30 Purpose of grant or amendment	The SPFA program is designed to raise awareness about the dangers of sharing medications and work with medical and pharmaceutical communities on the risk of overprescribing to young adults. It will also raise community awareness and bring prescription drug abuse prevention activities and education to schools, communities, parents, prescribers, and new parents. In addition, SAMHSA will track opioid overdoses and the incorporation of PDMP data into needs assessments and strategic plans as indicators of the program success.
