

STATE OF NORTH CAROLINA

OFFICE OF STATE BUDGET AND MANAGEMENT

PAT MCCRORY GOVERNOR ANDREW T. HEATH STATE BUDGET DIRECTOR

MEMORANDUM

TO:

Senator Phil Berger, President Pro Tempore of the Senate

Representative Tim Moore, Speaker of the House of Representatives

FROM:

Thomas Cheek, Assistant State Budget Officer Thomas Cheek

DATE:

March 21, 2016

SUBJECT:

Report on Allocations from the Repairs and Renovations Reserve

The General Assembly, in Session Law 2015-241 (House Bill 97) appropriated \$150,000,000 from the unreserved fund balance to the Repairs and Renovations Reserve Account to finance the capital facility costs of repairing and renovating State facilities and related infrastructure. Of the funds appropriated, the General Assembly allocated \$50,000,000 (33.33%) to the UNC Board of Governors (BOG) and \$100,000,000 (66.67%) to the Office of State Budget and Management (OSBM). State agencies were instructed to submit a prioritized list of R & R project needs to OSBM by December 18, 2015. Total agency requests for 2015 R&R funding was \$500,698,391.

OSBM, working with the State Construction Office (SCO), employed a multi-step process to select FY 2015-16 non-university repair and renovation projects.

- The agencies submitted prioritized lists of repair and renovations projects, approved cost estimates using the SCO's OC-25 Form, and OSBM's R & R Request Worksheets.
- OSBM met with some of the larger agencies to review their requests in detail to better understand the scope, feasibility and priority of requested projects.
- OSBM utilized a funding model to establish a baseline for the approximate repair and renovation allocation for each agency. The formula used by OSBM considered the current replacement value, condition indicated by the Facilities Condition Assessment Program (FCAP) reports, the size and age of agency facilities.

Using the baseline funding allocations and agency prioritized project specific information, OSBM consulted with the SCO and made final selections of repair and renovation projects based on the statutory requirements of G.S. 143C-4-3. One hundred seventy-eight (178) projects totaling \$100,000,000 are recommended for allocation from the Repair and Renovations Reserve.
