BACKGROUND

REPORTING REQUIREMENTS

The North Carolina Department of Public Instruction is charged with annually reporting on the Homeless and Foster Student Transportation Grant (PRC 081). The Homeless and Foster Student Transportation Grant is authorized under Session Law 2023-134, section 115C-250.5. The grant is established to cover extraordinary school transportation costs incurred by students experiencing homelessness or a foster setting. \$3 million dollars of state funding is appropriated for this grant. This grant program provides additional funding to selected PSUs to cover extraordinary school transportation costs for homeless and foster students.

GUIDELINES

The NCDPI established guidelines and awarded funds consistent with the following statute requirements:

- In determining extraordinary transportation costs, the Department shall consider total prior-year transportation expenditures for homeless and foster children, including expenditures from local funds and all other funding sources, as a proportion of total expenditures.
- Priority shall be given to applicants in proportion to the extent that their applications and prior-year expenditures demonstrate use of available federal funds to cover the cost of transporting homeless and foster children.
- Awards shall not exceed fifty percent (50%) of extraordinary transportation costs as determined pursuant to this subsection.
- Awards shall not be issued on a pro rata basis to each eligible applicant.

2023-2024 PRC 081 EXPENDITURES & LESSONS LEARNED

In total \$2,992,437 were awarded to 24 PSUs. Of that approximately 91% (\$2,719,471) was used to help with transportation expenses incurred by students experiencing homelessness or a foster setting.

Most PSUs reported that funds were used to cover fuel costs, salaries of bus drivers, and/or additional transportation contracts. Here are some statements collected from the PSUs:

- “We were able to cover the excess costs of transportation, including taxis & Ubers, to provide the opportunity to get to and from school, which would otherwise become a barrier for the families and the school district”
- “It allowed us to pay the cost of transportation for McKinney Vento students. The costs were more than what was allocated in the budget and this was a great support.”
- “Many of our MV cases include children in transition outside of our county. Working with only one company (the only transportation company in our county) it is very difficult to find other sources for

cost savings. While the company we work with does give us fair pricing the costs continue to increase without significant increases from the state.”

- “We truly appreciate the support we receive with PRC 081. With most of our district MV cases must be contracted transportation because our bus routes do not match up with the areas needed to get these students to/from school. Contracting transportation ultimately costs of more than being able to add the students to a bus route. If we could receive at least 75% of our costs that would truly help with the increasing costs we are seeing.”

With regards, to the 9% of unused PRC 081 funds (\$272,966), PSUs informed us that funds would have been used if they had been awarded earlier in the fiscal year. In 2023-2024, PSUs were told of the funds on June 11th and funds had to be spent by June 30th. We have made adjustments to deliver these funds three months earlier for 2024-2025. In addition, we will be expanding from 24 PSUs receiving funds to 40 PSUs receiving funds.
