diligence and reasonable care in performing an environmental assessment or transaction screen.

(b) Notwithstanding the provision of the Tort Claims Act, G.S. 143-291 through G.S. 143-300.1 or any other provision of law waiving the sovereign immunity of the State of North Carolina, the State, its agencies, officers, employees, and agents shall be absolutely immune from any liability in any proceeding for any injury or claim arising from negotiating, entering into,

Part 6 has a delayed repeal date. See notes.

monitoring, or enforcing a dry-cleaning solvent assessment agreement, a dry-cleaning solvent remediation agreement, or a Notice of Dry-Cleaning Solvent Remediation under this Part or any other action implementing this Part. (1997-392, s. 1.)

Cross References. — For a complete explanation of the repeal of this section, see the editor's notes under G.S. 143-215.104A.

§ 143-215.104U. (Repealed effective January 1, 2012 — See notes) Reporting requirements.

(a) The Secretary shall present an annual report to the Environmental Review Commission that shall include at least the following:

(1) A list of all dry-cleaning solvent contamination reported to the Department.

(2) A list of all facilities and abandoned sites certified by the Commission and the status of contamination associated with each facility or abandoned site.

(3) An estimate of the cost of assessment and remediation required in connection with facilities or abandoned sites certified by the Commission and an estimate of assessment and remediation costs expected to be paid from the Fund.

(4) A statement of receipts and disbursements for the Fund.

(5) A statement of all claims against the Fund, including claims paid, claims denied, pending claims, anticipated claims, and any other obligations.

(6) The adequacy of the Fund to carry out the purposes of this Part together with any recommendations as to measures that may be necessary to assure the continued solvency of the Fund.

(b) The Secretary shall make the annual report required by this section on or before 1 October of each year. (1997-392, s. 1.)

Cross References. — For a complete explanation of the repeal of this section, see the editor's notes under G.S. 143-215.104A.

Article 21B.

Air Pollution Control.

§ 143-215.105. Declaration of policy; definitions.

The declaration of public policy set forth in G.S. 143-211, the definitions in G.S. 143-212, and the definitions in G.S. 143-213, applicable to the control and abatement of air pollution, shall be applicable to this Article. (1973, c. 821, s. 6; 1987, c. 827, s. 203.)

Legal Periodicals. — For note regarding North Carolina air toxics regulations, see 69 N.C.L. Rev. 1579 (1991).

CASE NOTES

Appeal. — Third party was entitled under the North Carolina Administrative Procedures Act, G.S. 150B-1 to 150B-53 (1991), and the Air Pollution Control Act, and this section to G.S. 143-215.114C (1993), to appeal to the Office of Administrative Hearings from the decision of the Department of Environmental Management, to grant an air pollution control permit to Duke Power Company. Empire Power Co. v. North Carolina Dep't of Env't, Health & Natural Resources, 337 N.C. 569, 447 S.E.2d 768, rehearing denied, 338 N.C. 314, 451 S.E.2d 634 (1994).

Cited in Lewis v. White, 287 N.C. 625, 216 S.E.2d 134 (1975); Steele Creek Community Ass'n v. United States DOT, 435 F. Supp. 196 (W.D.N.C. 1977); Craig v. County of Chatham, 143 N.C. App. 30, 545 S.E.2d 455, 2001 N.C. App. LEXIS 221 (2001), cert. granted, 354 N.C. 68, 553 S.E.2d 37 (2001).

§ 143-215.106. Administration of air quality program.

The Department shall administer the air quality program of the State. (1973, c. 821, s. 6; c. 1262, s. 23; 1977, c. 771, s. 4; 1987, c. 827, s. 204.)

CASE NOTES

Cited in Lewis v. White, 287 N.C. 625, 216 S.E.2d 134 (1975).

§ 143-215.106A. Assessments to establish Title V program.

(a) The holders of permits issued by the Commission for the control of sources of air pollution are assessed Title V program implementation fees on an annual basis in accordance with the schedule established in this section. The assessments are in addition to any other fees required to be paid by the permit holders in conjunction with the permits. The assessments shall be credited to the Title V Account. The Secretary shall issue annual notices of the assessments to permit holders on or before 1 July of each fiscal year. Each notice of assessment shall include a summary of the data on which the assessment is based. Assessments shall be payable 30 days after receipt of notice. Failure to make timely payment within 90 days shall be grounds to revoke the permit and to institute a collection action against the permit holder by the Attorney General.

(b) Assessments are made in accordance with the following schedule:

(1) Sources emitting at least 100 tons and less than 500 tons per year, two thousand dollars ($2,000) for fiscal year 1991-92 and two thousand five hundred dollars ($2,500) for each year thereafter;

(2) Sources emitting at least 500 tons and less than 1,000 tons per year, four thousand dollars ($4,000) for fiscal year 1991-92 and twelve thousand five hundred dollars ($12,500) for each year thereafter;

(3) Sources emitting at least 1,000 tons and less than 5,000 tons per year, six thousand dollars ($6,000) for fiscal year 1991-92, and twenty-five thousand dollars ($25,000) for each year thereafter; and

(4) Sources emitting at least 5,000 tons per year, six thousand dollars ($6,000) for fiscal year 1991-92, and one hundred thousand dollars ($100,000) for each year thereafter.

(c) Notices of assessment shall not be issued for any fiscal year in which the permit fees for the Title V program adopted by the Commission pursuant to G.S. 143-215.3(a)(1d) are in effect. Should a Title V program permit fee become

due and payable during a fiscal year when the permit holder has paid an assessment, the Title V program permit fee shall be reduced in an amount equal to the pro rata share of the assessment for the months remaining in the fiscal year. The pro rata share is determined by dividing the assessment into 12 equal parts and multiplying that sum by the number of months remaining in the fiscal year. (1991, c. 552, s. 10; 1991 (Reg. Sess., 1992), c. 1039, s. 17.)

§ 143-215.107. Air quality standards and classifications.

(a) Duty to Adopt Plans, Standards, etc. — The Commission is hereby directed and empowered, as rapidly as possible within the limits of funds and facilities available to it, and subject to the procedural requirements of this Article and Article 21:

(1) To prepare and develop, after proper study, a comprehensive plan or plans for the prevention, abatement and control of air pollution in the State or in any designated area of the State.

(2) To determine by means of field sampling and other studies, including the examination of available data collected by any local, State or federal agency or any person, the degree of air contamination and air pollution in the State and the several areas of the State.

(3) To develop and adopt, after proper study, air quality standards applicable to the State as a whole or to any designated area of the State as the Commission deems proper in order to promote the policies and purposes of this Article and Article 21 most effectively.

(4) To collect information or to require reporting from classes of sources which, in the judgment of the Environmental Management Commission, may cause or contribute to air pollution. Any person operating or responsible for the operation of air contaminant sources of any class for which the Commission requires reporting shall make reports containing such information as may be required by the Commission concerning location, size, and height of contaminant outlets, processes employed, fuels used, and the nature and time periods or duration of emissions, and such other information as is relevant to air pollution and available or reasonably capable of being assembled.

(5) To develop and adopt emission control standards as in the judgment of the Commission may be necessary to prohibit, abate, or control air pollution commensurate with established air quality standards. This subdivision does not apply to that portion of the National Emission Standards for Hazardous Air Pollutants for asbestos that governs demolition and renovation as set out in 40 C.F.R. § 61.141, 61.145, 61.150, and 61.154 (1 July 1993 edition).

(6) To adopt motor vehicle emissions standards; to adopt, when necessary and practicable, a motor vehicle emissions inspection and maintenance program to improve ambient air quality; to require manufacturers of motor vehicles to furnish to the Equipment and Tool Institute and, upon request and at a reasonable charge, to any person who maintains or repairs a motor vehicle, all information necessary to fully make use of the on-board diagnostic equipment and the data compiled by that equipment; to certify to the Commissioner of Motor Vehicles that ambient air quality will be improved by the implementation of a motor vehicle emissions inspection and maintenance program in a county. The Commission shall implement this subdivision as provided in G.S. 143-215.107A.

(7) To develop and adopt standards and plans necessary to implement programs for the prevention of significant deterioration and for the attainment of air quality standards in nonattainment areas.

(8) To develop and adopt standards and plans necessary to implement programs to control acid deposition and to regulate the use of sulfur dioxide (SO2) allowances and oxides of nitrogen (NOx) emissions in accordance with Title IV and implementing regulations adopted by the United States Environmental Protection Agency.

(9) To regulate the content of motor fuels, as defined in G.S. 105-449.60, to require use of reformulated gasoline as the Commission determines necessary, to implement the requirements of Title II and implementing regulations adopted by the United States Environmental Protection Agency, and to develop standards and plans to implement this subdivision. Rules may authorize the use of marketable oxygen credits for gasoline as provided in federal requirements.

(10) To develop and adopt standards and plans necessary to implement requirements of the federal Clean Air Act and implementing regulations adopted by the United States Environmental Protection Agency.

(11) To develop and adopt economically feasible standards and plans necessary to implement programs to control the emission of odors from animal operations, as defined in G.S. 143-215.10B.

(12) To develop and adopt a program of incentives to promote voluntary reductions of emissions of air contaminants, including, but not limited to, emissions banking and trading and credit for voluntary early reduction of emissions.

(13) To develop and adopt rules governing the certification of persons who inspect vehicle-mounted tanks used to transport motor fuel and to require that inspection of these tanks be performed only by certified personnel.

(14) To develop and adopt rules governing the sale and service of mobile source exhaust emissions analyzers and to require that vendors of these analyzers provide adequate surety to purchasers for the performance of the vendor's contractual or other obligations related to the sale and service of analyzers.

(b) Criteria for Standards. — In developing air quality and emission control standards, motor vehicle emissions standards, motor vehicle emissions inspection and maintenance requirements, rules governing the content of motor fuels or requiring the use of reformulated gasoline, and other standards and plans to improve ambient air quality, the Commission shall consider varying local conditions and requirements and may prescribe uniform standards and plans throughout the State or different standards and plans for different counties or areas as may be necessary and appropriate to improve ambient air quality in the State or within a particular county or area, achieve attainment or preclude violations of state or national ambient air quality standards, meet other federal requirements, or achieve the purposes of this Article and Article 21.

(c) Chapter 150B of the General Statutes governs the adoption and publication of rules under this Article.

(d), (e) Repealed by Session Laws 1987, c. 827, s. 205.

(f), (g) Repealed by Session Laws 1995, c. 507, s. 27. (1973, c. 821, s. 6; c. 1262, s. 23; 1975, c. 784; 1979, c. 545, s. 1; c. 931; 1987, c. 827, ss. 154, 205; 1989, c. 132; c. 168, s. 48; 1991, c. 403, s. 3; c. 552, s. 9; c. 761, s. 40; 1991 (Reg. Sess., 1992), c. 889, s. 3; 1993, c. 400, s. 7; 1993 (Reg. Sess., 1994), c. 686, s. 6; 1995, c. 123, s. 9; c. 507, s. 27.8(s); 1997-458, s. 3.1; 1999-328, s. 3.12; 2000-134, s. 1; 2002-4, s. 3; 2002-165, s. 1.7.)

Cross References. — As to motor vehicle emission standards, see G.S. 20-128.2.

Editor's Note. — Session Laws 1991, c. 403, which amended this section, in s. 5 provides: "This act shall not be construed to affect the validity of any rule in force on the date this act becomes effective [January 1, 1992] or to proposed rules for which a notice of rule making is

published in the North Carolina Register before the date this act becomes effective [January 1, 1992]."

Session Laws 1991, c. 403, s. 6 provides: "This act shall not be construed to obligate the General Assembly to make any appropriation to implement the provisions of this act. Each agency to which this act applies shall implement the provisions of this act from funds otherwise appropriated or available to that agency."

Session Laws 1999-328, s. 5.1 provides that this act shall not be construed to obligate the General Assembly to appropriate any funds to implement the provisions of this act. Every State agency to which this act applies shall implement the provisions of this act from funds otherwise appropriated or available to that agency.

Session Laws 2000-134, s. 20, as amended by Session Laws 2001-504, s. 8, provides: "During the period 1 July 2002 through 31 December 2005, in the counties of Cabarrus, Durham, Forsyth, Gaston, Guilford, Mecklenburg, Orange, Union, and Wake, an emissions inspection station, an emissions inspection mechanic, and an emissions self-inspector, as those terms are used in G.S. 20-183.4A, may elect to perform emissions inspections: (i) only on 1995 and older model vehicles that are fewer than 25 model years old using an emissions analyzer; (ii) only on 1996 or later model vehicles using equipment to analyze data provided by the on-board diagnostic (OBD) equipment, or (iii) both on 1995 and older model vehicles that are fewer than 25 model years old using an emissions analyzer and on 1996 or later model vehicles using equipment to analyze data provided by the on-board diagnostic (OBD) equipment. This section shall not be construed to authorize an emissions inspection station or an emissions self-inspector to perform an emissions inspection on a vehicle of a model year for which the emissions inspection station or emissions self-inspector does not have the equipment necessary to perform an emissions inspection of vehicles of that model year. This section [s. 20 of Session Laws 2001-134] shall not be construed to authorize an emissions inspection mechanic to perform an emissions inspection on a vehicle unless the emissions inspection mechanic has successfully completed a course, as required by G.S. 20-183.4A(2) or G.S. 20-183.4A(2a) [G.S. 20-183.4A(c)(2) or G.S. 20-183, 4A(c)(2a)], that includes training on the use of the equipment necessary to perform an emissions inspection on vehicles of that model year."

Session Laws 2000-134, s. 21, provides that the act constitutes a recent act of the General Assembly within the meaning of G.S. 150B-21.1, and that, notwithstanding G.S. 150B-21.1(a)(2) and 26 NCAC 2C.0102(11), the Environmental Management Commission and the Division of Motor Vehicles of the Department of Transportation may adopt temporary rules to implement the provisions of this act. This section is to continue in effect until all rules necessary to implement the provisions of the act have become effective as either temporary rules or permanent rules.

Session Laws 2000-134, s. 23, directs the Environmental Review Commission, with the assistance of the Department of Environment and Natural Resources, the Division of Motor Vehicles of the Department of Transportation, the affected parties, and the Fiscal Research Division of the Legislative Services Office to study issues related to the costs associated with the motor vehicle safety and emissions inspection and maintenance program, specifically to determine what constitutes a reasonable fee for motor vehicle inspections under the current program and under the enhanced inspection and maintenance program to be implemented pursuant to G.S. 20-183.3, as amended by the act, taking into consideration the cost of emissions inspection equipment, the useful life of the equipment, the average period of time during which a purchaser of this equipment is able to amortize this cost, telephone charges incurred in connection with the registration denial program, whether a fee should be charged to reinspect a vehicle that fails an emissions inspection after repairs to the vehicle have been made, the cost of the safety inspection program in relation to the emissions inspection program, and any other factors that the Commission determines to be relevant. The Commission may also evaluate strategies to ensure an efficient and orderly implementation of the enhanced inspection and maintenance program required by Part III of S.L. 1999-328 and this act. The Environmental Review Commission is to recommend legislation to amend G.S. 20-183.7 to increase the fee for motor vehicle emissions inspections to the 2001 General Assembly.

Session Laws 2002-4, s. 15, contains a severability clause.

Effect of Amendments. — Session Laws 2002-4, s. 3, effective June 20, 2002, in subdivision (a)(8), substituted "sulfur dioxide (SO2) allowances and oxides of nitrogen" for "sulfur dioxide allowances and nitrogen oxides."

Session Laws 2002-165, s. 1.7, effective October 23, 2002, substituted "G.S. 105-449.60" for "G.S. 119-16" in subdivision (a)(9).

Legal Periodicals. — For survey of 1979 administrative law, see 58 N.C.L. Rev. 1185 (1980).

For a survey of 1996 developments in constitutional law, see 75 N.C.L. Rev. 2252 (1997).

For 1997 legislative survey, see 20 Campbell L. Rev. 450.

CASE NOTES

Cited in Lewis v. White, 287 N.C. 625, 216 S.E.2d 134 (1975); State ex rel. Wallace v. Bone, 304 N.C. 591, 286 S.E.2d 79 (1982).

OPINIONS OF ATTORNEY GENERAL

Adoption of Air Quality Rules and Procedures on Matters Not Covered by EPA. — Subsection (f) of this section does not prohibit the Environmental Management Commission from adopting air quality rules and procedures covering matters on which there are no corresponding EPA regulations. See opinion of Attorney General to Mr. Ronald L. Lindsay, 45 N.C.A.G. 170 (1975), issued prior to 1979 amendment.

§ 143-215.107A. Motor vehicle emissions testing and maintenance program.

(a) General Provisions. —

(1) G.S. 143-215.107(a)(6) shall be implemented as provided in this section.

(2) Motor vehicle emissions inspections shall be performed by a person who holds an emissions inspection mechanic license issued as provided in G.S. 20-183.4A(c) at a station that holds an emissions inspection station license issued under G.S. 20-183.4A(a) or at a place of business that holds an emissions self-inspector license issued as provided in G.S. 20-183.4A(d). Motor vehicle emissions inspections may be performed by a decentralized network of test-and-repair stations as described in 40 Code of Federal Regulations § 51.353 (1 July 1998 Edition). The Commission may not require that motor vehicle emissions inspections be performed by a network of centralized or decentralized test-only stations.

(b) Repealed by Session Laws 2000, ch. 134, s. 2, effective July 14, 2000.

(c) **(Effective July 1, 2003 until January 1, 2004 — See editor's notes)** Counties Covered. — Motor vehicle emissions inspections shall be performed in the following counties: Cabarrus, Catawba, Cumberland, Davidson, Durham, Forsyth, Gaston, Guilford, Iredell, Johnston, Mecklenburg, Orange, Rowan, Union, and Wake.

(c) **(Effective January 1, 2004 until July 1, 2004 — See editor's notes)** Counties Covered. — Motor vehicle emissions inspections shall be performed in the following counties: Alamance, Cabarrus, Catawba, Chatham, Cumberland, Davidson, Durham, Forsyth, Franklin, Gaston, Guilford, Iredell, Johnston, Lee, Lincoln, Mecklenburg, Moore, Orange, Randolph, Rowan, Stanly, Union, and Wake.

(c) **(Effective July 1, 2004 until January 1, 2005 — See editor's notes)** Counties Covered. — Motor vehicle emissions inspections shall be performed in the following counties: Alamance, Buncombe, Cabarrus, Catawba, Chatham, Cleveland, Cumberland, Davidson, Durham, Forsyth, Franklin, Gaston, Granville, Guilford, Harnett, Iredell, Johnston, Lee, Lincoln, Mecklenburg, Moore, Orange, Randolph, Rockingham, Rowan, Stanly, Union, and Wake.

(c) **(Effective January 1, 2005 until July 1, 2005 — See editor's notes)** Counties Covered. — Motor vehicle emissions inspections shall be performed in the following counties: Alamance, Buncombe, Cabarrus, Catawba, Chatham, Cleveland, Cumberland, Davidson, Durham, Edgecombe, Forsyth, Franklin, Gaston, Granville, Guilford, Harnett, Iredell, Johnston, Lee, Lenoir, Lincoln, Mecklenburg, Moore, Nash, Orange, Pitt, Randolph, Robeson, Rockingham, Rowan, Stanly, Union, Wake, Wayne and Wilson.

§ 143-215.107A(c) is set out five times. See notes.

(c) **(Effective July 1, 2005 until January 1, 2006 — See editor's notes)** Counties Covered. — Motor vehicle emissions inspections shall be performed in the following counties: Alamance, Buncombe, Burke, Cabarrus, Caldwell, Catawba, Chatham, Cleveland, Cumberland, Davidson, Durham, Edgecombe, Forsyth, Franklin, Gaston, Granville, Guilford, Harnett, Haywood, Henderson, Iredell, Johnston, Lee, Lenoir, Lincoln, Mecklenburg, Moore, Nash, Orange, Pitt, Randolph, Robeson, Rockingham, Rowan, Rutherford, Stanly, Stokes, Surry, Union, Wake, Wayne, Wilkes and Wilson.

(d) Additional Counties. — The Commission may require that motor vehicle emissions inspections be performed in counties in addition to those set out in subsection (c) of this section. In determining whether to require that motor vehicle emissions inspections be performed in a county, the Commission may consider the population of, and distribution of population in, the county; the projected change in population of, and distribution of population in, the county; the number of vehicles registered in the county; the projected change in the number of vehicles registered in the county; vehicle miles traveled in the county; the projected change in vehicle miles traveled in the county; current and projected commuting patterns in the county; and the current and projected impact of these factors on attainment of air quality standards in the county and in areas outside the county. The Commission may not require that motor vehicle emissions inspections be performed in any county with a population of less than 40,000 based on the most recent population estimates prepared by the State Planning Officer. The Commission may not require that motor vehicle emissions inspections be performed in any county in which the number of vehicle miles traveled per day is less than 900,000, based on the most recent estimates prepared by the Department of Transportation. In order to disapprove a rule that requires that motor vehicle emissions inspections be performed in one or more additional counties, a bill introduced pursuant to G.S. 150B-21.3(b) must amend subsection (c) of this section to add one or more other counties in which the total population and vehicle miles traveled per day equal or exceed the total population and vehicle miles traveled in the county or counties listed in the rule that the bill would disapprove. (1999-328, ss. 3.1, 3.3, 3.4, 3.5, 3.6, 3.7; 2000-134, ss. 2, 3.)

Subsection (c) Set Out Five Times. — The first version of subsection (c) set out above is effective July 1, 2003 until January 1, 2004. The second version of subsection (c) set out above is effective January 1, 2004, until July 1, 2004. The third version of subsection (c) set out above is effective July 1, 2004 until January 1, 2005. The fourth version of subsection (c) set out above is effective January 1, 2005 until July 1, 2005. The fifth version of subsection (c) set out above is effective July 1, 2005 until January 1, 2006.

Editor's Note. — Session Laws 1999-328, s. 3.2, as amended by Session Laws 2000-134, s. 4, in part provides that the Environmental Management Commission shall not require that motor vehicle emissions inspections be performed in any county pursuant to G.S. 143-215.107A(d), as enacted by Section 3.1 of this act, prior to July 1, 2006. The Environmental Management Commission shall not require motor vehicle emissions inspections for diesel powered vehicles prior to July 1, 2001.

Session Laws 2000-134, s. 4, amended Session Laws 1999-328, s. 3.2, to delete a provision that the Environmental Management Commission shall adopt rules to implement G.S. 143-215.107A(b), as enacted by Section 3.1 of the act, which rules were to become effective on July 1, 2002.

Session Laws 1999-328, ss. 3.3 through 3.8, as amended by Session Laws 2000-134, s. 4.1, amend G.S. 143-215.107A(c), as enacted by Section 3.1 of the 1999 act. The postponed amendment by Session Laws 1999-328, s. 3.3, has been set out as the second version of subsection (c) above, effective July 1, 2003. The postponed amendment by Session Laws 1999-328, s. 3.4, has been set out as the third version of subsection (c) above, effective January 1, 2004. The postponed amendment by Session Laws 1999-328, s. 3.5, has been set out as the fourth version of subsection (c), effective July 1, 2004. The postponed amendment by Session Laws 1999-328, s. 3.6, has been set out as the fifth version of subsection (c), effective January

1, 2005. The amendment by Session Laws 1999-328, s. 3.7, has been set out as the sixth version of subsection (c), effective July 1, 2005. The amendment by Session Laws 1999-328, s. 3.8, adds Brunswick, Carteret, Craven, New Hanover and Onslow to the list of counties in subsection (c), effective January 1, 2006.

Session Laws 2000-134, s. 5, repealed Session Laws 1999-328, s. 3.9, which provided that Sections 3.3 through 3.8 of the 1999 act become effective only if G.S. 20-183.7 has been amended to increase the fee for motor vehicle inspections no later than December 31, 2000 and that G.S. 143-215.107A(b), as enacted by Section 3.1 of this act, and Section 3.2 of this act are repealed effective January 1, 2001, unless, prior to January 1, 2001, G.S. 20-183.7 has been amended to increase the fee for motor vehicle emissions inspection.

Session Laws 1999-328, s. 4.4 provides in part that the Department of Transportation and the Department of Environment and Natural Resources shall jointly develop a draft plan for the purchase of buses, under which, beginning January 1, 2004, at least fifty percent (50%) of the new and replacement buses purchased to provide public transportation in counties in which motor vehicle emissions inspections are required to be performed under subsection (c) or (d) of G.S. 143-215.107A will be alternative-fueled or low emission vehicles. The Department of Transportation shall submit the draft plan to the Environmental Review Commission on or before September 1, 2000.

Session Laws 1999-328, s. 5.1 provides that this act shall not be construed to obligate the General Assembly to appropriate any funds to implement the provisions of this act. Every State agency to which this act applies shall implement the provisions of this act from funds otherwise appropriated or available to that agency.

Session Laws 1999-328, s. 5.3 contains a severability clause.

Session Laws 2000-134, s. 20, as amended by Session Laws 2001-504, s. 8, provides: "During the period 1 July 2002 through 31 December 2005, in the counties of Cabarrus, Durham, Forsyth, Gaston, Guilford, Mecklenburg, Orange, Union, and Wake, an emissions inspection station, an emissions inspection mechanic, and an emissions self-inspector, as those terms are used in G.S. 20-183.4A, may elect to perform emissions inspections: (i) only on 1995 and older model vehicles that are fewer than 25 model years old using an emissions analyzer; (ii) only on 1996 or later model vehicles using equipment to analyze data provided by the on-board diagnostic (OBD) equipment, or (iii) both on 1995 and older model vehicles that are fewer than 25 model years old using an emissions analyzer and on 1996 or later model vehicles using equipment to analyze data provided by the on-board diagnostic (OBD) equipment. This section shall not be construed to authorize an emissions inspection station or an emissions self-inspector to perform an emissions inspection on a vehicle of a model year for which the emissions inspection station or emissions self-inspector does not have the equipment necessary to perform an emissions inspection of vehicles of that model year. This section [s. 20 of Session Laws 2001-134] shall not be construed to authorize an emissions inspection mechanic to perform an emissions inspection on a vehicle unless the emissions inspection mechanic has successfully completed a course, as required by G.S. 20-183.4A(2) or G.S. 20-183.4A(2a) [G.S. 20-183.4A(c)(2) or G.S. 20-183, 4A(c)(2a)], that includes training on the use of the equipment necessary to perform an emissions inspection on vehicles of that model year."

Session Laws 2000-134, s. 21, provides that the act constitutes a recent act of the General Assembly within the meaning of G.S. 150B-21.1, and that, notwithstanding G.S. 150B-21.1(a)(2) and 26 NCAC 2C.0102(11), the Environmental Management Commission and the Division of Motor Vehicles of the Department of Transportation may adopt temporary rules to implement the provisions of this act. This section is to continue in effect until all rules necessary to implement the provisions of the act have become effective as either temporary rules or permanent rules.

Session Laws 2000-134, s. 23, directs the Environmental Review Commission, with the assistance of the Department of Environment and Natural Resources, the Division of Motor Vehicles of the Department of Transportation, the affected parties, and the Fiscal Research Division of the Legislative Services Office to study issues related to the costs associated with the motor vehicle safety and emissions inspection and maintenance program, specifically to determine what constitutes a reasonable fee for motor vehicle inspections under the current program and under the enhanced inspection and maintenance program to be implemented pursuant to G.S. 20-183.3, as amended by the act, taking into consideration the cost of emissions inspection equipment, the useful life of the equipment, the average period of time during which a purchaser of this equipment is able to amortize this cost, telephone charges incurred in connection with the registration denial program, whether a fee should be charged to reinspect a vehicle that fails an emissions inspection after repairs to the vehicle have been made, the cost of the safety inspection program in relation to the emissions inspection program, and any other factors that the Commission determines to be relevant. The Commission may also evaluate strategies to ensure an efficient and orderly implementation of the enhanced inspection and maintenance program

required by Part III of S.L. 1999-328 and this act. The Environmental Review Commission is to recommend legislation to amend G.S. 20-183.7 to increase the fee for motor vehicle emissions inspections to the 2001 General Assembly.

§ 143-215.107B. Statewide goals for reduction in emissions of oxides of nitrogen; report.

It shall be the goal of the State to reduce emissions of oxides of nitrogen (NOx) from all sources by at least twenty-five percent (25%) by 1 July 2009. It shall be the goal of the State to reduce the growth of vehicle miles traveled in the State by at least twenty-five percent (25%) of that growth that would otherwise occur by 1 July 2009. The Department of Environment and Natural Resources and the Department of Transportation shall evaluate progress toward achieving these goals in each fiscal year and shall report their findings and recommendations as to any measures that may be needed to achieve these goals to the Environmental Review Commission on or before 1 October of each year. (1999-328, s. 1.1; 2003-340, s. 1.7.)

Editor's Note. — Session Laws 1999-328, s. 5.1 provides that this act shall not be construed to obligate the General Assembly to appropriate any funds to implement the provisions of this act. Every State agency to which this act applies shall implement the provisions of this act from funds otherwise appropriated or available to that agency.

Session Laws 2002-4, which enacted G.S. 143-215.107D and G.S. 62-133.6, in ss. 10-14, provide: "It is the intent of the General Assembly that the State use all available resources and means, including negotiation, participation in interstate compacts and multistate and interagency agreements, petitions pursuant to 42 U.S.C. § 7426, and litigation to induce other states and entities, including the Tennessee Valley Authority, to achieve reductions in emissions of oxides of nitrogen (NOx) and sulfur dioxide (SO2) comparable to those required by G.S. 143-215.107D, as enacted by Section 1 of this act, on a comparable schedule. The State shall give particular attention to those states and other entities whose emissions negatively impact air quality in North Carolina or whose failure to achieve comparable reductions would place the economy of North Carolina at a competitive disadvantage.

"The Environmental Management Commission shall study the desirability of requiring and the feasibility of obtaining reductions in emissions of oxides of nitrogen (NOx) and sulfur dioxide (SO2) beyond those required by G.S. 143-215.107D, as enacted by Section 1 of this act. The Environmental Management Commission shall consider the availability of emissions reduction technologies, increased cost to consumers of electric power, reliability of electric power supply, actions to reduce emissions of oxides of nitrogen (NOx) and sulfur dioxide (SO2) taken by states and other entities whose emissions negatively impact air quality in North Carolina or whose failure to achieve comparable reductions would place the economy of North Carolina at a competitive disadvantage, and the effects that these reductions would have on public health, the environment, and natural resources, including visibility. In its conduct of this study, the Environmental Management Commission may consult with the Utilities Commission and the Public Staff. The Environmental Management Commission shall report its findings and recommendations to the General Assembly and the Environmental Review Commission annually beginning 1 September 2005.

"The General Assembly anticipates that measures implemented to achieve the reductions in emissions of oxides of nitrogen (NOx) and sulfur dioxide (SO2) required by G.S. 143-215.107D, as enacted by Section 1 of this act, will also result in significant reductions in the emissions of mercury from coal-fired generating units. The Division of Air Quality of the Department of Environment and Natural Resources shall study issues related to monitoring emissions of mercury and the development and implementation of standards and plans to implement programs to control emissions of mercury from coal-fired generating units. The Division shall evaluate available control technologies and shall estimate the benefits and costs of alternative strategies to reduce emissions of mercury. The Division shall annually report its interim findings and recommendations to the Environmental Management Commission and the Environmental Review Commission beginning 1 September 2003. The Division shall report its final findings and recommendations to the Environmental Management Commission and the Environmental Review Commission no later than 1 September 2005. The costs of implementing any air quality standards and plans to reduce the emission of

mercury from coal-fired generating units below the standards in effect on the date this act becomes effective, except to the extent that the emission of mercury is reduced as a result of the reductions in the emissions of oxides of nitrogen (NOx) and sulfur dioxide (SO2) required to achieve the emissions limitations set out in G.S. 143-215.107D, as enacted by Section 1 of this act, shall not be recoverable pursuant to G.S. 62-133.6, as enacted by Section 9 of this act.

"The Division of Air Quality of the Department of Environment and Natural Resources shall study issues related to the development and implementation of standards and plans to implement programs to control emissions of carbon dioxide (CO2) from coal-fired generating units and other stationary sources of air pollution. The Division shall evaluate available control technologies and shall estimate the benefits and costs of alternative strategies to reduce emissions of carbon dioxide (CO2). The Division shall annually report its interim findings and recommendations to the Environmental Management Commission and the Environmental Review Commission beginning 1 September 2003. The Division shall report its final findings and recommendations to the Environmental Management Commission and the Environmental Review Commission no later than 1 September 2005. The costs of implementing any air quality standards and plans to reduce the emission of carbon dioxide (CO2) from coal-fired generating units below the standards in effect on the date this act becomes effective, except to the extent that the emission of carbon dioxide (CO2) is reduced as a result of the reductions in the emissions of oxides of nitrogen (NOx) and sulfur dioxide (SO2) required to achieve the emissions limitations set out in G.S. 143-215.107D, as enacted by Section 1 of this act, shall not be recoverable pursuant to G.S. 62-133.6, as enacted by Section 9 of this act.

"On or before 1 June of each year, the Department of Environment and Natural Resources and the Utilities Commission shall report on the implementation of this act to the Environmental Review Commission and the Joint Legislative Utility Review Committee. The first report required by this section shall be submitted no later than 1 June 2003."

Session Laws 2002-4, s. 15, contains a severability clause.

Session Laws 2003-340, s. 8 contains a severability clause.

Effect of Amendments. — Session Laws 2003-340, s. 1.7, effective July 27, 2003, in the section heading and the first sentence, substituted "oxides of nitrogen" for "nitrogen oxides" and in the last sentence, deleted "beginning 1 October 2000" following "October of each year."

§ 143-215.107C. State agency goals, plans, duties, and reports.

(a) As used in this section, alternative-fueled vehicle means a motor vehicle capable of operating on electricity; natural gas; propane; hydrogen; reformulated gasoline; ethanol; other alcohol fuels, separately or in mixtures of eighty-five percent (85%) or more of alcohol by volume; or fuels, other than alcohol, derived from biological materials. For purposes of this section, a vehicle that has been converted to operate on a fuel other than the fuel for which it was originally designed is not a new or replacement vehicle.

(b) It shall be the goal of the State that on and after 1 January 2004 at least seventy-five percent (75%) of the new or replacement light duty cars and trucks purchased by the State will be alternative-fueled vehicles or low emission vehicles. The Department of Administration, the Department of Transportation, and the Department of Environment and Natural Resources shall jointly develop a plan to achieve this goal and to fuel and maintain these vehicles. The Department of Administration shall report on progress in developing and implementing this plan and achieving this goal to the Environmental Review Commission on 1 September of each year beginning 1 September 2000. For purposes of this section, a light duty car or truck is one that is rated at 8,500 pounds or less Gross Vehicle Weight Rating (GVWR).

(c) The Department of Environment and Natural Resources shall report on progress in increasing the use of alternative-fueled and low emission light duty cars and trucks in privately owned fleets to the Environmental Review Commission on or before 1 October of each year beginning 1 October 2001.

(d) The Department of Administration, the Office of State Personnel, the Department of Transportation, and the Department of Environment and

Natural Resources shall jointly develop and periodically update a plan to reduce vehicle miles traveled by State employees and vehicle emissions resulting from job-related travel, including commuting to and from work. The plan shall consider the use of carpooling, vanpooling, public transportation, incentives, and other appropriate strategies. The Office of State Personnel shall report on the development and implementation of the plan to the Joint Legislative Transportation Oversight Committee and the Environmental Review Commission on or before 1 October of each year beginning 1 October 2000.

(e) The Department of Transportation, the Department of Commerce, and the Department of Environment and Natural Resources shall jointly develop and periodically update a plan to reduce vehicle miles traveled by private sector employees and vehicle emissions resulting from job-related travel, including commuting to and from work. The plan shall consider the use of incentives for both private sector employees and employers, carpooling, vanpooling, public transportation, and other appropriate strategies. The Department of Transportation shall report on the development and implementation of the plan to the Joint Legislative Transportation Oversight Committee and the Environmental Review Commission on or before 1 October of each year beginning 1 October 2000.

(f) The Office of State Personnel shall implement a policy that promotes telework/telecommuting for State employees as recommended by the report of the State Auditor entitled "Establishing a Formal Telework/Telecommuting Program for State Employees" and dated October 1997. It shall be the goal of the State to reduce State employee vehicle miles traveled in commuting by twenty percent (20%) without reducing total work hours or productivity. The Office of State Personnel shall report on progress in implementing this section to the Environmental Review Commission on or before 1 October of each year beginning 1 October 2000. (1999-328, ss. 4.1, 4.2, 4.5, 4.6, 4.7, 4.8.)

Editor's Note. — Session Laws 1999-328, ss. 4.1, 4.2, 4.5, 4.6, 4.7, and 4.8, were codified as this section at the direction of the Revisor of Statutes.

Sessions Laws 1999-328, s. 5.4, makes this section effective July 21, 1999.

Session Laws 1999-328, s. 4.3, directs the Department of Public Instruction, the Department of Transportation, and the Department of Environment and Natural Resources to jointly develop a draft plan for the purchase of school buses under which, beginning 1 January 2004, at least fifty percent (50%) of the new and replacement public school buses purchased for use in counties with a population of at least 100,000, will be alternative-fueled or low emission vehicles. These departments are to invite interested parties to participate in the development of the draft plan, which plan will consider the infrastructure requirements that would be needed to fuel and maintain these buses and the costs and benefits of implementation of the plan, including the impact on ambient air quality. The Department of Public Instruction is to submit the draft plan to the Environmental Review Commission on or before 1 September 2000.

Session Laws 1999-328, s. 4.4, directs the Department of Transportation and the Department of Environment and Natural Resources to jointly develop a draft plan for the purchase of buses under which, beginning 1 January 2004, at least fifty percent (50%) of the new and replacement buses purchased to provide public transportation in counties in which motor vehicle emissions inspections are required to be performed under subsection (c) or (d) of G.S. 143-215.107A will be alternative-fueled or low emission vehicles. These departments are to invite interested parties to participate in the development of the draft plan, which plan will consider the infrastructure requirements that would be needed to fuel and maintain these buses and the costs and benefits of implementation of the plan, including the impact on ambient air quality. The Department of Transportation shall submit the draft plan to the Environmental Review Commission on or before 1 September 2000.

Session Laws 1999-328, s. 4.5, in part, directs the Department of Transportation, the Department of Commerce, and the Department of Environment and Natural Resources to jointly develop recommendations for incentives to increase the use of alternative-fueled and low emission light duty cars and trucks in privately owned fleets. The Department of Environment and Natural Resources is to submit these recommendations to the Environmental Review Commission on or before 1 February 2000.

Session Laws 1999-328, s. 5.1, provides that this act shall not be construed to obligate the General Assembly to appropriate any funds to implement the provisions of this act. Every State agency to which this act applies shall implement the provisions of this act from funds otherwise appropriated or available to that agency.

Session Laws 1999-328, s. 5.3, contains a severability clause.

§ 143-215.107D. Emissions of oxides of nitrogen (NOx) and sulfur dioxide (SO2) from certain coal-fired generating units.

(a) As used in this section:

(1) "Coal-fired generating unit" means a coal-fired generating unit, as defined by 40 Code of Federal Regulations § 96.2 (1 July 2001 Edition), that is located in this State and has the capacity to generate 25 or more megawatts of electricity.

(2) "Investor-owned public utility" means an investor-owned public utility, as defined in G.S. 62-3.

(b) An investor-owned public utility that owns or operates coal-fired generating units that collectively emitted more than 75,000 tons of oxides of nitrogen (NOx) in calendar year 2000:

(1) Shall not collectively emit from the coal-fired generating units that it owns or operates more than 35,000 tons of oxides of nitrogen (NOx) in any calendar year beginning 1 January 2007.

(2) Shall not collectively emit from the coal-fired generating units that it owns or operates more than 31,000 tons of oxides of nitrogen (NOx) in any calendar year beginning 1 January 2009.

(c) An investor-owned public utility that owns or operates coal-fired generating units that collectively emitted 75,000 tons or less of oxides of nitrogen (NOx) in calendar year 2000 shall not collectively emit from the coal-fired generating units that it owns or operates more than 25,000 tons of oxides of nitrogen (NOx) in any calendar year beginning 1 January 2007.

(d) An investor-owned public utility that owns or operates coal-fired generating units that collectively emitted more than 225,000 tons of sulfur dioxide (SO2) in calendar year 2000:

(1) Shall not collectively emit from the coal-fired generating units that it owns or operates more than 150,000 tons of sulfur dioxide (SO2) in any calendar year beginning 1 January 2009.

(2) Shall not collectively emit from the coal-fired generating units that it owns or operates more than 80,000 tons of sulfur dioxide (SO2) in any calendar year beginning 1 January 2013.

(e) An investor-owned public utility that owns or operates coal-fired generating units that collectively emitted 225,000 tons or less of sulfur dioxide (SO2) in calendar year 2000:

(1) Shall not collectively emit from the coal-fired generating units that it owns or operates more than 100,000 tons of sulfur dioxide (SO2) in any calendar year beginning 1 January 2009.

(2) Shall not collectively emit from the coal-fired generating units that it owns or operates more than 50,000 tons of sulfur dioxide (SO2) in any calendar year beginning 1 January 2013.

(f) Each investor-owned public utility to which this section applies may determine how it will achieve the collective emissions limitations imposed by this section. Compliance with the emissions limitations set out in this section does not alter the obligation of any person to comply with any other federal or State law, regulation, or rule related to air quality or visibility. This subsection shall not be construed to limit the authority of the Commission to impose specific limitations on the emission of oxides of nitrogen (NOx) and sulfur

dioxide (SO2) from an individual coal-fired generating unit owned or operated by an investor-owned public utility.

(g) A coal-fired generating unit that is subject to the collective emissions limitations set out in this section on 1 July 2002 shall remain subject to the collective emissions limitations whether or not it thereafter continues to be owned or operated by an investor-owned public utility.

(h) The Commission shall require that any permit or modified permit issued for a coal-fired generating unit that is subject to this section include conditions that provide for testing, monitoring, record keeping, and reporting adequate to assure compliance with the requirements of this section.

(i) The Governor may enter into an agreement with an investor-owned public utility under which the investor-owned public utility voluntarily agrees to transfer to the State any emissions allowances acquired or that may be acquired by the investor-owned public utility pursuant to 42 U.S.C. §§ 7651-7651o, as implemented by 40 Code of Federal Regulations §§ 73.1 through 73.90 (1 July 2001 Edition); 42 U.S.C. 7410(a)(2)(D)(i)(I), as implemented by 40 Code of Federal Regulations § 51.121 (1 July 2001 Edition), related federal regulations, and the associated State Implementation Plan; 42 U.S.C. § 7426, as implemented by 40 Code of Federal Regulations § 52.34 (1 July 2001 Edition) and related federal regulations; or any similar program established under federal law that result from compliance with the emissions limitations set out in this section. An agreement entered into pursuant to this subsection shall be binding and shall be enforceable by specific performance. If the Governor enters into an agreement that provides for the transfer of emissions allowances to the State, the Governor shall file verified copies of the agreement with the Attorney General, the Secretary of State, the State Treasurer, the Secretary of Environment and Natural Resources, and the Utilities Commission. The State Treasurer shall hold all emissions allowances that are transferred to the State as provided in this subsection in trust for the people of this State and shall sell, trade, transfer, or otherwise dispose of the emissions allowances only as the General Assembly shall provide by law.

(j) An investor-owned public utility that is subject to the emissions limitations set out in this section shall submit to the Utilities Commission and to the Department on or before 1 April of each year a verified statement pursuant to subsection (i) of G.S. 62-133.6. (2002-4, s. 1.)

Cross References. — As to recovery of environmental compliance costs, see G.S. 62-133.6.

Editor's Note. — Session Laws 2002-4, s. 16, provides: "This act is effective when it becomes law except that G.S. 143-215.107D(i), as enacted by Section 1 of this act, is effective retroactively to 1 June 2002."

Session Laws 2002-4, ss. 10-14, provide: "It is the intent of the General Assembly that the State use all available resources and means, including negotiation, participation in interstate compacts and multistate and interagency agreements, petitions pursuant to 42 U.S.C. § 7426, and litigation to induce other states and entities, including the Tennessee Valley Authority, to achieve reductions in emissions of oxides of nitrogen (NOx) and sulfur dioxide (SO2) comparable to those required by G.S. 143-215.107D, as enacted by Section 1 of this act, on a comparable schedule. The State shall give particular attention to those states and other entities whose emissions negatively impact air quality in North Carolina or whose failure to achieve comparable reductions would place the economy of North Carolina at a competitive disadvantage.

"The Environmental Management Commission shall study the desirability of requiring and the feasibility of obtaining reductions in emissions of oxides of nitrogen (NOx) and sulfur dioxide (SO2) beyond those required by G.S. 143-215.107D, as enacted by Section 1 of this act. The Environmental Management Commission shall consider the availability of emissions reduction technologies, increased cost to consumers of electric power, reliability of electric power supply, actions to reduce emissions of oxides of nitrogen (NOx) and sulfur dioxide (SO2) taken by states and other entities whose emissions negatively impact air quality in North Carolina or whose failure to achieve comparable reductions would place the economy of North Carolina at a competitive disadvantage, and the effects that these reductions would have on public health, the environment,

and natural resources, including visibility. In its conduct of this study, the Environmental Management Commission may consult with the Utilities Commission and the Public Staff. The Environmental Management Commission shall report its findings and recommendations to the General Assembly and the Environmental Review Commission annually beginning 1 September 2005.

"The General Assembly anticipates that measures implemented to achieve the reductions in emissions of oxides of nitrogen (NOx) and sulfur dioxide (SO2) required by G.S. 143-215.107D, as enacted by Section 1 of this act, will also result in significant reductions in the emissions of mercury from coal-fired generating units. The Division of Air Quality of the Department of Environment and Natural Resources shall study issues related to monitoring emissions of mercury and the development and implementation of standards and plans to implement programs to control emissions of mercury from coal-fired generating units. The Division shall evaluate available control technologies and shall estimate the benefits and costs of alternative strategies to reduce emissions of mercury. The Division shall annually report its interim findings and recommendations to the Environmental Management Commission and the Environmental Review Commission beginning 1 September 2003. The Division shall report its final findings and recommendations to the Environmental Management Commission and the Environmental Review Commission no later than 1 September 2005. The costs of implementing any air quality standards and plans to reduce the emission of mercury from coal-fired generating units below the standards in effect on the date this act becomes effective, except to the extent that the emission of mercury is reduced as a result of the reductions in the emissions of oxides of nitrogen (NOx) and sulfur dioxide (SO2) required to achieve the emissions limitations set out in G.S. 143-215.107D, as enacted by Section 1 of this act, shall not be recoverable pursuant to G.S. 62-133.6, as enacted by Section 9 of this act.

"The Division of Air Quality of the Department of Environment and Natural Resources shall study issues related to the development and implementation of standards and plans to implement programs to control emissions of carbon dioxide (CO2) from coal-fired generating units and other stationary sources of air pollution. The Division shall evaluate available control technologies and shall estimate the benefits and costs of alternative strategies to reduce emissions of carbon dioxide (CO2). The Division shall annually report its interim findings and recommendations to the Environmental Management Commission and the Environmental Review Commission beginning 1 September 2003. The Division shall report its final findings and recommendations to the Environmental Management Commission and the Environmental Review Commission no later than 1 September 2005. The costs of implementing any air quality standards and plans to reduce the emission of carbon dioxide (CO2) from coal-fired generating units below the standards in effect on the date this act becomes effective, except to the extent that the emission of carbon dioxide (CO2) is reduced as a result of the reductions in the emissions of oxides of nitrogen (NOx) and sulfur dioxide (SO2) required to achieve the emissions limitations set out in G.S. 143-215.107D, as enacted by Section 1 of this act, shall not be recoverable pursuant to G.S. 62-133.6, as enacted by Section 9 of this act.

"On or before 1 June of each year, the Department of Environment and Natural Resources and the Utilities Commission shall report on the implementation of this act to the Environmental Review Commission and the Joint Legislative Utility Review Committee. The first report required by this section shall be submitted no later than 1 June 2003."

Session Laws 2002-4, s. 15, contains a severability clause.

§ 143-215.108. Control of sources of air pollution; permits required.

(a) Except as provided in subsections (a1) and (a2) of this section, no person shall do any of the following things or carry out any of the following activities that contravene or will be likely to contravene standards established pursuant to G.S. 143-215.107 or set out in G.S. 143-215.107D unless that person has obtained a permit for the activity from the Commission and has complied with any conditions of the permit:

(1) Establish or operate any air contaminant source, except as provided in G.S. 143-215.108A.

(2) Build, erect, use, or operate any equipment that may result in the emission of an air contaminant or that is likely to cause air pollution, except as provided in G.S. 143-215.108A.

(3) Alter or change the construction or method of operation of any equipment or process from which air contaminants are or may be emitted.

(4) Repealed by Session Laws 2003-428, s. 1, effective August 19, 2003.

(a1) The Commission may by rule establish procedures that meet the requirements of section 502(b)(10) of Title V (42 U.S.C. § 7661a(b)(10)) and 40 Code of Federal Regulations § 70.4(b) (12) (1 July 1993 Edition) to allow a permittee to make changes within a permitted facility without requiring a revision of the permit.

(a2) The Commission may adopt rules that provide for a minor modification of a permit. At a minimum, rules that provide for a minor modification of a permit shall meet the requirements of 40 Code of Federal Regulations § 70.7(e)(2) (1 July 1993 Edition). If the Commission adopts rules that provide for a minor modification of a permit, a permittee shall not make a change in the permitted facility while the application for the minor modification is under review unless the change is authorized under the rules adopted by the Commission.

(b) The Commission shall act upon all applications for permits so as to effectuate the purposes of this Article by reducing existing air pollution and preventing, so far as reasonably possible, any increased pollution of the air from any additional or enlarged sources.

(c) The Commission shall have the power:

(1) To grant and renew a permit with any conditions attached that the Commission believes necessary to achieve the purposes of this Article or the requirements of the Clean Air Act and implementing regulations adopted by the United States Environmental Protection Agency;

(2) To grant and renew any temporary permit for such period of time as the Commission shall specify even though the action allowed by such permit may result in pollution or increase pollution where conditions make such temporary permit essential;

(3) To terminate, modify, or revoke and reissue any permit upon not less than 60 days' written notice to any person affected;

(3a) To suspend any permit pursuant to the provisions of G.S. 150B-3(c);

(4) To require all applications for permits and renewals to be in writing and to prescribe the form of such applications;

(5) To request such information from an applicant and to conduct such inquiry or investigation as it may deem necessary and to require the submission of plans and specifications prior to acting on any application for a permit;

(5a) To require that an applicant satisfy the Department that the applicant, or any parent, subsidiary, or other affiliate of the applicant or parent:

a. Is financially qualified to carry out the activity for which a permit is required under subsection (a); and

b. Has substantially complied with the air quality and emission control standards applicable to any activity in which the applicant has previously engaged, and has been in substantial compliance with federal and state laws, regulations, and rules for the protection of the environment.

As used in this subdivision, the words "affiliate," "parent," and "subsidiary" have the same meaning as in 17 Code of Federal Regulations 240.12b-2 (1 April 1990 Edition);

(6) To adopt rules, as it deems necessary, establishing the form of applications and permits and procedures for the granting or denial of permits and renewals pursuant to this section; and all permits, renewals and denials shall be in writing;

(7) To prohibit any stationary source within the State from emitting any air pollutant in amounts that will prevent attainment or maintenance by any other state of any national ambient air quality standard or that will interfere with measures required to be included in the applicable implementation plan for any other state to prevent deterioration of air quality or protect visibility; and

(8) To designate certain classes of activities for which a general permit may be issued, after considering the environmental impact of an activity, the frequency of the activity, the need for individual permit oversight, and the need for public review and comment on individual permits.

(d)(1) The Commission may conduct any inquiry or investigation it considers necessary before acting on an application and may require an applicant to submit plans, specifications, and other information the Commission considers necessary to evaluate the application. A permit application may not be deemed complete unless it is accompanied by a copy of the request for determination as provided in subsection (f) of this section that bears a date of receipt entered by the clerk of the local government and until the 15-day period for issuance of a determination has elapsed.

(2) The Commission shall adopt rules specifying the times within which it must act upon applications for permits required by Title V and other permits required by this section. The times specified shall be extended for the period during which the Commission is prohibited from issuing a permit under subdivisions (3) and (4) of this subsection. The Commission shall inform a permit applicant as to whether or not the application is complete within the time specified in the rules for action on the application. If the Commission fails to act on an application for a permit required by Title V or this section within the time period specified, the failure to act on the application constitutes a final agency decision to deny the permit. A permit applicant, permittee, or other person aggrieved, as defined in G.S. 150B-2, may seek judicial review of a failure to act on the application as provided in G.S. 143-215.5 and Article 4 of Chapter 150B of the General Statutes. Notwithstanding the provisions of G.S. 150B-51, upon review of a failure to act on an application for a permit required by Title V or this section, a court may either: (i) affirm the denial of the permit or (ii) remand the application to the Commission for action upon the application within a specified time.

(3) If the Administrator of the United States Environmental Protection Agency validly objects to the issuance of a permit required by Title V within 45 days after the Administrator receives the proposed permit and the required portions of the permit application, the Commission shall not issue the permit until the Commission revises the proposed permit to meet all objections noted by the Administrator or otherwise satisfies all objections consistent with Title V and implementing regulations adopted by the United States Environmental Protection Agency.

(4) If the Administrator of the United States Environmental Protection Agency validly objects to the issuance of a permit required by Title V after the expiration of the 45-day review period specified in subdivision (3) of this subsection as a result of a petition filed pursuant to section 505(b)(2) of Title V (42 U.S.C. § 7661d(b)(2)) and prior to the issuance of the permit by the Commission, the Commission shall not issue the permit until the Commission revises the proposed permit to meet all objections noted by the Administrator or otherwise satisfies

all objections consistent with Title V and implementing regulations adopted by the United States Environmental Protection Agency.

(d1) No permit issued pursuant to this section shall be issued or renewed for a term exceeding five years.

(e) A permit applicant or permittee who is dissatisfied with a decision of the Commission may commence a contested case by filing a petition under G.S. 150B-23 within 30 days after the Commission notifies the applicant or permittee of its decision. If the permit applicant or permittee does not file a petition within the required time, the Commission's decision on the application is final and is not subject to review.

(f) An applicant for a permit under this section for a new facility or for the expansion of a facility permitted under this section shall request each local government having jurisdiction over any part of the land on which the facility and its appurtenances are to be located to issue a determination as to whether the local government has in effect a zoning or subdivision ordinance applicable to the facility and whether the proposed facility or expansion would be consistent with the ordinance. The request to the local government shall be accompanied by a copy of the draft permit application and shall be delivered to the clerk of the local government personally or by certified mail. The determination shall be verified or supported by affidavit signed by the official designated by the local government to make the determination and, if the local government states that the facility is inconsistent with a zoning or subdivision ordinance, shall include a copy of the ordinance and the specific reasons for the determination of inconsistency. A copy of any such determination shall be provided to the applicant when it is submitted to the Commission. The Commission shall not act upon an application for a permit under this section until it has received a determination from each local government requested to make a determination by the applicant. If a local government determines that the new facility or the expansion of an existing facility is inconsistent with a zoning or subdivision ordinance, and unless the local government makes a subsequent determination of consistency with all ordinances cited in the determination or the proposed facility is determined by a court of competent jurisdiction to be consistent with the cited ordinances, the Commission shall attach as a condition of the permit a requirement that the applicant, prior to construction or operation of the facility under the permit, comply with all lawfully adopted local ordinances, including those cited in the determination, that apply to the facility at the time of construction or operation of the facility. If a local government fails to submit a determination to the Commission as provided by this subsection within 15 days after receipt of the request, the Commission may proceed to consider the permit application without regard to local zoning and subdivision ordinances. This subsection shall not be construed to affect the validity of any lawfully adopted franchise, local zoning, subdivision, or land-use planning ordinance or to affect the responsibility of any person to comply with any lawfully adopted franchise, local zoning, subdivision, or land-use planning ordinance. This subsection shall not be construed to limit any opportunity a local government may have to comment on a permit application under any other law or rule. This subsection shall not apply to any facility with respect to which local ordinances are subject to review under either G.S. 104E-6.2 or G.S. 130A-293.

(g) Any person who is required to hold a permit under this section shall submit to the Department a written description of his current and projected plans to reduce the emission of air contaminants under such permit by source reduction or recycling. The written description shall accompany the payment of the annual permit fee. The written description shall also accompany any application for a new permit, or for modification of an existing permit, under this section. The written description required by this subsection shall not be

considered part of a permit application and shall not serve as the basis for the denial of a permit or permit modification.

(h) Expedited Review of Applications Certified by a Professional Engineer. — The Commission shall adopt rules governing the submittal of permit applications certified by a professional engineer, including draft permits, that can be sent to public notice and hearing upon receipt and subjected to technical review by personnel within the Department. These rules shall specify, at a minimum, any forms to be used; a checklist for applicants that lists all items of information required to prepare a complete permit application; the form of the certification required on the application by a professional engineer; and the information that must be included in the draft permit. The Department shall process an application that is certified by a professional engineer as provided in subdivisions (1) through (7) of this subsection.

(1) Initiation of Review. Upon receipt of an application certified by a professional engineer in accordance with this subsection and the rules adopted pursuant to this subsection, the Department shall determine whether the application is complete as provided in subdivision (2) of this subsection. Within 30 days after the date on which an application is determined to be complete, the Department shall:
   a. Publish any required notices, using the draft permit included with the application;
   b. Schedule any required public meetings or hearings on the application and permit; and
   c. Initiate any and all technical review of the application in a manner to ensure substantial completion of the technical review by the time of any public hearing on the application, or if there is no hearing, by the close of the notice period.

(2) Completeness Review. Within 10 working days of receipt of the permit application certified by a professional engineer under this subsection, the Department shall determine whether the application is complete for purposes of this subsection. The Department shall determine whether the permit application certified by a professional engineer is complete by comparing the information provided in the application with the checklist contained in the rules adopted by the Commission pursuant to this subsection.
   a. If the application is not complete, the Department shall promptly notify the applicant in writing of all deficiencies of the application, specifying the items that need to be included, modified, or supplemented in order to make the application complete, and the 10-day time period is suspended after this request for further information. If the applicant submits the requested information within the time specified, the 10-day time period shall begin again on the day the additional information was submitted. If the additional information is not submitted within the time periods specified, the Department shall return the application to the applicant, and the applicant may treat the return of the application as a denial of the application or may resubmit the application at a later time.
   b. If the Department fails to notify the applicant that an application is not complete within the time period set forth in this subsection, the application shall be deemed to be complete.

(3) Time for Permit Decision. For any application found to be complete under subdivision (2) of this subsection, the Department shall issue a permit decision within 30 days of the last day of any public hearing on the application, or if there is no hearing, within 30 days of the close of the notice period.

(4) Rights if Permit Decision Not Made in Timely Fashion. If the Department fails to issue a permit decision within the time periods specified in subdivision (3) of this subsection, the applicant may:
a. Take no action, thereby consenting to the continued review of the application; or
b. Treat the failure to issue a permit decision as a denial of the application and appeal the denial as provided in subdivision (2) of subsection (d) of this section.

(5) Power to Halt Review. At any time after the permit application certified by a professional engineer has been determined to be complete under subdivision (2) of this subsection, the Department may immediately terminate review of that application, including technical review and any hearings or meetings scheduled on the application, upon a determination of one of the following:
a. The permit application is not in substantial compliance with the applicable rules; or
b. The applicant failed to pay all permit application fees.

(6) Rights if Review Halted. If the Department terminates review of an application under subdivision (5) of this subsection, the applicant may take any of the following actions:
a. Revise and resubmit the application; or
b. Treat the action as a denial of the application and appeal the denial under Article 3 of Chapter 150B of the General Statutes.

(7) Option; No Additional Fee. The submittal of a permit application certified by a professional engineer to be considered under this subsection shall be an option and shall not be required of any applicant. The Department shall not impose any additional fees for the receipt or processing of a permit application certified by a professional engineer.

(i) Rules for Review of Applications Other Than Those Certified by a Professional Engineer. — The Commission shall adopt rules governing the times of review for all permit applications submitted pursuant to this section other than those certified by a professional engineer pursuant to subsection (h) of this section. Those rules shall specify maximum times for, among other things, the following actions in reviewing the permit applications covered by this subsection:

(1) Determining that the permit application is complete;
(2) Requesting additional information to determine completeness;
(3) Determining that additional information is needed to conduct a technical review of the application;
(4) Completing all technical review of the permit application;
(5) Holding and completing all public meetings and hearings required for the application;
(6) Completing the record from reviewing and acting on the application; and
(7) Taking final action on the permit, including granting or denying the application. (1973, c. 821, s. 6; c. 1262, s. 23; 1979, c. 545, ss. 2, 3; 1987, c. 461, s. 2; c. 827, ss. 154, 206; 1989, c. 168, s. 30; c. 492; 1989 (Reg. Sess., 1990), c. 1037, s. 2; 1991, c. 552, s. 5; c. 629, s. 1; c. 761, s. 27(a)-(c); 1993, c. 400, s. 8; 1995, c. 484, s. 2; 1995 (Reg. Sess., 1996), c. 728, s. 1; 2002-4, s. 2; 2003-340, s. 1.8(b); 2003-428, ss. 1, 2.)

Editor's Note. — Session Laws 1989, c. 168, which amended this section, in s. 47(c), as amended by Session Laws 1991 (Reg. Sess., 1992), c. 990, s. 6 provides: "(c) All information received pursuant to G.S. 130A-294(k), G.S. 143-215.1(g) and G.S. 143-215.108(c) [now 143-215.108(g)] shall be transmitted to the Solid Waste Management Division of the Department for review and analysis. The Solid Waste Management Division shall consider this infor-

mation in the development of the comprehensive hazardous waste management plan required by G.S. 130A-294(i) and shall prepare a report on the feasibility of incorporating waste reduction requirements into existing solid and hazardous waste permitting processes. The Solid Waste Management Division shall report to the Environmental Review Commission as to progress in implementing this section annually beginning 1 January 1993."

Session Laws 2002-4, s. 15, contains a severability clause.

Session Laws 2003-340, s. 1.8(a), rewrote subsection (a) of this section, contingent upon Senate Bill 945, 2003 Regular Session, not becoming law. That act [S.L. 2003-428] did become law and, consequently, the amendments by Session Laws 2003-340, s. 1.8(a), were never implemented.

Session Laws 2003-340, s. 8 contains a severability clause.

Effect of Amendments. — Session Laws 2002-4, s. 2, effective June 20, 2002, rewrote subsection (a); in subsection (b), substituted "purposes of this Article" for "purpose of this section"; and in subdivision (c)(1), substituted "any conditions attached that" for "such conditions attached as" and substituted "Article" for "section."

Session Laws 2003-428, s. 1, as amended by Session Laws 2003-340, s. 1.8(b), and s. 2, effective August 19, 2003, and applicable to the construction of any new facility and the alteration or expansion associated with the modification of a permit for an existing facility that commences on or after the date on which this act becomes law, rewrote subsection (a); and in subsection (f), inserted "or expansion" in the first sentence; inserted "If a local government determines that the new facility or the expansion of an existing facility is inconsistent with a zoning or subdivision ordinance, and" at the beginning of the sixth sentence; and inserted the eighth sentence.

Legal Periodicals. — For survey of 1979 administrative law, see 58 N.C.L. Rev. 1185 (1980).

For a survey of 1996 developments in constitutional law, see 75 N.C.L. Rev. 2252 (1997).

CASE NOTES

This section does not amend, repeal, or make exception to the North Carolina Administrative Procedure Act (NCAPA) so as to deprive petitioner of his right to an administrative hearing thereunder, thus petitioner was entitled to commence an administrative hearing to determine his right under the air pollution control act. Empire Power Co. v. North Carolina Dep't of Env't, Health & Natural Resources, 337 N.C. 569, 447 S.E.2d 768, rehearing denied, 338 N.C. 314, 451 S.E.2d 634 (1994).

Contravention, or likelihood of contravention, is a condition precedent to necessity for a permit from the Environmental Management Commission. Lewis v. White, 287 N.C. 625, 216 S.E.2d 134 (1975).

Timeliness of Challenge to Commission Decision. — Where power company did not file a petition challenging the decision of the Department of Environment, Health and Natural Resources (now the Department of Environment and Natural Resources) within 30 days after DEHNR notified it of the permitting decision, the permitting decision was final. Empire Power Co. v. North Carolina Dep't of Env't, Health & Natural Resources, 112 N.C. App. 566, 436 S.E.2d 594 (1993), rev'd on other grounds, 337 N.C. 569, 447 S.E.2d 768, reh'g denied, 338 N.C. 314, 451 S.E.2d 634 (1994).

Cited in Tri-County Paving, Inc. v. Ashe County, 281 F.3d 430, 2002 U.S. App. LEXIS 2747 (4th Cir. 2002).

OPINIONS OF ATTORNEY GENERAL

The signing of a proposed Memorandum of Understanding with federal land managers of National Parks and Wilderness Areas in and around North Carolina would not constitute rulemaking under the N.C. Administrative Procedures Act and, therefore, did not require rulemaking by the Environmental Management Commission. See Opinion of Attorney General to Mr. William R. Gilkeson, Staff Attorney, N.C. General Assembly, 1998 N.C.A.G. 54 (12/4/98).

When Air Quality Permit Must Be Obtained. — Subdivision (a)(2) requires that a person secure an air quality permit prior to the actual on-site assembling of materials that will constitute an air contaminant source. See opinion of Attorney General to Alan W. Klimek, Director, North Carolina Division of Air Quality, 2001 N.C. AG LEXIS 7 (2/8/2001).

§ 143-215.108A. Control of sources of air pollution; construction of new facilities; alteration or expansion of existing facilities.

(a) New Facilities. — A person may not, without obtaining a permit under G.S. 143-215.108, construct or operate an air contaminant source, equipment, or associated air cleaning device at a site or facility where, at the time of the construction, there is no other air contaminant source, equipment, or associated air cleaning device for which a permit is required under G.S. 143-215.108. A person may, however, undertake the following activities prior to obtaining a permit if the person complies with the requirements of this section:

(1) Clearing and grading.
(2) Construction of access roads, driveways, and parking lots.
(3) Construction and installation of underground pipe work, including water, sewer, electric, and telecommunications utilities.
(4) Construction of ancillary structures, including fences and office buildings, that are not a necessary component of an air contaminant source, equipment, or associated air cleaning device for which a permit is required under G.S. 143- 215.108.

(b) Permitted Facilities. — A person who holds a permit under G.S. 143-215.108 may apply to the Commission for a modification of the permit to allow the person to alter or expand the physical arrangement or operation of an air contaminant source, equipment, or associated air cleaning device in a manner that alters the emission of air contaminants. The permittee may not operate the altered, expanded, or additional air contaminant source, equipment, or associated air cleaning device in a manner that alters the emission of any air contaminant without obtaining a permit modification under G.S. 143-215.108. A permittee may, however, alter or expand the physical arrangement or operation of an air contaminant source, equipment, or associated air cleaning device at a facility permitted under G.S. 143-215.108 if the permittee complies with the requirements of this section. At least 15 days prior to commencing alteration or expansion under this subsection, the permittee shall give notice by publication and shall submit to the Commission a notice of the permittee's intent to alter or expand the physical arrangement or operation of an air contaminant source, equipment, or associated air cleaning device. Notice by publication shall be in a newspaper having general circulation in the county or counties where the facility is to be located; shall be at the permittee's own expense; shall include a statement that written comment may be submitted to the Commission, that the Commission will consider any comment that it receives, and the Commission's address for submission of written comment; and shall include all the information required by subdivisions (1) through (6) of this subsection. The permittee shall submit a proof of publication of the notice to the Commission within 15 days of the date of publication. The notice of intent to the Commission shall include all of the following:

(1) The name and location of the facility and the name and address of the permittee.
(2) The permit number of each permit issued under G.S. 143-215.108 for the facility.
(3) The nature of the air contaminant sources and equipment associated with the proposed modification of the permit.
(4) An estimate of total regulated air contaminant emissions associated with the proposed modification of the permit.
(5) The air cleaning devices that are to be employed to address each of the air contaminant sources associated with the modification of the permit.
(6) The schedule for alteration or expansion of the facility associated with the proposed modification of the permit.

(7) An acknowledgment by the permittee that the air contaminant sources, equipment, and associated air cleaning devices may not be operated in a manner that alters the emission of any air contaminant until the permittee has obtained a modified permit under G.S. 143-215.108.

(8) An acknowledgment by the permittee that any alteration or expansion of the physical arrangement or operation of an air contaminant source, equipment, or associated air cleaning device prior to the modification of a permit under G.S. 143-215.108 is undertaken at the permittee's own risk and with the knowledge that the permittee may be denied a modification of the permit under G.S. 143-215.108 without regard to the permittee's financial investment or alteration or expansion of the facility.

(9) A certification under oath that all of the information contained in the notice of intent is complete and accurate to the best of the permittee's knowledge and ability, executed by the permittee or, if the permittee is a corporation, by the appropriate officers of the corporation.

(c) Review and Determination by the Commission. —

(1) Upon receipt of a complete notice of intent required under subsection (b) of this section, the Commission shall determine whether:

a. The permittee is and has been in substantial compliance with other permits issued the permittee.

b. The facility will be altered or expanded so that it will be used for either the same or a similar use as the use already permitted.

c. The alteration or expansion will not result in a disproportionate increase in the size of the facility already permitted.

d. The alteration or expansion will result in the same or substantially similar emissions as that of the facility already permitted.

e. The alteration or expansion will not have a significant effect on air quality.

f. The Commission is likely to issue the permit modification.

(2) Within 15 days after the Commission receives a complete notice of intent required under subsection (b) of this section, the Commission shall notify the permittee of its determination as to whether each of the conditions set out in subdivision (1) of this subsection has or has not been met. If the Commission finds that all of the conditions have been met, the notice shall state that the alteration or expansion of the physical arrangement or operation of an air contaminant source, equipment, or associated air cleaning device may begin. If the Commission finds that one or more of the conditions has not been met, the notice shall state that the alteration or expansion of the physical arrangement or operation of an air contaminant source, equipment, or associated air cleaning device may not begin.

(d) Order to Cease Construction, Alteration, or Expansion. — If at any time during the construction, alteration, or expansion of the physical arrangement or operation of an air contaminant source, equipment, or associated air cleaning device, the Commission determines that the permittee will not qualify for a permit or permit modification under G.S. 143-215.108, the Commission may order that the construction, alteration, or expansion cease until the Commission makes a decision on the application for a permit or permit modification. If the Commission orders that construction, alteration, or expansion cease, then construction, alteration, or expansion may resume only if the Commission either makes a subsequent determination that the circumstances that resulted in the order to cease construction, alteration, or expansion have been adequately addressed or if the Commission issues a permit or permit modification under G.S. 143-215.108 that authorizes construction, alteration, or expansion to resume.

(e) Evaluation of Permit Applications; Administrative and Judicial Review of Permit Decisions. — The Commission shall evaluate an application for a permit or permit modification under G.S. 143-215.108 and make its decision on the same basis as if the construction, alteration, or expansion allowed under this section had not occurred. The Commission shall consider any written comment that it receives in response to a notice by publication given pursuant to subsection (b) of this section. No evidence regarding any contract entered into, financial investment made, construction, alteration, or expansion undertaken, or economic loss incurred by any person or permittee who proceeds under this section without first obtaining a permit under G.S. 143-215.108 is admissible in any contested case or judicial proceeding involving any permit required under G.S. 143-215.108. No evidence as to any determination or order by the Commission pursuant to subsection (c) or (d) of this section shall be admissible in any contested case or judicial proceeding related to any permit required under G.S. 143-215.108.

(f) State, Commission, and Employees Not Liable. — Every person, permittee, and owner of a facility who proceeds under this section shall hold the State, the Commission, and the officials, agents, and employees of the State and the Commission harmless and not liable for any loss resulting from any contract entered into, financial investment made, construction, alteration, or expansion undertaken, or economic loss incurred by any person, permittee, or owner of any facility pursuant to this section.

(g) Local Zoning Ordinances Not Affected. — This section shall not be construed to affect the validity of any lawfully adopted franchise, local zoning, subdivision, or land-use planning ordinance or to affect the responsibility of any person to comply with any lawfully adopted franchise, local zoning, subdivision, or land-use planning ordinance.

(h) Compliance With Other State Laws Not Affected. — This section does not relieve any person of the obligation to comply with any other requirement of State law, including any requirement to obtain any other permit or approval prior to undertaking any activity associated with preparation of the site or the alteration or expansion of the physical arrangement or operation of an air contaminant source, equipment, or associated air cleaning device at a facility for which a permit is required under G.S. 143-215.108.

(i) Federal Air Quality Programs Not Affected. — This section does not relieve any person from any preconstruction or construction prohibition imposed by any federal requirement, federal delegation, federally approved requirement in any State Implementation Plan, or federally approved requirement under the Title V permitting program, as determined solely by the Commission or by a local air pollution control program certified by the Commission as provided in G.S. 143-215.112. This section does not apply to any construction, alteration, or expansion that is subject to requirements for prevention of significant deterioration or federal nonattainment new source review, as determined solely by the Commission or by a local air pollution control program certified by the Commission as provided in G.S. 143-215.112. This section does not apply if it is inconsistent with any federal requirement, federal delegation, federally approved requirement in any State Implementation Plan, or federally approved requirement under the Title V permitting program, as determined solely by the Commission or by a local air pollution control program certified by the Commission as provided in G.S. 143-215.112.

(j) Fee. — A permittee who submits a notice of intent under subsection (b) of this section shall pay a fee of two hundred dollars ($200.00) for each notice of intent submitted to cover a portion of the administrative costs of implementing this section. (2003-428, s. 3.)

Editor's Note. — Session Laws 2003-428, s. 4, made this section effective August 19, 2003, and applicable to the construction of any new facility and the alteration or expansion associated with the modification of a permit for an existing facility that commences on or after the date on which this act becomes law.

§ 143-215.109. Control of complex sources.

(a) The Commission shall by rule establish criteria for controlling the effects of complex sources on air quality. The rules shall set forth such basic minimum criteria or standards under which the Commission shall approve or disapprove any such construction or modification. The rules shall further provide for the submission of plans, specifications and such other information as may be necessary for the review and evaluation of proposed or modified complex sources.

(b) If the Commission shall determine that the construction or modification of any complex sources will result in a violation of ambient air quality standards or interfere with the attainment of such standards in any area where an air pollution abatement control program has been established, the Commission shall have authority to disapprove such construction or modification or to approve such construction or modification under such conditions as the Commission shall deem necessary or appropriate.

(c) Repealed by Session Laws 1987, c. 827, s. 207. (1973, c. 821, s. 6; c. 1262, s. 23; 1987, c. 827, ss. 154, 207.)

Editor's Note. — Session Laws 1999-328, s. 4.9, provides: "The Environmental Management Commission shall initiate rule making to regulate the emissions of nitrogen oxides (NOx) from complex sources pursuant to G.S. 143-215.109 no later than 1 October 1999. The Environmental Management Commission shall report on the progress of this rule making as a part of each quarterly report the Commission makes to the Environmental Review Commission pursuant to G.S. 143B-282(b)."

§ 143-215.110. Special orders.

(a) Issuance. — The Commission is hereby empowered, after the effective date of standards and classifications adopted pursuant to G.S. 143-215.107, to issue (and from time to time to modify or revoke) a special order or other appropriate instrument, to any person whom it finds responsible for causing or contributing to any pollution of the air within the area for which standards have been established. Such an order or instrument may direct such person to take or refrain from taking such action, or to achieve such results, within a period of time specified by such special order, as the Commission deems necessary and feasible in order to alleviate or eliminate such pollution. The Commission is authorized to enter into consent special orders, assurances of voluntary compliance or other similar documents by agreement with the person responsible for pollution of the air, subject to the provisions of subsection (a1) of this section regarding proposed orders, and such consent order, when entered into by the Commission after public review, shall have the same force and effect as a special order of the Commission issued pursuant to hearing.

(a1) Public Notice and Review of Consent Orders.

(1) The Commission shall give notice of a proposed consent order to the proper State, interstate, and federal agencies, to interested persons, and to the public. The Commission may also provide any other data it considers appropriate to those notified. The Commission shall prescribe the form and content of the notice. The notice shall be given at least 45 days prior to any final action regarding the consent order. Public notice shall be given by publication of the notice one time in a

newspaper having general circulation within the county in which the pollution originates.

(2) Any person who desires a public meeting on any proposed consent order may request one in writing to the Commission within 30 days following date of the notice of the proposed consent order. The Commission shall consider all such requests for meetings. If the Commission determines that there is significant public interest in holding a meeting, the Commission shall schedule a meeting and shall give notice of such meeting at least 30 days in advance to all persons to whom notice of the proposed consent order was given and to any other person requesting notice. At least 30 days prior to the date of meeting, the Commission shall also have a copy of the notice of the meeting published at least one time in a newspaper having general circulation within the county in which the pollution originates. The Commission shall prescribe the form and content of notices under this subsection.

(3) The Commission shall prescribe the procedures to be followed in such meetings. If the meeting is not conducted by the Commission, detailed minutes of the meeting shall be kept and shall be submitted, along with any other written comment, exhibits or other documents presented at the meeting, to the Commission for its consideration prior to final action granting or denying the consent order.

(4) The Commission shall take final action on a proposed consent not later than 60 days following notice of the proposed consent order or, if a public meeting is held, within 90 days following such meeting.

(b) Procedure to Contest Certain Orders. — A special order that is issued without the consent of the person affected may be contested by that person by filing a petition for a contested case under G.S. 150B-23 within 30 days after the order is issued. If the person affected does not file a petition within the required time, the order is final and is not subject to review.

(c) Repealed by Session Laws 1987, c. 827, s. 208.

(d) Effect of Compliance. — Any person who installs an air-cleaning device for purpose of alleviating or eliminating air pollution in compliance with the terms of, or as result of the conditions specified in, a permit issued pursuant to G.S. 143-215.108, or a special order, consent special order, assurance of voluntary compliance or similar document issued pursuant to this section, or a final decision of the Commission or a court, rendered pursuant to either of said sections, shall not be required to take or refrain from any further action nor be required to achieve any further results under the terms of this or any other State law relating to the control of air pollution, for a period to be fixed by the Commission or court as it shall deem fair and reasonable in the light of all the circumstances after the date such special order, consent special order, assurance of voluntary compliance, other document or decision, or the conditions of such permit become finally effective, if:

(1) The air-cleaning devices result in the elimination or alleviation of air pollution to the extent required by such permit, special order, consent special order, assurance of voluntary compliance, or other document or decision and complies with any other terms thereof; and

(2) Such person complies with the terms and conditions of such permit, special order, consent special order, assurance of voluntary compliance, other document or decision within the time limit, if any, specified therein or as the same may be extended, and thereafter remains in compliance.

(e) Compliance Bonds. — A special order or other instrument authorized by this section may provide that a bond or other surety be posted to ensure compliance. In determining the amount of such bond the Commission shall

consider the degree and extent of harm which may result if the person to whom the special order is directed fails to comply with the terms of the order, the cost of rectifying such harm, the economic consequences to the person to whom the special order is directed if the special order is issued as compared to the consequences of a denial, suspension, or revocation of the special order or permit, and the person's history of compliance with pollution control requirements, other special orders, history of payment of any penalties which may have been previously assessed by the Commission. In the event of noncompliance with the special order or other instrument, the bond shall be forfeited and the clear proceeds of the bond shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2. (1973, c. 821, s. 6; c. 1262, s. 23; 1987, c. 827, ss. 154, 208; 1989, c. 133; c. 766, s. 2; 1998-215, s. 72.)

§ 143-215.111. General powers of Commission; auxiliary powers.

In addition to the specific powers prescribed elsewhere in this Article and the applicable general powers prescribed in G.S. 143-215.3, and for the purpose of carrying out its duties, the Commission shall have the power:

(1) To make a continuing study of the effects of the emission of air contaminants from motor vehicles on the quality of the outdoor atmosphere of the State and the several areas thereof, and make recommendations to the General Assembly and other appropriate public and private bodies for the control of such air contaminants.

(2) To consult, upon request, with any person proposing to construct, install, or otherwise acquire an air pollution source or air-cleaning device for the control of air contaminants concerning the efficacy of such device, or the air problem which may be related to such source, or device; provided, however, that nothing in any such consultation shall be construed to relieve any person from compliance with this Article and Article 21, rules adopted pursuant thereto, or any other provision of law.

(3) To encourage local units of government to handle air pollution problems within their respective jurisdictions and on a cooperative basis, and to provide such local units technical and consultative assistance to the maximum extent possible.

(4) To establish procedures providing for public notice, public comment, and public hearings on applications for permits required by Title V to meet the requirements of Title V and implementing regulations adopted by the United States Environmental Protection Agency.

(5) To establish procedures providing for notice to the Administrator of the United States Environmental Protection Agency and affected states of proposals to issue permits required by Title V and allowing affected states the opportunity to submit written comment as required by section 505(a) of Title V (42 U.S.C. § 7661d) and implementing regulations adopted by the United States Environmental Protection Agency. (1973, c. 821, s. 6; c. 1262, s. 23; 1987, c. 827, ss. 154, 209; 1993, c. 400, s. 9.)

CASE NOTES

Cited in Donoho v. City of Asheville, 153 N.C. App. 110, 569 S.E.2d 19, 2002 N.C. App. LEXIS 1087 (2002), cert. denied, 356 N.C. 669, 576 S.E.2d 107 (2002), cert. dismissed, 356 N.C. 669, 576 S.E.2d 110 (2003), cert. denied, 356 N.C. 669, 576 S.E.2d 110 (2003).

§ 143-215.112. Local air pollution control programs.

(a) The Commission is authorized and directed to review and have general oversight and supervision over all local air pollution control programs and to this end shall review and certify such programs as being adequate to meet the requirements of this Article and Article 21 of this Chapter and any applicable standards and rules adopted pursuant thereto. The Commission shall certify any local program which:

(1) Provides by ordinance or local law for requirements compatible with those imposed by the provisions of this Article and Article 21 of this Chapter, and the standards and rules issued pursuant thereto; provided, however, the Commission upon request of a municipality or other local unit may grant special permission for the governing body of such unit to adopt a particular class of air contaminant regulations which would result in more effective air pollution control than applicable standards or rules promulgated by the Commission;

(2) Provides for the adequate enforcement of such requirements by appropriate administrative and judicial process;

(3) Provides for an adequate administrative organization, staff, financial and other resources necessary to effectively and efficiently carry out its programs; and

(4) Is approved by the Commission as adequate to meet the requirements of this Article and any applicable rules pursuant thereto.

(b) No municipality, county, local board or commission or group of municipalities and counties may establish and administer an air pollution control program unless such program meets the requirements of this section and is so certified by the Commission.

(c)(1) The governing body of any county, municipality, or group of counties and municipalities within a designated area of the State, as defined in this Article and Article 21, subject to the approval of the Commission, is hereby authorized to establish, administer, and enforce a local air pollution control program for the county, municipality, or designated area of the State which includes but is not limited to:

a. Development of a comprehensive plan for the control and abatement of new and existing sources of air pollution;

b. Air quality monitoring to determine existing air quality and to define problem areas, as well as to provide background data to show the effectiveness of a pollution abatement program;

c. An emissions inventory to identify specific sources of air contamination and the contaminants emitted, together with the quantity of material discharged into the outdoor atmosphere;

d. Adoption, after notice and public hearing, of air quality and emission control standards, or adoption by reference, without public hearing, of any applicable rules and standards duly adopted by the Commission; and administration of such rules and standards in accordance with provisions of this section.

e. Provisions for the establishment or approval of time schedules for the control or abatement of existing sources of air pollution and for the review of plans and specifications and issuance of approval documents covering the construction and operation of pollution abatement facilities at existing or new sources;

f. Provision for adequate administrative staff, including an air pollution control officer and technical personnel, and provision for laboratory and other necessary facilities.

(2) Subject to the approval of the Commission as provided in this Article and Article 21, the governing body of any county or municipality may

establish, administer, and enforce an air pollution control program by any of the following methods:

a. Establishing a program under the administration of the duly elected governing body of the county or municipality.

b. Appointing an air pollution control board consisting of not less than five nor more than seven members who shall serve for terms of six years each and until their successors are appointed and qualified. Two members shall be appointed for two-year terms, two shall be appointed for four-year terms, and the remaining member or members shall be appointed for six-year terms. Where the term "governing body" is referred to in this section, it shall include the air pollution control board. Such board shall have all the powers and authorities granted to any local air pollution control program. The board shall elect a chairman and shall meet at least quarterly or upon the call of the chairman or any two members of the board.

c. Appointing an air pollution control board as provided in this subdivision, and by appropriate written agreement designating the local health department or other department of county or municipal government as the administrative agent for the air pollution control board.

d. Designating, by appropriate written agreement, the local board of health and the local health department as the air pollution control board and agency.

(2a) Any board or body which approves permits or enforcement orders shall have at least a majority of members who represent the public interest and do not derive any significant portion of their income from persons subject to permits or enforcement orders under the Clean Air Act and any potential conflicts of interest by members of such board or body or the head of an executive agency with similar powers shall be adequately disclosed.

(3) If the Commission finds that the location, character or extent of particular concentrations of population, air contaminant sources, the geographic, topographic or meteorological considerations, or any combinations thereof, are such as to make impracticable the maintenance of appropriate levels of air quality without an area-wide air pollution control program, the Commission may determine the boundaries within which such program is necessary and require such area-wide program as the only acceptable alternative to direct State administration. Subject to the provisions of this section, each governing body of a county or municipality is hereby authorized and empowered to establish by contract, joint resolution, or other agreement with any other governing body of a county or municipality, upon approval by the Commission, an air pollution control region containing any part or all of the geographical area within the jurisdiction of those boards or governing bodies which are parties to such agreement, provided the counties involved in the region are contiguous or lie in a continuous boundary and comprise the total area contained in any region designated by the Commission for an area-wide program. The participating parties are authorized to appoint a regional air pollution control board which shall consist of at least five members who shall serve for terms of six years and until their successors are appointed and qualified. Two members shall be appointed for two-year terms, two shall be appointed for four-year terms and the remaining member or members shall be appointed for six-year terms. A participant's representation on the board shall be in relation to its population to the total

population of the region based on the latest official United States census with each participant in the region having at least one representative; provided, that where the region is comprised of less than five counties, each participant will be entitled to appoint members in relation to its population to that of the region so as to provide a board of at least five members. Where the term "governing body" is used, it shall include the governing board of a region. The regional board is hereby authorized to exercise any and all of the powers provided in this section. The regional air pollution control board shall elect a chairman and shall meet at least quarterly or upon the call of the chairman or any two members of the board. In lieu of employing its own staff, the regional air pollution control board is authorized, through appropriate written agreement, to designate a local health department as its administrative agent.

(4) Each governing body is authorized to adopt any ordinances, resolutions, rules or regulations which are necessary to establish and maintain an air pollution control program and to prescribe and enforce air quality and emission control standards, a copy of which must be filed with the Commission and with the clerk of court of any county affected. Provisions may be made therein for the registration of air contaminant sources; for the requirement of a permit to do or carry out specified activities relating to the control of air pollution, including procedures for application, issuance, denial and revocation; for notification of violators or potential violators about requirements or conditions for compliance; for procedures to grant temporary permits or variances from requirements or standards; for the declaration of an emergency when it is found that a generalized condition of air pollution is causing imminent danger to the health or safety of the public and the issuance of an order to the responsible person or persons to reduce or discontinue immediately the emission of air contaminants; for notice and hearing procedures for persons aggrieved by any action or order of any authorized agent; for the establishment of an advisory council and for other administrative arrangements; and for other matters necessary to establish and maintain an air pollution control program.

(5) No permit required by section 305(e) of Title III (42 U.S.C. § 7429(e)) for a solid waste incineration unit combusting municipal waste shall be issued by a local air pollution control program that is administered by the governing body of a unit of local government that is responsible, in whole or in part, for the design, construction, or operation of the unit.

(d)(1) Violation of any ordinances, resolutions, rules or regulations duly adopted by a governing body are punishable as provided in G.S. 143-215.114B.

(1a) Each governing body, or its authorized agent, shall have the power to assess civil penalties under G.S. 143-215.114A. Any person assessed shall be notified of the assessment by registered or certified mail, and the notice shall specify the reasons for the assessment. If the person assessed fails to pay the amount of the assessment to the governing body or its authorized agent within 30 days after receipt of notice, or such longer period not to exceed 180 days as the governing body or its authorized agent may specify, the governing body may institute a civil action in the superior court of the county in which the violation occurred, to recover the amount of the assessment. If any action or failure to act for which a penalty may be assessed under this section is continuous, the governing body or its authorized agent may assess

a penalty not to exceed ten thousand dollars ($10,000) per day for so long as the violation continues. In determining the amount of the penalty, the governing body or its authorized agent shall consider the degree and extent of harm caused by the violation, the cost of rectifying the damage, and the amount of money the violator saved by not having made the necessary expenditures to comply with the appropriate pollution control requirements.

(2) Each governing body, or its duly authorized agent, may institute a civil action in the superior court, brought in the name of the agency having jurisdiction, for injunctive relief to restrain any violation or immediately threatened violation of such ordinances, orders, rules, or regulations and for such other relief as the court shall deem proper. Neither the institution of the action nor any of the proceedings thereon shall relieve any party to such proceedings from the penalty prescribed by this Article and Article 21 for any violation of same.

(d1)(1) The governing body responsible for each local air pollution control program shall require that the owner or operator of all air contaminant sources subject to the requirement to obtain a permit under Title V pay an annual fee, or the equivalent over some other period, sufficient to cover costs as provided in section 502(b)(3)(A) of Title V (42 U.S.C. § 7661a(b)(3)(A)) and G.S. 143-215.3(a)(1d). Fees collected pursuant to this subdivision shall be used solely to cover all reasonable direct and indirect costs required to develop and administer the Title V permit program.

(2) Each governing body is authorized to expend tax funds, nontax funds, or any other funds available to it to finance an air pollution control program and such expenditures are hereby declared to be for a public purpose and a necessary expense.

(d2)(1) Any final administrative decision rendered in an air pollution control program of such governing body shall be subject to judicial review as provided by Article 4 of Chapter 150B of the General Statutes, and "administrative agency" or "agency" as used therein shall mean and include for this purpose the governing body of any county or municipality, regional air pollution control governing board, and any agency created by them in connection with an air pollution control program.

(2) A local air pollution control program shall inform a permit applicant as to whether or not the application is complete within the time specified in the rules for action on the application. If a local air pollution program fails to act on an application for a permit required by Title V or this Article within the time periods specified by the Commission under G.S 143-215.108(d)(2), the failure to act on the application constitutes a final agency decision to deny the permit. A permit applicant, permittee, or other person aggrieved, as defined in G.S. 150B-2, may seek judicial review of a failure to act on the application as provided in G.S. 143-215.5 and Article 4 of Chapter 150B of the General Statutes. Notwithstanding the provisions of G.S. 150B-51, upon review of a failure to act on an application for a permit required by Title V or this Article, a court may either: (i) affirm the denial of the permit or (ii) remand the application to the local air pollution control program for action upon the application within a specified time.

(e)(1) If the Commission has reason to believe that a local air pollution control program certified and in force pursuant to the provisions of this section is inadequate to abate or control air pollution in the jurisdiction to which such program relates, or that such program is being administered in a manner inconsistent with the requirement of

this Article, the Commission shall, upon due notice, conduct a hearing on the matter.

(2) If, after such hearing, the Commission determines that an existing local air pollution control program or one which has been certified by the Commission is inadequate to abate or control air pollution in the municipality, county, or municipalities or counties to which such program relates, or that such program is not accomplishing the purposes of this Article, it shall set forth in its findings the corrective measures necessary for continued certification and shall specify a reasonable period of time, not to exceed one year, in which such measures must be taken if certification is not to be rescinded.

(3) If the municipality, county, local board or commission or municipalities or counties fail to take such necessary corrective action within the time specified, the Commission shall rescind any certification as may have been issued for such program and shall administer within such municipality, county, or municipalities or counties all of the regulatory provisions of this Article and Article 21. Such air pollution control program shall supersede all municipal, county or local laws, regulations, ordinances and requirements in the affected jurisdiction.

(4) If the Commission finds that the control of a particular class of air contaminant source because of its complexity or magnitude is beyond the reasonable capability of the local air pollution control authorities or may be more efficiently and economically performed at the State level, it may assume and retain jurisdiction over that class of air contaminant source. Classification pursuant to this subdivision may be either on the basis of the nature of the sources involved or on the basis of their relationship to the size of the communities in which they are located.

(5) Any municipality or county in which the Commission administers its air pollution control program pursuant to subdivision (3) of this subsection may, with the approval of the Commission, establish or resume a municipal, county, or local air pollution control program which meets the requirements for certification by the Commission.

(6) Repealed by Session Laws 1993, c. 400, s. 10.

(7) Any municipality, county, local board or commission or municipalities or counties or designated area of this State for which a local air pollution control program is established or proposed for establishment may make application for, receive, administer and expend federal grant funds for the control of air pollution or the development and administration of programs related to air pollution control; provided that any such application is first submitted to and approved by the Commission. The Commission shall approve any such application if it is consistent with this Article, Article 21 and other applicable requirements of law.

(8) Notwithstanding any other provision of this section, if the Commission determines that an air pollution source or combination of sources is operating in violation of the provisions of this Article and that the appropriate local authorities have not acted to abate such violation, the Commission, upon written notice to the appropriate local governing body, may act on behalf of the State to require any person causing or contributing to the pollution to cease immediately the emission of air pollutants causing or contributing to the violation or may require such other action as it shall deem necessary. (1973, c. 821, s. 6; c. 1262, s. 23; c. 1331, s. 3; 1979, c. 545, s. 7; 1987, c. 748, s. 1; c. 827, ss. 1, 154, 210; 1989, c. 135, s. 7; 1993, c. 400, s. 10; 1997-496, s. 6.)

CASE NOTES

Agency Decision Upheld. — The trial court did not err in affirming the $ 5,000 fine imposed on the petitioner whose employee failed to use required vapor recovery equipment on his tanker truck while unloading fuel because the fine was not the product of an "arbitrary and capricious" decision by the Agency. Pisgah Oil Co. v. Western N.C. Reg'l Air Pollution Control Agency, 139 N.C. App. 402, 533 S.E.2d 290, 2000 N.C. App. LEXIS 897 (2000), cert. denied, 353 N.C. 268, 546 S.E.2d 110 (2000).

Cited in Donoho v. City of Asheville, 153 N.C. App. 110, 569 S.E.2d 19, 2002 N.C. App. LEXIS 1087 (2002), cert. denied, 356 N.C. 669, 576 S.E.2d 107 (2002), cert. dismissed, 356 N.C. 669, 576 S.E.2d 110 (2003), cert. denied, 356 N.C. 669, 576 S.E.2d 110 (2003).

§ 143-215.113: Repealed by Session Laws 1987, c. 827, s. 211.

§ 143-215.114: Recodified as §§ 143-215.114A through 143-215.114C.

§ 143-215.114A. Enforcement procedures: civil penalties.

(a) A civil penalty of not more than ten thousand dollars ($10,000) may be assessed by the Secretary against any person who:

(1) Violates any classification, standard or limitation established pursuant to G.S. 143-215.107.

(2) Is required but fails to apply for or to secure a permit required by G.S. 143-215.108 or who violates or fails to act in accordance with the terms, conditions, or requirements of such permit.

(3) Violates or fails to act in accordance with the terms, conditions, or requirements of any special order or other appropriate document issued pursuant to G.S. 143-215.110.

(4) Fails to file, submit, or make available, as the case may be, any documents, data or reports required by this Article or Parts 1 or 7 of Article 21 of this Chapter.

(5) Violates a rule of the Commission or a local governing body implementing this Article or Parts 1 or 7 of Article 21.

(6) Violates the offenses set out in G.S. 143-215.114B.

(7) Violates the emissions limitations set out in G.S. 143-215.107D.

(b) If any action or failure to act for which a penalty may be assessed under this section is continuous, the Secretary may assess a penalty not to exceed ten thousand dollars ($10,000) per day for so long as the violation continues.

(b1) The Secretary may assess a civil penalty of not more than ten thousand dollars ($10,000) per day for a violation of the emissions limitations set out in G.S. 143-215.107D as provided in this subsection. If at the end of any calendar year, an investor-owned public utility has violated an emissions limitation set out in G.S. 143-215.107D, the violation shall be considered to be continuous from the day that the collective emissions first exceeded the emissions limitation set out in G.S. 143-215.107D through the end of the calendar year and the Secretary may assess a separate civil penalty for each day.

(c) In determining the amount of the penalty the Secretary shall consider the factors set out in G.S. 143B-282.1(b). The procedures set out in G.S. 143B-282.1 shall apply to civil penalty assessments that are presented to the Commission for final agency decision.

(d) The Secretary shall notify any person assessed a civil penalty of the assessment and the specific reasons therefor by registered or certified mail, or

by any means authorized by G.S. 1A-1, Rule 4. Contested case petitions shall be filed within 30 days of receipt of the notice of assessment.

(e) Requests for remission of civil penalties shall be filed with the Secretary. Remission requests shall not be considered unless made within 30 days of receipt of the notice of assessment. Remission requests must be accompanied by a waiver of the right to a contested case hearing pursuant to Chapter 150B and a stipulation of the facts on which the assessment was based. Consistent with the limitations in G.S. 143B-282.1(c) and (d), remission requests may be resolved by the Secretary and the violator. If the Secretary and the violator are unable to resolve the request, the Secretary shall deliver remission requests and his recommended action to the Committee on Civil Penalty Remissions of the Environmental Management Commission appointed pursuant to G.S. 143B-282.1(c).

(f) If any civil penalty has not been paid within 30 days after notice of assessment has been served on the violator, the Secretary shall request the Attorney General to institute a civil action in the Superior Court of any county in which the violator resides or has his or its principal place of business to recover the amount of the assessment, unless the violator contests the assessment as provided in subdivision (4) of this subsection, or requests remission of the assessment in whole or in part as provided in subdivision (5) of this subsection. If any civil penalty has not been paid within 30 days after the final agency decision or court order has been served on the violator, the Secretary shall request the Attorney General to institute a civil action in the Superior Court of any county in which the violator resides or has his or its principal place of business to recover the amount of the assessment. Such civil actions must be filed within three years of the date the final agency decision or court order was served on the violator.

(g) Repealed by Session Laws 1996, Second Extra Session c. 18, s. 27.34(f).

(h) The clear proceeds of penalties provided for in this section shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2. (1973, c. 821, s. 6; c. 1262, s. 23; c. 1331, s. 3; 1975, c. 19, s. 53; c. 842, ss. 6, 7; 1977, c. 771, s. 4; 1979, c. 545, ss. 4-6; 1987, c. 748, s. 2; c. 827, ss. 154, 212; 1989, c. 135, s. 8; 1989 (Reg. Sess., 1990), c. 1036, s. 8; c. 1045, s. 4; 1991, c. 552, s. 4; c. 725, s. 7; 1991 (Reg. Sess., 1992), c. 890, s. 18; 1996, 2nd Ex. Sess., c. 18, s. 27.34(f); 1997-496, s. 7; 1998-215, s. 73; 2002-4, ss. 4, 5; 2002-165, s. 1.12.)

Editor's Note. — The designations of subsections (e) to (g) were assigned by the Revisor of Statutes, the designations in Session Laws 1989 (Reg. Sess., 1990), c. 1036, s. 8 having been subdivisions (5) to (7).

Session Laws 2002-4, s. 15, contains a severability clause.

Effect of Amendments. — Session Laws 2002-4, ss. 4, 5, as amended by Session Laws 2002-165, s. 1.12, effective June 20, 2002, added subdivision (a)(7); added subsection (b1); and made a stylistic change.

§ 143-215.114B. Enforcement procedures: criminal penalties.

(a) For purposes of this section, the term "person" shall mean, in addition to the definition contained in G.S. 143-212, any responsible corporate or public officer or employee; provided, however, that where a vote of the people is required to effectuate the intent and purpose of this Article by a county, city, town, or other political subdivision of the State, and the vote on the referendum is against the means or machinery for carrying said intent and purpose into effect, then, and only then, this section shall not apply to elected officials or to any responsible appointed officials or employees of such county, city, town, or political subdivision.

(b) No proceeding shall be brought or continued under this section for or on account of a violation by any person who has previously been convicted of a federal violation based upon the same set of facts.

(c) In proving the defendant's possession of actual knowledge, circumstantial evidence may be used, including evidence that the defendant took affirmative steps to shield himself from relevant information. Consistent with the principles of common law, the subjective mental state of defendants may be inferred from their conduct.

(d) For the purposes of the felony provisions of this section, a person's state of mind shall not be found "knowingly and willfully" or "knowingly" if the conduct that is the subject of the prosecution is the result of any of the following occurrences or circumstances:

(1) A natural disaster or other act of God which could not have been prevented or avoided by the exercise of due care or foresight.

(2) An act of third parties other than agents, employees, contractors, or subcontractors of the defendant.

(3) An act done in reliance on the written advice or emergency on-site direction of an employee of the Department. In emergencies, oral advice may be relied upon if written confirmation is delivered to the employee as soon as practicable after receiving and relying on the advice.

(4) An act causing no significant harm to the environment or risk to the public health, safety, or welfare and done in compliance with other conflicting environmental requirements or other constraints imposed in writing by environmental agencies or officials after written notice is delivered to all relevant agencies that the conflict exists and will cause a violation of the identified standard.

(5) Violations of permit limitations causing no significant harm to the environment or risk to the public health, safety, or welfare for which no enforcement action or civil penalty could have been imposed under any written civil enforcement guidelines in use by the Department at the time, including but not limited to, guidelines for the pretreatment permit civil penalties. This subdivision shall not be construed to require the Department to develop or use written civil enforcement guidelines.

(6) Occasional, inadvertent, short-term violations of permit limitations causing no significant harm to the environment or risk to the public health, safety, or welfare. If the violation occurs within 30 days of a prior violation or lasts for more than 24 hours, it is not an occasional, short-term violation.

(e) All general defenses, affirmative defenses, and bars to prosecution that may apply with respect to other criminal offenses under State criminal offenses may apply to prosecutions brought under this section or other criminal statutes that refer to this section and shall be determined by the

courts of this State according to the principles of common law as they may be applied in the light of reason and experience. Concepts of justification and excuse applicable under this section may be developed in the light of reason and experience.

(f) Any person who negligently violates any classification, standard or limitation established pursuant to G.S. 143-215.107 or by G.S. 143-215.107D any term, condition, or requirement of a permit issued pursuant to G.S. 143-215.108 or of a special order or other appropriate document issued pursuant to G.S. 143-215.110 or any rule of the Commission implementing any of the said section, shall be guilty of a Class 2 misdemeanor which may include a fine not to exceed fifteen thousand dollars ($15,000) per day of violation, provided that such fine shall not exceed a cumulative total of two hundred thousand dollars ($200,000) for each period of 30 days during which a violation continues.

(g) Any person who knowingly and willfully violates any classification, standard, or limitation established in the rules of the Commission pursuant to G.S. 143-215.107; the emissions limitations set out in G.S. 143-215.107D; any term, condition, or requirement of a permit issued pursuant to G.S. 143-215.108; or of a special order or other appropriate document issued pursuant to G.S. 143-215.110, shall be guilty of a Class H felony, which may include a fine not to exceed one hundred thousand dollars ($100,000) per day of violation, provided that this fine shall not exceed a cumulative total of five hundred thousand dollars ($500,000) for each period of 30 days during which a violation continues. For the purposes of this subsection, the phrase "knowingly and willfully" shall mean intentionally and consciously as the courts of this State, according to the principles of common law, interpret the phrase in the light of reason and experience.

(h)(1) Any person who knowingly violates any classification, standard, or limitation established in the rules of the Commission pursuant to G.S. 143-215.107; the emissions limitations set out in G.S. 143-215.107D; any term, condition, or requirement of a permit issued pursuant to G.S. 143-215.108; or of a special order or other appropriate document issued pursuant to G.S. 143-215.110 and who knows at that time that he thereby places another person in imminent danger of death or serious bodily injury shall be guilty of a Class C felony, which may include a fine not to exceed two hundred fifty thousand dollars ($250,000) per day of violation, provided that this fine shall not exceed a cumulative total of one million dollars ($1,000,000) for each period of 30 days during which a violation continues.

(2) For the purposes of this subsection, a person's state of mind is knowing with respect to:

a. His conduct, if he is aware of the nature of his conduct;

b. An existing circumstance, if he is aware or believes that the circumstance exists; or

c. A result of his conduct, if he is aware or believes that his conduct is substantially certain to cause danger of death or serious bodily injury.

(3) Under this subsection, in determining whether a defendant who is a natural person knew that his conduct placed another person in imminent danger of death or serious bodily injury:

a. The person is responsible only for actual awareness or actual belief that he possessed; and

b. Knowledge possessed by a person other than the defendant but not by the defendant himself may not be attributed to the defendant.

(4) It is an affirmative defense to a prosecution under this subsection that the conduct charged was conduct consented to by the person endan-

gered and that the danger and conduct charged were reasonably foreseeable hazards of an occupation, a business, or a profession; or of medical treatment or medical or scientific experimentation conducted by professionally approved methods and such other person had been made aware of the risks involved prior to giving consent. The defendant may establish an affirmative defense under this subdivision by a preponderance of the evidence.

(i) Any person who knowingly makes any false statement, representation, or certification in any application, record, report, plan, or other document filed or required to be maintained under this Article or Article 21, or a rule implementing this Article or Article 21; or who knowingly makes a false statement of a material fact in a rulemaking or contested case under this Article or Article 21; or who falsifies, tampers with, or knowingly renders inaccurate any recording or monitoring device or method required to be operated or maintained under this Article or Article 21 or rules of the Commission implementing this Article or Article 21, shall be guilty of a Class 2 misdemeanor which may include a fine not to exceed ten thousand dollars ($10,000).

(j) Repealed by Session Laws 1993, c. 539, s. 1320. (1973, c. 821, s. 6; c. 1262, s. 23; c. 1331, s. 3; 1975, c. 19, s. 53; c. 842, ss. 6, 7; 1977, c. 771, s. 4; 1979, c. 545, ss. 4-6; 1987, c. 748, s. 2; c. 827, ss. 154, 212; 1989, c. 135, s. 8; 1989 (Reg. Sess., 1990), c. 1004, s. 49; c. 1045, s. 5; 1993, c. 539, ss. 1026, 1027, 1318, 1319, 1320; 1994, Ex. Sess., c. 24, s. 14(c); 2002-4, ss. 6-8.)

Editor's Note. — Session Laws 2002-4, s. 15, contains a severability clause.

Effect of Amendments. — Session Laws 2002-4, ss. 6-8, effective June 20, 2002, in subsection (f), added "or by G.S. 143-215.107D" following "G.S. 143-215.107"; in subsection (g), substituted "G.S. 143-215.107; the emissions limitations set out in G.S. 143-215.107D" for "G.S. 143-215.107 or"; in subdivision (h)(1), substituted "G.S. 143-215.107; the emissions limitations set out in G.S. 143-215.107D" for "G.S. 143-215.107 or"; and made minor stylistic changes.

Legal Periodicals. — For note, "The Forty-Two Hundred Dollar Question: 'May State Agencies Have Discretion in Setting Civil Penalties Under the North Carolina Constitution?'," see 68 N.C.L. Rev. 1035 (1990).

§ 143-215.114C. Enforcement procedures: injunctive relief.

Whenever the Department has reasonable cause to believe that any person has violated or is threatening to violate any of the provisions of this Article or Article 21 of this Chapter or a rule implementing this Article or Article 21 of this Chapter, the Department, either before or after the institution of any other action or proceeding authorized by this Article or Article 21 of this Chapter, may request the Attorney General to institute a civil action in the name of the State upon the relation of the Department for injunctive relief to restrain the violation or threatened violation and for such other and further relief in the premises as the court shall deem proper. The Attorney General may institute such action in the Superior Court of Wake County, or, in his discretion, in the superior court of the county in which the violation occurred or may occur. Upon a determination by the court that the alleged violation of the provisions of this Article or Article 21 of this Chapter or the regulation of the Commission has occurred or is threatened, the court shall grant the relief necessary to prevent or abate the violation or threatened violation. Neither the institution of the action nor any of the proceedings thereon shall relieve any party to such proceedings from any penalty prescribed for violation of this Article or Article 21 of this Chapter. (1973, c. 821, s. 6; c. 1262, s. 23; c. 1331, s. 3; 1975, c. 19, s. 53; c. 842, ss. 6, 7; 1977, c. 771, s. 4; 1979, c. 545, ss. 4-6; 1987, c. 748, s. 2; c. 827, ss. 154, 212; 1989, c. 135, s. 8; 1989 (Reg. Sess., 1990), c. 1045, s. 6.)

Article 24.

Wildlife Resources Commission.

§ 143-237. Title.

This Article shall be known and may be cited as the North Carolina Wildlife Resources Law. (1947, c. 263, s. 1.)

Cross References. — As to the Motorboat Committee of the Wildlife Resources Commission and enforcement of the motorboat law by the Commission, see G.S. 75A-3.

State Government Reorganization. — The Wildlife Resources Commission was transferred to the Department of Natural and Economic Resources (now the Department of Environment and Natural Resources) by former G.S. 143A-118, enacted by Session Laws 1971, c. 864, and repealed by Session Laws 1973, c. 1262, s. 86. For present provisions as to the Department of Environment and Natural Resources, see G.S. 143B-275 et seq.

CASE NOTES

Cited in State ex rel. N.C. Utils. Comm'n v. Story, 241 N.C. 103, 84 S.E.2d 386 (1954).

§ 143-238. Definitions.

As used in this Article unless the context clearly requires otherwise:

(1) The word "Commission" shall mean the North Carolina Wildlife Resources Commission.

(2) The word "Director" shall mean the Executive Director of the North Carolina Wildlife Resources Commission.

(3) The terms "wildlife resources" and "wildlife" shall be defined in accordance with the definitions in G.S. 113-129. (1947, c. 263, s. 2; 1965, c. 957, s. 12.)

§ 143-239. Statement of purpose.

The purpose of this Article is to create a separate State agency to be known as the North Carolina Wildlife Resources Commission, the function, purpose, and duty of which shall be to manage, restore, develop, cultivate, conserve, protect, and regulate the wildlife resources of the State of North Carolina, and to administer the laws relating to game, game and freshwater fishes, and other wildlife resources enacted by the General Assembly to the end that there may be provided a sound, constructive, comprehensive, continuing, and economical game, game fish, and wildlife program directed by qualified, competent, and representative citizens, who shall have knowledge of or training in the protection, restoration, proper use and management of wildlife resources. (1947, c. 263, s. 3; 1965, c. 957, s. 13.)

Cross References. — As to the Wildlife Endowment Fund, see G.S. 143-250.1.

§ 143-240. Creation of Wildlife Resources Commission; districts; qualifications of members.

(a) There is hereby created the Wildlife Resources Commission of the Department of Environment and Natural Resources which shall consist of 19 citizens of North Carolina who shall be appointed as is provided in G.S. 143-241.

Each member of the Commission shall be an experienced hunter, fisherman, farmer, or biologist, who shall be generally informed on wildlife conservation and restoration problems.

Members of the Commission shall receive per diem and necessary travel and subsistence expenses in accordance with the provisions of G.S. 138-5 or G.S. 138-6 as the case may be, which shall be paid from fees collected by the Wildlife Resources Commission.

(b) There are established the following geographical wildlife districts:

First district to be composed of the following counties: Bertie, Camden, Chowan, Currituck, Dare, Gates, Hertford, Hyde, Martin, Pasquotank, Perquimans, Tyrrell, Washington.

Second district to be composed of the following counties: Beaufort, Carteret, Craven, Duplin, Greene, Jones, Lenoir, New Hanover, Onslow, Pamlico, Pender, Pitt.

Third district to be composed of the following counties: Edgecombe, Franklin, Halifax, Johnston, Nash, Northampton, Vance, Wake, Warren, Wayne, Wilson.

Fourth district to be composed of the following counties: Bladen, Brunswick, Columbus, Cumberland, Harnett, Hoke, Robeson, Sampson, Scotland.

Fifth district to be composed of the following counties: Alamance, Caswell, Chatham, Durham, Granville, Guilford, Lee, Orange, Person, Randolph, Rockingham.

Sixth district to be composed of the following counties: Anson, Cabarrus, Davidson, Mecklenburg, Montgomery, Moore, Richmond, Rowan, Stanly, Union.

Seventh district to be composed of the following counties: Alexander, Alleghany, Ashe, Davie, Forsyth, Iredell, Stokes, Surry, Watauga, Wilkes, Yadkin.

Eighth district to be composed of the following counties: Avery, Burke, Caldwell, Catawba, Cleveland, Gaston, Lincoln, McDowell, Mitchell, Rutherford, Yancey.

Ninth district to be composed of the following counties: Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, Macon, Madison, Polk, Swain, Transylvania. (1947, c. 263, s. 4; 1961, c. 737, s. 11/2; 1965, c. 859, s. 2; 1971, c. 285; 1977, c. 771, s. 4; c. 906, s. 1; 1981 (Reg. Sess., 1982), c. 1191, s. 79; 1989, c. 68, s. 1; c. 727, s. 218(112); 1993 (Reg. Sess., 1994), c. 684, s. 13; 1997-443, s. 11A.119(a); 2001-486, s. 2.11(a).)

Editor's Note. — Session Laws 1989 c. 68, which amended this section, in s. 4 provided: "This act shall not be construed to obligate the General Assembly to make any appropriation to implement the provisions of this act."

CASE NOTES

Commission to Act by Resolution. — The Wildlife Resources Commission, in the discharge of its important duties in the public interest, can act only by resolution passed in a legal meeting of its members sitting as a commission, which resolution should be recorded in its minutes, and will thus become the best evidence of the Commission's actions. State ex rel. N.C. Utils. Comm'n v. Story, 241 N.C. 103, 84 S.E.2d 386 (1954).

Construction of Resolution Authorizing Director to Purchase Lands. — A resolution of the Wildlife Resources Commission authorizing its director to negotiate for the purchase of certain lands and setting up a certain sum in its budget therefor, even if it was construed to authorize the director to actually purchase the lands designated, was not authorization to him to institute proceedings to condemn any part of the lands. Such resolution could not support a finding that an application for a certificate of public convenience and necessity of the acquisition of the land was filed by the Wildlife Resources Commission so as to confer jurisdiction on the Utilities Commission to issue the certificate. State ex rel. N.C. Utils. Comm'n v. Story, 241 N.C. 103, 84 S.E.2d 386 (1954).

§ 143-241. Appointment and terms of office of Commission members; filling of vacancies.

The members of the North Carolina Wildlife Resources Commission shall be appointed as follows:

The Governor shall appoint one member each from the first, fourth, and seventh wildlife districts to serve six-year terms;

The Governor shall appoint one member each from the second, fifth, and eighth wildlife districts to serve two-year terms;

The Governor shall appoint one member each from the third, sixth, and ninth wildlife districts to serve four-year terms;

The Governor shall also appoint two at-large members to serve four-year terms.

The General Assembly shall appoint eight members of the Commission to serve two-year terms, four upon the recommendation of the Speaker of the

House, four upon the recommendation of the President Pro Tempore of the Senate, in accordance with G.S. 120-121. Of the members appointed upon the recommendation of the Speaker of the House and upon the recommendation of the President Pro Tempore of the Senate, at least one of each shall be a member of the political party to which the largest minority of the members of the General Assembly belongs.

Thereafter as the terms of office of the members of the Commission appointed by the Governor from the several wildlife districts expire, their successors shall be appointed for terms of six years each. As the terms of office of the members of the Commission appointed by the General Assembly expire, their successors shall be appointed for terms of two years each. All members appointed by the Governor serve at the pleasure of the Governor that appointed them and they may be removed by that Governor at any time. A successor to the appointing Governor may remove a Commission member only for cause as provided in G.S. 143B-13. Members appointed by the General Assembly serve at the pleasure of that body and may be removed by law at any time. In the event that a Commission member is removed, the member appointed to replace the removed member shall serve only for the unexpired term of the removed member. (1947, c. 263, s. 5; 1961, c. 737, s. 1; 1965, c. 859, s. 3; 1973, c. 825, s. 2; 1977, c. 906, s. 2; 1981 (Reg. Sess., 1982), c. 1191, s. 80; 1989, c. 68, s. 3; 1993 (Reg. Sess., 1994), c. 684, s. 14; 1995, c. 490, s. 64; 2001-486, s. 2.11(b).)

Editor's Note. — Session Laws 1989, c. 68, which amended this section, in s. 4 provided: "This act shall not be construed to obligate the General Assembly to make any appropriation to implement the provisions of this act."

§ 143-242. Vacancies by death, resignation or otherwise.

Appointments to fill vacancies of gubernatorial appointees on the Commission occurring by reason of death, disability, resignation or otherwise shall be made by the Governor for the balance of the unexpired terms by appointment of a member from the State at large, or from the appropriate district in accordance with the procedure set out in G.S. 143-241. Appointments to fill vacancies of those members of the Commission appointed by the General Assembly shall be made under G.S. 120-122. The Governor shall have the power to remove any member of the Commission from office for misfeasance, malfeasance or nonfeasance. (1947, c. 263, s. 6; 1973, c. 825, s. 3; 1977, c. 906, s. 3; 1981 (Reg. Sess., 1982), c. 1191, s. 81.)

§ 143-243. Organization of the Commission; election of officers; Robert's Rules of Order.

The Commission shall hold at least two meetings annually, one in January and one in July, and seven members of the Commission shall constitute a quorum for the transaction of business. Additional meetings may be held at such other times within the State as may be deemed necessary for the efficient transaction of the business of the Commission. The Commission may hold additional or special meetings at any time at the call of the chairman or on call of any five members of the Commission. The Commission shall determine its own organization and methods of procedure in accordance with the provisions of this Article, and shall have an official seal, which shall be judicially noticed.

At the first scheduled meeting of the Commission after July 1, 1977, and on July 1 of each odd-numbered year thereafter, the Commission shall select from among its membership a chairman and a vice-chairman who shall serve for terms of two years or until their successors are elected and qualified. The

Secretary of Environment and Natural Resources or his designee shall serve as secretary of the Commission.

The chairman shall guide and coordinate the official actions and official activities of the Commission in fulfilling its program responsibility for (i) the appointment and separation of the executive director of the Commission, (ii) organizing the personnel of the Commission, (iii) setting the statewide policy of the Commission, (iv) budgeting and planning the use of the Wildlife and Motorboat Funds, subject to the approval of the General Assembly, (v) holding public hearings, and (vi) adopting rules as authorized by law. The chairman shall report to and advise the Governor on the official actions and work of the Commission and on all wildlife conservation and boating safety matters that affect the interest of the people of the State.

Meetings of the Commission shall be conducted pursuant to Robert's Rules of Order. (1947, c. 263, s. 7; 1973, c. 825, s. 4; 1977, c. 771, s. 4; c. 906, s. 4; 1983, c. 717, ss. 71, 72; 1987, c. 827, s. 213; 1989, c. 727, s. 218(113); 1997-443, s. 11A.119(a); 1997-456, s. 27.)

Editor's Note. — Subdivisions (1) through (6) in the third paragraph were renumbered as subdivisions (i) through (vi) pursuant to S.L. 1997-456, s. 27 which authorized the Revisor of Statutes to renumber or reletter sections and parts of sections having a number or letter designation that is incompatible with the General Assembly's computer database.

§ 143-244. Location of offices.

The Board of Public Buildings and Grounds shall provide the Commission with offices in the city of Raleigh, North Carolina. (1947, c. 263, s. 8.)

§ 143-245: Repealed by Session Laws 1977, c. 906, s. 5.

§ 143-246. Executive Director; appointment, qualifications and duties.

The North Carolina Wildlife Resources Commission as soon as practicable after its organization shall select and appoint a competent person qualified as hereinafter set forth as Executive Director of the North Carolina Wildlife Resources Commission. The Executive Director shall be charged with the supervision of all activities under the jurisdiction of the Commission and shall serve as the chief administrative officer of the said Commission. Subject to the approval of the Commission and the Director of the Budget, he is hereby authorized to employ such clerical and other assistants as may be deemed necessary. The person selected as Executive Director shall have had training and experience in conservation, protection and management of wildlife resources. The salary of such Director shall be fixed by the Wildlife Resources Commission, in an amount at least equal to the salary of the Director of the Division of Marine Fisheries. The Director shall be allowed actual expenses incurred while on official duties away from resident headquarters. The salary and expenses of the Director shall be paid from the Wildlife Resources Fund subject to the provisions of the Executive Budget Act. The term of office of the Executive Director shall be at the pleasure of the Commission. Such bond shall be made as part of the blanket bond of State officers and employees provided for in G.S. 128-8. (1947, c. 263, s. 10; 1957, c. 541, s. 17; 1969, c. 844, s. 5; 1979, c. 830, s. 7; 1981, c. 884, s. 11; 1983, c. 717, s. 73; 1985, c. 479, s. 221; 1998-212, s. 28.19(a).)

§ 143-247. Transfer of powers, duties, jurisdiction, and responsibilities.

All duties, powers, jurisdiction, and responsibilities now vested by statute in and heretofore exercised by the Department of Conservation and Development, the Board of Conservation and Development, the Director of Conservation and Development, the Division of Game and Inland Fisheries, the Commissioner of Game and Inland Fisheries, or any predecessor organization, board, commission, commissioner or official relating to or pertaining to the wildlife resources of North Carolina, subject to the provisions of Subchapter IV of Chapter 113 of the General Statutes, are hereby transferred to and vested by law in the North Carolina Wildlife Resources Commission hereby created, subject to the provisions of this Article. The powers, duties, jurisdiction, and responsibilities hereby transferred shall be vested in the Commission immediately upon its organization under the provisions of this Article. Provided however, that no provision of this Article shall be construed as transferring to or conferring upon the North Carolina Wildlife Resources Commission, herein created, jurisdiction over the administration of any laws regulating the pollution of streams or public waters in North Carolina. (1947, c. 263, s. 11; 1965, c. 957, s. 14.)

§ 143-247.1. Commission may accept gifts.

The Wildlife Resources Commission is hereby authorized and empowered to accept gifts, donations or contributions from any source, which funds shall be held in a separate account and used solely for the purposes of wildlife conservation and management. Such funds shall be administered by the Wildlife Resources Commission and shall be used for wildlife conservation and management in a manner consistent with wildlife conservation management principles. (1971, c. 388.)

§ 143-247.2. Wildlife Conservation Account; emblems for those who donate to the Account.

(a) Account. — The Wildlife Conservation Account is established within the Wildlife Resources Fund and is subject to the oversight of the State Auditor pursuant to Article 5A of Chapter 147 of the General Statutes. Revenue is credited to the Account from donations of income tax refunds, from other donations, and from revenue derived from the sale of wildlife resources license plates. The Commission may use revenue in the Account only for the following purposes:

(1) To manage, preserve, or protect wildlife species that are endangered, threatened, or of special concern and are included on the State's protected animal lists.

(2) To manage, preserve, or protect nongame wildlife species that are not on the State's protected animal lists.

(3) To administer and enforce nongame wildlife programs under the jurisdiction of the Commission.

(b) Emblems. — The Commission may issue and sell appropriate emblems by which to identify recipients of the emblems as contributors to the Wildlife Conservation Account. Emblems of different size, shape, type, or design may be used to recognize contributions in different amounts. The Commission may not issue an emblem for a contribution of less than five dollars ($5.00). (1975, c. 77; 1993, c. 257, s. 14; c. 543, s. 7; 1995, c. 509, s. 81.)

§ 143-248. Transfer of lands, buildings, records, equipment, and other properties.

There is hereby transferred to the North Carolina Wildlife Resources Commission all lands, buildings, structures, records, reports, equipment, vehicles, supplies, materials, and other properties, and the possession and use thereof, which have heretofore been acquired or obtained and now remain in the possession of, or which are now and heretofore have been used or intended for use by the Department of Conservation and Development, the Director of Conservation and Development, the Division of Game and Inland Fisheries, and the Commission of Game and Inland Fisheries, and any predecessor organization or division or official of either, for the purpose of protecting, propagating, and developing game, fur-bearing animals, game fish, inland fisheries, and all other wildlife resources which heretofore have been used or held by them in connection with any program conducted for said purposes, whether said lands or properties were acquired, purchased, or obtained by deed, gift, grant, contract, or otherwise; the said lands and other properties hereby transferred, subject to the limitations hereinafter set forth to the said Wildlife Resources Commission shall be held and used by it subject to the provisions of this Article and other provisions of law in furtherance of the intents, purposes, and provisions of this Article and other provisions of law in such manner and for such purposes as may be determined by the Commission. In the event that there shall arise any conflict in the transfer of any properties or functions as herein provided, the Governor of the State is hereby authorized and empowered to issue such executive order, or orders, as may be necessary clarifying and making certain the issue, or issues, thus arising: Provided, further, nothing herein contained shall be construed to transfer any of the State parks or State forests to the North Carolina Wildlife Resources Commission: Provided, further, title to the property transferred by virtue of the provisions of this Article shall be held by the State of North Carolina for the use and benefit of the North Carolina Wildlife Resources Commission and the use, control and sale of any of such property shall be governed by the general law of the State affecting such matters. (1947, c. 263, s. 12; 1965, c. 957, s. 15.)

CASE NOTES

Cited in Taylor v. Johnston, 289 N.C. 690, 224 S.E.2d 567 (1976).

§ 143-249. Transfer of personnel.

Upon July 1, 1947, the Division of Game and Inland Fisheries of the North Carolina Department of Conservation and Development shall cease to exist and all employees of said Division shall continue as employees of the Commission at their option or until further action by the Commission. (1947, c. 263, s. 13.)

§ 143-250. Wildlife Resources Fund.

All moneys in the game and fish fund or any similar State fund when this Article becomes effective shall be credited forthwith to a special fund in the office of the State Treasurer, and the State Treasurer shall deposit all such moneys in said special fund, which shall be known as the Wildlife Resources Fund.

All unexpended appropriations made to the Department of Conservation and Development, the Board of Conservation and Development, the Division of Game and Inland Fisheries or to any other State agency for any purpose

pertaining to wildlife and wildlife resources shall also be transferred to the Wildlife Resources Fund.

Except as otherwise specifically provided by law, all moneys derived from hunting, fishing, trapping, and related license fees, exclusive of commercial fishing license fees, including the income received and accruing from the investment of license revenues, and all funds thereafter received from whatever sources shall be deposited to the credit of the Wildlife Resources Fund and made available to the Commission until expended subject to the provisions of this Article. License revenues include the proceeds from the sale of hunting, fishing, trapping, and related licenses, from the sale, lease, rental, or other granting of rights to real or personal property acquired or produced with license revenues, and from federal aid project reimbursements to the extent that license revenues originally funded the project for which the reimbursement is being made. For purposes of this section, real property includes lands, buildings, minerals, energy resources, timber, grazing rights, and animal products. Personal property includes equipment, vehicles, machines, tools, and annual crops. The Wildlife Resources Fund herein created shall be subject to the provisions of the Executive Budget Act, Chapter 143, Article 1 of the General Statutes of North Carolina as amended, and the provisions of the General Statutes of North Carolina as amended, and the provisions of the Personnel Act, Chapter 143, Article 2 of the General Statutes of North Carolina as amended.

All moneys credited to the Wildlife Resources Fund shall be made available to carry out the intent and purposes of this Article in accordance with plans approved by the North Carolina Wildlife Resources Commission, and all such funds are hereby appropriated, reserved, set aside and made available until expended, for the enforcement and administration of this Article, Chapter 75A, Article 1, and Chapter 113, Subchapter IV of the General Statutes of North Carolina. The Wildlife Resources Commission shall report to the Joint Legislative Commission on Governmental Operations before expending from the Wildlife Resources Fund more than the amount authorized in the budget enacted by the General Assembly for the fiscal period.

In the event any uncertainty should arise as to the funds to be turned over to the North Carolina Wildlife Resources Commission the Governor shall have full power and authority to determine the matter and his recommendation shall be final and binding to all parties concerned. (1947, c. 263, s. 14; 1965, c. 957, s. 16; 1981, c. 482, s. 2; 1982 (Reg. Sess., 1982), c. 1182, s. 1; 1987, c. 816; 1991, c. 689, s. 167(a).)

§ 143-250.1. Wildlife Endowment Fund.

(a) Recognizing the inestimable importance to the State and its people of conserving the wildlife resources of North Carolina, and for the purpose of providing the opportunity for citizens and residents of the State to invest in the future of its wildlife resources, there is created the North Carolina Wildlife Endowment Fund, the income and principal of which shall be used only for the purpose of supporting wildlife conservation programs of the State in accordance with this section. This fund shall also be known as the Eddie Bridges Fund.

(b) There is created the Board of Trustees of the Wildlife Endowment Fund of the Wildlife Resources Commission, with full authority over the administration of the Wildlife Endowment Fund, whose ex officio chairman, vice-chairman, and members shall be the chairman, vice-chairman, and members of the Wildlife Resources Commission. The State Treasurer shall be the custodian of the Wildlife Endowment Fund and shall invest its assets in accordance with the provisions of G.S. 147-69.2 and 147-69.3.

(c) The assets of the Wildlife Endowment Fund shall be derived from the following:

(1) The proceeds of any gifts, grants and contributions to the State which are specifically designated for inclusion in the fund;

(2) The proceeds from the sale of lifetime sportsman combination licenses issued pursuant to G.S. 113-270.1D;

(3) The proceeds from the sale of lifetime hunting and lifetime fishing licenses pursuant to G.S. 113-270.2(c)(2) and G.S. 113-271(d)(3);

(4) The proceeds of lifetime subscriptions to the magazine Wildlife in North Carolina at such rates as may be established from time to time by the Wildlife Resources Commission;

(5) Any amount in excess of the statutory fee for a particular lifetime license or lifetime subscription shall become an asset of the fund and shall qualify as a tax exempt donation to the State;

(5a) The proceeds from the sale of lifetime combination hunting and fishing licenses for disabled residents pursuant to G.S. 113-270.1C(b)(4);

(6) Such other sources as may be specified by law.

(d) The Wildlife Endowment Fund is declared to constitute a special trust derived from a contractual relationship between the State and the members of the public whose investments contribute to the fund. In recognition of such special trust, the following limitations and restrictions are placed on expenditures from the funds:

(1) Any limitations or restrictions specified by the donors on the uses of the income derived from gifts, grants and voluntary contributions shall be respected but shall not be binding.

(2) No expenditures or disbursements from the income from the proceeds derived from the sale of Infant Lifetime Sportsman or Youth Lifetime Sportsman Licenses pursuant to G.S. 113-270.1D(b)(1) or (2) shall be made for any purpose until the respective holders of such licenses attain the age of 16 years. The State Treasurer, as custodian of the fund, shall determine actuarially from time to time the amount of income within the fund which remains encumbered by and which is free of this restriction. For such purpose, the executive director shall cause deposits of proceeds from Infant Lifetime Sportsman Licenses to be distinguished and deposits of proceeds from Youth Lifetime Sportsman Licenses to be accompanied by information as to the ages of the license recipients.

(3) No expenditure or disbursement shall be made from the principal of the Wildlife Endowment Fund except as otherwise provided by law.

(4) The income received and accruing from the investments of the Wildlife Endowment Fund must be spent only in furthering the conservation of wildlife resources and the efficient operation of the North Carolina Wildlife Resources Commission in accomplishing the purposes of the agency as set forth in G.S. 143-239.

(e) The Board of Trustees of the Wildlife Endowment Fund may accumulate the investment income of the fund until the income, in the sole judgment of the trustees, can provide a significant supplement to the budget of the Wildlife Resources Commission. After that time the trustees, in their sole discretion and authority, may direct expenditures from the income of the fund for the purposes set out in division (4) of subsection (d).

(f) Expenditure of the income derived from the Wildlife Endowment Fund shall be made through the State budget accounts of the Wildlife Resources Commission in accordance with the provisions of the Executive Budget Act. The Wildlife Endowment Fund is subject to the oversight of the State Auditor pursuant to Article 5A of Chapter 147 of the General Statutes.

(g) The Wildlife Endowment Fund and the income therefrom shall not take the place of State appropriations or agency receipts placed in the Wildlife Resources Fund, or any part thereof, but any portion of the income of the Wildlife Endowment Fund available for the purpose set out in division (4) of subsection (d) shall be used to supplement other income of and appropriations to the Wildlife Resources Commission to the end that the Commission may improve and increase its services and become more useful to a greater number of people.

(h) In the event of a future dissolution of the Wildlife Resources Commission, such State agency as shall succeed to its budgetary authority shall, ex officio, assume the trusteeship of the Wildlife Endowment Fund and shall be bound by all the limitations and restrictions placed by this section on expenditures from the fund. No repeal or modification of this section or of G.S. 143-239 shall alter the fundamental purposes to which the Wildlife Endowment Fund may be applied. No future dissolution of the Wildlife Resources Commission or substitution of any agency in its stead shall invalidate any lifetime license issued in accordance with G.S. 113-270.1D(b), 113-270.2(c)(2), or 113-271(d)(3). (1981, c. 482, s. 1; 1993, c. 257, s. 15; 1993 (Reg. Sess., 1994), c. 684, ss. 10-12; 1997-326, s. 4.)

§ 143-251. Cooperative agreements.

In furtherance of the purposes of this Article the Commission is hereby authorized and empowered to enter into cooperative agreements pertaining to the management and development of the wildlife resources with federal, State, and other agencies, or governmental subdivisions. (1947, c. 263, s. 15.)

§ 143-252. Article subject to Chapter 113.

Nothing in this Article shall be construed to affect the jurisdictional division between the North Carolina Wildlife Resources Commission and the Department of Environment and Natural Resources contained in Subchapter IV of Chapter 113 of the General Statutes, or in any way to alter or abridge the powers and duties of the two agencies conferred in that Subchapter. (1947, c. 263, s. 16; 1965, c. 957, s. 17; 1973, c. 1262, s. 86; 1977, c. 771, s. 4; 1989, c. 727, s. 166; 1997-443, s. 11A.119(a).)

§ 143-253. Jurisdictional questions.

In the event of any questions arising between the Department of Environment and Natural Resources and the North Carolina Wildlife Resources Commission as to any duty or responsibility or authority imposed upon either of said bodies by law, or in case of any conflicting rules or administrative practices adopted by said bodies, such questions or matters shall be determined by the Governor and his determination shall be binding on each of said bodies. (1947, c. 263, s. 17; 1973, c. 1262, s. 86; 1977, c. 771, s. 4; 1989, c. 727, s. 167; 1997-443, s. 11A.119(a).)

§ 143-254: Repealed by Session Laws 1987, c. 827, s. 214.

§ 143-254.1: Repealed by Session Laws 1979, c. 830, s. 8.

Cross References. — For statute covering the subject matter of the repealed section, see G.S. 113-307.1(c).

§ 143-254.2. Enforcement of local laws.

(a) It shall be the duty and responsibility of the North Carolina Wildlife Resources Commission to enforce all local acts heretofore or hereinafter enacted respecting game animals, fur-bearing animals and birds, including local acts which prohibit or restrict hunting from, to or across public roads and highways and including local acts which prohibit or restrict the taking of specified animals or birds.

Provided, however, that the provisions of this section shall not apply on the lands of the Eastern Band of Cherokee Indians.

(b) The provisions of this section shall not be construed to require the hiring of additional personnel by the North Carolina Wildlife Resources Commission. (1977, c. 120, ss. 1-3.)

Article 25B.

State Nature and Historic Preserve Dedication Act.

§ 143-260.6. Short title.

This Article shall be known and may be cited as the State Nature and Historic Preserve Dedication Act. (1973, c. 443, s. 1.)

National Heritage Area Designation Commission. — Session Laws 2001-491, ss. 18.1 to 18.10, creates the National Heritage Area Designation Commission. The Commission is directed to seek designation as a National Heritage Area of the 23 county mountain region of North Carolina comprised of the counties designated to be served by the Western North Carolina Regional Economic Development Commission under G.S. 158-8.1:

Alleghany, Ashe, Avery, Burke, Buncombe, Caldwell, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, Macon, Madison, McDowell, Mitchell, Polk, Rutherford, Swain, Transylvania, Watauga, Wilkes, and Yancey. In ss. 18.1 and 18.2 the General Assembly makes the following findings:

"Section 18.1. The General Assembly finds that the following physical and cultural features in the mountain region of Western North Carolina are of national significance:

"(1) The Great Smoky Mountains National Park is the most visited national park in America.

"(2) The Blue Ridge Parkway is the nation's longest scenic highway.

"(3) The Joyce Kilmer Memorial Forest is the last remaining stand of virgin timber in the eastern United States.

"(4) The Linville Gorge wilderness area is the first wilderness in the eastern United States and the deepest gorge east of the Mississippi River.

"(5) Mount Mitchell is the highest mountain in the eastern United States.

"(6) The New River is the second oldest river in the world and was designated as an American Heritage River in 1998.

"(7) Fontana Dam is the highest dam in eastern America that was built by the Tennessee Valley Authority and is known as one of the country's greatest engineering feats in history.

"(8) Grandfather Mountain is the oldest mountain in the eastern United States, was designated as an International Biosphere Reserve by the United Nations, and is the only mountain that is privately owned.

"(9) The Cherokee Indian Qualla Boundary is the home of the Eastern Band of the Cherokee Indians, and the Trail of Tears is a National Heritage Trail.

"(10) Roan Mountain is the world's largest natural Catawba rhododendron garden.

"(11) The Appalachian Trail is the longest national hiking trail in the United States.

"(12) Whiteside Mountain has the highest cliffs of perpendicular bare rock east of the Rockies.

"(13) The Nantahala River is the most popular white-water rafting river in America.

"(14) The Biltmore Estate is America's largest private residence.

"(15) The Cradle of Forestry in America National Historic Site is the first forestry school in America.

"(16) The Cherohala Skyway is a National Scenic Byway.

"(17) The Carl Sandburg Home is a National Historic Site.

"Section 18.2. The General Assembly further finds that:

"(1) The National Park Service's definition of a National Heritage Area is a place designated by Congress where natural, cultural, historic, and scenic resources combine to form a cohesive, nationally distinctive landscape arising from patterns of human activity shaped by geography. These patterns make National Heritage Areas representative of the national experience through the physical features that remain and the traditions that have evolved in them. Continued use of the National Heritage Area by people whose traditions helped to shape the landscape enhances their significance.

"(2) Designation by the United States Congress of the North Carolina Appalachian Heritage Area, the 23-county mountain region of Western North Carolina, as a National Heritage Area would recognize the nationally distinctive landscape of this area and the role of this distinctive landscape in defining the collective American cultural landscape. The natural, cultural, historic, and recreation resources in this 23-county region combine to form a cohesive, nationally distinctive landscape arising from patterns of human activity shaped by geography. These patterns make the mountain region of Western North Carolina representative of the national experience through the physical features that remain and the traditions that have evolved in the area. Continued use of this area by people whose traditions helped to shape the landscape enhances its significance.

"(3) Since 1916, the National Park Service has been the federal agency responsible for preserving nationally significant natural and historic resources for present and future generations.

"(4) The National Park Service provides technical expertise to assist in all stages of the process for seeking designation as a National Heritage Area.

"(5) Congress has designated 18 National Heritage Areas.

"(6) Residents, business interests, nonprofit organizations, and governments within the proposed National Heritage Area are interested and committed to completing the suitability and feasibility study that must be completed prior to Congress's designating a National Heritage Area.

"(7) The National Heritage Area designation by the United States Congress for the 23-county mountain region of Western North Carolina would help to preserve and celebrate the uniqueness of this area and its defining landscape in North Carolina and offers the potential to ensure key educational and inspirational opportunities in perpetuity, without compromising traditional local control over, and use of, the landscape."

Editor's Note. — Session Laws 2001-491, s. 18.9, provides that notwithstanding G.S. 158-8.1, the Western North Carolina Regional Eco-

nomic Development Commission shall provide administrative and funding support to the National Heritage Area Designation Commission.

Session Laws 2001-491, s. 18.10, provides: "Notwithstanding G.S. 158-8.1, the Western North Carolina Regional Economic Development Commission shall develop a regional heritage tourism plan and shall present the plan to the 2002 Regular Session of the 2001 General Assembly no later than May 1, 2002."

§ 143-260.7. Purpose.

It is the purpose of this Article to prescribe the conditions and procedures under which properties may be specially dedicated for the purposes enumerated by Article XIV, Sec. 5 of the North Carolina Constitution ("Conservation of Natural Resources"), accepted by the General Assembly for said purposes, and thereby constituted part of the State Nature and Historic Preserve. (1973, c. 443, s. 2.)

§ 143-260.8. Procedures.

(a) Within the meaning of this section:

(1) "Local governing body" means, as the case may be, the board of commissioners of a county, the city council (or equivalent legislative body) of a city, or the board of aldermen or board of commissioners (or equivalent legislative body) of a town.

(2) "Local government" means a county, city or town.

(3) "Properties" include any properties or interest in properties acquired by purchase or gift.

(b) The Council of State may petition the General Assembly to enact a law pursuant to Article XIV, Sec. 5 of the North Carolina Constitution, accepting any properties owned by the State of North Carolina (or proposed for gift to or purchase by the State) and designated in the petition for inclusion in the State Nature and Historic Preserve.

(c) The governing body of any local government, or any combination of two or more such bodies may petition the General Assembly to enact a law pursuant to Article XIV, Sec. 5 of the North Carolina Constitution, accepting any properties owned by the local government (or proposed for gift to or purchase by the local government) and designated in the petition for inclusion in the State Nature and Historic Preserve.

(d) The petition referred to in subsections (a) and (b) of this section shall identify the properties sought to be included in the Preserve. The General Assembly may then enact a law to accept the designated properties in the Preserve and enactment of the law by the General Assembly shall constitute the special dedication and acceptance of the designated properties in the State Nature and Historic Preserve contemplated by Article XIV, Sec. 5 of the North Carolina Constitution.

(e) In order to provide accessible information to the public concerning the State Nature and Historic Preserve, every law accepting or removing properties in the Preserve shall be codified in the General Statutes. A certified copy of every law accepting or removing properties in the Preserve shall be transmitted by the Secretary of State to the register of deeds in each county wherein these properties, or any part of them, are located, for filing and indexing in the grantor index.

(f) This Article shall constitute an exclusive procedure only for placing properties in the State Nature and Historic Preserve, and shall not preclude the dedication of properties by other means for purposes identical or similar to those enumerated by Article XIV, Sec. 5 of the North Carolina Constitution.

(g) It is the intent of this Article to complement any applicable provisions of federal and State law and regulations relating to dedication or acceptance of properties for purposes similar to those enumerated by Article XIV, Sec. 5 of

the North Carolina Constitution. The Council of State is hereby authorized to adopt rules and regulations to implement the provisions of this Article, including rules and regulations consistent with this Article to comport with applicable federal and State law and regulations. A copy of this Article, and of any rules affecting properties owned by local governments shall be filed by the Council of State with the chairman of the local governing body of every county, city and town within 30 days after ratification. (1973, c. 443, s. 3; 1999-268, s. 6; 2003-234, s. 3.)

Tracts of Land Removed from State Nature and Historic Preserve. — Session Laws 2003-234, s. 2, provides: "The following tracts of land are removed from the State Nature and Historic Preserve pursuant to Section 5 of Article XIV of the Constitution of North Carolina:

"(1) The portion of that certain tract or parcel of land at Crowders Mountain State Park in Cleveland County, Number Four Township, described in Deed Book 1286, Page 85, and containing 1.64 acres as shown on the drawing prepared by the Division of Parks and Recreation entitled 'Property to be Excepted Crowders Mountain State Park' dated 14 April 2003 and filed in the State Property Office.

"(2) The portion of those certain tracts or parcels of land at South Mountains State Park in Burke County, Lower Creek Township, described in Deed Book 925, Page 1284, and Deed Book 870, Page 1729 required for the right-of-way and easements for the relocation of SR 1904 within the Park and shown on the drawing prepared by Suttles Surveying P.A. entitled "Survey of the Proposed Centerline of the New Road Alignment for the State of North Carolina" bearing the preparer's file name 12455D.dwg, dated 10 April 2003 and filed in the State Property Office.

"(3) The portion of that certain tract or parcel of land at South Mountains State Park in Burke County, Morganton Township, described in Deed Book 28, Page 607, Deed Book 28, Page 467, and Plat Book 3, Page 78, and containing 0.33 acres as shown on the drawing prepared by Hawkins Land Surveying entitled 'Subdivision for Trustees of Walker Top Baptist Church' dated 26 September 2001 and filed with the State Property Office.

"(4) The portion of that certain tract or parcel of land at Eno River State Park in Durham County, Durham Outside Township, described in Deed Book 435, Page 673, and Plat Book 87, Page 66, containing 11,000 square feet and being the portion of Lot No. 2 shown as the existing scenic easement hereby removed on the drawing prepared by Sear-Brown entitled 'Recombination Plat Eno Forest Subdivision' bearing the preparer's file name 00-208-07.dwg, and filed with State Property Office."

Session Laws 2003-234, s. 4, provides: "In accordance with G.S. 143-260.8(e), the Secretary of State is directed to forward a certified copy of this act to the register of deeds of each county in which any portion of the property dedicated and accepted or removed by this act as part of the State Nature and Historic Preserve is located."

Editor's Note. — Session Laws 1999-268, s. 6, amended this section, effective upon passage of the constitutional amendment set out in Session Laws 1999-268, s. 3. The constitutional amendment was approved by the voters at the general election on November 5, 2002, and the results were certified by the State Board of Elections on November 19, 2002.

The preamble to Session Laws 2003-234, provides: "Whereas, Section 5 of Article XIV of the Constitution of North Carolina authorizes the dedication of State and local government properties as part of the State Nature and Historic Preserve upon acceptance by a law enacted by a three-fifths vote of the members of each house of the General Assembly and provides for removal of properties from the State Nature and Historic Preserve by a law enacted by a three-fifths vote of the members of each house of the General Assembly; and

"Whereas, the General Assembly enacted the State Nature and Historic Preserve Dedication Act, Chapter 443 of the 1973 Session Laws, to prescribe the conditions and procedures under which properties may be specifically dedicated for the purposes set out in Section 5 of Article XIV of the Constitution of North Carolina; and

"Whereas, over 6,700 acres have been added to the State Parks System since the last dedication and acceptance of properties as part of the State Nature and Historic Preserve pursuant to a petition of the Council of State dated 3 April 2001, and

"Whereas, in accordance with G.S. 143-260.8, on 6 May 2003 the Council of State voted to petition the General Assembly to enact a law pursuant to Section 5 of Article XIV of the Constitution of North Carolina to dedicate and accept properties added to the State Parks System and designated in the petition for inclusion as parts of the State Nature and Historic Preserve; and

"Whereas, as a part of its petition of 6 May 2003 the Council of State also requested the General Assembly to remove certain properties from the State Nature and Historic Preserve; and

"Whereas, G.S. 113-44.14 provides for additions to, and deletions from, the State Parks System upon authorization by the General Assembly; Now, therefore,

"The General Assembly of North Carolina enacts:"

Effect of Amendments. — Session Laws 2003-234, s. 3, effective June 19, 2003, in the first and second sentences of subsection (e), inserted "or removing."

§ 143-260.9. Dedication shall not affect maintenance and improvement of existing structures or facilities.

The dedication of property to the State Nature and Historic Preserve shall not prevent the administering State agency or local governing body from carrying out normal maintenance and improvement of existing structures or facilities that are appropriate to, and consistent with, the purpose for which the property in question was obtained by the State agency or local governing body. (1973, c. 443, s. 4.)

OPINIONS OF ATTORNEY GENERAL

Flowage Easement Allowed Following Dedication. — Dedication of Umstead State Park to the State Nature and Historic Preserve as authorized by Article XIV, G.S. 5, Constitution of North Carolina, does not require a vote of three-fifths of the members of each House of the General Assembly before a flowage easement may be granted to Wake County for flood control purposes. See opinion of Attorney General to Mr. Charles L. Holliday, State Building Division, 55 N.C.A.G. 105 (1986).

§ 143-260.10. Components of State Nature and Historic Preserve.

The following are components of the State Nature and Historic Preserve accepted by the North Carolina General Assembly pursuant to G.S. 143-260.8:

(1) All lands and waters within the boundaries of the following units of the State Parks System as of 6 May 2003: Baldhead Island State Natural Area, Bay Tree Lake State Park, Beech Creek Bog State Natural Area, Bullhead Mountain State Natural Area, Bushy Lake State Natural Area, Carolina Beach State Park, Cliffs of the Neuse State Park, Chowan Swamp State Natural Area, Dismal Swamp State Natural Area, Elk Knob State Natural Area, Fort Fisher State Recreation Area, Fort Macon State Park, Goose Creek State Park, Gorges State Park, Hammocks Beach State Park, Hemlock Bluffs State Natural Area, Jones Lake State Park, Lake James State Park, Lake Norman State Park, Lake Waccamaw State Park, Lea Island State Natural Area, Lumber River State Park, Medoc Mountain State Park, Merchants Millpond State Park, Mitchells Millpond State Natural Area, Mount Mitchell State Park, Occoneechee Mountain State Natural Area, Pettigrew State Park, Pilot Mountain State Park, Raven Rock State Park, Run Hill State Natural Area, Singletary Lake State Park, Theodore Roosevelt State Natural Area, and Weymouth Woods-Sandhills Nature Preserve.

(2) All lands and waters within the boundaries of William B. Umstead State Park as of 6 May 2003 with the exception of Tract Number 65, containing 22.93140 acres as shown on a survey prepared by John S. Lawrence (RLS) and Bennie R. Smith (RLS), entitled "Property of The State of North Carolina William B. Umstead State Park", dated January 14, 1977 and filed in the State Property Office, which was removed from the State Nature and Historic Preserve by Chapter 450,

Section 1 of the 1985 Session Laws. The tract excluded from the State Nature and Historic Preserve under this subdivision is deleted from the State Parks System in accordance with G.S. 113-44.14. The State of North Carolina may only exchange this land for other land for the expansion of William B. Umstead State Park or sell and use the proceeds for that purpose. The State of North Carolina may not otherwise sell or exchange this land.

(3) Repealed by Session Laws 1999-268, s. 2.

(4) All lands within the boundaries of Morrow Mountain State Park as of 6 May 2003 with the exception of the following tract: That certain tract or parcel of land at Morrow Mountain State Park in Stanly County, North Albemarle Township, containing 0.303 acres, more or less, as surveyed and platted by Thomas W. Harris R.L.S., on a map dated August 27, 1988, and filed in the State Property Office, reference to which is hereby made for a more complete description.

(5) Repealed by Session Laws 1999-268, s. 2.

(6) All land within the boundaries of Crowders Mountain State Park as of 6 May 2003 with the exception of the following tracts: The portion of that certain tract or parcel of land at Crowders Mountain State Park in Gaston County, Crowders Mountain Township, described in Deed Book 1939, page 800, and containing 757.28 square feet and as shown in a survey by Tanner and McConnaughey, P.A. dated July 22, 1988 and filed in the State Property Office. The portion of that certain tract or parcel of land at Crowders Mountain State Park in Cleveland County, Number Four Township, described in Deed Book 1286, Page 85, and containing 1.64 acres as shown on the drawing prepared by the Division of Parks and Recreation entitled "Property to Be Excepted Crowders Mountain State Park" dated 14 April 2003, and filed in the State Property Office. The tracts excluded from the State Nature and Historic Preserve under this subdivision are deleted from the State Parks System in accordance with G.S. 113-44.14. The State of North Carolina may only exchange this land for other land for the expansion of Crowders Mountain State Park or sell this land and use the proceeds for that purpose. The State may not otherwise sell or exchange this land.

(7) All lands owned in fee simple by the State within the boundaries of New River State Park as of 6 May 2003.

(8) All lands and waters within the boundaries of Stone Mountain State Park as of 6 May 2003 with the exception of the following tracts: The portion of that certain tract or parcel of land at Stone Mountain State Park in Wilkes County, Traphill Township, described as parcel 33-02 in Deed Book 633-193, and more particularly described as all of the land in this parcel lying to the west of the eastern edge of the Air Bellows Road, as shown on the National Park Service Land Status Map 33 dated March 24, 1981 and filed in the State Property Office, containing approximately 72 acres; and the portion of that certain tract or parcel of land at Stone Mountain State Park in Alleghany County, Cherry Lane Township, described in Deed Book 219, Page 543, and more particularly described as all of the land in this parcel lying north of the new division line on the survey by Andrews and Hobson Surveyors dated August 15, 2000, and entitled "Property Exchange Agreement for State of North Carolina & the United States of America", and filed in the State Property Office. The tracts excluded from the State Nature and Historic Preserve under this subdivision are deleted from the State Parks System in accordance with G.S. 113-44.14.

(9) All lands and waters located within the boundaries of the following State Historic Sites as of 6 May 2003: Alamance Battleground, Charles B. Aycock Birthplace, Historic Bath, Bennett Place, Bentonville Battleground, Brunswick Town/Fort Anderson, C.S.S. Neuse and Governor Caswell Memorial, Charlotte Hawkins Brown Memorial, Duke Homestead, Historic Edenton, Fort Dobbs, Fort Fisher, Historic Halifax, Horne Creek Living Historical Farm, House in the Horseshoe, North Carolina Transportation Museum, James K. Polk Memorial, Reed Gold Mine, Somerset Place, Stagville, State Capitol, Town Creek Indian Mound, Tryon Palace Historic Sites & Gardens, Zebulon B. Vance Birthplace, and Thomas Wolfe Memorial.

(10), (11) Repealed by Session Laws 2001-217, s. 2, effective June 15, 2001.

(12) All lands and waters located within the boundaries of Hanging Rock State Park as of 6 May 2003 with the exception of the following tract: The portion of that tract or property at Hanging Rock State Park in Stokes County, Danbury Township, described in Deed Book 360, Page 160, for a 30-foot wide right-of-way beginning approximately 183 feet south of SR 1001 and extending in a southerly direction approximately 1,479 feet to the southwest corner of the Bobby Joe Lankford tract and more particularly shown on a survey entitled, "J. Spot Taylor Heirs Survey, Danbury Township, Stokes County, N.C.", by Grinski Surveying Company, dated June 1985, and filed in the State Property Office. The tract excluded from the State Nature and Historic Preserve under this subdivision is deleted from the State Parks System in accordance with G.S. 113-44.14.

(13) All lands and waters located within the boundaries of South Mountains State Park as of 6 May 2003 with the exception of the following tracts. The tracts excluded from the State Nature and Historic Preserve under this subdivision are deleted from the State Parks System in accordance with G.S. 113-44.14.

a. The portion of that tract or property at South Mountains State Park in Burke County, Lower Creek Township, described in Deed Book 862, Page 1471, required for the right-of-way and easements for the relocation of SR 1904 within the park and lying generally between the Rutherford Electric Membership Corporation right-of-way and the southern property boundary of the park, as described in the drawing entitled "Survey for State of North Carolina", dated January 28, 1999, prepared by Suttles Surveying, P.A., bearing the preparer's file name 12455.dwg and filed in the State Property Office. The State of North Carolina may only exchange this land for other land for the expansion of South Mountains State Park or sell this land and use the proceeds for that purpose. The State may not otherwise sell or exchange this land.

b. The portion of those certain tracts or parcels of land at South Mountains State Park in Burke County, Lower Creek Township, described in Deed Book 925, Page 1284, and Deed Book 870, Page 1729 required for the right-of-way and easements for the relocation of SR 1904 within the Park and shown on the drawing prepared by Suttles Surveying P.A. entitled "Survey of the Proposed Centerline of the New Road Alignment for the State of North Carolina" bearing the preparer's file name 12455D.dwg, dated 10 April 2003, and filed in the State Property Office. The State of North Carolina may only exchange this land for other land for the expansion of South Mountains State Park or sell this

land and use the proceeds for that purpose. The State may not otherwise sell or exchange this land.

c. The portions of land at South Mountains State Park that lie south of the centerline of the CCC road as shown on the drawing entitled "Land Trade between South Mountains State Park and Adjacent Game Lands along CCC Road" prepared by the Division of Parks and Recreation, dated March 15, 1999, and filed in the State Property Office and that lie within: (i) the tract or property in Burke County, Lower Fork Township, described in Deed Book 495, Page 501; (ii) the tract or property in Burke County, Lower Fork and Upper Fork Townships, described in Deed Book 715, Page 719; or, (iii) within the tracts or property in Burke County, Upper Fork Township, described in Deed Book 860, Page 341, and Deed Book 884, Page 1640. The State of North Carolina may only exchange this land for other land for the expansion of South Mountains State Park or sell this land and use the proceeds for that purpose. The State may not otherwise sell or exchange this land.

d. The portion of that certain tract or parcel of land at South Mountains State Park in Burke County, Morganton Township, described in Deed Book 28, Page 607, Deed Book 28, Page 467, and Plat Book 3, Page 78, and containing 0.33 acres as shown on the drawing prepared by Hawkins Land Surveying entitled "Subdivision for Trustees of Walker Top Baptist Church" dated 26 September 2001, and filed with the State Property Office. The State may transfer this property to the Trustees of Walker Top Baptist Church to be used for church purposes. The instrument transferring this property shall provide that the State retains a possibility of reverter and shall provide that, in the event that the Walker Top Baptist Church ceases to use the property for church purposes, the property shall revert to the State. The State may not otherwise sell or exchange the property.

(14) Repealed by Session Laws 2003-234, s. 1, effective June 19, 2003.

(15) All lands and waters within the boundaries of Jockey's Ridge State Park as of 6 May 2003 with the exception of the following tracts: The portion of those certain tracts or parcels of land at Jockey's Ridge State Park in Dare County, Nags Head Township, described in Deed Book 227, Page 499, and Deed Book 227, Page 501, and containing 33,901 square feet as shown on the survey prepared by Styons Surveying Services entitled "Raw Water Well Site 13 Jockey's Ridge State Park" dated March 7, 2001, and filed in the State Property Office; the portion of that certain tract or parcel of land at Jockey's Ridge State Park in Dare County, Nags Head Township, described in Deed Book 222, Page 726, and containing 42,909 square feet as shown on the survey prepared by Styons Surveying Services entitled "Raw Water Well Site 14 Jockey's Ridge State Park" dated March 7, 2001, and filed in the State Property Office; and the portion of that certain tract or parcel of land at Jockey's Ridge State Park in Dare County, Nags Head Township, described in Deed Book 224, Page 790, and Deed Book 224, Page 794, and containing 34,471 square feet as shown on the survey prepared by Styons Surveying Services entitled "Raw Water Well Site 15 Jockey's Ridge State Park" dated March 7, 2001, and filed in the State Property Office.

(16) All lands and waters located within the boundaries of Mount Jefferson State Natural Area as of 6 May 2003. With respect to the communications tower site on the top of Mount Jefferson and located

on that certain tract or parcel of land at Mount Jefferson State Natural Area in Ashe County, West Jefferson Township, described in Deed Book F-3, Page 94, the State may provide space at the communications tower site to State public safety and emergency management agencies for the placement of antennas, repeaters, and other communications devices for public communications purposes. Notwithstanding G.S. 146-29.2, the State may lease space at the communications tower site to local governments in Ashe County for the placement of antennas, repeaters, and other communications devices for public communications purposes. State agencies and local governments that are authorized to place communications devices at the communications tower site pursuant to this subdivision may also locate at or near the communications tower site communications equipment that is necessary for the proper operation of the communications devices. The use of the communications tower site pursuant to this subdivision is authorized by the General Assembly as a purpose other than the public purposes specified in Article XIV, Section 5, of the North Carolina Constitution, Article 25B of Chapter 143 of the General Statutes, and Article 2C of Chapter 113 of the General Statutes.

(17) All lands and waters within the Eno River State Park as of 6 May 2003 with the exception of the following tract: The portion of that certain tract or parcel of land at Eno River State Park in Durham County, Durham Outside Township, described in Deed Book 435, Page 673, and Plat Book 87, Page 66, containing 11,000 square feet and being the portion of Lot No. 2 shown as the existing scenic easement hereby removed on the drawing prepared by Sear-Brown entitled "Recombination Plat Eno Forest Subdivision" bearing the preparer's file name 00-208-07.dwg, and filed with State Property Office. The tract excluded from the State Nature and Historic Preserve under this subdivision is deleted from the State Parks System pursuant to G.S. 113-44.14. The State of North Carolina may only exchange this land for other land for the expansion of Eno River State Park or sell this land and use the proceeds for that purpose. The State may not otherwise sell or exchange this land. (1979, c. 498; 1989, Joint Res. 23; c. 146, s. 1; 1989 (Reg. Sess., 1990), c. 1004, s. 30; 1999-268, s. 2; 2001-217, s. 2; 2002-149, s. 1; 2003-234, s. 1.)

Tracts of Land Removed from State Nature and Historic Preserve. — Session Laws 2003-234, s. 2, provides: "The following tracts of land are removed from the State Nature and Historic Preserve pursuant to Section 5 of Article XIV of the Constitution of North Carolina:

"(1) The portion of that certain tract or parcel of land at Crowders Mountain State Park in Cleveland County, Number Four Township, described in Deed Book 1286, Page 85, and containing 1.64 acres as shown on the drawing prepared by the Division of Parks and Recreation entitled 'Property to be Excepted Crowders Mountain State Park' dated 14 April 2003 and filed in the State Property Office.

"(2) The portion of those certain tracts or parcels of land at South Mountains State Park in Burke County, Lower Creek Township, described in Deed Book 925, Page 1284, and Deed Book 870, Page 1729 required for the right-of-way and easements for the relocation of SR 1904 within the Park and shown on the drawing prepared by Suttles Surveying P.A. entitled "Survey of the Proposed Centerline of the New Road Alignment for the State of North Carolina" bearing the preparer's file name 12455D.dwg, dated 10 April 2003 and filed in the State Property Office.

"(3) The portion of that certain tract or parcel of land at South Mountains State Park in Burke County, Morganton Township, described in Deed Book 28, Page 607, Deed Book 28, Page 467, and Plat Book 3, Page 78, and containing 0.33 acres as shown on the drawing prepared by Hawkins Land Surveying entitled 'Subdivision for Trustees of Walker Top Baptist Church' dated 26 September 2001 and filed with the State Property Office.

"(4) The portion of that certain tract or parcel of land at Eno River State Park in Durham County, Durham Outside Township, described in Deed Book 435, Page 673, and Plat Book 87,

Page 66, containing 11,000 square feet and being the portion of Lot No. 2 shown as the existing scenic easement hereby removed on the drawing prepared by Sear-Brown entitled 'Recombination Plat Eno Forest Subdivision' bearing the preparer's file name 00-208-07.dwg, and filed with State Property Office."

Session Laws 2003-234, s. 4, provides: "In accordance with G.S. 143-260.8(e), the Secretary of State is directed to forward a certified copy of this act to the register of deeds of each county in which any portion of the property dedicated and accepted or removed by this act as part of the State Nature and Historic Preserve is located."

Editor's Note. — Session Laws 2002-89, ss. 1 and 2, effective August 22, 2002, authorize the Department of Environment and Natural Resources to add Elk Knob State Natural Area and Beech Creek Bog State Natural Area to the State Parks System as provided in G.S. 113-44.14(b).

Session Laws 2002-149, s. 2, effective October 9, 2002, provides: "Boone's Cave State Natural Area is deleted from the State Parks System pursuant to G.S. 113-44.14. The State may transfer this property to Davidson County for management as a park. The instrument transferring this property shall provide that the State retains a possibility of reverter and shall provide that, in the event that Davidson County ceases to manage the property as a park, the property shall revert to the State. The State may not otherwise sell or exchange the property."

The preamble to Session Laws 2003-234, provides: "Whereas, Section 5 of Article XIV of the Constitution of North Carolina authorizes the dedication of State and local government properties as part of the State Nature and Historic Preserve upon acceptance by a law enacted by a three-fifths vote of the members of each house of the General Assembly and provides for removal of properties from the State Nature and Historic Preserve by a law enacted by a three-fifths vote of the members of each house of the General Assembly; and

"Whereas, the General Assembly enacted the State Nature and Historic Preserve Dedication Act, Chapter 443 of the 1973 Session Laws, to prescribe the conditions and procedures under which properties may be specifically dedicated for the purposes set out in Section 5 of Article XIV of the Constitution of North Carolina; and

"Whereas, over 6,700 acres have been added to the State Parks System since the last dedication and acceptance of properties as part of the State Nature and Historic Preserve pursuant to a petition of the Council of State dated 3 April 2001, and

"Whereas, in accordance with G.S. 143-260.8, on 6 May 2003 the Council of State voted to petition the General Assembly to enact a law pursuant to Section 5 of Article XIV of the Constitution of North Carolina to dedicate and accept properties added to the State Parks System and designated in the petition for inclusion as parts of the State Nature and Historic Preserve; and

"Whereas, as a part of its petition of 6 May 2003 the Council of State also requested the General Assembly to remove certain properties from the State Nature and Historic Preserve; and

"Whereas, G.S. 113-44.14 provides for additions to, and deletions from, the State Parks System upon authorization by the General Assembly; Now, therefore,

"The General Assembly of North Carolina enacts:"

Effect of Amendments. — Session Laws 2002-149, s. 1, effective October 9, 2002, deleted "Boone's Cave State Natural Area" and "Mount Jefferson State Natural Area" from the list of natural areas in subdivision (1); and added subdivision (16).

Session Laws 2003-234, s. 1, effective June 19, 2003, rewrote the section.

§§ 143-260.10A, 143-260.10B: Repealed by Session Laws 1989, c. 146, ss. 3, 4.

§ 143-260.10C. Removal of land in Hemlock Bluffs from the State Nature and Historic Preserve.

Notwithstanding the provisions of G.S. 143-260.10(1), the tract identified as a portion of the property legally described in Deed Book 3135, Page 937, Wake County Registry, containing 14.4 acres, as shown on a survey prepared by A. Roger Barnes (RLS) and entitled "Proposed Exchange of 14.4 Acres From the State of North Carolina to the Town of Cary," dated August 19, 1988, is removed from the State Nature and Historic Preserve.

The State of North Carolina may only exchange this land for other land to expand Hemlock Bluffs Natural Area or sell the land and use the proceeds for

that purpose. The State of North Carolina may not otherwise sell or exchange this land.

The removal of the portion of Hemlock Bluffs under this section achieves the requirements and purposes of Article 2C of Chapter 113 of the General Statutes and constitutes a deletion from the State Parks System as required by G.S. 113-44.14. (1989, c. 384, s. 1.)

§ 143-260.10D. Removal of land at Hammocks Beach State Park from the State Nature and Historic Preserve.

Notwithstanding the provisions of G.S. 143-260.10(1), the tract identified as a portion of the property legally described in Deed Book 414, Page 607, Onslow County Registry, containing 0.063 acres; beginning at a point located S 25°19′50″ W, 60.86 feet, thence S 02°10′40″ E, 33.61 feet from the southeast corner of above reference property, proceeding from said beginning point S 02°10′40″ E, 32.73 feet, thence S 69°12′45″ W, 176.47 feet to a point, thence N 59°47′25″ E, 189.47 feet to the point of beginning; as shown on a survey prepared by John P. McLean Engineering Associates and entitled "Exhibit Map Showing Land Swap Between N.C. Park Service and Hammocks Point" dated June 29, 1990, is removed from the State Nature and Historic Preserve.

The State of North Carolina may only exchange this land for other land for inclusion in Hammocks Beach State Park or sell the land and use the proceeds for that purpose. The State of North Carolina may not otherwise sell or exchange this land.

The removal of the portion of Hammocks Beach State Park under this section achieves the requirements and purposes of Article 2C of Chapter 113 of the General Statutes and constitutes a deletion from the State Parks System as required by G.S. 113-44.14. (1991, c. 318, s. 1.)

§ 143-260.10E. Utility easement at William B. Umstead State Park.

(a) The State of North Carolina may grant a utility easement to Carolina Power and Light Company across a tract of land within William B. Umstead State Park. The easement shall be 100 feet wide, extending 50 feet on each side of the following-described survey line: Lying and being in Leesville township, Wake County, North Carolina; BEGINNING at point B2 as shown on the Drawing hereinafter referred to, the point B2 being located in a southern property line of Raleigh Durham Airport Authority (formerly Continental Mortgage Investors) and a northern property line of the State of North Carolina; the point B2 also being located North 87 degrees 01 minute 31 seconds West 834.04 feet from a concrete monument making a southeastern corner of Raleigh Durham Airport Authority (formerly Continental Mortgage Investors); and runs thence South 02 degrees 01 minute 53 seconds East 3508.00 feet to point A2 on the Drawing, the location of Point A2 having North Carolina Coordinates Y=773, 193.769 and X=2,069,162.420, the Point A2 being located at the terminus of Carolina Power and Light Company's existing 100 foot wide right-of-way strip, as shown and described on Carolina Power and Light Company Drawing No. RW-A-5246, dated September 1977, which Drawing also shows the respective complementing sidelines going to make up the easement.

(b) The State of North Carolina may only use the proceeds from the easement described in subsection (a) of this section to acquire property at any State park.

(c) The grant of the easement within William B. Umstead State Park to Carolina Power and Light Company under this section constitutes authorization by the General Assembly that the described tract of land may be used for a utility easement, which is a purpose other than the public purposes as specified in Article XIV, Section 5, of the Constitution, Article 25B of Chapter 143 of the General Statutes, and Article 2C of Chapter 113 of the General Statutes. (1991 (Reg. Sess., 1992), c. 907, s. 1.)

§ 143-260.10F. Road right-of-way; Pilot Mountain State Park.

(a) Notwithstanding the provisions of G.S. 143-260.10, the State of North Carolina may convey a road right-of-way to the Department of Transportation across lands within Pilot Mountain State Park. The right-of-way for the road shall begin 71.9 feet S 70° 41′12″ E of park corner number 94 as shown on the June 1, 1968, Pilot Mountain State Park survey by Southern Mapping & Engineering Company. From point of beginning N 70° 41′ 12″ W for 71.9 feet, then following the centerline of the existing road SR 2068 N 02° 31′ 21″ E for 24.13 feet, then N 25° 17′ 28″ E for 225.06 feet, then N 35° 31′48″ E for 139.35 feet, then with the northern boundary of the park S 55° 48′ 51″ E for 30.0 feet, then along new right-of-way line for approximately 350 feet as shown on Department of Transportation Plat of SR 2068, Shoals Road — McKinney Cut, Surry County, W.O. 6.742488 dated August 28, 1992, to point of beginning. The area of this right-of-way is approximately 17,850 square feet.

(b) The property described in subsection (a) of this section is removed from the State Nature and Historic Preserve and deleted from the State Parks System.

(c) The State shall only use the proceeds from this right-of-way to acquire lands for the expansion of Pilot Mountain State Park. (1993, c. 457, s. 1.)

§ 143-260.10G. Removal of land in Crowders Mountain State Park from the State Nature and Historic Preserve.

(a) Notwithstanding the provisions of G.S. 143-260.10(6), the portion of that certain tract or parcel of property at Crowders Mountain State Park in Gaston County, Crowders Mountain Township, described in Deed Book 1240, Page 451, and containing 225 square feet and as shown in a survey by R&W Engineering and Surveying entitled "Conveyance of 0.0052 acres owned by Crowders Mountain State Park, Gaston Co., NC" and dated January 18, 1995, is removed from the State Nature and Historic Preserve.

(b) The property described in subsection (a) of the section is deleted from the State Parks System pursuant to G.S. 113-44.14.

(c) The State may only exchange this property for other property for the expansion of Crowders Mountain State Park or sell this land and use the proceeds for that purpose. The State shall not otherwise sell or exchange this land. (1995, c. 131, s. 1.)

Article 26.

State Education Commission.

§ 143-261. Appointment and membership; duties.

The Governor of North Carolina is hereby authorized to appoint a commission to be known as the State Education Commission, consisting of 18

members, six of whom shall be selected from educational groups within the State, and 12 of whom shall be selected from the agricultural, business, industrial, and professional life of the State. It shall be the duty of this Commission to study all educational problems to the end that a sound overall educational program may be developed in North Carolina, and to report their findings and make recommendations to the Governor and the General Assembly of 1949. (1947, c. 724, s. 1.)

CASE NOTES

Cited in Wetzel v. Edwards, 635 F.2d 283 (4th Cir. 1980).

§ 143-262. Organization meeting; election of officers; status of members.

After their appointment, the Commission shall meet in the office of the Governor of North Carolina not later than the fifteenth of May, 1947, and upon the recommendation of the Governor, elect a chairman and a full-time executive secretary. The secretary may or may not be a member of the Commission. Membership on the Commission herein authorized shall not constitute public office but shall be considered as a commissioner for a special purpose; and the Governor may appoint as ex officio member, or members, on said Commission any public official without violating the provisions of Article XIV, Sec. 7, of the State Constitution. (1947, c. 724, s. 2.)

Editor's Note. — The reference in this section to Art. XIV, § 7, of the State Constitution is to that section in the Constitution of 1868. For present provisions as to dual office holding, see N.C. Const., Art. VI, § 9.

§ 143-263. Comprehensive study of education problems.

This Commission shall make a comprehensive study of organization, administration, finance, teacher education, supervision, curriculum, standardization, consolidation, transportation, buildings, personnel, a merit rating system for teachers, vocational education, and any other problems related to the overall educational program of the State. (1947, c. 724, s. 3.)

§ 143-264. Per diem and travel allowances.

Each member of the Commission shall be entitled to per diem and travel the same as is paid to the State Board of Education, when attending any meeting of the Commission or while engaged in the performance of any duties of the Commission. (1947, c. 724, s. 4.)

§ 143-265. Salary of executive secretary.

The Commission is authorized to set the salary of a full-time executive secretary, with the approval of the Director of the Budget. (1947, c. 724, s. 5.)

§ 143-266. Powers of executive secretary.

The executive secretary of the Commission shall have the authority and power to subpoena witnesses and compel their attendance to testify and/or produce records at any hearing before the Commission, or any committee

thereof, under the same provisions of the law as now apply to attendance of witnesses before legislative committees. (1947, c. 724, s. 6.)

Article 27.

Settlement of Affairs of Certain Inoperative Boards and Agencies.

§ 143-267. Release and payment of funds to State Treasurer; delivery of other assets to Secretary of Administration.

Whenever the statutes creating, or granting authority to, any licensing, regulatory, or examining board or agency have been or are hereafter repealed, or declared unconstitutional or invalid by the Supreme Court of North Carolina, every officer or other person responsible for or having control or custody of any funds, records, equipment or any other assets held or owned by any such board or agency which was theretofore authorized by any such statute to exercise licensing or regulatory powers or conduct examinations in respect to the right to practice any profession or engage in any trade, business, craft or calling, shall forthwith release and deliver all such funds to the State Treasurer of North Carolina, and shall forthwith release and deliver all other assets of every nature whatsoever to the Secretary of Administration for the State of North Carolina. (1949, c. 740, s. 1; 1975, c. 879, s. 46.)

§ 143-268. Official records turned over to Department of Cultural Resources; conversion of other assets into cash; allocation of assets to State agency or department.

The Secretary of Administration shall receive all such assets so delivered and, after they have served their purpose in the liquidation of the affairs of such board or agency, shall turn over all official records of such board or agency to the Department of Cultural Resources to be held pursuant to the statutes relating to such Department. The Secretary of Administration shall proceed to convert all other such assets into cash by public sale to the highest bidder, and shall deposit the net proceeds of any such sale with the State Treasurer: Provided, that the Secretary of Administration, in his discretion, may allocate to any State agency or department, the whole or any part of such assets, the sale of which is not required to discharge the obligations of the board or agency being liquidated. (1949, c. 740, s. 2; 1973, c. 476, s. 48; 1975, c. 879, s. 46.)

§ 143-269. Deposit of funds by State Treasurer.

The State Treasurer shall receive all funds delivered to him under this Article and shall deposit the same in a special fund for the account of the board or agency whose affairs are being liquidated, to be held and applied as hereinafter provided. (1949, c. 740, s. 3.)

§ 143-270. Statement of claims against board or agency; time limitation on presentation.

Any person having any claim or cause of action against any board or agency whose affairs are being liquidated under this Article, may present a verified

statement of the same to the Secretary of Administration, who shall investigate and approve or disapprove such claim; any claim not presented to the Secretary of Administration within one year from the time such board or agency becomes inoperative by law shall be barred, and no claim shall be approved or paid which is barred by any statute of limitation or any statutory prohibition in respect to the payment of any claim, or the refund of any deposit, dues, assessment, or examination or license fee. (1949, c. 740, s. 4; 1975, c. 879, s. 46.)

CASE NOTES

§ 143-271. Claims certified to State Treasurer; payment; escheat of balance to University of North Carolina.

The Secretary of Administration shall certify to the State Treasurer a schedule of all claims approved or disapproved, and after one year from the time at which the board or agency became inoperative under the law, the State Treasurer shall, out of the funds in his hands for the account of such board or agency, pay all approved claims in full, or if such funds are insufficient for full payment, then he shall equally prorate said claims and make partial payment insofar as funds are available. Should any balance remain in the hands of the Treasurer after the payment of all approved claims, such balance shall escheat and be paid over to the University of North Carolina, to be held in accordance with the statutes governing escheats. (1949, c. 740, s. 5; 1975, c. 879, s. 46.)

§ 143-272. Audit of affairs of board or agency; payment for audit and other expenses.

Irrespective of the provisions of G.S. 143-271 of this Article, the State Treasurer is specifically authorized, in his discretion, to cause an audit to be made of the affairs of any such board or agency, and to immediately pay the cost of such audit, together with the expenses of transferring records and assets, and other necessary costs of liquidation, out of the first funds coming into his hands for the account of such board or agency. (1949, c. 740, s. 6.)

Article 28.

Communication Study Commission.

§§ 143-273 through 143-278: Expired.

Article 29.

Commission to Study the Care of the Aged and Handicapped.

§ 143-279. Establishment and designation of Commission.

A Commission is hereby established for the study of the problems relating to the care of the aged with especial reference to those failing mentally and the intellectually or physically handicapped of all ages and this Commission shall

be known as "the Commission for the Study of Problems of the Care of the Aged and Intellectually or Physically Handicapped." (1949, c. 1211, s. 1.)

§ 143-280. Membership.

The Commission shall consist of three members from the Department of Health and Human Services, one member from the boards of county commissioners, one county superintendent of social services, one local health director, one clerk of the superior court. (1949, c. 1211, s. 2; 1957, c. 1357, s. 12; 1963, c. 1166, s. 10; 1969, c. 982; 1973, c. 476, ss. 128, 133, 138; 1997-443, s. 11A.95.)

§ 143-281. Appointment and removal of members.

The Governor shall appoint the members of this Commission, and may remove any member; he shall not be required to give any reason for the removal of any member. (1949, c. 1211, s. 3.)

§ 143-282. Duties of Commission; recommendations.

This Commission shall study the problems relating to the care of the aged with especial reference to those failing mentally and shall inquire into the methods of meeting and handling this problem in other states. It shall make a similar study of the problem of the care of the feebleminded, with especial attention to the custodial care of intellectually handicapped persons not teachable or trainable. It shall make a study of the problems relating to the care of the physically handicapped with a special reference to those whose physical handicap renders them incapable of self-support and shall inquire into the methods of meeting and handling this problem in other states.

It shall make recommendations to the Governor offering plans for dealing with the problem of the care needed for this group, and means of clarification of the responsibility of the State and respective counties. (1949, c. 1211, s. 4.)

§ 143-283. Compensation.

The members of the Commission shall receive for each day in actual performance of duties under this Article, a per diem of seven dollars ($7.00), and necessary travel and subsistence expenses, to be paid out of the contingency and emergency fund. (1949, c. 1211, s. 5.)

Article 29A.

Governor's Council on Employment of the Handicapped.

§ 143-283.1. Short title.

This Article may be cited as "The Governor's Council on Employment of the Handicapped Act." (1961, c. 981; 1973, c. 476, s. 179.)

§ 143-283.2. Purpose of Article; cooperation with President's Committee.

The purpose of this Article is to carry on a continuing program to promote the employment of the physically, mentally, emotionally, and otherwise handicapped citizens of North Carolina by creating statewide interest in the rehabilitation and employment of the handicapped, and by obtaining and

maintaining cooperation with all public and private groups and individuals in this field. The Governor's Council shall work in close cooperation with the President's Committee on Employment of the Physically Handicapped to more effectively carry out the purpose of this Article, and with State and federal agencies having responsibilities for employment and rehabilitation of the handicapped. (1961, c. 981; 1973, c. 476, s. 179.)

§ 143-283.3. Celebration of National Employ the Physically Handicapped Week.

The Governor's Council shall, by proclamation, designate the first full week in October of each year as "National Employ the Physically Handicapped Week." The committee shall promote and encourage the holding of appropriate ceremonies throughout the State during said week, the purpose of which ceremonies shall be to enlist public support for and interest in the employment of the physically handicapped. The Governor shall, in his proclamation designating National Employ the Physically Handicapped Week, invite the mayors of all cities, heads of other instrumentalities of government, leaders of industry and business, educational and religious groups, labor, veterans, women, farm, scientific and professional, and all other organizations and individuals having an interest to participate in said ceremonies. (1961, c. 981; 1973, c. 476, s. 179.)

§§ 143-283.4 through 143-283.6: Repealed by Session Laws 1973, c. 476, s. 179.

§ 143-283.7: Repealed by Session Laws 1991, c. 45, s. 25.

§ 143-283.8. Governor's Council nonpartisan and nonprofit.

The Governor's Council shall be nonpartisan, nonprofit, and shall not be used for the dissemination of partisan principles, nor for the promotion of the candidacy of any person seeking public office or preferment. (1961, c. 981; 1973, c. 476, s. 179.)

§§ 143-283.9, 143-283.10: Repealed by Session Laws 1973, c. 476, s. 179.

Article 29B.

Governor's Coordinating Council on Aging.

§§ 143-283.11 through 143-283.23: Repealed by Session Laws 1973, c. 476, s. 173.

Article 29C.

Youth Councils Act.

§§ 143-283.24 through 143-283.30: Repealed by Session Laws 1975, c. 879, s. 30.

Cross References. — For present provisions as to youth councils, see G.S. 143B-385 through 143B-388.

§ 143-283.31: Repealed by Session Laws 1973, c. 797, s. 1.

§ 143-283.32: Repealed by Session Laws 1975, c. 879, s. 30.

§§ 143-283.33 through 143-283.40: Reserved for future codification purposes.

Article 29D.

Manpower Council.

§§ 143-283.41 through 143-283.48: Repealed by Session Laws 1975, c. 879, s. 42.

Article 30.

Nutbush Conservation Area.

§§ 143-284 through 143-286: Repealed by Session Laws 1973, c. 1262, s. 76.

§ 143-286.1. Nutbush Conservation Area.

The Department of Environment and Natural Resources is hereby authorized to enter into lease agreements with the proper agencies of the federal government covering the marginal land area of the John H. Kerr Reservoir or so much thereof as may be necessary or desirable in order to develop said area for park purposes and to carry on a program of conservation, forestry development and wildlife protection. The area so obtained shall be known as the Nutbush Conservation Area. The Department of Environment and Natural Resources is hereby authorized to control and develop the area so leased and to enter into sublease agreements on terms as may be authorized in the original lease agreement. All proceeds obtained from any sublease agreement shall be used exclusively for the further development of the Nutbush Conservation Area. (1953, c. 1312, s. 4; 1963, c. 612, s. 2; 1973, c. 1262, ss. 28, 76; 1977, c. 771, s. 4; 1989, c. 727, s. 218(114); 1997-443, s. 11A.119(a).)

§§ 143-287, 143-288: Repealed by Session Laws 1973, c. 1262, s. 76.

§ 143-289. Contributions from certain counties and municipalities authorized; other grants or donations.

The boards of county commissioners of the Counties of Granville, Vance and Warren and the municipalities within these counties are authorized and empowered in their discretion to make annual contributions to the Department of Environment and Natural Resources for the purpose of defraying the necessary expenses of operation and the Department of Environment and Natural Resources is authorized and empowered to accept grants or donations from any interested citizens or from any State or federal agency. (1951, c. 444, s. 6; 1973, c. 1262, s. 76; 1977, c. 771, s. 4; 1989, c. 727, s. 218(115); 1997-443, s. 11A.119(a).)

§§ 143-290, 143-290.1: Repealed by Session Laws 1973, c. 1262, s. 76.

Article 31.

Tort Claims against State Departments and Agencies.

§ 143-291. Industrial Commission constituted a court to hear and determine claims; damages; liability insurance in lieu of obligation under Article.

(a) The North Carolina Industrial Commission is hereby constituted a court for the purpose of hearing and passing upon tort claims against the State Board of Education, the Board of Transportation, and all other departments, institutions and agencies of the State. The Industrial Commission shall determine whether or not each individual claim arose as a result of the negligence of any officer, employee, involuntary servant or agent of the State while acting within the scope of his office, employment, service, agency or authority, under circumstances where the State of North Carolina, if a private person, would be liable to the claimant in accordance with the laws of North Carolina. If the Commission finds that there was negligence on the part of an officer, employee, involuntary servant or agent of the State while acting within the scope of his office, employment, service, agency or authority that was the proximate cause of the injury and that there was no contributory negligence on the part of the claimant or the person in whose behalf the claim is asserted, the Commission shall determine the amount of damages that the claimant is entitled to be paid, including medical and other expenses, and by appropriate order direct the payment of damages as provided in subsection (a1) of this section, but in no event shall the amount of damages awarded exceed the amounts authorized in G.S. 143-299.2 cumulatively to all claimants on account of injury and damage to any one person arising out of a single occurrence. Community colleges and technical colleges shall be deemed State agencies for purposes of this Article. The fact that a claim may be brought under more than one Article under this Chapter shall not increase the foregoing maximum liability of the State.

(a1) The unit of State government that employed the employee at the time the cause of action arose shall pay the first one hundred fifty thousand dollars ($150,000) of liability, and the balance of any payment owed shall be paid in accordance with G.S. 143-299.4.

(b) If a State agency, otherwise authorized to purchase insurance, purchases a policy of commercial liability insurance providing coverage in an amount at

least equal to the limits of the State Tort Claims Act, such insurance coverage shall be in lieu of the State's obligation for payment under this Article.

(c) The North Carolina High School Athletic Association, Inc., is a State agency for purposes of this Article, and its liability in tort shall be only under this Article. This subsection does not extend to any independent contractor of the Association. The Association shall be obligated for payments under this Article, through the purchase of commercial insurance or otherwise, in lieu of any responsibility of the State or The University of North Carolina for this payment. The Association shall be similarly obligated to reimburse or have reimbursed the Department of Justice for any expenses in defending any claim against the Association under this Article.

(d) Liability in tort of the Teachers' and State Employees' Comprehensive Major Medical Plan for noncertifications as defined under G.S. 58-50-61 shall be only under this Article. (1951, c. 1059, s. 1; 1953, c. 1314; 1955, c. 400, s. 1; c. 1102, s. 1; c. 1361; 1957, c. 65, s. 11; 1965, c. 256, s. 1; 1967, c. 1206, s. 1; 1971, c. 893, s. 1; 1973, c. 507, s. 5; c. 1225, s. 1; 1977, c. 464, s. 34; c. 529, ss. 1, 2; 1979, c. 1053, s. 1; 1987, c. 684, s. 1; 1987 (Reg. Sess., 1988), c. 1087, s. 1; 1993 (Reg. Sess., 1994), c. 769, s. 19.33(a); c. 777, s. 5(a); 2000-67, ss. 7A(a), 7A(b); 2001-446, s. 5(f).)

CASE NOTES

I. IN GENERAL.

Editor's Note. *— Many of the cases cited below were decided under this section as it read prior to its amendment by Session Laws 1977, c. 529, effective July 1, 1979, which substituted reference to "negligence" for the previous reference to a "negligent act" in the second sentence. These cases should therefore be consulted with care.*

Legislative Intent to Enlarge Rights and Remedies. — The obvious intention of the General Assembly in enacting the Tort Claims Act was to enlarge the rights and remedies of a person injured by the actionable negligence of an employee of a State agency while acting in the course of his employment. Wirth v. Bracey, 258 N.C. 505, 128 S.E.2d 810 (1963).

Substitution of "Negligence" for "Negligent Act" as Enlargement of Rights Under Section. — The second 1977 amendment, effective July 1, 1979, substituting the phrase "arose as a result of the negligence" for "arose as a result of a negligent act" in the second sentence obviously enlarges the rights of persons seeking to recover for injuries resulting from State employees' negligence. Watson v. North Carolina Dep't of Cor., 47 N.C. App. 718, 268 S.E.2d 546, cert. denied, 301 N.C. 238, 283 S.E.2d 135 (1980).

The effect of the Tort Claims Act was twofold. First, the State partially waived its sovereign immunity by consenting to direct suits brought as a result of negligent acts committed by its employees in the course of their employment. Second, it provided that the forum for such direct actions would be the Industrial Commission, rather than the State courts. Teachy v. Coble Dairies, Inc., 306 N.C. 324, 293 S.E.2d 182 (1982).

The Tort Claims Act waived the sovereign immunity of the State in those instances in which injury is caused by the negligence of a State employee and the injured person is not guilty of contributory negligence, giving the injured party the same right to sue as any other litigant. Guthrie v. North Carolina State Ports Auth., 307 N.C. 522, 299 S.E.2d 618 (1983).

It is a fundamental rule of law that the State is immune from suit unless it expressly consents to be sued. By enactment of the Tort Claims Act, G.S. 143-291 et seq., the General Assembly partially waived the sovereign immunity of the State to the extent that it consented that the State could be sued for injuries proximately caused by the negligence of a State employee acting within the scope of his employment. Zimmer v. North Carolina Dep't of Transp., 87 N.C. App. 132, 360 S.E.2d 115 (1987).

The effect and purpose of the 1977 amendment to this section was to extend the State's liability to include the negligent omissions and failures to act of its employees. Phillips v. North Carolina Dep't of Transp., 80 N.C. App. 135, 341 S.E.2d 339 (1986).

State's tort liability was greatly enlarged by the 1977 amendment to this section and the State is no longer limited to responsibility for the negligent acts of its employees. Phillips v. North Carolina Dep't of Transp., 80 N.C. App. 135, 341 S.E.2d 339 (1986).

The Tort Claims Act must be strictly construed. Northwestern Distribs., Inc. v. North Carolina Dep't of Transp., 41 N.C. App. 548, 255 S.E.2d 203, cert. denied, 298 N.C. 567, 261 S.E.2d 123 (1979).

Acts permitting suit, being in derogation of the sovereign right of immunity, are to be strictly construed. Nello L. Teer Co. v. North Carolina State Hwy. Comm'n, 265 N.C. 1, 143 S.E.2d 247 (1965).

And Its Terms Must Be Strictly Adhered to. — Since the Tort Claims Act is in derogation of sovereign immunity it must be strictly construed and its terms must be strictly adhered to. Etheridge v. Graham, 14 N.C. App. 551, 188 S.E.2d 551 (1972); Watson v. North Carolina Dep't of Cor., 47 N.C. App. 718, 268 S.E.2d 546, cert. denied, 301 N.C. 239, 283 S.E.2d 135 (1980).

The State Tort Claims Act is in derogation of the sovereign immunity from liability for torts; hence, the sounder view is that the Act should be strictly construed, and certainly the Act must be followed as written. Floyd v. North Carolina State Hwy. & Pub. Works Comm'n, 241 N.C. 461, 85 S.E.2d 703 (1955); Bailey v. North Carolina Dep't of Mental Health, 2 N.C. App. 645, 163 S.E.2d 652 (1968).

The wording in the statute is clear, certain and intelligible. Alliance Co. v. State Hosp., 241 N.C. 329, 85 S.E.2d 386 (1955).

And Its Scope May Not Be Enlarged by Liberal Construction. — The legislative intent and purpose in enacting the State Tort Claims Act must be ascertained from the wording of the statute, and the rule of liberal construction cannot be applied to enlarge its scope beyond the meaning of its plain and unambiguous terms. Alliance Co. v. State Hosp., 241 N.C. 329, 85 S.E.2d 386 (1955).

The State Tort Claims Act will be construed to effectuate its purpose to waive the

sovereign immunity of the State in those instances in which injury is inflicted through the negligence of a State employee and the injured person is not guilty of contributory negligence, giving the injured party the same right to sue as any other litigant. Lyon & Sons v. State Bd. of Educ., 238 N.C. 24, 76 S.E.2d 553 (1953).

Construction with Other Provisions. — The jurisdictional provisions of G.S. 153A-435(b) control whenever they conflict with the jurisdictional provisions of G.S. 143-291(a). Meyer v. Walls, 122 N.C. App. 507, 471 S.E.2d 422 (1996), aff'd in part and rev'd in part, 347 N.C. 97, 489 S.E.2d 880 (1997).

Retroactive Effect of Statute. — The Tort Claims Act, Session Laws 1951, c. 1059, incorporated in this section, was made retroactive as to certain persons named therein. MacFarlane v. North Carolina Wildlife Resources Comm'n, 244 N.C. 385, 93 S.E.2d 557 (1956).

Article Provides Only Remedy Against State for Property Damage. — The owner of property cannot maintain an action against the State or any agency thereof in tort for damages to property, except as provided in this Article. Shingleton v. State, 260 N.C. 451, 133 S.E.2d 183 (1963).

The State may be sued in tort only as authorized in the Tort Claims Act. Guthrie v. North Carolina State Ports Auth., 307 N.C. 522, 299 S.E.2d 618 (1983).

Thus, Property Owner Cannot Maintain Action Against State to Restrain Tort. — A property owner cannot maintain an action against the State to restrain the commission of a tort. Shingleton v. State, 260 N.C. 451, 133 S.E.2d 183 (1963).

Property Damage Where Truck Wrongfully Seized. — Ample, competent evidence supported the Industrial Commission's reversal of a hearing commissioner where defendant erroneously seized plaintiff's truck and failed to install or have anti-freeze installed, although advised by plaintiff to do so, and where this failure proximately caused the engine block to crack. McGee v. North Carolina Dep't of Revenue, 135 N.C. App. 319, 520 S.E.2d 84 (1999).

Only Claims Against State Agencies Authorized. — The only claim authorized by the Tort Claims Act is a claim against a State agency. Wirth v. Bracey, 258 N.C. 505, 128 S.E.2d 810 (1963); Mason v. North Carolina State Hwy. Comm'n, 7 N.C. App. 644, 173 S.E.2d 515 (1970).

The Tort Claims Act embraces claims only against State agencies. Givens v. Sellars, 273 N.C. 44, 159 S.E.2d 530 (1968).

Where disbarred attorney brought claims against the Disciplinary Hearing Commission and individual members thereon, the Industrial Commission properly dismissed all claims against the individual defendants, because the Tort Claims Act embraces only claims against State agencies. Frazier v. Murray, 135 N.C. App. 43, 519 S.E.2d 525 (1999).

Public Duty Doctrine Applied to Claim Against Disciplinary Hearing Commission. — Disbarred attorney's claim against the Disciplinary Hearing Commission for negligent infliction of emotional distress in the performance of its duties came under the public duty doctrine, since the Commission was acting within its statutory authority, under G.S. 84-28.1, when it held plaintiff in criminal contempt. Frazier v. Murray, 135 N.C. App. 43, 519 S.E.2d 525 (1999).

Under the Tort Claims Act, jurisdiction is vested in the Industrial Commission to hear claims against the State for personal injuries sustained by any person as a result of the negligence of a State employee while acting within the scope of his employment. Guthrie v. North Carolina State Ports Auth., 307 N.C. 522, 299 S.E.2d 618 (1983).

Sheriffs Are Local Officers. — In providing for the organization of local governments, the N.C. Constitution does not make sheriffs state rather than local officers; therefore, Industrial Commission did not have jurisdiction to hear claims of negligence against county sheriffs. Hull v. Oldham, 104 N.C. App. 29, 407 S.E.2d 611, cert. denied, 330 N.C. 441, 412 S.E.2d 72 (1991).

Board of Transportation Is Agency of State. — The North Carolina State Highway Commission (now Department of Transportation) is an agency of the State. Davis v. North Carolina State Hwy. Comm'n, 271 N.C. 405, 156 S.E.2d 685 (1967).

Which Was Immune to Liability for Negligence of Employees Prior to Enactment of this Article. — Prior to the enactment of the Tort Claims Act, the Highway Commission (now Department of Transportation), as an agency or instrumentality of the State, enjoyed immunity to liability for injury or loss caused by the negligence of its employees. Givens v. Sellars, 273 N.C. 44, 159 S.E.2d 530 (1968).

And Is Now Liable in Tort Only as Provided in Tort Claims Act. — Except as provided in the Tort Claims Act, the State Highway Commission (now Department of Transportation) is not subject to suit in tort. Nello L. Teer Co. v. North Carolina State Hwy. Comm'n, 265 N.C. 1, 143 S.E.2d 247 (1965).

No action or other proceeding may be maintained against the State Highway Commission (now Department of Transportation) to recover damages for death or other injury caused by its negligence or other tort, except insofar as that right is conferred by the Tort Claims Act. Ayscue v. North Carolina State Hwy. Comm'n, 270 N.C. 100, 153 S.E.2d 823 (1967).

The North Carolina State Highway Commission (now Department of Transportation) is not subject to suit except in the manner provided

by statute. It may be sued in tort only as authorized in the Tort Claims Act. Davis v. North Carolina State Hwy. Comm'n, 271 N.C. 405, 156 S.E.2d 685 (1967).

Commissioner of DMV Immune as a Public Official. — Where the court determined that defendant, as Commissioner of the DMV was a public official and therefore immune from liability for mere negligence, a crossclaim which alleged nothing more than negligence failed to state a claim for which relief could be granted. Columbus County Auto Auction, Inc. v. Aycock Auction Co., 90 N.C. App. 439, 368 S.E.2d 888 (1988).

Waiver of Immunity Not Dependent upon Exercise of Discretion. — By enactment of the Tort Claims Act, the State has specifically waived immunity from tort claims falling within the act without regard to whether the function out of which a claim arises is a governmental function or a proprietary function. The waiver of immunity is not dependent upon whether the alleged negligent act involves the exercise of discretion. Zimmer v. North Carolina Dep't of Transp., 87 N.C. App. 132, 360 S.E.2d 115 (1987).

The Tort Claims Act, G.S. 143-291 et seq., does not create an exception for negligent performance of duties involving discretion; thus, the selection of suitable highway detour routes by department of transportation employees was not a discretionary governmental function immune from suit. Zimmer v. North Carolina Dep't of Transp., 87 N.C. App. 132, 360 S.E.2d 115 (1987).

Findings of Fact Conclusive. — Findings of fact made by a Deputy Commissioner in a procedure under the Tort Claims Act which are not appealed are conclusive, and under the doctrine of collateral estoppel may not be relitigated in subsequent proceedings under 42 U.S.C. § 1983 in federal court. Solomon v. Dixon, 724 F. Supp. 1193 (E.D.N.C. 1989), aff'd, 904 F.2d 701 (4th Cir. 1990).

Power of Industrial Commission to Pass on Claims Against Board of Transportation. — The Tort Claims Act empowers the Industrial Commission to pass upon tort claims against the Highway Commission (now Department of Transportation) which arose as a result of a negligent act of an agent of the State while acting within the scope of his employment by the State. Davis v. North Carolina State Hwy. Comm'n, 271 N.C. 405, 156 S.E.2d 685 (1967).

North Carolina State Ports Authority is an agency of the State of North Carolina under the Tort Claims Act; its liability, if any, must be determined by the Industrial Commission. Guthrie v. North Carolina State Ports Auth., 56 N.C. App. 68, 286 S.E.2d 823, aff'd, 307 N.C. 522, 299 S.E.2d 618 (1983).

As an agency of the State, the State Ports Authority is clothed with immunity from actions based on its alleged negligence from whatever source except to the extent that such immunity has been waived, and that the State, by virtue of the enactment of State Tort Claims Act, has specifically and explicitly waived that immunity as to tort claims falling within the ambit of that act without regard to the nature of the function out of which they arise. Guthrie v. North Carolina State Ports Auth., 307 N.C. 522, 299 S.E.2d 618 (1983).

The language of the State Tort Claims Act and G.S. 143B-454(1), vesting the Ports Authority with authority to sue or be sued, when read together, evidence a legislative intent that the Authority be authorized to sue as plaintiff in its own name in the courts of the State but contemplates that all tort claims against the Authority for money damages will be pursued under the State Tort Claims Act. Guthrie v. North Carolina State Ports Auth., 307 N.C. 522, 299 S.E.2d 618 (1983).

Superior court had no jurisdiction over an action for damages against the Department of Agriculture based on the failure of the Commissioner of Agriculture to require a soybean dealer to obtain a permit and to furnish bond, since jurisdiction of tort claims against a State agency has been vested in the Industrial Commission. Etheridge v. Graham, 14 N.C. App. 551, 188 S.E.2d 551 (1972).

Since the Tort Claims Act provides that tort actions against the State, its departments, institutions, and agencies must be brought before the Industrial Commission, the superior and district courts of this State have no jurisdiction over a tort claim against the State, or its agencies, and in this case, the North Carolina State Ports Authority, an agency of the State. Guthrie v. North Carolina State Ports Auth., 307 N.C. 522, 299 S.E.2d 618 (1983).

Superior Court lacked jurisdiction over suit against state university by former students because the Tort Claims Act, G.S. 143-291 et seq., was not a waiver of sovereign immunity to the extent of insurance coverage; the language concerning insurance was more consistent with a designation of the source of payment than with a designation of the forum for adjudication. Wood v. N.C. State Univ., 147 N.C. App. 336, 556 S.E.2d 38, 2001 N.C. App. LEXIS 1175 (2001), cert. denied, 355 N.C. 292, 561 S.E.2d 887 (2002).

This Article has no application with respect to acts of employees of city or county administrative units. McBride v. North Carolina State Bd. of Educ., 257 N.C. 152, 125 S.E.2d 393 (1962).

Such as County and City Boards of Education. — The Tort Claims Act does not include local units such as county and city boards of education. Turner v. Gastonia City Bd. of Educ., 250 N.C. 456, 109 S.E.2d 211 (1959). But see § 143-300.1.

As to liability of a college or university for a criminal attack by a third person upon its students, see Brown v. North Carolina Wesleyan College, Inc., 65 N.C. App. 579, 309 S.E.2d 701 (1983).

Liability of University for Injury to Student. — A university has an affirmative duty of care toward a student athlete, such as a cheerleader, who is a member of a school-sponsored, intercollegiate team, especially where a special relationship exists between the parties and the university exerts a considerable degree of control over the athletes. Davidson v. University of N.C. at Chapel Hill, 142 N.C. App. 544, 543 S.E.2d 920, 2001 N.C. App. LEXIS 182 (2001), cert. denied, 353 N.C. 724, 550 S.E.2d 771 (2001), cert. denied, 353 N.C. 724, 550 S.E.2d 771 (2001).

County's Claim Against State Agencies in Pollution Matter Within Scope of Tort Claims Act. — Complaint by county (sued by landowner for pollution) against Department of Human Resources and Department of Natural Resources and Human Development, alleging that injuries resulted from negligence by officers, employees or agents while acting within course of employment, fell within scope of Tort Claims Act. Haas v. Caldwell Sys., 98 N.C. App. 679, 392 S.E.2d 110 (1990).

Claim Against Department of Human Resources for Negligence of County Director of Social Services. — In an action alleging that a foster child was negligently placed in a home by the Durham County Department of Social Services, the Department of Human Resources would be liable for the negligent acts of its agents, the Durham County Director of Social Services and his subordinates, since the Department of Human Resources, through the Social Services Commission, had the right to control the manner in which the county director was to execute his obligation to place children in foster homes. Vaughn v. North Carolina Dep't of Human Resources, 296 N.C. 683, 252 S.E.2d 792 (1979).

County Agencies. — An action against a county agency which directly affects the rights of the county is in fact an action against the county. Meyer v. Walls, 347 N.C. 97, 489 S.E.2d 880 (1997).

The Tort Claims Act does not apply to county agencies, regardless of whether the county agencies are acting as an agent of the state. Wood v. Guilford County, 143 N.C. App. 507, 546 S.E.2d 641, 2001 N.C. App. LEXIS 307 (2001).

County Department of Social Services. — Since County Department of Social Services was not a state agency, the Tort Claims act did not apply to claim against the Department. Meyer v. Walls, 347 N.C. 97, 489 S.E.2d 880 (1997).

Action Against Commission or Board Action Against State. — An action against a commission or board created by statute as an agency of the State where the interest or rights of the State are directly affected is in fact an action against the state. Meyer v. Walls, 347 N.C. 97, 489 S.E.2d 880 (1997).

The statutory waiver of sovereign immunity must be strictly construed; therefore, the Tort Claims Act applies only to actions against state departments, institutions, and agencies and does not apply to claims against officers, employees, involuntary servants, and agents of the State. Meyer v. Walls, 347 N.C. 97, 489 S.E.2d 880 (1997).

Negligent Acts of Social Services. — The North Carolina Department of Human Services may be liable for the negligent acts of the County Director of Social Services and his staff with respect to the delivery of child protective services so as to confer jurisdiction on the Industrial Commission to hear and decide the merits of the claim pursuant to the provisions of the Tort Claims Act. Gammons v. North Carolina Dep't of Human Resources, 344 N.C. 51, 472 S.E.2d 722 (1996).

The Industrial Commission had jurisdiction to hear and determine a claim alleging that a foster child was negligently placed in a home by the Durham County Department of Social Services. Vaughn v. North Carolina Dep't of Human Resources, 296 N.C. 683, 252 S.E.2d 792 (1979).

Recovery Must Be Based on Negligent Act of Employee, etc. — Before an award of damages can be made under the Tort Claims Act, there must be a finding of a negligent act by an officer, employee, servant or agent of the State. Taylor v. Stonewall Jackson Manual Training & Indus. School, 5 N.C. App. 188, 167 S.E.2d 787 (1969).

The State Tort Claims Act authorizes the Industrial Commission to entertain claims arising as a result of a negligent act of any officer, employee, involuntary servant, or agent of the State while acting within the scope of his office, employment, service, agency, or authority under circumstances where the State, if a private person, would be liable to the claimant in accordance with the laws of North Carolina. Guthrie v. North Carolina State Ports Auth., 307 N.C. 522, 299 S.E.2d 618 (1983).

While Acting Within Scope of Employment. — Recovery, if any, under the Tort Claims Act, must be based upon the actionable negligence of an employee of a State agency while acting within the scope of his employment. Wirth v. Bracey, 258 N.C. 505, 128 S.E.2d 810 (1963); Mason v. North Carolina State Hwy. Comm'n, 7 N.C. App. 644, 173 S.E.2d 515 (1970).

Recovery against a State agency must be based upon actionable negligence of an employee of such agency while acting in the scope

of his employment. Givens v. Sellars, 273 N.C. 44, 159 S.E.2d 530 (1968).

Basically, a claim, to be recognizable within the purview of the Tort Claims Act, must arise as a result of a negligent act of a State employee while acting within the scope of his employment. Alliance Co. v. State Hosp., 241 N.C. 329, 85 S.E.2d 386 (1955).

Such That Defendant Would Be Liable If It Were a Private Person. — The Industrial Commission is to determine whether a claim brought under the Tort Claims Act arose as the result of a negligent act of an employee of the State under such circumstances that if the defendant were a private person there would be liability. Brooks v. University of N.C., 2 N.C. App. 157, 162 S.E.2d 616 (1968).

The legal limitation on the right to allow a claim under this section is limited to the same category with respect to tort claims against the agency covered as if such agency were a private person and such private person would be liable under the laws of North Carolina. Branch Banking & Trust Co. v. Wilson County Bd. of Educ., 251 N.C. 603, 111 S.E.2d 844 (1960).

The trial court lacked jurisdiction to hear an employee's Tort Claims Act action against the Department of Transportation arising from the employee's injury while working as a seaman on a ferry boat; the employee argued that the claim was in effect based on the federal Jones Act, 46 U.S.C.S. 688 (2001), and the State had not waived its sovereign immunity to the Jones act, because the Tort Claims Act specifically codified and automatically raised the defense of contributory negligence in each claim, while the Jones Act applied the standard of comparative negligence, and thus, an employer who would be liable to a partially negligent claimant under the Jones Act would not be liable to the same claimant in accordance with the laws of North Carolina, and because the Tort Claims Act expressly stated that the State could be liable only in circumstances where the State, if a private person, would be liable to the claimant in accordance with the laws of North Carolina, G.S. 143-291(a). Midgett v. N.C. DOT, 152 N.C. App. 666, 568 S.E.2d 643, 2002 N.C. App. LEXIS 979 (2002), cert. denied, 356 N.C. 438, 572 S.E.2d 786 (2002).

Public Officer. — The director of County Department of Social Services was a public officer for purposes of sovereign immunity. Meyer v. Walls, 122 N.C. App. 507, 471 S.E.2d 422 (1996), aff'd in part and rev'd in part, 347 N.C. 97, 489 S.E.2d 880 (1997).

As long as a public officer lawfully exercises the judgment and discretion with that which is invested by virtue of the office, keeps within the scope of the official authority, and acts without malice or corruption, the officer is protected from liability. Collins v. North Carolina Parole Comm'n, 344 N.C. 179, 473 S.E.2d 1 (1996).

Negligence is determined by the same rules as those applicable to private parties in proceedings under this Act. Bolkhir v. North Carolina State Univ., 321 N.C. 706, 365 S.E.2d 898 (1988).

Negligent Act of State Employee Must Be Proximate Cause of Injury. — In order for a person to recover under the State Tort Claims Act, it must be shown that a negligent act of a state employee, acting in the course of his or her employment, proximately caused the injuries or damages asserted. While it is not required that the state employee's negligence be the sole proximate cause of the injury complained of, it must be a proximate cause. Register v. Administrative Office of Courts, 70 N.C. App. 763, 321 S.E.2d 24 (1984).

But Negligent Acts Need Not Be Sole Proximate Cause of Injury. — It was not the intent of the Legislature to limit liability under the Tort Claims Act to situations where the negligence of an employee was the sole proximate cause of the injury or damages inflicted. Branch Banking & Trust Co. v. Wilson County Bd. of Educ., 251 N.C. 603, 111 S.E.2d 844 (1960).

Recovery May Not Be Had for Intentional Injuries. — No recovery could be had for the intentional shooting of plaintiff's decedent by a State highway patrolman, since the Tort Claims Act does not permit recovery for wrongful and intentional injuries, but limits recovery to negligent acts. Jenkins v. North Carolina Dep't of Motor Vehicles, 244 N.C. 560, 94 S.E.2d 577 (1956).

Injuries intentionally inflicted by employees of a State agency are not compensable under the North Carolina Tort Claims Act. Davis v. North Carolina State Hwy. Comm'n, 271 N.C. 405, 156 S.E.2d 685 (1967); Givens v. Sellars, 273 N.C. 44, 159 S.E.2d 530 (1968); Braswell v. North Carolina A & T State Univ., 5 N.C. App. 1, 168 S.E.2d 24 (1969).

Since injuries intentionally inflicted by employees of a State agency are not compensable under the Tort Claims Act, the Industrial Commission correctly dismissed claims of false imprisonment and intentional infliction of emotional distress against the Disciplinary Hearing Commission. Frazier v. Murray, 135 N.C. App. 43, 519 S.E.2d 525 (1999).

Nor for Negligent Failure to Act. — The Tort Claims Act permits recovery only for the negligent acts of State employees, but does not permit recovery for their negligent failure to act. Brooks v. University of N.C., 2 N.C. App. 157, 162 S.E.2d 616 (1968).

Under the State Tort Claims Act, recovery is permitted for injuries resulting from a negligent act, but not those resulting from a negligent omission on the part of State employees. Mackey v. North Carolina State Hwy. Comm'n, 4 N.C. App. 630, 167 S.E.2d 524 (1969); Watson

v. North Carolina Dep't of Cor., 47 N.C. App. 718, 268 S.E.2d 546, cert. denied, 301 N.C. 239, 283 S.E.2d 135 (1980).

The Tort Claims Act is applicable only to negligent acts of State employees and is not applicable to negligent omissions. Etheridge v. Graham, 14 N.C. App. 551, 188 S.E.2d 551 (1972).

The Tort Claims Act permits recovery only for negligent acts of employees of the Highway Commission (now Department of Transportation), not for their negligent omissions or failures to act. Ayscue v. North Carolina State Hwy. Comm'n, 270 N.C. 100, 153 S.E.2d 823 (1967).

The Highway Commission (now Department of Transportation) is an agency of the State and is not liable for the negligent omissions of its employees even under the provisions of the Tort Claims Act. Midgett v. North Carolina State Hwy. Comm'n, 265 N.C. 373, 144 S.E.2d 121 (1965).

The intent of the legislature was to permit recovery under the Tort Claims Act only for the negligent acts of State employees, for the things done by them, not for the things left undone. Flynn v. North Carolina State Hwy. & Pub. Works Comm'n, 244 N.C. 617, 94 S.E.2d 571 (1956).

An omission or failure to act will not support a tort claim. Wrape v. North Carolina State Hwy. Comm'n, 263 N.C. 499, 139 S.E.2d 570 (1965).

Recovery may be had against the state under the Tort Claims Act for injuries resulting from negligent action but not for negligent omissions; however, an undertaking negligently implemented is an actionable negligent action. Isenhour v. Hutto, 129 N.C. App. 596, 501 S.E.2d 78 (1998), aff'd in part and rev'd in part on other grounds, 350 N.C. 601, 517 S.E.2d 121 (1999).

Hence the requirement of the statute is not met by showing negligence, for negligence may consist of an act or an omission. Failure to act is not an act. Mackey v. North Carolina State Hwy. Comm'n, 4 N.C. App. 630, 167 S.E.2d 524 (1969); Watson v. North Carolina Dep't of Cor., 47 N.C. App. 718, 268 S.E.2d 546, cert. denied, 301 N.C. 239, 283 S.E.2d 135 (1980).

But one who undertakes to do something and does it negligently commits a negligent act, not a negligent omission. Mackey v. North Carolina State Hwy. Comm'n, 4 N.C. App. 630, 167 S.E.2d 524 (1969).

For case distinguishing between ordinary negligence and wanton and willful negligence, see Braswell v. North Carolina A & T State Univ., 5 N.C. App. 1, 168 S.E.2d 24 (1969).

Negligent planning or negligent execution of plans may give rise to a tort claim. Wrape v. North Carolina State Hwy. Comm'n, 263 N.C. 499, 139 S.E.2d 570 (1965).

Neither intentional misrepresentation nor conspiracy to defraud is negligence. Davis v. North Carolina State Hwy. Comm'n, 271 N.C. 405, 156 S.E.2d 685 (1967).

False Representation and False Inducement. — A claim against the State and its agents for damages for the intentional torts of false representation and fraudulent inducement was barred by the doctrine of sovereign immunity since suits against the State, its agencies and its officers for alleged tortious acts can be maintained only to the extent authorized by the Tort Claims Act, and intentional torts are not compensable under the act. Wojsko v. State, 47 N.C. App. 605, 267 S.E.2d 708, cert. denied and appeal dismissed, 301 N.C. 238, 283 S.E.2d 136 (1980).

Failure to Remove Gravel from Road. — The failure of the State Highway Commission (now Department of Transportation) employees to remove gravel from a road cannot be the basis for an award under the Tort Claims Act. Ayscue v. North Carolina State Hwy. Comm'n, 270 N.C. 100, 153 S.E.2d 823 (1967).

Failure to Repair Hole in Highway. — Recovery could not be had for injuries in a wreck resulting from the negligent failure or omission of the responsible employees of the Highway Commission (now Department of Transportation) to repair a hole in a State highway. Flynn v. North Carolina State Hwy. & Pub. Works Comm'n, 244 N.C. 617, 94 S.E.2d 571 (1956).

Failure to Erect Guardrail. — The Department of Transportation's intentional, discretionary decision not to erect a guardrail at the site of fatal accident was not so clearly unreasonable as to amount to oppressive and manifest abuse so as to invoke the jurisdiction of the judiciary or the Industrial Commission to review the discretionary policy-making decisions of the Department, nor was it a breach of any duty imposed upon it. Thus, the Department was not negligent in any respect within the meaning of the Tort Claims Act, and no act or omission upon the part of defendant was the proximate cause of the accident and the deaths of plaintiff's decedents. Hochheiser v. North Carolina Dep't of Transp., 82 N.C. App. 712, 348 S.E.2d 140 (1986), aff'd, 321 N.C. 117, 361 S.E.2d 562 (1987).

Failure to Post Adequate Signage on Railroad Crossing. — North Carolina Department of Transportation was liable under the Tort Claims Act, G.S. 143-291 et seq., for failing to post adequate signage at a railroad crossing that was difficult to cross for low vehicles due to the grade of the road, because it had a duty to put up signs to warn of the risk, pursuant to G.S. 136-18(5), and it instead chose to direct trucks on an alternate route after finding that signs often went unheeded; despite

the alternate route recommendation, the Department had a duty to warn drivers of the crossing, the failure to post such warnings was a breach of its duty and was the proximate cause of a truck driver's tractor-trailer getting stuck on the crossing and thereafter hit by a train, and there was no contributory negligence by the truck driver who bypassed the alternate route because there were no weight limit or other warning signs posted pursuant to G.S. 20-116(h). Smith v. N.C. DOT, 156 N.C. App. 92, 576 S.E.2d 345, 2003 N.C. App. LEXIS 83 (2003).

Silting of Pond. — The owner of a pond may not recover under the State Tort Claims Act for damage to the pond resulting from silt washed down from a fill necessarily incident to the improvement of a highway, the improvement having been made in accordance with plans and specifications, and there being no contention that the plans and specifications were faulty or negligently formulated. However, in the absence of negligent acts, the owner of property is entitled to compensation if the construction of a highway amounts to a taking of his property. Wrape v. North Carolina State Hwy. Comm'n, 263 N.C. 499, 139 S.E.2d 570 (1965).

Switching Glass Door for Screen Door. — In action brought by plaintiff as guardian ad litem for his injured son for injuries suffered when the child pushed through a glass panel installed by defendant's employee on storm door of an apartment rented by plaintiff, the Commission could find and conclude that the replacement of the screen panel with glass by defendant's employee was not reasonably prudent conduct under the circumstances presented, as defendant's employee had actual knowledge that plaintiff's children habitually opened the door in question by pushing forcefully on the middle panel, and the Court of Appeals erred in reversing the Commission's resolution of the question. Bolkhir v. North Carolina State Univ., 321 N.C. 706, 365 S.E.2d 898 (1988).

Plate Glass Window. — Safety manager was not responsible for the kind of glass which was installed in the building in the 1960's and neither knew nor should have known of the danger to plaintiff; therefore, assuming that plaintiff was an invitee, plaintiff's injuries from walking through the plate glass window were not due to any negligence on the part of defendant's safety manager. Ambrose v. University of North Carolina, 118 N.C. App. 659, 456 S.E.2d 342 (1995).

Issuance of Identification Card in Plaintiff's Name to Someone Else. — Where plaintiff suffered personal injury proximately caused by a Division of Motor Vehicles employee who, in the course of his employment, issued a special identification card in her name to another person, no language in the statute prohibited plaintiff from bringing the action against the State. Talbot v. North Carolina Dep't of Transp., 95 N.C. App. 446, 382 S.E.2d 447 (1989).

Negligent Use of Excessive Force in Restraint of Plaintiff. — Where Commission found that defendant's agents, in negligently using more force than was necessary to restrain plaintiff, beat plaintiff about the head, neck and wrist with a blackjack and other weapons, resulting in contusions to his neck and wrist, continued intermittent pain and weakness in his right wrist, numbness in his right hand, and inability to perform some tasks in his work as an upholsterer, award of $9,000 for pain and suffering and partial disability under the Tort Claims Act was not excessive. Jackson v. North Carolina Dep't of Crime Control & Pub. Safety, 97 N.C. App. 425, 388 S.E.2d 770, cert. denied, 326 N.C. 596, 393 S.E.2d 878 (1990).

Where the Commission found as a fact that although defendant's agents intended to violently restrain plaintiff, they did not intend to use excessive force, but that in fact they did, the Commission's conclusion that defendant's agents were negligent in using more force than was necessary, thus injuring plaintiff, was supported by the findings. Jackson v. North Carolina Dep't of Crime Control & Pub. Safety, 97 N.C. App. 425, 388 S.E.2d 770 (1990), cert. denied, 326 N.C. 596, 393 S.E.2d 878 (1990).

Negligence of Trooper Causing Automobile Accident. — Where trooper was speeding to try to find a possible drunk driver and struck plaintiff's car as she crossed the highway, the deputy commissioner's finding that the collision would have been avoided had the trooper managed to steer more to the left, when taken into account with the particular circumstances of the accident, mandated the conclusion that the trooper was negligent as a matter of law by failing to slow down when he saw plaintiff's vehicle positioning itself to pull out into his lane of travel. Minks v. North Carolina Hwy. Patrol, 116 N.C. App. 710, 449 S.E.2d 483 (1994).

Acts by Parole Commission. — Where parole commission granted prisoner parole based on findings of most recent psychological evaluation, commission was immune from action of surviving spouse of victim killed by parolee because parole commission acted within the scope of their official duties in making such decision. Collins v. North Carolina Parole Comm'n, 344 N.C. 179, 473 S.E.2d 1 (1996).

Medical Negligence. — Evidence held sufficient to support claim of negligence in that doctor and nurse at state psychiatric hospital violated the applicable standards of practice by placing plaintiff in seclusion and restraints after he threw his dinner tray against a wall, and by failing to release him within the first

three hours of his seclusion and restraint. Alt v. John Umstead Hosp., 125 N.C. App. 193, 479 S.E.2d 800 (1997).

Claimant Must Be Free of Contributory Negligence. — The Tort Claims Act does not authorize recovery unless the claimant is free from contributory negligence. Huff v. Northampton County Bd. of Educ., 259 N.C. 75, 130 S.E.2d 26 (1963).

In order for claimant to prevail in a proceeding under the State Tort Claims Act, he must show not only injury resulting from negligence of a designated State employee, but also that claimant was not guilty of contributory negligence. Floyd v. North Carolina State Hwy. & Pub. Works Comm'n, 241 N.C. 461, 85 S.E.2d 703 (1955).

The State may prescribe such terms and conditions as it sees fit, subject to constitutional limitations, in waiving its governmental immunity to suit for negligence, and the State Tort Claims Act permits recovery against the State only for such injuries as are proximately caused by negligence of a State employee while acting within the scope of his employment when there is no contributory negligence on the part of the claimant or the person in whose behalf the claim is asserted. Alliance Co. v. State Hosp., 241 N.C. 329, 85 S.E.2d 386 (1955).

For case holding plaintiff contributorily negligent as a matter of law, see Braswell v. North Carolina A & T State Univ., 5 N.C. App. 1, 168 S.E.2d 24 (1969).

Negligence, etc., Determined Under Same Rules as Apply to Private Litigation. — Negligence, contributory negligence and proximate cause, as well as the applicability of the doctrine of respondeat superior, are to be determined under the same rules as those applicable to litigation between private individuals. Barney v. North Carolina State Hwy. Comm'n, 282 N.C. 278, 192 S.E.2d 273 (1972).

And Both Industrial Commission and Court Are Bound by Law of Negligence. — The legislature intended that the Industrial Commission on the original hearing and the superior court (now the Court of Appeals) on the hearing on appeal should each be bound by the law of negligence, both substantive and adjective, as such common-law rules and doctrines appear in the numerous decisions of the Supreme Court, subject only to the limitations stipulated in the Act. MacFarlane v. North Carolina Wildlife Resources Comm'n, 244 N.C. 385, 93 S.E.2d 557 (1956).

Meaning of "Employee". — The word "employee," as used in the State Tort Claims Act, must be given its ordinary meaning in construing the statute. Alliance Co. v. State Hosp., 241 N.C. 329, 85 S.E.2d 386 (1955).

The word "employee" means one who works for wages or salary in the service of an employer. Alliance Co. v. State Hosp., 241 N.C. 329, 85 S.E.2d 386 (1955).

Public Employee. — The Supervisor of the Adult Protective Services Unit of, and a social worker for Department of Social Services were found to be public employees, not public officers. Meyer v. Walls, 122 N.C. App. 507, 471 S.E.2d 422 (1996), aff'd in part and rev'd in part, 347 N.C. 97, 489 S.E.2d 880 (1997).

A prisoner detained at a State penal institution was not an employee of the State within the meaning of the State Tort Claims Act, and the State could not be held liable under that statute for negligent injury inflicted by such prisoner while his services were made use of. Alliance Co. v. State Hosp., 241 N.C. 329, 85 S.E.2d 386 (1955).

Nor Was a School Maintenance Worker. — A person employed by a city board of education to do maintenance work in the city school grounds was not an employee of the State, and demurrer of the State Board of Education was properly sustained in proceedings against it under this section to recover for the negligence of such employee in the discharge of his duties. Turner v. Gastonia City Bd. of Educ., 250 N.C. 456, 109 S.E.2d 211 (1959).

Employee Is Personally Liable for Own Negligence. — An employee of the Highway Commission (now Department of Transportation) is personally liable for his own actionable negligence. Wirth v. Bracey, 258 N.C. 505, 128 S.E.2d 810 (1963); Givens v. Sellars, 273 N.C. 44, 159 S.E.2d 530 (1968).

Recovery against the county board of education pursuant to the Tort Claims Act did not bar plaintiff's claims against the individual bus driver who caused the wreck, or plaintiff's uninsured motorist/underinsured motorist (UM/UIM) carrier for damages in excess of the maximum recovery allowable under the Tort Claims Act. Oakley v. Thomas, 112 N.C. App. 130, 434 S.E.2d 663 (1993).

And Claims Against Both Agency and Employee Are Not Inconsistent. — There is no inconsistency in respect of plaintiff's claims against the Highway Commission (now Department of Transportation) and actions against an employee since both are grounded on the actionable negligence of the employee and are cumulative and consistent. Wirth v. Bracey, 258 N.C. 505, 128 S.E.2d 810 (1963).

But recovery against the negligent employee must be by common-law action. Wirth v. Bracey, 258 N.C. 505, 128 S.E.2d 810 (1963); Givens v. Sellars, 273 N.C. 44, 159 S.E.2d 530 (1968); Mason v. North Carolina State Hwy. Comm'n, 7 N.C. App. 644, 173 S.E.2d 515 (1970).

Plaintiff Held Precluded from Further Recovery Due to Settlement in Action Against Employee. — Where a person injured by the alleged negligence of a State employee while engaged in the discharge of his duties as

such brought suit against the employee before the passage of the Tort Claims Act, and a compromise was effected in the suit whereby the employee or his insurer paid the plaintiff $9,715.00 and the plaintiff released the employee and his insurer from all claims arising out of the accident, a subsequent action by the plaintiff against the State under the Tort Claims Act was properly dismissed, because (1) plaintiff had recovered from the employee an amount in excess of the maximum he could be awarded against the State, which was then $8,000, and (2) plaintiff had released the employee, the active tort-feasor, from further liability. MacFarlane v. North Carolina Wildlife Resources Comm'n, 244 N.C. 385, 93 S.E.2d 557 (1956), wherein the plaintiff had been named in the Tort Claims Act as one whose claim should be heard and determined by the Industrial Commission, and the amount of his claim had been listed in the Act as $25,000.

Failure to Challenge Public Purpose of Actions. — In consolidated action brought by property owners as a result of the disposal of waste materials from a highway project, where no party challenged the trial court's conclusion that the acts of the defendants in disposing of the waste materials from the project were not for a public purpose, neither the plaintiffs nor the other defendants could maintain an action against the Department of Transportation arising from those acts. Clark v. Asheville Contracting Co., 316 N.C. 475, 342 S.E.2d 832 (1986).

State cannot be an absolute insurer of the safety of everyone committed to its custody. Taylor v. Stonewall Jackson Manual Training & Indus. School, 5 N.C. App. 188, 167 S.E.2d 787 (1969).

North Carolina Department of Health and Human Services (DHHS) could not be held liable under the doctrine of respondeat superior for a foster father's conduct and the North Carolina Industrial Commission correctly ruled that it did not have jurisdiction to hear a claim which a guardian ad litem filed against DHHS in behalf of a foster child after the child was injured by the child's foster father. Creel v. N.C. Dep't of Health & Human Servs., 152 N.C. App. 200, 566 S.E.2d 832, 2002 N.C. App. LEXIS 900 (2002).

As to the right of a prisoner or his estate to maintain an action under this section, in light of § 97-13, see Lawson v. North Carolina State Hwy. & Pub. Works Comm'n, 248 N.C. 276, 103 S.E.2d 366 (1958); Ivey v. North Carolina Prison Dep't, 252 N.C. 615, 114 S.E.2d 812 (1960).

Damages Within Discretion of Commission. — The amount of damages to be awarded is a matter which this section leaves to the discretion of the Commission. Brown v. Charlotte-Mecklenburg Bd. of Educ., 269 N.C. 667, 153 S.E.2d 335 (1967).

Post-judgment interest not authorized. — Absent a specific statutory provision authorizing the accrual of interest on damage awards under this section, the State Tort Claims Act, no post-judgment interest can accrue to a tort claims award thereunder. Myers v. Department of Crime Control & Pub. Safety, 67 N.C. App. 553, 313 S.E.2d 276 (1984).

Claimant awarded $60,000 in his action against the Department of Crime Control and Public Safety under this section, the State Tort Claims Act, was not entitled to post-judgment interest on the award pending appeal. Myers v. Department of Crime Control & Pub. Safety, 67 N.C. App. 553, 313 S.E.2d 276 (1984).

Post-Judgment Interest Not Authorized. — Plaintiff was not entitled to pre- or post-judgment interest under G.S. 24-5 for his claim against the State under the Tort Claims Act. McGee v. North Carolina Dep't of Revenue, 135 N.C. App. 319, 520 S.E.2d 84 (1999).

The Commission has jurisdiction and authority to award attorney's fees pursuant to G.S. 6-21.1 for actions brought under the Tort Claims Act. Karp v. University of N.C., 88 N.C. App. 282, 362 S.E.2d 825 (1987), aff'd, 323 N.C. 473, 373 S.E.2d 430 (1988).

The right of subrogation exists under the provisions of this Article against State departments and agencies. Lyon & Sons v. North Carolina State Bd. of Educ., 238 N.C. 24, 76 S.E.2d 553 (1953).

Public Duty Doctrine Applicable to Tort Claims Act Actions. — The public duty doctrine, by barring negligence actions against a governmental entity absent a "special relationship" or a "special duty" to a particular individual, applies to claims brought under the Tort Claims Act. Stone v. North Carolina Dep't of Labor, 347 N.C. 473, 495 S.E.2d 711 (1998).

Claim Barred by Public Duty Doctrine. — A claim against the Department of Labor under the Tort Claims Act based on the failure of a Department employee to enforce compliance with regulations regarding go-kart seat belts did not fall within the "special relationship" or "special duty" exceptions to the public duty doctrine and the claim was barred. Hunt ex rel. Hasty v. North Carolina Dep't of Labor, 125 N.C. App. 293, 480 S.E.2d 413 (1997), rev'd, 348 N.C. 192, 499 S.E.2d 747 (1998).

State Subdivisions Held Entitled to Sovereign Immunity. — In a former employee's lawsuit alleging discrimination based on race and disability, as subdivisions of the State of North Carolina, an employer (the North Carolina Zoological Park) and its parent agency (the North Carolina Department of Environment and Natural Resources) were entitled to sovereign immunity, from the employee's claims for negligent and intentional infliction of emotional distress; thus, the court dismissed those claims. McInnis v. N.C. Dep't of Env't & Natu-

ral Res., 223 F. Supp. 2d 758, 2002 U.S. Dist. LEXIS 19182 (M.D.N.C. 2002).

Applied in Greene v. Mitchell County Bd. of Educ., 237 N.C. 336, 75 S.E.2d 129 (1953); Gould v. North Carolina State Hwy. & Pub. Works Comm'n, 245 N.C. 350, 95 S.E.2d 910 (1957); Gordon v. North Carolina State Hwy. & Pub. Works Comm'n, 250 N.C. 645, 109 S.E.2d 376 (1959); Gay v. Wake County Bd. of Educ., 254 N.C. 622, 119 S.E.2d 460 (1961); Burlington Indus., Inc. v. State Hwy. Comm'n, 262 N.C. 620, 138 S.E.2d 281 (1964); Bateman v. Elizabeth City State College, 5 N.C. App. 168, 167 S.E.2d 838 (1969); Cogburn v. North Carolina State Hwy. Comm'n, 14 N.C. App. 544, 188 S.E.2d 553 (1972); Stroud v. North Carolina Mem. Hosp., 15 N.C. App. 592, 190 S.E.2d 392 (1972); Bullman v. North Carolina State Hwy. Comm'n, 18 N.C. App. 94, 195 S.E.2d 803 (1973); Brown v. Vance, 55 N.C. App. 387, 285 S.E.2d 333 (1982).

Cited in Eller v. Board of Educ., 242 N.C. 584, 89 S.E.2d 144 (1955); Bradshaw v. State Bd. of Educ., 244 N.C. 393, 93 S.E.2d 434 (1956); Lowe v. Univ. of N.C. at Chapel Hill, 152 N.C. App. 163, 567 S.E.2d 215, 2002 N.C. App. LEXIS 887 (2002).

II. PROCEDURE.

Editor's Note. *— Some of the cases below were decided prior to the amendments to G.S. 143-300 making the Rules of Civil Procedure applicable to proceedings under this Article.*

Limitation on Claims Same as If Agency Were Private Person. — The legal limitation on the right to allow a claim under the provisions of the State Tort Claims Act is limited to the same category with respect to tort claims against the agency covered as if such agency were a private person and such private person would be liable under the laws of North Carolina. Guthrie v. North Carolina State Ports Auth., 307 N.C. 522, 299 S.E.2d 618 (1983).

A party to a compensation case is not entitled to try his case "piecemeal." Bailey v. North Carolina Dep't of Mental Health, 272 N.C. 680, 159 S.E.2d 28 (1968).

State May Require Claimant to Follow Certain Procedural Rules. — In a suit against the State for an alleged tort, the plaintiff cannot complain when the State requires him to follow certain procedural rules before it gives its consent to waive its sovereign immunity. Bailey v. North Carolina Dep't of Mental Health, 2 N.C. App. 645, 163 S.E.2d 652 (1968).

Which May Differ from Court Procedure. — The manner in which the Industrial Commission transacts its business need not necessarily conform to court procedure. Crawford v. Wayne County Bd. of Educ., 3 N.C. App. 343, 164 S.E.2d 748 (1968), aff'd, 275 N.C. 354, 168 S.E.2d 33 (1969).

The Legislature has made the procedure in hearings before the Industrial Commission different from the procedures in the superior court. Bailey v. North Carolina Dep't of Mental

Health, 2 N.C. App. 645, 163 S.E.2d 652 (1968).

Determination of jurisdiction is the first order of business in every proceeding before the Industrial Commission. Crawford v. Wayne County Bd. of Educ., 3 N.C. App. 343, 164 S.E.2d 748 (1968), aff'd, 275 N.C. 354, 168 S.E.2d 33 (1969).

Affidavit and Evidence Must Name Employee and Set Forth Act of Negligence. — It is necessary to recovery that the affidavit filed in support of the claim and the evidence offered before the Commission identify the employee alleged to have been negligent and set forth the specific act or acts of negligence relied upon. Ayscue v. North Carolina State Hwy. Comm'n, 270 N.C. 100, 153 S.E.2d 823 (1967); Brooks v. University of N.C., 2 N.C. App. 157, 162 S.E.2d 616 (1968).

It is necessary to a recovery under this section that the affidavit of claimant set forth the name of the allegedly negligent employee and the acts of negligence relied upon. Crawford v. Wayne County Bd. of Educ., 275 N.C. 354, 168 S.E.2d 33 (1969).

Purpose of Naming Negligent Employee. — The purpose of requiring the negligent employee to be named is to enable the department of the State against which the claim is made to investigate, not all of its employees, but the particular ones actually involved. Crawford v. Wayne County Bd. of Educ., 275 N.C. 354, 168 S.E.2d 33 (1969).

Amendment of Affidavit to Allege Name of Employee Held Proper. — In a proceeding under the Tort Claims Act, the Industrial Commission properly allowed amendment of claimant's affidavit to allege the name of the negligent State employee, since the amendment served the purpose of showing the existence of jurisdiction rather than conferring it. Crawford v. Wayne County Bd. of Educ., 3 N.C. App. 343, 164 S.E.2d 748 (1968), aff'd, 275 N.C. 354, 168 S.E.2d 33 (1969).

Affidavit Held Insufficient for Failure to Specify Act of Negligence. — Where the affidavit filed with the Commission alleged only that a named person was the road maintenance supervisor for the defendant Highway Commission (now Department of Transportation) in the county where the injury occurred on an allegedly defective highway, but it did not allege any act done by him, and there was no evidence of any negligent act on his part, the record would not support an order for recovery under the Tort Claims Act. Ayscue v. North Carolina State Hwy. Comm'n, 270 N.C. 100, 153 S.E.2d 823 (1967).

The Industrial Commission must make findings of fact and conclusions of law to determine the issues raised by the evidence in a case before it. Martinez v. Western Carolina Univ., 49 N.C. App. 234, 271 S.E.2d 91 (1980).

This section prohibits the Industrial Commission from awarding specific performance rather than monetary damages. Price v. North Carolina Dep't of Cor., 103 N.C. App. 609, 406 S.E.2d 906 (1991).

Covering Crucial Questions of Fact. — Specific findings covering the crucial questions of fact upon which a plaintiff's right to compensation depends are required to be made by the Industrial Commission. Martinez v. Western Carolina Univ., 49 N.C. App. 234, 271 S.E.2d 91 (1980).

But the Commission is not required to make a finding as to each detail of the evidence or as to every inference or shade of meaning to be drawn therefrom. Bundy v. Cabarrus County Bd. of Educ., 5 N.C. App. 397, 168 S.E.2d 682 (1969).

The Industrial Commission is not required to make findings coextensive with the credible evidence. Bundy v. Cabarrus County Bd. of Educ., 5 N.C. App. 397, 168 S.E.2d 682 (1969).

Findings Necessary to Authorize Payment. — In order to authorize the payment of compensation, the Industrial Commission's findings must include (1) a negligent act, (2) on the part of a State employee, (3) while acting in the scope of his employment. Mackey v. North Carolina State Hwy. Comm'n, 4 N.C. App. 630, 167 S.E.2d 524 (1969).

How Facts to Be Found. — The determination of facts must be found from judicial admissions made by the parties, facts agreed, stipulations entered into and noted at the hearing, and evidence offered in open court, after all parties have been given full opportunity to be heard. Crawford v. Wayne County Bd. of Educ., 3 N.C. App. 343, 164 S.E.2d 748 (1968), aff'd, 275 N.C. 354, 168 S.E.2d 33 (1969).

Finding of Fact Supported by Evidence is Binding on Appeal. — A finding of fact on appeal by the Industrial Commission, other than a jurisdictional finding, is conclusive if there is any competent evidence in the record to support it. Barney v. North Carolina State Hwy. Comm'n, 282 N.C. 278, 192 S.E.2d 273 (1972).

Where the Industrial Commission's finding of fact is supported by the evidence, it is binding upon the Court of Appeals, even though a finding to the contrary could have been made. Hulcher Bros. & Co. v. North Carolina Dep't of Transp., 76 N.C. App. 342, 332 S.E.2d 744 (1985).

A finding of fact by the Industrial Commission in a proceeding under the Tort Claims Act is binding if there is any competent evidence to support it. Bolkhir v. North Carolina State Univ., 321 N.C. 706, 365 S.E.2d 898 (1988).

But the Industrial Commission's designation of a declaration as a finding of fact is not conclusive. Barney v. North Carolina State Hwy. Comm'n, 282 N.C. 278, 192 S.E.2d 273 (1972).

Industrial Commission Not Bound by

Deputy Commissioner's Findings and Conclusions. — In an action filed pursuant to the North Carolina Tort Claims Act, G.S. 143-291 et seq., by a university student who was injured while lifting weights in a university facility, the North Carolina Industrial Commission was not bound by a deputy commissioner's findings of fact or by the deputy commissioner's award of $500,000 to the student; the full Commission properly made its own findings of fact after reviewing the record of the hearing before the deputy commissioner, and its award of $50,000 to the student was upheld on appeal. Hummel v. Univ. of N.C., 156 N.C. App. 108, 576 S.E.2d 124, 2003 N.C. App. LEXIS 72 (2003).

Determination of negligence, proximate cause, and contributory negligence are mixed questions of law and fact in a proceeding under the Tort Claims Act and are reviewable on appeal from the Industrial Commission, and the designation "Finding of Fact" or "Conclusion of Law" by the Commission is not conclusive. Braswell v. North Carolina A & T State Univ., 5 N.C. App. 1, 168 S.E.2d 24 (1969); Martinez v. Western Carolina Univ., 49 N.C. App. 234, 271 S.E.2d 91 (1980).

Negligence and contributory negligence are mixed questions of law and fact and, upon appeal, the reviewing court must determine whether facts found by the Industrial Commission support its conclusion of contributory negligence. Barney v. North Carolina State Hwy. Comm'n, 282 N.C. 278, 192 S.E.2d 273 (1972).

Negligence is a mixed question of law and fact, and the reviewing court must determine whether the Commission's findings support its conclusions. Bolkhir v. North Carolina State Univ., 321 N.C. 706, 365 S.E.2d 898 (1988).

Prior Practice as Proper Factor for Consideration. — Where evidence was presented to the Industrial Commission that even before the employee named in plaintiff's complaint recommended spaces be painted on the road, vehicles waiting to board a ferry had lined up in the southbound lane and vehicles wanting to reach the parking lot had passed the stopped vehicles by driving south in the northbound lane, a finding of the practice before the spaces were painted was important, because there was no evidence before the Industrial Commission that the employee designed the waiting area or created the problem of motorists driving in the wrong lane to the parking lot; therefore, plaintiff did not show that employee's recommendations were a proximate cause of decedent's injury. Woolard v. North Carolina Dep't of Transp., 93 N.C. App. 214, 377 S.E.2d 267, cert. denied, 325 N.C. 230, 381 S.E.2d 792 (1989).

Power of Commission to Grant Rehearing. — The Industrial Commission, in a proper case, may grant a rehearing and hear additional evidence. Bailey v. North Carolina Dep't of Mental Health, 272 N.C. 680, 159 S.E.2d 28 (1968).

A motion for a further hearing on the ground of introducing additional or newly discovered evidence rests in the sound discretion of the Industrial Commission, and its ruling thereon is not reviewable in the absence of an abuse of discretion by the Commission. Mason v. North Carolina State Hwy. Comm'n, 273 N.C. 36, 159 S.E.2d 574 (1968).

Waiver of Objection to Conduct of Second Hearing. — In a Tort Claims Act proceeding, where defendant county board of education made no objection to a member of the Industrial Commission conducting the second hearing, the first hearing and award being conducted by another member of the Commission, the defendant was held to have waived any objection thereto, especially when defendant joined in the request for a second hearing and had sufficient notice beforehand as to the identity of the Commissioner. Crawford v. Wayne County Bd. of Educ., 3 N.C. App. 343, 164 S.E.2d 748 (1968), aff'd, 275 N.C. 354, 168 S.E.2d 33 (1969).

Third-Party Complaint Against the State Held Improperly Dismissed. — Where the state was the subject of an action as a third-party defendant for indemnification pursuant to subsection (c) of this rule, the trial court erred when it dismissed a third-party complaint against the Department of Transportation. Columbus County Auto Auction, Inc. v. Aycock Auction Co., 90 N.C. App. 439, 368 S.E.2d 888 (1988).

Lack of Jurisdiction over Crossclaim. — The Legislature has not similarly excepted crossclaims against the State from the Tort Claims Act as it has for third-party claims, and the State may be sued in tort only as authorized by the Tort Claims Act; therefore, the superior court had no subject matter jurisdiction over defendant's crossclaim against the State. Selective Ins. Co. v. NCNB Nat'l Bank, 91 N.C. App. 597, 372 S.E.2d 876 (1988), rev'd on other grounds, 324 N.C. 560, 380 S.E.2d 521 (1989).

Failure to Establish Basis for Application of "Foreseeability Test". — Although city police department had notice of incidents in which objects were dropped or thrown from a bridge, the employees, officers and agents of the Greensboro Police Department were not employees, officers or agents of the State under the Tort Claims Act; therefore, in suit for damages based upon injuries sustained when an object thrown from the bridge struck plaintiff, who was a passenger in a car below, plaintiff failed to show actual or constructive knowledge attributable to the State Department of Transportation. Stallings v. North Carolina DOT, 92 N.C. App. 346, 374 S.E.2d 469 (1988).

Choice of Law in Action for Collision Occurring in Virginia. — In an action

brought in this State under the Tort Claims Act for a collision which occurred in Virginia, the substantive law of Virginia and the procedural law of North Carolina apply. Parsons v. Alleghany County Bd. of Educ., 4 N.C. App. 36, 165 S.E.2d 776 (1969).

As to joinder of the State in the State courts as a third-party defendant, see Teachy v. Coble Dairies, Inc., 306 N.C. 324, 293 S.E.2d 182 (1982).

Even though, under G.S. 1A-1, Rule 14(c) of the North Carolina Rules of Civil Procedure (third party practice), the State may be made a third party in a tort action, the rules governing liability and the limits of liability of the State and its agencies as provided in the State Tort Claims Act apply. Guthrie v. North Carolina State Ports Auth., 307 N.C. 522, 299 S.E.2d 618 (1983).

Contribution Among Tort-Feasors Act. — Although under the Uniform Contribution Among Tort-Feasors Act (G.S. 1B-1), the State may be sued for contribution as a joint tort-feasor, the rules governing and limiting the liability of the State and its agencies as provided in the Tort Claims Act apply. Guthrie v. North Carolina State Ports Auth., 307 N.C. 522, 299 S.E.2d 618 (1983).

Plaintiff was not collaterally estopped from bringing a medical negligence claim against state psychiatric hospital and staff, even though in a prior claim for malicious prosecution, false imprisonment and deprivation of due process, summary judgment had been granted in favor of defendant hospital and staff. Alt v. John Umstead Hosp., 125 N.C. App. 193, 479 S.E.2d 800 (1997).

OPINIONS OF ATTORNEY GENERAL

Local sanitation inspectors are serving as officers, employees or agents of the State while acting within the scope of their office, employment, service, agency or authority in performing migrant housing inspections, and the inspectors are covered by the State Tort Claims Act when performing such inspections. See opinion of Attorney General to Mr. Bob Everett, Chairman, North Carolina Farm Worker Council, 57 N.C.A.G. 2 (1987).

North Carolina Emergency Response Commission. — State employees named to the North Carolina Emergency Response Commission are entitled to coverage under the Tort Claims Act, G.S. 143-291 et seq., as they would be for any other assigned duties. See Opinion of Attorney General to Eric Tolbert, Chairman, N.C. Emergency Response Commission, 2000 N.C. AG LEXIS 14 (9/6/2000).

Members of the North Carolina Emergency Response Commission who are not employed by the state, but appointed by the Governor to act on behalf of the state, become agents of the state and are entitled to coverage under the Tort Claims Act, G.S. 143-291 et seq. See Opinion of Attorney General to Eric Tolbert, Chairman, N.C. Emergency Response Commission, 2000 N.C. AG LEXIS 14 (9/6/2000).

§ 143-291.1. Costs.

The Industrial Commission is authorized by such order to tax the costs against the loser in the same manner as costs are taxed by the superior court in civil actions. When a State department, institution, or agency appeals the decision rendered by the hearing commissioner to the full Commission, the State department, institution or agency shall furnish a copy of the transcript of the hearing to the appellee without cost therefor. The State department, institution or agency concerned is authorized and directed to pay such costs as may be taxed against it, including all costs heretofore taxed against such department, agency or institution. (1955, c. 1102, s. 2; 1971, c. 58.)

CASE NOTES

The Commission has jurisdiction and authority to award attorney's fees pursuant to G.S. 6-21.1 for actions brought under the Tort Claims Act. Karp v. UNC, 88 N.C. App. 282, 362 S.E.2d 825 (1987), aff'd, 323 N.C. 473, 373 S.E.2d 430 (1988).

§ 143-291.2. Costs and fees.

(a) The Industrial Commission may by order tax the costs against the losing party in the same amount and the same manner as costs are taxed in the General Court of Justice. When a State department, institution, or agency appeals to the full commission the decision rendered by a hearing commissioner, the State department, institution, or agency shall furnish a copy of the transcript of the hearing to the appellee without cost. The State department, institution, or agency concerned may pay the costs taxed against it. When costs are not paid by a party from whom they are due, the Industrial Commission shall issue an execution for the costs and attach a bill of costs to each execution. The Sheriff shall levy upon the execution as provided in Chapter 6 of the General Statutes in civil actions.

(b) The Industrial Commission shall charge a filing fee for each affidavit initiating a claim filed under this Article in an amount equal to the filing fee charged for civil actions in the Superior Court Division of the General Court of Justice. No filing fee shall be required of indigent persons, provided each claim by an indigent complies with all statutory and administrative requirements applicable to the filing of civil actions by indigents in the Superior Court Division of the General Court of Justice. (1987 (Reg. Sess., 1988), c. 1087, s. 2.)

§ 143-291.3. Counterclaims by State.

The filing of a claim under this Article shall constitute consent by the plaintiff to the jurisdiction of the Industrial Commission to hear and determine any counterclaim of the maximum amount authorized for a claim in G.S. 143-299.2 or less that may be filed on behalf of a State department, institution or agency, or a county or city board of education. A final award of the Industrial Commission awarding damages on a counterclaim shall be filed with the clerk of the superior court of the county where the case was heard. These awards shall be docketed and shall be enforceable in the same manner as judgments of the General Court of Justice. Notwithstanding the provisions of Rule 12 of the Rules of Civil Procedure, nothing in this section shall require the filing of a counterclaim. (1987 (Reg. Sess., 1988), c. 1087, s. 3; 1995, c. 509, s. 82; 2000-67, s. 7A(c).)

Editor's Note. — Session Laws 2000-67, s. 1.1, provides: "This act shall be known as 'The Current Operations and Capital Improvements Appropriations Act of 2000'."

Session Laws 2000-67, s. 7A(j), provides that, notwithstanding the limitations of G.S. 143-291.3, for claims pending on the effective date of the act, any counterclaim made by the State under G.S. 143-291.3 shall not exceed the greater of $150,000 or the amount of the plaintiff's claim.

Session Laws 2000-67, s. 28.2, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 2000-2001 fiscal year, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 2000-2001 fiscal year."

Session Laws 2000-67, s. 28.4, contains a severability clause.

§ 143-292. Notice of determination of claim; appeal to full Commission.

Upon determination of said claim the Commission shall notify all parties concerned in writing of its decision and either party shall have 15 days after receipt of such notice within which to file notice of appeal with the Industrial Commission. Such appeal, when so taken, shall be heard by the Industrial Commission, sitting as a full Commission, on the basis of the record in the matter and upon oral argument of the parties, and said full Commission may

amend, set aside, or strike out the decision of the hearing commissioner and may issue its own findings of fact and conclusions of law. Upon determination of said claim by the Industrial Commission, sitting as a full Commission, the Commission shall notify all parties concerned in writing of its decision. Such determination by the Industrial Commission, sitting as a full Commission, upon claims in an amount of five hundred dollars ($500.00) or less, shall be final as to the State or any of its departments, institutions or agencies, and no appeal shall lie therefrom by the State or any of its departments, institutions or agencies. (1951, c. 1059, s. 2; 1955, c. 770; 1979, c. 581.)

CASE NOTES

Findings and Conclusions of Full Commission. — The legislature's use of the word "may" indicates that although the full Commission is permitted to enter its own findings of fact and conclusions of law, it is not required to do so. Smith v. North Carolina Dep't of Natural Resources & Community Dev., 112 N.C. App. 739, 436 S.E.2d 878 (1993), cert. denied, 336 N.C. 74, 445 S.E.2d 37 (1994).

In an action filed pursuant to the North Carolina Tort Claims Act, G.S. 143-291 et seq., by a university student who was injured while lifting weights in a university facility, the North Carolina Industrial Commission was not bound by a deputy commissioner's findings of fact or by the deputy commissioner's award of $500,000 to the student; the full Commission properly made its own findings of fact after reviewing the record of the hearing before the deputy commissioner, and its award of $50,000 to the student was upheld on appeal. Hummel v. Univ. of N.C., 156 N.C. App. 108, 576 S.E.2d 124, 2003 N.C. App. LEXIS 72 (2003).

Authority of Full Commission. — In an action brought under the Tort Claims Act, G.S. 143-291 et seq., Industrial Commission had the authority under G.S. 143-292 to reject the finding of a deputy commissioner that the actions of a state trooper who shot and killed a driver during a traffic stop were negligent; as the commission lacked jurisdiction over claims involving intentional acts, the claim was properly dismissed. Fennell v. North Carolina Dep't of Crime Control & Pub. Safety, 145 N.C. App. 584, 551 S.E.2d 486, 2001 N.C. App. LEXIS 745 (2001).

The function performed by the full Industrial Commission when addressing claims under the Tort Claims Act is not the same as the one it performs when hearing a workers' compensation claim. The Commission, when hearing appeals of claims from a hearing commissioner under the Tort Claims Act may make its own findings of fact and conclusions of law, but it is not required to do so. When the claimant appeals to the Commission, making only a general allegation that the hearing commissioner erred in finding that the defendant was not negligent and that such decision was not supported by the evidence, the Commission may respond to such appeal by reviewing the record and, when appropriate, may affirm and adopt the decision and order of the hearing commissioner. Brewington v. North Carolina Dep't of Cor., 111 N.C. App. 833, 433 S.E.2d 798 (1993), cert. denied, 335 N.C. 552, 439 S.E.2d 142 (1993).

Cited in Brewington v. North Carolina Dep't of Cor., 111 N.C. App. 833, 433 S.E.2d 798; Bradshaw v. State Bd. of Educ., 244 N.C. 393, 93 S.E.2d 434 (1956); Solomon v. Dixon, 724 F. Supp. 1193 (E.D.N.C. 1989).

§ 143-293. Appeals to Court of Appeals.

Either the claimant or the State may, within 30 days after receipt of the decision and order of the full Commission, to be sent by registered or certified mail, but not thereafter, appeal from the decision of the Commission to the Court of Appeals. Such appeal shall be for errors of law only under the same terms and conditions as govern appeals in ordinary civil actions, and the findings of fact of the Commission shall be conclusive if there is any competent evidence to support them. The appellant shall cause to be prepared a statement of the case as required by the rules of the Court of Appeals. A copy of this statement shall be served on the respondent within 45 days from the entry of the appeal taken; within 20 days after such service, the respondent shall return the copy with his approval or specified amendments endorsed or attached; if the case be approved by the respondent, it shall be filed with the Clerk of the Court of Appeals as a part of the record; if not returned with

objections within the time prescribed, it shall be deemed approved. The chairman of the Industrial Commission shall have the power, in the exercise of his discretion, to enlarge the time in which to serve statement of case on appeal and exceptions thereto or counterstatement of case.

If the case on appeal is returned by the respondent with objections as prescribed, or if a countercase is served on appellant, the appellant shall immediately request the chairman of the Industrial Commission to fix a time and place for settling the case before him. If the appellant delays longer than 15 days after the respondent serves his countercase or exceptions to request the chairman to settle the case on appeal, and delays for such period to mail the case and countercase or exceptions to the chairman, then the exceptions filed by the respondent shall be allowed; or the countercase served by him shall constitute the case on appeal; but the time may be extended by agreement of counsel.

The chairman shall forthwith notify the attorneys of the parties to appear before him for that purpose at a certain time and place, which time shall not be more than 20 days from the receipt of the request. At the time and place stated, the chairman of the Industrial Commission or his designee shall settle and sign the case and deliver a copy to the attorneys of each party. The appellant shall within five days thereafter file it with the Clerk of the Court of Appeals, and if he fails to do so the respondent may file his copy.

No appeal bond or supersedeas bond shall be required of State departments or agencies. (1951, c. 1059, s. 3; 1967, c. 655, s. 1; 1987 (Reg. Sess., 1988), c. 1087, s. 4.)

Legal Periodicals. — For article, "Liability for Discretionary Decisions of State Officers and Employees Under the North Carolina Tort Claims Act: A Critical Analysis of Hochheiser v. North Carolina Dep't of Transp.," see 18 N.C. Cent. L.J. 143 (1989).

CASE NOTES

Necessity for Exceptions and Taking of Appeal. — Where the record failed to show any exception to the findings, conclusions and order of the Industrial Commission dismissing plaintiff's claim or an appeal taken as permitted by this section, the superior court (now Court of Appeals) was without jurisdiction to hear plaintiff's claim. McBride v. North Carolina State Bd. of Educ., 257 N.C. 152, 125 S.E.2d 393 (1962).

Exceptions Should Be Filed Prior to Hearing Before Court. — If the appellants desire to enter exceptions to the findings of fact made by the Industrial Commission, they should file them prior to the hearing in the superior court (now Court of Appeals). Whether the judge should interrupt the hearing and call in the court reporter so that specific exceptions can be taken to certain findings of fact and conclusions of law of the Commission rests in his sound discretion. Greene v. Mitchell County Bd. of Educ., 237 N.C. 336, 75 S.E.2d 129 (1953).

Scope of Judicial Review. — In passing upon an appeal from an award of the Industrial Commission, the reviewing court is limited in its inquiry to two questions of law, namely: (1) Whether or not there was any competent evidence before the Commission to support its findings of fact; and (2) Whether or not the findings of fact of the Commission justify its legal conclusions and decision. Bailey v. North Carolina Dep't of Mental Health, 272 N.C. 680, 159 S.E.2d 28 (1968); Mason v. North Carolina State Hwy. Comm'n, 273 N.C. 36, 159 S.E.2d 574 (1968); Stroud v. North Carolina Mem. Hosp., 15 N.C. App. 592, 190 S.E.2d 392 (1972); Paschall v. North Carolina Dep't of Cor., 88 N.C. App. 520, 364 S.E.2d 144, cert. denied, 322 N.C. 326, 368 S.E.2d 868 (1988).

In reviewing a decision of the Industrial Commission in a case arising under the Tort Claims Act, an appellate court has two questions to consider: whether the Commission's findings of fact are supported by competent evidence, and whether its conclusions of law are supported by its findings of fact. Tanner v. State Dep't of Cor., 19 N.C. App. 689, 200 S.E.2d 350 (1973).

Questions to Consider on Appeal. — When considering an appeal from the Industrial Commission, the North Carolina Court of Appeals is limited to two questions: (1) whether competent evidence exists to support the Commission's findings of fact, and (2) whether the Commission's findings of fact justify its conclu-

sions of law and decision. Simmons v. North Carolina DOT, 128 N.C. App. 402, 496 S.E.2d 790 (1998).

Specific Findings Required for Review. — Specific findings of fact by the Industrial Commission are required. These must cover the crucial questions of fact upon which plaintiff's right to compensation depends. Otherwise, the reviewing court cannot determine whether an adequate basis exists, either in fact or in law, for the ultimate finding. Bailey v. North Carolina Dep't of Mental Health, 272 N.C. 680, 159 S.E.2d 28 (1968).

Commission's Findings Are Conclusive If Supported by Evidence. — The findings of fact by the Industrial Commission are conclusive if there is any competent evidence to support them. Mitchell v. Guilford County Bd. of Educ., 1 N.C. App. 373, 161 S.E.2d 645 (1968); Mackey v. North Carolina State Hwy. Comm'n, 4 N.C. App. 630, 167 S.E.2d 524 (1969).

Even If Evidence Would Support Contrary Findings. — The Industrial Commission's findings of fact are conclusive on appeal when supported by competent evidence, except for jurisdictional findings. This is true, even though there is evidence which would support findings to the contrary. Bailey v. North Carolina Dep't of Mental Health, 272 N.C. 680, 159 S.E.2d 28 (1968); Bailey v. North Carolina Dep't of Mental Health, 2 N.C. App. 645, 163 S.E.2d 652 (1968).

If there is any competent evidence to support findings of fact by the Industrial Commission, such findings are conclusive, and on appeal are not subject to review even though there is evidence that would support a finding to the contrary. English Mica Co. v. Avery County Bd. of Educ., 246 N.C. 714, 100 S.E.2d 72 (1957); Gordon v. North Carolina State Hwy. & Pub. Works Comm'n, 250 N.C. 645, 109 S.E.2d 376 (1959); Jordan v. State Hwy. Comm'n, 256 N.C. 456, 124 S.E.2d 140 (1962); Tanner v. State Dep't of Cor., 19 N.C. App. 689, 200 S.E.2d 350 (1973).

Findings of fact of the Industrial Commission, if supported by any competent evidence, are conclusive on appeal even though there is evidence which would support a contrary finding. Bullman v. North Carolina State Hwy. Comm'n, 18 N.C. App. 94, 195 S.E.2d 803 (1973).

But findings by the Commission which are mixtures of findings of fact and conclusions of law are subject to review on appeal. Brown v. Charlotte-Mecklenburg Bd. of Educ., 269 N.C. 667, 153 S.E.2d 335 (1967).

Finding of Absence of Negligence Upheld. — Where the Industrial Commission found as a fact and concluded as a matter of law that there was no negligence on the part of employee bus driver resulting in damages to the claimant within the purview of G.S. 143-291 to 143-300, and the superior court (now Court of Appeals) was unable to find that there was no evidence to support the finding of the Commission, the judgment of the superior court affirming the decision and order of the Commission was proper. Bradshaw v. State Bd. of Educ., 244 N.C. 393, 93 S.E.2d 434 (1956).

Additional Facts May Not Be Found on Appeal. — Upon an appeal from the Industrial Commission, the reviewing court may not find facts in addition to those found by the Commission, even though there is in the record evidence to support such findings, the appeal being for errors of law only. Brown v. Charlotte-Mecklenburg Bd. of Educ., 269 N.C. 667, 153 S.E.2d 335 (1967).

Reviewability of Ruling on Motion for Further Hearing. — A motion for a further hearing on the ground of introducing additional or newly discovered evidence rests in the sound discretion of the Industrial Commission, and its ruling thereon is not reviewable in the superior court (now Court of Appeals) in the absence of an abuse of discretion by the Commission. Mason v. North Carolina State Hwy. Comm'n, 273 N.C. 36, 159 S.E.2d 574 (1968).

Power to Remand on Ground of Newly Discovered Evidence. — In the superior court (now Court of Appeals) upon appeal from an award by the Industrial Commission, the court has power in a proper case to order a rehearing, and to remand the proceeding to the Industrial Commission, on the ground of newly discovered evidence, but this is a matter within the sound discretion of the court. Mason v. North Carolina State Hwy. Comm'n, 273 N.C. 36, 159 S.E.2d 574 (1968).

Ordinarily, the limited authority of the reviewing court does not permit the judge to order remand of the cause for the taking of additional evidence. However, the judge of the superior court (now Court of Appeals) may remand a cause to the Industrial Commission on the ground of newly discovered evidence in a proper case; such proper case is made out only when it appears by affidavits: (1) that the witness will give the newly discovered evidence; (2) that it is probably true; (3) that it is competent, material, and relevant; (4) that due diligence has been used and the means employed, or that there has been no laches, in procuring the testimony at the trial; (5) that it is not merely cumulative; (6) that it does not tend only to contradict a former witness or to impeach or discredit him; and (7) that it is of such a nature as to show that on another trial a different result will probably be reached and that the right will prevail. Bailey v. North Carolina Dep't of Mental Health, 272 N.C. 680, 159 S.E.2d 28 (1968).

Remand for Misapprehension of Law. — Where facts are found or where the Commission fails to find facts under a misapprehension

of law, the court will, where the ends of justice require, remand the cause so that the evidence may be considered in its true legal light. Bailey v. North Carolina Dep't of Mental Health, 272 N.C. 680, 159 S.E.2d 28 (1968); Bailey v. North Carolina Dep't of Mental Health, 2 N.C. App. 645, 163 S.E.2d 652 (1968).

Remand Where Findings Are Insufficient. — When the findings are insufficient to enable the reviewing court to determine the rights of the parties, the case must be remanded to the Commission for proper findings. Bailey v. North Carolina Dep't of Mental Health, 272 N.C. 680, 159 S.E.2d 28 (1968).

Commission Bound by Order of Court. — Where, in a proceeding under the Tort Claims Act, the superior court (now Court of Appeals) on appeal adjudicates that certain findings of the Commission were not supported by evidence, and remands the cause, the Commission is bound by the order unless and until it is set aside on further appeal to the Supreme Court, and the Commission may not merely rephrase its original findings and adopt them as so rephrased. Johnson v. Cleveland County Bd. of Educ., 241 N.C. 56, 84 S.E.2d 256 (1954).

Applied in Lyon & Sons v. North Carolina State Bd. of Educ., 238 N.C. 24, 76 S.E.2d 553 (1953); Gay v. Wake County Bd. of Educ., 254 N.C. 622, 119 S.E.2d 460 (1961); Lanier v. North Carolina State Hwy. Comm'n, 31 N.C. App. 304, 229 S.E.2d 321 (1976); Withers v. Charlotte-Mecklenburg Bd. of Educ., 32 N.C. App. 230, 231 S.E.2d 276 (1977); Jackson v. North Carolina Dep't of Crime Control & Pub. Safety, 97 N.C. App. 425, 388 S.E.2d 770 (1990).

Cited in Tucker v. North Carolina State Hwy. & Pub. Works Comm'n, 247 N.C. 171, 100 S.E.2d 514 (1957); Adams v. State Bd. of Educ., 248 N.C. 506, 103 S.E.2d 854 (1958); Bateman v. Elizabeth City State College, 5 N.C. App. 168, 167 S.E.2d 838 (1969); Parsons v. Alleghany County Bd. of Educ., 4 N.C. App. 36, 165 S.E.2d 776 (1969); Solomon v. Dixon, 724 F. Supp. 1193 (E.D.N.C. 1989); Medley v. North Carolina Dep't of Cor., 99 N.C. App. 296, 393 S.E.2d 288 (1990); Price v. North Carolina Dep't of Cor., 103 N.C. App. 609, 406 S.E.2d 906 (1991); Midgett v. N.C. DOT, 152 N.C. App. 666, 568 S.E.2d 643, 2002 N.C. App. LEXIS 979 (2002), cert. denied, 356 N.C. 438, 572 S.E.2d 786 (2002); Hummel v. Univ. of N.C., 156 N.C. App. 108, 576 S.E.2d 124, 2003 N.C. App. LEXIS 72 (2003).

§ 143-294. Appeal to Court of Appeals to act as supersedeas.

The appeal from the decision of the Industrial Commission to the Court of Appeals shall act as a supersedeas, and the State department, institution or agency shall not be required to make payment of any judgment until the questions at issue therein shall have been finally determined as provided in this Article. (1951, c. 1059, s. 4; 1967, c. 655, s. 2.)

§ 143-295. Settlement of claims.

(a) Any claims except claims of minors pending or hereafter filed against the various departments, institutions and agencies of the State may be settled upon agreement between the claimant and the Attorney General for an amount not in excess of twenty-five thousand dollars ($25,000), without the approval of the Industrial Commission. The Attorney General may also make settlements by agreement for claims in excess of twenty-five thousand dollars ($25,000) and claims of infants or persons non sui juris, provided such claims have been subject to review and approval by the Industrial Commission.

(b) In settlements under twenty-five thousand dollars ($25,000), agreed upon between the Attorney General and the claimant, the filing of an affidavit as set forth in G.S. 143-297 shall not be required.

(c) Transfer of title of a motor vehicle acquired in behalf of the State in settlement of claim pursuant to the provisions of this Article may be transferred by the Attorney General in the same manner as provided for such transfer by an insurance company under the provisions of G.S. 20-75. (1951, c. 1059, s. 5; 1971, c. 1103, s. 1; 1973, c. 699; 1975, c. 756; 1979, c. 877; 1981, c. 166; 1985, c. 693; 1989, c. 228.)

§ 143-295.1. Settlement of small claims against institutions of the Department of Health and Human Services.

When the property of a resident of a State institution under the Department of Health and Human Services is lost, destroyed, or otherwise damaged through negligent handling by the institution, and the amount of damages is less than five hundred dollars ($500.00), the institution may make direct payment or provide replacement of the item to the resident without recourse to the procedures otherwise provided by this Article. (2003-285, s. 1.)

Editor's Note. — Session Laws 2003-285, s. 2, made this section effective July 4, 2003.

§ 143-296. Powers of Industrial Commission; Deputies.

The members of the Industrial Commission, or a deputy thereof, shall have power to issue subpoenas, administer oaths, conduct hearings, take evidence, enter orders, opinions, and awards based thereon, punish for contempt, and issue writs of habeas corpus ad testificandum pursuant to G.S. 97-101.1. The Industrial Commission is authorized to appoint deputies and clerical assistants to carry out the purpose and intent of this Article, and such deputy or deputies are hereby vested with the same power and authority to hear and determine tort claims against State departments, institutions, and agencies as is by this Article vested in the members of the Industrial Commission. Such deputy or deputies shall also have and are hereby vested with the same power and authority to hear and determine cases arising under the Workers' Compensation Act when assigned to do so by the Industrial Commission. The Commission may order parties to participate in mediation, under rules substantially similar to those approved by the Supreme Court for use in the Superior Court division, except the Commission shall determine the manner in which payment of the costs of the mediated settlement conference is assessed. (1951, c. 1059, s. 6; 1979, c. 714, s. 2; 1993, c. 399, s. 2; c. 321, s. 25(b); 1995, c. 358, s. 8(a); c. 437, s. 6(a); c. 467, s. 5(a); c. 507, s. 25.13; 1998-217, s. 31.1(b).)

Editor's Note. — Session Laws 1993, c. 321, s. 25(b) provided that, if HB 658 (Session Laws 1993, c. 399) was enacted, the first sentence of s. 4 of c. 399 would be amended by deleting "only if the General Assembly appropriates funds to implement the purpose of this act." However, this language is in the second sentence of section 5 of Chapter 399 and reads "only if the General Assembly appropriates funds to implement the purpose of these sections." The Revisor of Statutes was informed that appropriation was made in 1994.

CASE NOTES

Cited in Smith v. North Carolina Dep't of Natural Resources & Community Dev., 112 N.C. App. 739, 436 S.E.2d 878 (1993).

§ 143-297. Affidavit of claimant; docketing; venue; notice of hearing; answer, demurrer or other pleading to affidavit.

In all claims listed in Section 13 of Chapter 1059 of the Session Laws of 1951, and all claims which may hereafter be filed against the various departments, institutions, and agencies of the State, the claimant or the person in whose

behalf the claim is made shall file with the Industrial Commission an affidavit in duplicate, setting forth the following information:

(1) The name of the claimant;

(2) The name of the department, institution or agency of the State against which the claim is asserted, and the name of the State employee upon whose alleged negligence the claim is based;

(3) The amount of damages sought to be recovered;

(4) The time and place where the injury occurred;

(5) A brief statement of the facts and circumstances surrounding the injury and giving rise to the claim.

Upon receipt of such affidavit in duplicate, the Industrial Commission shall enter the case upon its hearing docket and shall hear and determine the matter in the county where the injury occurred unless the parties agree or the Industrial Commission directs that the case may be heard in some other county. All parties shall be given reasonable notice of the date when and the place where the claim will be heard.

Immediately upon docketing the case, the Industrial Commission shall forward one copy of plaintiff's affidavit to the office of the Attorney General of North Carolina if the claim is asserted against any department, institution, or agency of the State.

The department, institution or agency of the State against whom the claim is asserted shall file answer, demurrer or other pleading to the affidavit within 30 days after receipt of copy of same setting forth any defense it proposes to make in the hearing or trial, and no defense may be asserted in the hearing or trial unless it is alleged in such answer, except such defenses as are not required by the Code of Civil Procedure or other laws to be alleged. (1951, c. 1059, s. 9; 1963, c. 1063; 1971, c. 893, s. 2; c. 1103, s. 2.)

Legal Periodicals. — For article, "Liability for Discretionary Decisions of State Officers and Employees Under the North Carolina Tort Claims Act: A Critical Analysis of Hochheiser v. North Carolina Dep't of Transp.," see 18 N.C. Cent. L.J. 143 (1989).

CASE NOTES

Editor's Note. — *Some of the cases below were decided prior to the amendments to G.S. 143-300 making the Rules of Civil Procedure applicable to proceedings under this Article.*

How Jurisdiction of Commission Invoked. — In order to invoke the jurisdiction of the Industrial Commission it is only necessary for the claimant or the person in whose behalf the claim is made to file an affidavit with the Industrial Commission in duplicate setting forth the material facts, as required by this section. Branch Banking & Trust Co. v. Wilson County Bd. of Educ., 251 N.C. 603, 111 S.E.2d 844 (1960).

This section does not require the use of legal, technical or formal language or formal pleadings. Branch Banking & Trust Co. v. Wilson County Bd. of Educ., 251 N.C. 603, 111 S.E.2d 844 (1960).

But Claim Must State Sufficient Facts. — Adherence to formal rules of pleading is not required under this section, but the claim should state facts sufficient to identify the agent or employee and a brief statement of the negligent act that caused the injury. Turner v. Gastonia City Bd. of Educ., 250 N.C. 456, 109 S.E.2d 211 (1959); Branch Banking & Trust Co. v. Wilson County Bd. of Educ., 251 N.C. 603, 111 S.E.2d 844 (1960).

And Defective Claim May Be Challenged. — If a claim, upon its face, shows that the State department or agency sought to be charged is not liable, the Commission may end the proceeding; and a proper way to take advantage of the defect was formerly by demurrer. Turner v. Gastonia City Bd. of Educ., 250 N.C. 456, 109 S.E.2d 211 (1959).

Requirement of Affidavit as Procedural Rule. — The requirement of an affidavit delineated in this section is not a rule governing liability or the limits of liability of the State and its agencies. Rather, it is a procedural rule. Teachy v. Coble Dairies, Inc., 306 N.C. 324, 293 S.E.2d 182 (1982).

Affidavit Must Name Employee and Set Forth Acts of Negligence. — It is necessary to a recovery under the Tort Claims Act that the affidavit of the claimant set forth the name of the allegedly negligent employee and the acts of negligence relied upon. Crawford v. Wayne

County Bd. of Educ., 3 N.C. App. 343, 164 S.E.2d 748 (1968), aff'd, 275 N.C. 354, 168 S.E.2d 33 (1969).

A claim under the State Tort Claims Act must identify the employee of the State whose negligence is asserted, and set forth the act or acts on his part which are relied upon. Floyd v. North Carolina State Hwy. & Pub. Works Comm'n, 241 N.C. 461, 85 S.E.2d 703 (1955).

Plaintiff Should Identify Agency and Employee in Pleadings. — Plaintiff's pleadings may be fatal to his claim if he fails to properly identify the negligent State employee and agency in the affidavit used to initiate an action with the Industrial Commission. Laughinghouse v. State ex rel. N.C. Ports Ry. Comm'n, 101 N.C. App. 375, 399 S.E.2d 587, cert. denied, 328 N.C. 732, 404 S.E.2d 871 (1991), 502 U.S. 1029, 112 S. Ct. 866, 116 L. Ed. 2d 772 (1992).

The purpose of this section in requiring the negligent employee to be named is to enable the department of the State against which the claim is made to investigate, not all of its employees, but the particular ones actually involved. Tucker v. North Carolina State Hwy. & Pub. Works Comm'n, 247 N.C. 171, 100 S.E.2d 514 (1957); Northwestern Distribs., Inc. v. North Carolina Dep't of Transp., 41 N.C. App. 548, 255 S.E.2d 203, cert. denied, 298 N.C. 567, 261 S.E.2d 123 (1979).

The reason for requiring the negligent employee to be named in the affidavit is so that the department of the State against which a claim is made will not have to investigate all of its employees, but only those alleged to have been negligent. Mason v. North Carolina State Hwy. Comm'n, 7 N.C. App. 644, 173 S.E.2d 515 (1970).

Stipulation Obviates Error in Naming Employee in Affidavit and Claim. — Where, prior to the hearing, the parties stipulate the name and position of the State employee charged with negligence, such stipulation meets the requirements of this section that the negligent employee be named and obviates error in naming the employee in the affidavit and claim; hence, the allowance of an amendment to this effect on appeal to the superior court (now Court of Appeals) is immaterial. Tucker v. North Carolina State Hwy. & Pub. Works Comm'n, 247 N.C. 171, 100 S.E.2d 514 (1957).

Amendment Where Claimant Names Wrong Employee. — If a claimant mistakenly names a wrong employee, his remedy is to address a motion to amend the affidavit to the sound discretion of the Industrial Commission. Mason v. North Carolina State Hwy. Comm'n, 7 N.C. App. 644, 173 S.E.2d 515 (1970).

Discretion of Commission to Allow Amendment to Affidavit After Time Specified. — The affidavit filed by a claimant pursuant to this section is in the nature of a complaint in an ordinary tort action; hence, the allowance of an amendment thereto after the expiration of the time allowed by statute rests in the sound discretion of the Industrial Commission, and its ruling thereon is not subject to review in the absence of an abuse of such discretion. Mason v. North Carolina State Hwy. Comm'n, 273 N.C. 36, 159 S.E.2d 574 (1968).

Actions brought against the State as a third-party defendant in the State courts need not conform to the pleading requirements of the Industrial Commission. The third-party plaintiff must, however, prove the same elements as required in cases heard before the Industrial Commission. Teachy v. Coble Dairies, Inc., 306 N.C. 324, 293 S.E.2d 182 (1982).

Notice Sufficient. — Plaintiff's affidavit gave sufficient notice to defendant to allow it to narrow its investigation to those involved with treating patient where the affidavit notified defendant that decedent's death was caused by a former patient, decedent, named the correct state agency, the specific division of that agency, and where the alleged negligence took place. The failure to name doctor specifically did not impede defendant's investigation and the objective of this section was achieved. Davis v. North Carolina Dep't of Human Resources, 121 N.C. App. 105, 465 S.E.2d 2 (1995).

Tractor-trailer driver complied with G.S. 143-297(2) where he filed an affidavit against the North Carolina Department of Transportation for damages due to having gotten stuck on a railroad crossing where warning signs were lacking, whereupon his truck was hit by a train; the affidavit named various officials of the Department as well as indicating unknown employees who were responsible for maintaining the safety of that particular railroad crossing, and such information was sufficient to allow the Department to investigate the employee actually involved, even though the particular individual was not specifically named. Smith v. N.C. DOT, 156 N.C. App. 92, 576 S.E.2d 345, 2003 N.C. App. LEXIS 83 (2003).

Evidence Sufficient. — Evidence was such that the defendant, Department of Human Resources was negligent and could have reasonably foreseen the violent acts by mental patient and the resultant harm to decedent; thus, defendant's breach was the proximate cause of the death. Davis v. North Carolina Dep't of Human Resources, 121 N.C. App. 105, 465 S.E.2d 2 (1995).

Applied in Parsons v. Alleghany County Bd. of Educ., 4 N.C. App. 36, 165 S.E.2d 776 (1969); Woolard v. North Carolina Dep't of Transp., 93 N.C. App. 214, 377 S.E.2d 267 (1989).

Cited in Wrape v. North Carolina State Hwy. Comm'n, 263 N.C. 499, 139 S.E.2d 570 (1965); Phillips v. North Carolina Dep't of Transp., 80 N.C. App. 135, 341 S.E.2d 339 (1986); Zimmer v. North Carolina Dep't of Transp., 87 N.C. App. 132, 360 S.E.2d 115 (1987); Midgett v. N.C.

DOT, 152 N.C. App. 666, 568 S.E.2d 643, 2002 N.C. App. LEXIS 979 (2002), cert. denied, 356 N.C. 438, 572 S.E.2d 786 (2002).

§ 143-298. Duty of Attorney General; expenses; subpoenas.

It shall be the duty of the Attorney General to represent all departments, institutions, and agencies of the State in connection with claims asserted against them and to attend all hearings in connection therewith where the amount of the claim, in the opinion of the Attorney General, is of sufficient import to require and justify such appearance. In the event the amount appropriated to the Attorney General's office for travel and subsistence is insufficient to take care of the additional expense incident to attending these hearings, the Governor and Council of State are authorized to pay such additional travel expenses from the Contingency and Emergency Fund.

Subpoenas for any purpose authorized by G.S. 1A-1, Rule 45 may be issued by an Attorney of Record for either party in all proceedings under the State Tort Claims Act and served by the means specified in the North Carolina Rules of Civil Procedure or served by registered or certified mail, and service shall be proved by filing of the return receipt. (1951, c. 1059, s. 10; 1971, c. 1103, s. 3; 1987 (Reg. Sess., 1988), c. 1087, s. 5.)

§ 143-299. Limitation on claims.

All claims against any and all State departments, institutions, and agencies shall henceforth be forever barred unless a claim be filed with the Industrial Commission within three years after the accrual of such claim, or if death results from the accident, the claim for wrongful death shall be forever barred unless a claim be filed by the personal representative of the deceased with the Industrial Commission within two years after such death. (1951, c. 1059, s. 11; 1973, c. 659.)

CASE NOTES

Cited in Lyon & Sons v. N.C. State Bd. of Educ., 238 N.C. 24, 76 S.E.2d 553 (1953).

§ 143-299.1. Contributory negligence a matter of defense; burden of proof.

Contributory negligence on the part of the claimant or the person in whose behalf the claim is asserted shall be deemed to be a matter of defense on the part of the State department, institution or agency against which the claim is asserted, and such State department, institution or agency shall have the burden of proving that the claimant or the person in whose behalf the claim is asserted was guilty of contributory negligence. (1955, c. 400, s. 11/4.)

Legal Periodicals. — For article, "Liability for Discretionary Decisions of State Officers and Employees Under the North Carolina Tort Claims Act: A Critical Analysis of Hochheiser v. North Carolina Dep't of Transp.," see 18 N.C. Cent. L.J. 143 (1989).

For article, "Contributory negligence, comparative negligence, and stare decisis in North Carolina", see 18 Campbell L. Rev. 1 (1996).

CASE NOTES

Contributory Negligence Bars Recovery. — The State Tort Claims Act does not authorize recovery unless the claimant is free from contributory negligence. Crawford v. Wayne County Bd. of Educ., 275 N.C. 354, 168 S.E.2d 33 (1969).

Contributory Negligence of Minor. — Substantive case law concerning a minor's capability for negligence applies to this section, and thus a six-year-old child is incapable of contributory negligence as a matter of law. Crawford v. Wayne County Bd. of Educ., 275 N.C. 354, 168 S.E.2d 33 (1969).

Basis for Conclusion of Contributory Negligence. — A conclusion of negligence or contributory negligence may not be drawn in favor of the party having the burden of proof upon no basis other than speculation and unproved possibilities. Barney v. North Carolina State Hwy. Comm'n, 282 N.C. 278, 192 S.E.2d 273 (1972).

Negligence and contributory negligence are mixed questions of law and fact and, upon appeal, the reviewing court must determine whether facts found by the Industrial Commission support its conclusion of contributory negligence. Barney v. North Carolina State Hwy. Comm'n, 282 N.C. 278, 192 S.E.2d 273 (1972).

Applied in Oates v. North Carolina Dep't of Motor Vehicles, 24 N.C. App. 690, 212 S.E.2d 33 (1975).

Cited in Tucker v. North Carolina State Hwy. & Pub. Works Comm'n, 247 N.C. 171, 100 S.E.2d 514 (1957); Simmons v. North Carolina DOT, 128 N.C. App. 402, 496 S.E.2d 790 (1998); Midgett v. N.C. DOT, 152 N.C. App. 666, 568 S.E.2d 643, 2002 N.C. App. LEXIS 979 (2002), cert. denied, 356 N.C. 438, 572 S.E.2d 786 (2002); Smith v. N.C. DOT, 156 N.C. App. 92, 576 S.E.2d 345, 2003 N.C. App. LEXIS 83 (2003).

§ 143-299.2. Limitation on payments by the State.

(a) The maximum amount that the State may pay cumulatively to all claimants on account of injury and damage to any one person arising out of any one occurrence, whether the claim or claims are brought under this Article, or Article 31A or Article 31B of this Chapter, shall be five hundred thousand dollars ($500,000), less any commercial liability insurance purchased by the State and applicable to the claim or claims under G.S. 143-291(b), 143-300.6(c), or 143-300.16(c).

(b) The fact that a claim or claims may be brought under more than one Article under this Chapter shall not increase the above maximum liability of the State. (1987 (Reg. Sess., 1988), c. 1087, s. 6; 1995, c. 509, s. 83; 2000-67, s. 7A(d).)

Cross References. — For the State Employee Federal Remedy Restoration Act, waiving the sovereign immunity of the State for certain purposes, see G.S. 143-300.35.

CASE NOTES

§ 143-299.3. Use of State vehicles by North Carolina Amateur Sports; State to incur no liability.

(a) Notwithstanding G.S. 14-247 and G.S. 143-341(8)i, the Department of Administration or any other department of State government may allow North Carolina Amateur Sports to have the use of State trucks and vans for the 1989 and the 1990 State Games of North Carolina. There will not be any charge for use of vehicles under this section.

(b) The State of North Carolina shall incur no liability for any damages resulting from use of vehicles under this section and North Carolina Amateur Sports shall carry liability insurance of not less than $500,000 covering such

vehicles while in its use. (1989, c. 242, s. 1(a), (b); 1991, c. 636, s. 17; 1993, c. 553, s. 5.)

Local Modification. — Columbus: 1977, c. 850; Moore County Board of Education: 1999-176, s. 1 (effective June 14, 1999-June 20, 1999).

Editor's Note. — Session Laws 1991, c. 294, s. 1, provides: "(a) Notwithstanding G.S. 14-247 and G.S. 143-341(8)i., the Department of Administration may allow North Carolina Amateur Sports to have the use of State trucks and vans for the 1991-92 State Games of North Carolina according to the following schedule:

"June 12, 1991 - June 29, 1991 — one cargo van, one passenger van, and one blazer;

"June 12, 1991 - July 5, 1991 — four cargo vans;

"June 30, 1991 — one passenger van.

"The Department of Administration need not make any charge for use of vehicles under this act.

"(b) The State of North Carolina shall incur no liability for any damages resulting from use of vehicles under this act and North Carolina Amateur Sports shall carry liability insurance of not less than $1,000,000 covering each vehicle while in its use."

Session Laws 1993, c. 87, s. 1 provides: "(a) Notwithstanding G.S. 14-247 and G.S. 143-341(8)i., the Department of Administration may allow North Carolina Amateur Sports to have the use of State trucks and vans for the 1993 and 1994 State Games of North Carolina, but only during the months of June 1993 and June 1994.

"The Department of Administration need not make any charge for use of vehicles under this act. The Department may require North Carolina Amateur Sports to pay the cost of fuel.

"North Carolina Amateur Sports shall submit to the Department of Administration a list of the purposes for which the vehicles are to be used, which list is subject to approval by the Department of Administration.

"(b) The State of North Carolina shall incur no liability for any damages resulting from use of vehicles under this act, and North Carolina Amateur Sports shall carry liability insurance of not less than one million dollars ($1,000,000) covering each vehicle while in its use."

Session Law 1998-10, s. 1, provides: "Notwithstanding the provisions of G.S. 143-341(8)i. and G.S. 14-247, the Department of Administration may allow the 1999 Special Olympics World Summer Games Organizing Committee, Inc., to use State-owned trucks and vans for the 1999 Special Olympics World Summer Games in North Carolina.

"The Department of Administration shall not charge any fees for the use of the vehicles for the 1999 Special Olympics World Summer Games.

"The 1999 Special Olympics World Summer Games Organizing Committee, Inc., shall submit to the Department of Administration, for its approval, a list of the purposes for which the vehicles may be used. Vehicles may only be used for approved purposes.

"The State shall incur no liability for any damages resulting from the use of vehicles under this provision. The 1999 Special Olympics World Summer Games Organizing Committee, Inc., shall carry liability insurance of not less than five million dollars ($5,000,000) covering the use of the vehicles and shall be responsible for the full cost of repairs to these vehicles if they are damaged while used for the 1999 Special Olympics World Summer Games."

Session Laws 1998-212, s. 9.25 provides: "Notwithstanding any other provision of law, the Charlotte-Mecklenburg Board of Education may permit the use and operation of public school buses as the board deems necessary from June 1, 2001, through June 30, 2001, for the transportation needs of persons associated with the National Association of Student Councils Conference to be held in Charlotte.

"State funds shall not be used for the use and operation of buses under this act.

"The State of North Carolina shall incur no liability for any damages resulting from the use and operation of buses under this act. The National Association of Student Councils shall carry liability insurance covering the use and operation of buses under this act."

Session Laws 1998-212, s. 1.1 provides: "This act shall be known as the 'Current Operations Appropriations and Capital Improvement Appropriations Act of 1998'."

Session Laws 1998-212, s. 30.2 provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 1998-99 fiscal year, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 1998-99 fiscal year."

Session Laws 1998-212, s. 30.5 contains a severability clause.

§ 143-299.4. Payment of State excess liability.

For each claim payable during any fiscal year in excess of one hundred fifty thousand dollars ($150,000) per claim arising under this Article, or Article 31A or 31B of this Chapter, on account of injury or damage to any one person, each State agency shall transfer to the Office of State Budget and Management its proportionate share of that agency's estimated lapsed salaries, as determined by the Director of the Budget, and the Director of the Budget shall use these transferred funds to pay the balance of that claim in excess of one hundred fifty thousand dollars ($150,000). However, if the Director of the Budget determines that the agency liable for the claim has the resources to pay the full claim even though it exceeds one hundred fifty thousand dollars ($150,000), then the Director of the Budget may, in the Director's discretion, require the agency to pay the full claim. Additionally, the Director of the Budget may, in the Director's discretion, limit the number of agencies required to transfer funds to the agency liable for the claim to pay the balance of the claim. (2000-67, s. 7A(e); 2000-140, s. 93.1(i); 2001-424, s. 12.2(b); 2002-159, s. 43.)

Editor's Note. — Session Laws 2000-67, s. 1.1, provides: "This act shall be known as 'The Current Operations and Capital Improvements Appropriations Act of 2000'."

Session Laws 2000-67, s. 7A(k), makes this section applicable to claims or actions pending on or after the effective date (July 1, 2000).

Session Laws 2000-67, s. 28.4, contains a severability clause.

Effect of Amendments. — Session Laws 2002-159, s. 43, effective October 11, 2002, added the last two sentences.

§ 143-300. Rules and regulations of Industrial Commission; destruction of records.

The Industrial Commission is hereby authorized and empowered to adopt such rules and regulations as may, in the discretion of the Commission, be necessary to carry out the purpose and intent of this Article. The North Carolina Rules of Civil Procedure and Rules of Evidence, insofar as they are not in conflict with the provisions of this Article, shall be followed in proceedings under this Article. When any case or claim under this Article has been closed by proper order or award, all records concerning such case or claim may, after five years, in the discretion of the Industrial Commission with and by the authorization of the Department of Cultural Resources, be destroyed by burning or otherwise; provided, that no record pertaining to a case or claim of a minor shall be destroyed until the expiration of three years after such minor attains the age of 18 years. (1951, c. 1059, s. 12; 1957, c. 311; 1971, c. 1231, s. 1; 1973, c. 476, s. 48; 1987 (Reg. Sess., 1988), c. 1087, s. 7.)

§ 143-300.1. Claims against county and city boards of education for accidents involving school buses or school transportation service vehicles.

(a) The North Carolina Industrial Commission shall have jurisdiction to hear and determine tort claims against any county board of education or any city board of education, which claims arise as a result of any alleged mechanical defects or other defects which may affect the safe operation of a public school bus or school transportation service vehicle resulting from an alleged negligent act of maintenance personnel or as a result of any alleged negligent act or omission of the driver, transportation safety assistant, or monitor of a public school bus or school transportation service vehicle when:

(1) The driver is an employee of the county or city administrative unit of which that board is the governing body, and the driver is paid or authorized to be paid by that administrative unit,

(1a) The monitor was appointed and acting in accordance with G.S. 115C-245(d),

(1b) The transportation safety assistant was employed and acting in accordance with G.S. 115C-245(e), or

(2) The driver is an unpaid school bus driver trainee under the supervision of an authorized employee of the Department of Transportation, Division of Motor Vehicles, or an authorized employee of that board or a county or city administrative unit thereof,

and which driver was at the time of the alleged negligent act or omission operating a public school bus or school transportation service vehicle in accordance with G.S. 115C-242 in the course of his employment by or training for that administrative unit or board, which monitor was at the time of the alleged negligent act or omission acting as such in the course of serving under G.S. 115C-245(d), or which transportation safety assistant was at the time of the alleged negligent act or omission acting as such in the course of serving under G.S. 115C-245(e). The liability of such county or city board of education, the defenses which may be asserted against such claim by such board, the amount of damages which may be awarded to the claimant, and the procedure for filing, hearing and determining such claim, the right of appeal from such determination, the effect of such appeal, and the procedure for taking, hearing and determining such appeal shall be the same in all respects as is provided in this Article with respect to tort claims against the State Board of Education except as hereinafter provided. Any claim filed against any county or city board of education pursuant to this section shall state the name and address of such board, the name of the employee upon whose alleged negligent act or omission the claim is based, and all other information required by G.S. 143-297 in the case of a claim against the State Board of Education. Immediately upon the docketing of a claim, the Industrial Commission shall forward one copy of the plaintiff's affidavit to the superintendent of the schools of the county or city administrative unit against the governing board of which such claim is made, one copy of the plaintiff's affidavit to the State Board of Education and one copy of the plaintiff's affidavit to the office of the Attorney General of North Carolina. All notices with respect to tort claims against any such county or city board of education shall be given to the superintendent of schools of the county or city administrative unit of which such board is a governing board, to the State Board of Education and also to the office of the Attorney General of North Carolina.

(b) The Attorney General shall be charged with the duty of representing the city or county board of education in connection with claims asserted against them pursuant to this section where the amount of the claim, in the opinion of the Attorney General, is of sufficient import to require and justify such appearance.

(c) In the event that the Industrial Commission awards damages against any county or city board of education under this section, the Attorney General shall draw a voucher for the amount required to pay the award. The funds necessary to cover the first one hundred fifty thousand dollars ($150,000) of liability per claim for claims against county and city boards of education for accidents involving school buses and school transportation service vehicles shall be made available from funds appropriated to the State Board of Education. The balance of any liability owed shall be paid in accordance with G.S. 143-299.4. Neither the county or city boards of education, or the county or city administrative unit shall be liable for the payment of any award made pursuant to the provisions of this section in excess of the amount paid upon a voucher by the Attorney General. Settlement and payment may be made by the Attorney General as provided in G.S. 143-295.

(d) Except as otherwise provided in this subsection, the Attorney General may, upon the request of an employee or former employee, defend any civil

action brought against the driver, transportation safety assistant, or monitor of a public school bus or school transportation service vehicle or school bus maintenance mechanic when the driver or mechanic is employed and paid by the local school administrative unit, when the monitor is acting in accordance with G.S. 115C-245(d), when the transportation safety assistant is acting in accordance with G.S. 115C-245(e), or when the driver is an unpaid school bus driver trainee under the supervision of an authorized employee of the Department of Transportation, Division of Motor Vehicles, or an authorized employee of a county or city board of education or administrative unit. The Attorney General may afford this defense through the use of a member of his staff or, in his discretion, employ private counsel. The Attorney General is authorized to pay any judgment rendered in the civil action not to exceed the limit provided under the Tort Claims Act. The funds necessary to cover the first one hundred fifty thousand dollars ($150,000) of liability per claim shall be made available from funds appropriated to the State Board of Education. The balance of any liability owed shall be paid in accordance with G.S. 143-299.4. The Attorney General may compromise and settle any claim covered by this section to the extent that he finds the same to be valid, up to the limit provided in the Tort Claims Act, provided that the authority granted in this subsection shall be limited to only those claims that would be within the jurisdiction of the Industrial Commission under the Tort Claims Act.

The Attorney General shall refuse to provide for the defense of a civil action or proceeding brought against an employee or former employee if the Attorney General determines that:

(1) The act or omission was not within the scope and course of his employment as a State employee; or

(2) The employee or former employee acted or failed to act because of actual fraud, corruption, or actual malice on his part; or

(3) Defense of the action or proceeding by the State would create a conflict of interest between the State and the employee or former employee; or

(4) Defense of the action or proceeding would not be in the best interests of the State. (1955, c. 1283; 1961, c. 1102, ss. 1-3; 1967, c. 1032, s. 1; 1975, c. 589, s. 1; c. 916, ss. 1, 2; 1977, c. 935, s. 1; 1979, 2nd Sess., c. 1332, ss. 1, 2; 1983 (Reg. Sess., 1984), c. 1034, s. 30; 1998-212, s. 9.17(b); 2000-67, ss. 7A(f), 7A(g); 2001-424, s. 6.18.)

As to liability insurance and waiver of immunity as to certain acts of school bus drivers, see G.S. 115C-255. As to liability insurance and tort liability of local boards of education regarding transportation services, see G.S. 115C-262.

Legal Periodicals. — For comment, "Municipal Tort Liability for Negligent Failure to Provide Adequate Police Protection," see 20 Wake Forest L. Rev. 697 (1984).

For note, "Municipal Liability for Negligent Inspections in Sinning v. Clark — A 'Hollow' Victory for the Public Duty Doctrine," see 18 Campbell L. Rev. 241 (1996).

CASE NOTES

Legislative Intent. — The intent of the legislature in amending this section in 1961 to include service vehicles as well as school buses must have been primarily and simply to include those motor vehicles which are the functional equivalents of a school bus, but are not technically buses, such as vans, and also such service vehicles as are used in their maintenance. Smith v. McDowell County Bd. of Educ., 68 N.C. App. 541, 316 S.E.2d 108 (1984).

Strict Construction of Section. — This section is in derogation of sovereign immunity and, therefore, it must be strictly construed and its terms must be strictly adhered to. Withers v. Charlotte-Mecklenburg Bd. of Educ., 32 N.C. App. 230, 231 S.E.2d 276 (1977); Smith v. McDowell County Bd. of Educ., 68 N.C. App. 541, 316 S.E.2d 108 (1984).

As to the meaning of "operating," see Withers v. Charlotte-Mecklenburg Bd. of Educ., 32 N.C. App. 230, 231 S.E.2d 276 (1977).

Driver education vehicles are not in-

cluded in the phrase "school transportation service vehicles." Smith v. McDowell County Bd. of Educ., 68 N.C. App. 541, 316 S.E.2d 108 (1984).

The mere fact that a driver education vehicle is a motor vehicle which ordinarily may serve a "transportation" function does not bring it within the phrase "school transportation service vehicle" as that phrase is used in this section. Smith v. McDowell County Bd. of Educ., 68 N.C. App. 541, 316 S.E.2d 108 (1984).

If an award is made, it must be based on the negligent act or omission of the driver of a public school bus who was employed at the time by the county or city administrative unit of which such board was the governing body. Huff v. Northampton County Bd. of Educ., 259 N.C. 75, 130 S.E.2d 26 (1963).

And Not on Act or Omission of Principal or Board of Education. — An award against a county board of education under the provisions of the Tort Claims Act may not be predicated on the negligent act or omission of a school principal or the county board of education. Huff v. Northampton County Bd. of Educ., 259 N.C. 75, 130 S.E.2d 26 (1963).

Affidavit Must Name Employee and Set Forth Acts of Negligence. — It is necessary to a recovery under this section that the claimant's affidavit set forth the name of the allegedly negligent employee and the acts of negligence relied upon. Crawford v. Wayne County Bd. of Educ., 275 N.C. 354, 168 S.E.2d 33 (1969).

Purpose of Naming Employee. — The purpose of requiring the negligent employee to be named is to enable the department of the State against which the claim is made to investigate, not all of its employees, but the particular ones actually involved. Crawford v. Wayne County Bd. of Educ., 275 N.C. 354, 168 S.E.2d 33 (1969).

Amendment of Affidavit to Allege Name of Employee. — In a proceeding under the Tort Claims Act, the Industrial Commission properly allowed amendment of claimant's affidavit to allege the name of the negligent State employee, since the amendment served the purpose of showing the existence of jurisdiction rather than conferring it. Crawford v. Wayne County Bd. of Educ., 3 N.C. App. 343, 164 S.E.2d 748 (1968), aff'd, 275 N.C. 354, 168 S.E.2d 33 (1969).

State Board of Education Relieved of Responsibility as to School Buses. — The General Assembly relieved the State Board of Education from all responsibility in connection with the operation and control of school buses in this State by the enactment of former G.S. 115-180 et seq., authorizing county and city boards of education to operate buses for the transportation of pupils enrolled in the public schools of such county or city administrative units. Huff v. Northampton County Bd. of Educ., 259 N.C. 75, 130 S.E.2d 26 (1963); Brown v. Charlotte-Mecklenburg Bd. of Educ., 267 N.C. 740, 149 S.E.2d 10 (1966).

Section 115C-42 does not apply to the type of claims which are covered by this section. Smith v. McDowell County Bd. of Educ., 68 N.C. App. 541, 316 S.E.2d 108 (1984).

Applied in English Mica Co. v. Avery County Bd. of Educ., 246 N.C. 714, 100 S.E.2d 72 (1957); Mitchell v. Guilford County Bd. of Educ., 1 N.C. App. 373, 161 S.E.2d 645 (1968).

Cited in Turner v. Gastonia City Bd. of Educ., 250 N.C. 456, 109 S.E.2d 211 (1959); Branch Banking & Trust Co. v. Wilson County Bd. of Educ., 251 N.C. 603, 111 S.E.2d 844 (1960); McBride v. North Carolina State Bd. of Educ., 257 N.C. 152, 125 S.E.2d 393 (1962); Guthrie v. North Carolina State Ports Auth., 307 N.C. 522, 299 S.E.2d 618 (1983); North Carolina Farm Bureau Mut. Ins. Co. v. Knudsen, 109 N.C. App. 114, 426 S.E.2d 88 (1993); Oakley v. Thomas, 112 N.C. App. 130, 434 S.E.2d 663 (1993).

§ 143-300.1A. (See Editor's note on condition precedent) Claims arising from certain smallpox vaccinations of State employees.

The North Carolina Industrial Commission shall have jurisdiction to hear and determine claims in accordance with the procedures set forth in this Article made against the State by a person who is permanently or temporarily living in the home of a State employee who receives in employment vaccination against smallpox incident to the Administration of Smallpox Countermeasures by Health Professionals, section 304 of the Homeland Security Act, Pub. L. No. 107-296 (Nov. 25, 2002) (to be codified at 42 U.S.C. § 233(p)) when the person contracts an infection with smallpox or an infection with vaccinia or has any adverse medical reaction due to the vaccination received by the employee. A person covered by this section shall be entitled to recover from the State damages incurred by the person that are directly attributable to the vaccination of the employee under this section. No showing of negligence is required

under this section. The provisions of G.S. 143-299.1 shall not apply to claims made under this section, and contributory negligence is not a defense for claims under this section. Damages awarded under this section shall be paid in accordance with G.S. 143-291(a1) and shall be subject to the same limits as those which apply to tort claims under this Article. (2003-169, s. 3.)

Condition Precedent. — Session Laws 2003-169, s. 7, provides: "In the event that federal regulatory or statutory provisions providing compensation and benefits to persons for infection with smallpox, infection with vaccinia, or any adverse medical reaction incident to the Administration of Smallpox Countermeasures by Health Professionals, section 304 of the Homeland Security Act, Pub. L. No. 107-296 (Nov. 25, 2002) (to be codified at 42 U.S.C. § 233(p)) are adopted, a condition precedent to recovery under this act shall be that the person claiming compensation and benefits under this act shall first seek compensation and benefits under the federal provisions, with those provisions constituting primary coverage and the person then being entitled to compensation and benefits under this act not exceeding a total recovery under the federal provisions and this act equal to the amount available under the applicable provisions of this act."

Editor's Note. — Session Laws 2003-169, s. 8, is a severability clause.

Session Laws 2003-169, s. 9, made this section effective June 12, 2003, and applicable to claims arising from infection or adverse medical reactions related to smallpox vaccinations incident to the Administration of Smallpox Countermeasures by Health Professionals, section 304 of the Homeland Security Act, Pub. L. No.107-296 (Nov. 25, 2002) (to be codified at 42 U.S.C. § 233(p)) whether the infection or adverse medical reactions occurred before, on, or after June 12, 2003.

Article 31A.

Defense of State Employees, Medical Contractors and Local Sanitarians.

§ 143-300.2. Definitions.

Unless the context otherwise requires, the definitions contained in this section govern the construction of this Article.

(1) "Civil or criminal action or proceeding" includes any case, prosecution, special proceedings, or administrative proceeding in or before any court or agency of this State or any other state or the United States.

(2) "Employee" includes an officer, agent, or employee but does not include an independent contractor.

(3) "Employment" includes office, agency, or employment.

(4) "The State" includes all departments, agencies, boards, commissions, institutions, bureaus, and authorities of the State. Community colleges, technical colleges, and occupational licensing boards regulated by Chapter 93B of the General Statutes shall be deemed State agencies for purposes of this Article. (1967, c. 1092, s. 1; 1987, c. 684, s. 2; 2002-168, s. 2.)

Editor's Note. — Session Laws 1987, c. 654, s. 1 rewrote the title of Article 31A.

Effect of Amendments. — Session Laws 2002-168, s. 2, effective October 1, 2002, inserted "and occupational licensing boards regulated by Chapter 93B of the General Statutes" and made minor stylistic changes in subdivision (4).

CASE NOTES

Cited in Brotherton v. Paramore, 5 N.C. App. 657, 169 S.E.2d 36 (1969).

OPINIONS OF ATTORNEY GENERAL

"Employee." — The officers and directors of the Foundation of The University of North Carolina at Charlotte, Inc., the Athletic Foundation of The University of North Carolina at Charlotte, and the University of North Carolina at Charlotte Alumni Association are not covered by the Defense of State Employees Act, G.S. 143-300.2 et seq., as such officers, directors, and employees are not "employees" of the state as defined by the statute. See opinion of Attorney General to William M. Steimer, University Attorney, The University of North Carolina at Charlotte, 2000 N.C. AG LEXIS 21 (4/14/2000).

§ 143-300.3. Defense of State employees.

Except as otherwise provided in G.S. 143-300.4, upon request of an employee or former employee, the State may provide for the defense of any civil or criminal action or proceeding brought against him in his official or individual capacity, or both, on account of an act done or omission made in the scope and course of his employment as a State employee. (1967, c. 1092, s. 1.)

CASE NOTES

Applied in Gray v. Laws, 51 F.3d 426 (4th Cir. 1995).

OPINIONS OF ATTORNEY GENERAL

Legislative Intent. — The General Assembly intended the phrase "actions or suits to which this article applies" in subsection (a) of G.S. 143-300.6 to describe those actions or suits against a State employee for which the State has agreed to provide defense under this section. See opinion of Attorney General to Mr. Richard H. Robinson, Jr., Assistant to the President, The University of North Carolina, 59 N.C.A.G. 21 (1989).

Authority Under Section Dependent on 3 Factors. — Under this section the authority to provide for the defense of a state employee is dependent on three distinct factors: First, the State may exercise its authority to represent an employee only upon the request of the employee; second, the State may provide for the defense of an employee only when the action or proceeding in question is brought against him on account of an act done or omission made in the scope and course of his state employment; and third, the State is prohibited from providing for the defense of any employee if the Attorney General determines that any of the four conditions described in G.S. 143-300.4(a) applies. See opinion of Attorney General to Mr. Richard H. Robinson, Jr., Assistant to the President, The University of North Carolina, 59 N.C.A.G. 21 (1989).

Decision to Exercise Authority Discretionary. — This section simply authorizes the State to provide for the defense of State employees under certain circumstances. It does not obligate the State to provide for the defense of any employee under any circumstances. The decision to exercise the authority granted in this section lies entirely within the State's discretion. See opinion of Attorney General to Mr. Richard H. Robinson, Jr., Assistant to the President, The University of North Carolina, 59 N.C.A.G. 21 (1989).

Section 143-300.6 does not permit the State to pay a final judgment awarded against a State employee in a civil or criminal proceeding brought against him on account of an act done or omission made in the scope and course of his employment, where the State has decided not to provide for the employee's defense under this section or G.S. 143-300.4. See opinion of Attorney General to Mr. Richard H. Robinson, Jr., Assistant to the President, Univ. of N.C., 59 N.C.A.G. 21 (1989).

§ 143-300.4. Grounds for refusal of defense.

(a) The State shall refuse to provide for the defense of a civil or criminal action or proceeding brought against an employee or former employee if the State determines that:

(1) The act or omission was not within the scope and course of his employment as a State employee; or

(2) The employee or former employee acted or failed to act because of actual fraud, corruption, or actual malice on his part; or

(3) Defense of the action or proceeding by the State would create a conflict of interest between the State and the employee or former employee; or

(4) Defense of the action or proceeding would not be in the best interests of the State.

(b) The determinations required by subsection (a) of this section shall be made by the Attorney General. The Attorney General may delegate his authority to make these determinations to the chief administrative authority of any agency, institution, board, or commission whose employees are to be defended as provided by subdivision (3) or (4) of G.S. 143-300.5. Approval of the request by an employee or former employee for provision of defense shall raise a presumption that the determination required by this section had been made and that no grounds for refusal to defend were discovered. (1967, c. 1092, s. 1.)

CASE NOTES

The attorney general's office possesses the responsibility for determining whether it represents an employee, and this determination is not made post-hoc by a jury verdict; thus, the jury's finding of actual malice has no effect on the attorney general's ability or responsibility to represent the defendants. Houck & Sons v. Transylvania County, 852 F. Supp. 442 (W.D.N.C. 1993), aff'd, 36 F.3d 1092 (4th Cir. 1994).

Obligation to Provide Defense Shown. — The fact that preliminary site evaluation was not required by the rules of the Commission for Health Services (the reason given by the Attorney General to support its decision that providing a defense was not in the best interest of the State) was not a reason supported in the law. The Attorney General thus had an obligation to provide sanitarians a defense in litigation. Cates v. North Carolina Dep't of Justice, 121 N.C. App. 243, 465 S.E.2d 64 (1996), modified and aff'd, 346 N.C. 781, 487 S.E.2d 723 (1997).

OPINIONS OF ATTORNEY GENERAL

Authority to Provide Defense Dependent upon 3 Factors. — Under G.S. 143-300.3 the authority to provide for the defense of a state employee is dependent on three distinct factors: First, the State may exercise its authority to represent an employee only upon the request of the employee; second, the State may provide for the defense of an employee only when the action or proceeding in question is brought against him on account of an act done or omission made in the scope and course of his state employment; and third, the State is prohibited from providing for the defense of any employee of the Attorney General determines that any of the four conditions described in subsection (a) of this section applies. See opinion of Attorney General to Mr. Richard H. Robinson, Jr., Assistant to the President, The University of North Carolina, 59 N.C.A.G. 21 (1989).

Section 143-300.6 does not permit the State to pay a final judgment awarded against a State employee in a civil or criminal proceeding brought against him on account of an act done or omission made in the scope and course of his employment, where the State has decided not to provide for the employee's defense under G.S. 143-300.3 or this section. See opinion of Attorney General to Mr. Richard H. Robinson, Jr., Assistant to the President, Univ. of N.C., 59 N.C.A.G. 21 (1989).

§ 143-300.5. Regulations for providing defense counsel.

The Governor may issue regulations for the defense of employees or former employees of the State pursuant to this Article through one or more of the following methods as may be appropriate to the employee or class of employees in question:

(1) By the Attorney General;

(2) By employing other counsel for this purpose as provided in G.S. 147-17;

(3) By authorizing the purchase of insurance which requires that the insurer provide or underwrite the cost of the defense; or

(4) By authorizing defense by counsel assigned to or employed by the department, agency, board, commission, institution, bureau, or authority which employed the person requesting the defense. (1967, c. 1092, s. 1.)

OPINIONS OF ATTORNEY GENERAL

Decision to Defend Discretionary. — This section does not obligate the State to utilize any one of the four methods outlined therein in any particular case. Rather, the State has the discretion under this section to provide for an employee's defense through any one of the four methods as may be appropriate to the employee or class of employees in question. See opinion of Attorney General to Mr. Richard H. Robinson, Jr., Assistant to the President, The University of North Carolina, 59 N.C.A.G. 21 (1989).

Defense Pursuant to Section Prerequisite to Payment of Judgment. — Section 143-300.6(a) does not authorize the State to pay any judgment rendered in any case where the state does not provide the defense for the employee under one of the methods specified in this section. See Opinion of Attorney General to Mr. Richard H. Robinson, Jr., Assistant to the President, The University of North Carolina, 59 N.C.A.G. 21 (1989).

§ 143-300.6. Payments of judgments; compromise and settlement of claims.

(a) Payment of Judgments and Settlements. In an action to which this Article applies, the State shall pay (i) a final judgment awarded in a court of competent jurisdiction against a State employee or (ii) the amount due under a settlement of the action under this section. The unit of State government that employed the employee shall pay the first one hundred fifty thousand dollars ($150,000) of liability, and the balance of any payment owed shall be paid in accordance with G.S. 143-299.4. This section does not waive the sovereign immunity of the State with respect to any claim. A payment of a judgment or settlement of a claim against a State employee or several State employees as joint tort-feasors may not exceed the amount payable for one claim under the Tort Claims Act.

(b) Settlement of Claims. The Attorney General may compromise and settle any claim covered by this section to the extent he finds the claim valid. A settlement in excess of the limit provided in subsection (a) must be approved by the employee. In an action in which the Attorney General has stated in writing that private counsel should be provided the employee because of a conflict of interest between the employee and the State, a settlement in excess of the limit provided in subsection (a) must be approved by the private counsel.

(c) Other Insurance. The coverage afforded employees and former employees under this Article shall be excess coverage over any commercial liability insurance, other than insurance written under G.S. 58-32-15, up to the limit provided in subsection (a). (1973, c. 1372; 1975, c. 209, ss. 1, 2; 1979, c. 886; 1981, c. 1109, s. 2; 1991, c. 674, s. 2; 2000-67, s. 7A(h).)

Editor's Note. — Session Laws 2000-67, s. 1.1, provides: "This act shall be known as 'The Current Operations and Capital Improvements Appropriations Act of 2000'."

Session Laws 2000-67, s. 28.4, contains a severability clause.

Legal Periodicals. — For note on the liability of those charged as custodians of the convicted for personal injuries inflicted by inmates, parolees, and probationers, see 13 Wake Forest L. Rev. 668 (1977).

CASE NOTES

Section Is Not Waiver of Sovereign Immunity. — Nothing in the language of subsection (a) of this section indicates that the state is consenting to suits against it, but only that the state will pay judgments awarded by "courts of competent jurisdiction" in certain suits brought against state employees. Though other provisions of Article 31A suggest that subsection (a) requires the state to pay judgments entered in certain official-capacity actions against its employees, subsection (a) makes it clear that by agreeing to pay such judgments, the State does not intend to waive any underlying defense of sovereign immunity, either common law or constitutional. North Carolina ex rel. Thornburg v. Blackwood, 7 F.3d 1140 (4th Cir. 1993), cert. denied, 511 U.S. 1109, 114 S. Ct. 2106, 128 L. Ed. 2d 667 (1994).

Actions in Federal Court. — Whatever Article 31A may imply about the State's willingness to allow the payment of obligations created by subsection (a) of this section to be enforced against it in its own courts, the implication that it is willing to permit such obligations to be enforced against it in federal court is not so "overwhelming" as to permit a finding of Eleventh Amendment waiver of immunity. North Carolina ex rel. Thornburg v. Blackwood, 7 F.3d 1140 (4th Cir. 1993), cert. denied, 511 U.S. 1109, 114 S. Ct. 2106, 128 L. Ed. 2d 667 (1994).

The Eleventh Amendment barred plaintiff's 42 U.S.C. § 1983 claim for monetary damages against state officers in their official capacities. Lynn v. West, 134 F.3d 582, 1998 U.S. App. LEXIS 403 (4th Cir. 1998), cert. denied, 525 U.S. 813, 119 S. Ct. 47, 142 L. Ed. 2d 36 (1998). (But see Milligan v. State, 135 N.C. App. 781, 522 S.E.2d 330 (1999)).

Applied in Gray v. Laws, 51 F.3d 426 (4th Cir. 1995).

Cited in Houck & Sons v. Transylvania County, 852 F. Supp. 442 (W.D.N.C. 1993), aff'd, 36 F.3d 1092 (4th Cir. 1994).

OPINIONS OF ATTORNEY GENERAL

Legislative Intent. — The General Assembly intended the phrase "actions or suits to which this article applies" in subsection (a) of this section to describe those actions or suits against a state employee for which the State has agreed to provide defense under G.S. 143-300.3. See opinion of Attorney General to Mr. Richard H. Robinson, Jr., Assistant to the President, The University of North Carolina, 59 N.C.A.G. 21 (1989).

State Must Provide a Defense Prescribed in § 143-300.5. — Subsection (a) of this section does not authorize the State to pay any judgment rendered in any case where the State does not provide the defense for the employee under one of the methods specified in G.S. 143-300.5. See opinion of Attorney General to Mr. Richard H. Robinson, Jr., Assistant to the President, The University of North Carolina, 59 N.C.A.G. 21 (1989).

This section does not permit the State to pay a final judgment awarded against a State employee in a civil or criminal proceeding brought against him on account of an act done or omission made in the scope and course of his employment, where the State has decided not to provide for the employee's defense under G.S. 143-300.3 or G.S. 143-300.4. See opinion of Attorney General to Mr. Richard H. Robinson, Jr., Assistant to the President, Univ. of N.C., 59 N.C.A.G. 21 (1989).

§ 143-300.7. Defense of medical contractors.

Notwithstanding any other provisions of this Article, any person or professional association who at the request of the Department of Correction provides medical and dental services to inmates in the custody of the Department of Correction and who is sued pursuant to the Federal Civil Rights Act of 1871 may be defended by the Attorney General and shall be protected from liability for violations of civil rights in accordance with the provisions of this Article. (1979, c. 1053, s. 2.)

CASE NOTES

Liability Protection Given for Medical Services to Inmates. — By this statute, the State provides for representation and protection from liability for any person who provides medical services to inmates and who is sued pursuant to 42 U.S.C. § 1983. West v. Atkins, 487 U.S. 42, 108 S. Ct. 2250, 101 L. Ed. 2d 40 (1988).

§ 143-300.8. Defense of local sanitarians.

Any local health department sanitarian enforcing rules of the Commission for Health Services under the supervision of the Department of Environment and Natural Resources pursuant to G.S. 130A-4(b) shall be defended by the Attorney General, subject to the provisions of G.S. 143-300.4, and shall be protected from liability in accordance with the provisions of this Article in any civil or criminal action or proceeding brought against the sanitarian in his official or individual capacity, or both, on account of an act done or omission made in the scope and course of enforcing the rules of the Commission for Health Services. The Department of Environment and Natural Resources shall pay any judgment against the sanitarian, or any settlement made on his behalf, subject to the provisions of G.S. 143-300.6. (1987, c. 654, s. 2; 1989, c. 727, s. 219(36); 1997-443, s. 11A.96.)

Editor's Note. — Session Laws 2001-505, s. 3, as amended by Session Laws 2002-159, s. 60, provides: "The Public Officers and Employees Liability Insurance Commission in the Department of Insurance shall effect and place professional liability insurance coverage under G.S. 58-32-15 for local health department sanitarians defended by the State under G.S. 143-300.8. For insurance purposes only under G.S. 58-32-15, local health department sanitarians are considered to be employees of the Department of Environment and Natural Resources."

CASE NOTES

Obligation to Defend Shown. — As affirmative obligation on the Attorney General to provide certain sanitarians a legal defense did not accrue or become fixed until the filing of the civil action and the civil action against defendant was filed after the effective date of the statute, the rules against retroactive application were not violated and the statute applied. Cates v. North Carolina Dep't of Justice, 121 N.C. App. 243, 465 S.E.2d 64 (1996), modified and aff'd, 346 N.C. 781, 487 S.E.2d 723 (1997).

Preliminary Soil Evaluation. — Preliminary soil evaluation conducted by sanitarian was neither a prerequisite to obtaining an improvements permit nor otherwise required by the rules of the commission for Health Services; thus, this section did not require the Attorney General to defend sanitarian in the action arising out of his alleged negligence. Cates v. North Carolina Dep't of Justice, 346 N.C. 781, 487 S.E.2d 723 (1997).

While a preliminary soil evaluation or analysis is a valuable service to a potential purchaser of land, a social health department sanitarian is not "enforcing rules of the Commission for Health Services" as required by this section when he conducts such an evaluation. Cates v. North Carolina Dep't of Justice, 346 N.C. 781, 487 S.E.2d 723 (1997).

Applied in Gray v. Laws, 51 F.3d 426 (4th Cir. 1995).

Cited in Houck & Sons v. Transylvania County, 852 F. Supp. 442 (W.D.N.C. 1993), aff'd, 36 F.3d 1092 (4th Cir. 1994).

§ 143-300.9. Payment of excess damages relating to unconstitutional taxes.

In an action to which this Article applies, the State shall pay the excess amount of a judgment or settlement under G.S. 143-300.6 for damages against a State employee for collecting or administering a tax that is held unconstitutional. The excess amount is the amount of the judgment or settlement over (i) the limit provided in G.S. 143-300.6(a) and (ii) any coverage under G.S. 58-32-15. This section does not waive the sovereign immunity of the State with respect to any claim. (1991, c. 674, s. 1.)

§ 143-300.10. Payment of excess damages relating to unconstitutional goals program.

In an action to which this Article applies, the State shall pay the excess amount of a judgment or settlement under G.S. 143-300.6 for damages against

a State employee or member of a State board or commission for enforcing or administering a goals program promoting participation by disadvantaged businesses, minority businesses, and women businesses, in contracts let by a State department or agency that is held unconstitutional. The excess amount is the amount of the judgment or settlement over (i) the limit provided in G.S. 143-300.6(a) and (ii) any coverage under G.S. 58-32-15. This section does not waive the sovereign immunity of the State with respect to any claim. (1991 (Reg. Sess. 1992), c. 1044, s. 39(a).)

§§ 143-300.11, 143-300.12: Reserved for future codification purposes.

Article 31B.

Defense of Public School Employees.

§ 143-300.13. Definition of public school employee.

For the purpose of this Article, a public school employee is a person whose major responsibility is to teach or directly supervise teaching and who is employed in either a full-time or part-time capacity, including, but not limited to, the superintendent, assistant or associate superintendent, principal, assistant principal, classroom teacher, substitute teacher, supervisor, teacher aide, student teacher, or school nurse. (1979, c. 971, s. 2.)

§ 143-300.14. Defense of public school employees.

Except as provided in G.S. 143-300.15, the State shall provide defense counsel for the employee against whom a claim is made or civil action is commenced for personal injury on account of an act done or omission made in the course of the employee's duties under G.S. 115-146.1; provided that, no later than 30 days after the employee is notified of a claim or 10 days after the employee is served with complaint of the injured party, the employee gives written notice of the claim or action to the Attorney General which notice shall include:

(1) The name and address of the claimant and his attorney;
(2) A concise statement of the basis of the claim;
(3) The name and address of any other employees involved; and
(4) A copy of any correspondence received by the employee and legal documents served on the employee pertaining to the claim or civil action. (1979, c. 971, s. 2.)

Editor's Note. — Section 115-146.1, referred to in this section, was repealed by Session Laws 1981, c. 423, s. 1, effective July 1, 1981. As to present provisions, pertaining to teachers' duties, see G.S. 115C-307.

Legal Periodicals. — For survey of 1979 administrative law, see 58 N.C.L. Rev. 1185 (1980).

§ 143-300.15. Refusal of defense.

The Attorney General may refuse to defend an employee for any of the reasons listed in G.S. 143-300.4(a). (1979, c. 971, s. 2.)

§ 143-300.16. Payment of judgments and settlement of claims.

(a) Any final judgment awarded against an employee in an action that meets the requirements of G.S. 143-300.14, or any amount payable under a

settlement of the action, shall be paid the State. The first one hundred fifty thousand dollars($150,000) of liability shall be paid from funds appropriated to the State Board of Education for the payment of State Tort Claims. The balance of any payment owed shall be paid in accordance with G.S. 143-299.4. No payment shall be made from either funds appropriated to the State Board of Education or funds transferred from State agencies under G.S. 143-299.4 for any judgment for punitive damages. Nothing in this section shall be deemed to waive the sovereign immunity of the State with respect to a claim covered under this section or authorize the payment of any judgment or settlement against a public school employee in excess of the limit provided in the Tort Claims Act.

(b) The Attorney General may settle any claim to which this Article applies which he finds valid. In any case in which the Attorney General has stated in writing that private counsel ought to be provided because of a conflict with the interests of the State, any settlement shall be approved by the private counsel and the Attorney General.

(c) The coverage afforded an employee under this Article is excess coverage over any commercial insurance liability that the employee may have. (1979, c. 971, s. 2; 2000-67, s. 7A(i).)

Legal Periodicals. — For survey of 1979 administrative law, see 58 N.C.L. Rev. 1185 (1980).

§ 143-300.17. Employee's obligation for attorney fees.

If any employee has been defended by the Attorney General, or if the State has provided private counsel for an employee, and judgment rendered on the claim establishes that the act or omission complained of did not meet the requirements of G.S. 115-146.1, the judgment against the employee may provide for payment to the State of its costs including a reasonable attorney fee. (1979, c. 971, s. 2.)

Editor's Note. — Section 115-146.1, referred to in this section, was repealed by Session Laws 1981, c. 423, s. 1, effective July 1, 1981. As to elementary and secondary education, see now Chapter 115C.

Legal Periodicals. — For note, "A Public Goods Approach to Calculating Reasonable Fees under Attorney Fee Shifting Statutes," see 1989 Duke L.J. 438.

§ 143-300.18. Protection is additional.

The protection to employees provided in this Article is in addition to any other protection provided in the General Statutes. (1979, c. 971, s. 2.)

§§ 143-300.19 through 14-300.29: Reserved for future codification purposes.

Article 31C.

Service on Certification Entity.

§ 143-300.30. Service on National Tobacco Grower Settlement Trust.

(a)(1) Philip Morris, Inc., Brown and Williamson Tobacco Corporation, Lorillard Tobacco Company, and R.J. Reynolds Tobacco Company

(hereinafter, the 'tobacco companies') have proposed to create a National Tobacco Grower Settlement Trust under which the tobacco companies will pay, during a 12-year period, a base amount of approximately five billion one hundred fifty million dollars ($5,150,000,000) into a trust to provide payments to tobacco growers and allotment holders in 14 grower states, including North Carolina, for the purposes of ameliorating potential adverse economic consequences of likely changes in the tobacco market on grower states.

(2) The tobacco companies desire that the money paid into the trust be divided among tobacco producers and allotment holders in accordance with a plan designed and approved by a certification entity in each state.

(3) The tobacco companies desire that in larger grower states, including North Carolina, the certification entity be a nonprofit corporation governed by a board of directors consisting of the following public officials and persons appointed by public officials: the Governor, who shall serve as chair of the board of directors; the Commissioner of Agriculture, who shall serve as vice-chair; the Attorney General, who shall serve as secretary; a State Senator appointed by the President Pro Tempore of the Senate; a StateRepresentative appointed by the Speaker of the House of Representatives; two members of the North Carolina congressional delegation selected by the delegation; and four to seven citizens appointed by the Governor.

(4) It is in the public interest that these officials and citizens serve on the board of directors and determine the distribution of these private trust funds to tobacco producers and allotment holders in North Carolina.

(b) The Governor, the Speaker of the House of Representatives, and the President Pro Tempore of the Senate are authorized to appoint members of the board of directors of the certification entity as provided in Section 1.(a)(3), and the public officials referred to in Section 1.(a)(3) are authorized to serve on that board.

(c) No member of the certification entity for the National Tobacco Grower Trust Fund is subject to civil liability for any act or omission arising out of the performance of the member's duties as a member or officer of the certification entity. This section does not apply to liability arising from willful or wanton misconduct, intentional wrong doing, or the operation of a motor vehicle. (1999-333, s. 1)

Editor's Note. — This Article was codified at the direction of the reviser of statutes.

§§ 143-300.31 through 143-300.34: Reserved for future codification purposes.

Article 31D.

State Employee Federal Remedy Restoration Act.

§ 143-300.35. State Employee Federal Remedy Restoration Act.

(a) The sovereign immunity of the State is waived for the limited purpose of allowing State employees, except for those in exempt policy-making positions designated pursuant to G.S. 126-5(d), to maintain lawsuits in State and federal

courts and obtain and satisfy judgments against the State or any of its departments, institutions, or agencies under:

(1) The Fair Labor Standards Act, 29 U.S.C. § 201, et seq.

(2) The Age Discrimination in Employment Act, 29 U.S.C. § 621, et seq.

(3) The Family and Medical Leave Act, 29 U.S.C. § 2601, et seq.

(4) The Americans with Disabilities Act, 42 U.S.C. § 12101, et seq.

(b) The amount of monetary relief a State employee receives under subsection (a) of this section shall not exceed the amounts authorized under G.S. 143-299.2 or the amounts authorized under the applicable federal law under this section, whichever is less. (2001-467, s. 1.)

Editor's Note. — Session Laws 2001-467, s. 3, makes this section effective October 1, 2001, and applicable to causes of action arising on or after that date.

CASE NOTES

Applicability. — Employee's age discrimination claims under the Age Discrimination in Employment Act of 1967, 29 U.S.C.S. § 621 et seq., were barred by the doctrine of sovereign immunity where the employee's claim stemmed from events occurring before October 1, 2001, thereby making North Carolina's recent waiver of sovereign immunity, G.S. 143-300.35, inapplicable. Candillo v. N.C. Dep't of Corr., 199 F. Supp. 2d 342, 2002 U.S. Dist. LEXIS 13272 (M.D.N.C. 2002).

ARTICLE 32.

Payroll Savings Plan for State Employees.

§ 143-301. Authority of Governor.

The Governor may, with the approval of the Council of State, authorize any or all of the departments, institutions, and agencies of the State to establish a voluntary payroll deduction plan for the purchase of United States savings bonds by State employees, and to set up the necessary machinery for carrying out the purposes of this Article. (1951, c. 1020, s. 1.)

§ 143-302. Expenses.

Funds may be allotted out of the contingency and emergency appropriation to defray the necessary expenses incurred by departments, institutions and agencies financed out of the general fund of the State, and departments, institutions and agencies financed out of special funds or entirely from receipts shall defray the necessary expenses incurred without expense to the general fund of the State. (1951, c. 1020, s. 2.)

§ 143-303. Agreements of employees with heads of departments, etc.

Any of the employees of the State of North Carolina may voluntarily enter into written agreement with heads of the department or institution or agency where employed, which has adopted the payroll savings plan, to authorize deductions from his or her salary of certain designated sums to be invested in United States savings bonds of the kind and type specified in such agreement. (1951, c. 1020, s. 3.)

§ 143-304. Salary deductions and purchase of bonds authorized.

Upon the execution of such agreement by any State employee with the State department, institution or agency where employed, the department, institution or agency is authorized and empowered to deduct the sum specified in said agreement from the weekly or monthly salary of such employee, and to show deduction on all pay rolls similar to withholding tax, retirement, insurance, hospitalization, etc. Such sums shall be held until sufficient moneys have accumulated to the credit of each individual sufficient to purchase a bond, and such sum shall be invested in United States savings bonds, for and on behalf of such employee, and the bonds shall be delivered to the employee as soon as practical. Provided that no coercion of any sort shall be exercised to require any person to participate. (1951, c. 1020, s. 4.)

§ 143-305. Cancellation of agreements.

Such agreement may be cancelled by the employee executing the same upon giving written notice to the head of the department, institution or agency where employed not later than the fifteenth day of the month in which he or she desires such agreement to be terminated, and the head of the department, institution or agency may cancel any agreement, herein provided for, upon giving 10 days' written notice to the affected employee. Upon the termination of the agreement the head of the department, institution or agency is hereby authorized to refund any amount of money held for the employee. (1951, c. 1020, s. 5.)

Article 33.

Judicial Review of Decisions of Certain Administrative Agencies.

§§ 143-306 through 143-316: Repealed by Session Laws 1973, c. 1331, s. 2, as amended by Session Laws 1975, c. 69, s. 4.

Cross References. — For present provisions as to judicial review of decisions of administrative agencies, see G.S. 150B-43 et seq.

Article 33A.

Rules of Evidence in Administrative Proceedings before State Agencies.

§§ 143-317, 143-318: Repealed by Session Laws 1973, c. 1331, s. 2, as amended by Session Laws 1975, c. 69, s. 4.

Cross References. — For present provisions as to evidence in administrative proceedings, see G.S. 150B-28 et seq.

Article 33B.

Meetings of Governmental Bodies.

§§ 143-318.1 through 143-318.8: Repealed by Session Laws 1979, c. 655, s. 1.

Article 33C.

Meetings of Public Bodies.

§ 143-318.9. Public policy.

Whereas the public bodies that administer the legislative, policy-making, quasi-judicial, administrative, and advisory functions of North Carolina and its political subdivisions exist solely to conduct the people's business, it is the public policy of North Carolina that the hearings, deliberations, and actions of these bodies be conducted openly. (1979, c. 655, s. 1.)

Local Modification. — (As to Article 33C) Edgecombe: 1991, c. 404, ss. 3(h), 4(h) and 5(e); (as to Article 33C) Franklin: 1993, c. 341; (as to Article 33C) city of Charlotte: 2000-26, s. 1; city of Durham: 1983, c. 373; city of Fayetteville: 1989, c. 355, s. 1; (as to Article 33C) city of Franklinton: 1993, c. 341; (as to Article 33C) city of Greensboro: 1987, c. 51.

Cross References. — As to meetings of agencies concerned with public education, see G.S. 115C-4.

Editor's Note. — Session Laws 1979, c. 655, s. 3, provided: "All provisions of general laws, city charters, and local acts in effect as of October 1, 1979, and in conflict with the provisions of G.S. Chapter 143, Article 33C, as enacted by Section 1 of this act, are repealed insofar as they conflict with the provisions of G.S. Chapter 143, Article 33C. No general law, city charter, or local act enacted or taking effect after October 1, 1979, may be construed to modify, amend, or repeal any provision of Article 33C unless it expressly so provides by specific reference to the appropriate section number of that Article."

Session Laws 1997-443, s. 11.57(b), provides that meetings of the State Child Fatality Review Team are not subject to the provisions of Article 33C of Chapter 143 of the General Statutes.

Legal Periodicals. — For article, "Interpreting North Carolina's Law," see 54 N.C.L. Rev. 777 (1976).

For survey of 1976 case law dealing with administrative law, see 55 N.C.L. Rev. 898 (1977).

For survey of 1977 law on open meetings, see 56 N.C.L. Rev. 861 (1978).

CASE NOTES

Editor's Note. — *Most of the cases cited below were decided under former G.S. 143-318.1 et seq.*

Public body which underwent little more than a change of name through incorporation continued to be an agency of the county. To hold otherwise would eviscerate the public policy of this section. Winfas, Inc. v. Region P Human Dev. Agency, 64 N.C. App. 724, 308 S.E.2d 99 (1983).

Voting for a person to fill a vacancy on a board was an "action" under former G.S. 143-318.1. News & Observer Publishing Co. v. Interim Bd. of Educ., 29 N.C. App. 37, 223 S.E.2d 580 (1976).

Voting by secret ballot could not be reconciled with acting "openly" under former G.S. 143-318.1. News & Observer Publishing Co. v. Interim Bd. of Educ., 29 N.C. App. 37, 223 S.E.2d 580 (1976).

Actions on Pending Motions. — Section 143-318.9 does not require the solicitation of public comment as a prerequisite to a vote on a pending motion, it simply requires that if there is any discussion or debate of public business at an official meeting, that discussion or debate must occur in a meeting open to the public with any person entitled to attend. Sigma Constr. Co. v. Guilford County Bd. of Educ., 144 N.C. App. 376, 547 S.E.2d 178, 2001 N.C. App. LEXIS 442 (2001).

Effect of Closed Meeting on Validity of Action Taken. — There was nothing in former Article 33B which supported the contention

that all action taken at a meeting of any governmental body of the State or of one of its political subdivisions would be completely void if such meeting was not open to the public. Lewis v. White, 287 N.C. 625, 216 S.E.2d 134 (1975).

As to strict construction of exceptions to former Article 33B, see News & Observer Publishing Co. v. Interim Bd. of Educ., 29 N.C. App. 37, 223 S.E.2d 580 (1976).

Burden on Those Claiming Exceptions. — Those seeking to come within the exceptions to the open meetings law, former Article 33B, had the burden of justifying their action. News & Observer Publishing Co. v. Interim Bd. of Educ., 29 N.C. App. 37, 223 S.E.2d 580 (1976).

An action by a Board of Education to give itself a pay raise must be deliberated at a meeting open to the public. Jacksonville Daily News Co. v. Onslow County Bd. of Educ., 113 N.C. App. 127, 439 S.E.2d 607 (1993).

School board violated the Open Meetings Law where it had a policy of entering closed session for reasons that were similar to the reasons that the General Assembly passed the Open Meetings Law, to curtail unwarranted secrecy by public bodies. H.B.S. Contractors v. Cumberland County Bd. of Educ., 122 N.C. App. 49, 468 S.E.2d 517 (1996), discretionary review improvidently allowed, 345 N.C. 178, 477 S.E.2d 926 (1996).

Cited in DTH Publishing Corp. v. University of N.C., 128 N.C. App. 534, 496 S.E.2d 8 (1998), cert. denied, 348 N.C. 496, 510 S.E.2d 382 (1998).

§ 143-318.10. All official meetings of public bodies open to the public.

(a) Except as provided in G.S. 143-318.11, 143-318.14A, 143-318.15, and 143-318.18, each official meeting of a public body shall be open to the public, and any person is entitled to attend such a meeting.

(b) As used in this Article, "public body" means any elected or appointed authority, board, commission, committee, council, or other body of the State, or of one or more counties, cities, school administrative units, constituent institutions of The University of North Carolina, or other political subdivisions or public corporations in the State that (i) is composed of two or more members and (ii) exercises or is authorized to exercise a legislative, policy-making, quasi-judicial, administrative, or advisory function. In addition, "public body" means the governing board of a "public hospital" as defined in G.S. 159-39 and the governing board of any nonprofit corporation to which a hospital facility has been sold or conveyed pursuant to G.S. 131E-8, any subsidiary of such nonprofit corporation, and any nonprofit corporation owning the corporation to which the hospital facility has been sold or conveyed.

(c) "Public body" does not include (i) a meeting solely among the professional staff of a public body, or (ii) the medical staff of a public hospital or the medical staff of a hospital that has been sold or conveyed pursuant to G.S. 131E-8.

(d) "Official meeting" means a meeting, assembly, or gathering together at any time or place or the simultaneous communication by conference telephone or other electronic means of a majority of the members of a public body for the purpose of conducting hearings, participating in deliberations, or voting upon or otherwise transacting the public business within the jurisdiction, real or apparent, of the public body. However, a social meeting or other informal assembly or gathering together of the members of a public body does not constitute an official meeting unless called or held to evade the spirit and purposes of this Article.

(e) Every public body shall keep full and accurate minutes of all official meetings, including any closed sessions held pursuant to G.S. 143-318.11. Such minutes may be in written form or, at the option of the public body, may be in the form of sound or video and sound recordings. When a public body meets in closed session, it shall keep a general account of the closed session so that a person not in attendance would have a reasonable understanding of what transpired. Such accounts may be a written narrative, or video or audio recordings. Such minutes and accounts shall be public records within the meaning of the Public Records Law, G.S. 132-1 et seq.; provided, however, that

minutes or an account of a closed session conducted in compliance with G.S. 143-318.11 may be withheld from public inspection so long as public inspection would frustrate the purpose of a closed session. (1979, c. 655, s. 1; 1985 (Reg. Sess., 1986), c. 932, s. 4; 1991, c. 694, ss. 1, 2; 1993 (Reg. Sess., 1994), c. 570, s. 1; 1995, c. 509, s. 135.2(p); 1997-290, s. 1; 1997-465, s. 27.)

Editor's Note. — Subdivisions (1) and (2) in subsection (c) were renumbered as subdivisions (i) and (ii) pursuant to S.L. 1997-465, s. 27 which authorized the Revisor of Statutes to renumber or reletter sections and parts of sections having a number or letter designation that is incompatible with the General Assembly's computer database.

CASE NOTES

Definition of "Public Body" as Affecting Classification of Actions as "State Action." — The label given Chapter 131E is irrelevant in determining whether a private, non-profit hospital's suspension and revocation of staff privileges constitutes state action. Likewise, the definition of a "public body" for purposes of the open meetings statute does not establish a sufficient nexus for state action. Weston v. Carolina Medicorp, Inc., 102 N.C. App. 370, 402 S.E.2d 653 (1991).

Wake County Hospital System as a "Public Body." — By virtue of the definitions in subsection (b) of this section and G.S. 159-39(a), the Wake County Hospital System is a "public body" that must, by law, record settlement terms considered in executive sessions; in addition, the public has the right to know the terms of settlements made by the system in actions for wrongful terminations of its agreements, since the funds from which the settlements are paid must be considered the county's funds. News & Observer Publishing Co. v. Wake County Hosp. Sys., 55 N.C. App. 1, 284 S.E.2d 542 (1981), cert. denied, 305 N.C. 302, 291 S.E.2d 151, appeal dismissed and cert. denied, 459 U.S. 803, 103 S. Ct. 26, 74 L. Ed. 2d 47 (1982).

School board was a public body and was required to hold its meetings in conformity with the open meetings law. Sigma Constr. Co. v. Guilford County Bd. of Educ., 144 N.C. App. 376, 547 S.E.2d 178, 2001 N.C. App. LEXIS 442 (2001).

College's undergraduate court was a "public body" under this section. DTH Publishing Corp. v. University of N.C., 128 N.C. App. 534, 496 S.E.2d 8 (1998), cert. denied, 348 N.C. 496, 510 S.E.2d 382 (1998).

Withholding of Recordings from Closed Session. — Closed session of Undergraduate Court was authorized under G.S. 143-318.11 and the recordings of the closed session may be withheld from public inspection pursuant to subsection (e) of this section. DTH Publishing Corp. v. University of N.C., 128 N.C. App. 534, 496 S.E.2d 8 (1998), cert. denied, 348 N.C. 496, 510 S.E.2d 382 (1998).

Public Records Act and This Section Compared. — The Public Records Act (G.S. 132-1 et seq.) and the Open Meetings Law (G.S. 143-318.10) are discrete statutes, each designed to promote in a different way openness in government. There is no suggestion in either statute that an agency not subject to one is, ipso facto, exempt from the other. News & Observer Publishing Co. v. Poole, 330 N.C. 465, 412 S.E.2d 7 (1992).

Agencies Exempt from § 143-318.10. — The Public Records Law (G.S. 132-1 et seq.) may apply to minutes from meetings of an agency exempt from the Open Meetings Law (G.S. 143-318.10). News & Observer Publishing Co. v. Poole, 330 N.C. 465, 412 S.E.2d 7 (1992).

The only meetings required by former § 143-318.2 to be open to the public were official meetings of the governing and governmental bodies of this State and its political subdivisions, including specified types of subsidiary or component parts of such bodies. Student Bar Ass'n Bd. of Governors v. Byrd, 293 N.C. 594, 239 S.E.2d 415 (1977).

OPINIONS OF ATTORNEY GENERAL

Definition of "Public Entity". — The term "public entity" includes all elected or appointed authorities of the state and their individual departments, commissions, committees, councils, including the constituent institutions of the University of North Carolina. See opinion of Attorney General to T. Brooks Skinner, Jr., General Counsel, North Carolina Department of Administration, 2002 N.C. AG LEXIS 13 (3/7/02).

Opening of Closed Session Minutes. — When board of county commissioners returned to public session, after meeting with its attorney in closed session, and announced that, during the closed session, its attorney had recommended changes to a proposed ordinance,

the minutes of the closed session had to be disclosed under G.S. 143-318.10(e), because it would no longer frustrate the purpose of the closed session to disclose the minutes. Multimedia Publ'g of N.C., Inc. v. Henderson County, 145 N.C. App. 365, 550 S.E.2d 846, 2001 N.C. App. LEXIS 638 (2001).

Under G.S. 143-318.10, minutes of all official meetings, including closed sessions, are public records within meaning of Public Records Law, G.S. 132-1 et seq. Boney Publishers, Inc. v. Burlington City Council, 151 N.C. App. 651, 566 S.E.2d 701, 2002 N.C. App. LEXIS 859 (2002), cert. denied, 356 N.C. 297, 571 S.E.2d 221 (2002).

Even though they are public records, minutes or an account of a closed session conducted in compliance with G.S. 143-318.11 may be withheld from public inspection so long as public inspection would frustrate the purpose of a closed session, under G.S. 143-318.10(e). Boney Publishers, Inc. v. Burlington City Council, 151 N.C. App. 651, 566 S.E.2d 701, 2002 N.C. App. LEXIS 859 (2002), cert. denied, 356 N.C. 297, 571 S.E.2d 221 (2002).

Plain language of G.S. 143-138.10 requires that a closed session be conducted in compliance with G.S. 143-318.11 in order for the minutes of such session to be withheld from public inspection. Boney Publishers, Inc. v. Burlington City Council, 151 N.C. App. 651, 566 S.E.2d 701, 2002 N.C. App. LEXIS 859 (2002), cert. denied, 356 N.C. 297, 571 S.E.2d 221 (2002).

University Board of Governors and Employees Not Covered by Former § 143-318.2. — Board of Governors of The University of North Carolina is not, itself, a "governmental body of this State," and former G.S. 143-318.2 did not extend to the meetings of its employees, even though such employees be deemed a component part of the Board of Governors. Student Bar Ass'n Bd. of Governors v. Byrd, 293 N.C. 594, 239 S.E.2d 415 (1977).

Former § 143-318.2 did not require that meetings of the faculty of the School of Law of The University of North Carolina be open to the public. Student Bar Ass'n Bd. of Governors v. Byrd, 293 N.C. 594, 239 S.E.2d 415 (1977).

Acquisition of Property. — Because the Open Meetings Law authorizes a closed session to discuss the acquisition of property, and G.S. 158-7.1(c) requires that notice of the public hearing thereon describe the intention to approve it, it logically follows that the intent to approve the acquisition which is the subject of the notice may be formed in a closed session. Maready v. City of Winston-Salem, 342 N.C. 708, 467 S.E.2d 615 (1996).

Applied in Winfas, Inc. v. Region P Human Dev. Agency, 64 N.C. App. 724, 308 S.E.2d 99 (1983).

Cited in Dockside Discotheque, Inc. v. Board of Adjustment, 115 N.C. App. 303, 444 S.E.2d 451, cert. denied, 338 N.C. 309, 451 S.E.2d 635 (1994); Cohn v. Wilkes Gen. Hosp., 127 F.R.D. 117 (W.D.N.C. 1989); Multimedia Publishing of N.C., Inc. v. Henderson County, 136 N.C. App. 567, 525 S.E.2d 786 (2000), cert. denied, 351 N.C. 474, 543 S.E.2d 492 (2000); Boney Publishers, Inc. v. Burlington City Council, 151 N.C. App. 651, 566 S.E.2d 701, 2002 N.C. App. LEXIS 859 (2002), cert. denied, 356 N.C. 297, 571 S.E.2d 221 (2002).

§ 143-318.11. Closed sessions.

(a) Permitted Purposes. — It is the policy of this State that closed sessions shall be held only when required to permit a public body to act in the public interest as permitted in this section. A public body may hold a closed session and exclude the public only when a closed session is required:

(1) To prevent the disclosure of information that is privileged or confidential pursuant to the law of this State or of the United States, or not considered a public record within the meaning of Chapter 132 of the General Statutes.

(2) To prevent the premature disclosure of an honorary degree, scholarship, prize, or similar award.

(3) To consult with an attorney employed or retained by the public body in order to preserve the attorney-client privilege between the attorney and the public body, which privilege is hereby acknowledged. General policy matters may not be discussed in a closed session and nothing herein shall be construed to permit a public body to close a meeting that otherwise would be open merely because an attorney employed or retained by the public body is a participant. The public body may consider and give instructions to an attorney concerning the handling or settlement of a claim, judicial action, mediation, arbitration, or

administrative procedure. If the public body has approved or considered a settlement, other than a malpractice settlement by or on behalf of a hospital, in closed session, the terms of that settlement shall be reported to the public body and entered into its minutes as soon as possible within a reasonable time after the settlement is concluded.

(4) To discuss matters relating to the location or expansion of industries or other businesses in the area served by the public body, including agreement on a tentative list of economic development incentives that may be offered by the public body in negotiations. The action approving the signing of an economic development contract or commitment, or the action authorizing the payment of economic development expenditures, shall be taken in an open session.

(5) To establish, or to instruct the public body's staff or negotiating agents concerning the position to be taken by or on behalf of the public body in negotiating (i) the price and other material terms of a contract or proposed contract for the acquisition of real property by purchase, option, exchange, or lease; or (ii) the amount of compensation and other material terms of an employment contract or proposed employment contract.

(6) To consider the qualifications, competence, performance, character, fitness, conditions of appointment, or conditions of initial employment of an individual public officer or employee or prospective public officer or employee; or to hear or investigate a complaint, charge, or grievance by or against an individual public officer or employee. General personnel policy issues may not be considered in a closed session. A public body may not consider the qualifications, competence, performance, character, fitness, appointment, or removal of a member of the public body or another body and may not consider or fill a vacancy among its own membership except in an open meeting. Final action making an appointment or discharge or removal by a public body having final authority for the appointment or discharge or removal shall be taken in an open meeting.

(7) To plan, conduct, or hear reports concerning investigations of alleged criminal misconduct.

(8) To formulate plans by a local board of education relating to emergency response to incidents of school violence.

(9) To discuss and take action regarding plans to protect public safety as it relates to existing or potential terrorist activity and to receive briefings by staff members, legal counsel, or law enforcement or emergency service officials concerning actions taken or to be taken to respond to such activity.

(b) Repealed by Session Laws 1991, c. 694, s. 4.

(c) Calling a Closed Session. — A public body may hold a closed session only upon a motion duly made and adopted at an open meeting. Every motion to close a meeting shall cite one or more of the permissible purposes listed in subsection (a) of this section. A motion based on subdivision (a)(1) of this section shall also state the name or citation of the law that renders the information to be discussed privileged or confidential. A motion based on subdivision (a)(3) of this section shall identify the parties in each existing lawsuit concerning which the public body expects to receive advice during the closed session.

(d) Repealed by Session Laws 1993 (Reg. Sess., 1994), c. 570, s. 2. (1979, c. 655, s. 1; 1981, c. 831; 1985 (Reg. Sess., 1986), c. 932, s. 5; 1991, c. 694, ss. 3, 4; 1993 (Reg. Sess., 1994), c. 570, s. 2; 1995, c. 509, s. 84; 1997-222, s. 2; 1997-290, s. 2; 2001-500, s. 2; 2003-180, s. 2.)

Effect of Amendments. — Session Laws 2003-180, s. 2, effective June 12, 2003, added subdivision (a)(9).

CASE NOTES

Legislative Intent of Subsection (a)(1). — Legislature intended, in G.S. 143-318.11(a)(1), to restrict the subject matter which may be considered by a public body in a closed session. Boney Publishers, Inc. v. Burlington City Council, 151 N.C. App. 651, 566 S.E.2d 701, 2002 N.C. App. LEXIS 859 (2002), cert. denied, 356 N.C. 297, 571 S.E.2d 221 (2002).

Legislative Intent of Subsection (a)(3). — The legislature did not intend the reference to claims and settlements in the second half of the (a)(3) exception to create a limitation to the exception, but only to provide an illustration of what types of discussions can proceed in closed session. Multimedia Publishing of N.C., Inc. v. Henderson County, 136 N.C. App. 567, 525 S.E.2d 786 (2000), cert. denied, 351 N.C. 474, 543 S.E.2d 492 (2000).

Burden of Proof Requires Objective Indica. — The burden is on the government body to demonstrate that the attorney-client exception in (a)(3) applies, and the government body can only meet its burden by providing some objective indicia that the exception is applicable under the circumstances; mere assertions by the body or its attorney(s) in pleadings will not suffice. Multimedia Publishing of N.C., Inc. v. Henderson County, 136 N.C. App. 567, 525 S.E.2d 786 (2000), cert. denied, 351 N.C. 474, 543 S.E.2d 492 (2000).

The present attorney-client exception in subsection (a)(3) does not require a claim to be pending or threatened before the privilege of a closed session may be invoked by the government body. Multimedia Publishing of N.C., Inc. v. Henderson County, 136 N.C. App. 567, 525 S.E.2d 786 (2000), cert. denied, 351 N.C. 474, 543 S.E.2d 492 (2000).

Discussions Allowed Under Attorney-Client Privilege in (a)(3). — Discussions regarding the drafting, phrasing, scope, and meaning of proposed enactments would be permissible during a closed session under (a)(3), but as soon as discussions move beyond legal technicalities and into the propriety and merits of proposed enactments, the legal justification for closing the session ends. Multimedia Publishing of N.C., Inc. v. Henderson County, 136 N.C. App. 567, 525 S.E.2d 786 (2000), cert. denied, 351 N.C. 474, 543 S.E.2d 492 (2000).

Public body was entitled to hold a closed session to consult with an attorney employed or retained by the public body in order to preserve the attorney-client privilege between the attorney and the public body, in accordance with G.S. 143.318.11(a)(3). Sigma Constr. Co. v. Guilford County Bd. of Educ., 144 N.C. App. 376, 547 S.E.2d 178, 2001 N.C. App. LEXIS 442 (2001).

Attorney-Client Exception Held Applicable. — As zoning appeals board held closed hearings solely in order to consult with its attorney on matters within the scope of the attorney-client privilege, and the aggrieved property owner failed to show any prejudice from the board's meeting in closed session, its challenge to the closed meetings was denied. Carolina Holdings, Inc. v. Hous. Appeals Bd., 149 N.C. App. 579, 561 S.E.2d 541, 2002 N.C. App. LEXIS 281 (2002).

Closed session of board of county commissioners at which it met with its attorney to discuss the legalities of a proposed ordinance and during which no general policy matters were discussed was authorized by the attorney client privilege in G.S. 143-318.11(a)(3). Multimedia Publ'g of N.C., Inc. v. Henderson County, 145 N.C. App. 365, 550 S.E.2d 846, 2001 N.C. App. LEXIS 638 (2001).

Judicial Application of Subsection (d). — Courts should ensure that the exception in subsection (d) of this section to the disclosure requirement should extend no further than necessary to protect ongoing efforts of a public body, respecting the policy against secrecy in government that underlies both the Public Records Act and Open Meetings Law. News & Observer Publishing Co. v. Poole, 330 N.C. 465, 412 S.E.2d 7 (1992).

"Administrative procedure" as used in subsection (a)(3) refers only to administrative proceedings instituted under the Administrative Procedure Act (N.C.G.S. G.S. 150B-1, et seq.), and does not include mere clerical or managerial instructions to terminate a contract. H.B.S. Contractors v. Cumberland County Bd. of Educ., 122 N.C. App. 49, 468 S.E.2d 517 (1996), discretionary review improvidently allowed, 345 N.C. 178, 477 S.E.2d 926 (1996).

Settlement of Case. — Once the Board of County Commissioners authorized its attorney to settle the case, he was empowered to bind the board. Moore v. Beaufort County, 936 F.2d 159 (4th Cir. 1991).

A Board of County Commissioners' oral offer, through its attorney, to settle voting rights litigation on specific, enforceable terms was sufficient to bind the board. Under North Carolina law, public bodies can give instructions to their attorneys to settle litigation, so long as

the settlement terms are later entered into the minutes in open session. Moore v. Beaufort County, 936 F.2d 159 (4th Cir. 1991).

Matters Not Subject to Negotiation. — Under G.S. 143-318.11(a)(5), a city council erroneously refused to reveal in open session the location, proposed purpose, and owner of certain property it was considering acquiring for a public park, because none of those matters were subject to negotiation. Boney Publishers, Inc. v. Burlington City Council, 151 N.C. App. 651, 566 S.E.2d 701, 2002 N.C. App. LEXIS 859 (2002), cert. denied, 356 N.C. 297, 571 S.E.2d 221 (2002).

Language of G.S. 143-318.11(a)(5) does not permit a public body to deny the public access to information which is not a material term subject to negotiation regarding the acquisition of real property so a public body may not reserve for discussion in closed session, under the guise of G.S. 143-318.11(a)(5), matters relating to the terms of a contract for acquisition of real property unless those terms are material to the contract and also actually subject to negotiation. Boney Publishers, Inc. v. Burlington City Council, 151 N.C. App. 651, 566 S.E.2d 701, 2002 N.C. App. LEXIS 859 (2002), cert. denied, 356 N.C. 297, 571 S.E.2d 221 (2002).

Wake County Hospital System as a "Public Body". — By virtue of the definitions in G.S. 143-318.10(b) and 159-39(a), the Wake County Hospital System is a "public body" that must, by law, record settlement terms considered in executive sessions; in addition, the public has the right to know the terms of settlements made by the system in actions for wrongful terminations of its agreements, since the funds from which the settlements are paid must be considered the county's funds. News & Observer Publishing Co. v. Wake County Hosp. Sys., 55 N.C. App. 1, 284 S.E.2d 542 (1981), cert. denied, 305 N.C. 302, 291 S.E.2d 151, appeal dismissed and cert. denied, 459 U.S. 803, 103 S. Ct. 26, 74 L. Ed. 2d 47 (1982).

Undergraduate Court was entitled to hold a closed session to prevent the disclosure of education records protected by FERPA (Family Educational and Privacy Rights Act). DTH Publishing Corp. v. University of N.C., 128 N.C. App. 534, 496 S.E.2d 8 (1998), cert. denied, 348 N.C. 496, 510 S.E.2d 382 (1998).

Closed session of Undergraduate Court was authorized under this section and the recordings of the closed session may be withheld from public inspection pursuant to subsection G.S. 143-318.10(e). DTH Publishing Corp. v. University of N.C., 128 N.C. App. 534, 496 S.E.2d 8 (1998), cert. denied, 348 N.C. 496, 510 S.E.2d 382 (1998).

Considerations Where Proceedings No Longer Ongoing. — The nature and purpose of the meetings at issue are relevant in determining the extent of protection, if any, provided in subsection (d) of this section for minutes of proceedings that are no longer ongoing. News & Observer Publishing Co. v. Poole, 330 N.C. 465, 412 S.E.2d 7 (1992).

Hospital "credentialing records" pertaining to a physician were confidential and privileged. Whisenhunt v. Zammit, 86 N.C. App. 425, 358 S.E.2d 114 (1987).

Commitment of Water Line in Executive Session. — Even if water line commitment made at an executive session violated open meetings law, it did not prevent defendant city from later committing itself to furnish water to citizen's property. After lengthy public hearings all facts pertinent to the case were publicly presented, including the city's proposal to furnish water line. Coulter v. City of Newton, 100 N.C. App. 523, 397 S.E.2d 244 (1990).

Disclosure of Minutes. — Even though they are public records, minutes or an account of a closed session conducted in compliance with G.S. 143-318.11 may be withheld from public inspection so long as public inspection would frustrate the purpose of a closed session, under G.S. 143-318.10(e). Boney Publishers, Inc. v. Burlington City Council, 151 N.C. App. 651, 566 S.E.2d 701, 2002 N.C. App. LEXIS 859 (2002), cert. denied, 356 N.C. 297, 571 S.E.2d 221 (2002).

Plain language of G.S. 143-138.10 requires that a closed session be conducted in compliance with G.S. 143-318.11 in order for the minutes of such session to be withheld from public inspection. Boney Publishers, Inc. v. Burlington City Council, 151 N.C. App. 651, 566 S.E.2d 701, 2002 N.C. App. LEXIS 859 (2002), cert. denied, 356 N.C. 297, 571 S.E.2d 221 (2002).

Disclosure Held Necessary Where Proceedings Not Ongoing. — Where Commission formed to investigate improprieties in a university athletic program had completed its proceedings and had reported to the university system's chief executive officer, and no further action or disposition by any higher ranking university officer was pending, the Commission's work, or any results depending on that work, could not have been compromised by public inspection of minutes of its meetings. News & Observer Publishing Co. v. Poole, 330 N.C. 465, 412 S.E.2d 7 (1992).

Cited in Dockside Discotheque, Inc. v. Board of Adjustment, 115 N.C. App. 303, 444 S.E.2d 451, cert. denied, 338 N.C. 309, 451 S.E.2d 635 (1994); Cohn v. Wilkes Gen. Hosp., 127 F.R.D. 117 (W.D.N.C. 1989); Durham Herald Co. v. County of Durham, 334 N.C. 677, 435 S.E.2d 317 (1993); Maready v. City of Winston-Salem, 342 N.C. 708, 467 S.E.2d 615 (1996); Boney Publishers, Inc. v. Burlington City Council, 151 N.C. App. 651, 566 S.E.2d 701, 2002 N.C. App. LEXIS 859 (2002), cert. denied, 356 N.C. 297,

571 S.E.2d 221 (2002); MCI Constr., LLC v. Hazen & Sawyer, P.C., — F. Supp. 2d —, 2003 U.S. Dist. LEXIS 2560 (M.D.N.C. Feb. 19, 2003).

§ 143-318.12. Public notice of official meetings.

(a) If a public body has established, by ordinance, resolution, or otherwise, a schedule of regular meetings, it shall cause a current copy of that schedule, showing the time and place of regular meetings, to be kept on file as follows:

(1) For public bodies that are part of State government, with the Secretary of State;

(2) For the governing board and each other public body that is part of a county government, with the clerk to the board of county commissioners;

(3) For the governing board and each other public body that is part of a city government, with the city clerk;

(4) For each other public body, with its clerk or secretary, or, if the public body does not have a clerk or secretary, with the clerk to the board of county commissioners in the county in which the public body normally holds its meetings.

If a public body changes its schedule of regular meetings, it shall cause the revised schedule to be filed as provided in subdivisions (1) through (4) of this subsection at least seven calendar days before the day of the first meeting held pursuant to the revised schedule.

(b) If a public body holds an official meeting at any time or place other than a time or place shown on the schedule filed pursuant to subsection (a) of this section, it shall give public notice of the time and place of that meeting as provided in this subsection.

(1) If a public body recesses a regular, special, or emergency meeting held pursuant to public notice given in compliance with this subsection, and the time and place at which the meeting is to be continued is announced in open session, no further notice shall be required.

(2) For any other meeting, except an emergency meeting, the public body shall cause written notice of the meeting stating its purpose (i) to be posted on the principal bulletin board of the public body or, if the public body has no such bulletin board, at the door of its usual meeting room, and (ii) to be mailed or delivered to each newspaper, wire service, radio station, and television station, which has filed a written request for notice with the clerk or secretary of the public body or with some other person designated by the public body. The public body shall also cause notice to be mailed or delivered to any person, in addition to the representatives of the media listed above, who has filed a written request with the clerk, secretary, or other person designated by the public body. This notice shall be posted and mailed or delivered at least 48 hours before the time of the meeting. The public body may require each newspaper, wire service, radio station, and television station submitting a written request for notice to renew the request annually. The public body shall charge a fee to persons other than the media, who request notice, of ten dollars ($10.00) per calendar year, and may require them to renew their requests quarterly.

(3) For an emergency meeting, the public body shall cause notice of the meeting to be given to each local newspaper, local wire service, local radio station, and local television station that has filed a written request, which includes the newspaper's, wire service's, or station's telephone number, for emergency notice with the clerk or secretary of the public body or with some other person designated by the public body. This notice shall be given either by telephone or by the same

method used to notify the members of the public body and shall be given immediately after notice has been given to those members. This notice shall be given at the expense of the party notified. An "emergency meeting" is one called because of generally unexpected circumstances that require immediate consideration by the public body. Only business connected with the emergency may be considered at a meeting to which notice is given pursuant to this paragraph.

(c) Repealed by Session Laws 1991, c. 694, s. 6. (1979, c. 655, s. 1; 1991, c. 694, ss. 5, 6.)

Editor's Note. — Session Laws 2002-123, s. 10, effective September 26, 2002, provides: "Notwithstanding the provisions of G.S. 105-517(b), a county may levy a tax by resolution that becomes effective on or before January 1, 2003, under Article 44 of Chapter 105 of the General Statutes by giving at least 48 hours notice of its intent to adopt the resolution, as provided under G.S. 143-318.12(b)(2)."

CASE NOTES

Reasonable Public Notice. — In the absence of statutory provisions for notice, reasonable public notice of a board of education's meetings should be given, taking into consideration the urgency of the matter necessitating the meeting. News & Observer Publishing Co. v. Interim Bd. of Educ., 29 N.C. App. 37, 223 S.E.2d 580 (1976), decided under former § 143-318.1, et seq.

Cited in Wright v. County of Macon, 64 N.C. App. 718, 308 S.E.2d 97 (1983).

§ 143-318.13. Electronic meetings; written ballots; acting by reference.

(a) Electronic Meetings. — If a public body holds an official meeting by use of conference telephone or other electronic means, it shall provide a location and means whereby members of the public may listen to the meeting and the notice of the meeting required by this Article shall specify that location. A fee of up to twenty-five dollars ($25.00) may be charged each such listener to defray in part the cost of providing the necessary location and equipment.

(b) Written Ballots. — Except as provided in this subsection or by joint resolution of the General Assembly, a public body may not vote by secret or written ballot. If a public body decides to vote by written ballot, each member of the body so voting shall sign his or her ballot; and the minutes of the public body shall show the vote of each member voting. The ballots shall be available for public inspection in the office of the clerk or secretary to the public body immediately following the meeting at which the vote took place and until the minutes of that meeting are approved, at which time the ballots may be destroyed.

(c) Acting by Reference. — The members of a public body shall not deliberate, vote, or otherwise take action upon any matter by reference to a letter, number or other designation, or other secret device or method, with the intention of making it impossible for persons attending a meeting of the public body to understand what is being deliberated, voted, or acted upon. However, this subsection does not prohibit a public body from deliberating, voting, or otherwise taking action by reference to an agenda, if copies of the agenda, sufficiently worded to enable the public to understand what is being deliberated, voted, or acted upon, are available for public inspection at the meeting. (1979, c. 655, s. 1.)

§ 143-318.14. Broadcasting or recording meetings.

(a) Except as herein below provided, any radio or television station is entitled to broadcast all or any part of a meeting required to be open. Any person may photograph, film, tape-record, or otherwise reproduce any part of a meeting required to be open.

(b) A public body may regulate the placement and use of equipment necessary for broadcasting, photographing, filming, or recording a meeting, so as to prevent undue interference with the meeting. However, the public body must allow such equipment to be placed within the meeting room in such a way as to permit its intended use, and the ordinary use of such equipment shall not be declared to constitute undue interference; provided, however, that if the public body, in good faith, should determine that the size of the meeting room is such that all the members of the public body, members of the public present, and the equipment and personnel necessary for broadcasting, photographing, filming, and tape-recording the meeting cannot be accommodated in the meeting room without unduly interfering with the meeting and an adequate alternative meeting room is not readily available, then the public body, acting in good faith and consistent with the purposes of this Article, may require the pooling of such equipment and the personnel operating it; and provided further, if the news media, in order to facilitate news coverage, request an alternate site for the meeting, and the public body grants the request, then the news media making such request shall pay any costs incurred by the public body in securing an alternate meeting site. (1979, c. 655, s. 1.)

§ 143-318.14A. Legislative commissions, committees, and standing subcommittees.

(a) Except as provided in subsection (e) below, all official meetings of commissions, committees, and standing subcommittees of the General Assembly (including, without limitation, joint committees and study committees), shall be held in open session. For the purpose of this section, the following also shall be considered to be "commissions, committees, and standing subcommittees of the General Assembly":

(1) The Legislative Research Commission;
(2) The Legislative Services Commission;
(3) The Advisory Budget Commission;
(4) The Joint Legislative Utility Review Committee;
(5) The Joint Legislative Commission on Governmental Operations;
(6) The Joint Legislative Commission on Municipal Incorporations;
(7) Repealed by Session Laws 1997, c. 443, s. 12.30, effective August 28, 1997.
(8) The Joint Select Committee on Low-Level Radioactive Waste;
(9) The Environmental Review Commission;
(10) The Joint Legislative Transportation Oversight Committee;
(11) The Joint Legislative Education Oversight Committee;
(12) The Joint Legislative Commission on Future Strategies for North Carolina;
(13) The Commission on Children with Special Needs;
(14) The Legislative Committee on New Licensing Boards;
(15) The Agriculture and Forestry Awareness Study Commission;
(16) The North Carolina Study Commission on Aging; and
(17) The standing Committees on Pensions and Retirement.

(b) Reasonable public notice of all meetings of commissions, committees, and standing subcommittees of the General Assembly shall be given. For purposes of this subsection, "reasonable public notice" includes, but is not limited to:

(1) Notice given openly at a session of the Senate or of the House; or
(2) Notice mailed or sent by electronic mail to those who have requested notice, and to the Legislative Services Office, which shall post the notice on the General Assembly web site.

G.S. 143-318.12 shall not apply to meetings of commissions, committees, and standing subcommittees of the General Assembly.

(c) A commission, committee, or standing subcommittee of the General Assembly may take final action only in an open meeting.

(d) A violation of this section by members of the General Assembly shall be punishable as prescribed by the rules of the House or the Senate.

(e) The following sections shall apply to meetings of commissions, committees, and standing subcommittees of the General Assembly: G.S. 143-318.10(e) and G.S. 143-318.11, G.S. 143-318.13 and G.S. 143-318.14, G.S. 143-318.16 through G.S. 143-318.17. (1991, c. 694, s. 7; 1991 (Reg. Sess., 1992), c. 785, s. 4; c. 1030, s. 42; 1993, c. 321, s. 169.2(f); 1997-443, s. 12.30; 2003-374, s. 1.)

Effect of Amendments. — Session Laws 2003-374, s. 1, effective August 31, 2003, rewrote subdivision (b)(2).

§ 143-318.15. Advisory Budget Commission and appropriation committees of General Assembly; application of Article.

(a) The provisions of this Article shall not apply to meetings of the Advisory Budget Commission held for the purpose of actually preparing the budget required by the provisions of the Executive Budget Act (Article 1, Chapter 143, General Statutes of North Carolina), but nothing in this Article shall be construed to amend, repeal or supersede the provisions of G.S. 143-10 (or any similar statutes hereafter enacted) requiring public hearings to secure information on any and all estimates to be included in the budget and providing for other procedures and practices incident to the preparation and adoption of the budget required by the State Budget Act.

(b) This Article does not amend, repeal or supersede the provisions of G.S. 143-14, relating to the meetings of the appropriations committees and subcommittees of the General Assembly. (1979, c. 655, s. 1.)

§ 143-318.16. Injunctive relief against violations of Article.

(a) The General Court of Justice has jurisdiction to enter mandatory or prohibitory injunctions to enjoin (i) threatened violations of this Article, (ii) the recurrence of past violations of this Article, or (iii) continuing violations of this Article. Any person may bring an action in the appropriate division of the General Court of Justice seeking such an injunction; and the plaintiff need not allege or prove special damage different from that suffered by the public at large. It is not a defense to such an action that there is an adequate remedy at law.

(b) Any injunction entered pursuant to this section shall describe the acts enjoined with reference to the violations of this Article that have been proved in the action.

(c) Repealed by Session Laws 1985 (Reg. Sess., 1986), c. 932, s. 3, effective October 1, 1986. (1979, c. 655, s. 1; 1985 (Reg. Sess., 1986), c. 932, s. 3.)

Cross References. — As to the award of attorney's fees to the prevailing party, see now G.S. 143-318.16B.

CASE NOTES

Application of Former § 143-318.6. — The provisions of former G.S. 143-318.6 were intended to apply only to a situation where a citizen had been refused access to a meeting required to be open. Eggimann v. Wake County Bd. of Educ., 22 N.C. App. 459, 206 S.E.2d 754, cert. denied, 285 N.C. 756, 209 S.E.2d 280 (1974).

§ 143-318.16A. Additional remedies for violations of Article.

(a) Any person may institute a suit in the superior court requesting the entry of a judgment declaring that any action of a public body was taken, considered, discussed, or deliberated in violation of this Article. Upon such a finding, the court may declare any such action null and void. Any person may seek such a declaratory judgment, and the plaintiff need not allege or prove special damage different from that suffered by the public at large. The public body whose action the suit seeks to set aside shall be made a party. The court may order other persons be made parties if they have or claim any right, title, or interest that would be directly affected by a declaratory judgment voiding the action that the suit seeks to set aside.

(b) A suit seeking declaratory relief under this section must be commenced within 45 days following the initial disclosure of the action that the suit seeks to have declared null and void; provided, however, that any suit for declaratory judgment brought pursuant to this section that seeks to set aside a bond order or bond referendum shall be commenced within the limitation periods prescribed by G.S. 159-59 and G.S. 159-62. If the challenged action is recorded in the minutes of the public body, its initial disclosure shall be deemed to have occurred on the date the minutes are first available for public inspection. If the challenged action is not recorded in the minutes of the public body, the date of its initial disclosure shall be determined by the court based on a finding as to when the plaintiff knew or should have known that the challenged action had been taken.

(c) In making the determination whether to declare the challenged action null and void, the court shall consider the following and any other relevant factors:

(1) The extent to which the violation affected the substance of the challenged action;

(2) The extent to which the violation thwarted or impaired access to meetings or proceedings that the public had a right to attend;

(3) The extent to which the violation prevented or impaired public knowledge or understanding of the people's business;

(4) Whether the violation was an isolated occurrence, or was a part of a continuing pattern of violations of this Article by the public body;

(5) The extent to which persons relied upon the validity of the challenged action, and the effect on such persons of declaring the challenged action void;

(6) Whether the violation was committed in bad faith for the purpose of evading or subverting the public policy embodied in this Article.

(d) A declaratory judgment pursuant to this section may be entered as an alternative to, or in combination with, an injunction entered pursuant to G.S. 143-318.16.

(e) The validity of any enacted law or joint resolution or passed simple resolution of either house of the General Assembly is not affected by this Article. (1985 (Reg. Sess., 1986), c. 932, s. 1; 1991, c. 694, s. 8.)

CASE NOTES

Time Limitations on Filing Suit. — At a June 22, 1988, public hearing, plaintiffs gained knowledge of action taken by board of aldermen in executive session of February 3, 1987. Plaintiffs were present at the hearing and represented by counsel. Disclosure to plaintiffs of the action complained of therefore occurred on June 22, 1988, more than 60 days prior to September 1, 1988, the date plaintiffs filed their complaint. Thus plaintiffs' suit was barred by subsection (b) of this section and trial court properly granted defendants' motion dismissing plaintiffs' cause of action. Coulter v. City of Newton, 100 N.C. App. 523, 397 S.E.2d 244 (1990).

Declaration of Violation. — Where Board of Education improperly gave itself a pay raise the proper result was a declaration that the board violated the Open Meetings Law; no purpose would have been served by voiding the Board's action in such a manner as to require return of the monies by the board members. Jacksonville Daily News Co. v. Onslow County Bd. of Educ., 113 N.C. App. 127, 439 S.E.2d 607 (1993).

Plaintiff Not Entitled to Exemption from Local Ordinance. — Because plaintiff could not meet the definition of a nonconforming situation, plaintiff was not entitled to be exempted from the provisions in the local ordinance prohibiting adult entertainment in plaintiff's district. Dockside Discotheque, Inc. v. Board of Adjustment, 115 N.C. App. 303, 444 S.E.2d 451, cert. denied, 338 N.C. 309, 451 S.E.2d 635 (1994).

The term "persons" in subsection (c)(5) includes any citizen of the State whose interests will be affected by voiding the action of the Board. H.B.S. Contractors v. Cumberland County Bd. of Educ., 122 N.C. App. 49, 468 S.E.2d 517 (1996), discretionary review improvidently allowed, 345 N.C. 178, 477 S.E.2d 926 (1996).

Cited in Hayes v. Town of Fairmont, 130 N.C. App. 125, 502 S.E.2d 380 (1998); Boney Publishers, Inc. v. Burlington City Council, 151 N.C. App. 651, 566 S.E.2d 701, 2002 N.C. App. LEXIS 859 (2002), cert. denied, 356 N.C. 297, 571 S.E.2d 221 (2002).

§ 143-318.16B. Assessments and awards of attorneys' fees.

When an action is brought pursuant to G.S. 143-318.16 or G.S. 143-318.16A, the court may make written findings specifying the prevailing party or parties, and may award the prevailing party or parties a reasonable attorney's fee, to be taxed against the losing party or parties as part of the costs. The court may order that all or any portion of any fee as assessed be paid personally by any individual member or members of the public body found by the court to have knowingly or intentionally committed the violation; provided, that no order against any individual member shall issue in any case where the public body or that individual member seeks the advice of an attorney, and such advice is followed. (1985 (Reg. Sess., 1986), c. 932, s. 2; 1993 (Reg. Sess., 1994), c. 570, s. 3.)

Legal Periodicals. — For note, "A Public Goods Approach to Calculating Reasonable Fees under Attorney Fee Shifting Statutes," see 1989 Duke L.J. 438.

CASE NOTES

Prevailing Party. — The fact that plaintiff was a "prevailing party" under this section was determined by application of the merits test, which allows the award of attorney's fees to the prevailing party if the party prevails on the merits of at least some of his claims. H.B.S. Contractors v. Cumberland County Bd. of Educ., 122 N.C. App. 49, 468 S.E.2d 517 (1996), discretionary review improvidently allowed, 345 N.C. 178, 477 S.E.2d 926 (1996).

Cited in Jacksonville Daily News Co. v. Onslow County Bd. of Educ., 113 N.C. App. 127, 439 S.E.2d 607 (1993).

§ 143-318.16C. Accelerated hearing; priority.

Actions brought pursuant to G.S. 143-318.16 or G.S. 143-318.16A shall be set down for immediate hearing, and subsequent proceedings in such actions shall be accorded priority by the trial and appellate courts. (1993 (Reg. Sess., 1994), c. 570, s. 4.)

§ 143-318.16D. Local acts.

Any reference in any city charter or local act to an "executive session" is amended to read "closed session". (1993 (Reg. Sess., 1994), c. 570, s. 4.)

§ 143-318.17. Disruptions of official meetings.

A person who willfully interrupts, disturbs, or disrupts an official meeting and who, upon being directed to leave the meeting by the presiding officer, willfully refuses to leave the meeting is guilty of a Class 2 misdemeanor. (1979, c. 655, s. 1; 1993, c. 539, s. 1028; 1994, Ex. Sess., c. 24, s. 14(c).)

§ 143-318.18. Exceptions.

This Article does not apply to:

(1) Grand and petit juries.

(2) Any public body that is specifically authorized or directed by law to meet in executive or confidential session, to the extent of the authorization or direction.

(3) The Judicial Standards Commission.

(4) Repealed by Session Laws 1991, c. 694, s. 9.

(4a) The Legislative Ethics Committee.

(4b) A conference committee of the General Assembly.

(4c) A caucus by members of the General Assembly; however, no member of the General Assembly shall participate in a caucus which is called for the purpose of evading or subverting this Article.

(5) Law enforcement agencies.

(6) A public body authorized to investigate, examine, or determine the character and other qualifications of applicants for professional or occupational licenses or certificates or to take disciplinary actions against persons holding such licenses or certificates, (i) while preparing, approving, administering, or grading examinations or (ii) while meeting with respect to an individual applicant for or holder of such a license or certificate. This exception does not amend, repeal, or supersede any other statute that requires a public hearing or other practice and procedure in a proceeding before such a public body.

(7) Any public body subject to the Executive Budget Act (G.S. 143-1 et seq.) and exercising quasi-judicial functions, during a meeting or session held solely for the purpose of making a decision in an adjudicatory action or proceeding.

(8) The boards of trustees of endowment funds authorized by G.S. 116-36 or G.S. 116-238.

(9) Repealed by Session Laws 1991, c. 694, s. 9.

(10) The Board of Awards.

(11) The General Court of Justice. (1979, c. 655, s. 1; 1985, c. 757, s. 206(e); 1991, c. 694, s. 9.)

Legal Periodicals. — For survey of 1976 case law dealing with administrative law, see 55 N.C.L. Rev. 898 (1977).

CASE NOTES

Resolution of Board into Committee of the Whole. — A board of education cannot evade the provisions of statutes requiring its meetings to be open to the public merely by resolving itself into a committee of the whole. News & Observer Publishing Co. v. Interim Bd. of Educ., 29 N.C. App. 37, 223 S.E.2d 580 (1976), decided under former § 143-318.4.

Failure to Come Within Exception. — Members of a board of education failed to show that their closed session came within the exception provided by former G.S. 143-318.4(7), relating to study, research and investigative committees, where, prior to the closed session, eight names were placed in nomination to fill a vacant position on the board, and following the passage of a motion authorizing same, the members of the board were appointed a committee of the whole to study and investigate the names recommended. News & Observer Publishing Co. v. Interim Bd. of Educ., 29 N.C. App. 37, 223 S.E.2d 580 (1976).

Article 34.

Local Affairs.

§ 143-319: Repealed by Session Laws 1973, c. 1262, s. 51.

Editor's Note. — Former Article 34, comprising G.S. 143-317 through 143-328, and relating to the Board of Water Commissioners and water conservation and education, was repealed by Session Laws 1959, c. 779, s. 2.

§ 143-320. Definitions.

As used in this Article, unless the context otherwise requires:

(1) "Department" means the Department of Environment and Natural Resources.

(2) "Secretary" means the Secretary of Environment and Natural Resources.

(3) "Recreation" means those interests that are diversionary in character and that aid in promoting entertainment, pleasure, relaxation, instruction, and other physical, mental, and cultural developments and experiences of a leisure nature, and includes all governmental, private nonprofit and commercial recreation forms of the recreation field and includes parks, conservation, recreation travel, the use of natural resources, wilderness and high density recreation types and the variety of recreation interests in areas and programs which are incorporated in this range. (1969, c. 1145, s. 1; 1973, c. 1262, s. 51; 1977, c. 771, ss. 4, 8; 1989, c. 727, s. 168; 1997-443, s. 11A.119(a).)

Cross References. — As to the organization of the Department of Environment and Natural Resources, see G.S. 143B-279.1, et seq. As to the Parks and Recreation Council, see G.S. 143B-311 through 143B-313. As to the Community Development Council, see G.S. 143B-437.1 through 143B-437.3.

§§ 143-321, 143-322: Repealed by Session Laws 1973, c. 1262, s. 51.

§ 143-323. Functions of Department of Environment and Natural Resources.

(a) Recreation. — The Department of Environment and Natural Resources shall have the following powers and duties with respect to recreation:

(1) To study and appraise the recreation needs of the State and to assemble and disseminate information relative to recreation.

(2) To cooperate in the promotion and organization of local recreation systems for counties, municipalities, and other political subdivisions of the State, to aid them in the administration, finance, planning, personnel, coordination and cooperation of recreation organizations and programs.

(3) To aid in recruiting, training, and placing recreation workers, and to promote recreation institutes and conferences.

(4) To establish and promote recreation standards.

(5) To cooperate with appropriate State, federal, and local agencies and private membership groups and commercial recreation interests in the promotion of recreation opportunities, and to represent the State in recreation conferences, study groups, and other matters of recreation concern.

(6) To accept gifts, bequests, devises, and endowments. The funds, if given as an endowment, shall be invested in securities designated by the donor, or if there is no such designation, in securities in which the State sinking fund may be invested. All such gifts, bequests, and devises and all proceeds from such invested endowments shall be used for carrying out the purposes for which they were made.

(7) To advise agencies, departments, organizations and groups in the planning, application and use of federal and State funds which are assigned or administered by the State for recreation programs and services on land and water recreation areas and on which the State renders advisory or other recreation services or upon which the State exercises control.

(8) To act jointly, when advisable, with any other State, local or federal agency, institution, private individual or group in order to better carry out the Department's objectives and responsibilities.

(b) Repealed by Session Laws 1977, c. 70, s. 32.

(c) Repealed by Session Laws 1989, c. 751, s. 5.

(d) Federal Assistance. — The Department, with the approval of the Governor, may apply for and accept grants from the federal government and its agencies and from any foundation, corporation, association, or individual, and may comply with the terms, conditions, and limitations of the grant, in order to accomplish any of the purposes of the Department. Grant funds shall be expended pursuant to the Executive Budget Act.

(e) General. — The Department shall have the following general powers and duties.

(1) To study and to sponsor research on all aspects of local government and of relationships between the federal government, the State and local governments in North Carolina.

(2) To collect, collate, analyze, publish, and disseminate information necessary for the effective operation of the Department and useful to local government.

(3) To maintain an inventory of data and information, and to act as a clearinghouse of information and as a referral agency with respect to State, federal, and private services and programs available to local government; and to facilitate local participation in those programs by furnishing information, education, guidance, and technical assistance with respect to those programs.

(4) To assist in coordinating State and federal activities relating to local government.

(5) To assist local governments in the identification and solution of their problems.

(6) To assist local officials in bringing specific governmental problems to the attention of the appropriate State, federal, and private agencies.

(7) To advise and assist local governments with respect to intergovernmental contracts, joint service agreements, regional service arrangements, and other forms of intergovernmental cooperation.

(8) To inform and advise the Governor on the affairs and problems of local government and on the need for the administrative and legislative action with respect to local government. (1969, c. 1145, s. 1; 1973, c. 1262, s. 51; 1977, c. 70, s. 32; c. 771, s. 4; 1989, c. 727, s. 218(116); c. 751, s. 5; 1997-443, s. 11A.119(a).)

Legal Periodicals. — For note on coastal land use development and area-wide zoning, see 49 N.C.L. Rev. 866 (1971).

§ 143-324: Repealed by Session Laws 1973, c. 1262, s. 51.

§ 143-325. Functions of committees.

(a) Repealed by Session Laws 1973, c. 1262, s. 51.

(b) Committee on Law and Order. — The Committee on Law and Order shall have policy-making and supervisory authority over the policies, programs, and activities of the Department in the field of the administration of criminal justice in assisting and participating with State and local law-enforcement agencies, at their request, to improve law enforcement and the administration of criminal justice.

(c) Repealed by Session Laws 1973, c. 1262, s. 51. (1969, c. 1145, s. 1; 1973, c. 1262, s. 51.)

§ 143-326. Transfer of functions, records, property, etc.

(a) All of the powers, duties, functions, records, property, supplies, equipment, personnel, funds, credits, appropriations, quarterly allotments, and executory contracts of the North Carolina Recreation Commission are transferred to the Department of Local Affairs, effective July 1, 1969. All statutory references to the "North Carolina Recreation Commission" or the "Recreation Commission" are amended to read "North Carolina Department of Local Affairs."

(b) All of the powers, duties, functions, records, property, supplies, equipment, personnel, funds, credits, appropriations, quarterly allotments, and executory contracts of the Governor's Committee on Law and Order are transferred to the Department of Local Affairs, effective July 1, 1969. All statutory references to the "Governor's Committee on Law and Order" are amended to read "North Carolina Department of Local Affairs."

(c) All of the powers, duties, functions, records, property, supplies, equipment, personnel, funds, credits, appropriations, quarterly allotments, and executory contracts of the Division of Community Planning of the Department of Conservation and Development are transferred to the Department of Local Affairs.

(d) Such portion of the powers, duties, functions, records, property, supplies, equipment, personnel, funds, credits, appropriations, quarterly allotments, and executory contracts of the State Planning Task Force Division of the Department of Administration as the Governor may designate is transferred to the Department of Local Affairs, effective July 1, 1969.

(e) The transfers directed by subsections (a) through (d), above shall be made under the supervision of the Governor, and he shall be the final arbiter of all differences or disputes arising incident to those transfers.

(f) No transfer of functions to the Department of Local Affairs provided for in this Article shall affect any action, suit, proceeding, prosecution, contract,

lease, agreement, or other business transaction involving any of those functions that was initiated, undertaken, or entered into prior to or pending the time of the transfer, except that the Department shall be substituted for the agency from which the function was transferred, and as far as practicable the procedure provided for in this Article shall be employed in completing or disposing of the matter. All rules, regulations, and policies of the agencies from which powers, duties, and functions are herein transferred to the Department of Local Affairs shall continue in force as rules, regulations, and policies of the Department of Local Affairs until altered pursuant to G.S. 143-320(9). (1969, c. 1145, s. 1; 1973, c. 1262, s. 51.)

Editor's Note. — It would seem that the reference to G.S. 143-320(9) in subsection (f) of this section should be to G.S. 143-322(9). That section, however, was repealed by Session Laws 1973, c. 1262, s. 51.

§ 143-327: Repealed by Session Laws 1973, c. 1262, s. 51.

§ 143-328: Reserved for future codification purposes.

Article 35.

Youth Service Commission.

§§ 143-329 through 143-333: Expired.

Article 36.

Department of Administration.

Part 1. General Provisions.

§ 143-334. Short title.

This Article may be cited as the Department of Administration Act. (1957, c. 269, s. 1; 2000-140, s. 76(h).)

State Government Reorganization. — The Department of Administration was transferred by former G.S. 143A-82, enacted by Session Laws 1971, c. 864 and repealed by Session Laws 1975, c. 879, s. 46. For provisions as to the Department of Administration, see G.S. 143B-366 et seq.

§ 143-335. Department of Administration created.

There is hereby created the Department of Administration. (1957, c. 269, s. 1.)

CASE NOTES

Cited in State v. Core Banks Club Properties, 275 N.C. 328, 167 S.E.2d 385 (1969).

§ 143-336. (Effective until October 1, 2006) Definitions.

(a) As used in this Article:

(1) "Agency" includes every agency, institution, board, commission, bureau, council, department, division, officer, and employee of the State, but does not include counties, municipal corporations, political subdivisions, county and city boards of education, and other local public bodies.

(2) "Community college buildings" means all buildings, utilities, and other property developments located at a community college, which is defined in G.S. 115D-2(2).

(3) "Department" means the Department of Administration, unless the context otherwise requires.

(4) "Public buildings" means all buildings owned or maintained by the State in the City of Raleigh, but does not mean any building that a State agency other than the Department of Administration is required by law to care for and maintain.

(5) "Public buildings and grounds" means all buildings and grounds owned or maintained by the State in the City of Raleigh, but does not mean any building or grounds that a State agency other than the Department of Administration is required by law to care for and maintain.

(6) "Public grounds" means all grounds owned or maintained by the State in the City of Raleigh, but does not mean any grounds that a State agency other than the Department of Administration is required by law to care for and maintain.

(7) "Secretary" means the Secretary of Administration, unless the context otherwise requires.

(8) "State buildings" mean all State buildings, utilities, and other property developments except the State Legislative Building, railroads, highway structures, bridge structures, any buildings, utilities, or property owned or leased by the North Carolina Global TransPark Authority, and performance-based cleanups of environmental damage resulting from the discharge or release of a petroleum product from an underground storage tank pursuant to G.S. 143-215.94B(f) and G.S. 143-215.94D(f).

(b) Under no circumstances shall this Article or any part thereof apply to the judicial or to the legislative branches of the State. (1957, c. 215, s. 2; c. 269, s. 1; 1963, c. 1, s. 6; 1971, c. 1097, s. 1; 1975, c. 879, s. 46; 1989, c. 58, s. 1; 1991, c. 749, s. 5; 1993 (Reg. Sess., 1994), c. 777, s. 4(h); 2001-442, s. 5.)

Section Set Out Twice. — The section above is effective until October 1, 2006. For the section as in effect October 1, 2006, see the following section, also numbered G.S. 143-336.

Editor's Note. — Session Laws 2001-442, ss. 6(a) to 6(c), provide: "(a) This act constitutes a recent act of the General Assembly within the meaning of G.S. 150B-21.1.

"(b) Notwithstanding G.S. 150B-21.1(a)(2) and 26 NCAC 2C.0102(11), the Environmental Management Commission may adopt temporary rules to implement this act [Session Laws 2001-442] until 1 July 2002. Prior to the adoption of a temporary rule under this section [s. 6 of Session Laws 2001-442], the Commission shall publish a notice of intent to adopt a temporary rule in the North Carolina Register. The notice shall set out the text of the proposed temporary rule and include the name of the person to whom questions and written comment on the proposed temporary rule may be submitted. The Commission shall accept written comment on the proposed temporary rule for at least 30 days after the notice of intent to adopt a temporary rule is published in the North Carolina Register.

"(c) Notwithstanding G.S. 150B-21.1(a)(2) and 26 NCAC 2C.0102(11), the State Building Commission may adopt temporary rules to authorize open-end design agreements for design and construction of wetland, stream, and buffer creation, mitigation, and restoration projects. Prior to the adoption of a temporary rule under this section [s. 6 of Session Laws 2001-442], the

§ 143-336 is set out twice. See notes.

Commission shall publish a notice of intent to adopt a temporary rule in the North Carolina Register. The notice shall set out the text of the proposed temporary rule and include the name of the person to whom questions and written comment on the proposed temporary rule may be submitted. The Commission shall accept written comment on the proposed temporary rule for at least 30 days after the notice of intent to adopt a temporary rule is published in the North Carolina Register. The State Building Commission is authorized to adopt temporary rules under this section until 1 July 2002."

Session Laws 2001-442, s. 7, as amended by Session Laws 2003-340, s. 2, provides: "Beginning 1 September 2003, the Secretary of Environment and Natural Resources shall submit an annual report to the Environmental Review Commission on the implementation of Sections 1 through 6 of this act [ss. 1 to 6 of Session Laws 2001-442] as a part of the report required by G.S. 143-215.94M." Section 8 of Session Laws 2001-442 provides that s. 7 expires October 1, 2006.

Session Laws 2001-442, s. 8, provides that s. 5 of this act, which amended this section, expires October 1, 2006.

Effect of Amendments. — Session Laws 2001-442, s. 5, effective October 1, 2001, designated the introductory language of this section as subsection (a) and designated the existing first through eighth paragraphs as subdivisions (a)(1) to (a)(8); substituted "that" for "which" in present subdivisions (a)(4), (a)(5) and (a)(6); in present subdivision (a)(8), deleted "and" preceding "any buildings," and added "and performance-based cleanups of environmental damage resulting from the discharge or release of a petroleum product from an underground storage tank pursuant to G.S. 143-215.94B(f) and G.S. 143-215.94D(f)" to the end; and deleted "But" at the beginning of present subsection (b). As to the expiration of this amendment, see the editor's note.

CASE NOTES

§ 143-336. (Effective October 1, 2006) Definitions.

As used in this Article:

"Agency" includes every agency, institution, board, commission, bureau, council, department, division, officer, and employee of the State, but does not include counties, municipal corporations, political subdivisions, county and city boards of education, and other local public bodies.

"Community college buildings" means all buildings, utilities, and other property developments located at a community college, which is defined in G.S. 115D-2(2).

"Department" means the Department of Administration, unless the context otherwise requires.

"Public buildings" means all buildings owned or maintained by the State in the City of Raleigh, but does not mean any building which a State agency other than the Department of Administration is required by law to care for and maintain.

"Public buildings and grounds" means all buildings and grounds owned or maintained by the State in the City of Raleigh, but does not mean any building or grounds which a State agency other than the Department of Administration is required by law to care for and maintain.

"Public grounds" means all grounds owned or maintained by the State in the City of Raleigh, but does not mean any grounds which a State agency other than the Department of Administration is required by law to care for and maintain.

"Secretary" means the Secretary of Administration, unless the context otherwise requires.

"State buildings" mean all State buildings, utilities, and other property developments except the State Legislative Building, railroads, highway struc-

§ 143-336 is set out twice. See notes.

tures, bridge structures, and any buildings, utilities, or property owned or leased by the North Carolina Global TransPark Authority.

But under no circumstances shall this Article or any part thereof apply to the judicial or to the legislative branches of the State. (1957, c. 215, s. 2; c. 269, s. 1; 1963, c. 1, s. 6; 1971, c. 1097, s. 1; 1975, c. 879, s. 46; 1989, c. 58, s. 1; 1991, c. 749, s. 5; 1993 (Reg. Sess., 1994), c. 777, s. 4(h).)

Section Set Out Twice. — The section above is effective October 1, 2006. For the section as in effect until October 1, 2006, see the preceding section, also numbered G.S. 143-336.

§§ 143-337 through 143-339: Repealed by Session Laws 1975, c. 879, s. 46.

§ 143-340. Powers and duties of Secretary.

The Secretary of Administration has the following powers and duties:

(1) To establish the State Employee Incentive Bonus Program pursuant to Article 36A of this Chapter, with the authority to adopt all rules necessary to implement the program. The Secretary shall serve ex officio on all program committees and shall designate an executive secretary to administer the program.

(2) through (9) Repealed by Session Laws 1975, c. 879, s. 46.

(10) To require reports from any State agency at any time upon any matters within the scope of the responsibilities of the Secretary or the Department.

(11) Repealed by Session Laws 1975, c. 879, s. 46.

(12) To enter the premises of any State agency; to inspect its property; and to examine its books, papers, documents, and all other agency records and copy any of them; and any State agency shall permit such entry, examination, and copying, and upon demand shall produce without unnecessary delay all books, papers, documents, and other records in its office and furnish information respecting its records and other matters pertaining to that agency and related to the responsibilities of the Department.

(13) Repealed by Session Laws 1975, c. 879, s. 46.

(14) Repealed by Session Laws 1989, c. 239, s. 1.

(15), (16) Repealed by Session Laws 1975, c. 879, s. 46.

(17) To supervise the work of janitors appointed by the General Assembly to perform services in connection with the sessions of the General Assembly.

(18) To adopt reasonable rules and regulations with respect to the parking of automobiles on all public grounds, subject to the approval of the Governor and Council of State, and to enforce those rules and regulations. Any person who violates a rule or regulation concerning parking on public grounds is guilty of a Class 1 misdemeanor. Upon the allocation of parking spaces to any agency pursuant to such rules and regulations, the agency shall adopt written guidelines governing the individual assignment of such parking spaces by the agency. Such guidelines shall give first priority treatment to the physically handicapped and to carpoolers and vanpoolers, however, first priority shall be given to those on call for duty at a time other than normal working hours. A copy of said guidelines shall be made available for inspection by any person upon request.

(19) Any motor vehicle parked in a State-owned parking lot, when such lot is clearly designated as such by a sign no smaller than 24 inches by 24 inches prominently displayed at the entrance thereto, in violation of the "Rules and Regulations Governing State-Owned Parking Lots" dated September, 1968 or as amended, may be removed from such lot to a place of storage and the registered owner of that vehicle shall become liable for removal and storage charges. Any person who removes a vehicle pursuant to this section shall not be held liable for damages for the removal of the vehicle to the owner, lienholder or other person legally entitled to the possession of the vehicle removed; however, any person who intentionally or negligently damages a vehicle in the removal of such vehicle, or intentionally or negligently inflicts injury upon any person in the removal of such vehicle, may be held liable for damages. Any motor vehicle parked without authorization on State-owned public grounds under the control of the Department of Administration other than a designated parking area may be removed from that property to a storage area and the registered owner of the vehicle shall be liable for removal and storage fees.

(20) To use at all times such means as, in his opinion, may be effective in protecting all public buildings and grounds from fire.

(21) To serve as a special police officer and in that capacity to have the same power of arrest as the police officers of the City of Raleigh. Such authority may be exercised within the same territorial jurisdiction as exercised by the police officers of the City of Raleigh, and in addition thereto the authority of a deputy sheriff may be exercised on property owned, leased or maintained by the State located in the County of Wake.

(22) To appoint as special police officers such reliable persons as he may deem necessary, and such officers shall have the same power of arrest as herein conferred upon the Secretary. Before the Secretary or the special police officers may exercise the power of arrest, they shall take an oath, to be administered by any person authorized to administer oaths, as required by law.

(23) Repealed by Session Laws 1975, c. 879, s. 46.

(24) To perform such additional duties as the Governor may direct.

(25) Repealed by Session Laws 1991, c. 542, s. 9.

(26) To establish the State Employees Combined Campaign in the Department of Administration to allow State employees the opportunity to contribute to charitable nonpartisan organizations in an orderly and uniform process, with the authority to adopt all rules necessary to implement the campaign. (1957, c. 215, s. 2; c. 269, s. 1; 1969, c. 627; c. 1267, s. 4; 1971, c. 280; c. 1097, s. 2; 1975, c. 204; c. 879, s. 46; 1977, c. 119; c. 288, s. 2; 1979, c. 901, ss. 1, 2; c. 930; 1981, c. 696; 1981 (Reg. Sess., 1982), c. 1239, s. 4; 1983, c. 406; c. 420, s. 7; 1987, c. 274; 1989, c. 239, s. 1; c. 644, s. 5; 1991, c. 542, s. 9; 1993, c. 539, s. 1029; 1994, Ex. Sess., c. 24, s. 14(c); 1997-513, s. 3; 1999-250, s. 1; 2001-424, s. 7.2(a).)

Cross References. — As to post-towing procedures, see G.S. 20-219.9 et seq.

Editor's Note. — Session Laws 1997-513, s. 4 states that this act shall not be construed to obligate the General Assembly to make any appropriation to implement the provisions of this act. Each State agency to which this act applies shall implement the provisions of this act from funds otherwise appropriated to that State agency.

Session Laws 1999-250, s. 2(a), provided that any rule pertaining to the State Employees Combined Campaign adopted prior to the effective date of this act, July 2, 1999, is ratified and affirmed.

Session Laws 1999-250, s. 2(b), provided that

this act constitutes a recent act of the General Assembly within the meaning of G.S. 150B-21.1. The Secretary of Administration may adopt temporary rules to implement the provisions of subdivision (26), as added by Section 1 of this act.

Session Laws 1999-250, s. 3, provides that this act is effective when it becomes law (July 2, 1999) and applies to any rule-making proceeding initiated by the Department of Administration for the State Employees Combined Campaign before that date.

CASE NOTES

Jurisdiction of State Capitol Police. — Trial court erred by concluding that the arresting State Capitol Police officer had no jurisdiction to arrest defendant for DWI and by dismissing the charges. State v. Dickerson, 125 N.C. App. 592, 481 S.E.2d 344 (1997).

State Capitol Police officers have the same power of arrest as that of police officers of the City of Raleigh. State v. Dickerson, 125 N.C. App. 592, 481 S.E.2d 344 (1997).

The General Assembly intended to also grant State Capitol Police officers the same territorial jurisdiction as that of police officers of the City of Raleigh. State v. Dickerson, 125 N.C. App. 592, 481 S.E.2d 344 (1997).

OPINIONS OF ATTORNEY GENERAL

The statute does not provide for participation by retired state employees. See opinion of Attorney General to Jane Smith Patterson, Secretary, 2 Department of Administration, 53 N.C.A.G. 1 (1983).

§ 143-341. Powers and duties of Department.

The Department of Administration has the following powers and duties:

(1) Repealed by Session Laws 1979, 2nd Session, c. 1137, s. 38.

(2) Purchase and Contract:

a. To exercise those powers and perform those duties which were, at the time of the ratification of this Article, conferred by statute upon the former Division of Purchase and Contract.

(3) **(Effective until December 31, 2006)** Architecture and Engineering:

a. To examine and approve all plans and specifications for the construction or renovation of:

1. All State buildings or buildings located on State lands, except those buildings over which a local building code inspection department has and exercises jurisdiction; and

2. All community college buildings requiring the estimated expenditure for construction or repair work for which public bidding is required under G.S. 143-129 prior to the awarding of a contract for such work; and to examine and approve all changes in those plans and specifications made after the contract for such work has been awarded.

b. To assist, as necessary, all agencies in the preparation of requests for appropriations for the construction or renovation of all State buildings.

b1. To certify that a statement of needs pursuant to G.S. 143-6 is feasible. For purposes of this sub-subdivision, "feasible" means that the proposed project is sufficiently defined in overall scope; building program; site development; detailed design, construction, and equipment budgets; and comprehensive project scheduling so as to reasonably ensure that it may be completed with the amount of funds requested. At the discretion of the General Assembly, advanced planning funds may be appropriated in support of this certification. This sub-subdivision shall not apply to requests for appropriations of less than one hundred thousand dollars ($100,000).

G.S. 143-341(3) is set out twice. See notes.

c. To supervise the letting of all contracts for the design, construction or renovation of all State buildings and all community college buildings whose plans and specifications must be examined and approved under a.2. of this subdivision.

d. To supervise and inspect all work done and materials used in the construction or renovation of all State buildings and all community college buildings whose plans and specifications must be examined and approved under a.2. of this subdivision; and no such work may be accepted by the State or by any State agency until it has been approved by the Department.

Except for sub-subdivisions b. and b1. of this subdivision, this subdivision does not apply to the design, construction, or renovation of projects by The University of North Carolina pursuant to G.S. 116-31.11.

(3) **(Effective December 31, 2006)** Architecture and Engineering:

a. To examine and approve all plans and specifications for the construction or renovation of:

1. All State buildings; and

2. All community college buildings requiring the estimated expenditure for construction or repair work for which public bidding is required under G.S. 143-129 prior to the awarding of a contract for such work; and to examine and approve all changes in those plans and specifications made after the contract for such work has been awarded.

b. To assist, as necessary, all agencies in the preparation of requests for appropriations for the construction or renovation of all State buildings.

b1. To certify that a statement of needs pursuant to G.S. 143-6 is feasible. For purposes of this sub-subdivision, "feasible" means that the proposed project is sufficiently defined in overall scope; building program; site development; detailed design, construction, and equipment budgets; and comprehensive project scheduling so as to reasonably ensure that it may be completed with the amount of funds requested. At the discretion of the General Assembly, advanced planning funds may be appropriated in support of this certification. This sub-subdivision shall not apply to requests for appropriations of less than one hundred thousand dollars ($100,000).

c. To supervise the letting of all contracts for the design, construction or renovation of all State buildings and all community college buildings whose plans and specifications must be examined and approved under a.2. of this subdivision.

d. To supervise and inspect all work done and materials used in the construction or renovation of all State buildings and all community college buildings whose plans and specifications must be examined and approved under a.2. of this subdivision; and no such work may be accepted by the State or by any State agency until it has been approved by the Department.

(4) Real Property Control:

a. To prepare and keep current a complete and accurate inventory of all land owned or leased by the State or by any State agency. This inventory shall show the location, acreage, description, source of title and current use of all land (including swamplands or marshlands) owned by the State or by any State agency, and the

agency to which each tract is currently allocated. Surveys may be made where necessary to obtain information for the purposes of this inventory. Accurate plats or maps of all such land may be prepared, or copies obtained where such maps or plats are available.

b. To prepare and keep current a complete and accurate inventory of all buildings owned or leased (in whole or in part) by the State or by any State agency. This inventory shall show the location, amount of floor space and floor plans of every building owned or leased by the State or by any State agency, and the agency to which each building, or space therein, is currently allocated. Floor plans of every such building shall be prepared or copies obtained where such floor plans are available, where needed for use in the allocation of space therein.

c. To obtain and deposit with the Secretary of State the originals of all deeds and other conveyances of real property to the State or to any State agency, copies of all leases wherein the State or any State agency is lessor or lessee, and certified copies of wills, judgments, and other instruments whereby the State or any State agency has acquired title to real property. Where an original of a deed, lease, or other instrument cannot be found, but has been recorded in the registry of office of the clerk of superior court of any county, a certified copy of such deed, conveyance, or instrument shall be obtained and deposited with the Secretary of State.

d. To acquire, whether by purchase, exercise of the power of eminent domain, lease, or rental, all land, buildings, and space in buildings for all State agencies, subject to the approval of the Governor and Council of State in each instance. The Governor, acting with the approval of the Council of State, may adopt rules (i) exempting from any or all of the requirements of this paragraph such classes of lease, rental, easement, and right-of-way transactions as he deems advisable; and (ii) authorizing any State agency to enter into and/or approve the classes of transactions thus exempted from the requirements of this paragraph; and (iii) delegating to any other State agency the authority to approve the severance of buildings and standing timber from State lands; upon such approval of severance, the buildings and timber so affected shall be treated, for the purposes of this Chapter, as personal property. Any contract entered into or any proceeding instituted contrary to the provisions of this paragraph is voidable in the discretion of the Governor and Council of State.

d1. To require all State departments, institutions, and agencies to use State-owned office space instead of negotiating or renegotiating leases for rental of office space. Any lease entered into contrary to the provisions of this paragraph is voidable in the discretion of the Governor and the Council of State.

The Department of Administration shall report to the Joint Legislative Commission on Governmental Operations and to the Fiscal Research Division no later than May 1 of each year on leased office space.

d2. To purchase or finance the purchase of buildings, utilities, structures, or other facilities or property developments, including streets and landscaping, the acquisition of land, equipment, machinery, and furnishings in connection therewith; additions, extensions, enlargements, renovations, and improvements to existing buildings, utilities, structures, or other facilities or

property developments, including streets and landscaping; land or any interest in land; other infrastructure; furniture, fixtures, equipment, vehicles, machinery, and similar items; or any combination of the foregoing, through installment-purchase, lease-purchase, or other similar type installment financing agreements in the manner and to the extent provided in Article 9 of Chapter 142 of the General Statutes. Any contract entered into or any proceeding instituted contrary to the provisions of this paragraph is voidable in the discretion of the Council of State.

e. To make all sales of real property (including marshlands or swamplands) owned by the State or by any State agency, with the approval of the Governor and Council of State in each instance. All conveyances in fee by the State shall be executed in accordance with the provisions of G.S. 146-74 through 146-78. Any conveyance of land made or contract to convey land entered into without the approval of the Governor and Council of State is voidable in the discretion of the Governor and Council of State. The proceeds of all sales of swamplands or marshlands shall be dealt with in the manner required by the Constitution and statutes.

f. With the approval of the Governor and Council of State, to make all leases and rentals of land or buildings owned by the State or by any State agency, and to sublease land or buildings leased by the State or by any State agency from another owner, where such land or building owned or leased by the State or by any State agency is not needed for current use. The Governor, acting with the approval of the Council of State, may adopt rules (i) exempting from any or all of the requirements of this paragraph such classes of lease or rental transactions as he deems advisable; and (ii) authorizing any State agency to enter into and/or approve the classes of transactions thus exempted from the requirements of this paragraph; and (iii) delegating to any other State agency the authority to approve the severance of buildings and standing timber from State lands; upon such approval of severance, the buildings and timber so affected shall be treated, for the purposes of this Chapter, as personal property. Any lease or rental agreement entered into contrary to the provisions of this paragraph is voidable in the discretion of the Governor and Council of State.

g. To allocate and reallocate land, buildings, and space in buildings to the several State agencies, in accordance with rules adopted by the Governor with the approval of the Council of State; provided that if the proposed reallocation is of land with an appraised value of at least twenty-five thousand dollars ($25,000), the reallocation may only be made after consultation with the Joint Legislative Commission on Governmental Operations. The authority granted in this paragraph shall not apply to the State Legislative Building and grounds or to the Legislative Office Building and grounds.

h. To require any State agency to make reports regarding the land and buildings owned by it or allocated to it at such times and in such form as the Department may deem necessary.

i. To determine whether all deeds, judgments, and other instruments whereby title to real estate has been or may be acquired by the State or by any State agency have been properly recorded in the county wherein the real property is situated, and to make or cause to be made proper recordation of such instruments. The

Department may have previously recorded instruments which conveyed title to or from the State or any State agency or officer reindexed, where necessary, to show the State of North Carolina or grantor or grantee, as the case may be, and the cost of such reindexing shall be paid from the State Land Fund.

j. To call upon the Attorney General for advice and assistance in the performance of any of the foregoing duties.

k. None of the provisions of this subdivision apply to highway or railroad rights-of-way or other interests or estates in land held for the same or similar purposes, or to the acquisition or disposition of such rights-of-way, interests, or estates in land.

l. To manage and control the vacant and unappropriated lands, swamplands, lands acquired by the State by virtue of being sold for taxes, and submerged lands of the State, pursuant to Chapter 146 of the General Statutes.

m. To contract for or approve all contracts for all appraisals and surveys of real property for all State agencies; provided, however, this provision shall not apply to appraisals and surveys obtained in connection with the acquisition of highway rights-of-way, borrow pits, or other interests or estates in land acquired for the same or similar purposes, or to the disposition thereof, by the Board of Transportation.

n. To petition for the annexation of state-owned lands into any municipality.

o. To provide that no fee, other than reimbursement of actual costs incurred and actual revenues lost by the State, shall be charged when State buildings are made available to a production company for a production. As used in this subdivision, the term "production company" has the meaning provided in G.S. 105-164.3.

(5) Administrative Analysis:

a. To study the organization, methods, and procedures of all State agencies, to formulate plans for improvements in the organization, methods, and procedures of any agency studied, and to advise and assist any agency studied in effecting improvements in its organization, methods, and procedures.

b. To report to the Governor its findings and recommendations concerning improvements in the organization, methods, and procedures of any State agency, when such improvements cannot be effected by the cooperative efforts of the Department and the agency concerned.

c. To submit to the Governor for transmittal to the General Assembly recommended legislation where such legislation is necessary to effect improvements in the organization, methods, and procedures of any State agency.

(6) State and Regional Planning:

a. To assist the Director of the Budget in reviewing the capital improvements needs and requests of all State agencies, and in preparing a coordinated biennial capital improvements budget and longer range capital improvements programs.

b. In cooperation with State agencies and other public and private agencies, to collect, analyze, and keep up-to-date a comprehensive collection of economic and social data pertinent to State planning, which shall be available to State and local governmental agencies and private agencies.

c. To coordinate and review all planning activity relative to federal government requirements for general statewide or regional comprehensive program planning.

d. To make economic analyses, studies, and projections and to advise the Governor on courses of action desirable for the maintenance of a sound economy.

e. To encourage and assist in the development of the planning process within State and local governmental agencies.

f. To assist State agencies by providing them with basic information and technical assistance needed in preparing their short-range and long-range programs.

g. To develop and maintain liaison and cooperative arrangements with federal, interstate, State, and private agencies and organizations in the interest of obtaining information and assistance with respect to State and regional planning.

h. To develop and maintain a comprehensive plan for the development of the State, representing the coordinated efforts and contributions of all participating planning groups.

i. In cooperation with the counties, the cities and towns, the federal government, multi-state commissions and private agencies and organizations, to develop a system of multi-county, regional planning districts to cover the entire State, and to assist in preparing for those districts comprehensive development plans coordinated with the comprehensive development plan for the State.

(7) Development Programs:

a. To participate in development programs, to enter into contracts, formulate plans and to do all things necessary to implement development programs in any area of the State.

b. To accept, receive and disburse, in furtherance of its functions, any funds, grants and services made available by the federal government and its agencies, any county, municipality, private or civic sources.

(8) General Services:

a. To locate, maintain and care for public buildings and grounds; to establish, locate, maintain, and care for walks, driveways, trees, shrubs, flowers, fountains, monuments, memorials, markers, and tablets on public grounds; and to beautify the public grounds.

b. To provide necessary and adequate cleaning and janitorial service, elevator operation service, and other operation or maintenance services for the public buildings and grounds.

c. To provide necessary night watchmen for the public buildings and grounds.

d. To make prompt repair of all public buildings and the equipment, furniture, and fixtures thereof; and to establish and operate shops for that purpose.

e. To keep in repair, out of funds appropriated for that purpose, the furniture of the halls of the Senate and House of Representatives and the rooms of the Capitol used by the officers, clerks, and other employees of the General Assembly.

f. Struck out by Session Laws 1959, c. 68, s. 3.

g. To establish and operate a mail service center that shall be used by all State agencies other than the Employment Security Commission, and in connection therewith and in the discretion of the Secretary, to do all things necessary in connection with the maintenance of the mail service center. The Secretary shall allocate and charge against the respective departments and agencies their proportionate parts of the cost of the maintenance of the mail service center. The Secretary shall develop a plan for

the efficient operation of the center that meets the needs of State agencies, ensures timely delivery of mail, and ensures no loss of federal funds.

h. To provide necessary and adequate messenger service for the State agencies served by the Department. However, this may not be construed as preventing the employment and control of messengers by any State agency when those messengers are compensated out of the funds of the employing agency.

i. To establish and operate a central motor pool and such subsidiary related facilities as the Secretary may deem necessary, and to that end:

1. To establish and operate central facilities for the maintenance, repair, and storage of state-owned passenger motor vehicles for the use of State agencies; to utilize any available State facilities for that purpose; and to establish such subsidiary facilities as the Secretary may deem necessary.
2. To acquire passenger motor vehicles by transfer from other State agencies and by purchase. All motor vehicles transferred to or purchased by the Department shall become part of a central motor pool.
3. To require on a schedule determined by the Department all State agencies to transfer ownership, custody or control of any or all passenger motor vehicles within the ownership, custody or control of that agency to the Department, except those motor vehicles under the ownership, custody or control of the Highway Patrol or the State Bureau of Investigation which are used primarily for law-enforcement purposes, and except those motor vehicles under the ownership, custody or control of the Department of Crime Control and Public Safety for Butner Public Safety which are used primarily for law-enforcement, fire, or emergency purposes.
4. To maintain, store, repair, dispose of, and replace state-owned motor vehicles under the control of the Department, using best management practices. The Department shall ensure that state-owned vehicles are replaced when most cost effective using a replacement formula developed by the Department and reviewed periodically for appropriateness of use. The Department shall report semiannually to the cochairs of the Joint Appropriations Subcommittee on General Government, on or before October 15 and March 15, on the effect of any new or revised replacement formula on the cost of operating the central motor pool, including the amount of any savings from use of any new or revised replacement formula.
5. Upon proper requisition, proper showing of need for use on State business only, and proper showing of proof that all persons who will be driving the motor vehicle have valid drivers' licenses, to assign economically suitable transportation, either on a temporary or permanent basis, to any State employee or agency. An agency assigned a motor vehicle may not allow a person to operate that motor vehicle unless that person displays to the agency and allows the agency to copy that person's valid driver's license. Notwithstanding G.S. 20-30(6), persons or agencies requesting assignment of motor vehicles may photostat or otherwise reproduce drivers' licenses for purposes of complying with this subpart.

As used in this subpart, "economically suitable transportation" means the most cost-effective standard vehicle in the

State motor fleet, unless special towing provisions are required by the agency. The Department may not assign any employee or agency a motor vehicle that is not economically suitable. The Department shall not approve requests for vehicle assignment or reassignment when the purpose of that assignment or reassignment is to provide any employee with a newer or lower mileage vehicle because of his or her rank, management authority, or length of service or because of any non-job-related reason. The Department shall not assign "special use" vehicles, such as four-wheel drive vehicles or law enforcement vehicles, to any agency or individual except upon written justification, verified by historical data, and accepted by the Secretary. The Department may provide law enforcement vehicles only to those agencies which have statutory pursuit authority.

6. To allocate and charge against each State agency to which transportation is furnished, on a basis of mileage or of rental, its proportionate part of the cost of maintenance and operation of the motor pool.

   The amount allocated and charged by the Department of Administration to State agencies to which transportation is furnished shall be at least as follows:

   I. Pursuit vehicles and full size four-wheel drive vehicles $.24/mile.

   II. Vans and compact four-wheel drive vehicles — $.22/mile.

   III. All other vehicles — $.20/mile.

7. To adopt, with the approval of the Governor, reasonable rules for the efficient and economical operation, maintenance, repair, and replacement, as limited in paragraph 4. of this subdivision, of all state-owned motor vehicles under the control of the Department, and to enforce those rules; and to adopt, with the approval of the Governor, reasonable rules regulating the use of private motor vehicles upon State business by the officers and employees of State agencies, and to enforce those rules. The Department, with the approval of the Governor, may delegate to the respective heads of the agencies to which motor vehicles are permanently assigned by the Department the duty of enforcing the rules adopted by the Department pursuant to this paragraph. Any person who violates a rule adopted by the Department and approved by the Governor is guilty of a Class 1 misdemeanor.

7a. To adopt with the approval of the Governor and to enforce rules and to coordinate State policy regarding (i) the permanent assignment of state-owned passenger motor vehicles and (ii) the use of and reimbursement for those vehicles for the limited commuting permitted by this subdivision. For the purpose of this subdivision 7a, "state-owned passenger motor vehicle" includes any state-owned passenger motor vehicle, whether or not owned, maintained or controlled by the Department of Administration, and regardless of the source of the funds used to purchase it. Notwithstanding the provisions of G.S. 20-190 or any other provisions of law, all state-owned passenger motor vehicles are subject to the provisions of this subdivision 7a; no permanent assignment shall be made and no one shall be exempt from payment of reimbursement for commuting or from the other provisions of

this subdivision 7a except as provided by this subdivision 7a. Commuting, as defined and regulated by this subdivision, is limited to those specific cases in which the Secretary has received and accepted written justification, verified by historical data. The Department shall not assign any state-owned motor vehicle that may be used for commuting other than those authorized by the procedure prescribed in this subdivision.

A State-owned passenger motor vehicle shall not be permanently assigned to an individual who is likely to drive it on official business at a rate of less than 3,150 miles per quarter unless (i) the individual's duties are routinely related to public safety or (ii) the individual's duties are likely to expose the individual routinely to life-threatening situations. A State-owned passenger motor vehicle shall also not be permanently assigned to an agency that is likely to drive it on official business at a rate of less than 3,150 miles per quarter unless the agency can justify to the Division of Motor Fleet Management the need for permanent assignment because of the unique use of the vehicle. Each agency, other than the Department of Transportation, that has a vehicle assigned to it or has an employee to whom a vehicle is assigned shall submit a quarterly report to the Division of Motor Fleet Management on the miles driven during the quarter by the assigned vehicle. The Division of Motor Fleet Management shall review the report to verify that each motor vehicle has been driven at the minimum allowable rate. If it has not and if the department by whom the individual to which the car is assigned is employed or the agency to which the car is assigned cannot justify the lower mileage for the quarter, the permanent assignment shall be revoked immediately. The Department of Transportation shall submit an annual report to the Division of Motor Fleet Management on the miles driven during the year by vehicles assigned to the Department or to employees of the Department. If a vehicle included in this report has not been driven at least 12,600 miles during the year, the Department of Transportation shall review the reasons for the lower mileage and decide whether to terminate the assignment. The Division of Motor Fleet Management may not revoke the assignment of a vehicle to the Department of Transportation or an employee of that Department for failure to meet the minimum mileage requirement unless the Department of Transportation consents to the revocation.

Every individual who uses a State-owned passenger motor vehicle, pickup truck, or van to drive between the individual's official work station and his or her home, shall reimburse the State for these trips at a rate computed by the Department. This rate shall approximate the benefit derived from the use of the vehicle as prescribed by federal law. Reimbursement shall be for 20 days per month regardless of how many days the individual uses the vehicle to commute during the month. Reimbursement shall be made by payroll deduction. Funds derived from reimbursement on vehicles owned by the Motor Fleet Management Division shall be deposited to the credit of the Division; funds derived from reimbursements on vehicles

initially purchased with appropriations from the Highway Fund and not owned by the Division shall be deposited in a Special Depository Account in the Department of Transportation, which shall revert to the Highway Fund; funds derived from reimbursement on all other vehicles shall be deposited in a Special Depository Account in the Department of Administration which shall revert to the General Fund. Commuting, for purposes of this paragraph, does not include those individuals whose office is in their home, as determined by the Department of Administration, Division of Motor Fleet Management. Also, this paragraph does not apply to the following vehicles: (i) clearly marked police and fire vehicles, (ii) delivery trucks with seating only for the driver, (iii) flatbed trucks, (iv) cargo carriers with over a 14,000 pound capacity, (v) school and passenger buses with over 20 person capacities, (vi) ambulances, (vii) [Repealed]. (viii) bucket trucks, (ix) cranes and derricks, (x) forklifts, (xi) cement mixers, (xii) dump trucks, (xiii) garbage trucks, (xiv) specialized utility repair trucks (except vans and pickup trucks), (xv) tractors, (xvi) unmarked law-enforcement vehicles that are used in undercover work and are operated by full-time, fully sworn law-enforcement officers whose primary duties include carrying a firearm, executing search warrants, and making arrests, and (xvii) any other vehicle exempted under Section 274(d) of the Internal Revenue Code of 1954, and Federal Internal Revenue Services regulations based thereon. The Department of Administration, Division of Motor Fleet Management, shall report quarterly to the Joint Legislative Commission on Governmental Operations and to the Fiscal Research Division of the Legislative Services Office on individuals who use State-owned passenger motor vehicles, pickup trucks, or vans between their official work stations and their homes, who are not required to reimburse the State for these trips.

The Department of Administration shall revoke the assignment or require the Department owning the vehicle to revoke the assignment of a State-owned passenger motor vehicle, pickup truck or van to any individual who:

I. Uses the vehicle for other than official business except in accordance with the commuting rules;
II. Fails to supply required reports to the Department of Administration, or supplies incomplete reports, or supplies reports in a form unacceptable to the Department of Administration and does not cure the deficiency within 30 days of receiving a request to do so;
III. Knowingly and willfully supplies false information to the Department of Administration on applications for permanent assignments, commuting reimbursement forms, or other required reports or forms;
IV. Does not personally sign all reports on forms submitted for vehicles permanently assigned to him or her and does not cure the deficiency within 30 days of receiving a request to do so;
V. Abuses the vehicle; or
VI. Violates other rules or policy promulgated by the Department of Administration not in conflict with this act.

A new requisition shall not be honored until the Secretary of the Department of Administration is assured that the violation for which a vehicle was previously revoked will not recur.

The Department of Administration, with the approval of the Governor, may delegate, or conditionally delegate, to the respective heads of agencies which own passenger motor vehicles or to which passenger motor vehicles are permanently assigned by the Department, the duty of enforcing all or part of the rules adopted by the Department of Administration pursuant to this subdivision 7a. The Department of Administration, with the approval of the Governor, may revoke this delegation of authority.

Prior to adopting rules under this paragraph, the Secretary of Administration may consult with the Advisory Budget Commission.

Notwithstanding the provisions of this section and G.S. 14-247, the Department of Administration may allow the organization sanctioned by the Governor's Council on Physical Fitness to conduct the North Carolina State Games to use State trucks and vans for the State Games of North Carolina. The Department of Administration shall not charge any fees for the use of the vehicles for the State Games. The State shall incur no liability for any damages resulting from the use of vehicles under this provision. The organization that conducts the State Games shall carry liability insurance of not less than one million dollars ($1,000,000) covering such vehicles while in its use and shall be responsible for the full cost of repairs to these vehicles if they are damaged while used for the State Games.

8. To adopt and administer rules for the control of all state-owned passenger motor vehicles and to require State agencies to keep all records and make all reports regarding motor vehicle use as the Secretary deems necessary.
9. To acquire motor vehicle liability insurance on all State-owned motor vehicles under the control of the Department.
10. To contract with the appropriate State prison authorities for the furnishing, upon such conditions as may be agreed upon from time to time between such State prison authorities and the Secretary, of prison labor for use in connection with the operation of a central motor pool and related activities.
11. To report annually to the General Assembly on any rules adopted, amended or repealed under paragraphs 3, 7, or 7a of this subdivision.

j. To establish and operate central mimeographing and duplicating services, central stenographical and clerical pools, and other central services, if the Governor after appropriate investigation deems it advisable from the standpoint of efficiency and economy in operation to establish any or all such services. The Secretary may allocate and charge against the respective agencies their proportionate part of the cost of maintenance and operation of the central services which are established, in accordance with the rules adopted by him and approved by the Governor and Council of State pursuant to paragraph k, below. Upon the establishment of central mimeographing and duplicating services, the Secretary may, with the approval of the Governor, require any State agency

to be served by those central services to transfer to the Department ownership, custody, and control of any or all mimeographing and duplicating equipment and supplies within the ownership, custody, or control of such agency.

k. To require the State agencies and their officers and employees to utilize the central facilities and services which are established; and to adopt, with the approval of the Governor and Council of State, reasonable rules and procedures requiring the utilization of such central facilities and services, and governing their operation and the charges to be made for their services.

l. To provide necessary information service for visitors to the Capitol.

m. To perform such additional duties and exercise such additional powers as may be assigned to it by statute or by the Governor.

(9) Repealed by Session Laws 1989, c. 239, s. 2.

(10) Block Grants. — To establish and maintain a block grants manual that will ensure uniform administration of block grant funds. The manual shall be a comprehensive source of reference for all general and statewide administrative procedures for block grant funds. The manual shall contain the applicable procedures for: the contents of an application, which shall be as simple as possible; the awarding of or contracting with block grant funds; auditing, which shall, to the extent possible, promote the use of single audits of grantees; the ensuring of civil rights compliance by grantees; and monitoring.

(11) Energy-related matters. — To exercise those powers and perform those duties prescribed in Article 1 of Chapter 113B and Part 1 of Article 3B of Chapter 143 of the General Statutes and Parts 2 and 3 of this Article. (1957, c. 215, s. 2; c. 269, s. 1; 1959, c. 683, ss. 2-4; c. 1326; 1963, c. 1, s. 5; 1965, c. 1023; 1969, c. 1144, s. 2; 1971, c. 1097, s. 3; 1975, c. 399, ss. 1, 2; c. 879, s. 46; 1979, c. 136, s. 1; c. 544; 1979, 2nd Sess., c. 1137, s. 38; 1981, c. 300; c. 859, ss. 48-51; 1981 (Reg. Sess., 1982), c. 1282, s. 62; 1983, c. 267, s. 1; c. 717, s. 74; c. 761, ss. 58, 151, 173, 174; c. 923, s. 217; 1983 (Reg. Sess., 1984), c. 1034, s. 122; 1985, c. 479, ss. 168, 170, 174; c. 757, ss. 174, 175, 177; c. 791, s. 51; 1985 (Reg. Sess., 1986), c. 955, ss. 94, 94.1; 1987, c. 738, ss. 43-45, 47(a); c. 827, s. 220; c. 874; 1987 (Reg. Sess., 1988), c. 1086, s. 34(b); 1989, c. 58, s. 2; c. 239, s. 2; 1991, c. 542, s. 10; c. 689, s. 22; 1993, c. 539, s. 1030; 1994, Ex. Sess., c. 24, s. 14(c); 1995, c. 97, s. 1; c. 402, s. 1; 1996, 2nd Ex. Sess., c. 18, s. 10.2; 1997-412, s. 6; 1998-45, s. 1; 2000-140, s. 76(g); 2000-153, s. 2; 2001-424, s. 7.4; 2001-496, s. 8(d); 2002-126, s. 19.2; 2003-177, s. 1; 2003-284, ss. 18.1, 46.3; 2003-314, s. 1.2.)

Subdivision (3) Set Out Twice. — The first version of subdivision (3) set out above expires December 31, 2006. The second version of subdivision (3) set out above is effective December 31, 2006.

Cross References. — For provision that State officers and employees who perform computerized data processing functions pursuant to subdivision (9) of this section for the Department of Revenue are authorized to receive and process for the Department information in reports and returns and are subject to certain criminal provisions, see G.S. 105-259. For provision that the State is not liable for North Carolina Amateur Sports use of State vehicles, see G.S. 143-299.3.

Triangle J Guidelines Pilot Program. — Session Laws 2001-415, ss. 7(a) to (e), provides: "(a) Triangle J Guidelines Pilot Program. — The General Assembly recognizes the State's need to understand how energy conservation measures are utilized in the construction or renovation of State facilities and how these measures benefit the State through cost savings and the protection of our natural resources. The General Assembly promotes the use of the Triangle J Council of Governments' High Performance Guidelines to achieve these

goals and encourages any State entity to rate itself in accordance with these guidelines forthe design, construction, operation, maintenance, or renovation of any State-assisted or State-owned facility.

"(b) To accomplish the goals described in Section 7(a) of this act, the Department of Administration shall implement a pilot program to review the use of the Triangle J Council of Governments' High Performance Guidelines in projects for the renovation or construction of State facilities.

"The Board of Governors of The University of North Carolina shall select at least four projects to participate in the pilot program, and the State Board of Community Colleges and the Office of State Budget, Planning, and Management shall select at least three projects each to participate in the program. One-third of the projects participating in this program shall be projects for the repair or renovation of a State facility, and the remaining projects shall be projects for the construction of State facilities.

"(c) The Department of Administration shall oversee the pilot program, and each entity involved shall submit all applicable information to the Department as it deems necessary, including compiling and submitting energy usage and cost data. The program shall include a one-year postoccupancy evaluation that shall be included as part of the evaluation of the Triangle J Council of Governments' High Performance Guidelines for each facility. The entities participating in this program shall explore the concept of a 'high performing facility' in assessing the use of the Triangle J Guidelines for these projects. For purposes of this section, 'high performing facility' means a building and surrounding environs designed using features that are energy efficient, incorporate reusable and renewable resources, provide natural lighting, are nontoxic, require low maintenance, are congruent with the natural characteristics of the site, incorporate water conservation measures, and cause minimum adverse impact to the environment as enacted in Section 2(11) of S.L. 2000-143.

"(d) The Department of Administration shall submit an interim report on the implementation of this program to the Senate and House of Representatives' Chairs of the Appropriations Committees, Chairs of General Government Appropriations Subcommittee, and the Joint Legislative Commission on Governmental Operations not later than December 15, 2002. The report shall discuss the benefits of using the Triangle J Council of Governments' High Performance Guidelines and make recommendations regarding the use of the Triangle J Guidelines in the projects participating in the program and other projects. The Department of Administration shall submit a final report to the Senate and House of Representatives' Chairs of the Appropriations Committees, Chairs of General Government Appropriations Subcommittee, and the Joint Legislative Commission on Governmental Operations not later than 18 months after completion of the last project participating in this program, if practicable.

"(e) This act shall not be construed to obligate the General Assembly to appropriate funds to implement the Triangle J Guidelines pilot program."

Editor's Note. — Section 143B-269 establishes the Black Mountain Advancement Center for Women and provides in subsection (b) thereof that notwithstanding paragraph (4)g of this section, the grounds now occupied by the Black Mountain Regional Mental Retardation Center and Building 3 are transferred from the Department of Human Resources to the Department of Correction.

Session Laws 1971, c. 1097, which amended this section, in s. 5.1, provided: "This act shall not apply to the Police Information Network established under Chapter 114 of the General Statutes."

Session Laws 1993, c. 321, s. 321 provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 1993-95 biennium, the textual provisions of this act shall apply only to funds appropriated for and activities occurring during the 1993-95 biennium."

Session Law 1998-10, s. 1, provides: "Notwithstanding the provisions of G.S. 143-341(8)i. and G.S. 14-247, the Department of Administration may allow the 1999 Special Olympics World Summer Games Organizing Committee, Inc., to use State-owned trucks and vans for the 1999 Special Olympics World Summer Games in North Carolina.

"The Department of Administration shall not charge any fees for the use of the vehicles for the 1999 Special Olympics World Summer Games.

"The 1999 Special Olympics World Summer Games Organizing Committee, Inc., shall submit to the Department of Administration, for its approval, a list of the purposes for which the vehicles may be used. Vehicles may only be used for approved purposes.

"The State shall incur no liability for any damages resulting from the use of vehicles under this provision. The 1999 Special Olympics World Summer Games Organizing Committee, Inc., shall carry liability insurance of not less than five million dollars ($5,000,000) covering the use of the vehicles and shall be responsible for the full cost of repairs to these vehicles if they are damaged while used for the 1999 Special Olympics World Summer Games."

Session Laws 2000-3, s. 3(f), provides that notwithstanding G.S. 143-341(3)a.2., G.S. 143-341(3) applies only to funds provided by Session Laws 2000-3, the Michael K. Hooker

Higher Education Facilities Financing Act, for construction or renovation of community college buildings requiring an estimated expenditure of more than two hundred fifty thousand dollars ($250,000). The Michael K. Hooker Higher Education Facilities Financing Act, in part, authorizes the issuance of general obligation bonds of the state to provide grants to community colleges for capital improvements.

Session Laws 2001-496, s. 13.1 is a severability clause.

Session Laws 2002-126, s. 1.2, provides: "This act shall be known as 'The Current Operations, Capitol Improvements, and Finance Act of 2002'."

Session Laws 2002-126, s. 31.6 is a severability clause.

This subdivision was originally enacted as G.S. 141-341(4)d2. It has been renumbered as G.S. 141-341(4)d3 at the direction of the Revisor of Statutes.

Session Laws 2003-284, s. 6.20, effective July 1, 2003, provides: "Notwithstanding G.S. 143-341(4)g. or any other provision of law, the property currently allocated to the Department of Administration and previously allocated to the Department of Health and Human Services for the Central School for the Deaf at Greensboro is hereby reallocated to the Board of Governors of The University of North Carolina. This property shall be used for the establishment of Millennium Campuses of the University of North Carolina at Greensboro and North Carolina Agricultural and Technical State University."

Session Laws 2003-284, s. 1.2, provides: "This act shall be known as the 'Current Operations and Capital Improvements Appropriations Act of 2003'."

Session Laws 2003-284, s. 48.1, provides: "Parts 32 through 47 of this act do not affect the rights or liabilities of the State, a taxpayer, or another person arising under a statute amended or repealed by those parts before the effective date of its amendment or repeal; nor do they affect the right to any refund or credit of a tax that accrued under the amended or repealed statute before the effective date of its amendment or repeal."

Session Laws 2003-284, s. 49.3, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 2003-2005 fiscal biennium, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 2003-2005 fiscal biennium."

Session Laws 2003-284, s. 49.5 is a severability clause.

Session Laws 2003-314, ss. 4.1(a) through (c), provide: "Interpretation of Act. (a) Additional Method. — This act provides an additional and alternative method for the doing of the things authorized by this act and shall be regarded as supplemental and additional to powers conferred by other laws. Except where expressly provided, this act shall not be regarded as in derogation of any powers now existing. The authority granted in this act is in addition to other laws now or hereinafter enacted authorizing the State to issue or incur indebtedness.

"(b) Statutory References. — References in this act to specific sections or Chapters of the General Statutes are intended to be references to those sections or Chapters as they may be amended from time to time by the General Assembly.

"(c) Liberal Construction. — This act, being necessary for the health and welfare of the people of the State, shall be liberally construed to effect its purposes."

Session Laws 2003-314, s. 4.1(d), contains a severability clause.

Effect of Amendments. — The 1997 amendment, effective January 1, 1998, and expiring July 1, 2001, added the last sentence of subdivision (3).

Session Laws 2001-496, s. 8(d), effective July 1, 2001 and expiring December 31, 2006, added the language beginning "or buildings located on State lands" to the end of subdivision (3)a.1., and added the final sentence of subdivision (3).

Session Laws 2002-126, s. 19.2, effective July 1, 2002, added the last sentence of subdivision (8)g.

Session Laws 2003-177, s. 1, effective June 12, 2003, rewrote subdivision (8)i.4.

Session Laws 2003-284, ss. 18.1 and 46.3, effective June 30, 2003, added subdivision (4)d2., and rewrote subdivision (8)g.

Session Laws 2003-314, s. 1.2, effective July 10, 2003, added a subdivision designated (4)d2. that was identical to the subdivision (4)d2. added by Session Laws 2003-284, s. 46.3.

State Government Reorganization. — The General Services Division was transferred to the Department of Administration by former G.S. 143A-82, enacted by Session Laws 1971, c. 864, and repealed by Session Laws 1975, c. 879, s. 46. For present provisions as to the powers and duties of the Department of Administration, see G.S. 143B-367, 143B-368.

Legal Periodicals. — For note on coastal land use development and area-wide zoning, see 49 N.C.L. Rev. 866 (1971).

For 1997 legislative survey, see 20 Campbell L. Rev. 437.

CASE NOTES

Department Not Required to Negotiate When Lease Proposal Is Submitted. — Once the Department of Administration has submitted to the Council of State the lowest

lease proposal in accordance with requirements set forth in lease specifications, the Council of State does not have the authority to examine all lease proposals and to require the Department of Administration to negotiate and enter a lease other than the lease proposal submitted by the Department of Administration. Martin v. Thornburg, 320 N.C. 533, 359 S.E.2d 472 (1987).

No Carte Blanche to Condemn Property. — For case holding that G.S. 146-22 et seq. and subdivision (4)d of this section did not give the Department (with the approval of the Governor and Council of State) carte blanche to condemn property, see State v. Core Banks Club Properties, Inc., 275 N.C. 328, 167 S.E.2d 385 (1969).

Applied in Lewis v. White, 287 N.C. 625, 216 S.E.2d 134 (1975).

Cited in State v. Coastland Corp., 134 N.C. App. 269, 517 S.E.2d 655, 1999 N.C. App. LEXIS 749 (1999), cert. denied, 351 N.C. 111, 540 S.E.2d 371 (1999).

OPINIONS OF ATTORNEY GENERAL

Highway Rest Area Structures. — The provisions of this section are not applicable to the construction of rest area buildings on a highway right-of-way as highway structures are specifically excepted by G.S. 143-336. The buildings in the rest area located on a highway right-of-way are highway structures and therefore the Department of Administration is not required to approve such plans and specifications. See opinion of Attorney General to Mr. John Davis, Chief Engineer, State Highway Commission, 40 N.C.A.G. 541 (1970).

§ 143-341.1. Evacuation of State buildings and grounds.

The Director of the State Capitol Police, appointed by the Secretary pursuant to G.S. 143-340(22), or the Director's designee, shall exercise at all times those means that, in the opinion of the Director or the designee, may be effective in protecting all State buildings and grounds, except for the State legislative buildings and grounds as defined in G.S. 120-32.1(d), and the persons within those buildings and grounds from fire, bombs, bomb threats, or any other emergency or potentially hazardous conditions, including both the ordering and control of the evacuation of those buildings and grounds. The Director or the Director's designee may employ the assistance of other available law enforcement agencies and emergency agencies to aid and assist in evacuations of those buildings and grounds. (1997-112, s. 1.)

§ 143-342. Rules governing allocation of property and space.

The Governor, with the approval of the Council of State, shall adopt such reasonable rules, regulations, and procedures as he deems necessary concerning the allocation and reallocation by the Department of land, buildings, and space within buildings to and among the several State agencies. (1957, c. 269, s. 1.)

§ 143-342.1. State-owned office space; fees for use by self-supporting agencies.

The Department shall determine equitable fees for the use of State owned and operated office space, and it shall assess the Department of State Treasurer, the Department of Insurance, and all self-supporting agencies using any of this office space for payment of these fees. For the purposes of this section, self-supporting agencies are those agencies designated by the Director of the Budget as being primarily funded from sources other than State appropriations. Fees assessed under this section shall be paid to the General Fund. (1977, 2nd Sess., c. 1219, s. 48; 1983, c. 717, ss. 76, 77; 1997-443, s. 27.4.)

§ 143-343. General Services Division.

If the Governor and Council of State at any time determine, pursuant to G.S. 129-11, that the General Services Division should be made a part of the Department of Administration, the powers and duties given the Director of General Services by statute shall thereafter be deemed a part of the statutory powers and duties of the Director of Administration, and the powers and duties given the General Services Division by statute shall thereafter be deemed a part of the statutory powers and duties of the Department of Administration. The head of the General Services Division shall thereafter be appointed and removed, and his salary shall be fixed, in the same manner prescribed for other division heads. Upon the accomplishment of such transfer, the General Services Division shall thereafter be in all respects a part of the Department of Administration and subject to the supervision and control of the Director of Administration. (1957, c. 269, s. 1.)

Editor's Note. — Section 129-11, referred to in this section, was repealed by Session Laws 1971, c. 1097, s. 5.

Because this section relates to past events, no changes have been made in it pursuant to Session Laws 1975, c. 879, s. 46.

§ 143-344. Transfer of functions, property, records, etc.

(a) Repealed by Session Laws 1979, 2nd Session, c. 1137, s. 39.

(b) All of the powers, duties, functions, records, property, supplies, equipment, personnel, funds, credits, appropriations, quarterly allotments, and executory contracts of the Division of Purchase and Contract are hereby transferred to the Department of Administration, effective July 1, 1957. All statutory references to the "Division of Purchase and Contract" or the "Purchase and Contract Division" shall be deemed to refer to the Department of Administration.

(c) The transfers directed by subsections (a) and (b) above, shall be made under the supervision of the Governor, and he shall be the final arbiter of all differences or disputes arising incident to such transfers.

(d) Insofar as practical the expenses necessary to carry out the provisions of this Article shall, during the 1957-1959 biennium, be provided out of appropriations made to the presently existing agencies the functions of which will be transferred to the Department of Administration; and in the event additional funds are necessary to carry out the provisions of this Article the Governor with the approval of the Council of State and the Advisory Budget Commission is hereby authorized to appropriate such additional necessary expenses from the Contingency and Emergency Fund. (1957, c. 269, s. 1; 1979, 2nd Sess., c. 1137, s. 39.)

Editor's Note. — Because this section relates to past events, no changes have been made in it pursuant to Session Laws 1975, c. 879, s. 46.

§ 143-345. Saving clause.

No transfer of functions to the Department of Administration provided for in this Article shall affect any action, suit, proceeding, prosecution, contract, lease, or other business transaction involving such a function which was initiated, undertaken, or entered into prior to or pending the time of the transfer, except that the Department shall be substituted for the agency from which the function was transferred, and so far as practicable the procedure provided for in this Article shall be employed in completing or disposing of the matter. (1957, c. 269, s. 1.)

§ 143-345.1. Rules and regulations.

The Governor, with the approval of the Council of State, shall adopt reasonable rules and regulations governing the use, care, protection, and maintenance of the public buildings and grounds (other than parking). Any person who violates a rule or regulation adopted by the Governor with the approval of the Council of State is guilty of a Class 1 misdemeanor. (1957, c. 215, s. 2; 1971, c. 1097, s. 4; 1993, c. 539, s. 1031; 1994, Ex. Sess., c. 24, s. 14(c).)

Editor's Note. — The above section was formerly G.S. 129-6. It was transferred and renumbered G.S. 143-343 by Session Laws 1971, c. 1097, s. 4. Since a G.S. 143-343 already existed, the section transferred by the 1971 act has been renumbered G.S. 143-345.1.

§ 143-345.2. Disorderly conduct in and injury to public buildings and grounds.

Any person who commits a nuisance or conducts himself in a disorderly manner in or around any public building or grounds, or defaces or injures any public building or grounds, is guilty of a Class 1 misdemeanor. (1957, c. 215, s. 2; 1971, c. 1097, s. 4; 1993, c. 539, s. 1032; 1994, Ex. Sess., c. 24, s. 14(c).)

Editor's Note. — The above section was formerly G.S. 129-7. It was transferred and renumbered G.S. 143-344 by Session Laws 1971, c. 1097, s. 4. Since a G.S. 143-344 already existed, the section transferred by the 1971 act has been renumbered G.S. 143-345.2.

§ 143-345.3. Construction and repair of public buildings; use of Contingency and Emergency Fund.

It is lawful to resort to the Contingency and Emergency Fund provided in the Appropriation Act for financial aid in the construction, alteration, renovation, or repair of any public building, when in the opinion of the Governor and Council of State it is necessary to construct, alter, renovate, or repair such building. (1957, c. 215, s. 2; 1971, c. 1097, s. 4.)

Editor's Note. — The above section was formerly G.S. 129-8. It was transferred and renumbered G.S. 143-345 by Session Laws 1971, c. 1097, s. 4. Since a G.S. 143-345 already existed, the section transferred by the 1971 act has been renumbered G.S. 143-345.3.

§ 143-345.4. Moore and Nash squares and other public lots.

The governing body of the City of Raleigh is authorized, at its own expense, to grade, to lay out in walks, to plant with trees, shrubbery, and flowers and otherwise to adorn Moore and Nash squares and to that end has the general charge and management of these squares. The governing body may manage and improve in like manner any of the vacant lots within the city limits which belong to the State and which are not otherwise appropriated, subject to the approval of the Governor and Council of State. The governing body may not prevent the free access of the public to such squares or lots during reasonable hours.

Whenever, in the opinion of the Secretary, the governing body is not properly keeping the squares or lots which it has taken in charge under this section, the Secretary shall call the matter to the attention of the governing body, and if the governing body then fails for a period of 60 days to begin to take proper care of the squares or lots, the Governor and Council of State may repossess them and proceed to manage and control them for the preservation of such property.

In the event that the use of these squares and lots is at any time needed by the State, the license of the City of Raleigh to control and manage them shall terminate six months after notice given by the Governor and Council of State to the governing body of the city, and possession shall be promptly surrendered to the State. (1957, c. 215, s. 2; 1971, c. 1097, s. 4; 1975, c. 879, s. 46.)

Editor's Note. — The above section was formerly G.S. 129-9. It was transferred and renumbered G.S. 143-345.1 by Session Laws 1971, c. 1097, s. 4, and has been renumbered G.S. 143-345.4. See Editor's Notes under G.S. 143-345.1 through 143-345.3.

§ 143-345.5. Program for location and construction of future public buildings.

The Department of Administration is hereby authorized, empowered, and directed to formulate a long range building policy program and shall cooperate with the governing board of the City of Raleigh in zoning property adjacent to or in the vicinity of the Capitol Square when and if the City of Raleigh desires to zone said property. If the Department of Administration is of opinion that property adjacent to or in the vicinity of the Capitol Square will, in the future, be needed for State building purposes, it shall so advise the governing body of the City of Raleigh. At such times as the governing body of the City of Raleigh shall rezone property adjacent to or within four blocks of the State Capitol, it shall request an opinion from the Department of Administration as to whether the Department finds a future need for such property for State building purposes. In the event that the governing board of the City of Raleigh is informed by the Department of Administration that any property herein covered be needed for building purposes by the State in the future, the governing body of the City of Raleigh shall give full consideration to such opinion of the Department before making any rezoning order. (1951, c. 1132; 1957, c. 215, s. 2; 1971, c. 1097, s. 4.)

Editor's Note. — The above section was formerly G.S. 129-12. It was transferred and renumbered G.S. 143-345.2 by Session Laws 1971, c. 1097, s. 4, and has been renumbered G.S. 143-345.5. See Editor's Notes under G.S. 143-345.1 through 143-345.4.

§ 143-345.6: Recodified as § 147-54.3 by Session Laws 1991, c. 689, s. 181(b).

§ 143-345.7. Repair and reconstruction of the Western Residence of the Governor.

If the Western Residence of the Governor in Asheville is damaged or destroyed by fire or other disaster, it shall be repaired or reconstructed. Funds from the Contingency and Emergency Fund may be used for this purpose with the approval of the Director of the Budget if insurance coverage on the property should be inadequate. Insurance on the Western Governor's mansion shall be as adequate as possible and used in case of a fire or devastation of the mansion for the purpose of rebuilding or repairing the mansion. (1983, c. 602.)

§ 143-345.8. North Carolina Purchase Directory.

The Division of Purchase and Contract of the Department of Administration shall electronically advertise information on contract and purchase requirements from the Division of Purchase and Contract, the Office of State Construction, the Department of Transportation, and other agencies of State government which make direct purchases from private suppliers. The Division

shall coordinate with the other departments of State government to ensure that the electronic advertisement is meeting the goals of disseminating as widely as possible and in a timely manner information on those State contracts which are open for bids. A printed copy of any information that is electronically advertised shall be made available to any party upon request. The Secretary of the Department of Administration may adopt rules governing the routine and procedures to be followed in advertising information on contract and purchase opportunities, what contracts and purchases will be advertised, and under what conditions exceptions to the electronic advertisement may occur. (1983, c. 839; 1999-417, s. 1.)

Editor's Note. — Session Laws 1999-417, s. 2, declared the amendment of this section by Session Laws 1999-417, s. 1, to be a recent act, and provided that the Secretary of the Department of Administration may adopt temporary rules to implement the provisions of this act, pursuant to G.S. 150B-21.1, and that under such rules the Division may advertise information regarding contract and purchase requirements in both print and electronic format for 12 months following August 5, 1999, the effective date of Session Laws 1999-417.

§ 143-345.9. Official "Prisoner of War/Missing in Action" flag to be flown over the State Capitol.

The Department of Administration is authorized to fly the official "Prisoner of War/Missing in Action (POW/MIA)" flag over the State Capitol on Veterans Day, Memorial Day, Armed Forces Day, and all other national holidays honoring veterans. (1989, c. 613, s. 1.)

§§ 143-345.10 through 143-345.12: Reserved for future codification purposes.

Part 2. Stocks of Coal and Petroleum Fuels.

§ 143-345.13. Reporting of stocks of coal and petroleum fuels.

The Department of Administration may, with the prior express approval of the Energy Policy Council and the Governor, require that all coal and petroleum suppliers in North Carolina supplying coal, motor gasoline, middle distillates, residual oils, and propane for resale within the State, file with the Department of Administration, on forms prepared by the Department, accurate reports as to the stocks of coal and petroleum products and storage capacities maintained by the supplier, including the supplier's current inventory and stock of coal, motor gasoline, middle distillates, residual oils and propane, the expected time such supplies will last under ordinary distribution demand and the schedule for receiving additional or replacement stocks. The reports and the information contained therein shall be proprietary information available only to regular employees of the Department of Administration, except that aggregate tables or schedules consolidating information from the reports may be released if they do not reveal individual report data for any named supplier. It is further the intent of this section that no information shall be required from coal and petroleum suppliers, that is, at the time the reports are requested, already on file with any agency, commission, or department of State government.

It is the intent of this section that the reports be filed only at such times as the Energy Policy Council and the Governor determine that an energy crisis as defined in G.S. 113B-20 exists or may be imminent.

If any petroleum or coal supplier fails to file the accurate reports as may be required by this section for more than 10 days after the date on which any such report is due, the Secretary of Administration is authorized and empowered to petition the district court, Division of the General Court of Justice, in the county in which the principal office or place of business of the supplier is located, for a mandatory injunction compelling the supplier to file the report. (2000-140, s. 76(i).)

§ 143-345.14. Authority to collect data; administration and enforcement; confidentiality.

(a) The Department of Administration shall have the authority to obtain from prime suppliers of petroleum products specific petroleum supply data concerning State-level sales and projected sales by month for North Carolina that is currently reported on the federal Form EIA-782C, "Monthly Report of Petroleum Products Sold in States for Consumption" or its successor, at such time that these data requirements are not being met through any federal reporting procedure. The petroleum products subject to this reporting requirement are: finished gasoline (all grades), #1 distillate, kerosene, #2 fuel oil, #2 diesel fuel, aviation gasoline (finished), kerosene-type jet fuel, naphtha-type jet fuel, #4 fuel, residual fuel oil (less than or equal to one percent sulfur), residual fuel oil (greater than one percent sulfur), propane (consumer grade). The authority to collect energy data from suppliers of petroleum products into North Carolina, that is granted to the Department of Administration in this section, shall be limited to the petroleum volume data that is reported on the Form EIA-782C or its successor.

(b) "Prime suppliers" shall be defined as those suppliers which make the first sale of the named product into North Carolina, excluding jobbers, distributors, and retail dealers.

(c) The Department of Administration shall adopt rules and regulations for the administration of this data collection program and the Attorney General and the law enforcement authorities of the State and its political subdivisions shall enforce the provisions of this section and all orders, rules, and regulations promulgated thereunder. Any enforcement action may be brought upon the relation of the Department of Administration or the direction of the Attorney General.

(d) Any person or corporation who willfully refuses to provide the petroleum supply data in accordance with the conditions described herein, or who knowingly or willfully submits false information in any reports required herein or refuses to file any reports shall be guilty of a Class 1 misdemeanor.

(e) Any civil action brought to enforce the provisions of this section shall be brought in the Superior Court of Wake County or in the superior court of the county in which the acts or practices constituting a violation occurred or are occurring.

(f) The Department of Administration shall keep confidential any individually identifiable energy information to the extent necessary to comply with the confidentiality requirements of the reporting agency, and any such information shall not be subject to the public disclosure requirements of G.S. 132-6. "Individually identifiable energy information" shall be defined as any individual record or portion of a record or aggregated data containing energy information about a person or persons obtained from any source, the disclosure of which could reasonably be expected to reveal information about a specific person. (2000-140, s. 76(i).)

§ 143-345.15: Reserved for future codification purposes.

Part 3. Energy Improvement Loan Program.

§ 143-345.16. Short title.

This Part shall be known as the Energy Improvement Loan Program. (2000-140, s. 76(i); 2001-338, s. 1.)

§ 143-345.17. Legislative findings and purpose.

The General Assembly finds and declares that it is in the best interest of the citizens of North Carolina to promote and encourage energy efficiency within the State in order to conserve energy, promote economic competitiveness, and expand employment in the State. (2000-140, s. 76(i); 2001-338, s. 1.)

§ 143-345.18. Lead agency; powers and duties.

(a) For the purposes of this Part, the Department of Administration, State Energy Office, is designated as the lead State agency in matters pertaining to energy efficiency.

(b) The Department shall have the following powers and duties with respect to this Part:

(1) To provide industrial and commercial concerns doing business in North Carolina, local governmental units, and nonprofit organizations operating in North Carolina with information and assistance in undertaking energy conserving capital improvement projects to enhance efficiency.

(2) To establish a revolving fund within the Department for the purpose of providing secured loans in amounts not greater than five hundred thousand dollars ($500,000) per entity to install energy-efficient capital improvements (i) within businesses or nonprofit organizations located within or translocating to North Carolina, and (ii) within local governmental units. In providing these loans, priority shall be given to entities already located in the State.

(2a) To develop and adopt rules to allow State-regulated financial institutions to provide secured loans to corporate entities, nonprofit organizations, and local governmental units in accordance with terms and criteria established by the Department.

(3) To work with appropriate State and federal agencies to develop and implement rules and regulations to facilitate this program.

(c) The annual interest rate charged for the use of the funds from the revolving fund established pursuant to subdivision (b)(2) of this section shall be three percent (3%) per annum, excluding other fees required for loan application review and origination. The term of any loan originated under this section may not be greater than 10 years.

(c1) Notwithstanding subsection (c) of this section, the Department shall adopt rules to allow loans to be made from the revolving loan fund and by State-regulated financial institutions at interest rates as low as one percent (1%) per annum for certain energy efficient and conservation projects such as recycling and renewable energy to encourage their development and use.

(d) In accordance with the terms of the Stripper Well Settlement, administrative expenses for activities under this section shall be limited to five percent (5%) of funds appropriated for this purpose.

(e) For purposes of this section:

(1) "Local governmental unit" means any board or governing body of a political subdivision of the State, including any board of a community

college, any school board, or an agency, commission, or authority of a political subdivision of the State.

(2) "Nonprofit organization" means an organization that is exempt from federal income taxation under section 501(c)(3) of the Internal Revenue Code. (2000-140, s. 76(i); 2001-338, s. 1.)

Article 36A.

State Employee Incentive Bonus Program.

§ 143-345.20. Definitions.

The following definitions apply in this Article:

(1) Baseline reversion. — The two-year historical average of reversions by a State department, agency, or institution.

(2) Repealed by Session Laws 2001-424, s. 7.2(b), effective July 1, 2001.

(2a) Participating agency. — Any State department, agency, or institution, or any local school administrative unit that employs State employees eligible to participate in the State Employee Incentive Bonus Program. The term includes the North Carolina Community Colleges System, The University of North Carolina and its constituent institutions, and charter schools. The term does not include federal or local government agencies.

(2b) SEIBP. — Acronym for the State Employee Incentive Bonus Program.

(3) State employee. — Any of the following:

a. A person who is a contributing member of the Teachers' and State Employees' Retirement System of North Carolina, the Consolidated Judicial Retirement System of North Carolina, or the Optional Program.

b. A person who receives wages from the State as a part-time or temporary worker, but is not otherwise a contributing member of one of the retirement programs listed in sub-subdivision a. of this subdivision. (1997-513, s. 2; 2001-424, s. 7.2(b).)

Editor's Note. — The number of this section was assigned by the Revisor of Statutes, the number in Session Laws 1997-513, s. 2 having been 143-345.10.

Session Laws 1997-513, s. 4 states that this act shall not be construed to obligate the General Assembly to make any appropriation to implement the provisions of this act. Each State agency to which this act applies shall implement the provisions of this act from funds otherwise appropriated to that State agency.

§ 143-345.21. State employee incentive bonus.

(a) A State employee or team of State employees may receive an incentive bonus or bonuses in reward for suggestions or innovations resulting in monetary savings to the State, increased revenues to the State, or improved quality of services delivered to the public.

(b) Repealed by Session Laws 2001-424, s. 7.2(c), effective July 1, 2001.

(b1) The amount of savings generated by suggestions and innovations shall be determined after a 12-month period of implementation. No incentive bonus shall be paid prior to the expiration of 12 months, and payment may be delayed further as reasonably required to ensure that a complete cost implementation cycle is evaluated fully.

(c) Any savings are to be calculated using the actual expenditures for a program, activity, or service compared to the budgeted amount for the same, if

an amount has been budgeted for the program, activity, or service. The savings calculation shall include the amount of any reversions in excess of the baseline reversion. Any savings realized through the State Employee Incentive Bonus Program shall be weighed against continued service to the public and the assurance that there is not a negative impact on State programs.

(d) If a suggestion or innovation affects a program, activity, or service for which no separate budgeted amount has been made, the State Coordinator, in conjunction with the agency evaluator or agency fiscal officer, or both for that suggestion or innovation, shall determine the budgetary impact of the suggestion or innovation.

(e) Federal and local government funds and corporate and foundation grant funds are excluded from the SEIBP.

(f) The Department of Administration shall establish the SEIBP reserve fund in which all savings for all suggestions shall be deposited as earned. Each participating agency shall be responsible for transferring savings to the SEIBP reserve fund. The funds may be encumbered as needed to ensure payment to the General Fund, to the suggester, and for distribution as required by G.S. 143-345.22. The Department of Administration shall provide the SEIBP reserve fund summary at the close of each fiscal year to the Office of State Budget and Management and to the participating agencies. The Office of State Budget and Management shall have oversight responsibility for ensuring that the required reversions and transfers are made to the General Fund, and that all encumbered funds are accounted for and paid as required by law.

(g) No distribution of suggester awards shall occur until reversion requirements to the General Fund are met and distributions as required by G.S. 143-345.22 are satisfied and verified by the Office of State Budget and Management. When all of the requirements of G.S. 143-345.22 are fulfilled, the Department of Administration shall transfer to the suggester's agency funds required to award the suggester. The suggester's agency shall make the suggestion award and ensure that all taxes and withholding requirements are met.

(h) Implementation costs may be prorated over a maximum of three years for suggestions or innovations that are capital intensive, involve leading-edge technology, or involve unconventional processes that require longer than 12 months for implementation. The amount of the average annual savings minus the average annual implementation cost shall be used as the basis for the agency to recommend a suggester award. The State Review Committee shall consult the Office of State Budget and Management to make the final award determination in these cases.

(i) There is established in the Department of Administration a nonreverting fund to be administered by the Office of State Personnel for the training and education of permanent State employees to address specific mission critical needs and objectives. Funds shall be credited from the SEIBP to the fund as provided by this Article. (1997-513, s. 2; 1998-181, s. 5; 2001-424, s. 7.2(c).)

Editor's Note. — The number of this section was assigned by the Revisor of Statutes, the number in Session Laws 1997-513, s. 2 having been 143-345.11.

§ 143-345.22. Allocation of incentive bonus funds; nonmonetary recognition.

(a) If a State employee's suggestion or innovation results in a monetary savings or increased revenue to the State, the funds saved or increased shall be distributed according to the following scale or subject to guidelines as set forth by the funding source:

(1) Twenty percent (20%) of the annualized savings or increased revenues, up to a maximum of twenty thousand dollars ($20,000) for any one State employee, to constitute gainsharing. If a team of State employees is the suggester, the bonus provided in this subdivision shall be divided equally among the team members, except that no team member shall receive in excess of twenty thousand dollars ($20,000), nor shall the team receive an aggregate amount in excess of one hundred thousand dollars ($100,000). These funds shall not revert.

(2) Thirty percent (30%) allocated as follows:

a. Ten percent (10%) to the implementing agency for nonrecurring budget items to be used (i) by the implementing agency to provide equipment, supplies, training, and limited but appropriate recognition for the division, section, or group responsible for the implementation of the cost-saving measure and (ii) to meet other similar needs within the agency.

b. Ten percent (10%) to the Department of Administration for augmenting funding for the management and administration of the SEIBP. These funds shall not revert.

c. Ten percent (10%) to the State employee education and training fund administered by the Office of State Personnel under G.S. 143-342.21(i). These funds shall not revert.

(3) The remainder to the General Fund for nonrecurring budget items.

(a1) Of the pool of funds identified in subsection (a) of this section, only the General Fund appropriations shall be subject to reversion, except during declared budget emergencies. Under nonemergency budget conditions, SEIBP funds arising from savings at The University of North Carolina, the North Carolina Community Colleges System, the Highway Trust Fund, enterprise funds, and receipt-supported organizations shall be exempt from the General Fund reversion requirements.

(b) The budget of a State agency shall not be reduced in the following fiscal year by an amount similar to the monetary savings or increased revenues realized by the State Employee Incentive Bonus Program. The agency budget shall be reduced in subsequent years only if structural or organizational changes are made that warrant the reductions, including the transfer of responsibility for an activity or service to another agency or the elimination of some function of State government.

(c) If a suggestion or innovation results in improved quality of services to the public or to other State agencies, departments, and institutions, but not in monetary savings to the State, the suggester shall receive a nonmonetary award in the form of a certificate, leave with pay, or other similar recognition. (1997-513, s. 2; 1998-181, s. 6; 2001-424, s. 7.2(d).)

Editor's Note. — The number of this section was assigned by the Revisor of Statutes, the number in Session Laws 1997-513, s. 2, having been 143-345.12.

OPINIONS OF ATTORNEY GENERAL

Allocation of Savings That Result from Sources Funded Under Special Funds Statutes. — The allocation of savings that result from sources funded under the special funds statutes should be distributed in accordance with the specific statutory provisions creating the particular special fund; however, in those allocations where the special fund is silent as to proceeds of this type, this section is controlling and the savings must be distributed to the General Fund. See opinion of Attorney General to T. Brooks Skinner, Jr., General Counsel, N. C. Department of Administration, 2001 N.C. AG LEXIS 21 (6/5/2001).

§ 143-345.23. Suggestion and review process; role of agency coordinator and agency evaluator.

(a) The process for a State employee or team of State employees to submit a cost-saving or revenue-increasing proposal shall begin with the employee or team of employees submitting the suggestion or innovation to an agency coordinator. The agency coordinator, in conjunction with an agency evaluator, shall review the suggestion or innovation for submission to the State Review Committee established in G.S. 143-345.24.

(b) An agency coordinator shall be appointed by the head of each participating agency to serve as liaison between the agency, the suggester, the agency evaluator, and the SEIBP office. The duties of the agency coordinator shall include:

(1) Serving as an information source and maintaining sufficient forms necessary to submit suggestions.
(2) Presenting, in conjunction with the agency evaluator, the recommendation for an award to the State Review Committee.
(3) Working in conjunction with the agency evaluator to process a particular suggestion or innovation within 180 days, except when there are extenuating circumstances.

An agency may have more than one coordinator if required to provide sufficient services to State employees.

(c) An agency evaluator shall be designated by the management of the implementing agency to evaluate one or more suggestions. The duties of an agency evaluator shall include:

(1) Receiving from the agency coordinator and reviewing within 90 days, when possible, the feasibility and effectiveness of cost-saving or revenue-increasing measures suggested by State employees.
(2) Being knowledgeable of the subject program, activity, or service.
(3) Determining, in conjunction with the agency fiscal officer, the budgetary impact of a suggestion or innovation.
(4) Judging impartially both the positive and negative effects of a suggestion or innovation on the current functions of the subject program, activity, or service.

(d) The executive secretary shall be responsible for general oversight and coordination of the State Employee Incentive Bonus Program. The State coordinator shall be an employee of the Department of Administration. The State coordinator shall be responsible for day-to-day SEIBP program management and administration of the technical aspects of the program. The State coordinator shall be an ex officio voting member of the State Review Committee. (1997-513, s. 2; 1998-181, s. 7; 2001-424, s. 7.2(e).)

Editor's Note. — The number of this section was assigned by the Revisor of Statutes, the number in Session Laws 1997-513, s. 2, having been 143-345.13.

§ 143-345.24. Incentive Bonus Review Committee.

(a) The Incentive Bonus Review Committee, hereinafter "State Review Committee", shall consist of nine members, as follows:

(1) The State Coordinator.
(2) A representative of the Office of State Budget and Management.
(3) A representative of the Office of State Personnel.
(4) A representative of The University of North Carolina.
(5) A representative of the Department of Justice.
(6) A representative of the Department of Labor.

(7) One State employee appointed by the Speaker of the House of Representatives.

(8) One State employee appointed by the President Pro Tempore of the Senate.

(9) One State employee appointed by the Governor upon the recommendation of the State Employees Association of North Carolina, Inc.

(b) The duties of the State Review Committee shall include:

(1) Receiving from the various agency coordinators recommendations on suggestions and innovations.

(2) Determining the impact of a suggestion or innovation on State government services by judging the monetary savings, increased revenues, or improved quality of services generated by a suggestion or innovation.

(3) Ensuring that the State employee incentive bonus process does not result in a negative impact on services provided to taxpayers by State government.

(c) All administrative, management, clerical, and other functions and services required by the State Review Committee shall be supplied by the Department of Administration. The Department of Administration and the State Review Committee shall report annually to the Joint Legislative Commission on Governmental Operations on the administration of the State Employee Incentive Bonus Program. (1997-513, s. 2; 2000-140, s. 93.1(a); 2001-424, ss. 7.2(f), 12.2(b).)

Editor's Note. — The number of this section was assigned by the Revisor of Statutes, the number in Session Laws 1997-513, s. 2, having been 143-345.14.

§ 143-345.25. Innovations deemed property of the State; effect of decisions regarding bonuses.

(a) All suggestions or innovations submitted by State employees pursuant to this Article are the property of the State, and all related intellectual property rights shall be assigned to the State. By January 1, 2002, the Office of State Personnel shall establish a policy regarding intellectual property rights that arise from the SEIBP.

(b) Decisions regarding the award of bonuses by the agency coordinator and the State Review Committee are final and are not subject to review under the contested case procedures of Chapter 150B of the General Statutes. (1997-513, s. 2; 2001-424, s. 7.2(g).)

Editor's Note. — The number of this section was assigned by the Revisor of Statutes, the number in Session Laws 1997-513, s. 2, having been 143-345.15.

§ 143-350. Definitions.

As used in this Article:

(1) "Commission" means the Environmental Management Commission.

(2) "Department" means the Department of Environment and Natural Resources. (1959, c. 779, s. 1; 1967, c. 892, s. 12; 1973, c. 1262, s. 23; 1977, c. 771, s. 4; 1989, c. 727, s. 218(117); 1989 (Reg. Sess., 1990), c. 1004, s. 18; c. 1024, s. 34; 1991, c. 342, s. 15(a); 1997-443, s. 11A.119(a).)

Editor's Note. — As to creation of the Department of Environment and Natural Resources, see G.S. 143-279.1.

State Government Reorganization. — The former Board of Water and Air Resources was transferred to the Department of Natural and Economic Resources (now the Department of Environment and Natural Resources) by former G.S. 143A-120, enacted by Session Laws 1971, c. 864, and repealed by Session Laws 1973, c. 1262, s. 86.

The former Department of Water and Air Resources was transferred to the Department of Natural and Economic Resources (now the Department of Environment and Natural Resources) by former G.S. 143A-119, enacted by Session Laws 1971, c. 864, and repealed by Session Laws 1973, c. 1262, s. 86.

Legal Periodicals. — For article, "Introduction to Water Use Law in North Carolina," see 46 N.C.L. Rev. 1 (1967).

§ 143-351: Repealed by Session Laws 1967, c. 892, s. 2.

§ 143-352. Purpose of Article.

The purpose of this Article is to create a State agency to coordinate the State's water resource activities; to devise plans and policies and to perform the research and administrative functions necessary for a more beneficial use of the water resources of the State, in order to insure improvements in the methods of conserving, developing and using those resources. (1959, c. 779, s. 1.)

§ 143-353: Repealed by Session Laws 1967, c. 892, s. 2.

§ 143-354. Ordinary powers and duties of the Commission.

(a) Powers and Duties in General. — Except as otherwise specified in this Article, the powers and duties of the Commission shall be as follows:

(1) The Commission shall carry out a program of planning and education concerning the most beneficial long-range conservation and use of the water resources of the State. It shall investigate the long-range needs of counties and municipalities and other local governments for water supply storage available in federal projects.

(2) The Commission shall advise the Governor as to how the State's present water research activities might be coordinated.

(3) The Commission, based on information available, shall notify any municipality or other governmental unit of potential water shortages or emergencies foreseen by the Commission affecting the water supply of such municipality or unit together with the Commission's recommendations for restricting and conserving the use of water or increasing the water supply by or in such municipality or unit. Failure reasonably to follow such recommendations shall make such municipality or other governmental unit ineligible to receive any emergency diversion of waters as hereinafter provided.

(4) The Commission is authorized to call upon the Attorney General for such legal advice as is necessary to the functioning of the Commission.

(5) Recognizing the complexity and difficulties attendant upon the recommendation of the General Assembly of fair and beneficial legislation affecting the use and conservation of water, the Commission shall solicit from the various water interests of the State their suggestions thereon.

(6) The Commission may hold public hearings for the purpose of obtaining evidence and information and permitting discussion relative to water resources legislation and shall have the power to subpoena witnesses therefor.

(7) All recommendations for proposed legislation made by the Commission shall be available to the public.

(8) The Commission shall adopt such rules and regulations as may be necessary to carry out the purposes of this Article.

(9) Any member of the Commission or any person authorized by it, shall have the right to enter upon any private or public lands or waters for the purpose of making investigations and studies reasonably necessary in the gathering of facts concerning streams and watersheds, subject to responsibility for any damage done to property entered.

(10) The Commission is authorized to provide to federal agencies the required assurances, subject to availability of appropriations by the

General Assembly or applicable funds or assurances from local governments, of nonfederal cooperation for water supply storage and other congressionally authorized purposes in federal projects.

(11) The Commission is authorized to assign or transfer to any county or municipality or other local government having a need for water supply storage in federal projects any interest held by the State in such storage, upon the assumption of repayment obligation therefor, or compensation to the State, by such local government. The Commission shall also have the authority to reassign or transfer interests in such storage held by local governments, if indicated by the investigation of needs made pursuant to subsection (a)(1) of this section, subject to equitable adjustment of financial responsibility.

(b) Declaration of Water Emergency. — Upon the request of the governing body of a county, city or town the Commission shall conduct an investigation to determine whether the needs of human consumption, necessary sanitation and public safety require emergency action as hereinafter provided. Upon making such determination, the Commission shall conduct a public hearing on the question of the source of relief water after three days' written notice of such hearing has been given to any persons having the right to the immediate use of water at the point from which such water is proposed to be diverted. After determining the source of such relief water the Commission shall then notify the Governor and he shall have the authority to declare a water emergency in an area including said county, city or town and the source or sources of water available for the relief hereinafter provided; provided, however, that no emergency period shall exceed 30 days but the Governor may declare any number of successive emergencies upon request of the Commission.

(c) Water Emergency Powers and Duties of the Commission. — Whenever, pursuant to this Article, the Governor has declared the existence of a water emergency within a particular area of the State, the Commission shall have the following duties and powers to be exercised only within said area and only during such time as the Governor has, pursuant to this Article, designated as the period of emergency:

(1) To authorize any county, city or town in which an emergency has been declared to divert water in the emergency area sufficient to take care of the needs of human consumption, necessary sanitation and public safety. Provided, however, there shall be no diversion of waters from any stream or body of water pursuant to this Article unless the person controlling the water or sewerage system into which such waters are diverted shall first have limited and restricted the use of water in such water or sewerage system to human consumption, necessary sanitation and public safety and shall have effectively enforced such restrictions. Diversion of waters shall cease upon the termination of the water emergency or upon the finding of the Commission that the person controlling the water or sewerage system using diverted waters has failed to enforce effectively the restrictions on use to human consumption and necessary sanitation and public safety. In the event waters are diverted pursuant to this Article, there shall be no diversion to the same person in any subsequent year unless the Commission finds as fact from evidence presented that the person controlling the water or sewerage system has made reasonable plans and acted with due diligence pursuant thereto to eliminate future emergencies by adequately enlarging such person's own water supply.

(2) To make such reasonable rules and regulations governing the conservation and use of diverted waters within the emergency area as shall be necessary for the health and safety of the persons who reside within the emergency area; and the violation of such rules and

regulations during the period of the emergency shall constitute a Class 1 misdemeanor; provided, however, that before such rules and regulations shall become effective, they shall be published in not less than two consecutive issues of not less than one newspaper generally circulated in the emergency area.

(d) Temporary Rights-of-Way. — When any diversion of waters is ordered by the Commission pursuant to this Article, the person controlling the water or sewerage system into which such waters are diverted is hereby empowered to lay necessary temporary water lines for the period of such emergency across, under or above any and all properties to connect the emergency water supply to an intake of said water or sewerage system. The route of such water lines shall be prescribed by the Commission.

(e) Compensation for Water Allocated during Water Emergency and Temporary Rights-of-Way. — Whenever the Commission, pursuant to this Article has ordered any diversion of waters, the person controlling the waters or sewerage system into which such waters are diverted shall be liable to all persons suffering any loss or damage caused by or resulting from the diversion of such waters or caused by or resulting from the laying of temporary water lines to effectuate such diversion. The Commission, before ordering such diversion, shall require that the person against whom liability attaches hereunder to post bond with a surety approved by the Commission in an amount determined by the Commission and conditioned upon the payment of such loss or damage. (1959, c. 779, s. 1; 1967, c. 1071, ss. 1, 2; 1973, c. 1262, s. 23; 1991, c. 342, s. 15(b); 1993, c. 539, s. 1033; 1994, Ex. Sess., c. 24, s. 14(c).)

Cross References. — As to the powers of the Environmental Management Commission, G.S. 143-215.3.

Editor's Note. — Session Laws 2002-167, s. 3(a) to (c), provides: "(a) Pursuant to subdivisions (1) and (8) of G.S. 143-354(a), the Environmental Management Commission shall develop and implement rules governing water conservation and water reuse during drought and water emergency situations. The rules shall establish minimum standards and practices for water conservation and water reuse for all of the following classes of water users:

"(1) Publicly owned and privately owned water supply systems.

"(2) State agencies.

"(3) Local governments.

"(4) Business and industrial users of water.

"(5) Agricultural and horticultural users of water.

"(b) In developing the rules authorized by subsection (a) of this section, the Environmental Management Commission shall consult with representatives of water users and advocacy groups listed in subsection (a) of Section 5 of this act.

"(c) Rules adopted pursuant to subsection (a) of this section shall not supercede or modify existing rules governing water used in the generation of electricity. This section shall not be construed to authorize the Commission to adopt temporary rules. The Commission shall adopt permanent rules so that the rules will become effective following legislative review pursuant to G.S. 150B-21.3(b) by the 2005 Regular Session of the General Assembly." As to study to evaluate water conservation measures being implemented in the state, see the editor's note under G.S. 143-355.

§ 143-355. Powers and duties of the Department.

(a) Repealed by Session Laws 1989, c. 603, s. 1.

(b) Functions to Be Performed. — The Department shall:

(1) Request the North Carolina Congressional Delegation to apply to the Congress of the United States whenever deemed necessary for appropriations for protecting and improving any harbor or waterway in the State and for accomplishing needed flood control, shore-erosion prevention, and water-resources development for water supply, water quality control, and other purposes.

(2) Initiate, plan, and execute a long-range program for the preservation, development and improvement of rivers, harbors, and inland ports, and to promote the public interest therein.
(3) Prepare and recommend to the Governor and the General Assembly any legislation which may be deemed proper for the preservation and improvement of rivers, harbors, dredging of small inlets, provision for safe harbor facilities, and public tidewaters of the State.
(4) Make engineering studies, hydraulic computations, hydrographic surveys, and reports regarding shore-erosion projects, dams, reservoirs, and river-channel improvements; to develop, for budget and planning purposes, estimates of the costs of proposed new projects; to prepare bidding documents, plans, and specifications for harbor, coastal, and river projects, and to inspect materials, workmanship, and practices of contractors to assure compliance with plans and specifications.
(5) Cooperate with the United States Army Corps of Engineers in causing to be removed any wrecked, sunken or abandoned vessel or unauthorized obstructions and encroachments in public harbors, channels, waterways, and tidewaters of the State.
(6) Cooperate with the United States Coast Guard in marking out and establishing harbor lines and in placing buoys and structures for marking navigable channels.
(7) Cooperate with federal and interstate agencies in planning and developing water-resource projects for navigation, flood control, hurricane protection, shore-erosion prevention, and other purposes.
(8) Provide professional advice to public and private agencies, and to citizens of the State, on matters relating to tidewater development, river works, and watershed development.
(9) Discuss with federal, State, and municipal officials and other interested persons a program of development of rivers, harbors, and related resources.
(10) Make investigations and render reports requested by the Governor and the General Assembly.
(11) Participate in activity of the National Rivers and Harbors Congress, the American Shore and Beach Preservation Association, the American Watershed Council, the American Water Works Association, the American Society of Civil Engineers, the Council of State Governments, the Conservation Foundation, and other national agencies concerned with conservation and development of water resources.
(12) Prepare and maintain climatological and water-resources records and files as a source of information easily accessible to the citizens of the State and to the public generally.
(13) Formulate and administer a program of dune rebuilding, hurricane protection, and shore-erosion prevention.
(14) Include in the biennial budget the cost of performing the additional functions indicated above.
(15) Initiate, plan, study, and execute a long-range floodplain management program for the promotion of health, safety, and welfare of the public. In carrying out the purposes of this subsection, the primary responsibility of floodplain management rests with the local levels of government and it is, therefore, the policy of this State and of this Department to provide guidance, coordination, and other means of assistance, along with the other agencies of this State and with the local levels of government, to effectuate adequate floodplain management programs.

(b1) The Department is directed to pursue an active educational program of floodplain management measures, to include in each biennial report a state-

ment of flood damages, location where floodplain management is desirable, and suggested legislation, if deemed desirable, and within its capacities to provide advice and assistance to State agencies and local levels of government.

(c) Repealed by Session Laws 1961, c. 315.

(d) Investigation of Coasts, Ports and Waterways of State. — The Department is designated as the official State agency to investigate and cause investigations to be made of the coasts, ports and waterways of North Carolina and to cooperate with agencies of the federal and State government and other political subdivisions in making such investigations. The provisions of this section shall not be construed as in any way interfering with the powers and duties of the Utilities Commission, relating to the acquiring of rights-of-way for the Intra-Coastal Waterway; or to authorize the Department to represent the State in connection with such duties.

(e) Repealed by Session Laws 1998-129, s. 1, effective January 1, 2000.

(f) Samples of Cuttings to Be Furnished the Department When Requested. — Every person, firm or corporation engaged in the business of drilling, boring, coring or constructing wells in any manner by the use of power machinery shall furnish the Department samples of cuttings from such depths as the Department may require from all wells constructed by such person, firm or corporation, when such samples are requested by the Department. The Department shall bear the expense of delivering such samples. The Department shall, after an analysis of the samples submitted, furnish a copy of such analysis to the owner of the property on which the well was constructed; the Department shall not report the results of any such analysis to any other person whatsoever until the person legally authorized to do so authorizes in writing the release of the results of the analysis.

(g) Reports of Each Well Required. — Every person, firm or corporation engaged in the business of drilling, boring, coring, or constructing wells with power machinery within the State of North Carolina shall, within 30 days of the completion of each well, report to the Department on forms furnished by the Department the location, size, depth, number of feet of casing used, method of finishing, and formation log information of each such well. In addition such person, firm or corporation shall report any tests made of each such well including the method of testing, length of test, draw-down in feet and yield in gallons per minute. The person, firm or corporation making such report to the Department shall at the time such report is made also furnish a copy thereof to the owner of the property on which the well was constructed.

(h) Drilling for Petroleum and Minerals Excepted. — The provisions of this Article shall not apply to drillings for petroleum and minerals.

(i) Penalty for Violation. — Any person violating the provisions of subsections (e), (f) and (g) of G.S. 143-355 shall be guilty of a Class 3 misdemeanor and, upon conviction, shall only be punished by a fine of fifty dollars ($50.00). Each violation shall constitute a separate offense.

(j) Miscellaneous Duties. — The Department shall make investigations of water supplies and water powers, prepare and maintain a general inventory of the water resources of the State and take such measures as it may consider necessary to promote their development; and to supervise, guide, and control the performance of the duties set forth in subsection (b) of this section and to hold hearings with regard thereto. In connection with administration of the well-drilling law the Department may prepare analyses of well cuttings for mineral and petroleum content.

(k) Water Use Information. — Any person using, withdrawing, diverting or obtaining water from surface streams, lakes and underground water sources shall, upon the request of the Department, file a monthly report with the Department showing the amount of water used, withdrawn, diverted or obtained from such sources. Such report shall be on a form supplied by the

Department and shall show the identification of the water well or other withdrawal facility, location, withdrawal rate (measured in gallons per minute), and total gallons withdrawn during the month. Reports required to be filed under this subsection shall be filed on or before the fifteenth day of the month succeeding the month during which the using, withdrawing, diverting or obtaining water required to be reported occurred. This subsection does not apply to withdrawals or uses by individuals or families for household, livestock, or gardens. All reports required under this subsection are provided solely for the purpose of the Department. Within the meaning of this subsection the term "person" means any and all persons, including individuals, firms, partnerships, associations, public or private institutions, municipalities or political subdivisions, governmental agencies, and private or public corporations organized or existing under the laws of this State or any other state or country.

(*l*) For purposes of this subsection, "community water system" means a community water system, as defined in G.S. 130A-313(10), that regularly serves 1,000 or more service connections or 3,000 or more individuals. Each unit of local government that provides public water service or that plans to provide public water service and each community water system shall, either individually or together with other units of local government and community water systems, prepare a local water supply plan and submit it to the Department. The Department shall provide technical assistance with the preparation of plans to units of local government and community water systems upon request and to the extent that the Department has resources available to provide assistance. At a minimum, each unit of local government and community water system shall include in local water supply plans all information that is readily available to it. Plans shall include present and projected population, industrial development, and water use within the service area; present and future water supplies; an estimate of the technical assistance that may be needed at the local level to address projected water needs; current and future water conservation and water reuse programs; a description of how the local government or community water system will respond to drought and other water shortage emergencies and continue to meet essential public water supply needs during the emergency; and any other related information as the Department may require in the preparation of a State water supply plan. Local plans shall be revised to reflect changes in relevant data and projections at least once each five years unless the Department requests more frequent revisions. The revised plan shall include the current and anticipated reliance by the local government unit or community water system on surface water transfers as defined by G.S. 143-215.22G. Local plans and revised plans shall be submitted to the Department once they have been approved by each unit of local government and community water system that participated in the preparation of the plan.

(m) In order to assure the availability of adequate supplies of good quality water to protect the public health and to support desirable economic growth, the Department shall develop a State water supply plan. The State water supply plan shall include the information and projections required to be included in local plans, a summary of water conservation and water reuse programs described in local plans, a summary of the technical assistance needs indicated by local plans, and shall indicate the extent to which the various local plans are compatible. The State plan shall identify potential conflicts among the various local plans and ways in which local water supply programs could be better coordinated.

(n) The Department of Environment and Natural Resources shall report to the Environmental Review Commission on the implementation of this section and the development of the State water supply plan on or before 1 September

of each year. (1959, c. 779, s. 3; 1961, c. 315; 1967, c. 1069, ss. 1-3; c. 1070, s. 1; c. 1071, ss. 3, 4; c. 1117, s. 1; 1973, c. 1262, ss. 23, 28, 86; 1977, c. 771, s. 4; 1981, c. 514, ss. 2, 3; 1989, c. 603, s. 1; 1993, c. 513, s. 7(a); c. 539, s. 1034; 1994, Ex. Sess., c. 24, s. 14(c); 1995, c. 509, s. 85; 1997-358, ss. 5, 6; 1998-129, s. 1; 1998-168, s. 5; 2001-452, s. 2.7; 2002-167, ss. 1, 2; 2003-387, s. 1.)

Editor's Note. — Session Laws 2001-452, s. 1.2, effective October 28, 2001, repealed Session Laws 1989, c. 603, s. 3, as amended by Session Laws 1989, c. 727, s. 222, and Session Laws 1991 (Reg. Sess., 1992), c. 990, s. 3, which had provided for the Department of Environment, Health, and Natural Resources [now the Department of Environment and Natural Resources] to report on an annual basis to the Environmental Review Commission as to progress in the implementation of the 1989 act."

Session Laws 1998-168, s. 7 provides that by 1 January 1999, each unit of local government that provides public water service shall prepare a local water supply plan and submit it to the Department in compliance with G.S. 143-355(l) and by 1 January 2000, the Department of Environment and Natural Resources shall develop a State water supply plan in compliance with G.S. 143-355(m). It further provides that the Department shall identify in the plan any area in the State that appears to face existing or future water shortages, conflicts among water users, or depletion of water resources and shall review the plan at least every five years thereafter to determine whether any other areas are facing these problems within a 10-year period from the date of review.

Session Laws 2002-167, s. 5(a), (b), provides: "(a) The Department of Environment and Natural Resources shall evaluate water conservation measures being implemented in the State and identify incentive programs and other voluntary programs that can help foster water conservation and water reuse. In conducting its study, the Department shall specifically evaluate water conservation measures being implemented or advocated by the following:

"(1) Publicly owned and privately owned water supply systems.

"(2) State agencies.

"(3) Local governments.

"(4) Business and industrial users of water.

"(5) Environmental protection and natural resource advocacy groups.

"(6) Electric utilities.

"(7) Agricultural and horticultural users of water.

"(8) Residential users of water.

"(b) The Department shall submit an interim report no later than 15 March 2003, and shall submit a final report no later than 15 February 2004, as to its findings and recommendations to the Environmental Review Commission and the Environmental Management Commission."

Session Laws 2003-387, s. 3, provides in part: "The first local water supply plans prepared by community water systems pursuant to G.S. 143-355(*l*), as amended by Section 1 of this act, are due on or before 1 January 2004."

Effect of Amendments. — Session Laws 2002-167, ss. 1 and 2, effective October 23, 2002, inserted "current and future water conservation and water reuse programs" in the fourth sentence of subsection (*l*) and inserted "a summary of water conservation and water reuse programs described in local plans" in the second sentence of subsection (m).

Session Laws 2003-387, s. 1, effective August 7, 2003, rewrote subsection (*l*).

§ 143-355.1. Drought Management Advisory Council; drought advisories.

(a) The Department shall establish a Drought Management Advisory Council. The purposes of the Council are:

(1) To improve coordination among local, State, and federal agencies; public water systems, as defined in G.S. 130A-313(10); and water users to improve the management and mitigation of the harmful effects of drought.

(2) To provide consistent and accurate information to the public about drought conditions.

(b) The Department shall invite each of the following organizations to designate a representative to serve on the Council:

(1) North Carolina Cooperative Extension Service.

(2) State Climate Office at North Carolina State University.

(3) Public Staff of the Utilities Commission.

(4) Wildlife Resources Commission.

(5) Department of Agriculture and Consumer Services.
(6) Department of Commerce.
(7) Department of Crime Control and Public Safety.
(8) National Weather Service of the National Oceanic and Atmospheric Administration of the United States Department of Commerce.
(9) United States Geological Survey of the United States Department of the Interior.
(10) United States Army Corps of Engineers.
(11) United States Department of Agriculture.
(12) Federal Emergency Management Agency of the United States Department of Homeland Security.

(c) The Department shall also invite other agencies and organizations that represent water users, including local governments, agriculture, agribusiness, forestry, manufacturing, and others as appropriate, to designate a representative to serve on the Council or to participate in the work of the Council with respect to particular drought related issues.

(d) The Department shall designate an employee of the Department to serve as Chair of the Council. The Council shall meet at least once in each calendar year in order to maintain appropriate agency readiness and participation. In addition, the Council shall meet on the call of the Chair to respond to drought conditions. The provisions of Article 33C of this Chapter apply to meetings of the Council.

(e) In order to provide accurate and consistent information to assist local governments and other water users in taking appropriate drought response actions, the Council may issue drought advisories that designate:
(1) Specific areas of the State in which drought conditions are impending.
(2) Specific areas of the State that are suffering from drought conditions.
(3) The level of severity of drought conditions.

(f) In making a determination of any of the drought designations described in subsection (e) of this section, the Council shall consider stream flows, ground water levels, the amount of water stored in reservoirs, weather forecasts, the time of year, and other factors that are relevant to determining the location and severity of drought conditions. (2003-387, s. 2.)

Editor's Note. — Session Laws 2003-387, s. 3, made this section effective August 7, 2003.

§§ 143-356, 143-357: Repealed by Session Laws 1983, c. 222, ss. 1, 2.

§ 143-358. Cooperation of State officials and agencies.

All State agencies and officials shall cooperate with and assist the Commission in enforcing and carrying out the provisions of this Article and rules adopted by the Commission under this Article. (1959, c. 779, s. 6; 1973, c. 1262, s. 23; 1991, c. 342, s. 15(b); 1991 (Reg. Sess., 1992), c. 890, s. 19.)

Editor's Note. — Session Laws 2002-167, s. 4, provides: "There is hereby established a goal to reduce water consumption by State agencies by at least 10 percent (10%). As used in this section, the term "State agencies" includes all agencies of the executive branch of the government of North Carolina, the General Assembly, the General Court of Justice, and The University of North Carolina. For State agencies that purchase water or that otherwise have reliable records of their water consumption for the 2001-2002 fiscal year, the goal shall apply to the consumption of water during the 2002-2003 fiscal year as compared to water consumed during the 2001-2002 fiscal year. State agencies that do not have reliable records of their water consumption during the 2001-2002 fiscal year shall (i) endeavor to reduce water consumption to the maximum extent possible during the 2002-2003 fiscal year, (ii) maintain records of their water consumption during the 2002-2003 fiscal year, and (iii) determine their progress

toward achieving the goal on the basis of reductions in water consumed during the 2003-2004 fiscal year."

§ 143-359: Repealed by Session Laws 2001-452, s. 1.1, effective October 28, 2001.

Article 47.

Promotion of Arts.

§ 143-403. "Arts" defined.

The term "arts" includes, but is not limited to: music, dance, drama, creative writing, architecture and allied fields, painting, sculpture, photography, crafts, television, radio, and the execution and exhibition of such major art forms. (1967, c. 164, s. 1; 1973, c. 476, s. 79.)

Cross References. — As to the North Carolina Arts Council, see G.S. 143B-87 and 143B-88.

§§ 143-404, 143-405: Repealed by Session Laws 1973, c. 476, s. 79.

§ 143-406. Duties of Department of Cultural Resources.

The Department of Cultural Resources shall take action to carry out the following purposes as funds and staff permit:

(1) Study, collect, maintain, and otherwise disseminate factual data and pertinent information relative to the arts;

(2) Assist local organizations and the community at large with needs, resources and opportunities in the arts;

(3) Serve as an agency through which various public and nonpublic organizations concerned with the arts can exchange information, coordinate programs and stimulate joint endeavors;

(4) Identify research needs, encourage research and assist in obtaining funds for research;

(5) Assist in bringing the highest obtainable quality in the arts to the State; promote the maximum opportunity for the people to experience, enjoy, and profit from those arts.

The Department of Cultural Resources shall, in addition to such other recommendations, studies and plans as it may submit from time to time, submit a biennial report of progress to the Governor, and thus, to the General Assembly. (1967, c. 164, s. 4; 1973, c. 476, s. 79.)

§ 143-407. Appropriations; funds.

In addition to the appropriations out of the general fund of the State, the Department may accept gifts, bequests, devises, matching funds, or other considerations for use in promoting the arts. (1967, c. 164, s. 5; 1973, c. 476, s. 79.)

§ 143-407.1. Composer laureate.

(a) The Governor of North Carolina may appoint a distinguished living composer as "Composer-Laureate for the State of North Carolina."

(b) Any person appointed "Composer-Laureate for the State of North Carolina" shall be appointed for life but may voluntarily resign at any time. (1991, c. 56, ss. 1, 2.)

Editor's Note. — The enacting clause of this section reads: "Whereas music has had an important place in North Carolina culture; and Whereas this State has produced many com-

posers of music of lasting value; and

Whereas, there is a need to recognize the contributions of these composers; Now, therefore."

The State also has a poet laureate, appointed under the authority of Session Laws 1935, Joint Resolutions 60, effective May 11, 1935, which reads: "That the Governor of this State be and he is hereby authorized and empowered to name and appoint some outstanding and distinguished man of letters as Poet-Laureate for the State of North Carolina."

Resolutions are not normally codified.

§ 143-408: Repealed by Session Laws 1973, c. 476, s. 79.

Article 47A.

Art Works in State Buildings.

§§ 143-408.1 through 143-408.7: Repealed by Session Laws 1995, c. 324, s. 12.2.

Article 48.

Executive Mansion.

§ 143-409: Repealed by Session Laws 1973, c. 476, s. 67.

§ 143-410. Purpose.

The purpose of the Department of Cultural Resources shall be:

(1) To preserve and maintain the Executive Mansion, located at 200 North Blount Street, Raleigh, North Carolina, as a structure having historical significance and value to the State of North Carolina;

(2) To improve the furnishing of the Executive Mansion by encouraging gifts and objects of art, furniture and articles which may have historical value, and to approve major changes in the furnishings of the Mansion;

(3) To recommend to the Department of Administration any major renovations to the Executive Mansion which the Department of Cultural Resources deems necessary to preserve and maintain the structure;

(4) To keep a complete list of all gifts and articles received, together with their history and value; and

(5) To publicize work of the Executive Mansion Fine Arts Committee. (1967, c. 273, s. 2; 1973, c. 476, s. 67.)

Cross References. — As to the Executive Mansion Fine Arts Committee, see G.S. 143B-79 and 143B-80.

§ 143-411. Powers of Department of Cultural Resources.

The Department of Cultural Resources is hereby empowered on behalf of the State of North Carolina to receive gifts, contributions of money and objects of art consistent with the purpose for which the Department is created. Title to all gifts, articles and moneys received by the Department shall be vested in the State of North Carolina and shall remain in the custody and control of the Department. The Department is authorized to accept loans of furniture and other objects as, in its discretion, it deems suitable. The Department is empowered to employ clerical assistance on such basis as it may deem reasonable. Provided, however, that the salary of such person shall be paid out of funds the Department has received in the conduct of its work, and it is specifically provided that no other funds belonging to the State of North Carolina shall be used for this purpose. (1967, c. 273, s. 3; 1973, c. 476, s. 67.)

§§ 143-412 through 143-414: Repealed by Session Laws 1973, c. 476, s. 67.

§ 143-415. Authority, etc., of Department of Administration not affected.

This Article shall not be construed as divesting the Department of Administration of any powers, duties and authority relating to the budget or the operation and maintenance of the Executive Mansion. (1967, c. 273, s. 7.)

Article 49.

North Carolina Human Relations Commission.

§§ 143-416 through 143-422: Repealed by Session Laws 1975, c. 879, s. 36.

Cross References. — For present provisions as to the North Carolina Human Relations Commission, see G.S. 143B-391 and 143B-392.

Article 49A.

Equal Employment Practices.

§ 143-422.1. Short title.

This Article shall be known and may be cited as the Equal Employment Practices Act. (1977, c. 726, s. 1.)

Legal Periodicals. — For survey of 1977 law on employment regulation, see 56 N.C.L. Rev. 854 (1978).

For article, "North Carolina Employment Law After *Coman*: Reaffirming Basic Rights in the Workplace," see 24 Wake Forest L. Rev. 905 (1989).

For note, "Coman v. Thomas Manufacturing Co.: Recognizing a Public Policy Exception to the At-Will Employment Doctrine," see 68 N.C.L. Rev. 1178 (1990).

For article, "Wrongful Discharge and the North Carolina Equal Employment Practices Act: The Localization of Federal Discrimination Law", see 21 N.C. Cent. L.J. 54 (1995).

CASE NOTES

This Article does not prohibit discrimination within the meaning of 29 U.S.C. § 633(b). It merely declares that such discrimination is against the "public policy" of North Carolina. Spagnuolo v. Whirlpool Corp., 467 F. Supp. 364 (W.D.N.C. 1979), aff'd in part and rev'd in part, 641 F.2d 1109 (4th Cir. 1981).

There is no North Carolina statute analogous to Title VII. Harrison v. Edison Bros. Apparel Stores, 924 F.2d 530 (4th Cir. 1991).

Private Right of Action. — The North Carolina Equal Employment Practices Act does not provide a plaintiff with a private right of action for intentional discrimination or retaliatory discharge. Mullis v. Mechanics & Farmers Bank, 994 F. Supp. 680 (M.D.N.C. 1997); Ridenhour v. Concord Screen Printers, Inc., 40 F. Supp. 2d 598 (M.D.N.C. 1999).

Although the North Carolina Equal Employment Practices Act (NCEEPA), G.S. 143-422.1 et seq., had been applied to common law claims by North Carolina courts, the courts had not recognized the tort of wrongful constructive discharge, and thus, the employee's claim for wrongful discharge under the NCEEPA was dismissed. Helmstetler v. Borden Chem., Inc., — F. Supp. 2d —, 2002 U.S. Dist. LEXIS 13795 (M.D.N.C. June 13, 2002).

Former employee's racial discrimination claim under the North Carolina Equal Employment Practices Act was dismissed by the United States District Court for the Western District of North Carolina, Asheville Division, because the Act did not provide for a private right of action. Hazel v. Med. Action Indus., Inc., 216 F. Supp. 2d 541, 2002 U.S. Dist. LEXIS 16072 (W.D.N.C. 2002).

There is no outlined private right of action under the North Carolina Equal Employment Practices Act; however, plaintiffs can properly allege a wrongful discharge in violation of public policy, with that public policy being the anti-discrimination policy of the Act. Jackson v. Blue Dolphin Communications of N.C., L.L.C., 226 F. Supp. 2d 785, 2002 U.S. Dist. LEXIS 19337 (W.D.N.C. 2002).

When the State Legislature passed legislation allowing a county to adopt its own ordinance prohibiting and regulating employment discrimination, the legislature violated N.C. Const. art. II, § 24(1)(j), as there was no rational basis for treating this county differently from other counties in the state, and the ordinance created substantive and procedural rights different from those applicable to other counties under N.C. Gen. Stat. § 143-422.1 et seq,, and 42 U.S.C.S. § 2000e. Williams v. Blue Cross Blue Shield, — N.C. —, — S.E.2d —, 2003 N.C. LEXIS 428 (May 2, 2003).

In an action in which an employee filed suit against her employer alleging claims of race discrimination and retaliation in violation of North Carolina's Equal Employment Practices Act (NCEEPA), G.S. 143-422.1 et seq., the court found that because the NCEEPA did not provide a private right of action, the employee could not maintain a claim under it. Addison v. Wal-Mart Stores, Inc., — F. Supp. 2d —, 2003 U.S. Dist. LEXIS 10778 (M.D.N.C. June 23, 2003).

Plaintiff in Federal Age Discrimination Suit Need Not Seek Relief from Human Relations Council (now Commission) as Jurisdictional Prerequisite. — Recourse by a plaintiff to the North Carolina Human Relations Council (now Commission) is not a jurisdictional prerequisite to filing a suit in federal court under the Age Discrimination in Employment Act, 29 U.S.C. § 201 through 219, since this Article is not "a law prohibiting discrimination in employment because of age" and the Council (now Commission) is not a "state authority established or authorized to grant or seek relief from such discriminatory practice" within the meaning of 29 U.S.C. § 633(b). Spagnuolo v. Whirlpool Corp., 467 F. Supp. 364 (W.D.N.C. 1979), aff'd in part and rev'd in part, 641 F.2d 1109 (4th Cir. 1981).

Cited in Russell v. Buchanan, 129 N.C. App. 519, 500 S.E.2d 728 (1998), cert. denied, 348 N.C. 501, 510 S.E.2d 655 (1998); Brewer v. Cabarrus Plastics, Inc., 130 N.C. App. 681, 504 S.E.2d 580 (1998); Lemons v. US Air Group, Inc., 43 F. Supp. 2d 571 (M.D.N.C. 1999); Buser v. Southern Food Serv., 73 F. Supp. 2d 556 (M.D.N.C. 1999); Wells v. N.C. Dep't of Corr., 152 N.C. App. 307, 567 S.E.2d 803, 2002 N.C. App. LEXIS 929 (2002); Arbia v. Owens-Illinois, Inc., — F. Supp. 2d —, 2003 U.S. Dist. LEXIS 9429 (M.D.N.C. June 4, 2003).

§ 143-422.2. Legislative declaration.

It is the public policy of this State to protect and safeguard the right and opportunity of all persons to seek, obtain and hold employment without discrimination or abridgement on account of race, religion, color, national origin, age, sex or handicap by employers which regularly employ 15 or more employees.

It is recognized that the practice of denying employment opportunity and discriminating in the terms of employment foments domestic strife and unrest, deprives the State of the fullest utilization of its capacities for advancement and development, and substantially and adversely affects the interests of employees, employers, and the public in general. (1977, c. 726, s. 1.)

Legal Periodicals. — For survey of 1977 law on employment regulation, see 56 N.C.L. Rev. 854 (1978).

For article discussing evidentiary standards in employment discrimination suits in light of Department of Cor. v. Gibson, 308 N.C. 131, 301 S.E.2d 78 (1983), see 6 Campbell L. Rev. 163 (1984).

For article, "North Carolina Employment Law After *Coman*: Reaffirming Basic Rights in the Workplace," see 24 Wake Forest L. Rev. 905 (1989).

For article, "Wrongful Discharge and the North Carolina Equal Employment Practices Act: The Localization of Federal Discrimination Law", see 21 N.C. Cent. L.J. 54 (1995).

CASE NOTES

The ultimate purpose of § 126-36, this section, and Title VII (42 U.S.C. 2000e et seq.) is the same; that is, the elimination of discriminatory practices in employment. North Carolina Dep't of Cor. v. Gibson, 308 N.C. 131, 301 S.E.2d 78 (1983).

Relationship to Federal Law. — The evidentiary standards for wrongful or bad faith discharge claims under this section are the same as for claims under 42 U.S.C. § 1981; because plaintiff failed to present substantial evidence to support her G.S. 1981 claims, she could not prevail on her wrongful or bad faith discharge claims under this section. Hawkins v. Pepsico, Inc., 10 F. Supp. 2d 548 (M.D.N.C. 1998), aff'd, 203 F.3d 274 (4th Cir. 2000).

Because a former employee could not establish a prima facie case of racial discrimination under Title VII of the Civil Rights Act of 1964, 42 U.S.C.S. § 2000e et seq., given that the employee failed to meet the employer's reasonable productivity standards, the employee's North Carolina wrongful discharge claim also failed. Pettiford v. N.C. Dep't of Health & Human Servs., 228 F. Supp. 2d 677, 2002 U.S. Dist. LEXIS 18879 (M.D.N.C. 2002).

The plain language of this statute provides no guidance concerning the requisite elements to establish a prima facie case of a claim under it and there is no basis in the decisional or statutory law of North Carolina for determining even such crucial matters as the burden of proof, which party is to bear that burden, whether there is a defense to a claim flowing from this section, or even whether damages may be compensatory only or punitive. Newton v. Lat Purser & Assocs., 843 F. Supp. 1022 (W.D.N.C. 1994).

North Carolina Supreme Court looks to federal decisions for guidance in establishing evidentiary standards and principles of law to be applied in discrimination cases. North Carolina Dep't of Cor. v. Gibson, 308 N.C. 131, 301 S.E.2d 78 (1983).

For discussion of standards applicable to Title VII cases (42 U.S.C. 2000e et seq.) as promulgated by United States Supreme Court and adopted by North Carolina Supreme Court (insofar as they do not conflict with State statute and case law), see North Carolina Dep't of Cor. v. Gibson, 308 N.C. 131, 301 S.E.2d 78 (1983).

Use of Title VII Evidentiary Standards. — Given the similarity of the language of this section and Title VII of the Civil Rights Act of 1964, and the underlying policy of these statutes, it is appropriate for the commission to use Title VII evidentiary standards in an employment discrimination case. North Carolina Dep't of Cor. v. Gibson, 58 N.C. App. 241, 293 S.E.2d 664 (1982), rev'd on other grounds, 308 N.C. 131, 301 S.E.2d 78 (1982).

Retaliation. — There is no private right of action under North Carolina law for discriminatory retaliation under G.S. 143-422.2. McLean v. Patten Cmtys., Inc., 332 F.3d 714, 2003 U.S. App. LEXIS 11914 (4th Cir. 2003).

Public Policy Exception to At-Will Employment. — This section did not assist a plaintiff in establishing a claim based on the "public policy exception" to North Carolina's general rule of at-will employment. DeWitt v. Mecklenburg County, 73 F. Supp. 2d 589 (W.D.N.C. 1999).

North Carolina does not recognize a claim against a supervisor in his or her individual capacity under this section. Cox v. Indian Head Indus., 187 F.R.D. 531 (W.D.N.C. 1999).

Discharge Based on Race. — Cause of action for wrongful discharge was stated under G.S. 143-422.2 by a claim that an employee was separated from employment because of the employee's race. McLean v. Patten Cmtys., Inc., 332 F.3d 714, 2003 U.S. App. LEXIS 11914 (4th Cir. 2003).

No Cause of Action for Wrongful Discharge. — In enacting the Equal Employment Practices Act, the North Carolina legislature

chose not to provide any remedies beyond those available under federal discrimination statutes. It is unlikely that the North Carolina Courts would disturb this legislative decision by providing a common law remedy for wrongful discharge beyond the procedure envisioned by Title VII. Percell v. IBM, Inc., 765 F. Supp. 297 (E.D.N.C. 1991), aff'd, 23 F.3d 402 (4th Cir. 1994).

Because plaintiff stated a claim for sexual harassment and wrongful discharge under Title VII, she stated a claim for wrongful discharge in violation of the public policy expressed in this section, which was sufficient to withstand a motion to dismiss. Of course, insofar as plaintiff's claim was characterized as wrongful discharge in bad faith, that claim was dismissed because North Carolina courts do not recognize a separate and distinct bad faith exception to employment at will. Phillips v. J.P. Stevens & Co., 827 F. Supp. 349 (M.D.N.C. 1993).

The court declined to recognize a private cause of action under this section and, as a result, dismissed the plaintiff's state common-law claim for constructive discharge in violation of public policy. McFadden v. Trend Community Health Servs., 114 F. Supp. 2d 427, 2000 U.S. Dist. LEXIS 19340 (W.D.N.C. 2000).

Given that North Carolina courts have not recognized a private cause of action under the North Carolina Equal Employment Practices Act (NCEEPA), G.S. 143-422.1 et seq., the federal court dismissed the employee's wrongful discharge claim under the NCEEPA. McNeil v. Scotland County, 213 F. Supp. 2d 559, 2002 U.S. Dist. LEXIS 17873 (M.D.N.C. 2002).

Evidence Insufficient. — The plaintiff who suffered from rhinitis was unable to prove that he was handicapped and that he was terminated based upon the alleged handicap pursuant to this section where the defendant submitted evidence that his termination was based upon work performance. Simmons v. Chemol Corp., 137 N.C. App. 319, 528 S.E.2d 368, 2000 N.C. App. LEXIS 311 (2000).

Sexual Harassment. — A complaint alleging that an employer sexually harassed an employee by conditioning continued employment on having sex stated a claim for wrongful discharge under the public policy exception to employment at will. Harrison v. Edison Bros. Apparel Stores, 924 F.2d 530 (4th Cir. 1991).

Employee's allegations that she was terminated because of her opposition to what she believed in good faith to be a number of sexually discriminatory employment practices by employer did not implicate the public policy concerns expressed in this section. Leach v. Northern Telecom, Inc., 141 F.R.D. 420 (E.D.N.C. 1991).

Plaintiff's claim of sexual harassment on the job was denied under this section because neither the North Carolina Supreme Court nor the North Carolina Court of Appeals has recognized a private cause of action under the North Carolina Equal Employment Practices Act (NEEPA). Most courts have applied the NCEEPA only to common law wrongful discharge claims or in connection with other specific statutory remedies. Smith v. First Union Nat'l Bank, 202 F.3d 234, 2000 U.S. App. LEXIS 683 (4th Cir. 2000).

Discharge for Refusal of Sexual Favors. — Cause of action for wrongful discharge was stated under G.S. 143-422.2 by a claim that an employee was separated from employment because of gender when the cause of separation was the employee's refusal of sexual favors to a supervisor. McLean v. Patten Cmtys., Inc., 332 F.3d 714, 2003 U.S. App. LEXIS 11914 (4th Cir. 2003).

Two Tests Applicable to Employment Decisions Based on Inherently Subjective Criteria. — When reviewing hiring and promotion decisions based on exercise of personal judgment or application of inherently subjective criteria, court may employ either "disparate treatment" test or "disparate impact" test, or both. North Carolina Dep't of Cor. v. Hodge, 99 N.C. App. 602, 394 S.E.2d 285 (1990).

Disparate Treatment Test. — When employee alleges that employer treated him or her in particular less favorably than other employees, employee raises claim of "disparate treatment." North Carolina Dep't of Cor. v. Hodge, 99 N.C. App. 602, 394 S.E.2d 285 (1990).

According to "disparate treatment" analysis, employee has initial burden of proving, by preponderance of evidence, prima facie case of discrimination. [1] He applied for and was qualified for an available position, [2] he was rejected, and [3] after he was rejected, employer filled position with white employee. Once employee establishes prima facie case, inference of discrimination arises. To rebut this inference, employer must present evidence that employee was rejected, or other applicant was chosen, for a legitimate, nondiscriminatory reason. Employee retains final burden of persuading jury of intentional discrimination. North Carolina Dep't of Cor. v. Hodge, 99 N.C. App. 602, 394 S.E.2d 285 (1990).

In order to demonstrate a prima facie case of disparate treatment under this section, employee must show by a preponderance of the evidence that: (1) she is a member of a protected class; (2) she was qualified for her job and her job performance was satisfactory; (3) she was fired; and (4) other employees who are not members of the protected class were retained under apparently similar circumstances. Hughes v. Bedsole, 48 F.3d 1376 (4th Cir.), cert. denied, 516 U.S. 870, 116 S. Ct. 190, 133 L. Ed. 2d 126 (1995).

In order to demonstrate a prima facie case of

disparate treatment, employee must eliminate concerns that she was fired because of her performance or qualifications, two of the most common nondiscriminatory reasons for any adverse employment decision. Hughes v. Bedsole, 48 F.3d 1376 (4th Cir.), cert. denied, 516 U.S. 870, 116 S. Ct. 190, 133 L. Ed. 2d 126 (1995).

Construction. — The Employment Act, enacted in 1977, and The Handicapped Act, enacted in 1985, although enacted at different times, relate to the same subject matter, employment discrimination against handicapped persons, and must be construed together to ascertain legislative intent. McCullough v. Branch Banking & Trust Co., 136 N.C. App. 340, 524 S.E.2d 569, 2000 N.C. App. LEXIS 17 (2000).

Under the guiding authority of the Equal Employment Practices Act, as expressed in G.S. 143-422.2, a county's ordinance which purportedly regulated employment discrimination in the county, was inequitable in its application because it exempted the county's largest employer. Williams v. Blue Cross Blue Shield, — N.C. —, — S.E.2d —, 2003 N.C. LEXIS 428 (May 2, 2003).

Sexual Discrimination — County Employee. — Where employee alleged that employer wrongfully discharged her on the basis of her sex in violation of the public policy enunciated in this act, the statute did not provide for a specific statutory remedy, and the court would analyze her claim under the common law of wrongful discharge; the specific statutory remedy for state employees did not apply to plaintiff because she was a county employee. Hughes v. Bedsole, 48 F.3d 1376 (4th Cir.), cert. denied, 516 U.S. 870, 116 S. Ct. 190, 133 L. Ed. 2d 126 (1995).

Employer's Legitimate Nondiscriminatory Reason. — A legitimate nondiscriminatory reason is an employer's promotion of an employee better qualified than complainant. North Carolina Dep't of Cor. v. Hodge, 99 N.C. App. 602, 394 S.E.2d 285 (1990).

Pretext. — After employer rebuts employee's prima facie showing, employee has opportunity to demonstrate that employer's proffered reasons for its decision were not its true reasons. North Carolina Dep't of Cor. v. Hodge, 99 N.C. App. 602, 394 S.E.2d 285 (1990).

Employee may use various forms of evidence to demonstrate that state's proffered reason was not its true reason. Employee might seek to demonstrate that employer's claim to have promoted better qualified applicant was pretextual by showing that he was in fact better qualified than person chosen for position. North Carolina Dep't of Cor. v. Hodge, 99 N.C. App. 602, 394 S.E.2d 285 (1990).

Private State Law Cause of Action. — The court assumed without deciding that this statute created a private state law cause of action for the forms of employment discrimination embraced by it, rather than a mere policy statement and given this assumption, the court believed it must abstain from hearing both counts one and two and dismiss them under Burford v. Sun Oil Co., 319 U.S. 315, 63 S. Ct. 1098, 87 L. Ed. 1424 (1943). Newton v. Lat Purser & Assocs., 843 F. Supp. 1022 (W.D.N.C. 1994).

Private Right of Action. — In an action in which an employee filed suit against her employer alleging claims of race discrimination and retaliation in violation of North Carolina's Equal Employment Practices Act (NCEEPA), G.S. 143-422.1 et seq., the court found that because the NCEEPA did not provide a private right of action, the employee could not maintain a claim under it. Addison v. Wal-Mart Stores, Inc., — F. Supp. 2d —, 2003 U.S. Dist. LEXIS 10778 (M.D.N.C. June 23, 2003).

A discussion of reasonable accommodations under N.C. Gen. Stat. § 168A-3(9) and (10) is irrelevant where plaintiff's claim is based on wrongful discharge in violation of public policy under this section. Simmons v. Chemol Corp., 137 N.C. App. 319, 528 S.E.2d 368, 2000 N.C. App. LEXIS 311 (2000).

Intentional Infliction of Emotional Distress by Sexual Harassment. — For federal case holding that plaintiff's claim of intentional infliction of emotional distress based upon alleged sexual harassment by defendant coworker was not preempted by § 301 of the Labor Management Relations Act, 29 U.S.C. § 185. See Johnson v. AT & T Technologies, Inc., 713 F. Supp. 885 (M.D.N.C. 1989).

Summary judgment inappropriate where plaintiff established that material issues of fact existed with regard to his discriminatory discharge claims, and established that such issues remained on his claim of wrongful discharge in violation of North Carolina public policy. Summary judgment was, therefore, inappropriate. Mumford v. CSX Transp., 878 F. Supp. 827 (M.D.N.C. 1994), aff'd, 57 F.3d 1066 (4th Cir. 1995).

Employee's Allegations Sufficient to Avoid Dismissal. — In a former employee's action against his former employer and former supervisor alleging race discrimination and retaliation in violation of 42 U.S.C.S. § 1983, Title VII of the Civil Rights Act of 1964 (Title VII), 42 U.S.C.S. § 2000e et seq., N.C. Const. art. I, § 19, and state public policy, as well as negligent and intentional infliction of emotional distress, the motion to dismiss under Fed. R. Civ. P. 12(b)(6) filed by the employer and the supervisor was denied in part, where further discovery was necessary to determine whether there was any reasonable basis to conclude that the employee had timely submitted his charge of racial discrimination to the Equal Employment Opportunity Commission

pursuant to 42 U.S.C.S. § 2000e-5(e), and had alleged sufficient facts to support his race discrimination public policy claim under G.S. 143-422.2. Ijames v. Murdock, — F. Supp. 2d —, 2003 U.S. Dist. LEXIS 4537 (M.D.N.C. Mar. 21, 2003).

In a former employee's action against his former employer and former supervisor alleging race discrimination and retaliation in violation of 42 U.S.C.S. § 1983, Title VII of the Civil Rights Act of 1964 (Title VII), 42 U.S.C.S. § 2000e et seq., N.C. Const. art. I, § 19, and state public policy, as well as negligent and intentional infliction of emotional distress, the motion to dismiss under Fed. R. Civ. P. 12(b)(6) filed by the employer and the supervisor was granted in part, where the supervisor had no personal liability under Title VII, the employee's allegation of retaliation was not reasonably related to his Equal Employment Opportunity Commission discrimination charge; the employee's 42 U.S.C.S. § 1983 and N.C. Const. art. I, § 19 claims failed because he failed to allege that the supervisor had acted under color of state law, or that the conduct of the supervisor and the employer could be fairly attributable to the state; the employee had no action for wrongful discharge against his supervisor, there was no public policy under G.S. 143-422.2 with respect to the employee's retaliation claim; the employee failed to state a claim for intentional infliction of emotional distress because the supervisor's alleged statements were not sufficiently outrageous or extreme; and the employee failed to state a claim for negligent infliction of emotional distress because he failed to allege facts sufficient to show that the supervisor or employer engaged in any negligent acts. Ijames v. Murdock, — F. Supp. 2d —, 2003 U.S. Dist. LEXIS 4537 (M.D.N.C. Mar. 21, 2003).

Age Discrimination Not Alleged. — Plaintiff's assertion that defendant's failure to grant him tenure and renew his teaching appointment violated public policy failed because he did not allege that defendant discharged him on the basis of his age. Claggett v. Wake Forest Univ., 126 N.C. App. 602, 486 S.E.2d 443 (1997).

Disability Discrimination. — Former employee stated a claim against a former employer for wrongful discharge in violation of North Carolina's public policy against disability discrimination set out in G.S. 143-422.2 of the North Carolina Equal Employment Protection Act (NCEEPA), G.S. 143-422.1 et seq.; however, the employee could not bring claims against individual managers under NCEEPA, nor did NCEEPA include a claim for wrongful constructive discharge or hostile work environment. Arbia v. Owens-Illinois, Inc., — F. Supp. 2d —, 2003 U.S. Dist. LEXIS 9429 (M.D.N.C. June 4, 2003).

Constitutional Action Precluded. — A plaintiff alleging sex discrimination by her employer could not bring an action directly under the North Carolina Constitution; an adequate state remedy was available to the plaintiff because she could have filed an action under this section for wrongful discharge in violation of public policy. Emmons v. Rose's Stores, Inc., 5 F. Supp. 2d 358 (E.D.N.C. 1997), aff'd, 141 F.3d 1158 (4th Cir. 1998).

Applied in Mayse v. Protective Agency, Inc., 772 F. Supp. 267 (W.D. N.C. 1991); Bannerman v. Burlington Indus., Inc., 7 F. Supp. 2d 645 (E.D.N.C. 1997); Souther v. New River Area Mental Health Dev. Disabilities & Substance Abuse Program, 142 N.C. App. 1, 541 S.E.2d 750, 2001 N.C. App. LEXIS 29 (2001), aff'd, 354 N.C. 209, 552 S.E.2d 162 (2001).

Cited in Jackson v. Kimel, 992 F.2d 1318 (4th Cir. 1993); Abels v. Renfro Corp., 335 N.C. 209, 436 S.E.2d 822 (1993); McCullough v. Branch Banking & Trust Co., 844 F. Supp. 258 (E.D.N.C. 1993), aff'd, 35 F.3d 127 (4th Cir. 1994), cert. denied, 513 U.S. 1151, 115 S. Ct. 1101, 130 L. Ed. 2d 1069 (1995); Bradley v. CMI Indus., Inc., 17 F. Supp. 2d 491 (W.D.N.C. 1998); Russell v. Buchanan, 129 N.C. App. 519, 500 S.E.2d 728 (1998), cert. denied, 348 N.C. 501, 510 S.E.2d 655 (1998); Julsaint v. Corning, Inc., 178 F. Supp. 2d 610, 2001 U.S. Dist. LEXIS 23843 (M.D.N.C. 2001); Jane v. Bowman Gray Sch. of Medicine-North Carolina Baptist Hosp., 211 F. Supp. 2d 678, 2002 U.S. Dist. LEXIS 13362 (M.D.N.C. 2002); Helmstetler v. Borden Chem., Inc., — F. Supp. 2d —, 2002 U.S. Dist. LEXIS 13795 (M.D.N.C. June 13, 2002); Jane v. Bowman Gray Sch. of Medicine-North Carolina Baptist Hosp., — F. Supp. 2d —, 2002 U.S. Dist. LEXIS 19548 (M.D.N.C. June 2, 2002).

OPINIONS OF ATTORNEY GENERAL

For a cause of action based on this section, the public policy exception, a plaintiff must show (1) that the discharge violates some well established public policy, and (2) that there is no remedy to protect the interest of the aggrieved employee or society. Frazier v. First Union Nat'l Bank, 747 F. Supp. 1540 (W.D.N.C. 1990).

Adequate Federal Remedy. — In a discriminatory discharge case where plaintiff also has an adequate remedy in Title VII, a cause of action based on this section, the public policy

exception, should be dismissed. Frazier v. First Union Nat'l Bank, 747 F. Supp. 1540 (W.D.N.C. 1990).

§ 143-422.3. Investigations; conciliations.

The Human Relations Commission in the Department of Administration shall have the authority to receive charges of discrimination from the Equal Employment Opportunity Commission pursuant to an agreement under Section 709(b) of Public Law 88-352, as amended by Public Law 92-261, and investigate and conciliate charges of discrimination. Throughout this process, the agency shall use its good offices to effect an amicable resolution of the charges of discrimination. (1977, c. 726, s. 1; 1989 (Reg. Sess., 1990), c. 979, ss. 1(5), 2.)

CASE NOTES

Plaintiff in Federal Age Discrimination Suit Need Not Seek Relief from Human Relations Council (now Commission) as Jurisdictional Prerequisite. — Recourse by a plaintiff to the North Carolina Human Relations Council (now Commission) is not a jurisdictional prerequisite to filing a suit in federal court under the Age Discrimination in Employment Act, 29 U.S.C. § 201-219, since this Article is not "a law prohibiting discrimination in employment because of age" and the North Carolina Human Relations Council (now Commission) is not a "state authority established or authorized to grant or seek relief from such discriminatory practice" within the meaning of 29 U.S.C. § 633(b). Spagnuolo v. Whirlpool Corp., 467 F. Supp. 364 (W.D.N.C. 1979), aff'd in part and rev'd in part, 641 F.2d 1109 (4th Cir. 1981).

Commission on the Status of Women.

§§ 143-423 through 143-428: Repealed by Session Laws 1975, c. 879, s. 39.

Cross References. — For present provisions as to the North Carolina Council for Women, see G.S. 143B-393 and 143B-394.

Article 51.

Tobacco Museums.

§§ 143-429, 143-430: Repealed by Session Laws 1973, c. 476, s. 116.

§ 143-431. Tobacco museums.

It shall be the duty of the Department of Cultural Resources to establish, supervise, manage and maintain the tobacco museums. The Department of Cultural Resources may establish a reasonable fee for viewing the museums which fees shall be used to defray the expenses of the museums. To accomplish these purposes, the Department of Cultural Resources shall have authority to buy and sell real and personal property and to accept donations of real or personal property from any source. The Department of Cultural Resources shall not contract any debt in its purchase of real or personal property. (1969, c. 840, s. 3; 1973, c. 476, s. 116.)

§ 143-432. Location of museums.

One of the tobacco museums shall be located within Rockingham County at a site to be determined by the Department of Cultural Resources, and shall emphasize the history and development of tobacco manufacturing. One of the tobacco museums shall be located in Nash or Edgecombe Counties at a site to be determined by the Department of Cultural Resources and shall emphasize the history and development of growing and marketing of tobacco. (1969, c. 840, s. 4; 1973, c. 476, s. 116.)

Article 51A.

Tax Study Commission.

§§ 143-433 through 143-433.5: Repealed by Session Laws 1979, c. 14, s. 1.

Article 51B.

North Carolina Federal Tax Reform Allocation Committee.

§ 143-433.6. Legislative findings.

The General Assembly finds and determines that the Tax Reform Act of 1984 established a federal volume limitation upon the aggregate amount of "private activity bonds" that may be issued by each state; that, pursuant to Section 103(n) of the Internal Revenue Code of 1954, as amended, a previous Governor of North Carolina issued Executive Order 113 proclaiming a formula for allocating the federal volume limitation for North Carolina; that on October 22, 1986, the Tax Reform Act of 1986, hereinafter referred to as the "Tax Reform Act," was enacted; that the Tax Reform Act (i) establishes a new unified limitation for private activity bonds on a state by state basis, (ii) establishes a new definition of the types of private activity bonds to be included under those new limitations, (iii) establishes a new low-income housing credit to induce the construction of and the improvement of housing for low-income people, and (iv) limits the aggregate use of this low-income housing credit on a state by state basis; that the Tax Reform Act provides for federal formulas for the allocation of these "state by state" resources, and also provides for states which cannot use the federal formula for allocation to set allocation procedures and formulas which are more appropriate for the individual states; that the Tax Reform Act gives authority for the legislature of each state to formulate and execute plans for allocation; and that Section 146 of the Internal Revenue Code of 1986, as amended, and Section 42 of the Internal Revenue Code of 1986, as amended,

will require continued inquiry and study in the ways in which North Carolina can best and most fairly manage and utilize resources provided therein. (1987, c. 588, s. 1.)

§ 143-433.7. North Carolina Federal Tax Reform Allocation Committee.

The North Carolina Federal Tax Reform Allocation Committee, hereinafter referred to as the "Committee," is hereby established. The Committee is a continuation of the Interim Private Activity Bond Allocation Committee established under Executive Order 28 and amended under Executive Order 31 and the North Carolina Federal Tax Reform Allocation Committee established under Executive Order 37. The Secretary of the Department of Commerce, the Executive Assistant to the Governor for Budget Management, and the Treasurer of the State of North Carolina shall constitute the membership of this Committee. The Secretary of the Department of Commerce shall serve as Chairman of the Committee. (1987, c. 588, s. 2.)

§ 143-433.8. Duties.

The Committee may perform the following duties:

(1) Manage the allocation of tax exempt private activity bonds and low-income housing credits and receive advice from bond issuers, elected officials, and the General Assembly.

(2) Continue to monitor bond markets, economic development financing trends, housing markets, and tax incentives available to induce events and programs favorable to North Carolina, its cities and counties, and individual citizens.

(3) Continue to study the ways in which North Carolina can best and most fairly manage and utilize the allocation of private activity bonds and low-income housing credits.

(4) Report to the Governor, Lieutenant Governor, and the Speaker of the House of Representatives as requested and on not less than an annual basis. (1987, c. 588, s. 3.)

§ 143-433.9. Allocation.

(a) To provide for the orderly and prompt issuance of private activity bonds there are hereby proclaimed formulas for allocating the unified volume limitation and the state housing credit ceiling. The unified volume limitation for all issues in North Carolina shall be considered as a single resource to be allocated under this Article. The Committee shall issue allocations of the unified volume limitation and shall issue allocations of the State Housing Credit Ceiling. The Committee shall set forth procedures for making such allocations and in the making of such allocations shall take into consideration the best interest of the State of North Carolina with regard to the economic development and general prosperity of the people of North Carolina.

(b) In administering the low-income housing credit program, the Committee shall adopt a Qualified Allocation Plan (the Plan) as required by 26 U.S.C. § 42(m) annually. Solely with respect to the adoption of the Plan, the Committee is exempt from the requirements of Article 2A of Chapter 150B of the General Statutes. Prior to adoption or amendment of the Plan, the Committee shall:

(1) Publish the proposed Plan in the North Carolina Register at least 30 days prior to the adoption of the final Plan;

(2) Notify any person who has applied for the low-income housing credit in the previous year and any other interested parties of its intent to adopt the Plan;

(3) Accept oral and written comments on the proposed Plan; and
(4) Hold at least one public hearing on the proposed Plan. (1987, c. 588, s. 4; 2001-299, s. 1.1.)

Article 52.

Pesticide Board.

Part 1. Pesticide Control Program: Organization and Functions.

§ 143-434. Short title.

This Article may be cited as the North Carolina Pesticide Law of 1971. (1971, c. 832, s. 1.)

Editor's Note. — Session Laws 1971, c. 832, which enacted this Article, in s. 5, provided: "Sec. 5. This act shall not be deemed to repeal the Structural Pest Control Act of North Carolina of 1955, as amended (Chapter 106, Article 4C)."

Legal Periodicals. — For note on control of pesticides, see 49 N.C.L. Rev. 529 (1971).

§ 143-435. Preamble.

(a) The Legislative Research Commission was directed by House Resolution 1392 of the 1969 General Assembly "to study agricultural and other pesticides," and to report its findings and recommendations to the 1971 General Assembly. Pursuant to said Resolution a report was prepared and adopted by the Legislative Research Commission in 1970 concerning pesticides. In this report the Legislative Research Commission made the following findings concerning the use and effects of pesticides and the need for legislation concerning control of pesticide use, of which the General Assembly hereby takes cognizance:

(1) The use of chemical pesticides has developed since the 1940's into a major, new billion-dollar industry. Pesticides have bettered the lot of mankind in many ways and especially have assisted the farmer by their contribution to a stable and inexpensive supply of high quality food, fiber and forest products. The control of insects, fungi and other pests is essential to the public health and welfare and specifically to the prevention of disease, to the production and preservation of food, fiber, and forests and to the protection of other aspects of modern civilization.

(2) The use of pesticides for these important purposes is currently a matter of serious public concern and their use in some instances presents risks to man and the environment which must be weighed against the benefits of those uses in the overall public interest. Evidence is accumulating that extensive use of persistent pesticides poses hazards to health and the environment. Environmental problems resulting from the use, overuse and misapplication of some chemicals, and the disposal of unused chemicals and containers, have grown to the point where contamination of the environment is approaching significant proportions. There is concern among scientists and public health personnel about the long-term chronic effects of pesticide pollution on human health. Contamination by DDT has been shown to be global in extent. Moreover, recent experience in North Carolina and elsewhere has shown that the more toxic but less persistent pesticides cannot safely be substituted for the persistent "hard" pesticides without stringent safeguards.

(3) More extensive observation, study and monitoring of the effectiveness and the use of pesticides and of undesirable side effects on man and on the environment and of their relative importance for the overall public health and welfare are desirable in the public interest.

(4) Continued and strengthened control of the quality of pesticides and the control of labeling claims, direction for use and warnings are necessary for the protection of the purchasing public, including the household consumer, the farmer and other users.

(5) No existing legislation in North Carolina effectively limits or controls the use of pesticides. Misuse and misapplication of pesticides, while effectively controlled by law with respect to structural pest control operators, is not adequately controlled with respect to some other major groups of pesticide applicators. Careless disposal of unused pesticides and contaminated containers is not controlled by law, and no North Carolina legislation requires that pesticide dealers, who are the principal source of advice for many pesticide users, be qualified to give advice or be held responsible for their advice. These gaps in legal control of pesticides are important and should be remedied.

(b) The purpose of this Article is to regulate in the public interest the use, application, sale, disposal and registration of insecticides, fungicides, herbicides, defoliants, desiccants, plant growth regulators, nematicides, rodenticides, and any other pesticides designated by the North Carolina Pesticide Board. New pesticides are continually being discovered or synthesized which are valuable for the control of insects, fungi, weeds, nematodes, rodents, and for use as defoliants, desiccants, plant regulators and related purposes. However, such pesticides may be ineffective or may seriously injure health, property, or wildlife if not properly used. Pesticides may injure man or animals, either by direct poisoning or by gradual accumulation of poisons in the tissues. Crops or other plants may also be injured by their improper use. The drifting or washing of pesticides into streams or lakes can cause appreciable danger to aquatic life. A pesticide applied for the purpose of killing pests in a crop, which is not itself injured by the pesticide, may drift and injure other crops or nontarget organisms with which it comes in contact. In furtherance of the findings and recommendations of the Legislative Research Commission, it is hereby declared to be the policy of the State of North Carolina that for the protection of the health, safety, and welfare of the people of this State, and for the promotion of a more secure, healthy and safe environment for all the people of the State, the future sale, use and application of pesticides shall be regulated, supervised and controlled by the State in the manner herein provided. (1971, c. 832, s. 1.)

CASE NOTES

Cited in Meads v. North Carolina Dep't of Agric., 349 N.C. 656, 509 S.E.2d 165 (1998).

§ 143-436. North Carolina Pesticide Board; creation and organization.

(a) There is hereby established the North Carolina Pesticide Board which, together with the Commissioner of Agriculture, shall be responsible for carrying out the provisions of this Article.

(b) The Pesticide Board shall consist of seven members, to be appointed by the Governor, as follows:

(1) One member each representing the North Carolina Department of Agriculture and Consumer Services, the State Health Director or his

designee, and one member from an environmental protection agency in the Department of Environment and Natural Resources. The persons so selected may be either members of a policy board or departmental officials or employees.

(2) A representative of the agricultural chemical industry.

(3) A person directly engaged in agricultural production.

(4) Two at-large members, from fields of endeavor other than those enumerated in subdivisions (2) and (3) of this subsection, one of whom shall be a nongovernmental conservationist.

(c) The members of the Pesticide Board shall serve staggered four-year terms. Of the persons originally appointed, the members representing State agencies shall serve two-year terms, and the four at-large members shall serve four-year terms. All members shall hold their offices until their successors are appointed and qualified. Any vacancy occurring in the membership of the Board prior to the expiration of the term shall be filled by appointment by the Governor for the remainder of the unexpired term. The Governor may at any time remove any member from the Board for gross inefficiency, neglect of duty, malfeasance, misfeasance, or nonfeasance in office. Each appointment to fill a vacancy in the membership of the Board shall be of a person having the same credentials as his predecessor.

(d) The Board shall select its chair from its own membership, to serve for a term of two years. The chair shall have a full vote. Any vacancy occurring in the chair's position shall be filled by the Board for the remainder of the term. The Board may select such other officers as it deems necessary.

(e) Any action of the Board shall require at least four concurring votes.

(f) The members of the Board who are not officers or employees of the State shall receive for their services the per diem and compensation prescribed in G.S. 138-5. (1971, c. 832, s. 1; 1973, c. 476, s. 128; 1989, c. 727, s. 170; 1997-261, s. 90; 1997-443, s. 11A.97.)

§ 143-437. Pesticide Board; functions.

The Pesticide Board shall be the governing board for the programs of pesticide management and control set forth in this Article. The Pesticide Board shall have the following powers and duties under this Article:

(1) To adopt rules and regulations and make policies for the programs set forth in this Article.

(2) To carry out a program of planning, environmental and biological monitoring, and of investigation into long-range needs and problems concerning pesticides. In order to encourage the cooperation of private property owners needed to implement the provisions of this subdivision, the Board may enter into agreements with private property owners to conduct sampling, testing, monitoring, and related activities on their property. Information obtained pursuant to these agreements shall not be disclosed in a manner that would permit the identification of an individual property owner unless the property owner has given permission to disclose the information.

(3) To collect, analyze and disseminate information necessary for the effective operation of the programs set forth in this Article.

(4) To provide professional advice to public and private agencies and citizens of the State on matters relating to pesticides, in cooperation with other State agencies, with professional groups, and with North Carolina State University and other educational institutions.

(5) To accept gifts, devises and bequests, and with the approval of the Governor to apply for and accept grants from the federal government and its agencies and from any foundation, corporation, association or

individual, and may comply with the terms, conditions and limitations of the grant, in order to accomplish any of the purposes of the Board, such grant funds to be expended pursuant to the Executive Budget Act.

(6) To inform and advise the Governor on matters involving pesticides, and to prepare and recommend to the Governor and the General Assembly any legislation which may be deemed proper for the management and control of pesticides in North Carolina.

(7) To make annual reports to the Governor and to make such other investigations and reports as may be requested by the Governor or the General Assembly.

(8) To exempt any federal or State agency from any provision of this Article if it is determined by the Board that emergency conditions exist which require exemption. (1971, c. 832, s. 1; 1977, c. 199; 1979, c. 448, s. 14; 1995, c. 445, s. 1.)

§ 143-438. Commissioner of Agriculture to administer and enforce Article.

The Commissioner of Agriculture shall have the following powers and duties under this Article:

(1) To administer and enforce the provisions of this Article.

(2) To attend all meetings of the Pesticide Board, but without power to vote (unless he be designated as the ex officio member of the Board from the Department of Agriculture and Consumer Services).

(3) To keep an accurate and complete record of all Board meetings and hearings, and to have legal custody of all books, papers, documents and other records of the Board.

(4) To assign and reassign the administrative and enforcement duties and functions assigned to him in this Article to one or more of the divisions and other units within the Department of Agriculture and Consumer Services.

(5) To direct the work of the personnel employed by the Board and of the personnel of the Department of Agriculture and Consumer Services who have responsibilities concerning the programs set forth in this Article.

(6) To delegate to any division head or other officer or employee of the Department of Agriculture and Consumer Services any of the powers and duties given to the Department by statute or by the rules, regulations and procedures established pursuant to this Article.

(7) To perform such other duties as the Board may from time to time direct. (1971, c. 832, s. 1; 1997-261, s. 91.)

§ 143-439. Pesticide Advisory Committee; creation and functions.

(a) There is hereby authorized the establishment of the Pesticide Advisory Committee, which shall assist the Board and the Commissioner in an advisory capacity on matters which may be submitted to it by the Board or the Commissioner, including technical questions and the development of rules and regulations.

(b) The Pesticide Advisory Committee shall consist of: three practicing farmers; one conservationist (at large); one ecologist (at large); one representative of the pesticide industry; one representative of agribusiness (at large); one local health director; three members of the North Carolina State University School of Agriculture and Life Sciences, at least one of which shall be from

the area of wildlife or biology; one member representing the North Carolina Department of Agriculture and Consumer Services; one member representing the Department of Environment and Natural Resources; the State Health Director or his designee; one representative of a public utility or railroad company which uses pesticides; one representative of the Board of Transportation; one member of the North Carolina Agricultural Aviation Association; one member of the general public (at large); one member actively engaged in forest pest management; and one member representing the Division of Waste Management of the Department of Environment and Natural Resources. Each State agency represented [representative] on the Committee shall be appointed by the head of the agency. Other members of the Committee shall be appointed by the Board.

(c) Members of the Pesticide Advisory Committee shall serve at the pleasure of the Board. The members who are not officers or employees of the State shall receive regular State subsistence and travel expenses. (1971, c. 832, s. 1; 1973, c. 476, s. 128; c. 507, s. 5; 1975, c. 824; 1987, c. 559, s. 1; 1989, c. 727, s. 171; 1989 (Reg. Sess., 1990), c. 1004, s. 14; 1995 (Reg. Sess., 1996), c. 743, s. 19; 1997-261, s. 109; 1997-443, s. 11A.119(a).)

Part 2. Regulation of the Use of Pesticides.

§ 143-440. Restricted use pesticides regulated.

(a) The Board may, by regulation after a public hearing, adopt and from time to time revise a list of restricted use pesticides for the State or for designated areas within the State. The Board may designate any pesticide or device as a "restricted use pesticide" upon the grounds that, in the judgment of the Board (either because of its persistence, its toxicity, or otherwise) it is so hazardous or injurious to persons, pollinating insects, animals, crops, wildlife, lands, or the environment, other than the pests it is intended to prevent, destroy, control, or mitigate that additional restriction on its sale, purpose, use or possession are required.

(b) The Board may include in any such restricted use regulation the time and conditions of sale, distribution, or use of such restricted use pesticides, may prohibit the use of any restricted use pesticide for designated purposes or at designated times; may require the purchaser or user to certify that restricted use pesticides will be used only as labeled or as further restricted by regulation; may require the certification and recertification of private applicators, and charge a fee of up to ten dollars ($10.00), with the fee set at a level to make the certification/recertification program self-supporting, and, after opportunity for a hearing, may suspend, revoke or modify the certification for violation of any provision of this Article, or any rule or regulation adopted thereunder; and may, if it deems it necessary to carry out the provisions of this Part, require that any or all restricted use pesticides shall be purchased, possessed, or used only under permit of the Board and under its direct supervision in certain areas and/or under certain conditions or in certain quantities or concentrations except that any person licensed to sell such pesticides may purchase and possess such pesticides without a permit. The Board may require all persons issued such permits to maintain records as to the use of the restricted use pesticides. The Board may authorize the use of restricted use pesticides by persons licensed under the North Carolina Structural Pest Control Act without a permit. (1971, c. 832, s. 1; 1979, c. 448, s. 1; 1981, c. 592, s. 1; 1987, c. 559, s. 2; c. 846.)

§ 143-441. Handling, storage and disposal of pesticides.

(a) The Board may adopt regulations:

(1) Concerning the handling, transport, storage (which may include security precautions), display or distribution of pesticides, and concerning the disposal of pesticides and pesticide containers.

(2) Restricting or prohibiting the use of certain types of containers or packages for specific pesticides. These restrictions may apply to type of construction, strength, and/or size to alleviate danger of spillage, breakage, or misuse.

(b) No person shall handle, transport, store, display, or distribute pesticides in such a manner as to endanger man and his environment or to endanger food, feed, or any other products that may be transported, stored, displayed, or distributed with pesticides, or in any manner contrary to the regulations of the Board.

(c) No person shall dispose of, discard, or store any pesticides or pesticide containers in such a manner as may cause injury to humans, vegetation, crops, livestock, wildlife, or to pollute any water supply or waterway, or in any manner contrary to the regulations of the Board. (1971, c. 832, s. 1.)

§ 143-442. Registration.

(a) Every pesticide prior to being distributed, sold, or offered for sale within this State or delivered for transportation or transported in intrastate commerce or between points within this State through any point outside this State shall be registered in the office of the Board, and such registration shall be renewed annually before January 1 for the ensuing calendar year. Beginning in 1988, the Board may by rule adopt a system of staggered three-year registrations. The applicant for registration shall file with the Board a statement including:

(1) The name and address of the applicant and the name and address of the person whose name will appear on the label, if other than the applicant;

(2) The name of the pesticide;

(3) A complete copy of the labeling accompanying the pesticide and a statement of all claims to be made for it including directions for use;

(4) If requested by the Board, a full description of the tests made and the results thereof upon which the claims are based;

(5) In the case of renewal of registration, a statement with respect to information which is different from that furnished when the pesticide was last registered;

(6) A Material Safety Data Sheet for the pesticide; and

(7) Any other information needed by the Board to determine the amount of annual assessment payable by the applicant.

(b) The applicant shall pay an annual registration fee of one hundred dollars ($100.00) plus an additional annual assessment for each brand or grade of pesticide registered. The annual assessment shall be fifty dollars ($50.00) if the applicant's gross sales of the pesticide in this State for the preceding 12 months for the period ending September 30th were more than five thousand dollars ($5,000.00) and twenty-five dollars ($25.00) if gross sales were less than five thousand dollars ($5,000.00). An additional two hundred dollars ($200.00) delinquent registration penalty shall be assessed against the registrant for each brand or grade of pesticide which is marketed in North Carolina prior to registration as required by this Article. In the case of multi-year registration, the annual fee and additional assessment for each year shall be paid at the time of the initial registration. The Board shall give a pro rata refund of the

registration fee and additional assessment to the registrant in the event that registration is canceled by the Board or by the United States Environmental Protection Agency.

(c) The Board, when it deems necessary in the administration of this Article, may require the submission of the complete formula of any pesticide.

(d) If the pesticide is properly registered with the United States Environmental Protection Agency and is in compliance with the requirements of G.S. 143-443, the Board shall register the pesticide. Provided, however, that if it does not appear to the Board that the article is such as to warrant the proposed claims for it or if the article and its labeling and other material required to be submitted do not comply with the provisions of this Part, it shall not register the article and in turn shall notify the applicant of the manner in which the article, labeling, or other material required to be submitted fail to comply. The Board may suspend or cancel the registration of a pesticide when the pesticide or its labeling does not comply with this Part.

(e) The Board is authorized and empowered to refuse to register, or to cancel the registration of any brands and grades of pesticides as herein provided, if the registrant fails or refuses to comply with the provisions of this Part, or any rules and regulations promulgated thereunder, or, upon satisfactory proof that the registrant or applicant has been guilty of fraudulent and deceptive practices in the evasions or attempted evasions of the provisions of this Part, or any rules and regulations promulgated thereunder. The Board may require the manufacturer or distributor of any pesticide, for which registration has been refused, cancelled, suspended or voluntarily discontinued or which has been found adulterated or deficient in its active ingredient, to remove such pesticide from the marketplace.

(f) Notwithstanding any other provisions of this Part, registration is not required in the case of a pesticide shipped from one plant within this State to another plant within this State operated by the same person.

(g) Any pesticide declared to be discontinued by the registrant must be registered by the registrant for one full year after distribution is discontinued. Any pesticide in channels of distribution after the aforesaid registration period may be confiscated and disposed of by the Board, unless the pesticide is acceptable for registration and is continued to be registered by the manufacturer or the person offering the pesticide for wholesale or retail sale. Provided, however, this subsection shall not apply to any brand or grade of pesticide which the Board determines does not remain in channels of distribution due to method of sale by registrant directly to users thereof.

(h) A pesticide may be registered by the Board for experimental use, including use to control wild animal or bird populations, even though the Wildlife Resources Commission may not have concurred in the declaration of the animal or bird populations as pests under the terms of Article 22A of Chapter 113 of the General Statutes.

(i) The Board shall be empowered to set forth criteria for determining when a given product constitutes a different or separate brand or grade of pesticide.

(j) Each manufacturer, distributor or registrant of a pesticide shall supervise the activities of any employee or agent to prevent the making of deceptive or misleading statements about the pesticide. (1971, c. 832, s. 1; 1973, c. 389, ss. 1, 7; 1975, c. 425, ss. 1, 2; 1979, c. 448, ss. 2, 3; c. 830, s. 10; 1981, c. 592, s. 2; 1987, c. 559, ss. 3-7; c. 827, s. 39; 1989, c. 544, s. 13; 1993, c. 481, ss. 1.1, 2; 1995, c. 445, s. 2; 2003-284, s. 35.4(e).)

Editor's Note. — Session Laws 2003-284, s. 1.2, provides: "This act shall be known as the 'Current Operations and Capital Improvements Appropriations Act of 2003'."

Session Laws 2003-284, s. 49.3, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 2003-2005 fiscal biennium, the textual provisions of this act apply only to funds appropriated for, and activities occurring

during, the 2003-2005 fiscal biennium."

Session Laws 2003-284, s. 49.5 is a severability clause.

Session Laws 2003-284, s. 48.1, provides: "Parts 32 through 47 of this act do not affect the rights or liabilities of the State, a taxpayer, or another person arising under a statute amended or repealed by those parts before the effective date of its amendment or repeal; nor do they affect the right to any refund or credit of a tax that accrued under the amended or repealed statute before the effective date of its amendment or repeal."

Effect of Amendments. — Session Laws 2003-284. s. 35.4(e), effective July 15, 2003, substituted "one hundred dollars ($100.00)" for "thirty dollars ($30.00)" in the first sentence of subsection (b).

§ 143-443. Miscellaneous prohibited acts.

(a) It shall be unlawful for any person to distribute, sell, or offer for sale within this State or deliver for transportation or transport in intrastate commerce or between points within this State through any point outside this State any of the following:

(1) Any pesticide which has not been registered pursuant to the provisions of G.S. 143-442, or any pesticide if any of the claims made for it or any of the directions for its use differ in substance from the representations made in connection with the registration, or if the composition of a pesticide differs from its composition as represented in connection with its registration: Except that, in the discretion of the Board, a change in the labeling or formula of a pesticide may be made within a registration period without requiring reregistration of the product.

(2) Any pesticide unless it is in the registrant's or the manufacturer's unbroken immediate container, and there is affixed to such container, and to the outside container or wrapper of the retail package, if there be one through which the required information on the immediate container cannot be clearly read, a label bearing:

a. The name and address of the manufacturer, registrant, or person for whom manufactured;

b. The name, brand, or trademark under which said article is sold; and

c. The net weight or measure of the content subject, however, to such reasonable variations as the Board may permit.

(3) Any pesticide which contains any substance or substances in quantities highly toxic to man, determined as provided in G.S. 143-444, unless the label shall bear, in addition to any other matter required by this Part:

a. The skull and crossbones;

b. The word "poison" prominently, in red, on a background of distinctly contrasting color; and

c. A statement of an antidote for the pesticide.

(4) The pesticides commonly known as standard lead arsenate, basic lead arsenate, calcium arsenate, magnesium arsenate, zinc arsenate, zinc arsenite, sodium fluoride, sodium fluosilicate, and barium fluosilicate unless they have been distinctly colored or discolored as provided by regulations issued in accordance with this Part, or any other white or lightly colored pesticide which the Board, after investigation of and after public hearing on the necessity for such action for the protection of the public health and the feasibility of such coloration or discoloration, shall, by regulation, require to be distinctly colored or discolored; unless it has been so colored or discolored, provided, that the Board may exempt any pesticide to the extent that it is intended for a particular use or uses from the coloring or discoloring required or authorized by this section if the Board determines that such coloring

or discoloring for such use or uses is not necessary for the protection of the public health.

(5) Any pesticide which is adulterated or misbranded, (or any device which is misbranded).

(6) Any pesticide in containers violating regulations adopted pursuant to G.S. 143-441. Pesticides found in containers which are unsafe due to damage or defective construction may be seized and impounded.

(b) It shall be unlawful:

(1) For any person to detach, alter, deface, or destroy, in whole or in part, any label or labeling provided for in this Part or regulations promulgated hereunder, or to add any substance to, or take any substance from a pesticide in a manner that may defeat the purpose of this Part;

(2) For any person to use for his own advantage or to reveal, other than to the Board or proper officials or employees of the State or federal government or to the courts of this State in response to a subpoena, or to physicians, or in emergencies to pharmacists and other qualified persons, for use in the preparation of antidotes, any information relative to formulas of products acquired by authority of G.S. 143-442.

(2a) Repealed by Session Laws 1981, c. 592, s. 3.

(3) For any person to use any pesticide in a manner inconsistent with its labeling.

(4) For any person who contracts for the aerial application of a pesticide to permit the application of any pesticide that is designated on its labeling as toxic to bees without first notifying, based on available listings, the owner or operator of any apiary registered under the North Carolina Bee and Honey Act of 1977 that is within a distance designated by the Pesticide Board as necessary and appropriate to prevent damage or injury.

(5) For any person to distribute, sell or offer for sale any restricted use pesticide to any dealer who does not hold a valid North Carolina Pesticide Dealer License.

(6) For any person to assault, resist, impede, intimidate, or interfere with any State employee while that employee is engaged in the performance of his or her duties under this Article.

(7) For any person to apply, for compensation, a pesticide that has not been registered pursuant to G.S. 143-442. (1971, c. 832, s. 1; 1975, c. 425, s. 3; 1979, c. 448, ss. 4, 5; 1981, c. 547; c. 592, ss. 3, 4; 1987, c. 559, s. 8; 1995, c. 445, s. 3.)

Editor's Note. — The North Carolina Bee and Honey Act of 1977, referred to in subdivision (b)(4), is codified as G.S. 106-634 through 106-644.

CASE NOTES

Application Inconsistent with Labeling. — Substantial evidence supported a conclusion by the Pesticide Board that petitioner violated statutes making it unlawful to use any pesticide inconsistent with its label where the evidence tended to show that petitioner aerially applied a pesticide to a soybean field; the pesticide label stated that the pesticide should not be applied so as to directly and through drift expose workers or other persons; a resident of land adjoining the soybean field was exposed to a vapor containing the pesticide; and the pesticide was found on vegetation on the land adjoining the soybean field. Meads v. North Carolina Dep't of Agric., 349 N.C. 656, 509 S.E.2d 165 (1998).

§ 143-444. Determinations.

The Board is authorized:

(1) To declare as a pest any form of plant or animal life or virus which is injurious to plants, man, domestic animals, articles, or substances;

(2) To determine whether pesticides are highly toxic to man; and

(3) To determine standards of coloring or discoloring for pesticides, and to subject pesticides to the requirements of G.S. 143-443(a)(4). (1971, c. 832, s. 1.)

§ 143-445. Exemptions.

(a) The penalties provided for violations of G.S. 143-443(a) shall not apply to:

(1) Any carrier while lawfully engaged in transporting pesticides within this State, if such carrier shall, upon request, permit the Board or its designated agent to copy all records showing the transactions in and movement of the articles;

(2) Public officials of this State or local subdivisions thereof and the federal government engaged in the performance of their official duties;

(3) The manufacturer or shipper of a pesticide for experimental use only,

a. By or under the supervision of an agency of this State or of the federal government authorized by law to conduct research in the field of pesticides, or

b. By others if the pesticide is not sold and if the container thereof is plainly and conspicuously marked "For experimental use only — Not to be sold," together with the manufacturer's name and address; (except that if a written permit has been obtained from the Board, pesticides may be sold for experimental purposes subject to such restrictions and conditions as may be set forth in the permit).

(b) No article shall be deemed in violation of this Part when intended solely for export to a foreign country, and when prepared or packed according to the specifications or directions of the purchaser. If not so exported, all the provisions of this Part shall apply. (1971, c. 832, s. 1.)

§ 143-446. Samples; submissions.

(a) The Board, or its agent, is authorized and directed to sample, test, inspect and make analyses of pesticides sold or offered for sale or distributed within this State, at time and place and to such an extent as it may deem necessary to determine whether such pesticides are in compliance with the provisions of this Article. The Board is authorized to adopt regulations concerning the collection and examination of samples (or devices), and to adopt regulations establishing tolerances providing for reasonable deviations from the guaranteed analysis.

(b) The official analysis shall be made from the official sample. Official samples shall be collected from material that has been packaged, labeled and released for shipment. A sealed and identified sample, herein called "official check sample" shall be kept until the analysis is completed on the official sample, except that the registrant may obtain upon request a portion of said official sample. If the official analysis conforms with the provisions of this Part, the official check sample may be destroyed. If the official analysis does not conform with the provisions of this Part, then the official check sample shall be retained for a period of 90 days from the date of the certificate of analysis of the official sample.

(c) The Board, of its own motion or upon complaint, may cause an examination to be made for the purpose of determining whether any pesticide complies with the requirements of this Part. If it shall appear from such examination that a pesticide fails to comply with the provisions of this Part, the Board may cause notice to be given to the offending person in the manner provided in G.S. 143-464, and the proceedings thereupon shall be as provided in such section; provided that pesticides may be seized and confiscated as provided in G.S. 143-447.

(d) The Board shall, by publication in such manner as it may prescribe, give notice of all judgments entered in actions instituted under the authority of this Article. (1971, c. 832, s. 1; 1987, c. 559, s. 9.)

§ 143-447. Emergency suspensions; seizures.

(a) The Board may order the summary suspension of the registration of a pesticide if it finds the suspension necessary to prevent an imminent hazard to the public, a nontarget organism, or a segment of the environment. In no event shall registration of a pesticide be construed as a defense to any charge of an offense prohibited under this Article.

(b) It shall be the duty of the Board to issue and enforce a written or printed "stop sale, stop use, or removal" order to the owner or custodian of any lot of pesticide and for the owner or custodian to hold said lot at a designated place when the Board finds said pesticide is being offered or exposed for sale in violation of any of the provisions of this Article until the law has been complied with and said pesticide is released in writing by the Board or said violation has been otherwise legally disposed of by written authority. The Board shall release the pesticide so withdrawn when the requirements of the provisions of this Article have been complied with and upon payment of all costs and expenses incurred in connection with the withdrawal.

The Board may issue a "stop sale, use or removal order" to prevent or stop the use of a pesticide in a manner inconsistent with its labeling or to prevent or stop the disposal of a pesticide or a pesticide container in violation of this Article or the rules of the Board adopted thereunder.

(c) Any pesticide (or device) that is distributed, sold, or offered for sale within this State or delivered for transportation or transported in intrastate commerce between points within this State through any point outside this State shall be liable to be proceeded against in superior court in any county of the State where it may be found and seized for confiscation by process or libel for condemnation:

(1) In the case of a pesticide,
   a. If it is adulterated or misbranded,
   b. If it has not been registered under the provisions of G.S. 143-442, or has had its registration suspended or revoked or is the subject of a stop sale, stop use, or removal order,
   c. If it fails to bear on its label the information required by this Part,
   d. If it is a white or lightly colored pesticide and is not colored as required under this Part.

(2) In the case of a device, if it is misbranded.

(d) If the article is condemned, it shall, after entry of decree, be disposed of by destruction or sale as the court may direct and the proceeds, if such article is sold, less legal costs, shall be paid to the State Treasurer; provided that the article shall not be sold contrary to the provisions of this Part; and provided further that upon payment of costs and execution and delivery of a good and sufficient bond conditioned that the article shall not be disposed of unlawfully, the court may direct that said article be delivered to the owner thereof for relabeling or reprocessing or disposal, as the case may be.

(e) When a decree of condemnation is entered against the article, court costs and fees and storage and other proper expenses shall be awarded against the person, if any, intervening as claimant of the article. (1971, c. 832, s. 1; 1979, c. 448, s. 6; 1981, c. 592, s. 5; 1987, c. 559, s. 10; c. 827, s. 41.)

Part 3. Pesticide Dealers.

§ 143-448. Licensing of pesticide dealers; fees.

(a) No person shall act in the capacity of a pesticide dealer, or shall engage or offer to engage in the business of, advertise as, or assume to act as a pesticide dealer unless he is licensed annually as provided in this Part. A separate license and fee shall be obtained for each location or outlet from which restricted use pesticides are distributed, sold, held for sale, or offered for sale.

(b) Applications for a pesticide dealer license shall be in the form and shall contain the information prescribed by the Board. Each application shall be accompanied by a non-refundable fee of fifty dollars ($50.00). All licenses issued under this Part shall expire on December 31 of the year for which they are issued.

(c) The license for a pesticide dealer may be renewed annually upon application to the Board, accompanied by a fee of fifty dollars ($50.00) for each license, on or before the first day of January of the calendar year for which the license is issued.

(d) Repealed by Session Laws 1981, c. 592, s. 6.

(e) Every licensed pesticide dealer who changes his address or place of business shall immediately notify the Board.

(f) The Board shall issue to each applicant that satisfies the requirements of this Part a license which entitles the applicant to conduct the business described in the application for the calendar year for which the license is issued, unless the license is sooner revoked or suspended. (1971, c. 832, s. 1; 1981, c. 592, s. 6; 1987, c. 559, ss. 2, 11; 1989, c. 544, s. 11; 1995, c. 445, s. 4; 2003-284, ss. 35.4(b), 35.4(c).)

Editor's Note. — Session Laws 1987, c. 559, s. 12 rewrote the heading of Part 3, which formerly read "Pesticide Dealers and Manufacturers."

Session Laws 2003-284, s. 48.1, provides: "Parts 32 through 47 of this act do not affect the rights or liabilities of the State, a taxpayer, or another person arising under a statute amended or repealed by those parts before the effective date of its amendment or repeal; nor do they affect the right to any refund or credit of a tax that accrued under the amended or repealed statute before the effective date of its amendment or repeal."

Session Laws 2003-284, s. 1.2, provides: "This act shall be known as the 'Current Operations and Capital Improvements Appropriations Act of 2003'."

Session Laws 2003-284, s. 49.3, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 2003-2005 fiscal biennium, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 2003-2005 fiscal biennium."

Session Laws 2003-284, s. 49.5 is a severability clause.

Effect of Amendments. — Session Laws 2003-284. ss. 35.4(b) and (c), effective July 15, 2003, substituted "fifty dollars ($50.00)" for "thirty dollars ($30.00)" in subsections (b) and (c).

§ 143-449. Qualifications for pesticide dealer license; examinations.

(a) An applicant for a license must present evidence satisfactory to the Board concerning his qualifications for such license.

(b) Each applicant shall satisfy the Board as to his responsibility in carrying on the business of a pesticide dealer. Each applicant for an original license

must demonstrate upon written, or written and oral, examination to be prescribed by the Board his knowledge of pesticides, their usefulness and their hazards; his competence as a pesticide dealer; and his knowledge of the laws and regulations governing the use and sale of pesticides.

(c) The Board shall by regulation:

(1) Designate what persons or class of persons shall be required to pass the examination in the case of a pesticide dealer operating more than one location, and in the case of an applicant that is a corporation, governmental unit or agency, or other organized group;

(2) Provide for renewal license examinations at intervals not more frequent than four years. (1971, c. 832, s. 1; 1975, c. 425, s. 4.)

§ 143-450. Employees of pesticide dealers; dealer's responsibility.

(a) Every licensed pesticide dealer shall submit to the Board, at such times as the Board or the Commissioner may prescribe, the names of all persons employed by him who sell or recommend "restricted use pesticides."

(b) Each pesticide dealer shall be responsible for the actions of every person who acts as his employee or agent in the solicitation or sale of pesticides, and in all claims and recommendations for use or application of pesticides. (1971, c. 832, s. 1; 1979, c. 448, s. 7; 1987, c. 559, s. 2.)

§ 143-451. Denial, suspension and revocation of license.

(a) The Board may deny, suspend, modify, or revoke a license issued under this Part if it finds that the applicant or licensee or his employee has committed any of the following acts, each of which is declared to be a violation of this Part:

(1) Made false or fraudulent claims through any media, misrepresenting the effect of materials or methods to be utilized or sold;

(2) Made a pesticide recommendation not in accordance with the label registered pursuant to this Article;

(3) Violated any provision of this Article or of any rule or regulation adopted by the Board or of any lawful order of the Board;

(4) Failed to pay the original or renewal license fee when due, and continued to sell restricted use pesticides without paying the license fee, or sold restricted use pesticides without a license;

(5) Was guilty of gross negligence, incompetency or misconduct in acting as a pesticide dealer;

(6) Refused or neglected to keep and maintain the records required by this Article, or to make reports when and as required, or refusing to make these records available for audit or inspection;

(7) Made false or fraudulent records, invoices, or reports;

(8) Used fraud or misrepresentation, or presented false information, in making an application for a license or renewal of a license, or in selling or offering to sell restricted use pesticides;

(9) Refused or neglected to comply with any limitations or restrictions on or in a duly issued license or permit;

(10) Aided or abetted a licensed or an unlicensed person to evade the provisions of this Article, combined or conspired with such a licensed or unlicensed person to evade the provisions of this Article, or allowed one's license to be used by an unlicensed person;

(11) Impersonated any state, county, or city inspector or official;

(12) Stored or disposed of containers or pesticides by means other than those prescribed on the label or adopted regulations;

(13) Provided or made available any restricted use pesticide to any person other than a certified private applicator, licensed pesticide applicator, certified structural pest control applicator, structural pest control licensee or an employee under the direct supervision of one of the aforementioned certified or licensed applicators.

(b) Any licensee whose license is revoked under the provisions of this Article shall not be eligible to apply for a new license hereunder until such time has elapsed from the date of the order revoking said license as established by the Board (not to exceed two years), or if an appeal is taken from said order or revocation, not to exceed two years from the date of the order or final judgment sustaining said revocation. (1971, c. 832, s. 1; 1975, c. 425, ss. 6, 7; 1987, c. 559, ss. 2, 13; c. 827, s. 40.)

Part 4. Pesticide Applicators and Consultants.

§ 143-452. Licensing of pesticide applicators; fees.

(a) No person shall engage in the business of pesticide applicator within this State at any time unless he is licensed annually as a pesticide applicator by the Board.

(b) Applications for pesticide applicator license shall be in the form and shall contain the information prescribed by the Board. Each application shall be accompanied by a non-refundable fee of fifty dollars ($50.00) for each pesticide applicator's license. In addition, an annual inspection fee of twenty-five dollars ($25.00) shall be submitted for each aircraft to be licensed. Should any aircraft fail to pass inspection, making it necessary for a second inspection to be made, the Board shall require an additional twenty-five-dollar ($25.00) inspection fee. In addition to the required inspection, unannounced inspections may be made without charge to determine if equipment is properly calibrated and maintained in conformance with the laws and regulations. All aircraft licensed to apply pesticides shall be identified by a license plate or decal furnished by the Board at no cost to the licensee, which plate or decal shall be affixed on the aircraft in a location and manner prescribed by the Board. No applicator inspection or license fee, original or renewal, shall be charged to State agencies or local governments or their employees. Inspections of ground pesticide application equipment may be made. Any such equipment determined to be faulty or unsafe shall not be used for the purpose of applying a pesticide(s) until such time as proper repairs and/or alterations are made.

(c) Repealed by Session Laws 1981, c. 592, s. 6.

(d) The Board shall classify licenses to be issued under this Part. Separate classifications or subclassifications shall be specified for (i) ground and aerial methods of application, and (ii) State and local government units engaged in the control of rodents and insects of public health significance. The Board may include such further classifications and subclassifications as the Board considers appropriate, including provisions for licensing of apprentice pesticide applicators. For aerial applicators, a license shall be required for both the contractor and the pilot. Each classification and subclassification may be subject to separate testing procedures and requirements.

(e) Every licensed pesticide applicator who changes his address shall immediately notify the Board.

(f) If the Board finds the applicant qualified to apply pesticides in the classifications he has applied for and, if the applicant files the bond or insurance required under G.S. 143-467, and if the applicant applying for a license to engage in aerial application of pesticides has met all of the requirements of the Federal Aviation Agency to operate the equipment described in the application, the Board shall issue a pesticide applicator's

license limited to the classifications for which he is qualified. Every such license shall expire at the end of the calendar year of issue unless it has been revoked or suspended prior thereto by the Board for cause, or unless such financial security required under G.S. 143-467 is dated to expire at an earlier date, in which case said license shall be dated to expire upon expiration date of said financial security. The license may restrict the applicant to the use of a certain type or types of equipment or pesticides or to certain areas if the Board finds that the applicant is qualified to use only such type or types. If a license is not issued as applied for, the Board shall inform the applicant in writing of the reasons therefor.

(g) A pesticide applicator's license shall not be transferable. When there is a transfer of ownership, management, or operation of a business of a licensee hereunder, the new owner, manager, or operator (as the case may be) whether it be an individual, firm, partnership, corporation, or other entity, must have available a licensed pesticide applicator to supervise the pesticide application business prior to continuance of such business.

(h) Repealed by Session Laws 1987, c. 559, s. 15. (1971, c. 832, s. 1; 1973, c. 389, ss. 2, 5; 1977, c. 100; 1981, c. 592, ss. 6, 7; 1987, c. 559, ss. 14, 15; 1989, c. 544, s. 10; 2003-284, s. 35.4(a).)

Editor's Note. — Session Laws 2003-284, s. 48.1, provides: "Parts 32 through 47 of this act do not affect the rights or liabilities of the State, a taxpayer, or another person arising under a statute amended or repealed by those parts before the effective date of its amendment or repeal; nor do they affect the right to any refund or credit of a tax that accrued under the amended or repealed statute before the effective date of its amendment or repeal."

Session Laws 2003-284, s. 1.2, provides: "This act shall be known as the 'Current Operations and Capital Improvements Appropriations Act of 2003'."

Session Laws 2003-284, s. 49.3, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 2003-2005 fiscal biennium, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 2003-2005 fiscal biennium."

Session Laws 2003-284, s. 49.5 is a severability clause.

Effect of Amendments. — Session Laws 2003-284. s. 35.4(a), effective July 15, 2003, in subsection (b), substituted "fifty dollars ($50.00)" for "thirty dollars ($30.00)," and substituted "twenty-five dollars ($25.00)" for "ten dollars ($10.00)" twice.

§ 143-453. Qualifications for pesticide applicator's license; examinations.

(a) An applicant for a license must present satisfactory evidence to the Board concerning his qualifications for a pesticide applicator license. The contractor and each pilot involved in aerial application of pesticides shall be licensed.

Those qualifications, in the case of a pilot, shall include at least 125 hours and one year's flying experience as a pilot in the field of aerial pesticide application. A pilot lacking 125 hours and one year's experience as a pilot in the field of aerial pesticide application shall be licensed as an apprentice aerial pesticide applicator pilot. All aerial applications of pesticides by a licensed apprentice shall be conducted under the direct supervision of a licensed pesticide applicator pilot. The supervising pilot, while directly supervising an apprentice, shall operate out of the same airstrip as the apprentice and shall be available periodically throughout each day to provide advice and assistance to the apprentice.

(b) Each applicant shall satisfy the Board as to his knowledge of the laws and regulations governing the use and application of pesticides in the classifications he has applied for (manually or with various equipment that he may have applied for a license to operate), and as to his responsibility in carrying on the business of a pesticide applicator. Each applicant for an original license

must demonstrate upon written, or written and oral, examination to be prescribed by the Board his knowledge of pesticides, their usefulness and their hazards; his competence as a pesticide applicator; and his knowledge of the laws and regulations governing the use and application of pesticides in the classification for which he has applied.

(c) The Board shall by regulation:

(1) Designate what persons or class of persons shall be required to pass the examination in the case of an applicant that is a corporation or governmental unit or agency;

(2) Provide for license renewal examinations at intervals not more frequent than four years, or more frequently if found by the Board to be required to be necessary in order to qualify North Carolina's State pesticide control plan for federal approval. (1971, c. 832, s. 1; 1973, c. 389, s. 4; 1975, c. 425, ss. 5, 9; 1977, c. 1125; 1985, c. 163.)

§ 143-454. Solicitors, salesmen and operators; applicator's responsibility.

(a) Every licensed pesticide applicator shall submit to the Board, at such times as the Board or the Commissioner may prescribe, the names of all solicitors, salesmen, and operators employed by him.

(b) Each licensed pesticide applicator shall be responsible for solicitors, salesmen, and operators in his employment to assure that pesticides are used in a manner consistent with the intent of this Article. (1971, c. 832, s. 1; 1979, c. 448, s. 8.)

§ 143-455. Pest control consultant license.

(a) No person shall perform services as a pest control consultant without first procuring from the Board a license. Applications for a consultant license shall be in the form and shall contain the information prescribed by the Board. The application for a license shall be accompanied by a non-refundable annual fee of fifty dollars ($50.00).

(b) An applicant for a consultant license must present satisfactory evidence to the Board concerning his qualifications for such license. The Board may classify consultant licenses into one or more classifications or subclassifications based upon types of consulting services performed or to be performed. Such classifications and subclassifications may reflect the crops involved in the consulting service, the discipline or training of consultant, the discretion or lack of discretion involved in the consulting service, and the site or location of the service. Each classification and subclassification may be subject to separate testing procedures and requirements, and may be subject to its own minimum standards of training in specialized subject matter from a recognized college or university, or equivalent specialized consulting experience or training. Qualifications for licensing may be less stringent if the licensee is restricted to making recommendations contained in publications recognized by the Board as appropriate for a specific consulting classification or subclassification.

(c) Each applicant shall satisfy the Board as to his responsibility in carrying on the business of a pesticide consultant. Each applicant for an original license must demonstrate upon written, or written and oral, examination to be prescribed by the Board his knowledge of pesticides, their usefulness and their hazards; his competence as a pesticide consultant; and his knowledge of the laws and regulations governing the use and sale of pesticides.

(d) Pest control consultants shall be subject to the same provisions as pesticide applicators concerning penalties for late applications for license,

changes of address, transferability of licenses, periodic reexamination, and examinations for corporate applicants. (1971, c. 832, s. 1; 1975, c. 425, s. 10; 1987, c. 559, s. 16; 1989, c. 544, s. 12; 2003-284, s. 35.4(d).)

Editor's Note. — Session Laws 2003-284, s. 48.1, provides: "Parts 32 through 47 of this act do not affect the rights or liabilities of the State, a taxpayer, or another person arising under a statute amended or repealed by those parts before the effective date of its amendment or repeal; nor do they affect the right to any refund or credit of a tax that accrued under the amended or repealed statute before the effective date of its amendment or repeal."

Session Laws 2003-284, s. 1.2, provides: "This act shall be known as the 'Current Operations and Capital Improvements Appropriations Act of 2003'."

Session Laws 2003-284, s. 49.3, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 2003-2005 fiscal biennium, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 2003-2005 fiscal biennium."

Session Laws 2003-284, s. 49.5 is a severability clause.

Effect of Amendments. — Session Laws 2003-284. s. 35.4.(d), effective July 15, 2003, substituted "fifty dollars ($50.00)" for "thirty dollars ($30.00)" in the last sentence of subsection (a).

§ 143-456. Denial, suspension and revocation of license.

(a) The Board may deny, suspend, modify, or revoke a license issued under this Part if it finds that the applicant or licensee or his employee has committed any of the following acts, each of which is declared to be a violation of this Part:

(1) Made false or fraudulent claims through any media, misrepresenting the effect of materials or methods to be utilized;
(2) Made a pesticide recommendation or application not in accordance with the label registered pursuant to this Article;
(3) Operated faulty or unsafe equipment;
(4) Operated in a faulty, careless, or negligent manner;
(5) Violated any provision of this Article or of any rule or regulation adopted by the Board or any lawful order of the Board;
(6) Refused or neglected to keep and maintain the records required by this Article, or to make reports when and as required;
(7) Made false or fraudulent records, invoices, or reports;
(8) Operated unlicensed equipment;
(9) Used fraud or misrepresentation, or presented false information, in making an application for a license or renewal of a license;
(10) Refused or neglected to comply with any limitations or restrictions on or in a duly issued license or permit;
(11) Aided or abetted a licensed or an unlicensed person to evade the provisions of this Article, combined or conspired with such a licensed or unlicensed person to evade the provisions of this Article, or allowed one's license to be used by an unlicensed person;
(12) Made false or misleading statements during or after an inspection concerning any infestation or infection of pests found on land;
(13) Impersonated any state, county, or city inspector or official;
(14) Stored or disposed of containers or pesticides by means other than those prescribed on the labeling or by rule;
(15) Failed to pay the original or renewal license fee when due and continued to operate as an applicator, or applied pesticides without a license.
(16) Failed to pay a civil penalty assessed under this Article within 30 days after the date it is assessed.

(b) Any licensee whose license is revoked under the provisions of this Article shall not be eligible to apply for a new license hereunder until such time has

elapsed from the date of the order revoking said license as established by the Board (not to exceed two years), or if an appeal is taken from said order or revocation, not to exceed two years from the date of the order or final judgment sustaining said revocation. (1971, c. 832, s. 1; 1975, c. 425, ss. 6, 8; 1987, c. 559, s. 17; c. 827, s. 42; 1995, c. 445, s. 5.)

CASE NOTES

License Properly Revoked. — Evidence that a pesticide was found in many areas outside the application area after being aerially applied supported the Pesticide Board's finding that the applicator acted in a faulty, careless, or negligent manner, which supported the revocation of the applicator's license. Meads v. North Carolina Dep't of Agric., 349 N.C. 656, 509 S.E.2d 165 (1998).

§ 143-457: Repealed by Session Laws 1981, c. 592, s. 8.

§ 143-458. Rules and regulations concerning methods of application.

(a) The Board may adopt rules prescribing the method to be used in the application of pesticides and the times and places pesticides may be applied. The Board may adopt rules restricting or prohibiting the sale and use of pesticides in designated areas during specified time periods. In adopting rules under this subsection, the Board shall consider factors required to prevent damage or injury to the following by the drift or misapplication of pesticides:

(1) Plants, including forage plants, on adjacent or nearby land;
(2) Wildlife in the adjoining or nearby areas;
(3) Fish and other aquatic life in waters in reasonable proximity to the area to be treated; or
(4) Other animals, persons or beneficial insects.

In issuing such regulations, the Board shall give consideration to pertinent research findings and recommendations of other agencies of this State or of the federal government.

(b) The Board may by regulation require that notice of a proposed application of a pesticide be given to landowners adjoining the property to be treated or in the immediate vicinity thereof, if it finds that such notice is necessary to carry out the purpose of this Article.

(c) A pesticide applicator, a pesticide applicator's employee, or an agent of a pesticide applicator shall not apply any substance that:

(1) Has the active ingredients contained in a pesticide that is registered pursuant to G.S. 143-442, and
(2) Is not registered as a pesticide pursuant to G.S. 143-442.

(d) A pesticide applicator, a pesticide applicator's employee, or an agent of a pesticide applicator shall not combine any substance whose application is prohibited under subsection (c) of this section with any other substance to apply as a pesticide or to apply for any other reason, whether the combination occurs before, during, or after the application.

(e) Any person who violates subsection (c) or (d) of this section shall be guilty of a Class 2 misdemeanor, which shall include a fine of up to one thousand dollars ($1,000) per violation. (1971, c. 832, s. 1; 1987, c. 827, s. 43; 1995, c. 478, s. 1.)

§ 143-459. Reporting of shipments and volumes of pesticides.

Every person selling pesticides directly to the consumer shall file with the Board, in such manner and with such frequency as the Board may prescribe,

reports of purchases, sales and shipments of restricted use pesticides and other pesticides designated by the Board. Failure to file any report when due shall be cause for suspension or revocation of any license or registration issued under this Article, or for denial of the issuance or renewal of any such license or registration, and shall be a misdemeanor, punishable as provided by G.S. 143-469. The time for reporting may be extended for an additional 15 days for cause, upon written request to the Board. All reports provided under this Part are provided solely for the purposes of the Board. (1971, c. 832, s. 1; 1987, c. 559, s. 2.)

Part 5. General Provisions.

§ 143-460. Definitions.

As used in this Article, unless the context otherwise requires:

(1) The term "active ingredient" means
   a. In the case of a pesticide other than a plant regulator, defoliant, or desiccant, an ingredient which will prevent, destroy, repel, or mitigate insects, nematodes, fungi, rodents, weeds, or other pests;
   b. In the case of a plant regulator, an ingredient which, through physiological action, will accelerate or retard the rate of growth or rate of maturation or otherwise alter the behavior of ornamental or crop plants or the produce thereof;
   c. In the case of a defoliant, an ingredient which will cause the leaves or foliage to drop from a plant;
   d. In the case of a desiccant, an ingredient which will artificially accelerate the drying of a plant tissue.

(2) The term "adulterated" shall apply to any pesticide if its strength or purity falls below the professed standard or quality as expressed on labeling or under which it is sold, or if any substance has been substituted wholly or in part for the article, or if any valuable constituent of the article has been wholly or in part abstracted.

(2a) "Antimicrobial pesticide" means any substance or mixture of substances intended for preventing, destroying, repelling, or mitigating any microorganism pest.

(3) Reserved.

(4) "Board" means the North Carolina Pesticide Board.

(5) "Commissioner" means the North Carolina Commissioner of Agriculture.

(6) "Committee" means the Pesticide Advisory Committee.

(7) The term "defoliant" means any substance or mixture of substances intended for causing the leaves or foliage to drop from a plant, with or without causing abscission.

(8) The term "desiccant" means any substance or mixture of substances intended for artificially accelerating the drying of plant tissues.

(9) The term "device" means any instrument or contrivance intended for trapping, destroying, repelling, or mitigating insects or rodents or destroying, repelling, or mitigating fungi, weeds, nematodes, or such other pests as may be designated by the Board, but not including equipment used for the application of pesticides when sold separately therefrom.

(10) Repealed by Session Laws 1995, c. 445, s. 6.

(11) "Equipment" means any type of ground, water or aerial equipment, device, or contrivance using motorized, mechanical or pressurized power and used to apply any pesticide on land and anything that may be growing, habitating or stored on or in such land, but shall not

include any pressurized hand-sized household device used to apply any pesticide or any equipment, device or contrivance of which the person who is applying the pesticide is the source of power or energy in making such pesticide application.

(12) The term "fungus" means any non-chlorophyll-bearing thallophyte (that is any non-chlorophyll-bearing plant of a lower order than mosses and liverworts), as for example, rust, smut, mildew, mold, yeast, and bacteria, except those on or in living man or other animals and those on or in processed food, beverages, or pharmaceuticals.

(13) The term "fungicide" means any substance or mixture of substances intended for preventing, destroying, repelling or mitigating any fungi.

(14) The term "herbicide" means any substance or mixture of substances intended for preventing, destroying, repelling or mitigating any weed.

(15) The term "inert ingredient" means an ingredient which is not an active ingredient.

(16) The term "ingredient statement" means

a. A statement of the name and percentage of each active ingredient, together with the total percentage of the inert ingredients, in the pesticide; and

b. In case the pesticide contains arsenic in any form, a statement of the percentages of total and water-soluble arsenic, each calculated as elemental arsenic.

(17) The term "insect" means any of the numerous small invertebrate animals generally having the body more or less obviously segmented, for the most part belonging to the class Insecta, comprising six-legged, usually winged forms, as, for example, beetles, bugs, wasps, flies, and to other allied classes of arthropods whose members are wingless and usually have more than six legs, as, for example, spiders, mites, ticks, centipedes, and wood lice.

(18) The term "insecticide" means any substance or mixture of substances intended for preventing, destroying, repelling, or mitigating any insects which may be present in any environment whatsoever.

(19) The term "label" means the written, printed, or graphic matter on, or attached to, the pesticide (or device) or the immediate container thereof, and the outside container or wrapper of the retail package, if any there be, of the pesticide (or device).

(20) The term "labeling" means all labels and other written, printed, or graphic matter:

a. Upon the pesticide (or device) or any of its containers or wrappers;

b. Accompanying the pesticide (or device) at any time;

c. To which reference is made on the label or in literature accompanying the pesticide (or device) except when accurate, nonmisleading reference is made to current official publications of the United States Department of Agriculture or Interior, the United States Public Health Service, state experiment stations, state agricultural colleges, or other similar federal institutions or official agencies of this State or other states authorized by law to conduct research in the field of pesticides.

(21) "Land" means all land and water areas, including airspace, and all plants, animals, structures, buildings, devices and contrivances, appurtenant thereto or situated thereon, fixed or mobile, including any used for transportation.

(22) "Manufacturer" includes any person engaged in the business of importing, producing, preparing, formulating, mixing, or processing pesticides.

(22a) "Material Safety Data Sheet" or "MSDS" means a chemical information sheet which would satisfy the requirements of the Hazardous

Chemicals Right-to-Know Act, Article 18, Chapter 95 of the General Statutes, or any law enacted in substitution therefor.

(23) The term "misbranded" shall apply:

a. To any pesticide or device if its labeling bears any statement, design, or graphic representation relative thereto or to its ingredients which is false or misleading in any particular;

b. To any pesticide:

1. If it is an imitation of or is offered for sale under the name of another pesticide;
2. If its labeling bears any reference to registration under this Article;
3. If the labeling accompanying it does not contain instructions for use which are necessary and, if complied with, adequate for the protection of the public;
4. If the label does not contain a warning or caution statement which may be necessary and, if complied with, adequate to prevent injury to living man and other vertebrate animals;
5. If the label does not bear an ingredient statement on that part of the immediate container and on the outside container or wrapper, if there be one, through which the ingredient statement on the immediate container cannot be clearly read, of the retail package which is presented or displayed under customary conditions of purchase except that the Board may permit the statement to appear prominently on some other part of the container, if the size or form of the container make it impractical to comply with the requirements of this subparagraph;
6. If any word, statement, or other information required by or under the authority of this Article to appear on the labeling is not prominently placed thereon with such conspicuousness (as compared with other words, statements, designs, or graphic matter in the labeling) and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use; or
7. If in the case of an insecticide, nematicide, fungicide, or herbicide, when used as directed or in accordance with commonly recognized practice, it shall be injurious to living man or other vertebrate animals or vegetation, except weeds, to which it is applied, or to the person applying such pesticides or
8. In the case of a plant regulator, defoliant, or desiccant when used as directed it shall be injurious to living man or other vertebrate animals, or vegetation to which it is applied, or to the person applying such pesticides, except that physical or physiological effects on plants or parts thereof shall not be deemed to be injury, when this is the purpose for which the plant regulator, defoliant, or desiccant was applied, in accordance with the label claims and recommendations.

(24) The term "nematicide" means any substance or mixture of substances intended for preventing, destroying, repelling, or mitigating nematodes.

(25) The term "nematode" means invertebrate animals of the phylum nemathelminthes and class Nematoda, that is, unsegmented round worms with elongated, fusiform, or saclike bodies covered with cuticle, and inhabiting soil, water, plants or plant parts; may also be called nemas or eelworms.

(25a) The phrase "packaged, labeled and released for shipment" means the point in the production and marketing process of a pesticide where the pesticide has been produced, and it is the intent of the producer that such product be introduced into commerce for direct retail sale.

(26) A "person" is any person, including (but not limited to) an individual, firm, partnership, association, company, joint-stock association, public or private institution, municipality or county or local government unit (as defined in G.S. 143-215.40(b)), state or federal governmental agency, or private or public corporation organized under the laws of this State or the United States or any other state or country.

(26a) The term "pest" means any insect, rodent, nematode, fungus, weed or any other noxious or undesirable microorganism or macroorganism, except viruses, bacteria, or other microorganisms on or in living persons or other living animals.

(27) "Pest control consultant" means any person, who, for a fee, offers or supplies technical advice, supervision, or aid, or recommends the use of specific pesticides for the purpose of controlling insects, plant diseases, weeds, and other pests, but does not include any person regulated by the North Carolina Structural Pest Control Act (G.S. Chapter 106, Article 4C).

(28) The term "pesticide" means:

a. Any substance or mixture of substances intended for preventing, destroying, repelling, or mitigating any pest, and

b. Any substance or mixture of substances intended for use as a plant regulator, defoliant, or desiccant.

(29) "Pesticide applicator" means any person who owns or operates a pesticide application business or who provides, for compensation, a service that includes the application of pesticides upon the lands or properties of another; any public operator; any golf course operator; any seed treater; any person engaged in demonstration or research pest control; and any other person who applies pesticides for compensation and is not exempt from this definition. It does not include:

a. Any person who uses or supervises the use of a pesticide (i) only for the purpose of producing an agricultural commodity on property owned or rented by him or his employer, or (ii) only (if applied without compensation other than trading of personal services between producers of agricultural commodities) on the property of another person, or (iii) only for the purposes set forth in (i) and (ii) above.

b. Any person who applies pesticides for structural pest control, as defined in the North Carolina Structural Pest Control Law (G.S. Chapter 106, Article 4C).

c. Any person certified by the Water Treatment Facility Operators Board of Certification under Article 2 of Chapter 90A of the General Statutes or by the Wastewater Treatment Operators Plant Certification Commission under Article 3 of Chapter 90A of the General Statutes who applies pesticides labeled for the treatment of water or wastewater.

d. Any person who applies antimicrobial pesticides that are not classified for restricted use and are not being used for agricultural, horticultural, or forestry purposes.

e. Any person who applies a general use pesticide to the property of another as a volunteer, without compensation.

f. Any person who is employed by a licensed pesticide applicator.

(30) The term "pesticide dealer" means any person who is engaged in the business of distributing, selling, offering for sale, or holding for sale

restricted use pesticides for distribution directly to users. The term pesticide dealer does not include:

a. Persons whose sales of pesticides are limited to pesticides in consumer-sized packages (as defined by the Board) which are labeled and intended for home and garden use only and are not restricted use pesticides, or

b. Practicing veterinarians and physicians who prescribe, dispense, or use pesticides in the performance of their professional services.

(31) Repealed by Session Laws 1973, c. 389, s. 3.

(32) The term "plant regulator" means any substance or mixture of substances, intended through physiological action, for accelerating or retarding the rate of growth or rate of maturation, or for otherwise altering the behavior of ornamental or crop plants or the produce thereof, but shall not include substances to the extent that they are intended as plant nutrients, trace elements, nutritional chemicals, plant inoculants, and soil amendments.

(33) "Public operator" means any person in charge of any equipment used by public utilities (as defined by General Statutes Chapter 62), State agencies, municipal corporations, or other governmental agencies applying pesticides.

(34) The term "registrant" means the person registering any pesticide pursuant to the provisions of this Article.

(35) The term "restricted use pesticide" or "pesticide classified for restricted use" means any pesticide or use classified as restricted by the Administrator of the United States Environmental Protection Agency or other pesticide or use which the Board has designated as such pursuant to G.S. 143-440.

(36) The term "rodenticide" means any substance or mixture of substances intended for preventing, destroying, repelling, attracting, or mitigating rodents or any other vertebrate animal which the Board shall declare to be a pest.

(36a) The phrase "to use any pesticide in a manner inconsistent with its labeling" means to use any pesticide in a manner not permitted by the labeling; provided that the phrase shall not include:

a. Applying a pesticide at any dosage, concentration, or frequency less than that specified on the labeling,

b. Applying a pesticide against any target pest not specified on the labeling if the application is to the crop, animal, or site specified on the labeling, unless the labeling specifically states that the pesticide may be used only for the pests specified on the labeling,

c. Employing any method of application not prohibited by the labeling, or

d. Mixing pesticides or mixing a pesticide with a fertilizer when such mixture is not prohibited by the labeling.

(37) The term "weed" means any plant or part thereof which grows where not wanted.

(38) "Wildlife" means all living things that are neither human, domesticated, nor, as defined in this Article, pests; including but not limited to mammals, birds, and aquatic life. (1971, c. 832, s. 1; 1973, c. 389, s. 3; 1975, c. 425, s. 11; 1979, c. 448, ss. 9, 10; 1981, c. 592, ss. 9-11; 1987, c. 559, ss. 2, 18-20; 1991, c. 87, ss. 1, 2; 1995, c. 445, ss. 6, 7.)

CASE NOTES

Cited in Meads v. North Carolina Dep't of Agric., 349 N.C. 656, 509 S.E.2d 165 (1998).

§ 143-461. General powers of Board.

In addition to the specific powers prescribed elsewhere in this Article, and for the purpose of carrying out its duties, the Board shall have the power, at any time and from time to time:

(1) To adopt from time to time and to modify and revoke official regulations interpreting and applying the provisions of this Article and rules of procedure establishing and amplifying the procedures to be followed in the administration of this Article. Unless the Board deems there are overriding policy considerations involved, any regulation of the Board, which will in the judgment of the Board result in severe curtailment of the usefulness or value of inventories or equipment in the hands of persons licensed under this Article, should be given a future effective date so as to minimize undue potential economic loss to licensees;

(2) To authorize the Commissioner by proclamation (i) to suspend or implement, in whole or in part, particular regulations of the Board which may be affected by variable conditions, or (ii) to suspend the application of any provision of this Part to any federal or State agency if it is determined by the Commissioner that emergency conditions require such action.

(3) To conduct such investigations as it may reasonably deem necessary to carry out its duties as prescribed by this Article;

(4) To conduct public hearings in accordance with the procedures prescribed by this Article;

(5) To delegate such of the powers of the Board as the Board deems necessary (other than its powers to adopt rules and regulations of any kind) to one or more of its members, to the Commissioner, or to any qualified employee of the Board or of the Commissioner; provided, that the provisions of any such delegation of power shall be set forth in the official regulations of the Board. Any person to whom a delegation of power is made to conduct a hearing shall report the hearing with its evidence and record to the Board for decision;

(6) To call upon the Attorney General for such legal advice and assistance as is necessary to the functioning of the Board;

(7) To institute such actions in the superior court in the county in which any defendant resides, or has his or its principal place of business, as the Board may deem necessary for the enforcement of any of the provisions of this Article or of any official actions of the Board, including proceedings to enforce subpoenas or for the punishment of contempt of the Board. Upon violation of any of the provisions of this Article, or of any regulation of the Board adopted under the authority of this Article the Board may, either before or after the institution of any other proceedings (civil or criminal), institute a civil action in the superior court in the name of the State for injunctive relief to restrain the violation and for such other or further relief in the premises as said court shall deem proper. Neither the institution of the action nor any of the proceedings thereon shall relieve any party to such proceedings from any other penalty or remedy prescribed by this Article for any violation of same;

(8) To agree upon or enter into any settlements or compromises of any actions and to prosecute any appeals or other proceedings. (1971, c. 832, s. 1; 1973, c. 389, s. 6; 1987, c. 827, s. 44.)

§ 143-462. Procedures for revocations and related actions affecting licenses.

In all proceedings, the effect of which would be to revoke, suspend, deny, or withhold renewal of a license issued under Part 3 or Part 4 of this Article, or to deny permission to take an examination for such a license, the provisions of Chapter 150B of the General Statutes shall be applicable. (1971, c. 832, s. 1; 1987, c. 827, s. 1.)

§ 143-463. Adoption and publication of rules.

Chapter 150B of the General Statutes governs the adoption of rules under this Article and the publication of those rules. (1971, c. 832, s. 1; 1975, 2nd Sess., c. 983, s. 84; 1979, c. 448, s. 11; 1987, c. 827, s. 45.)

§ 143-464. Procedures concerning registration of pesticides.

A denial, suspension, or cancellation of a registration of a pesticide shall be made in accordance with the procedures in Chapter 150B of the General Statutes for denying, suspending, or canceling a license. (1971, c. 832, s. 1; 1979, c. 448, s. 12; 1987, c. 827, s. 46.)

§ 143-465. Reciprocity; intergovernmental cooperation.

(a) The Board may issue any license required by this Article on a reciprocal basis with other states without examination to a nonresident who is licensed in another state substantially in accordance with any of the provisions of the Article, provided that financial security as provided for in G.S. 143-467 is met.

(b) The Board may cooperate or enter into formal agreements with any other agency of this State or its subdivisions or with any agency of any other state or of the federal government for the purpose of enforcing any of the provisions of this Article.

(c) In order to avoid confusion resulting from diverse requirements and to avoid increased costs to the people of this State due to the necessity of complying with such diverse requirements in the manufacture and sale of such pesticides, it is desirable that there should be uniformity between the requirements of the several states and the federal government relating to such pesticides. To this end the Board is authorized, after public hearing, to adopt by regulation such regulations, applicable to and in conformity with the primary standards established by this Article, as have been or may be prescribed with respect to pesticides by departments or agencies of the United States government.

(d) No county, city, or other political subdivision of the State shall adopt or continue in effect any ordinance, rule, regulation, or resolution regulating the use, sale, distribution, storage, transportation, disposal, formulation, labeling, registration, manufacture, or application of pesticides in any area subject to regulation by the Board pursuant to this Article. Nothing in this section shall prohibit a county, city, or other political subdivision of the State from exercising its planning and zoning authority under Article 19 of Chapter 160A of the General Statutes or Article 18 of Chapter 153A of the General Statutes, or from exercising its fire prevention or inspection authority. (1971, c. 832, s. 1; 1995, c. 445, s. 8.)

§ 143-466. Records; information; inspection; enforcement.

(a) The Board shall require licensees to maintain records with respect to the sale and application of such pesticides as it may from time to time prescribe. Such relevant information as the Board may deem necessary may be specified by rule. The records shall be kept for a period of three years from the date of the application of the pesticide to which the records refer, and shall be available for inspection and copying by the Board or its agents at its request.

(b) The Board may publish information regarding injury which may result from improper application or use of pesticides and the methods and precautions designed to prevent such injury.

(c) The Board may provide for inspection of any equipment used for application of pesticides and may require repairs or other changes before its further use for pesticide application. A list of requirements that equipment shall meet may be adopted by the Board by regulation.

(d) The Board may provide for inspection of any place of business where pesticides are stored or sold and may require changes in methods of handling, displaying and storing of all pesticides. A list of requirements that places of business must meet may be adopted by regulation of the Board.

(e) For the purpose of carrying out the provisions of this Article, inspectors designated by the Board may enter upon any public or private premises at reasonable times, in order:

(1) To have access for the purpose of inspecting the premises and any equipment subject to this Article and such premises on which such equipment is kept or stored;
(2) To inspect lands actually or reported to be exposed to pesticides;
(3) To inspect storage or disposal areas;
(4) To inspect or investigate complaints of injury to humans, land or plants; or
(5) To sample pesticides being applied, or to be applied.

No person shall refuse entry or access to any authorized representative of the Board who requests entry for purposes of inspection, and who presents appropriate credentials, nor shall any person obstruct, hamper or interfere with any such representative while in the process of carrying out his official duties. Should the Board or its designated agent be denied access to any land where such access was sought for the purposes set forth in this Article, the Board may apply to any court of competent jurisdiction for a search warrant authorizing access to such land for said purposes. The court may upon such application issue the search warrant for the purposes requested. (1971, c. 832, s. 1; 1995, c. 445, s. 9.)

§ 143-467. Financial responsibility.

(a) The Board may require from a licensee or an applicant for a license under this Article evidence of his financial ability to properly indemnify persons suffering damage from the use or application of pesticides, in the form of a surety bond, liability insurance or cash deposit. The amount of this bond, insurance or deposit shall be determined by the Board, in light of the risk of damage. The indemnification requirements may extend to damage to persons and property from equipment used (including aircraft).

(b) The Board may also require a reasonable performance bond with satisfactory surety to secure the performance of contractual obligations of the licensee, with respect to application of pesticides. Any person injured by the breach of any such obligation or any person damaged by pesticides or by equipment used in their application shall be entitled to sue on the bond in his own name in any court of competent jurisdiction to recover the damages he may have sustained.

(c) Any regulations adopted by the Board pursuant to G.S. 143-461 to implement this section may provide for such conditions, limitations and requirements concerning the financial responsibility required by this section as the Board deems necessary, including but not limited to notice of reduction or cancellation of coverage, deductible provisions, and acceptability of surety. Such regulations may classify financial responsibility requirements according to the separate license classifications and subclassifications prescribed by the Board pursuant to G.S. 143-452 and the dealer category (Part 3 of this Article). (1971, c. 832, s. 1.)

§ 143-468. Disposition of fees and charges.

(a) Except as provided in G.S. 143-469 and in subsection (b), all fees and charges received by the Board under this Article shall be credited to the Department of Agriculture and Consumer Services for the purpose of administration and enforcement of this Article.

(b) The Pesticide Environmental Trust Fund is established as a nonreverting account within the Department of Agriculture and Consumer Services. The Department of Agriculture and Consumer Services shall administer the Fund. The additional assessment imposed by G.S. 143-442(b) on the registration of a brand or grade of pesticide shall be credited to the Fund. The Department shall distribute money in the Fund as follows:

(1) Two and one-half percent (2.5%) to North Carolina State University Cooperative Extension Service to enhance its agromedicine efforts in cooperation with East Carolina University School of Medicine.

(2) Two and one-half percent (2.5%) to East Carolina University School of Medicine to enhance its agromedicine efforts in cooperation with North Carolina State University Cooperative Extension Service.

(3) Twenty percent (20%) to North Carolina State University, Department of Toxicology, to establish and maintain an extension agromedicine specialist position.

(4) Seventy-five percent (75%) to the Department of Agriculture and Consumer Services for its environmental programs, as directed by the Board, including establishing a pesticide container management program to enhance its pesticide disposal program and its water quality initiatives. (1971, c. 832, s. 1; 1993, c. 481, s. 1; 1997-261, s. 92; 1998-215, s. 26(b).)

§ 143-469. Penalties.

(a) Any person who shall be adjudged to have violated any provision of this Article, or any regulation of the Board adopted pursuant to this Article, shall be guilty of a Class 2 misdemeanor. In addition, if any person continues to violate or further violates any provision of this Article after written notice from the Board, the court may determine that each day during which the violation continued or is repeated constitutes a separate violation subject to the foregoing penalties.

(b) A civil penalty of not more than two thousand dollars ($2,000) may be assessed by the Board against any person who violates or directly causes a violation of any provision of this Article or any rule adopted pursuant to this Article.

(c) Proceedings for the assessment of civil penalties under this section shall be governed by Chapter 150B of the North Carolina General Statutes. If the person assessed a civil penalty fails to pay the penalty to the North Carolina Department of Agriculture and Consumer Services, the Board may institute an action in the superior court of the county in which the person resides or has his principal place of business to recover the unpaid amount of said penalty. An

action to recover a civil penalty under this section shall not relieve any party from any other penalty prescribed by law.

(d) Notwithstanding any other provision of this Article, the maximum penalty which may be assessed under this section against any person referred to in G.S. 143-460(29)a shall not exceed five hundred dollars ($500.00). Penalties may be assessed under this section against a person referred to in G.S. 143-460(29)a only for willful violations.

(e) The clear proceeds of civil penalties assessed pursuant to this section shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2. (1971, c. 832, s. 1; 1981, c. 592, s. 12; 1987, c. 559, s. 21; c. 827, s. 1; 1993, c. 539, s. 1035; 1994, Ex. Sess., c. 24, s. 14(c); 1995, c. 445, s. 10; 1997-261, s. 109; 1998-215, s. 26(a).)

CASE NOTES

Applied in Meads v. North Carolina Dep't of Agric., 349 N.C. 656, 509 S.E.2d 165 (1998).

§ 143-470: Repealed by Session Laws 1981, c. 592, s. 13.

§ 143-470.1. Report of minor violations in discretion of Board or Commissioner.

Nothing in this Article shall be construed to require the Board or the Commissioner to initiate, or attempt to initiate, any criminal or administrative proceedings under this Article for minor violations of this Article whenever the Board or Commissioner believes that the public interest will be adequately served in the circumstances by a suitable written notice or warning. (1979, c. 448, s. 13.)

Article 53.

Commission for Mental Health, Mental Retardation and Substance Abuse Services.

§§ 143-471 through 143-475: Repealed by Session Laws 1975, c. 879, s. 18.

§ 143-475.1: Repealed by Session Laws 1985, c. 589, s. 44.

Article 54.

North Carolina Council on State Goals and Policy Act.

§§ 143-476 through 143-489: Repealed by Session Laws 1975, c. 879, s. 9.

Editor's Note. — Former sections 143-483 through 143-489 had been reserved for future codification purposes.

Article 55.

The Southern Growth Policies Agreement.

§ 143-490. Compact enacted into law.

The Southern Growth Policies Agreement is hereby enacted into law and entered into by this State with all other states legally joining therein in the form substantially as follows. (1973, c. 200, s. 1.)

§ 143-491. Article I. Findings and Purposes.

(a) The party states find that the South has a sense of community based on common social, cultural and economic needs and fostered by a regional tradition. There are vast potentialities for mutual improvement of each state in the region by cooperative planning for the development, conservation and efficient utilization of human and natural resources in a geographic area large enough to afford a high degree of flexibility in identifying and taking maximum advantage of opportunities for healthy and beneficial growth. The independence of each state and the special needs of subregions are recognized and are to be safeguarded. Accordingly, the cooperation resulting from this Agreement is intended to assist the states in meeting their own problems by enhancing their abilities to recognize and analyze regional opportunities and take account of regional influences in planning and implementing their public policies.

(b) The purposes of this Agreement are to provide:

(1) Improved facilities and procedures for study, analysis and planning of governmental policies, programs and activities of regional significance.

(2) Assistance in the prevention of interstate conflicts and the promotion of regional cooperation.

(3) Mechanisms for the coordination of state and local interests on a regional basis.

(4) An agency to assist the states in accomplishing the foregoing. (1973, c. 200, s. 1.)

§ 143-492. Article II. The Board.

(a) There is hereby created the Southern Growth Policies Board, hereinafter called "the Board."

(b) The Board shall consist of five members from each party state, as follows:

(1) The governor.

(2) Two members of the state legislature, one appointed by the presiding officer of each house of the legislature or in such other manner as the legislature may provide. For the Senate of North Carolina, the General Assembly provides that the appointment shall be made by the President Pro Tempore of the Senate.

(3) Two residents of the state who shall be appointed by the governor to serve at his pleasure.

(c) In making appointments pursuant to paragraph (b)(3), a governor shall, to the greatest extent practicable, select persons who, along with the other members serving pursuant to paragraph (b), will make the state's representation on the Board broadly representative of the several socioeconomic elements within his state.

(d)(1) A governor may be represented by an alternate with power to act in his place and stead, if notice of the designation of such alternate is given to the Board in such manner as its bylaws may provide.

(2) A legislative member of the Board may be represented by an alternate with power to act in his place and stead, unless the laws of his state prohibit such representation and if notice of the designation of such alternate is given to the Board in such manner as its bylaws may provide. An alternate for a legislative member of the Board shall be selected by the member from among the members of the legislative house in which he serves.

(3) A member of the Board serving pursuant to paragraph (b) (3) of this Article may be represented by another resident of his state who may participate in his place and stead, except that he shall not vote: Provided that notice of the identity and designation of the representative selected by the member is given to the Board in such manner as its bylaws may provide. (1973, c. 200, s. 1; 1995, c. 490, s. 50.)

§ 143-493. Article III. Powers.

(a) The Board shall prepare and keep current a statement of regional objectives, including recommended approaches to regional problems. The statement may also identify projects deemed by the Board to be of regional significance. The statement shall be available in its initial form two years from the effective date of this Agreement and shall be amended or revised no less frequently than once every six years. The statement shall be in such detail as the Board may prescribe. Amendments, revisions, supplements or evaluations may be transmitted at any time. An annual commentary on the statement shall be submitted at a regular time to be determined by the Board.

(b) In addition to powers conferred on the Board elsewhere in this Agreement, the Board shall have the power to make or commission studies, investigations and recommendations with respect to:

(1) The planning and programming of projects of interstate or regional significance.

(2) Planning and scheduling of governmental services and programs which would be of assistance to the orderly growth and prosperity of the region, and to the well-being of its population.

(3) Effective utilization of such federal assistance as may be available on a regional basis or as may have an interstate or regional impact.

(4) Measures for influencing population distribution, land use, development of new communities and redevelopment of existing ones.

(5) Transportation patterns and systems of interstate and regional significance.

(6) Improved utilization of human and natural resources for the advancement of the region as a whole.

(7) Any other matters of a planning, data collection or informational character that the Board may determine to be of value to the party states. (1973, c. 200, s. 1.)

§ 143-494. Article IV. Avoidance of Duplication.

(a) To avoid duplication of effort and in the interest of economy, the Board shall make use of existing studies, surveys, plans and data and other materials in the possession of the governmental agencies of the party states and their respective subdivisions or in the possession of other interstate agencies. Each such agency, within available appropriations and if not expressly prevented or limited by law, is hereby authorized to make such materials available to the Board and to otherwise assist it in the performance of its functions. At the request of the Board, each such agency is further authorized to provide information regarding plans and programs affecting the region, or any subarea

thereof, so that the Board may have available to it current information with respect thereto.

(b) The Board shall use qualified public and private agencies to make investigations and conduct research, but if it is unable to secure the undertaking of such investigations or original research by a qualified public or private agency, it shall have the power to make its own investigations and conduct its own research. The Board may make contracts with any public or private agencies or private persons or entities for the undertaking of such investigations or original research within its purview.

(c) In general, the policy of paragraph (b) of this Article shall apply to the activities of the Board relating to its statement of regional objectives, but nothing herein shall be construed to require the Board to rely on the services of other persons or agencies in developing the statement of regional objectives or any amendment, supplement or revision thereof. (1973, c. 200, s. 1.)

§ 143-495. Article V. Advisory Committees.

The Board shall establish a Local Governments Advisory Committee. In addition, the Board may establish advisory committees representative of subregions of the South, civic and community interests, industry, agriculture, labor or other categories or any combinations thereof. Unless the laws of a party state contain a contrary requirement, any public official of the party state or a subdivision thereof may serve on an advisory committee established pursuant hereto and such service may be considered as a duty of his regular office or employment. (1973, c. 200, s. 1.)

§ 143-496. Article VI. Internal Management of the Board.

(a) The members of the Board shall be entitled to one vote each. No action of the Board shall be binding unless taken at a meeting at which a majority of the total number of votes on the Board are cast in favor thereof. Action of the Board shall be only at a meeting at which a majority of the members or their alternates are present. The Board shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the Board may delegate the exercise of any of its powers relating to internal administration and management to an Executive Committee or the Executive Director. In no event shall any such delegation include final approval of:

(1) A budget or appropriation request.

(2) The statement of regional objectives or any amendment, supplement or revision thereof.

(3) Official comments on or recommendations with respect to projects of interstate or regional significance.

(4) The annual report.

(b) To assist in the expeditious conduct of its business when the full Board is not meeting, the Board shall elect an Executive Committee of not to exceed 23 members, including at least one member from each party state. The Executive Committee, subject to the provisions of this Agreement and consistent with the policies of the Board, shall be constituted and function as provided in the bylaws of the Board. One half of the membership of the Executive Committee shall consist of governors, and the remainder shall consist of other members of the Board, except that at any time when there is an odd number of members on the Executive Committee, the number of governors shall be one less than half of the total membership. The members of the Executive Committee shall serve for terms of two years, except that members elected to the first Executive Committee shall be elected as follows: One less than half of the membership for two years and the remainder for one

year. The Chairman, Chairman-Elect, Vice-Chairman and Treasurer of the Board shall be members of the Executive Committee and anything in this paragraph to the contrary notwithstanding shall serve during their continuance in these offices. Vacancies in the Executive Committee shall not affect its authority to act, but the Board at its next regularly ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term.

(c) The Board shall have a seal.

(d) The Board shall elect, from among its members, a Chairman, a Chairman-Elect, a Vice-Chairman and a Treasurer. Elections shall be annual. The Chairman-Elect shall succeed to the office of Chairman for the year following his service as Chairman-Elect. For purposes of the election and service of officers of the Board, the year shall be deemed to commence at the conclusion of the annual meeting of the Board and terminate at the conclusion of the next annual meeting thereof. The Board shall provide for the appointment of an Executive Director. Such Executive Director shall serve at the pleasure of the Board, and together with the Treasurer and such other personnel as the Board may deem appropriate shall be bonded in such amounts as the Board shall determine. The Executive Director shall be Secretary.

(e) The Executive Director, subject to the policy set forth in this Agreement and any applicable directions given by the Board, may make contracts on behalf of the Board.

(f) Irrespective of the civil service, personnel or other merit system laws of any of the party states, the Executive Director, subject to the approval of the Board, shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the Board, and shall fix the duties and compensation of such personnel. The Board in its bylaws shall provide for the personnel policies and programs of the Board.

(g) The Board may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party jurisdictions or their subdivisions.

(h) The Board may accept for any of its purposes and functions under this Agreement any and all donations, and grants of money, equipment, supplies, materials, and services, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association, foundation, or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted by the Board pursuant to this paragraph or services borrowed pursuant to paragraph (g) of this Article shall be reported in the annual report of the Board. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

(i) The Board may establish and maintain such facilities as may be necessary for the transacting of its business. The Board may acquire, hold, and convey real and personal property and any interest therein.

(j) The Board shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The Board shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party states.

(k) The Board annually shall make to the governor and legislature of each party state a report covering the activities of the Board for the preceding year. The Board at any time may make such additional reports and transmit such studies as it may deem desirable.

(*l*) The Board may do any other or additional things appropriate to implement powers conferred upon it by this Agreement. (1973, c. 200, s. 1; 1979, c. 35, s. 1.)

§ 143-497. Article VII. Finance.

(a) The Board shall advise the governor or designated officer or officers of each party state of its budget of estimated expenditures for such period as may be required by the laws of that party state. Each of the Board's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states.

(b) The total amount of appropriation requests under any budget shall be apportioned among the party states. Such apportionment shall be in accordance with the following formula:

(1) One third in equal shares,

(2) One third in the proportion that the population of a party state bears to the population of all party states, and

(3) One third in the proportion that the per capita income in a party state bears to the per capita income in all party states.

In implementing this formula, the Board shall employ the most recent authoritative sources of information and shall specify the sources used.

(c) The Board shall not pledge the credit of any party state. The Board may meet any of its obligations in whole or in part with funds available to it pursuant to Article VI(h) of this Agreement, provided that the Board takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in such manner. Except where the Board makes use of funds available to it pursuant to Article VI(h), or borrows pursuant to this paragraph, the Board shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same. The Board may borrow against anticipated revenues for terms not to exceed two years, but in any such event the credit pledged shall be that of the Board and not of a party state.

(d) The Board shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Board shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the Board shall be audited yearly by a certified or licensed public accountant, and the report of the audit shall be included in and become part of the annual report of the Board.

(e) The accounts of the Board shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the Board.

(f) Nothing contained herein shall be construed to prevent Board compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the Board. (1973, c. 200, s. 1.)

§ 143-498. Article VIII. Cooperation with the Federal Government and Other Governmental Entities.

Each party state is hereby authorized to participate in cooperative or joint planning undertakings with the federal government, and any appropriate agency or agencies thereof, or with any interstate agency or agencies. Such participation shall be at the instance of the governor or in such manner as state law may provide or authorize. The Board may facilitate the work of state representatives in any joint interstate or cooperative federal-state undertaking authorized by this Article, and each such state shall keep the Board advised of its activities in respect of such undertakings, to the extent that they have interstate or regional significance. (1973, c. 200, s. 1.)

§ 143-499. Article IX. Subregional Activities.

The Board may undertake studies or investigations centering on the problems of one or more selected subareas within the region: Provided that in

its judgment, such studies or investigations will have value as demonstrations for similar or other areas within the region. If a study or investigation that would be of primary benefit to a given state, unit of local government, or intrastate or interstate area is proposed, and if the Board finds that it is not justified in undertaking the work for its regional value as a demonstration, the Board may undertake the study or investigation as a special project. In any such event, it shall be a condition precedent that satisfactory financing and personnel arrangements be concluded to assure that the party or parties benefited bear all costs which the Board determines that it would be inequitable for it to assume. Prior to undertaking any study or investigation pursuant to this Article as a special project, the Board shall make reasonable efforts to secure the undertaking of the work by another responsible public or private entity in accordance with the policy set forth in Article IV(b). (1973, c. 200, s. 1.)

§ 143-500. Article X. Comprehensive Land Use Planning.

If any two or more contiguous party states desire to prepare a single or consolidated comprehensive land use plan, or a land use plan for any interstate area lying partly within each such state, the governors of the states involved may designate the Board as their joint agency for the purpose. The Board shall accept such designation and carry out such responsibility: Provided that the states involved make arrangements satisfactory to the Board to reimburse it or otherwise provide the resources with which the land use plan is to be prepared. Nothing contained in this Article shall be construed to deny the availability for use in the preparation of any such plan of data and information already in the possession of the Board or to require payment on account of the use thereof in addition to payments otherwise required to be made pursuant to other provisions of this Agreement. (1973, c. 200, s. 1.)

§ 143-501. Article XI. Compacts and Agencies Unaffected.

Nothing in this Agreement shall be construed to:

(1) Affect the powers or jurisdiction of any agency of a party state or any subdivision thereof.

(2) Affect the rights or obligations of any governmental units, agencies or officials, or of any private persons or entities conferred or imposed by any interstate or interstate-federal compacts to which any one or more states participating herein are parties.

(3) Impinge on the jurisdiction of any existing interstate-federal mechanism for regional planning or development. (1973, c. 200, s. 1.)

§ 143-502. Article XII. Eligible Parties; Entry into and Withdrawal.

(a) This Agreement shall have as eligible parties the states of Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, West Virginia, the Commonwealth of Puerto Rico, and the Territory of the Virgin Islands, hereinafter referred to as party states.

(b) Any eligible state may enter into this Agreement and it shall become binding thereon when it has adopted the same: Provided that in order to enter into initial effect, adoption by at least five states shall be required.

(c) Adoption of the Agreement may be either by enactment thereof or by adherence thereto by the governor; provided that in the absence of enactment, adherence by the governor shall be sufficient to make his state a party only

until December 31, 1973. During any period when a state is participating in this Agreement through gubernatorial action, the governor may provide to the Board an equitable share of the financial support of the Board from any source available to him. Nothing in this paragraph shall be construed to require a governor to take action contrary to the constitution or laws of his state.

(d) Except for a withdrawal effective on December 31, 1973, in accordance with paragraph (c) of this Article, any party state may withdraw from this Agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal. (1973, c. 200, s. 1; 1979, c. 35, s. 2.)

§ 143-503. Article XIII. Construction and Severability.

This Agreement shall be liberally construed so as to effectuate the purposes thereof. The provisions of this Agreement shall be severable and if any phrase, clause, sentence, or provision of this Agreement is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this Agreement and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this Agreement shall be held contrary to the constitution of any state participating therein, the Agreement shall remain in full force and effect as to the state affected as to all severable matters. (1973, c. 200, s. 1.)

§ 143-504. Copies of bylaws and amendments to be filed.

Copies of bylaws and amendments to be filed pursuant to Article VI(j) of the Agreement shall be filed with chief state records-keeping agency. (1973, c. 200, s. 2.)

§ 143-505. Continuance of states as parties.

Nothing contained in the Southern Growth Policies Agreement as enacted by this Article shall in any event be construed to terminate the participation of this State with any state which adopted the Southern Growth Policies Agreement prior to the effective date of this Article, except that the provisions of Article XII(c) shall govern with respect to the continuance of states as parties thereto after December 31, 1973. (1973, c. 200, s. 3.)

§ 143-506. Rights of State and local governments not restricted.

No section, Article, or provision contained herein shall be construed so as to prohibit, restrict or restrain the actions of any individual member state or the actions of any county or municipal government within the boundaries of any individual member state nor shall any delegate from the State of North Carolina be authorized by this General Assembly to cast any vote that would in any manner restrict the sovereign rights presently granted to or retained by this State under the United States Constitution, or the rights of any local governments granted by the Constitution of the State of North Carolina or by statutory acts of the General Assembly. (1973, c. 200, s. 4.)

§§ 143-506.1 through 143-506.5: Reserved for future codification purposes.

Article 55A.

Balanced Growth Policy Act.

§ 143-506.6. Title.

This Article shall be known as the North Carolina Balanced Growth Policy Act. (1979, c. 412, s. 1.)

§ 143-506.7. Purposes.

The purposes of this Article are to declare as a policy that the State of North Carolina shall encourage economic progress and job opportunities throughout the State; support growth trends which are favorable to maintain a dispersed population, to maintain a healthy and pleasant environment and to preserve the natural resources of the State. (1979, c. 412, s. 2.)

§ 143-506.8. Declaration of State Balanced Growth Policy.

The General Assembly of North Carolina recognizes the importance of reaching a higher standard of living throughout North Carolina by maintaining a balance of people, jobs, public services and the environment, supported by the growing network of small and large cities in the State. The General Assembly of North Carolina, in order to assure that opportunities for a higher standard of living are available all across the State, declares that it shall be the policy of the State to bring more and better jobs to where people live; to encourage the development of adequate public services on an equitable basis for all of the State's people at an efficient cost; and to maintain the State's natural environmental heritage while accommodating urban and agricultural growth. (1979, c. 412, s. 3.)

§ 143-506.9. Cooperation of agencies.

The General Assembly encourages, to the fullest extent possible, all State agencies to review their existing policies, procedures and regulations to bring them into conformity with the provisions of this Balanced Growth Policy. (1979, c. 412, s. 4.)

§ 143-506.10. Designation of growth centers; achieving balanced growth.

It shall be the policy of the State of North Carolina to support the expansion of the State and to designate growth areas or centers with the potential, capacity and desire for growth. The Governor, with the advice of county and municipal government officials and citizens, is charged with designating growth areas or centers, which shall include at least one center in each North Carolina county. Designation of growth areas or centers shall be reviewed annually. These designations may be used for the purpose of establishing priority consideration for State and federal assistance for growth.

Progress toward achieving balanced growth shall be measured by the strengthening of economic activity and the adequacy of public services within each of the State's multi-county regions and, as to the geographical area included, the Southeastern Economic Development Commission. The Governor, with the advice of county and municipal government officials and citizens, shall develop measures of progress toward achieving balanced growth. (1979, c. 412, s. 5.)

§ 143-506.11. Citizen participation.

The Governor shall establish a process of citizen participation that assures the expression of needs and aspirations of North Carolina's citizens in regard to the purposes of this Article. (1979, c. 412, s. 6.)

§ 143-506.12. Policy areas.

The following program area guidelines shall become the policy for the State of North Carolina:

(1) To encourage diversified job growth in different areas of the State, with particular attention to those groups which have suffered from high rates of unemployment or underemployment, so that sufficient work opportunities at high wage levels can exist where people live;
(2) To encourage the development of transportation systems that link growth areas or centers together with appropriate levels of service;
(3) To encourage full support for the expansion of family-owned and operated units in agriculture, forestry and the seafood industry as the basis for increasing productive capacity;
(4) To encourage the development and use of the State's natural resources wisely in support of Balanced Growth Policy while fulfilling the State's constitutional obligation to protect and preserve its natural heritage;
(5) To promote the concept that a full range of human development services shall be available and accessible to persons in all areas of the State;
(6) To encourage the continued expansion of early childhood, elementary, secondary and higher education opportunities so that they are improving in both quality and availability;
(7) To encourage excellent technical training for North Carolina workers that prepares them to acquire and hold high-skill jobs and that encourages industries which employ high-skill workers to locate in the State;
(8) To encourage the availability of cultural opportunities to people where they live;
(9) To encourage the expansion of local government capacity for managing growth consistent with this Balanced Growth Policy; and
(10) To encourage conservation of existing energy resources and provide for the development of an adequate and reliable energy supply, while protecting the environment. (1979, c. 412, s. 7.)

§ 143-506.13. Implementation of a State-local partnership.

The Governor, with the advice of the State Goals and Policy Board, shall establish a statewide policy-setting process for Balanced Growth, in partnership with local government, that brings about full participation of both the State and local government. The purpose of this State-local partnership is to arrive at joint strategies and objectives for balanced statewide development and ensure consistent action by the State and local government for jointly agreed upon strategies and objectives. (1979, c. 412, s. 8.)

§ 143-506.14. North Carolina Office of Local Government Advocacy created; membership; terms; meetings; compensation; powers and duties; staff; cooperation by departments.

(a) There is established in the office of the Governor, the North Carolina Office of Local Government Advocacy. The Local Government Advocacy Coun-

cil, created by Executive Order Number 22, is hereby transferred to the Office of Local Government Advocacy. The Council shall consist of 19 persons and shall be composed as follows: six members representing county government, five of whom are the members of the Executive Committee of the North Carolina Association of County Commissioners and one who is the Executive Director of the Association; six members representing municipal government, five of whom are the members of the Executive Committee of the North Carolina League of Municipalities and one who is the Executive Director of the League; two Senators appointed by the President Pro Tempore of the Senate; two members of the House of Representatives, appointed by the Speaker of the House of Representatives and three at-large members appointed by the Governor. The Association of County Commissioners and the League of Municipalities representatives shall serve terms on the Council consistent with their terms as Executive Committee members appointed by the Governor. The members appointed by the President of the Senate and the Speaker of the House of Representatives shall serve until January 15, 1981, or until their successors are appointed, whichever is later. Their successors shall serve a term of two years. The at-large members shall serve at the pleasure of the Governor for a period of two years. The Chairman and Vice-Chairman shall be the President of the Association of County Commissioners and the President of the League of Municipalities respectively, with the office rotating between the League and Association annually. Provided that no person among those appointed by the Governor, the President Pro Tempore of the Senate and the Speaker of the House of Representatives shall serve on the Council for more than two complete consecutive terms.

(b) The Council shall meet at least once each quarter and may hold special meetings at any time at the call of the Chairman or the Governor.

The members of the Council shall receive per diem and necessary travel and subsistence expenses in accordance with the provisions of G.S. 138-5.

(c) Membership. The Local Government Advocacy Council shall not be considered a public office and, to that end membership may be held in addition to the number of offices authorized by G.S. 128-1.1.

(d) The general duties and responsibilities of the Council are:

(1) To advocate on behalf of local government and to advise the Governor and his Cabinet on the development and implementation of policies and programs which directly affect local government;

(2) To function as liaison for State and local relations and communications;

(3) To identify problem areas and recommend policies with respect to State, regional and local relations; and

(4) To review, monitor and evaluate current and proposed State program policies, practices, procedures, guidelines and regulations with respect to their effect on local government.

(e) The Office of Local Government Advocacy shall be staffed by persons knowledgeable of local government who shall seek to carry out the directives of the Local Government Advocacy Council by:

(1) Advocating the policies of the Council with various State departments;

(2) Serving as a communications liaison between the Local Government Advocacy Council and the various State departments; and

(3) Functioning as an ombudsman for the resolution of local government problems.

(f) It shall be the responsibility of each respective Cabinet department head to: (i) insure that departmental employees make every effort to cooperate with and provide support to the Local Government Advocacy Council in keeping with the intent of this Article; and (ii) advise the Local Government Advocacy

Council of their proposed policies and plans for review in terms of their effect on local government. (1979, c. 412, s. 9; 1991, c. 739, s. 23.)

Article 55B.

North Carolina Commission on Jobs and Economic Growth.

§ 143-506.15: Expired.

Article 56.

Emergency Medical Services Act of 1973.

§ 143-507. Establishment of Statewide Emergency Medical Services System.

(a) There is established a comprehensive Statewide Emergency Medical Services System in the Department of Health and Human Services. All responsibility for this System shall be vested in the Secretary of the Department of Health and Human Services and other officers, boards, and commissions specified by law or regulation.

(b) The Statewide Medical Services System includes Emergency Medical Services and also includes first aid by members of the community; public knowledge and easy access into the system; prompt emergency medical dispatch of well-designed, equipped, and staffed ambulances; effective care by trained and credentialed personnel with appropriate disposition at the scene of the emergency and while in transit; communications with the treatment center while at the scene and while in transit; routing and referral to the appropriate treatment facility; injury prevention initiatives; wellness initiatives within the community and the public health system; and follow-up lifesaving and restorative care.

(c) The purpose of this Article is to enable and assist providers of Emergency Medical Services in the delivery of adequate emergency medical services for all people of North Carolina and the provision of medical care during a disaster.

(d) Emergency Medical Services as referred to in this Article include all services rendered by emergency medical services personnel as defined in G.S. 131E-155(7) in responding to improve the health and wellness of the community and to address the individual's need for immediate emergency medical care in order to prevent loss of life or further aggravation of physiological or psychological illness or injury. (1973, c. 208, s. 1; 1997-443, s. 11A.118(a); 2001-220, s. 1.)

Cross References. — As to regulation of emergency medical services, see G.S. 131E-155 et seq. For the Statewide Trauma System Act of 1993, see G.S. 131E-162.

§ 143-508. Department of Health and Human Services to establish program; rules and regulations of North Carolina Medical Care Commission.

(a) The State Department of Health and Human Services shall establish and maintain a program for the improvement and upgrading of emergency medical services throughout the State. The Department shall consolidate all State functions relating to emergency medical services, both regulatory and developmental, under the auspices of this program.

(b) The North Carolina Medical Care Commission shall adopt, amend, and rescind rules to carry out the purpose of this Article and Articles 7 and 7A of Chapter 131E of the General Statutes regardless of other provisions of rule or law. These rules shall be adopted with the advice of the Emergency Medical Services Advisory Council. The Department of Health and Human Services shall enforce all rules adopted by the Commission. Nothing in this Chapter shall be construed to authorize the North Carolina Medical Care Commission to establish or modify the scope of practice of emergency medical personnel.

(c) The North Carolina Medical Care Commission may adopt rules with regard to emergency medical services, not inconsistent with the laws of this State, that may be required by the federal government for grants-in-aid for emergency medical services and licensure which may be made available to the State by the federal government. This section is to be liberally construed in order that the State and its citizens may benefit from such grants-in-aid.

(d) The North Carolina Medical Care Commission shall adopt rules to do all of the following:

(1) Establish standards and criteria for the credentialing of emergency medical services agencies to carry out the purpose of Article 7 of Chapter 131E of the General Statutes.

(2) Establish standards and criteria for the credentialing of trauma centers to carry out the purpose of Article 7A of Chapter 131E of the General Statutes.

(3) Establish standards and criteria for the education and credentialing of emergency medical services personnel to carry out the purpose of Article 7 of Chapter 131E of the General Statutes.

(4) Establish standards and criteria for the credentialing of EMS educational institutions to carry out the purpose of Article 7 of Chapter 131E of the General Statutes.

(5) Establish standards and criteria for data collection as part of the statewide emergency medical services information system to carry out the purpose of G.S. 143-509(5).

(6) Implement the scope of practice of credentialed emergency medical services personnel as determined by the North Carolina Medical Board.

(7) Define the practice settings of credentialed emergency medical services personnel.

(8) Establish standards for vehicles and equipment used within the emergency medical services system.

(9) Establish standards for a statewide EMS communications system.

(10) Establish standards and criteria for the denial, suspension, or revocation of emergency medical services credentials for emergency medical services agencies, educational institutions, and personnel including the establishment of fines for credentialing violations.

(11) Establish standards and criteria for the education and credentialing of persons trained to administer lifesaving treatment to a person who suffers a severe adverse reaction to agents that might cause anaphylaxis.

(12) Establish standards for the voluntary submission of hospital emergency medical care data.

(13) Establish occupational standards for EMS systems, EMS educational institutions, and specialty care transport programs. (1973, c. 208, s. 2; c. 1224, s. 2; 1997-443, s. 11A.118(a); 2001-220, s. 1; 2002-179, s. 13; 2003-392, s. 2(d).)

Effect of Amendments. — Session Laws 2002-179, s. 13, effective October 1, 2002, substituted "agents that might cause anaphylaxis" for "insect stings" in subdivision (d)(11).

Session Laws 2003-392, s. 2.(d), effective August 7, 2003, added subdivision (d)(13).

§ 143-509. Powers and duties of Secretary.

The Secretary of the Department of Health and Human Services has full responsibilities for supervision and direction of the emergency medical services program and, to that end, shall accomplish all of the following:

(1) After consulting with the Emergency Medical Services Advisory Council and with any local governments that may be involved, seek the establishment of a Statewide Emergency Medical Services System, integrated with other health care providers and networks including, but not limited to, public health, community health monitoring activities, and special needs populations.

(2) Repealed by Session Laws 1989, c. 74.

(3) Establish and maintain a comprehensive statewide trauma system in accordance with the provisions of Article 7A of Chapter 131E of the General Statutes and the rules of the North Carolina Medical Care Commission.

(4) Establish and maintain a statewide emergency medical services communications system including designation of EMS radio frequencies and coordination of EMS radio communications networks within FCC rules and regulations.

(5) Establish and maintain a statewide emergency medical services information system that provides information linkage between various public safety services and other health care providers.

(6) Credential emergency medical services providers, vehicles, EMS educational institutions, and personnel after documenting that the requirements of the North Carolina Medical Care Commission are met.

(7), (8) Repealed by Session Laws 2001-220, s. 1, effective January 1, 2002.

(9) Promote a means of training individuals to administer life-saving treatment to persons who suffer a severe adverse reaction to agents that might cause anaphylaxis. Individuals, upon successful completion of this training program, may be approved by the North Carolina Medical Care Commission to administer epinephrine to these persons, in the absence of the availability of physicians or other practitioners who are authorized to administer the treatment. This training may also be offered as part of the emergency medical services training program.

(10) Establish and maintain a collaborative effort with other community resources and agencies to educate the public regarding EMS systems and issues.

(11) Collaborate with community agencies and other health care providers to integrate the principles of injury prevention into the Statewide EMS System to improve community health.

(12) Establish and maintain a means of medical direction and control for the Statewide EMS System. (1973, c. 208, s. 3; 1981, c. 927; 1989, c. 74; 1995, c. 94, s. 34; 1997-443, s. 11A.118(a); 2001-220, s. 1; 2003-392, s. 2(e).)

Effect of Amendments. — Session Laws 2003-392, s. 2.(e), effective August 7, 2003, in the first sentence of subdivision (9), substituted "agents that might cause anaphylaxis" for "insect stings."

§ 143-510. North Carolina Emergency Medical Services Advisory Council.

(a) There is created the North Carolina Emergency Medical Services Advisory Council to consult with the Secretary of the Department of Health and Human Services in the administration of this Article.

The North Carolina Emergency Medical Services Advisory Council shall consist of 25 members.

(1) Twenty-one of the members shall be appointed by the Secretary of the Department of Health and Human Services as follows:
   a. Three of the members shall represent the North Carolina Medical Society and include one licensed pediatrician, one surgeon, and one public health physician.
   b. Three members shall represent the North Carolina College of Emergency Physicians, two of whom shall be current local EMS Medical Directors.
   c. One member shall represent the North Carolina Chapter of the American College of Surgeons Committee on Trauma.
   d. One member shall represent the North Carolina Association of Rescue and Emergency Medical Services.
   e. One member shall represent the North Carolina Association of EMS Administrators.
   f. One member shall represent the North Carolina Hospital Association.
   g. One member shall represent the North Carolina Nurses Association.
   h. One member shall represent the North Carolina Association of County Commissioners.
   i. One member shall represent the North Carolina Medical Board.
   j. One member shall represent the American Heart Association, North Carolina Council.
   k. One member shall represent the American Red Cross.
   l. The remaining six members shall be appointed so as to fairly represent the general public, credentialed and practicing EMS personnel, EMS educators, local public health officials, and other EMS interest groups in North Carolina.
(2) Two members shall be appointed by the General Assembly upon the recommendation of the Speaker of the House of Representatives.
(3) Two members shall be appointed by the General Assembly upon the recommendation of the President Pro Tempore of the Senate.

The membership of the Council shall, to the extent possible, reflect the gender and racial makeup of the population of the State.

(b) The members of the Council appointed pursuant to subsection (a) of this section shall serve initial terms as follows:

(1) The members appointed by the Secretary of the Department of Health and Human Services shall serve initial terms as follows:
   a. Five members shall serve initial terms of one year;
   b. Five members shall serve initial terms of two years;
   c. Five members shall serve initial terms of three years; and
   d. Six members shall serve initial terms of four years.
(2) The members appointed by the General Assembly upon the recommendation of the President Pro Tempore of the Senate shall serve initial terms as follows:
   a. One member shall serve an initial term of two years; and
   b. One member shall serve an initial term of four years.
(3) The members appointed by the General Assembly upon the recommendation of the Speaker of the House of the Representatives shall serve initial terms as follows:

a. One member shall serve an initial term of two years; and
b. One member shall serve an initial term of four years. Thereafter, all terms shall be four years.

(c) Any appointment to fill a vacancy on the Council created by the resignation, dismissal, death, or disability of a member shall be for the balance of the unexpired term. Vacancies on the Council among the membership nominated by a society, association, or foundation as provided in subsection (a) of this section shall be filled by appointment of the Secretary upon consideration of a nomination by the executive committee or other authorized agent of the society, association, or foundation until the next meeting of the society, association, or foundation at which time the society, association, or foundation shall nominate a member to fill the vacancy for the unexpired term.

(d) The members of the Council shall receive per diem and necessary travel and subsistence expenses in accordance with the provisions of G.S. 138-5.

(e) A majority of the Council shall constitute a quorum for the transaction of business. All clerical and other services required by the Council shall be supplied by the Department of Health and Human Services, Division of Facility Services, Office of Emergency Medical Services.

(f) The Council shall elect annually from its membership a chairperson and vice-chairperson upon a majority vote of the quorum present. (1973, c. 208, s. 4; 1977, c. 509; 1991, c. 739, s. 24; 1997-443, s. 11A.118(a); 2001-220, s. 1; 2003-392, s. 2(f).)

Effect of Amendments. — Session Laws 2003-392, s. 2.(f), effective August 7, 2003, added subsection (f).

§ 143-511. Powers and duties of the Council.

The North Carolina Emergency Medical Services Advisory Council may advise the Secretary of the Department of Health and Human Services on policy issues regarding the Statewide Emergency Medical Services System, including all rules proposed to be adopted by the North Carolina Medical Care Commission. (1973, c. 208, s. 5; 1997-443, s. 11A.118(a); 2001-220, s. 1.)

§ 143-512. Regional demonstration plans.

The Secretary of the Department of Health and Human Services may develop and implement, in conjunction with any local sponsors that may agree to participate, regional emergency medical services systems in order to demonstrate the desirability of comprehensive regional emergency medical services systems and to determine the optimum characteristics of such plans. The Secretary may make special grants-in-aid to participants. (1973, c. 208, s. 6; 1997-443, s. 11A.118(a); 2001-220, s. 1.)

§ 143-513. Regional emergency medical services councils.

The Secretary of the Department of Health and Human Services may establish emergency medical services regional councils to implement and coordinate emergency medical services programs within regions. (1973, c. 208, s. 7; 1997-443, s. 11A.118(a).)

§ 143-514. Scope of practice for credentialed emergency medical services personnel.

The North Carolina Medical Board shall determine the scope of practice for credentialed emergency medical services personnel regardless of other provi-

sions of law by establishing the medical skills and medications that may be used by credentialed emergency medical services personnel at each level of patient care. No provision of Article 56 of Chapter 143 or Article 7 of Chapter 131E of the General Statutes shall be interpreted to require the North Carolina Medical Board to include any service within the scope of practice of any Emergency Medical Services provider, unless the North Carolina Medical Board determines that the emergency medical service personnel in question have the experience and training necessary to ensure the service can be provided in a safe manner. (1973, c. 208, s. 8; c. 1121; 1995, c. 94, s. 35; 1997-443, s. 11A.118(a); 2001-220, s. 1.)

OPINIONS OF ATTORNEY GENERAL

Board Has Authority to Establish Regulations Covering Emergency Medical Services Personnel. — The ultimate authority and responsibility for establishing regulations pertaining to the functioning and certification of emergency medical services personnel, including "mobile intensive care nurses," is, pursuant to this section, in the Board of Medical Examiners. See opinion of Attorney General to Mr. I.O. Wilkerson, Jr., Director, Division of Facility Services, Dep't of Human Resources, 49 N.C.A.G. 112 (1980).

§ 143-515. Establishment of regions.

The Secretary may establish an appropriate number of multicounty emergency medical services regions. (1973, c. 208, s. 9; 2001-220, s. 1.)

§ 143-516. Single State agency.

The Department of Health and Human Services is hereby designated as the single agency for North Carolina for the purposes of all federal emergency medical services legislation as has or may be hereafter enacted to assist in development of emergency medical services plans and programs. (1973, c. 208, s. 10; 1997-443, s. 11A.118(a).)

§ 143-517. Ambulance support; free enterprise.

Each county shall ensure that emergency medical services are provided to its citizens. Nothing in this Article affects the power of local governments to finance ambulance operations or to support rescue squads. Nothing in this Article shall be construed to allow infringement on the private practice of medicine or the lawful operation of health care facilities. (1973, c. 208, s. 11; 2001-220, s. 1.)

§ 143-518. Confidentiality of patient information.

(a) Medical records compiled and maintained by the Department, hospitals participating in the statewide trauma system, or EMS providers in connection with dispatch, response, treatment, or transport of individual patients or in connection with the statewide trauma system pursuant to Article 7 of Chapter 131E of the General Statutes may contain patient identifiable data which will allow linkage to other health care-based data systems for the purposes of quality management, peer review, and public health initiatives.

These medical records and data shall be strictly confidential and shall not be considered public records within the meaning of G.S. 132-1 and shall not be released or made public except under any of the following conditions:

(1) Release is made of specific medical or epidemiological information for statistical purposes in a way that no person can be identified.

(2) Release is made of all or part of the medical record with the written consent of the person or persons identified or their guardians.
(3) Release is made to health care personnel providing medical care to the patient.
(4) Release is made pursuant to a court order. Upon request of the person identified in the record, the record shall be reviewed in camera. In the trial, the trial judge may, during the taking of testimony concerning such information, exclude from the courtroom all persons except the officers of the court, the parties, and those engaged in the trial of the case.
(5) Release is made to a Medical Review Committee as defined in G.S. 131E-95, 90-21.22A, or 130A-45.7 or to a peer review committee as defined in G.S. 131E-108, 131E-155, 131E-162, 122C-30, or 131D-21.1.
(6) Release is made for use in a health research project under rules adopted by the North Carolina Medical Care Commission. The Commission shall adopt rules that allow release of information when an institutional review board, as defined by the Commission, has determined that the health research project:
a. Is of sufficient scientific importance to outweigh the intrusion into the privacy of the patient that would result from the disclosure;
b. Is impracticable without the use or disclosure of identifying health information;
c. Contains safeguards to protect the information from redisclosure;
d. Contains safeguards against identifying, directly or indirectly, any patient in any report of the research project; and
e. Contains procedures to remove or destroy at the earliest opportunity, consistent with the purposes of the project, information that would enable the patient to be identified, unless an institutional review board authorizes retention of identifying information for purposes of another research project.
(7) Release is made to a statewide data processor, as defined in Article 11A of Chapter 131E of the General Statutes, in which case the data is deemed to have been submitted as if it were required to have been submitted under that Article.
(8) Release is made pursuant to any other law.

(b) Charges, accounts, credit histories, and other personal financial records compiled and maintained by the Department or EMS providers in connection with the admission, treatment, and discharge of individual patients are strictly confidential and shall not be released. (2001-220, s. 1; 2002-179, s. 11; 2003-392, ss. 2(g), 2(h).)

Effect of Amendments. — Session Laws 2002-179, s. 11, effective October 1, 2002, added subdivision (a)(8).

Session Laws 2003-392, ss. 2(g) and (h), effective August 7, 2003, in the first paragraph of subsection (a), inserted "hospitals participating in the statewide trauma system"; and in subdivision (a)(5), inserted "131E-155, 131E-162" and made minor punctuation changes.

§ 143-519. Emergency Medical Services Disciplinary Committee.

(a) There is created an Emergency Medical Services Disciplinary Committee which shall review and make recommendations to the Department regarding all disciplinary matters relating to credentialing of emergency medical services personnel.

(b) The Emergency Medical Services Disciplinary Committee shall consist of seven members appointed by the Secretary of the Department of Health and Human Services to serve four-year terms. Two of the members shall be currently practicing local EMS physician medical directors. One member each shall be a current physician member of the North Carolina Medical Board, a current EMS administrator, a current EMS educator, and two currently practicing and credentialed EMS personnel, one of whom shall be an emergency medical technician-paramedic.

(c) In order to stagger the terms of the membership of the Committee, the initial appointment for one of the local EMS physician medical directors and the currently practicing and credentialed emergency medical technician-paramedic shall be for a three-year term. The other three initial appointments and all future appointments shall be for four-year terms.

(d) Any appointment to fill a vacancy on the Committee created by a resignation, dismissal, death, or disability of a member shall be for the balance of the unexpired term.

(e) A majority of the Committee shall constitute a quorum for the transaction of business. The Department of Health and Human Services, Division of Facilities Services, Office of Emergency Medical Services, shall supply all clerical and other services required by the Committee.

(f) The Committee shall elect annually from its membership a chairperson and vice-chairperson upon a majority vote of the quorum present. (2001-220, s. 1; 2003-392, s. 2(i).)

Effect of Amendments. — Session Laws 2003-392, s. 2(i), effective August 7, 2003, in subsection (b), substituted "seven members" for "five members" in the first sentence, and substituted "a current EMS educator and two currently practicing and credentialed EMS personnel, one of whom shall be an emergency medical technician-paramedic" for "and a currently practicing and credentialed emergency medical technician-paramedic" in the last sentence; and added subsection (f).

§ 143-520: Reserved for future codification purposes.

Article 57.

Crime Study Commission.

§§ 143-521 through 143-531: Repealed by Session Laws 1979, c. 504, s. 3.

Editor's Note. — Former sections 143-527 through 143-531 had been reserved for future codification purposes.

Article 58.

Committee on Inaugural Ceremonies.

§ 143-532. Definitions.

For the purposes of this Article:

(1) The term "inaugural period" means the period which includes the day on which the ceremony inaugurating the Governor is held, the seven calendar days immediately preceding such day, and the seven calendar days immediately subsequent to such day; and

(2) The term "inaugural planning period" means the period beginning July 1 of the year in which the Governor is elected and ending the last day in the inaugural period. (1975, c. 816.)

§ 143-533. Creation, appointment of members; members ex officio.

There is hereby created a Committee on Inaugural Ceremonies to consist of three representatives to be appointed by the Speaker of the House, three senators to be appointed by the President Pro Tempore of the Senate, three citizens to be appointed by the Governor, and three citizens to be appointed by the Governor-elect upon certification of his election. Of the three citizens appointed to the Committee by the Governor, only two may be of the same political party. The Speaker of the House, (or a person designated by the Speaker), the President of the Senate, (or a person designated by the President of the Senate), the Governor, and, upon certification of their election, all members-elect of the Council of State, shall be ex officio members of the Committee on Inaugural Ceremonies. (1975, c. 816; 1981, c. 47, s. 2; 1991, c. 739, s. 25.)

Editor's Note. — Session Laws 1981, c. 47, s. 7 provides: "When the Speaker, President of the Senate, or Lieutenant Governor has designated a person to serve in his place as permitted by this act, that person shall be compensated in accordance with G.S. 120-3.1 if a member of the General Assembly, in accordance with G.S. 138-6 if a State officer or employee, and in accordance with G.S. 138-5 in any other case, except that a member of the General Assembly so designated may not receive per diem if the Speaker, President of the Senate, or Lieutenant Governor may not receive per diem."

§ 143-534. Time of appointments; terms of office.

Appointments to the Committee on Inaugural Ceremonies shall be made on or before July 1 of years in which there is an election of the Governor. The term of office of the Committee members, the Speaker of the House, the President of the Senate and the Governor who are members ex officio, shall begin on the first day of the inaugural planning period, and shall end on the last day of the inaugural period. The term of office of the members-elect of the Council of State, who are ex officio members of the Committee, shall begin upon certification of their election, and shall end on the last day of the inaugural period. (1975, c. 816.)

§ 143-535. Vacancies.

Vacancies in the appointive membership of the Committee on Inaugural Ceremonies occurring during a term shall be filled for the unexpired term by appointment by the officer who made the original appointment. Vacancies in the ex officio membership shall be filled for the unexpired term by election by the remaining members of the Committee. A legislative vacancy on the Committee shall be filled by a member of the same house in which the vacancy occurred. (1975, c. 816.)

§ 143-536. Chairman; rules of procedure; quorum.

At its first meeting the Committee on Inaugural Ceremonies shall, by majority vote, elect a chairman from within the Committee membership. There shall also be a vice-chairman who shall be designated by the Governor-elect from among his appointees on the Committee who shall assume his duties upon appointment. The chairman, and in his absence the vice-chairman, shall

preside over meetings of the Committee. The Committee shall adopt rules of procedure governing its meetings. Six members, excluding ex officio members, shall constitute a quorum of the Committee. (1975, c. 816.)

§ 143-537. Meetings.

The first meeting of the Committee on Inaugural Ceremonies shall be held during the inaugural planning period at the call of the President of the Senate. Thereafter the Committee shall meet at the call of the chairman. (1975, c. 816.)

§ 143-538. Powers and duties.

During the inaugural planning period the Committee on Inaugural Ceremonies shall plan and sponsor official parades, swearing-in ceremonies and other formal occasions connected with the swearing-in and installation of the Governor and other members of the Council of State. Throughout the inaugural planning period the Committee shall consult with and remain in close contact with the Governor-elect and all of the other members-elect of the Council of State upon certification of their election. Balls, dinners, testimonials, parties and other informal occasions shall be coordinated with official events by the Committee; however, nothing in this Article shall preclude any group or person from conducting private events during the inaugural period. (1975, c. 816.)

§ 143-539. Offices; per diem and allowances of members; payments from appropriations.

The Department of Administration shall provide office space to the Committee. The members of the Committee, including ex officio members, shall be paid such per diem, subsistence and travel allowances as are prescribed by law for State boards and commissions generally. All payments for purposes authorized by this Article shall be paid by the State Treasurer upon written authorization of the chairman of the Committee, from funds appropriated to the Contingency and Emergency Budget. (1975, c. 816; 1991, c. 739, s. 26.)

§§ 143-540 through 143-544: Reserved for future codification purposes.

Article 59.

Vocational Rehabilitation Services.

§ 143-545: Repealed by Session Laws 1995, c. 403, s. 1.

§ 143-545.1. Purpose, establishment and administration of program; services.

(a) Policy. — Recognizing that disability is a natural part of human experience, the State establishes as its policy that individuals with physical and mental disabilities should be able to participate to the maximum extent of their abilities in the economic, educational, cultural, social, and political activities available to all citizens of the State. To implement this policy, the Department of Health and Human Services shall establish and operate comprehensive and accountable programs of vocational rehabilitation and

independent living for persons with disabilities. These programs are to be administered by the Division of Vocational Rehabilitation Services in collaboration with the Division of Services for the Blind, which conducts vocational rehabilitation and independent living programs for individuals who are blind or visually impaired, pursuant to Chapter 111 of the General Statutes and the rules of the Commission for the Blind adopted pursuant to G.S. 143B-157. The programs so provided shall be administered according to the following principles:

(1) The opportunity and ability to work and to live independently are important activities that enhance not only the lives of individuals with disabilities but also the greater society in which they live. These activities fulfill the need to be productive, promote self-esteem, and allow for participation in the full array of activities of daily living;

(2) Eligible individuals with disabilities shall be provided individualized training, independent living services, and educational and support services that prepare them for independent living and competitive employment opportunities in integrated settings with reasonable accommodations;

(3) Individuals with disabilities shall be active participants in their own vocational rehabilitation/independent living programs and shall be involved in making meaningful and informed choices about vocational/independent living goals and objectives and the related services they receive; and

(4) As full partners in their vocational rehabilitation and independent living programs, participants in the programs shall provide information required by the Department to determine eligibility and the nature of their disabilities, shall use other resources that are available to assist in their programs, and shall assume joint responsibility with departmental staff for planning and implementing their programs.

(b) Services: —

(1) Vocational rehabilitation and independent living services provided by the Department shall address comprehensively the needs of each individual to the maximum extent possible within available resources. These services shall contain labor force development and training components and services that enhance the independence and full participation of citizens with disabilities in community life. Specific services shall include assessment services to determine eligibility and rehabilitation needs; counseling, guidance, and referral services; physical and mental restoration services; reader services; vocational and other training services; job development and job placement services; interpreter services; on-the-job or other related personal assistance services including attendant care services; mobility and rehabilitation technology services; training services necessary for living in the community; and supported employment services.

(2) The Secretary of the Department of Health and Human Services shall adopt rules to establish eligibility for services, the nature and scope of services to be provided, standards for community rehabilitation programs and qualified personnel to provide services and conditions, criteria, and procedures under which services may be provided including financial need for services. Rules governing financial need for services shall meet the requirements set in federal law and regulations.

(3) The Secretary of the Department of Health and Human Services or, when appropriate, the Commission for the Blind, shall establish by rule a formula for a schedule of rates and fees to be paid by clients and other third party purchasers for services.

(4) The Secretary of the Department of Health and Human Services or, when appropriate, the Commission for the Blind, shall establish formal appeals procedures that are consistent with those required by federal regulations so that any applicant for or client of vocational rehabilitation or independent living services who is dissatisfied with any determinations made by rehabilitation counselors or coordinators concerning the furnishing or denial of services may request a timely review of those determinations. The appeal procedures shall be the same regardless of whether federal funds are included in the particular services. (1995, c. 403, s. 1(b); 1997-443, s. 11A.118(a); 1997-456, s. 27; 1999-161, s. 1.)

Editor's Note. — This section was formerly set out as G.S. 143-545A. It has been renumbered as set out above at the direction of the Revisor of Statutes pursuant to Session Laws 1997-456, s. 27, which authorized the Revisor of Statutes to renumber or reletter sections and parts of sections having a number or letter designation that is incompatible with the General Assembly's computer database.

§ 143-546: Repealed by Session Laws 1995, c. 403, s. 2(a).

§ 143-546.1. Duties of Secretary; cooperation with federal rehabilitation services administration or successor.

(a) [Duties of Secretary]. — In carrying out the purposes of this Article, the Secretary of the Department of Health and Human Services shall:

(1) Ensure the cooperation of other divisions in the Department of Health and Human Services in implementing the provisions of this Article;

(2) Cooperate with other departments, agencies, and institutions, both public and private, in providing for the vocational rehabilitation and independent living of individuals with disabilities, in studying the problems involved, and in establishing, developing, and providing the programs, facilities, and services necessary to implement this Article;

(3) Conduct research and gather statistical data related to the vocational rehabilitation and independent living needs of individuals with disabilities; and

(4) Administer the expenditure of funds made available by appropriations by the General Assembly by grants from the federal government, and by gifts, grants, or reimbursements from private or public sources, or other sources, and any combination thereof for vocational rehabilitation and independent living services. Gifts or donations, from either public or private sources, as may be offered unconditionally or under conditions that are proper and consistent with this Article, shall be deposited in the State treasury in a fund to be known as the "Vocational Rehabilitation and Independent Living State Program Fund".

(b) Federal Funds. — In accepting federal funds provided under the Rehabilitation Act of 1973, as amended, the State accepts all of the provisions and benefits of the Act. The Department of Health and Human Services shall:

(1) Cooperate with the Federal Rehabilitation Services Administration or its successor agency in the administration of the Rehabilitation Act of 1973, as amended;

(2) Administer vocational rehabilitation and independent living services provided in cooperation with the Federal Rehabilitation Services Administration or its successor agency through an approved State plan;

(3) Adopt rules as required by the Rehabilitation Act of 1973, as amended, and federal regulations promulgated pursuant to it. (1995, c. 403, s. 2(b); 1997-443, s. 11A.118(a).)

Editor's Note. — This section was formerly set out as G.S. 143-546A. It has been renumbered as set out above at the direction of the Revisor of Statutes pursuant to Session Laws 1997-456, s. 27, which authorized the Revisor of Statutes to renumber or reletter sections and parts of sections having a number or letter designation that is incompatible with the General Assembly's computer database.

CASE NOTES

Cited in Hedgepeth v. North Carolina Div. of Servs. for the Blind, 142 N.C. App. 338, 543 S.E.2d 169, 2001 N.C. App. LEXIS 94 (2001).

§ 143-547. Subrogation rights; withholding of information a misdemeanor.

(a) Notwithstanding any other provisions of law, to the extent of payments under this Article, the State Vocational Rehabilitation program shall be subrogated to all rights of recovery, contractual or otherwise, of the beneficiary of the assistance, or his personal representative, his heirs, or the administrator or executor of his estate, against any person; provided, however, that any attorney retained by the beneficiary of the assistance shall be compensated for his services in accordance with the following schedule and in the following order of priority from any amount obtained on behalf of the beneficiary by settlement with, judgment against, or otherwise from a third party by reason of such injury or death:

(1) First to the payment of any court costs taxed by the judgment;

(2) Second to the payment of the fee of the attorney representing the beneficiary making the settlement or obtaining the judgment, but this fee shall not exceed one-third of the amount obtained or recovered to which the right of subrogation applies;

(3) Third to the payment of the amount of assistance received by the beneficiary as prorated with other claims against the amount obtained or received from the third party to which the right of subrogation applies, but the amount shall not exceed one-third of the amount obtained or recovered to which the right of subrogation applies; and

(4) Fourth to the payment of any amount remaining to the beneficiary or his personal representative.

The United States and the State of North Carolina shall be entitled to shares in each net recovery under this section. Their shares shall be promptly paid under this section and their proportionate parts of such sum shall be determined in accordance with the matching formulas in use during the period for which assistance was paid to the recipient.

(b) In furnishing a person rehabilitation services, including medical case services under this Chapter, the Division of Vocational Rehabilitation Services is subrogated to the person's right of recovery from:

(1) Personal insurance;

(2) Worker's Compensation;

(3) Any other person or personal injury caused by the other person's negligence or wrongdoing; or

(4) Any other source.

(c) The Division of Vocational Rehabilitation Services' right to subrogation is limited to the cost of the rehabilitation services provided by or through the

Division for which a financial needs test is a condition of the service provisions. Those services that are provided without a financial needs test are excluded from these subrogation rights.

(d) The Division of Vocational Rehabilitation Services may totally or partially waive subrogation rights when the Division finds that enforcement would tend to defeat the client's process of rehabilitation or when client assets can be used to offset additional Division costs.

(e) The Division of Vocational Rehabilitation Services may adopt rules for the enforcement of its rights of subrogation.

(f) It is a Class 1 misdemeanor for a person seeking or having obtained assistance under this Part for himself or another to willfully fail to disclose to the Division of Vocational Rehabilitation Services or its attorney the identity of any person or organization against whom the recipient of assistance has a right of recovery, contractual or otherwise. (1989, c. 552, s. 1; 1993, c. 539, s. 1036; 1994, Ex. Sess., c. 24, s. 14(c).)

§ 143-548. Vocational Rehabilitation Council.

(a) There is established the Vocational Rehabilitation Council within the Division of Vocational Rehabilitation Services to be composed of not more than 18 appointed members. Appointed members shall be voting members except where prohibited by federal law or regulations. The Director of the Division of Vocational Rehabilitation Services and one vocational rehabilitation counselor who is an employee of the Division shall serve ex officio as nonvoting members. The President Pro Tempore of the Senate shall appoint six members, the Speaker of the House of Representatives shall appoint six members, and the Governor shall appoint five or six members. The appointing authorities shall appoint members of the Council after soliciting recommendations from representatives of organizations representing a broad range of individuals with disabilities. Terms of appointment shall be as specified in subsection (d1) of this section. Appointments shall be made as follows:

(1) The six members appointed by the President Pro Tempore of the Senate shall include one member recommended by the North Carolina Citizens for Business and Industry, one other representing providers of community rehabilitation services, one other who is a vocational rehabilitation counselor, with knowledge of and experience with vocational rehabilitation programs, who is not an employee of the Division, one other representing the Commission on Workforce Preparedness, and two others representing disability advocacy groups representing a cross-section of individuals with physical, cognitive, sensory, and mental disabilities. Of the six members appointed by the President Pro Tempore of the Senate, three shall be individuals with disabilities;

(2) The six members appointed by the Speaker of the House of Representatives shall include one member representing the business and industry sector, one other representing labor, one other representing a parent training and information center established pursuant to section 631(c) of the Individuals with Disabilities Education Act, 20 U.S.C. § 1431(c), one other representing the Department of Public Instruction, and two others representing disability advocacy groups representing a cross-section of individuals with physical, cognitive, sensory, and mental disabilities. Of the six members appointed by the Speaker of the House of Representatives, three shall be individuals with disabilities; and

(3) The five or six members appointed by the Governor shall include one member representing the business and industry sector, one other

representing the regional rehabilitation centers for the physically disabled, one other representing the Division's Statewide Independent Living Council, one other representing the State's Client Assistance Program, one other representing the directors of projects carried out under section 121 of the Rehabilitation Act of 1973, 29 U.S.C. § 741, as amended, if there are any of these projects in the State, and one other current or former applicant for or recipient of vocational rehabilitation services. If five members are appointed by the Governor, three shall be individuals with disabilities. If six members are appointed by the Governor, four shall be individuals with disabilities.

(b) Repealed by Session Laws 1993, c. 248, s. 1.

(b1) Additional Qualifications. — In addition to ensuring the qualifications for membership prescribed in subsection (a) of this section, the appointing authorities shall ensure that a majority of Council members are individuals with disabilities and are not employed by the Division of Vocational Rehabilitation Services.

(c) The Council shall elect one of the voting members of the Council as Chair of the Council. The Chair's term shall not exceed a single three-year term.

(d) The Council shall meet at least quarterly and at other times at the call of the Chair. A majority of the voting members of the Council constitutes a quorum.

(d1) Terms of Appointment. —

(1) Length of Term. — Each member of the Council shall serve for a term of not more than three years, except that:

a. A member appointed to fill a vacancy occurring prior to the expiration of the term for which a predecessor was appointed shall be appointed for the remainder of that term;

b. The terms of service of the members initially appointed are as specified by the appointing authority for a fewer number of years as will provide for the expiration of terms on a staggered basis and shall include the members of the existing Council to the extent possible with appropriate adjustments to their terms;

c. The appointing authority shall have the power to remove any member of the Council from office in accordance with the provisions of G.S. 143B-16; and

d. A member may continue to serve until a successor for the position is appointed;

(2) Number of Terms. — No member of the Council other than the representative of the Client Assistance Program and the representative of the directors of projects carried out under section 121 of the Rehabilitation Act of 1973, 29 U.S.C. § 741, as amended, may serve more than two consecutive full terms.

(d2) Vacancies. — Any vacancy occurring in the membership of the Council shall be filled in the same manner as the original appointment. The vacancy shall not affect the power of the remaining members to execute the duties of the Council.

(d3) Functions of Council. — The Council shall, after consulting with the Commission on Workforce Preparedness:

(1) Review, analyze, and advise the Division regarding the performance of its responsibilities under Title I of the Rehabilitation Act of 1973, Pub. L. No. 93-112, 29 U.S.C. § 720, et seq., as amended, particularly responsibilities relating to:

a. Eligibility, including order of selection;

b. The extent, scope, and effectiveness of services provided; and

c. Functions performed by State agencies that affect or that potentially affect the ability of individuals with disabilities in achieving

employment outcomes under Title I of the Rehabilitation Act of 1973, Pub. L. No. 93-112, 29 U.S.C. § 720, et seq.;

(1a) In partnership with the Division:

a. Develop, agree to, and review State goals and priorities in accordance with section 101(a)(15)(C) of the Rehabilitation Act of 1973, 29 U.S.C. § 721(a)(15)(C); and

b. Evaluate the effectiveness of the vocational rehabilitation program and submit reports of progress to the Commissioner of the Rehabilitation Services Administration of the U.S. Department of Education in accordance with section 101(a)(15)(E) of the Rehabilitation Act of 1973, 29 U.S.C. § 721(a)(15)(E);

(2) Advise the Department of Health and Human Services and the Division regarding activities authorized to be carried out under Title I of the Rehabilitation Act of 1973, Pub. L. No. 93-112, 29 U.S.C. § 720, et seq., as amended and assist in the preparation of applications, the State Plan, amendments to the plans, reports, needs assessments, and evaluations required by Title I of the Rehabilitation Act of 1973;

(3) To the extent feasible, conduct a review and analysis of the effectiveness of, and consumer satisfaction with:

a. Vocational rehabilitation functions and services provided by the Department of Health and Human Services and other State agencies and public and private entities responsible for providing vocational rehabilitation services to individuals with disabilities under the Rehabilitation Act of 1973, Pub. L. No. 93-112, 87 Stat. 355, 29 U.S.C. § 701, et seq.; and

b. Repealed by Session Laws 1999-161, s. 2, effective June 8, 1999.

c. Employment outcomes achieved by eligible individuals receiving services under Title I of the Rehabilitation Act of 1973, Pub. L. No. 93-112, 29 U.S.C. § 720, et seq., as amended, including the availability of health and other employment benefits in connection with those employment outcomes;

(4) Prepare and submit an annual report to the Governor and the Commissioner of the Rehabilitation Services Administration of the U.S. Department of Education on the status of vocational rehabilitation programs operated within the State and make the report available to the public;

(5) Coordinate activities with the activities of other councils within the State, including the Division's Statewide Independent Living Council established under section 705 of the Rehabilitation Act of 1973, 29 U.S.C. § 742, the advisory panel established under section 612(a)(21) of the Individuals with Disabilities Education Act, 20 U.S.C. § 1413(a)(12), the State Development Disabilities Council described in section 124 of the Developmental Disabilities Assistance and Bill of Rights Act, 42 U.S.C. § 6024, the State Mental Health Planning Council established under section 1914(a) of the Public Health Service Act, 42 U.S.C. § 300x-4(e), and the Commission on Workforce Preparedness;

(6) Provide for coordination and the establishment of working relationships between the Department and the Statewide Independent Living Council and centers for independent living within the State; and

(7) Perform such other functions, consistent with the purpose of Title I of the Rehabilitation Act of 1973, Pub. L. No. 93-112, 29 U.S.C. § 720, et seq., as amended, as the Council determines to be appropriate, that are comparable to other functions performed by the Council.

(d4) Resources. —

(1) The Division shall supply all necessary clerical and staff support to the Council pursuant to G.S. 143B-14(a) and (d). The Council shall prepare, in conjunction with the Division, a plan for the provision of such resources as may be necessary and sufficient to carry out the functions of the Council under this Part. The resource plan shall, to the maximum extent possible, rely on the use of resources in existence during the period of implementation of the plan.

(2) To the extent that there is a disagreement between the Council and the Division in regard to the resources necessary to carry out the functions of the Council as set forth in this Part, the disagreement shall be resolved by the Governor.

(3) While assisting the Council in carrying out its duties, staff and other personnel shall not be assigned duties by the Division or any other agency of the State that would create a conflict of interest.

(d5) Member Conflict of Interest. — No member of the Council shall cast a vote on any matter that would provide direct financial benefit to the member or otherwise give the appearance of a conflict of interest under State law.

(e) Council members shall be reimbursed for expenses incurred in the performance of their duties in accordance with G.S. 138-5. In addition, Council members may be reimbursed for personal assistance services that are necessary for members to attend Council meetings and perform Council duties. These expenses shall not exceed whichever is lower, the actual cost of the services or the Medicaid rate per day for personal assistance services, in addition to subsistence and travel expenses at the State rate for the attendant.

(f) Repealed by Session Laws 1993, c. 248, s. 1. (1991 (Reg. Sess., 1992), c. 900, s. 150; 1993, c. 248, s. 1; 1997-443, s. 11A.118(a); 1997-509, s. 1; 1999-161, s. 2.)

§§ 143-549 through 143-551: Reserved for future codification purposes.

Article 60.

State and Certain Local Educational Entity Employees, Nonsalaried Public Officials, and Legislators Required to Repay Money Owed to State.

Part 1. State and Local Educational Entity Employees.

§ 143-552. Definitions.

As used in this Part:

(1) "Employing entity" means and includes:

a. Any State entity enumerated in G.S. 143B-3 of the Executive Organization Act of 1973;

b. Any city or county board of education under Chapter 115 of the General Statutes; or

c. Any board of trustees of a community college under Chapter 115D of the General Statutes.

(2) "Employee" means any person who is appointed to or hired and employed by an employing entity under this Part and whose salary is paid in whole or in part by State funds.

(3) "Net disposable earnings" means the salary paid to an employee by an employing entity after deduction of withholdings for taxes, social

security, State retirement or any other sum obligated by law to be withheld. (1979, c. 864, s. 1; 1987, c. 564, s. 29.)

Editor's Note. — Chapter 115, referred to in subdivision (1)b of this section, was repealed by Session Laws 1981, c. 423, s. 1, effective July 1, 1981. For present provisions as to elementary and secondary education, see now Chapter 115C.

§ 143-553. Conditional continuing employment; notification among employing entities; repayment election.

(a) All persons employed by an employing entity as defined by this Part who owe money to the State and whose salaries are paid in whole or in part by State funds must make full restitution of the amount owed as a condition of continuing employment.

(b) Whenever a representative of any employing entity as defined by this Part has knowledge that an employee owes money to the State and is delinquent in satisfying this obligation, the representative shall notify the employing entity. Upon receipt of notification an employing entity shall terminate the employee's employment if after written notice of his right to do so he does not repay the money within a reasonable period of time; provided, however, that where there is a genuine dispute as to whether the money is owed or how much is owed, or there is an unresolved issue concerning insurance coverage, the employee shall not be dismissed as long as he is pursuing administrative or judicial remedies to have the dispute or the issue resolved.

(c) An employee of any employing entity who has elected in writing to allow not less than ten percent (10%) of his net disposable earnings to be periodically withheld for application towards a debt to the State shall be deemed to be repaying the money within a reasonable period of time and shall not have his employment terminated so long as he is consenting to repayment according to such terms. Furthermore, the employing entity shall allow the employee who for some extraordinary reason is incapable of repaying the obligation to the State according to the preceding terms to continue employment as long as he is attempting repayment in good faith under his present financial circumstances, but shall promptly terminate the employee's employment if he ceases to make payments or discontinues a good faith effort to make repayment. (1979, c. 864, s. 1.)

Legal Periodicals. — For survey of 1979 administrative law, see 58 N.C.L. Rev. 1185 (1980).

CASE NOTES

Applied in Battle v. Nash Technical College, 103 N.C. App. 120, 404 S.E.2d 703 (1991).

§ 143-554. Right of employee appeal.

(a) Any employee or former employee of an employing entity within the meaning of G.S. 143-552(1)a whose employment is terminated pursuant to the provisions of this Part shall be given the opportunity to appeal the employment termination to the State Personnel Commission according to the normal appeal and hearing procedures provided by Chapter 126 and the State Personnel Commission rules adopted pursuant to the authority of that

Chapter; however, nothing herein shall be construed to give the right to termination reviews to anyone exempt from that right under G.S. 126-5.

(b) Before the employment of an employee of a local board of education within the meaning of G.S. 143-552(1)b who is either a superintendent, supervisor, principal, teacher or other professional person is terminated pursuant to this Part, the local board of education shall comply with the provisions of G.S. 115-142. If an employee within the meaning of G.S. 143-552(1)b is other than one whose termination is made reviewable pursuant to G.S. 115-142, he shall be given the opportunity for a hearing before the local board of education prior to the termination of his employment.

(c) Before the employment of an employee of a board of trustees of a community college within the meaning of G.S. 143-552(1)c is finally terminated pursuant to this Part, he shall be given the opportunity for a hearing before the board of trustees. (1979, c. 864, s. 1; 1987, c. 564, s. 12.)

Editor's Note. — Chapter 115, including G.S. 115-142, referred to in subsection (b) of this section, was repealed by Session Laws 1981, c. 423, s. 1, effective July 1, 1981. For present provisions as to elementary and secondary education, see now Chapter 115C.

Legal Periodicals. — For survey of 1979 administrative law, see 58 N.C.L. Rev. 1185 (1980).

Part 2. Public Officials.

§ 143-555. Definitions.

As used in this Part:

(1) "Appointing authority" means the Governor, Chief Justice of the Supreme Court, Lieutenant Governor, Speaker of the House, President pro tempore of the Senate, members of the Council of State, all heads of the executive departments of State government, the Board of Governors of The University of North Carolina, and any other State person or group of State persons authorized by law to appoint to a public office.

(2) "Employing entity" means and includes:
   a. Any State entity enumerated in G.S. 143B-3 of the Executive Organization Act of 1973;
   b. Any city or county board of education under Chapter 115 of the General Statutes; or
   c. Any board of trustees of a community college under Chapter 115D of the General Statutes.

(3) "Public office" means appointive membership on any State Commission, council, committee, board, including occupational licensing boards as defined in G.S. 93B-1, board of trustees, including boards of constituent institutions of The University of North Carolina and boards of community colleges under Chapter 115D of the General Statutes, and any other State agency created by law; provided that "public office" does not include an office for which a regular salary is paid to the holder as an employee of the State or of one of its departments, agencies, or institutions.

(4) "Public official" means any person who is a member of any public office as defined by this Part. (1979, c. 864, s. 1; 1987, c. 564, ss. 29, 30.)

Editor's Note. — Chapter 115, referred to in subdivision (2)b of this section, was repealed by Session Laws 1981, c. 423, s. 1, effective July 1, 1981. For present provisions as to elementary and secondary education, see now Chapter 115C.

§ 143-556. Notification of the appointing authority; investigation.

Whenever a representative of an employing entity as defined by this Part has knowledge that a public official owes money to the State and is delinquent in satisfying this obligation, the representative shall notify the appointing authority who appointed the public official in question. Upon receipt of notification the appointing authority shall investigate the circumstances of the claim of money owed to the State for purposes of determining if a debt is owed and its amount. (1979, c. 864, s. 1.)

§ 143-557. Conditional continuing appointment; repayment election.

If after investigation under the terms of this Part an appointing authority determines the existence of a delinquent monetary obligation owed to the State by a public official, he shall notify the public official that his appointment will be terminated 60 days from the date of notification unless repayment in full is made within that period. Upon determination that any public official has not made repayment in full after the expiration of the time prescribed by this section, the appointing authority shall terminate the appointment of the public official; provided however, the appointing authority shall allow the public official who for some extraordinary reason is incapable of repaying the obligation according to the preceding terms to continue his appointment as long as he is attempting repayment in good faith under his present financial circumstances, but shall promptly terminate the public official's appointment if he ceases to make payments or discontinues a good faith effort to make repayment. (1979, c. 864, s. 1.)

Legal Periodicals. — For survey of 1979 administrative law, see 58 N.C.L. Rev. 1185 (1980).

Part 3. Legislators.

§ 143-558. Definition of employing entity.

For the purposes of this Part "employing entity" shall have the same meaning as provided in G.S. 143-552(1) and 143-555(2). (1979, c. 864, s. 1.)

§ 143-559. Notification to the Legislative Ethics Committee; investigation.

Whenever a representative of any employing entity as defined by this Part has knowledge that a legislator owes money to the State and is delinquent in satisfying this obligation, this information shall be reported to the Legislative Ethics Committee established pursuant to Chapter 120, Article 14 of the General Statutes for disposition. (1979, c. 864, s. 1.)

Part 4. Confidentiality Exemption, Preservation of Federal Funds, and Limitation of Actions.

§ 143-560. Confidentiality exemption.

Notwithstanding the provisions of any law of this State making confidential the contents of any records or prohibiting the release or disclosure of any

information, all information exchange among the employing entities defined under this Article necessary to accomplish and effectuate the intent of this Article is lawful. (1979, c. 864, s. 1.)

§ 143-561. Preservation of federal funds.

Nothing in this Article is intended to conflict with any provision of federal law or to result in the loss of federal funds. If the exchange among employing entities of information necessary to effectuate the provisions of this Article would conflict with this intention, the exchange of information shall not be made. (1979, c. 864, s. 1.)

§ 143-562. Applicability of a statute of limitations.

Payments on obligations to the State collected under the procedures established by this Article shall not be construed to revive obligations or any part thereof already barred by an applicable statute of limitations. Furthermore, payments made as a result of collection procedures established by the terms of this Article shall not be construed to extend an applicable statute of limitations. (1979, c. 864, s. 1.)

Article 61.

Commission on the Bicentennial of the United States Constitution.

§§ 143-563 through 143-570: Expired.

Article 62.

North Carolina Child Fatality Prevention System.

§§ 143-571 through 143-579: Repealed by Session Laws 1998-202, s. 5, effective July 1, 1999.

Cross References. — For provisions concerning the Interstate Compact on Adoption and Medical Assistance, see Article 39 of Chapter 7B of the General Statutes.

Article 63.

State Employees Workplace Requirements Program for Safety and Health.

Part 1. Executive Branch Programs.

§ 143-580. Definition.

As used in this Article, "State agency" means any department, commission, division, board, or institution of the State within the executive branch of government and the Office of Administrative Hearings. (1991 (Reg. Sess., 1992), c. 994, s. 1.)

Cross References. — As to safety and health programs of State agencies and local governments, see G.S. 95-148.

Editor's Note. — Sections 143-580 through 143-584 were codified as Part 1 of this Article at the direction of the Revisor of Statutes.

§ 143-581. Program goals.

Each State agency shall establish a written program for State employee workplace safety and health. The program shall promote safe and healthful working conditions and shall be based on clearly stated goals and objectives for meeting the goals. The program shall provide managers, supervisors, and employees with a clear and firm understanding of the State's concern for protecting employees from job-related injuries and health impairment; preventing accidents and fires; planning for emergencies and emergency medical procedures; identifying and controlling physical, chemical, and biological hazards in the workplace; communicating potential hazards to employees; and assuring adequate housekeeping and sanitation. (1991 (Reg. Sess., 1992), c. 994, s. 1.)

§ 143-582. Program requirements.

The written program required under this Article shall describe at a minimum:

(1) The methods to be used to identify, analyze, and control new or existing hazards, conditions, and operations.

(2) How managers, supervisors, and employees are responsible for implementing the program, controlling accident-related expenditures, and how continued participation of management and employees will be established, measured, and maintained.

(3) How the plan will be communicated to all affected employees so that they are informed of work-related physical, chemical, or biological hazards, and controls necessary to prevent injury or illness.

(4) How managers, supervisors, and employees will receive training in avoidance of job-related injuries and health impairment.

(5) How workplace accidents will be reported and investigated and how corrective actions will be implemented.

(6) How safe work practices and rules will be communicated and enforced.

(7) The safety and health training program that will be made available to employees.

(8) How employees can make complaints concerning safety and health problems without fear of retaliation.

(9) How employees will receive medical attention following a work-related injury or illness. (1991 (Reg. Sess., 1992), c. 994, s. 1.)

§ 143-583. Model program; technical assistance; reports.

(a) The State Personnel Commission, through the Office of State Personnel, shall:

(1) Maintain a model program of safety and health requirements to guide State agencies in the development of their individual programs and in complying with the provisions of G.S. 95-148 and this Article.

(2) Establish guidelines for the creation and operation of State agency safety and health committees.

(b) The Office of State Personnel shall:

(1) Provide consultative and technical services to assist State agencies in establishing and administering their workplace safety and health programs and to address specific technical problems.

(2) Monitor compliance with this Article.

(c) The State Personnel Commission shall report annually to the Joint Legislative Commission on Governmental Operations on the safety and health activities of State agencies, compliance with this Article, and the fines levied against State agencies pursuant to Article 16 of Chapter 95 of the General Statutes. (1991 (Reg. Sess., 1992), c. 994, s. 1.)

§ 143-584. State agency safety and health committees.

Each State agency shall create, pursuant to guidelines adopted under subsection (a) of G.S. 143-583, safety and health committees to perform workplace inspections, review injury and illness records, make advisory recommendations to the agency's managers, and perform other functions determined by the State Personnel Commission to be necessary for the effective implementation of the State Employees Workplace Requirements Program for Safety and Health. (1991 (Reg. Sess., 1992), c. 994, s. 1.)

§§ 143-585 through 143-588: Reserved for future codification purposes.

Part 2. Legislative and Judicial Branch Programs.

§ 143-589. Legislative and judicial branch safety and health programs.

The Legislative Services Commission and the Administrative Office of the Courts are authorized to separately establish safety and health programs for their employees. (1991 (Reg. Sess., 1992), c. 994, s. 3; 2001-424, s. 22.6(c).)

Editor's Note. — Session Laws 1991 (Reg. Sess., 1992), c. 994, s. 3 has been codified as this section at the direction of the Revisor of Statutes.

§§ 143-590 through 143-594: Reserved for future codification purposes.

Article 64.

Smoking in Public Places.

§ 143-595. Legislative intent.

It is the intent of the General Assembly to address the needs and concerns of both smokers and nonsmokers in public places by providing for designated smoking and nonsmoking areas. (1993, c. 367, s. 1.)

CASE NOTES

Cited in City of Roanoke Rapids v. Peedin, 124 N.C. App. 578, 478 S.E.2d 528 (1996).

§ 143-596. Definitions.

As used in this Article, unless the context clearly provides otherwise:

(1) "Local government" means any local political subdivision of the State or any authority or body created by any ordinance or rules of any such entity.

(2) "Nonsmoking area" means any designated area where smoking is not permitted.

(3) "Public meeting" means any assemblage authorized by State or local government or any subdivision of State or local government.

(4) "Restaurant" means any building, structure, or area having a seating capacity of 50 or more patrons where food is available for eating on the premises in consideration of payment. The following are not included in determining seating capacity:

a. Seats in any bar or lounge area of a restaurant.

b. Seats in any separate room or section of a restaurant which is used exclusively for private functions.

c. Seats in any open outside area.

(5) "Smoke" or "smokes" or "smoking" means the use or possession of a lighted cigarette, lighted cigar, lighted pipe, or any other lighted tobacco product.

(6) "State government" means the political unit for the State of North Carolina; including all agencies of the executive, judicial, and legislative branches of government. (1993, c. 367, s. 1.)

§ 143-597. Nonsmoking areas in State-controlled buildings.

(a) All of the following areas may be designated as nonsmoking in buildings owned, leased, or occupied by State government:

(1) Any library open to the public.

(2) Any museum open to the public.

(3) Any area established as a nonsmoking area, so long as at least twenty percent (20%) of the interior space of equal quality to that of the nonsmoking area shall be designated as a smoking area, unless physically impracticable. If physically impracticable, the person in charge of the facility shall provide an adequate smoking area within the facility as near as feasible to twenty percent (20%) of the interior space.

(4) Any indoor space in a State-controlled building such as an auditorium, arena, or coliseum, or an appurtenant building thereof; except that a designated area for smoking shall be established in lobby areas.

(5) Any educational buildings primarily involved in health care instruction.

(6) University of North Carolina health services facilities, wellness centers, enclosed physical education facilities, enclosed student recreational centers, laboratories, or residence halls, provided that each constituent institution shall make a reasonable effort to provide residential smoking rooms in residence halls in proportion to student demand for those rooms.

(b) Any area designated as nonsmoking or smoking shall be established by the appropriate department, institution, agency, or person in charge of the State-controlled building or area. The person in charge of the building shall conspicuously post or cause to be posted, in any area designated as a smoking or nonsmoking area, one or more signs stating that smoking is or is not permitted in the area.

(c) Where a nonsmoking area is designated, existing physical barriers and ventilation systems shall be used where appropriate to minimize smoke from adjacent areas. This subsection shall not be construed to require fixed structural or other physical modification in providing these areas or to require installation or operation of any heating, ventilating, or air-conditioning system in any manner which adds expense. (1993, c. 367, s. 1; 2003-292, s. 1.)

Effect of Amendments. — Session Laws 2003-292, s. 1, effective July 4, 2003, added subdivision (a)(6).

§ 143-598. Prohibited acts related to nonsmoking areas.

(a) No person shall smoke in a nonsmoking area in a State-controlled building or area pursuant to G.S. 143-597.

(b) Any person who continues to smoke in a nonsmoking area described in this section following notice by the person in charge of the State-controlled building or area or their designee that smoking is not permitted shall be guilty of an infraction and punished by a fine of not more than twenty-five dollars ($25.00). (1993, c. 367, s. 1.)

§ 143-599. Exemptions.

All of the following facilities shall be exempt from the provisions of this Article:

(1) Any primary or secondary school or child care center, except for a teacher's lounge.
(2) An enclosed elevator.
(3) Public school bus.
(4) Hospital, nursing home, rest home, and State facility operated under the authority of G.S. 122C-181.
(5) Local health department.
(6) Any nonprofit organization or corporation whose primary purpose is to discourage the use of tobacco products by the general public.
(7) Tobacco manufacturing, processing, and administrative facilities. (1993, c. 367, s. 1; 1997-506, s. 53.)

§ 143-600. Construction of Article.

Nothing in this Article shall be construed to permit smoking in any area where smoking is prohibited by any other law or rule for fire safety purposes, including the State minimum fire safety standards pursuant to Chapter 58, Chapter 153A, or Chapter 160A of the General Statutes; provided, however, this Article shall not be construed to recognize any authority of a local government to restrict smoking other than as provided in this Article, for fire safety purposes as specified herein, and for the facilities exempt pursuant to G.S. 143-599. (1993, c. 367, s. 1.)

§ 143-601. Applicability of Article; local government may enact.

(a) This Article shall not supersede nor prohibit the enactment or enforcement of any otherwise valid local law, rule, or ordinance enacted prior to October 15, 1993, regulating the use of tobacco products. However, no local law, rule, or ordinance enacted and placed in operation prior to October 15, 1993, shall be amended to impose a more stringent standard than in effect on the date of ratification of this Article.

(b) Any local ordinance, law, or rule that regulates smoking adopted on or after October 15, 1993, shall not contain restrictions regulating smoking which exceed those established in this Article. Any such local ordinance, law, or rule may restrict smoking in accordance with this subsection only in the following facilities pursuant to G.S. 143-597:

(1) Buildings owned, leased or occupied by local government.
(2) A public meeting.
(3) The indoor space in an auditorium, arena, or coliseum, or an appurtenant building thereof.
(4) A library or museum open to the public.
(5) Any place on a public transportation vehicle owned or leased by local government and used by the public. (1993, c. 367, s. 1.)

CASE NOTES

§§ 143-602 through 143-609: Reserved for future codification purposes.

Article 65.

Medical Education and Primary Care.

§§ 143-610, 143-611: Repealed by Session Laws 1996, Second Extra Session, c. 17, s. 16.2.

§ 143-612: Repealed by Session Laws 1995, c. 507, s. 23A.3(d).

§ 143-612A: Repealed by Session Laws 1996, Second Extra Session, c. 17, s. 16.2.

§ 143-613. Medical education; primary care physicians and other providers.

(a) In recognition of North Carolina's need for primary care physicians, Bowman Gray School of Medicine and Duke University School of Medicine shall each prepare a plan with the goal of encouraging North Carolina residents to enter the primary care disciplines of general internal medicine, general pediatrics, family medicine, obstetrics/gynecology, and combined medicine/pediatrics and to strive to have at least fifty percent (50%) of North Carolina residents graduating from each school entering these disciplines. These schools of medicine shall present their plans to the Board of Governors of The University of North Carolina by April 15, 1996, and shall update and present their plans every two years thereafter. The Board of Governors shall report to the Joint Legislative Education Oversight Committee by May 15, 1996, and every two years thereafter on the status of these efforts to strengthen primary health care in North Carolina.

(b) The Board of Governors of The University of North Carolina shall set goals for the Schools of Medicine at the University of North Carolina at Chapel Hill and the School of Medicine at East Carolina University for increasing the percentage of graduates who enter residencies and careers in primary care. A

minimum goal should be at least sixty percent (60%) of graduates entering primary care disciplines. Each school shall submit a plan with strategies to reach these goals of increasing the number of graduates entering primary care disciplines to the Board by April 15, 1996, and shall update and present the plans every two years thereafter. The Board of Governors shall report to the Joint Legislative Education Oversight Committee by May 15, 1996, and every two years thereafter on the status of these efforts to strengthen primary health care in North Carolina.

Primary care shall include the disciplines of family medicine, general pediatric medicine, general internal medicine, internal medicine/pediatrics, and obstetrics/gynecology.

(b1) The Board of Governors of The University of North Carolina shall set goals for State-operated health professional schools that offer training programs for licensure or certification of physician assistants, nurse practitioners, and nurse midwives for increasing the percentage of the graduates of those programs who enter clinical programs and careers in primary care. Each State-operated health professional school shall submit a plan with strategies for increasing the percentage to the Board by April 15, 1996, and shall update and present the plan every two years thereafter. The Board of Governors shall report to the Joint Legislative Education Oversight Committee by May 15, 1996, and every two years thereafter on the status of these efforts to strengthen primary health care in North Carolina.

(c) The Board of Governors of The University of North Carolina shall further initiate whatever changes are necessary on admissions, advising, curriculum, and other policies for State-operated medical schools and State-operated health professional schools to ensure that larger proportions of students seek residencies and clinical training in primary care disciplines. The Board shall work with the Area Health Education Centers and other entities, adopting whatever policies it considers necessary to ensure that residency and clinical training programs have sufficient residency and clinical positions for graduates in these primary care specialties. As used in this subsection, health professional schools are those schools or institutions that offer training for licensure or certification of physician assistants, nurse practitioners, and nurse midwives.

(d) The progress of the private and State-operated medical schools and State-operated health professional schools towards increasing the number and proportion of graduates entering primary care shall be monitored annually by the Board of Governors of The University of North Carolina. Monitoring data shall include (i) the entry of State-supported graduates into primary care residencies and clinical training programs, and (ii) the specialty practices by a physician and each midlevel provider who were State-supported graduates as of a date five years after graduation. The Board of Governors shall certify data on graduates, their residencies and clinical training programs, and subsequent careers by October 1 of each calendar year, beginning in October of 1995, to the Fiscal Research Division of the Legislative Services Office and to the Joint Legislative Education Oversight Committee.

(e) The information provided in subsection (d) of this section shall be made available to the Appropriations Committees of the General Assembly for their use in future funding decisions on medical and health professional education. (1993, c. 321, ss. 78(a1)-(e); c. 529, s. 1.3; c. 561, s. 10; 1995, c. 507, s. 23A.5.)

Cross References. — As to assistance funding formula for private medical schools, criteria, and encouragement to orient students toward primary care, see G.S. 116-21.5.

§ 143-614: Repealed by Session Laws 1996, Second Extra Session, c. 17, s. 16.2.

Article 66.

Health Care Purchasing Alliance Act.

§§ 143-621 through 143-639: Repealed by Session Laws 2000-67, s. 21.2, effective December 31, 2000.

Editor's Note. — Former G.S. 143-637 to 143-639 had been reserved for future codification purposes.

Article 67.

First Flight Centennial Commission.

§ 143-640. Commission established; purpose; members; terms of office; quorum; compensation; termination.

(a) Establishment. — There is established the First Flight Centennial Commission. The Commission shall be located within the Department of Cultural Resources for organizational, budgetary, and administrative purposes.

(b) Purpose. — The purpose of the Commission is to develop and plan activities to commemorate the centennial of the first successful manned, controlled, heavier-than-air, powered flight (in this Article referred to as "the First Flight") and other historical events related to the development of powered flight.

(c) Membership. — The Commission shall consist of 29 members, as follows:

(1) Four persons appointed by the Governor.

(2) Five persons appointed by the President Pro Tempore of the Senate.

(3) Five persons appointed by the Speaker of the House of Representatives.

(4) The following persons or their designees, ex officio:

a. The Governor.

b. The President Pro Tempore of the Senate.

c. The Speaker of the House of Representatives.

d. The United States Senators from this State.

e. The member of the United States House of Representatives for the Third Congressional District.

f. The Governor of the State of Ohio.

g. The Secretary of the Department of Cultural Resources.

h. The Superintendent of the Cape Hatteras National Seashore of the United States National Park Service.

i. The chair of the Centennial of Flight Commemoration Commission.

j. The President of the First Flight Society.

k. The chair of the Dare County Board of Commissioners.

l. The Mayor of the Town of Kill Devil Hills.
m. The chair of the Dare County Tourism Board.
n. The Mayor of the Town of Kitty Hawk.

The members appointed to the First Flight Centennial Commission shall be chosen from among individuals who have the ability and commitment to promote and fulfill the purposes of the Commission, including individuals who have demonstrated expertise in the fields of aeronautics, aerospace science, or history, who have contributed to the development of the fields of aeronautics or aerospace science, or who have demonstrated a commitment to serving the public.

(d) Terms. — Members shall serve for two-year terms, with no prohibition against being reappointed, except initial appointments shall be for terms as follows:

(1) The Governor shall initially appoint two members for a term of two years and two members for a term of three years.
(2) The President Pro Tempore of the Senate shall initially appoint two members for a term of two years and two members for a term of three years.
(3) The Speaker of the House of Representatives shall initially appoint two members for a term of two years and two members for a term of three years.

Initial terms shall commence on July 1, 1994.

(e) Cochairs. — The Governor shall select the cochairs biennially from among the membership of the Commission. The initial term shall commence on July 1, 2001.

(f) Vacancies. — A vacancy in the Commission or as chair of the Commission resulting from the resignation of a member or otherwise shall be filled in the same manner in which the original appointment was made and the term shall be for the balance of the unexpired term.

(g) Compensation. — The Commission members shall receive no salary as a result of serving on the Commission but shall receive per diem, subsistence, and travel expenses in accordance with the provisions of G.S. 120-3.1, 138-5, and 138-6, as applicable. When approved by the Commission, members may be reimbursed for subsistence and travel expenses in excess of the statutory amount.

(h) Removal. — Members may be removed in accordance with G.S. 143B-13 as if that section applied to this Article.

(i) Meetings. — The chair shall convene the Commission. Meetings shall be held as often as necessary, but not less than four times a year.

(j) Quorum. — A majority of the members of the Commission shall constitute a quorum for the transaction of business. The affirmative vote of a majority of the members present at meetings of the Commission shall be necessary for action to be taken by the Commission.

(k) Termination of Commission. — The Commission shall terminate June 30, 2004, which is six months after the 100th anniversary of the First Flight. (1993 (Reg. Sess., 1994), c. 777, s. 7(a); 1999-431, s. 3.2(a); 2001-486, ss. 2.12(a), 2.12(b); 2002-159, s. 20.)

Editor's Note. — Session Laws 1999-431, s. 4, provides that unless otherwise provided for in the act, appointments are for terms to begin when the act becomes law.

Effect of Amendments. — Session Laws 2002-159, s. 20, effective October 11, 2002, substituted "29 members" for "28 members" in the introductory language of subsection (c).

§ 143-641. Powers and duties of the Commission.

(a) Powers and Duties. — The Commission shall have the following powers and duties:

(1) To plan and develop activities appropriate to commemorate the centennial of the First Flight, including the coordination of activities throughout the State and nation.

(2) To coordinate with the national Centennial of Flight Commemoration Commission and the 2003 Fund Commission of Ohio in planning and promoting commemorative events and activities.

(3) To appoint a director, who shall be exempt from the State Personnel Act, to employ other staff as it deems necessary, subject to the State Personnel Act, and to fix their compensation.

(4) To adopt bylaws by a majority vote of the Commission.

(5) To accept grants, contributions, devises, bequests, gifts, and services for the purpose of providing support to the Commission. The funds and property shall be retained by the Commission, and the Commission shall prescribe rules under which the Commission may accept donations of money, property, or personal services, and determine the value of donations of property or personal services.

(6) To design, seek clearance for, and register with the Secretary of State a logo as the official emblem of the First Flight celebration, in coordination with the federal advisory commission. The Commission shall issue rules regarding the use of the logo.

(b) Commemoration Activities. — In planning and implementing appropriate activities to commemorate the centennial of the First Flight, the Commission shall give due consideration to:

(1) The historical setting in which the First Flight of the Wright Brothers took place.

(2) The contribution of powered flight to the development of transportation worldwide.

(3) The contribution that powered flight has made to worldwide trade and the economic development of the United States and all nations.

(4) The contribution that powered flight has made to world peace and security.

(5) The need to educate the public regarding the research and development of powered flight, and to acknowledge the development of aeronautics, aerospace science, and the aerospace industry, including the development of the glider and Orville and Wilbur Wright's contribution to the development of the glider.

(6) The development of aerospace science and the aerospace industry since the First Flight, including the development of space exploration.

(7) The importance of activities to commemorate the First Flight and to honor Orville and Wilbur Wright and their contribution to powered flight.

(8) The need to expand the facilities of the Wright Brothers National Memorial to honor Orville and Wilbur Wright and to educate the public regarding the development of powered flight and the development of aeronautics and aerospace science since the First Flight.

(9) The commitment and efforts of the First Flight Society and the National Park Service to preserving the Wright Brothers National Memorial and to honoring Orville and Wilbur Wright on the centennial of the First Flight.

(c) Contract Authority. — The Commission may procure supplies, services, and property as appropriate, and may enter into contracts, leases, or other legal agreements to carry out the purposes of this Article. All contracts, leases,

or legal agreements entered into by the Commission shall terminate on the date of termination of the Commission. Termination shall not affect any disputes or causes of action of the Commission that arise before the date of termination, and the Department of Cultural Resources may prosecute or defend any causes of action arising before the date of termination. All property acquired by the Commission that remains in the possession of the Commission on the date of termination shall become the property of the Department of Cultural Resources. (1993 (Reg. Sess., 1994), c. 777, s. 7(a).)

§ 143-642. Assignment of property; offices.

(a) Assignment of Property. — Upon request of the Commission, the head of any State agency may assign property, equipment, and personnel of such agency to the Commission to assist the Commission in carrying out its duties under this Article. Assignments under this subsection shall be without reimbursement by the Commission to the agency from which the assignment was made. Property and equipment that remains in the possession of the Commission on the date of the termination of the Commission shall revert to the agency from which the property was acquired.

(b) Office Space. — The Department of Cultural Resources shall provide office space in Raleigh for use as offices by the First Flight Centennial Commission, and the Department of Cultural Resources shall receive no reimbursement from the Commission for the use of the property during the life of the Commission. (1993 (Reg. Sess., 1994), c. 777, s. 7(a).)

§ 143-643. Commission reports.

(a) Annual Report. — Before July 1, 1995, the Commission shall submit to the General Assembly a comprehensive report incorporating specific recommendations of the Commission for commemoration of the First Flight and other historical events related to the development of powered flight. After the initial report, the Commission shall submit a report to the General Assembly within 30 days of the convening of each Regular Session of the General Assembly until the Commission terminates. The report shall include:

(1) Recommendations for appropriate activities for the commemoration, including:
   a. Publications, both printed and electronic, of books, periodicals, films, videotapes, and other promotional and educational materials.
   b. Scholarly projects, conferences, lectures, seminars, and programs.
   c. Libraries, exhibits, and museums.
   d. Competitions and awards for historical, scholarly, artistic, and other works and projects related to the centennial.
   e. Ceremonies and celebrations, including a calendar of major activities, commemorating the centennial and other related historical events and achievements.

(2) Recommendations for legislation and administrative action to promote and develop the commemoration.

(3) An accounting of funds received and expended.

(b) Final Report. — The Commission shall submit a final report to the General Assembly no later than June 30, 2004. The final report shall include:

(1) A summary of the activities of the Commission.

(2) A final accounting of funds received and expended by the Commission.

(3) Recommendations concerning the disposition of historically significant property donated to or acquired by the Commission. (1993 (Reg. Sess., 1994), c. 777, s. 7(a).)

§§ 143-644 through 143-649: Reserved for future codification purposes.

ARTICLE 68.

North Carolina State Boxing Commission.

§ 143-650. Legislative findings and declarations.

The General Assembly finds and declares to be the public policy of this State that it is in the best interest of the public and of boxing that boxing should be subject to an effective and efficient system of strict control and regulation in order to:

(1) Protect the safety and well-being of participants in boxing; and

(2) Promote the public confidence and trust in the regulatory process and the conduct of boxing.

To further the public confidence and trust, the provisions of this Article are designed to regulate all persons, practices, and associations related to the operation of any live boxing event, performance, or contest held in North Carolina. (1995, c. 499, s. 1.)

§ 143-651. Definitions.

The following definitions apply in this Article:

(1) Amateur. — A person who is not receiving or competing for and has never received or competed for any purse or other article or thing of value for participating in a match.

(2) Announcer. — Any person who engages in the act of announcing a boxing match.

(3) Boxer. — Any person who engages as a participant in a boxing match.

(4) Boxing match. — A match where the participants engage in the use of full contact boxing techniques (using the fist only), and where the object of a match is to win by decision, knockout (KO), or technical knockout (TKO).

(5) Commission. — The North Carolina State Boxing Commission.

(6) Contest. — A boxing match in which the participants strive to win.

(7) Contestant. — Any person who engages as a participant in a boxing match.

(8) Exhibition. — A boxing match where the participants display their boxing skills and technique without necessarily striving to win.

(9) Judge. — A person who has a vote in determining the winner of any match or contest.

(10) Kickboxer. — Any person who engages as a participant in a kickboxing match.

(11) Kickboxing match. — A match in which the participants engage in full contact martial arts fighting techniques using the hands and the feet, and where the object of the match is to win by decision, knockout (KO), or technical knockout (TKO).

(12) Licensee. — Any person, club, corporation, organization, or association to whom a license has been issued pursuant to the provisions of this Article.

(13) Manager. — Any person who controls or administers the boxing affairs of any contestant, and who:

a. By contract, agreement, or other arrangement with any person undertakes or has undertaken to represent in any way the

interest of the contestant in any professional boxing contest in which the boxer is to participate as a contestant, and is entitled under that contract, agreement, or arrangement to receive monetary or other compensation for his services, without regard to the sources of the compensation. The term "manager" shall not be construed to mean any attorney licensed to practice in this State whose participation in the activities is restricted solely to representing the interests of a professional boxer as a client.

b. Directs or controls the professional boxing activities of any professional boxer.

c. Receives or is entitled to receive a percentage of the gross purse or gross income of any professional boxing contest.

(14) Match. — Any boxing or kickboxing contest or exhibition, and includes any event, engagement, sparring or practice session, show or program where the public is admitted and in which there is intended to be physical contact, whether an exhibition or contest. This definition does not include training or practice sessions when no admission is charged.

(15) Matchmaker. — A person through whom matches are arranged for participants and who otherwise assists participants in procuring engagement dates for boxing.

(16) Natural person. — An individual.

(17) Participant. — Any person who engages in a match or exhibition and performs as a boxer.

(18) Person. — An individual, group of individuals, business, corporation, limited liability company, partnership, or any other individual or collective entity.

(19) Physician. — An individual licensed to practice medicine in this State.

(20) Professional. — Any person who is licensed as a professional boxer under the federal Professional Boxing Safety Act of 1996.

(21) Promoter. — Any person who produces, arranges, stages, holds, or gives any match in North Carolina involving a professional participant.

(22) Referee. — The official who shall enter and remain in the ring for the duration of a match and shall enforce the rules and maintain order in the ring.

(23) Ring official. — Any person who performs an official function for the duration of a match.

(23a) Sanctioned amateur. — A person who competes in a sanctioned amateur match.

(23b) Sanctioned amateur match. — Any boxing or kickboxing match regulated by an amateur sports organization that has been recognized and approved by the North Carolina Boxing Commission.

(24) Second. — Any person who will work or be present in the corner of a participant for the duration of a match.

(25) Timekeeper. — Any person who will operate the clock or watch for the duration of a match for the purpose of keeping the official time of the match.

(25a) Toughman contestant. — Any person who competes in a toughman event.

(25b) Toughman event. — An elimination program of matches in which (i) the contestants are not professional boxers, (ii) the finalist receives a purse or other article of value, (iii) the participants engage in the use of full contact boxing techniques, and (iv) the object of each match is to win by decision, knockout (KO), or technical knockout (TKO).

(26) Ultimate warrior match. — A match where the participants use any combination of boxing, kicking, wrestling, hitting, punching, or other combative, contact techniques and which combination of techniques is not specifically authorized by and conducted pursuant to this Article. (1995, c. 499, s. 1; 1997-504, s. 1; 1998-23, s. 18; 1998-212, s. 19.11(g).)

§ 143-652. State Boxing Commission.

(a) Creation. — The North Carolina State Boxing Commission is created within the Department of Crime Control and Public Safety to regulate in North Carolina live boxing and kickboxing matches, whether professional, amateur, sanctioned amateur, or toughman events, in which admission is charged for viewing, or the contestants compete for a purse or prize of value greater than twenty-five dollars ($25.00). The Commission shall consist of six voting members and two nonvoting advisory members. All the members shall be residents of North Carolina and shall meet requirements for membership under the Professional Boxing Safety Act of 1996. The members shall be appointed as follows:

(1) One voting member shall be appointed by the Governor for an initial term of two years.

(2) One voting member shall be appointed by the General Assembly upon the recommendation of the President Pro Tempore of the Senate for an initial term of one year, in accordance with G.S. 120-121.

(3) One voting member shall be appointed by the General Assembly upon the recommendation of the Speaker of the House of Representatives for an initial term of one year.

(4) Two voting members shall be appointed by the Secretary of Crime Control and Public Safety. One shall serve for an initial term of three years, and the other shall serve for an initial term of two years.

(4a) One member shall be appointed by the Tribal Council of the Eastern Band of the Cherokee for an initial term of three years.

(5) One nonvoting advisory member shall be appointed by the General Assembly upon the recommendation of the Speaker of the House of Representatives for an initial term of one year, in accordance with G.S. 120-121, from nominations made by the North Carolina Medical Society, which shall nominate two licensed physicians for the position.

(6) One nonvoting advisory member shall be appointed by the General Assembly upon the recommendation of the President Pro Tempore of the Senate for an initial term of one year, in accordance with G.S. 120-121, from nominations made by the North Carolina Medical Society, which shall nominate two licensed physicians for the position.

The member appointed pursuant to subdivision (5) of subsection (a) of this section may serve on the Commission only if an agreement exists and remains in effect between the Tribal Council of the Eastern Band of the Cherokee and the Commission authorizing the Commission to regulate professional boxing matches within the Cherokee Indian Reservation as provided by the Professional Boxing Safety Act of 1996.

The two nonvoting advisory members appointed pursuant to subdivisions (6) and (7) of subsection (a) of this section shall advise the Commission on matters concerning the health and physical condition of boxers and health issues relating to the conduct of exhibitions and boxing matches. They may prepare and submit to the Commission for its consideration and approval any rules that in their judgment will safeguard the physical welfare of all participants engaged in boxing.

Terms for all members of the Commission except for the initial appointments shall be for three years.

The Secretary of Crime Control and Public Safety shall designate which member of the Commission is to serve as chair. A member of the Commission may be removed from office by the Secretary of Crime Control and Public Safety. Each member before entering upon the duties of a member shall take and subscribe an oath to perform the duties of the office faithfully, impartially, and justly to the best of the member's ability. A record of these oaths shall be filed in the Department of the Secretary of Crime Control and Public Safety.

(b) Vacancies. — Members shall serve until their successors are appointed and have been qualified. Any vacancy in the membership of the Commission shall be filled in the same manner as the original appointment. Vacancies for members appointed by the General Assembly shall be filled in accordance with G.S. 120-122. A vacancy in the membership of the Commission other than by expiration of term shall be filled for the unexpired term only.

(c) Meetings. — Meetings of the Commission shall be called by the chair or by any two members of the Commission, and meetings shall be held at least quarterly. Any three voting members of the Commission shall constitute a quorum at any meeting. Action may be taken and motions and resolutions adopted by the Commission at any meeting by the affirmative vote of a majority of the members of the Commission present at a meeting at which a quorum exists. Any or all members may participate in a regular or special meeting by, or conduct the meeting through the use of, any means of communication by which all members participating may simultaneously hear each other during the meeting. A member participating in the meeting by this means is deemed to be present in person at the meeting.

(d) Rule-Making Authority of the Commission. — The Commission shall have the exclusive authority to approve and issue rules for the regulation of the conduct, promotion, and performances of live boxing, kickboxing, sanctioned amateur, amateur, and toughman matches and exhibitions in this State. The rules shall be issued pursuant to the provisions of Chapter 150B of the General Statutes and may include, without limitation, the following subjects:

(1) Requirements for issuance of licenses and permits required by this Article.
(2) Regulation of ticket sales.
(3) Physical requirements for contestants, including classification by weight and skill.
(4) Supervision of matches and exhibitions by licensed physicians and referees.
(5) Insurance and bonding requirements.
(6) Compensation of participants and licensees.
(7) Contracts and financial arrangements.
(8) Prohibition of dishonest, unethical, and injurious practices.
(9) Facilities.
(10) Approval of sanctioning amateur sports organizations.
(11) Procedures and requirements for compliance with the Professional Boxing Safety Act of 1996.

(e) Compensation. — None of the members of the Commission shall receive compensation for serving on the Commission. However, members of the Commission may be reimbursed for their expenses in accordance with the provisions of Chapter 138 of the General Statutes.

(f) Staff Assistance. — The Secretary of Crime Control and Public Safety shall hire a person to serve as Executive Director of the Commission and shall provide staff assistance to the Executive Director. The Executive Director shall enforce this Article through the Department of Crime Control and Public Safety. If necessary, the Executive Director may train and contract with independent contractors for the purpose of regulating and monitoring events, issuing licenses, collecting fees, and enforcing rules of the Commission. The

Executive Director may initiate and review criminal background checks on persons requesting to work as independent contractors for the Commission or persons applying to be licensed by the Commission. (1995, c. 499, s. 1; 1997-504, s. 2; 1998-23, s. 18; 1998-212, s. 19.11(b), (g); 1999-237, s. 20.3(a).)

Editor's Note. — Session Laws 1998-212, s. 19.11(a) provides: "(a) The statutory authority, powers, duties, functions, records, property, and unexpended balances of appropriations, allocations, or other funds of the North Carolina State Boxing Commission are transferred from the Department of the Secretary of State to the Department of Crime Control and Public Safety."

Session Laws 1998-212, s. 1.1 provides: "This act shall be known as the 'Current Operations Appropriations and Capital Improvement Appropriations Act of 1998'."

Session Laws 1998-212, s. 30.2 provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 1998-99 fiscal year, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 1998-99 fiscal year."

Session Laws 1998-212, s. 30.5 contains a severability clause.

§ 143-653. Ultimate warrior matches prohibited.

Ultimate warrior matches, whether the participants are professionals or amateurs, are prohibited. No person shall promote, conduct, or engage in ultimate warrior matches. This section shall not preclude boxing and kickboxing as regulated in this Article or professional wrestling. (1995, c. 499, s. 1; 1997-504, s. 3; 1998-23, s. 18; 1998-212, s. 19.11(g).)

§ 143-654. Licensing and permitting.

(a) License and Permit Required. — Except for sanctioned amateur matches, it is unlawful for any person to act in this State as an announcer, contestant, judge, manager, matchmaker, promoter, referee, timekeeper, or second unless the person is licensed to do so under this Article. It is unlawful for a promoter to present a match in this State, other than a sanctioned amateur match, unless the promoter has a permit issued under this Article to do so. The Commission has the exclusive authority to issue, deny, suspend, or revoke any license or permit provided for in this Article.

(b) License. — All licenses issued under this Article shall be valid only during the calendar year in which they are issued, except contestant licenses shall be valid for one year from the date of issuance. A license for an announcer, contestant, judge, matchmaker, referee, timekeeper, or second shall be issued only to a natural person. A natural person shall not transfer or assign a license or change it into another name. A license for a manager or promoter may be issued to a corporation or partnership; provided, however, that all officers or partners shall submit an application for individual licensure, and only those officers or partners who are licensed shall be entitled to negotiate or sign contracts. The addition of a new officer or partner during the license period shall necessitate the filing of an application for individual licensure by the new officer or partner.

An applicant for a license shall file with the Commission the appropriate nonrefundable fee and any forms, documents, medical examinations, or exhibits the Commission may require in order to properly administer this Article. The information requested shall include the date of birth and social security number of each applicant as well as any other personal data necessary to positively identify the applicant and may include the requirement of verification of any documents the Commission deems appropriate. A person may not participate under a fictitious or assumed name in any match unless the person has first registered the name with the Commission.

(c) Surety Bond. — An applicant for a promoter's license must submit, in addition to any other forms, documents, or exhibits requested by the Commis-

sion, a surety bond payable to the Commission for the benefit of any person injured or damaged by (i) the promoter's failure to comply with any provision of this Article or any rules adopted by the Commission or (ii) the promoter's failure to fulfill the obligations of any contract related to the holding of a boxing event. The surety bond shall be issued in an amount to be no less than five thousand dollars ($5,000). The amount of the surety bond shall be negotiable upon the sole discretion of the Commission. All surety bonds shall be upon forms approved by the Secretary of Crime Control and Public Safety and supplied by the Commission.

(d) Permit. — A permit issued to a promoter under this Article is valid for a single match. An applicant for a permit shall file with the Commission the appropriate nonrefundable fee and any forms or documents the Commission may require. (1995, c. 499, s. 1; 1997-504, s. 4; 1998-23, s. 18; 1998-212, s. 19.11(c), (g); 1999-237, s. 20.3(b).)

§ 143-655. Fees; State Boxing Commission Revenue Account.

(a) License Fees. — The Commission shall collect the following license fees:

Announcer	$50.00
Contestant	$25.00
Judge	$50.00
Manager	$100.00
Matchmaker	$200.00
Promoter	$300.00
Referee	$50.00
Timekeeper	$50.00
Second	$25.00.

The annual license renewal fees shall not exceed the initial license fees.

(b) Permit Fees. — The Commission may establish a fee schedule for permits issued under this Article. The fees may vary depending on the seating capacity of the facility to be used to present a match. The fee may not exceed the following amounts:

Seating Capacity	Fee Amount
Less than 2,000	$100.00
2,000 — 5,000	$200.00
Over 5,000	$300.00.

(c) State Boxing Commission Revenue Account. — There is created the State Boxing Commission Revenue Account within the Department of Crime Control and Public Safety. Monies [moneys] collected pursuant to the provisions of this Article shall be credited to the Account and applied to the administration of the Article. (1995, c. 499, s. 1; 1998-212, s. 19.11(d).)

§ 143-656. Contracts and financial arrangements.

Any contract between licensees and related to a boxing match or exhibition held or to be held in this State must meet the requirements of administrative rules as set forth by the Commission. Any contract which does not satisfy the requirements of the administrative rules shall be void and unenforceable. All contracts shall be in writing. (1995, c. 499, s. 1; 1997-504, s. 5; 1998-23, s. 18; 1998-212, s. 19.11(g).)

§ 143-657: Repealed by Session Laws 1997-504, s. 6.

§ 143-657.1. Sanctioned amateur matches.

In addition to the other applicable provisions of this Article, a sanctioned amateur match shall be conducted pursuant to the rules of the sports organization sanctioning the boxing match or exhibition. (1997-504, s. 7; 1998-23, s. 18; 1998-212, s. 19.11(g).)

§ 143-658. Violations.

(a) Civil Penalties. — The Secretary of Crime Control and Public Safety may issue an order against a licensee or other person who willfully violates any provision of this Article, imposing a civil penalty of up to five thousand dollars ($5,000) for a single violation or of up to twenty-five thousand dollars ($25,000) for multiple violations in a single proceeding or a series of related proceedings. No order under this subsection may be entered without giving the licensee or other person 15 days' prior notice and an opportunity for a contested case hearing conducted pursuant to Article 3 of Chapter 150B of the General Statutes.

The clear proceeds of civil penalties imposed pursuant to this subsection shall be remitted to the Civil Penalty and Forfeiture Fund in accordance with G.S. 115C-457.2.

(b) Criminal Penalties. — A willful violation of any provision of this Article shall constitute a Class 2 misdemeanor. The Secretary of Crime Control and Public Safety may refer any available evidence concerning violations of this Article to the proper district attorney, who may, with or without such a reference, institute the appropriate criminal proceedings.

(c) Injunction. — Whenever it appears to the Secretary of Crime Control and Public Safety that a person has engaged or is about to engage in an act or practice constituting a violation of any provision of this Article or any rule or order hereunder, the Secretary of Crime Control and Public Safety may bring an action in any court of competent jurisdiction to enjoin those acts or practices and to enforce compliance with this Article or any rule or order issued pursuant to this Article.

(d) Repealed by Session Laws 1998-212, s. 19.11(e), effective July 1, 1998. (1995, c. 499, s. 1; 1997-504, s. 8; 1998-23, s. 18; 1998-212, s. 19.11(e), (g); 1998-215, s. 125.)

§ 143-659: Reserved for future codification purposes.

Article 69.

Criminal Justice Information Network Governing Board.

§ 143-660. Definitions.

As used in this Article:

(1) "Board" means the Criminal Justice Information Network Governing Board established by G.S. 143-661.

(2) "Local government user" means a unit of local government of this State having authorized access to the Network.

(3) "Network" means the Criminal Justice Information Network established by the Board pursuant to this Article.

(4) "Network user" or "user" means any person having authorized access to the Network.

(5) "State agency" means any State department, agency, institution, board, commission, or other unit of State government. (1996, 2nd Ex. Sess., c. 18, s. 23.3(a).)

Editor's Note. — Session Laws 2003-284, s. 17.1.(c), provides: "The Criminal Justice Information Network as provided in Article 69 of Chapter 143 of the General Statutes is hereby transferred by a Type II transfer, as defined in G.S. 143A-6, to the Department of Crime Control and Public Safety."

Session Laws 2003-284, s. 1.2, provides: "This act shall be known as the 'Current Operations and Capital Improvements Appropriations Act of 2003'."

Session Laws 2003-284, s. 49.3, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 2003-2005 fiscal biennium, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 2003-2005 fiscal biennium."

Session Laws 2003-284, s. 49.5 is a severability clause.

§ 143-661. Criminal Justice Information Network Governing Board — creation; purpose; membership; conflicts of interest.

(a) The Criminal Justice Information Network Governing Board is established within the Department of Crime Control and Public Safety, to operate the State's Criminal Justice Information Network, the purpose of which shall be to provide the governmental and technical information systems infrastructure necessary for accomplishing State and local governmental public safety and justice functions in the most effective manner by appropriately and efficiently sharing criminal justice and juvenile justice information among law enforcement, judicial, and corrections agencies. The Board is established within the Department of Crime Control and Public Safety, for organizational and budgetary purposes only and the Board shall exercise all of its statutory powers in this Article independent of control by the Department of Crime Control and Public Safety.

(b) The Board shall consist of 21 members, appointed as follows:

(1) Five members appointed by the Governor, including one member who is a director or employee of a State correction agency for a term to begin September 1, 1996 and to expire on June 30, 1997, one member who is an employee of the North Carolina Department of Crime Control and Public Safety for a term beginning September 1, 1996 and to expire on June 30, 1997, one member selected from the North Carolina Association of Chiefs of Police for a term to begin September 1, 1996 and to expire on June 30, 1999, one member who is an employee of the Department of Juvenile Justice and Delinquency Prevention, and one member who represents the Division of Motor Vehicles.

(2) Six members appointed by the General Assembly in accordance with G.S. 120-121, as follows:

a. Three members recommended by the President Pro Tempore of the Senate, including two members of the general public for terms to begin on September 1, 1996 and to expire on June 30, 1997, and one member selected from the North Carolina League of Municipalities who is a member of, or an employee working directly for, the governing board of a North Carolina municipality for a term to begin on September 1, 1996 and to expire on June 30, 1999; and

b. Three members recommended by the Speaker of the House of Representatives, including two members of the general public for terms to begin on September 1, 1996 and to expire on June 30, 1999, and one member selected from the North Carolina Association of County Commissioners who is a member of, or an employee working directly for, the governing board of a North Carolina county for a term to begin on September 1, 1996 and to expire on June 30, 1997.

(3) Two members appointed by the Attorney General, including one member who is an employee of the Attorney General for a term to begin on September 1, 1996 and to expire on June 30, 1997, and one member from the North Carolina Sheriffs' Association for a term to begin on September 1, 1996 and to expire on June 30, 1999.

(4) Six members appointed by the Chief Justice of the North Carolina Supreme Court, as follows:

a. The Director of the Administrative Office of the Courts, or an employee of the Administrative Office of the Courts, for a term beginning July 1, 1997, and expiring June 30, 2001.

b. One member who is a district attorney or an assistant district attorney upon the recommendation of the Conference of District Attorneys of North Carolina, for a term beginning July 1, 1998, and expiring June 30, 1999.

c. Two members who are superior court or district court judges for terms beginning July 1, 1998, and expiring June 30, 2001.

d. One member who is a magistrate upon the recommendation of the North Carolina Magistrates' Association, for a term beginning July 1, 1998, and expiring June 30, 1999.

e. One member who is a clerk of superior court upon the recommendation of the North Carolina Association of Clerks of Superior Court, for a term beginning July 1, 1998, and expiring June 30, 1999.

(5) One member appointed by the Chair of the Information Resource Management Commission, who is the Chair or a member of that Commission, for a term to begin on September 1, 1996 and to expire on June 30, 1999.

(6) One member appointed by the President of the North Carolina Chapter of the Association of Public Communications Officials International, who is an active member of the Association, for a term to begin on September 1, 1996 and to expire on June 30, 1999.

The respective appointing authorities are encouraged to appoint persons having a background in and familiarity with criminal information systems and networks generally and with the criminal information needs and capacities of the constituency from which the member is appointed.

As the initial terms expire, subsequent members of the Board shall be appointed to serve four-year terms. At the end of a term, a member shall continue to serve on the Board until a successor is appointed. A member who is appointed after a term is begun serves only for the remainder of the term and until a successor is appointed. Any vacancy in the membership of the Board shall be filled by the same appointing authority that made the appointment, except that vacancies among members appointed by the General Assembly shall be filled in accordance with G.S. 120-122.

(c) Members of the Board shall not be employed by or serve on the board of directors or other corporate governing body of any information systems, computer hardware, computer software, or telecommunications vendor of goods and services to the State or to any unit of local government in the State. No member of the Board shall vote on an action affecting solely the member's own State agency or local governmental unit or specific judicial office. (1996, 2nd Ex. Sess., c. 18, s. 23.3(a); 1998-202, s. 9; 1998-212, s. 18.2(b); 2001-424, s. 23.6(b); 2001-487, s. 90; 2003-284, s. 17.1(a).)

Editor's Note. — Session Laws 2001-424, s. 23.6(a), provides: "The Criminal Justice Information Network Governing Board established pursuant to G.S. 143-661 shall report by April 1, 2002, to the Chairs of the Senate and House of Representatives Appropriations Committees, the Chairs of the Senate and House of Representatives Appropriations Subcommittees on Justice and Public Safety, and the Fiscal Research Division of the General Assembly on:

"(1) The operating budget of the Board, the expenditures of the Board as of the date of the report, and the amount of funds in reserve for the operation of the Board; and

"(2) A long-term strategic plan and cost analysis for statewide implementation of the Criminal Justice Information Network. For each component of the Network, the initial cost estimate of the component, the amount of funds spent to date on the component, the source of funds for expenditures to date, and a timetable for completion of that component, including additional resources needed at each point."

Session Laws 2001-424, s. 1.2, provides: "This act shall be known as the 'Current Operations and Capital Improvements Appropriations Act of 2001'."

Session Laws 2001-424, s. 36.3, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 2001-2003 fiscal biennium, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 2001-2003 fiscal biennium."

Session Laws 2001-424, s. 36.5 is a severability clause.

Session Laws 2003-284, s. 17.1.(c), provides: "The Criminal Justice Information Network as provided in Article 69 of Chapter 143 of the General Statutes is hereby transferred by a Type II transfer, as defined in G.S. 143A-6, to the Department of Crime Control and Public Safety."

Session Laws 2003-284, s. 1.2, provides: "This act shall be known as the 'Current Operations and Capital Improvements Appropriations Act of 2003'."

Session Laws 2003-284, s. 49.3, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 2003-2005 fiscal biennium, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 2003-2005 fiscal biennium."

Session Laws 2003-284, s. 49.5 is a severability clause.

Effect of Amendments. — Session Laws 2003-284, s. 17.1.(a), effective July 1, 2003, in subsection (a), substituted "Department of Crime Control and Public Safety" twice for "Department of Justice, State Bureau of Investigation," and substituted "Department of Crime Control and Public Safety" for "Department of Justice."

§ 143-662. Compensation and expenses of Board members; travel reimbursements.

Members of the Board shall serve without compensation but may receive travel and subsistence as follows:

(1) Board members who are officials or employees of a State agency or unit of local government, in accordance with G.S. 138-6.

(2) All other Board members, at the rate established in G.S. 138-5. (1996, 2nd Ex. Sess., c. 18, s. 23.3(a).)

§ 143-663. Powers and duties.

(a) The Board shall have the following powers and duties:

(1) To establish and operate the Network as an integrated system of State and local government components for effectively and efficiently storing, communicating, and using criminal justice information at the State and local levels throughout North Carolina's law enforcement, judicial, juvenile justice, and corrections agencies, with the components of the Network to include electronic devices, programs, data, and governance and to set the Network's policies and procedures.

(2) To develop and adopt uniform standards and cost-effective information technology, after thorough evaluation of the capacity of information technology to meet the present and future needs of the State and, in consultation with the Information Resource Management Commission, to develop and adopt standards for entering, storing, and transmitting information in criminal justice databases and for achieving maximum compatibility among user technologies.

(3) To identify the funds needed to establish and maintain the Network, identify public and private sources of funding, and secure funding to:

a. Create the Network and facilitate the sharing of information among users of the Network; and

b. Make grants to local government users to enable them to acquire or improve elements of the Network that lie within the responsibility of their agencies or State agencies; provided that the elements developed with the funds must be available for use by the State or by local governments without cost and the applicable State agencies join in the request for funding.

(4) To provide assistance to local governments for the financial and systems planning for Network-related automation and to coordinate and assist the Network users of this State in soliciting bids for information technology hardware, software, and services in order to assure compliance with the Board's technical standards, to gain the most advantageous contracts for the Network users of this State, and to assure financial accountability where State funds are used.

(5) To provide a liaison among local government users and to advocate on behalf of the Network and its users in connection with legislation affecting the Network.

(6) To facilitate the sharing of knowledge about information technologies among users of the Network.

(7) To take any other appropriate actions to foster the development of the Network.

(b) All grants or other uses of funds appropriated or granted to the Board shall be conditioned on compliance with the Board's technical and other standards. (1996, 2nd Ex. Sess., c. 18, s. 23.3(a); 2003-284, s. 17.2(b).)

Editor's Note. — Session Laws 2003-284, s. 1.2, provides: "This act shall be known as the 'Current Operations and Capital Improvements Appropriations Act of 2003'."

Session Laws 2003-284, s. 49.5 is a severability clause.

Effect of Amendments. — Session Laws 2003-284, s. 17.2.(b), effective July 1, 2003, inserted "juvenile justice" following "law enforcement, judicial" in subdivision (a)(1).

§ 143-664. Election of officers; meetings; staff, etc.

(a) The Governor shall call the first meeting of the Board. At the first meeting, the Board shall elect a chair and a vice-chair, each to serve a one-year term, with subsequent officers to be elected for one-year terms. The Board shall hold at least two regular meetings each year, as provided by policies and procedures adopted by the Board. The Board may hold additional meetings upon the call of the chair or any three Board members. A majority of the Board membership constitutes a quorum.

(b) Pending permanent staffing, the Department shall provide the Board with professional and clerical staff and any additional support the Board needs to fulfill its mandate. The Board may meet in an area provided by the Department of Crime Control and Public Safety and the Board's staff shall use space provided by the Department. (1996, 2nd Ex. Sess., c. 18, s. 23.3(a); 2003-284, s. 17.1(b).)

Editor's Note. — Session Laws 2003-284, s. 17.1.(c), provides: "The Criminal Justice Information Network as provided in Article 69 of Chapter 143 of the General Statutes is hereby transferred by a Type II transfer, as defined in G.S. 143A-6, to the Department of Crime Control and Public Safety."

Session Laws 2003-284, s. 1.2, provides: "This act shall be known as the 'Current Operations and Capital Improvements Appropriations Act of 2003'."

Session Laws 2003-284, s. 49.3, provides: "Except for statutory changes or other provisions that clearly indicate an intention to have effects beyond the 2003-2005 fiscal biennium, the textual provisions of this act apply only to funds appropriated for, and activities occurring during, the 2003-2005 fiscal biennium."

Session Laws 2003-284, s. 49.5 is a severability clause.

Effect of Amendments. — Session Laws 2003-284, s. 17.1.(b), effective July 1, 2003,

substituted "Department of Crime Control and Public Safety" for "Department of Justice" in subsection (b).

§§ 143-665 through 143-669: Reserved for future codification purposes.

Article 70.

Adopt-A-Beach Program.

§§ 143-670 through 143-674: Repealed by Session Laws 2001-452, s. 1.1, effective October 28, 2001.

Editor's Note. — Repealed G.S. 143-674 had been reserved.

Article 71.

North Carolina Postal History Commission.

§ 143-675. Commission established; purpose; members; terms of office; quorum; compensation; termination.

(a) Establishment. — There is established the North Carolina Postal History Commission. The Commission shall be located within the Department of Cultural Resources for organizational, budgetary, and administrative purposes.

(b) Purpose. — The purpose of the Commission is to advise the Secretary of Cultural Resources on the collection, preservation, cataloging, publication, and exhibition of material associated with North Carolina's postal history.

(c) Membership. — The Commission shall consist of 16 members, as follows:

(1) Four persons appointed by the Governor, two of whom shall be recommended by the President of the North Carolina Postal History Society.

(2) Four persons appointed by the President Pro Tempore of the Senate, two of whom shall be recommended by the President of the North Carolina Postal History Society.

(3) Four persons appointed by the Speaker of the House of Representatives, two of whom shall be recommended by the President of the North Carolina Postal History Society.

(4) Four persons appointed by the Secretary of Cultural Resources, two of whom shall be recommended by the President of the North Carolina Postal History Society.

The members appointed to the North Carolina Postal History Commission shall be chosen from among individuals who have education or experience in the fields of archives preservation, North Carolina history, historical administration, museum administration, or a knowledge of North Carolina's postal history.

(d) Terms. — Members shall serve for the duration of the Commission. Initial terms shall commence July 1, 1997.

(e) Chair. — The chair shall be elected biennially from the membership of the Commission from among its members. The initial term shall commence July 1, 1997.

(f) Vacancies. — Vacancies resulting from the resignation of a member or otherwise shall be filled in the same manner in which the original appointment was made, and the term shall be for the balance of the unexpired term.

(g) Compensation. — The Commission members shall receive no salary as a result of serving on the Commission but shall receive per diem, subsistence, and travel expenses in accordance with the provisions of G.S. 120-3.1, 138-5, and 138-6, as applicable.

(h) Removal. — Members may be removed in accordance with G.S. 143B-13.

(i) Meetings. — The chair shall convene the Commission. The Commission shall meet at least quarterly until an exhibit on postal history is mounted and at least semiannually thereafter.

(j) Quorum. — A majority of the members of the Commission shall constitute a quorum for the transaction of business. The affirmative vote of a majority of the members present at meetings of the Commission shall be necessary for action to be taken by the Commission.

(k) Termination of Commission. — The Commission shall terminate June 30, 2000. (1997-443, s. 30.5.)

§ 143-676. Powers and duties of the Commission.

(a) Powers and Duties. — The Commission shall have the following powers and duties:

(1) To advise the Secretary of Cultural Resources on the collection, preservation, cataloging, publication, and exhibition of materials associated with North Carolina's postal history in cooperation with the North Carolina Museum of History.

(2) To adopt bylaws by a majority vote of the Commission.

(3) To accept grants, contributions, devises, bequests, gifts, and services for the purpose of providing support to the Commission. The funds and property shall be retained by the Commission, and the Commission shall prescribe rules under which the Commission may accept donations of money, property, or personal services, and determine the value of donations of property or personal services.

(b) Contract Authority. — The Commission may procure supplies, services, and property as appropriate and may enter into contracts, leases, or other legal agreements within funds available to carry out the purposes of this Article. All contracts, leases, or legal agreements entered into by the Commission shall terminate on the date of termination of the Commission. Termination shall not affect any disputed or causes of action of the Commission that arise before the date of termination, and the Department of Cultural Resources may prosecute or defend any causes of action arising before the date of termination. All property acquired by the commission that remains in the possession of the Commission on the date of termination shall become the property of the Department of Cultural Resources. (1997-443, s. 30.5.)

§ 143-677. Assignment of property; offices.

(a) Assignment of Propery. — Upon request of the Commission, the head of any State agency may assign property, equipment, and personnel of such agency to the Commission to assist the Commission in carrying out its duties under this Article. Assignments under this subsection shall be without reimbursement by the Commission to the agency from which the assignment was made. Property and equipment that remain in the possession of the Commission on the date of the termination of the Commission shall revert to the agency from which the property was acquired.

(b) Office Space. — The Department of Cultural Resources shall provide office space in Raleigh for use as offices by the North Carolina Postal History

Commission, and the Department of Cultural Resources shall receive no reimbursement from the Commission for the use of the property during the life of the Commission. (1997-443, s. 30.5.)

§ 143-678. Commission reports.

(a) Annual Report. — Before July 1, 1998, the Commission shall submit to the General Assembly a comprehensive report incorporating specific recommendations of the Commission. After the initial report, the Commission shall submit a report to the General Assembly within 30 days of the convening of each regular session of the General Assembly.

(b) Final Report. — The Commission shall submit a final report to the General Assembly no later than June 30, 2000. The final report shall include:

(1) A summary of the activities of the Commission.

(2) A final accounting of funds received and expended by the Commission. (1997-443, s. 30.5.)

§ 143-679. Application of Article.

The provisions of Article 1 of Chapter 121 of the General Statutes apply to the Commission. (1997-443, s. 30.5.)

§§ 143-680, 143-681: Reserved for future codification purposes.

Article 72.

Commission On Children With Special Health Care Needs.

§ 143-682. Commission established.

(a) There is established the Commission on Children With Special Health Care Needs. The Department of Health and Human Services shall provide staff services and space for Commission meetings. The purpose of the Commission is to monitor and evaluate the availability and provision of health services to special needs children in this State, and to monitor and evaluate services provided to special needs children under the Health Insurance Program for Children established under Part 8 of Article 2 of Chapter 108A of the General Statutes.

(b) The Commission shall consist of eight members appointed by the Governor, as follows:

(1) Two parents, not of the same family, each of whom has a special needs child. In appointing parents, the Governor shall consider appointing one parent of a child with chronic illness and one parent of a child with a developmental disability or behavioral disorder.

(2) A licensed psychiatrist recommended by the North Carolina Psychiatric Association;

(3) A licensed psychologist recommended by the North Carolina Psychological Association;

(4) A licensed pediatrician whose practice includes services for special needs children, recommended by the Pediatric Society of North Carolina;

(5) A representative of one of the children's hospitals in the State, recommended by the Pediatric Society of North Carolina;

(6) A local public health director recommended by the Association of Local Health Directors; and

(7) An educator providing education services to special needs children, recommended by the North Carolina Council of Administrators of Special Education.

(c) The Governor shall appoint from among Commission members the person who shall serve as chair of the Commission. Of the initial appointments, two shall serve one-year terms, three shall serve two-year terms, and three shall serve three-year terms. Thereafter, terms shall be for two years. Vacancies occurring before expiration of a term shall be filled from the same appointment category in accordance with subsection (b) of this section. (1998-1, s. 3(a); 1998-212, s. 12.12(c).)

§ 143-683. Powers and duties of the Commission.

The Commission shall have the following powers and duties:

(1) Study the needs of children with special health care needs in this State for health care services not presently provided or regularly available through State or federal programs or through private or employer-sponsored health insurance plans;

(2) Develop guidelines for case management services, quality assurance measures, and periodic evaluations to determine efficacy of health services provided to special needs children;

(3) Develop and coordinate an outreach program of case managers to assist children with special health care needs and their families in accessing available State and federal resources for all health care services;

(4) Review rules adopted by the Commission for Health Services pertaining to the provision of services for special needs children and make recommendations for modifications or additions to the rules necessary to improve services to these children or to make service delivery more efficient and effective;

(5) Review policies and practices of the Department of Health and Human Services and recommend to the Secretary of Health and Human Services changes that would improve implementation of health programs for children with special health care needs;

(6) Report to each session of the General Assembly not later than the first day of its convening. The report shall include a summary of the Commission's work and any recommendations the Commission may have on ways to improve the efficiency and effectiveness of health services delivery to children with special health care needs in this State, The Commission shall provide a copy of its report to the General Assembly's Commission on Children With Special Needs;

(7) Study the feasibility of establishing a privately funded risk pool to provide insurance coverage and services for children with special health care needs;

(8) Make recommendations to the Department and to the Commission for Health Services regarding quality assurance measures and mechanisms to enhance the health outcomes of children with special health care needs;

(9) Establish subcommittees as necessary to provide assistance and advice to the Commission in conducting its studies and other activities. The Commission may appoint non-Commission members to the subcommittees;

(10) Seek grants and other funds from private and federal sources to carry out the purposes of this Article; and

(11) Conduct other activities the Commission deems appropriate and necessary to carry out the purposes of this Article. (1998-1, s. 3(a).)

§ 143-684. Compensation and expenses of Commission members; travel reimbursements.

Members of the Commission shall serve without compensation but may receive travel and subsistence as follows:

(1) Commission members who are officials or employees of a State agency or unit of local government, in accordance with G.S. 138-6.

(2) All other Commission members at the rate established in G.S. 138-5. (1998-1, s. 3(a).)

§ 143-685: through 143-689Reserved for future codification purposes.

Article 73.

Reserved.

§§ 143-690 through 143-693: Reserved for future codification purposes.

Editor's Note. — Session Laws 1998-132, s. 14 was codified as Part 30 of Article 7 of Chapter 143B rather than as Article 73 of Chapter 143 at the direction of the Revisor of Statutes.

Article 74.

§§ 143-710 through 143-714: Reserved for future codification purposes.

Article 75.

Tobacco Trust Fund.

§ 143-715. Policy; purpose.

The General Assembly finds:

(1) For many years, the State and its prosperity have been supported by its agricultural economy and particularly by the tobacco-related segment of the agricultural economy. The Master Settlement Agreement is expected to cause significant economic hardship upon the tobacco-related segment of the agricultural economy in that it is expected to result in reduced demand, sales, and prices for tobacco as an agricultural product.

(2) Tobacco producers, tobacco allotment holders, and persons engaged in tobacco-related businesses are entitled to indemnification for the

adverse economic effects in the State resulting from the Master Settlement Agreement, tobacco producers, allotment holders, and persons engaged in tobacco-related businesses are entitled to compensation for the economic losses resulting from lost quota in this State, and tobacco producers are entitled to compensation for the decline in value of tobacco-related personal property assets and declining market conditions in this State resulting from the Master Settlement Agreement, to the extent that funds are available in the Tobacco Trust Fund to address those purposes.

(3) Even in the absence of the Master Settlement Agreement, the tobacco-related segment of the State's economy is experiencing severe economic hardship as it confronts a national decline in the use of, and demand for, tobacco products, which decline is expected to continue. At present, the tobacco producers, tobacco allotment holders, and persons engaged in tobacco-related businesses are facing an economic crisis that threatens their health and survival. Therefore, in addition to indemnification and compensation for losses in this State resulting from the Master Settlement Agreement, the public interest will be served by the funding of qualified agricultural programs that support, foster, encourage, and facilitate a strong agricultural economy in North Carolina. To the extent that funds are available in the Tobacco Trust Fund, expenditure of those funds to finance qualified agricultural programs is in the public interest.

(4) It is a public purpose for these funds to be expended in this manner, and it is public service for these persons to accept these funds to the end that conditions of unemployment and fiscal distress may be alleviated or avoided, more stable local economies may be created, local tax bases may be stabilized and maintained, natural resources may be optimally used, and the general public may be benefited. (2000-147, s. 3.)

Cross References. — For the Health and Wellness Trust Fund, see G.S. 147-86.30 et seq.

Editor's Note. — Session Laws 2000-147, s. 8(a)-(c), provides:

"(a) Interpretation of Act.--The foregoing sections of this act provide an additional and alternative method for the doing of the things authorized by the act, are supplemental and additional to powers conferred by other laws, and do not derogate any powers now existing.

"(b) References in this act to specific sections or Chapters of the General Statutes are intended to be references to those sections or Chapters as amended and as they may be amended from time to time by the General Assembly.

"(c) This act, being necessary for the health and welfare of the people of the State, shall be liberally construed to effect its purposes."

Session Laws 2000-147, s. 8(d), contains a severability clause.

Session Laws 2001-487, s. 124, provides: "Notwithstanding G.S. 150B-21.1(a)(2), the Health and Wellness Trust Fund Commission and the Tobacco Trust Fund Commission shall have the authority to adopt temporary rules as a recent act of the General Assembly through June 30, 2002, in order to adopt rules as authorized in S.L. 2000-147."

§ 143-716. Definitions.

The following definitions apply in this Article:

(1) Commission. — The Tobacco Trust Fund Commission.

(2) Compensatory programs. — Programs developed by the Commission to identify, locate, compensate, and indemnify tobacco producers, allotment holders, and persons engaged in tobacco-related businesses who have suffered actual economic losses in this State due to lost quota, the decline in value of tobacco-related personal property assets, and declining market conditions resulting from the Master Settle-

ment Agreement or declines in the tobacco-related segment of the State's economy.

(3) Fund. — The Tobacco Trust Fund.

(4) Master Settlement Agreement. — The settlement agreement between certain tobacco manufacturers and the states, as incorporated in the consent decree entered in the action of State of North Carolina v. Philip Morris, Incorporated, et al., 98 CVS 14377, in the General Court of Justice, Superior Court Division, Wake County, North Carolina.

(5) National Tobacco Grower Settlement Trust. — The trust established by tobacco companies to provide payments to tobacco growers and allotment holders in 14 states for the purposes of ameliorating potential adverse economic consequences of likely reduction in demand, sales, and prices for tobacco as an agricultural product as a result of the Master Settlement Agreement.

(6) Qualified agricultural programs. — Programs developed by the Commission to support and foster the vitality and solvency of the tobacco-related segment of the State's agricultural economy, particularly the segment adversely affected by the Master Settlement Agreement, with the objective of alleviating and avoiding unemployment, preserving, and increasing local tax bases, and encouraging the economic stability of participants in the State's agricultural economy. Examples of qualified agricultural programs include programs to finance the modernization of farming equipment, programs to finance the conversion of existing equipment to conform to environmental and other regulatory requirements, and programs to finance the conversion or replacement of equipment in order to cultivate crops that are more profitable than are currently being cultivated.

(7) Tobacco product component business. — An individual, partnership, limited liability company, corporation, or other commercial entity that engages in the manufacture of component products for use in the manufacture of tobacco products.

(8) Tobacco-related business. — An individual, partnership, limited liability company, corporation, or other commercial entity that provides products or services used directly in (i) the production of tobacco, or (ii) support of the business of the production or sale of tobacco. The term does not include the manufacturing of tobacco products or the sale of tobacco products at wholesale or retail.

(9) Tobacco-related employment. — Employment in a tobacco-related business, or in the manufacturing of tobacco products or the component products used in the manufacture of tobacco products. The term does not include persons employed in the sale of tobacco products at wholesale or retail. (2000-147, s. 3.)

§ 143-717. Commission.

(a) Creation. — The Tobacco Trust Fund Commission is created. The Commission shall be administratively located within the Department of Agriculture and Consumer Services but shall exercise its powers independently of the Commissioner of Agriculture and the Department. All administrative expenses of the Commission shall be paid from the Fund.

(b) Membership. — The Commission shall consist of 18 members. The Commission shall be appointed as follows: six members by the Governor, six members by the President Pro Tempore of the Senate, and six members by the Speaker of the House of Representatives. The members shall be appointed as follows:

(1) The Governor shall make the following appointments:
a. A flue-cured tobacco farmer.
b. A flue-cured tobacco farmer.
c. A person in or displaced from tobacco-related employment.
d. An at-large appointee.
e. An at-large appointee.
f. An at-large appointee.

(2) The President Pro Tempore of the Senate shall make the following appointments:
a. A flue-cured tobacco farmer.
b. A flue-cured tobacco farmer.
c. A burley allotment holder who is also a burley tobacco farmer.
d. An at-large appointee.
e. An at-large appointee.
f. An at-large appointee.

(3) The Speaker of the House of Representatives shall make the following appointments:
a. A flue-cured tobacco farmer.
b. A flue-cured allotment holder who is not also a flue-cured tobacco farmer.
c. A burley tobacco farmer.
d. An at-large appointee.
e. An at-large appointee.
f. An at-large appointee.

It is the intent of the General Assembly that the appointing authorities, in appointing members, shall appoint members who represent the geographic, political, gender, and racial diversity of the State. It is the intent of the General Assembly that at least one-half of the members of the Commission be tobacco farmers.

Except as provided for the initial members under subsection (c) of this section, members shall serve four-year terms beginning July 1. No member may serve more than two full consecutive terms. Members may continue to serve beyond their terms until their successors are duly appointed, but any holdover shall not affect the expiration date of the succeeding term. Vacancies shall be filled by the designated appointing authority for the remainder of the unexpired term. A member may be removed from office for cause by the authority that appointed that member.

(c) Initial Membership; Staggering. — To provide for a staggered membership, the members initially appointed to the Commission shall be appointed to staggered terms. Of the initial appointments to the Commission, the members initially appointed pursuant to sub-subdivisions (b)(1)a., (1)b., (2)d., and (3)d. of this section shall serve one-year terms ending on June 30, 2001. The members initially appointed pursuant to sub-subdivisions (b)(2)c., (2)e., (3)a., and (3)e. shall serve two-year terms ending on June 30, 2002. The members initially appointed pursuant to sub-subdivisions (b)(1)c., (1)d., (1)e., (2)b., and (3)c. of this section shall serve three-year terms ending June 30, 2003. The remaining members initially appointed pursuant to subsection (b) of this section shall serve four-year terms ending June 30, 2004.

(d) Officers. — The Commission shall elect from its membership a chair, vice-chair, and other officers as necessary for two-year terms beginning July 1 at the first meeting of the Commission held on or after July 1 of every even-numbered year. The vice-chair may act for the chair in the absence of the chair as authorized by the Commission.

(e) Frequency of Meetings. — The Commission shall meet at least quarterly each year and may hold special meetings at the call of the chair or a majority of members. The Governor shall call the initial meeting of the Commission.

(f) Quorum; Majority. — Ten members shall constitute a quorum of the Commission. The Commission may act upon a majority vote of the members of the Commission on matters involving the disbursement of funds and personnel matters properly before the Commission. On all other matters, the Commission may act by majority vote of the members of the Commission at a meeting at which a quorum is present.

(g) Per Diem and Expenses. — The members of the Commission shall receive per diem and necessary travel and subsistence expenses in accordance with the provisions of G.S. 138-5. Per diem, subsistence, and travel expenses of the members shall be paid from the Fund.

(h) Conflict of Interest. — Members of the Commission shall comply with the provisions of G.S. 14-234 prohibiting conflicts of interest, except that G.S. 14-234(a) shall not apply to an application for or the receipt of a grant or other financial assistance award by a member of the Commission from the Fund created under this Article, or an entity in which a member of the Commission has an interest, if both of the following conditions are met:

(1) A member does not vote on, participate in the deliberation of, or otherwise attempt through his or her official capacity to influence the vote on, a grant or other financial assistance award by the Commission to the member.

(2) The Commissioner of Agriculture determines that any award to a member is in accordance with general criteria adopted by the Commission for the distribution of funds from the Fund.

(i) Limit on Operating and Administrative Expenses. — No more than two and one-half percent (2 ½%) of the annual receipts of the Fund for the fiscal year beginning July 1 or a total sum of one million dollars ($1,000,000), whichever is less, may be used each fiscal year for administrative and operating expenses of the Commission and its staff. All administrative expenses of the Commission shall be paid from the Fund. (2000-147, s. 3.)

Editor's Note. — Subsection (i) was enacted as subsection (h) by Session Laws 2000-147, s. 3; it was redesignated at the direction of the Revisor of Statutes.

§ 143-718. Powers and duties.

The Commission shall have the following powers and duties:

(1) To administer the provisions of this Article.

(2) To develop compensatory programs and qualified agriculture programs, including guidelines and criteria for eligibility for and disbursement of funds, the forms of direct and indirect economic assistance to be awarded, and procedures for applying for and reviewing applications for assistance from the Fund. In developing guidelines and criteria for eligibility and disbursement of funds, the Commission may consult with and otherwise obtain assistance from the State and local offices of the Farm Service Agency and other agencies of the United States Department of Agriculture.

(3) To provide financial assistance to eligible recipients, in carrying out compensatory programs and qualified agricultural programs.

(4) To hire staff for the administration of the Fund.

(5) To contract with other persons to assist in the administration of the Commission's programs.

(6) To accept gifts or grants from other sources.

(7) To adopt rules to implement this Article. (2000-147, s. 3.)

§ 143-719. Tobacco Trust Fund; creation; investment.

(a) Fund Established. — The Tobacco Trust Fund is established in the Office of the State Treasurer. The Fund shall be used to provide financial assistance in accordance with this Article.

(b) Fund Earnings, Assets, and Balances. — The State Treasurer shall hold the Fund separate and apart from all other moneys, funds, and accounts. The State Treasurer shall be the custodian of the Fund and shall invest the assets in accordance with G.S. 147-69.2 and G.S. 147-69.3. Investment earnings credited to the Fund shall become part of the Fund. Any balance remaining in the Fund at the end of any fiscal year shall be carried forward in the Fund for the next succeeding fiscal year. Payments from the Fund shall be made on the warrant of the chair of the Commission, pursuant to the directives of the Commission. (2000-147, s. 3.)

§ 143-720. Benefits and administration of Fund for compensatory programs.

(a) Funds held in the Fund may be expended on compensatory programs as provided in this section.

(b) The Fund may provide direct and indirect financial assistance, in accordance with criteria established by the Commission and to the extent allowed by law, to accomplish the following:

(1) Indemnify tobacco producers, allotment holders, and persons engaged in tobacco-related businesses from the adverse economic effects in this State of the Master Settlement Agreement.

(2) Compensate tobacco producers, allotment holders, and persons engaged in tobacco-related businesses for economic loss resulting from lost quota and compensate tobacco producers for the decline in value of tobacco-related personal property assets and declining market conditions resulting from the Master Settlement Agreement in this State.

(3) Compensate individuals displaced from tobacco-related employment in this State as a result of the adverse economic effects of the Master Settlement Agreement.

(4) Compensate tobacco product component businesses that are (i) adversely impacted by the Master Settlement Agreement and that (ii) need financial assistance to retool machinery or equipment or to retrain workers, in order to convert to the production of new products or nontobacco use of existing products, or to effect other similar changes.

(c) Only tobacco producers, persons engaged in tobacco-related businesses, individuals displaced from tobacco-related employment, and tobacco product component businesses in this State, and holders of North Carolina tobacco allotments are eligible to apply for and receive assistance pursuant to subsection (b) of this section. Direct payments made to tobacco producers, tobacco allotment holders, and persons engaged in tobacco-related businesses shall be based on losses resulting in 1998 and thereafter. Lost quota shall be a primary determinative factor in calculating the amount of compensable economic loss for tobacco producers, allotment holders, and persons engaged in tobacco-related businesses.

(d) The Commission shall determine the priority of awards among the categories in subsection (b) of this section and within each of those categories.

(e) Financial assistance awards shall be for no more than one year at a time. An award may be renewed annually, without limitation.

(f) The Commission may require applicants to provide copies of documents necessary to determine compensable economic loss.

(g) In no event shall the amount paid to a tobacco producer or allotment holder pursuant to this Article, when combined with the amount received through the National Tobacco Grower Settlement Trust, exceed the compensable economic loss of the producer or allotment holder.

(h) The Commission may consider the criteria used for National Tobacco Grower Settlement Trust payments and may correspond with the National Tobacco Grower Settlement Trust certification entity to ensure that tobacco farmers and allotment holders are treated fairly. (2000-147, s. 3.)

§ 143-721. Benefits and administration of Fund for qualified agricultural programs.

(a) Funds held in the Fund may be expended on qualified agricultural programs as provided in this section.

(b) In implementing qualified agricultural programs, the Commission shall endeavor to identify those areas of the tobacco-related segment of the State's economy in need of assistance to be provided by the Fund in order to assure the continued vitality and solvency of those areas. The Commission shall endeavor to select for funding qualified agricultural programs that will have the greatest favorable impact on the long-term health of the tobacco-related economy of the State.

(c) The benefits of qualified agricultural programs are not limited to persons suffering economic loss resulting from the Master Settlement Agreement, but these programs shall be designed to foster, support, and assist the tobacco-related segment of the agricultural economy.

(d) The Commission may solicit and accept proposals from agencies and departments of the State, including institutions of The University of North Carolina, local units of government, the federal government, and members of the private sector for qualified agricultural programs to be funded with money held in the Fund. (2000-147, s. 3.)

§ 143-722. Reporting.

(a) The chair of the Commission shall report each year by November 1 to the Joint Legislative Commission on Governmental Operations and the chairs of the House and Senate Appropriations Committees regarding the implementation of this Article, including a report on funds disbursed during the fiscal year by amount, purpose, and category of recipient, and other information as requested by the Joint Legislative Commission on Governmental Operations. A written copy of the report shall also be sent to the Legislative Library by November 1 each year.

(b) Any non-State corporation, organization, or institution that receives, uses, or expends any funds from the Commission is subject to the applicable reporting requirements of G.S 143-6.1. (2000-147, s. 3.)

§ 143-723. Open meetings; public records; audit.

The Open Meetings Law (Article 33 of Chapter 143 of the General Statutes) and the Public Records Act (Chapter 132 of the General Statutes) shall apply to the Fund and the Commission, and the Fund and the Commission shall be subject to audit by the State Auditor as provided by law. The Commission shall reimburse the State Auditor for the actual cost of the audit. (2000-147, s. 3.)

§ 143-724: Reserved for future codification purposes.

Article 76.

North Carolina Geographic Information Coordinating Council.

§ 143-725. Council established; role of the Center for Geographic Information and Analysis.

(a) Council Established. — The North Carolina Geographic Information Coordinating Council ("Council ") is established to develop policies regarding the utilization of geographic information, GIS systems, and other related technologies. The Council shall be responsible for the following:

(1) Strategic planning.
(2) Resolution of policy and technology issues.
(3) Coordination, direction, and oversight of State, local, and private GIS efforts.
(4) Advising the Governor, the General Assembly, and the Information Resource Management Commission (IRMC) as to needed directions, responsibilities, and funding regarding geographic information.

The purpose of this statewide geographic information coordination effort shall be to further cooperation among State, federal, and local government agencies; academic institutions; and the private sector to improve the quality, access, cost-effectiveness, and utility of North Carolina's geographic information and to promote geographic information as a strategic resource in the State. The Council shall be located in the Office of the Governor for organizational, budgetary, and administrative purposes.

(b) Role of CGIA. — The Center for Geographic Information and Analysis (CGIA) shall staff the Geographic Information and Coordinating Council and its committees. CGIA shall manage and distribute digital geographic information about North Carolina maintained by numerous State and local government agencies. It shall operate a statewide data clearinghouse and provide Internet access to State geographic information. (2001-359, s. 1.)

Editor's Note. — Session Laws 2001-359, s. 3 provides: "This act shall not be construed to obligate the General Assembly to appropriate any funds to implement the provisions of this act. The provisions of this act shall be implemented from funds otherwise appropriated or available to the Office of the Governor."

§ 143-726. Council membership; organization.

(a) Members. — The Council shall consist of up to 35 members, or their designees, as set forth in this section. An appointing authority may reappoint a Council member for successive terms.

(b) Governor's Appointments. — The Governor shall appoint the following members:

(1) The head of an at-large State agency not represented in subsection (d) of this section.
(2) An employee of a county government, nominated by the North Carolina Association of County Commissioners.
(3) An employee of a municipal government, nominated by the North Carolina League of Municipalities.
(4) An employee of the federal government who is stationed in North Carolina.
(5) A representative from the Lead Regional Organizations.
(6) A member of the general public.
(7) Other individuals whom the Governor deems appropriate to enhance the efforts of geographic information coordination.

Members appointed by the Governor shall serve three-year terms. The Governor shall appoint an individual from the membership of the Council to serve as Chair of the Council. The member appointed shall serve as Chair for a term of one year.

(c) General Assembly Appointments. — The President Pro Tempore of the Senate and the Speaker of the House of Representatives shall each appoint three members to the Council. These members shall serve one-year terms.

(d) Other Members. — Other Council members shall include:

(1) The Secretary of State.
(2) The Commissioner of Agriculture.
(3) The Superintendent of Public Instruction.
(4) The Secretary of Environment and Natural Resources.
(5) The Secretary of the Department of Transportation.
(6) The Secretary of the Department of Administration.
(7) The Secretary of the Department of Commerce.
(8) The Secretary of the Department of Crime Control and Public Safety.
(9) The Secretary of the Department of Health and Human Services.
(10) The Secretary of the Department of Revenue.
(11) The President of the North Carolina Community Colleges System.
(12) The President of The University of North Carolina System.
(13) The Chair of the Public Utilities Commission.
(14) The State Budget Officer.
(15) The Executive Director of the North Carolina League of Municipalities.
(16) The Executive Director of the North Carolina Association of County Commissioners.
(17) One representative from the State Government GIS User Committee.
(18) One representative elected annually from the Local Government Committee established pursuant to subdivision (h) (2) of this section.
(19) The State Chief Information Officer who shall serve as a nonvoting member.

Council members serving ex officio pursuant to this subsection shall serve terms coinciding with their respective offices. Members serving by virtue of their appointment by a standing committee of the Council shall serve for the duration of their appointment by the standing committee.

(e) Meetings. — The Council shall meet at least quarterly on the call of the Chair. The Management and Operations Committee shall conduct the Council's business between quarterly meetings.

(f) Administration. — The Director of the CGIA shall be secretary of the Council and provide staff support as it requires.

(g) Reports. — The Council shall report at least annually to the Governor and to the Joint Legislative Commission on Governmental Operations.

(h) Committees. — The Council may establish work groups, as needed, and shall oversee the standing committees created in this subsection. Each standing committee shall adopt bylaws, subject to the Council's approval, to govern its proceedings. Except as otherwise provided, the Chair of the Council shall appoint the standing committee chairs from representatives listed in subsections (b), (c), or (d) of this section. The standing committees are as follows:

(1) State Government GIS User Committee. — Membership shall consist of representatives from all interested State government departments. The Chair of the Council shall appoint the committee chair from one of the State agencies represented in subsection (d) of this section.
(2) Local Government Committee. — Membership shall consist of representatives from organizations and professional associations that currently serve or represent local government GIS users, the North

Carolina League of Municipalities, the North Carolina Association of County Commissioners, and Lead Regional Organizations. The committee shall elect one of its members to the Council.

(3) Federal Interagency Committee. — Membership shall consist of representatives from all interested federal agencies and Tribal governments with an office located in North Carolina. The appointed federal representative serving pursuant to subdivision (b) (4) of this section shall serve as the Chair of the Federal Interagency Committee.

(4) Statewide Mapping Advisory Committee. — This committee shall consolidate statewide mapping requirements and attempt to gain statewide support for financing cooperative programs. The committee shall also advise the Council on issues, problems, and opportunities relating to federal, State, and local government geospatial data programs.

(5) GIS Technical Advisory Committee. — This committee shall develop the statewide technical architecture for GIS and anticipate and respond to GIS technical opportunities and issues affecting State, county, and local governments in North Carolina.

(6) Management and Operations Committee. — This committee shall consider management and operational matters related to GIS and other matters that are formally requested by the Council. The committee membership shall consist of the Chair of the Council, the State Budget Officer, the chair of each of the standing committees of the Council, and other members of the Council appointed by the Chair. (2001-359, s. 1; 2003-340, s. 1.9.)

Editor's Note. — Session Laws 2001-359, s. 2, provides that the respective appointing authorities shall complete their appointments to the North Carolina Geographic Information Coordinating Council under G.S. 143-726(b) and (c), as enacted in Section 1 of the act, within 60 days of the date when the act becomes effective (August 10, 2001).

Effect of Amendments. — Session Laws 2003-340, s. 1.9, effective July 27, 2003, deleted "the Department of" following "Secretary of" in subdivision (d)(4).

§ 143-727. Compensation and expenses of Council members; travel reimbursements.

Members of the Council shall serve without compensation but may receive travel and subsistence as follows:

(1) Council members who are officials or employees of a State agency or unit of local government, in accordance with G.S. 138-6.

(2) All other Council members at the rate established in G.S. 138-5. (2001-359, s. 1.)

§§ 143-728, 143-729: Reserved for future codification purposes.

Article 77.

Managed Care Patient Assistance Program.

§ 143-730. Managed Care Patient Assistance Program.

(a) The Office of Managed Care Patient Assistance Program is established in an existing State agency or department designated by the Governor. The Director of the Office of Managed Care Patient Assistance Program shall be appointed by the Governor.

(b) The Managed Care Patient Assistance Program shall provide information and assistance to individuals enrolled in managed care plans. The Managed Care Patient Assistance Program shall have expertise and experience in both health care and advocacy and will assume the specific duties and responsibilities set forth in subsection (c) of this section.

(c) The duties and responsibilities of the Managed Care Patient Assistance Program are as follows:

(1) Develop and distribute educational and informational materials for consumers, explaining their rights and responsibilities as managed care plan enrollees.

(2) Answer inquiries posed by consumers and refer inquiries of a regulatory nature to staff within the Department of Insurance.

(3) Advise managed care plan enrollees about the utilization review process.

(4) Assist enrollees with the grievance, appeal, and external review procedures established by Article 50 of Chapter 58 of the General Statutes.

(5) Publicize the Office of the Managed Care Patient Assistance Program.

(6) Compile data on the activities of the Office and evaluate such data to make recommendations as to the needed activities of the Office.

(d) The Director of the Managed Care Patient Assistance Program shall annually report the activities of the Managed Care Patient Assistance Program, including the types of appeals, grievances, and complaints received and the outcome of these cases. The report shall be submitted to the General Assembly, upon its convening or reconvening, and shall make recommendations as to efforts that could be implemented to assist managed care consumers.

(e) All health information in the possession of the Managed Care Patient Assistance Program is confidential and is not a public record pursuant to G.S. 132-1 or any other applicable statute.

For purposes of this section, "health information" means any of the following:

(1) Information relating to the past, present, or future physical or mental health or condition of an individual.

(2) Information relating to the provision of health care to an individual.

(3) Information relating to the past, present, or future payment for the provision of health care to an individual.

(4) Information, in any form, that identifies or may be used to identify an individual, that is created by, provided by, or received from any of the following:

a. An individual or an individual's spouse, parent, legal guardian, or designated representative.

b. A health care provider, health plan, employer, health care clearinghouse, or an entity doing business with these entities. (2001-446, s. 1.6; 2002-159, s. 45.)

Legal Periodicals. — For comment, "Patients' Bill of Rights; Legislative Cure-All or Prescription for Disaster?," see 81 N.C.L. Rev. 653 (2003).

Editor's Note. — Session Laws 2001-446, s. 8, makes this Article effective January 1, 2002, and applicable to health benefit plans that are in effect, delivered, issued for delivery, or renewed on or after that date.

Session Laws 2001-446, s. 8 provides: "Nothing in this act obligates the General Assembly to appropriate funds to implement this act."

Session Laws 2001-446, s. 7 is a severability clause.

Effect of Amendments. — Session Laws 2002-159, s. 45, effective October 11, 2002, added subsection (e).
