The Department of Public Instruction shall award grants from the Fund to counties to assist with their critical public school building capital needs in accordance with the following priorities:

2. Counties with greater need and less ability to generate sales tax and property tax revenue.
3. Counties with a high debt-to-tax revenue ratio.
4. The extent to which a project will address critical deficiencies in adequately serving the current and future student population.
5. Projects with new construction or complete renovation of existing facilities.
6. Projects that will consolidate two or more schools into one new facility.
7. Counties with a high debt-to-tax revenue ratio.

The adjusted market value of taxable property in a county is equal to the county's assessed taxable real property value, using the latest available data published by the Department of Revenue, divided by the county's sales assessment ratio determined under G.S. 105-289(h). The amount of matching funds for a county awarded a grant shall be published annually by the Department of Public Instruction prior to any application period. (b) Grant funds shall be used only for the construction of new school buildings and additions, repairs, and renovations. Grant funds shall not be used for real property acquisition or for capital improvements to administrative buildings. Grant funds shall be disbursed in a series of payments based on the progress of the project. To obtain a payment, the grantee shall submit a request for payment along with documentation of the expenditures for which the payment is requested and evidence that the matching requirement contained in subsection (a) of this section has been met. No portion of grant funds may be used to acquire a Leadership in Energy and Environmental Design (LEED) certification.

1. Up to forty-two million dollars ($42,000,000) for an elementary school.
2. Up to fifty-two million dollars ($52,000,000) for a middle school or a combination of an elementary and middle school.
(d) The Department of Public Instruction shall review projected enrollment to evaluate the reasonableness of a project's size and scope. A county may include in a grant application a minimum grant amount that would enable the project to proceed. A grant application that proposes to consolidate two or more schools by (i) making additions or renovations at one or more school facilities and (ii) closing one or more existing school facilities may be submitted and considered by the Department of Public Instruction as a single project. Each application for a grant under this Article shall be evaluated independent of other grant applications submitted. A county may not apply for projects that exceed an aggregate amount greater than the maximum grant award amounts listed in subsection (c) of this section in any single year. The Department of Public Instruction shall not award a grant to an applicant at less than the requested amount or less than the maximum grant amounts listed in subsection (c) of this section for the purpose of reserving the amount of grant funds available for other grant applications. If a county declines or otherwise forfeits a grant awarded under this section, the Department shall not award additional grants to that county for 24 months from the date the grant award was declined or forfeited.

(e) No later than October 1 of each year, the Department of Public Instruction shall publish the application requirements, including the applicable county match requirements calculated pursuant to subsection (a) of this section, for grant awards under this Article to be considered for the following fiscal year. The Department of Public Instruction shall open the grant application period on January 1 of each year and shall accept grant applications meeting the criteria established under this Article from that date until March 15 of each year. During the grant application period, the Department of Public Instruction may work with applicants to supplement grant applications with any information needed to evaluate the grant application. Upon the closing of the grant application period on March 15 of each year, the Department shall evaluate all applications received during the grant application period and, no later than May 1 of each year, shall submit an unranked list of grant applications, to include a technical evaluation and a statement of comparison to the priorities listed in G.S. 115C-546.10 for each application, that qualify under the conditions imposed by this Article to the chairs of the Senate Committee on Appropriations/Base Budget, the chairs of the House Appropriations Committee, and the Fiscal Research Division.

§ 115C-546.12. Grant agreement; requirements.

(a) A county receiving grant funds pursuant to this Article shall enter into an agreement with the Department of Public Instruction detailing the use of grant funds. The agreement shall contain at least all of the following:

1. A requirement that the grantee seek planning assistance and plan review from the School Planning Section of the Department of Public Instruction.
2. A progress payment provision governing disbursements to the county for the duration of the school construction project based upon the construction progress and documentation satisfactory to the Department that the matching requirement in G.S. 115C-546.11 has been met.
3. A provision requiring periodic reports to the Department of Public Instruction on the use of disbursed grant funds and the progress of the school construction project.
4. A requirement that matching funds paid by the county pursuant to G.S. 115C-546.11 must be derived from non-State and nonfederal funds.
5. A provision requiring repayment in full of awarded grant funds in the event the grant recipient declines the grant award or the grant is forfeited.

(b) Project construction must be initiated within 24 months of the award of grant funds. The Superintendent of Public Instruction may grant a 12-month extension under extraordinary circumstances.

(c) A grant awarded under this section may be forfeited if any of the following occur:
(1) Project construction is not initiated on time.

(2) Project scope changes significantly from what was outlined in the grant agreement.

(3) Any statement or information provided in the grant application is later determined to be materially false.

(4) Local funding is subsequently decreased from the amount provided in the grant application.

(d) For grant awards that, due to extraordinary circumstances, are forfeited or declined, the Department of Public Instruction may deduct reasonable administrative costs incurred by the grant recipient in connection with the project from grant funds disbursed to the grant recipient in the calculation of fund repayment. A grant recipient shall provide documentation satisfactory to the Department to support any administrative costs to be deducted.

§ 115C-546.13. Lease exception; requirements.

(a) Notwithstanding any provision of this Article to the contrary, a county may utilize grant funds for a lease agreement if all of the following criteria are met:

1. Ownership of the subject property on which the leased school is constructed shall be retained by the county.

2. The lease agreement shall include a repairs and maintenance provision that requires the landlord to bear the entire expense of all repairs, maintenance, alterations, or improvements to the basic structure, fixtures, appurtenances, and grounds of the subject property for the term of the lease.

3. The lease agreement shall be for a term of at least 15 years and no more than 25 years.

4. In lieu of the progress payment requirement provided in G.S. 115C-546.11(b), a county that has entered into a lease agreement shall provide a copy of the lease agreement to the Department of Public Instruction and shall be periodically reimbursed upon submission of documentation satisfactory to the Department that the matching requirement of this section has been met.

(b) For the purposes of this section, the term "lease agreement" shall include any ancillary agreements or predevelopment agreements entered into in anticipation of or in accordance with a lease. A lease agreement entered into pursuant to this subsection shall be subject to the requirements of Article 8 of Chapter 159 of the General Statutes. In determining whether the lease agreement is necessary or expedient pursuant to G.S. 159-151(a)(1) and G.S. 159-151(b)(1), the Local Government Commission may consider any other relevant construction and financing methods available to the county.

(a) On or before April 1 of each year, a grant recipient shall submit to the Department of Public Instruction an annual report for the preceding year that describes the progress of the project for which the grant was received. The grant recipient shall submit a final report to the Department of Public Instruction within three months of the completion of the project.

(b) On or before May 1 of each year, the Department of Public Instruction shall submit a report to the chairs of the Senate Appropriations Committee on Education/Higher Education, the chairs of the House Appropriations Committee on Education, and the Fiscal Research Division. The report shall contain at least all of the following information for the fiscal year:

1. Number, description, and geographic distribution of projects awarded.

2. Total cost of each project and amount supported by the Needs-Based Public School Capital Fund.

3. Projections for local school administrative unit capital needs for the next 30 years based upon present conditions and estimated demographic changes.
Any legislative recommendations for improving the Needs-Based Public School Capital Fund program."

QUALITY RATING IMPROVEMENT SYSTEM (QRIS) MODERNIZATION

SECTION 9D.2. (a) The Department of Health and Human Services, Division of
Child Development and Early Education (Division), shall update and revise the quality rating
improvement system (QRIS) to include alternative pathways for licensed child care facilities to
earn a license of two to five stars based on program standards and education levels of staff as
follows:

(1) A pathway focused on program assessment.
(2) A pathway focused on classroom and instructional quality.
(3) A pathway focused on accreditation.
(4) Any other pathway regarding updating the QRIS designated by the North
Carolina Child Care Commission, in its discretion.

SECTION 9D.2. (b) Upon request, a child care facility may be awarded a star-rated
license based on an accreditation from a national childhood education accreditation organization
provided the facility maintains its accreditation and remains in good standing. Star-rated licenses

additional opportunities to allow a facility to increase its star rating. The Child Care Commission
(Commission) may, in its discretion, reassess an accreditation's star-rating equivalency or
increase or decrease the accreditation's star rating if the standard for earning the accreditation is
revised. The Commission may approve additional accreditations from national childhood
education accreditation organizations and determine their star-rating equivalency upon request.

SECTION 9D.2. (d) Notwithstanding any other provision of law to the contrary, the
Division of Child Development and Early Education (Division) shall not require a child care
facility with a two- to five-star-rated license to undergo a QRIS reassessment until rules implementing QRIS reform become effective. However, nothing in this subsection shall prevent a child care facility with a star-rated license from electing to undergo a QRIS assessment, upon request of the Division, before rules implementing QRIS reform become effective.

SECTION 9D.2.(e) Effective February 1, 2025, if the Division of Child Development and Early Education issues any new license with a rating of two to five stars to a child care facility or any facility that elects to undergo a QRIS assessment based on a program assessment before rules implementing QRIS reform become effective, the facility shall be evaluated using "Infant/Toddler Environment Rating Scale, Third Edition," "Early Childhood Environment Rating Scale, Third Edition," "School-Age Care Environment Rating Scale, Updated Edition," or "Family Child Care Environment Rating Scale, Third Edition," as applicable.

SECTION 9D.2.(f) Notwithstanding any other provision of law to the contrary, when the Division of Child Development and Early Education (Division) issues any new license with a rating of two to five stars to a child care facility or any facility that elects to undergo a QRIS assessment before rules implementing QRIS reform become effective, if the percentage of lead teachers in the facility required to meet the "rated licensed education requirements" criteria is set at seventy-five percent (75%) for the facility to earn those "education points" toward the facility's star rating, the Division shall lower the seventy-five percent (75%) threshold to fifty percent (50%) of lead teachers.

SECTION 9D.2.(g) G.S. 110-90 reads as rewritten:

"§ 110-90. Powers and duties of Secretary of Health and Human Services.

The Secretary shall have the following powers and duties under the policies and rules of the Commission:

(4) To issue a rated license to any child care facility which meets the standards established by this Article. The rating shall be based on the following: Article as follows:

a. Before January 1, 2008, for any child care facility currently holding a license of two to five stars, the rating shall be based on program standards, education levels of staff, and compliance history of the child care facility. When evaluating program standards, the Department shall consider the facility's staff/child ratios, space requirements, continuous quality improvement standards, family and community engagement practices, environmental rating scale evaluations, curriculum, child observation and assessment, staff coaching or mentoring, or accreditation by a national or regional accrediting agency with early childhood standards. When evaluating education levels of staff, the Department shall consider any early childhood and child development coursework, early childhood education certificates, Child Development Associate credentials, associate or bachelor's degrees, continuous quality improvement standards for staff, continuing education units, early childhood education competency evaluations, work experience in child care, coaching or mentoring completed, and education standards within an accreditation award.
b. Effective January 1, 2006, for any new license issued to a child care facility with a rating of two to five stars, the rating shall be based on program standards and education levels of staff.

c. By January 1, 2008, for any child care facility to maintain a license or Notice of Compliance, the child care facility shall have a compliance history of at least seventy-five percent (75%), as assessed by the Department. When a child care facility fails to maintain a compliance history of at least seventy-five percent (75%) for the past 18 months or during the length of time the facility has operated, whichever is less, as assessed by the Department, the Department may issue a provisional license or Notice of Compliance.

d. Effective January 1, 2006, for any new license or Notice of Compliance issued to a child care facility, the facility shall maintain a compliance history of at least seventy-five percent (75%), as assessed by the Department. When a child care facility fails to maintain a compliance history of at least seventy-five percent (75%) for the past 18 months or during the length of time the facility has operated, whichever is less, as assessed by the Department, the Department may issue a provisional license or Notice of Compliance.

e. The Department shall provide additional opportunities for child care providers to earn points for program standards and education levels of staff-licensed facilities with a rating of two to five stars with an opportunity to earn recognition or acknowledgment for voluntary participation in other quality initiatives or specialties, including educational and programmatic options, that are implemented in addition to quality rating improvement system (QRIS) standards.

SECTION 9D.2.(h) Nothing in this section shall be construed as interfering with the requirements of G.S. 110-88.1 regarding the training or curriculum offered by religious-sponsored child care facilities.

SECTION 9D.2.(i) The North Carolina Child Care Commission shall adopt, amend, or repeal any rules regarding star-rating system reform necessary to implement the provisions of this section, including any rule establishing the star rating to be automatically assessed for child care facilities designated as Head Start programs.

SECTION 9D.2.(j) Subsections (b) through (f) of this section are effective when they become law and expire on the date rules implementing QRIS reform become effective. The remainder of this section is effective when it becomes law.

CHILD CARE REGULATORY REFORMS

SECTION 9D.3.(a) The General Assembly recognizes the need to balance maintaining critical health, safety, and welfare standards for child care, as well as a well-established rating system used for informational purposes, with the need to move toward maximizing State funds for child care and increasing the supply of child care from State-funded sources. The General Assembly further recognizes the importance of continuing the child care stabilization grants funding while weighing the need to decrease the cost of child care through deregulatory actions and at the same time maintain child care subsidy reimbursement rates. The purpose of this provision, in part, is to encourage the business community to partner with the State in achieving this goal.

SECTION 9D.3.(b) To that end, by January 1, 2025, the Department of Health and Human Services, Division of Child Development and Early Education (Division), shall develop and implement a plan to separate the quality rating improvement system (QRIS) from the
requirements and payments for participation in the State subsidized child care program. The Division shall revise the child care subsidy reimbursement rates by removing the current star-rating differentials. To remain budget-neutral, the revised rates shall be weighted to reflect where enrolled children currently receive services. The Division shall continue to distinguish rates by county, age, and facility type. It is the intent of the General Assembly that implementing the revised rates shall not result in higher or lower costs to the State to serve the current enrollment of the subsidized child care program. These revised rates shall instead be a part of the progression towards implementing new rates as recommended in the next child care market rate study. After implementing the plan, licensed child care centers and homes may continue to receive star-ratings on a voluntary basis. However, the star-rating shall not impact the rate at which licensed child care centers or homes are reimbursed for subsidized child care.

**SECTION 9D.3.(c)** The Division of Child Development and Early Education shall ensure that the next market rate study also includes recommended rates that are not segmented by star-rating.

**SECTION 9D.3.(d)** Section 9D.3 of S.L. 2023-134 reads as rewritten:

"..."

"**SECTION 9D.3.(c)** Payments for the purchase of child care services for low-income children shall be in accordance with the following requirements:

1. Religious sponsored child care facilities operating pursuant to G.S. 110-106 and licensed child care centers and homes that meet the minimum licensing standards that are participating in the subsidized child care program shall be paid the one star county market rate or the rate they charge privately paying parents unless prohibited by subsection (f) of this section. Licensed child care centers and homes, including religious sponsored child care facilities operating pursuant to G.S. 110-106, that meet the minimum licensing standards as set forth in G.S. 110-91, that are participating in the subsidized child care program shall be paid the applicable market rate or the rate they charge privately paying parents.

2. Licensed child care centers and homes with two or more stars shall receive the market rate for that rated license level for that age group unless prohibited by subsection (g) of this section.

3. No payments shall be made for transportation services charged by child care facilities.

4. Payments for subsidized child care services for postsecondary education shall be limited to a maximum of 20 months of enrollment. This shall not be determined before a family’s annual recertification period.

5. The Department of Health and Human Services shall implement necessary rule changes to restructure services, including, but not limited to, targeting benefits to employment.

..."

"**SECTION 9D.3.(e)** A market rate shall be calculated for child care centers and homes at each rated license level for each county and for each age group or age category of enrollees and shall be representative of fees charged to parents for each age group of enrollees within the county. The Division of Child Development and Early Education shall also calculate a statewide rate and regional market rate for each rated license level for each age category.

**SECTION 9D.3.(f)** The Division of Child Development and Early Education shall continue implementing policies that improve the quality of child care for subsidized children, including a policy in which child care subsidies are paid, to the extent possible, for child care in the higher quality centers and homes only. The Division shall define higher quality, and subsidy funds shall not be paid for one- or two-star-rated facilities. For those counties with an inadequate number of four- and five-star-rated facilities, the Division shall continue a transition period that allows the
facilities to continue to receive subsidy funds while the facilities work on the increased star ratings. The Division may allow exemptions in counties where there is an inadequate number of four- and five-star-rated facilities for non-star-rated programs, such as religious programs.

"SECTION 9D.3.(g) Facilities licensed pursuant to Article 7 of Chapter 110 of the General Statutes and facilities operated pursuant to G.S. 110-106 may participate in the program that provides for the purchase of care in child care facilities for minor children of needy families. Except as authorized by subsection (f) of this section, no separate licensing requirements shall be used to select facilities to participate. In addition, child care facilities shall be required to meet any additional applicable requirements of federal law or regulations. Child care arrangements exempt from State regulation pursuant to Article 7 of Chapter 110 of the General Statutes shall meet the requirements established by other State law and by the Social Services Commission.

County departments of social services or other local contracting agencies shall not use a provider's failure to comply with requirements in addition to those specified in this subsection as a condition for reducing the provider's subsidized child care rate.

"...

SECTION 9D.3.(e) G.S. 110-90(4) is amended by adding a new sub-subdivision to read:

"f. A rated license shall have no impact on the rate at which a child care facility is reimbursed for subsidized child care."

SECTION 9D.3.(f) Nothing in this section shall be construed as impacting the star-rating requirements for the NC Prekindergarten (NC Pre-K) program.

SECTION 9D.3.(g) The North Carolina Child Care Commission shall adopt, amend, or repeal any rules regarding separating the star-rating system from requirements and payments for reimbursement for subsidized child care.

SECTION 9D.3.(h) G.S. 110-86(5a) reads as rewritten:

"(5a) Lead teacher. – An individual who is responsible for planning and implementing the daily program of activities for a group no more than two groups of children in a child care facility."

SECTION 9D.3.(i) G.S. 110-91(7)a. reads as rewritten:

"a. The Commission shall adopt rules for child care centers regarding staff-child ratios, group sizes and multi-age groupings other than for infants and toddlers, provided that these rules shall be no less stringent than those currently required for staff-child ratios as enacted in Section 156(e) of Chapter 757 of the 1985 Session Laws. Only one lead teacher shall be required for every two groups.

1. Except as otherwise provided in this subdivision, the staff-child ratios and group sizes for infants and toddlers in child care centers shall be no less stringent than as follows:

<table>

</tr>
<tr>
<td>2 to 3 years</td>
<td>1/10</td>

</tbody>
</table>

No child care center shall care for more than 25 children in one group. Child care centers providing care for 26 or more children shall provide for two or more groups according to the ages of children and shall provide separate supervisory personnel and separate identifiable space for each group.

2. When any preschool-aged child is enrolled in a child care center and the licensed capacity of the center is six through 12 children, the staff-child ratios shall be no less stringent than as follows:
Age | Ratio Staff/Children
---|---
0 to 12 months | 1/5 preschool children plus 3 additional school-aged children
12 to 24 months | 1/6 preschool children plus 2 additional school-aged children.

The following shall also apply:

I. There is no specific group size.

II. When only one caregiver is required to meet the staff-child ratio, the operator shall make available to parents the name, address, and phone number of an adult who is nearby and available for emergency relief.

III. Children shall be supervised at all times. All children who are not asleep or resting shall be visually supervised. Children may sleep or rest in another room as long as a caregiver can hear them and respond immediately.

(2) The sum of one million one hundred fifty thousand dollars ($1,150,000) in nonrecurring funds for the 2024-2025 fiscal year to be used to fund remediation programs, services, and activities the DMH/DD/SUS deems necessary to respond to the negative impacts of the opioid epidemic within the State. In addition, notwithstanding Section 9F.1(c)(1)a. of S.L. 2022-74, the Committee Report described in Section 43.2 of that act, or any other provision of law to the contrary, the sum of one million eight hundred fifty thousand dollars ($1,850,000) in nonrecurring funds appropriated to the DMH/DD/SUS for the 2022-2023 fiscal year for the Prescription Digital Therapeutics Pilot Program authorized by Section 9F.2 of S.L. 2022-74 shall instead be used to fund remediation programs, services, and activities the DMH/DD/SUS deems necessary to respond to the negative impacts of the opioid epidemic within the State. The Department of Health and Human Services may use the funds allocated by this subdivision to (i) award directed grants, (ii) transfer funds to other divisions within the Department of Health and Human Services in the amounts and for the programs, services, and activities the Department of Health and Human Services deems necessary, or (iii) a combination of these options as long as any directed grants, programs, services, and activities funded by this subdivision are consistent with the purposes specified in this subdivision.

(3) The sum of three hundred forty thousand dollars ($340,000) in nonrecurring funds for the 2024-2025 fiscal year to be used to purchase opioid antagonist nasal spray for local health departments. Local health departments shall distribute the opioid antagonist nasal spray funded by this subdivision to public school units. Once all public school units have received an initial supply of opioid antagonist nasal spray, any remaining funds allocated by this subdivision shall be used to purchase an additional supply of opioid antagonist nasal spray for local health departments to distribute to public school units that have used their initial supply. As used in this subdivision, the term "opioid antagonist nasal spray" means a disposable drug delivery system that disperses a solution of opioid antagonist, as defined in G.S. 90-12.7, into the respiratory system through the nose to provide rapid, critical first aid for persons suffering a potentially fatal opioid or fentanyl emergency. The Department of Health and Human Services may transfer these allocated funds to the Division of Public Health to be used as specified in this subdivision.

(4) The sum of four million six hundred sixty thousand dollars ($4,660,000) in nonrecurring funds to be transferred to the Division of Public Health to be used as follows:

a. The sum of three million six hundred sixty thousand dollars ($3,660,000) in nonrecurring funds shall be used to purchase units of opioid antagonist, as defined in G.S. 90-12.7, to be distributed free of charge statewide, prioritizing counties located in rural or underserved areas and law enforcement agencies serving those areas.

b. The sum of one million dollars ($1,000,000) in nonrecurring funds shall be used to purchase units of long-acting injectable opioid antagonist, as defined in G.S. 90-12.7, to be distributed free of charge statewide to EMS providers licensed under G.S. 131E 155.1.
"SECTION 9G.8.(c1) Funds Transferred to the Department of Adult Correction. – The State
Controller shall transfer from funds available in the Opioid Abatement Reserve to the Department
of Adult Correction the sum of four million dollars ($4,000,000) in nonrecurring funds for the

are transferred to be used to expand the use of medication-assisted treatment for opioid use
disorder in correctional institutions.

"SECTION 9G.8.(d) Limitation on the Use of Funds. – Recipients of funds allocated under
subsection (c) of this section shall not use these funds for any purpose other than to fund opioid

fiscal year by Section 9G.8(c) of S.L. 2023-134, as amended by this section, within the time
frame specified in Section 5.3 of this act due to the unavailability of funds in the Opioid
Abatement Fund, the Department of Health and Human Services shall, within the availability of

possible within the time frame specified in Section 5.3 of this act. As additional funds are
deposited into the Opioid Abatement Fund, the Department of Health and Human Services shall
begin disbursement of as many additional directed grant funds as possible given the availability
of funds in the Opioid Abatement Fund no later than 30 days after each additional deposit.

SECTION 9G.2.(c) Effective retroactively to July 1, 2021, and notwithstanding any
other provision of law to the contrary, funds received by the State (i) as a result of a settlement,

As part of this program, participating public school units shall be required to test for lead levels in drinking water at their facilities, to the extent feasible and practical, following the same model for testing conducted in child care facilities pursuant to 15A NCAC 18A .2816. In addition, the program shall include at least the following components:

\textbf{a.} The Department of Health and Human Services (DHHS) and the Department of Public Instruction (DPI) shall develop a mechanism for
providing funding on a reimbursement basis for (i) the testing and mitigation of lead in drinking water that meets the lead poisoning hazard level, as set forth in G.S. 130A-131.7, that is identified in public school units and child care facilities, including and (ii) the replacement of service lines, pipes, and fixtures, as needed, or for the installation of filters at affected faucets within public school units and child care facilities that test positive for lead in drinking water.

Reimbursement under the program is contingent upon the participating public school unit or child care facility submitting to the DHHS or DPI, as appropriate, an invoice signed by one of its representatives as verification that the invoice accurately reflects the work completed.

b. The Commission for Public Health, Child Care Commission, and State Board of Education shall adopt rules as necessary to implement this subdivision.

The program shall include at least the following components:

a. DHHS and DPI shall develop a mechanism for providing funding on a reimbursement basis for lead paint abatement, asbestos inspection and abatement, or both, in public school units and child care facilities; provided, however, that the following conditions are met:

2. Lead paint, asbestos, or both are detected as part of an inspection or as part of a capital, renovation, or repair project that meets the lead-based paint hazard level, as set forth in G.S. 130A-131.7, or that meets the definition of asbestos containing material, as set forth in G.S. 130A-444. Capital projects may include HVAC, window, or other ventilation projects related to COVID-19 mitigation, or other capital, renovation, or repair projects undertaken during calendar years 2021 through 2024.

3. Reimbursement under the program is contingent upon the participating public school unit or child care facility submitting to the DHHS or DPI, as appropriate, an invoice signed by one of its representatives as verification that the invoice accurately reflects the work completed.

b. A requirement that public school unit recipients of funds allocated under this subdivision shall provide matching funds in the amount of one dollar ($1.00) of local funds for every two dollars ($2.00) of State funds. This requirement does not apply to any public school unit located in a low-wealth county, defined as a county in which one or more local school administrative units was a recipient of supplemental school funding allocated pursuant to G.S. 115C-472.22 for the 2021-2022 fiscal year. The DHHS shall reimburse any public school unit located in a low-wealth county for the cost of any matching funds paid pursuant to this sub-subdivision.
The Commission for Public Health, Child Care Commission, and State Board of Education shall adopt rules as needed to implement this subdivision.

"SECTION 9G.8.(b) The Department of Health and Human Services, Division of Public Health (DPH), shall serve as the lead agency responsible for administering the programs authorized by subsection (a) of this section. In serving in this capacity, the DPH shall collaborate with (i) the Department of Public Instruction regarding administration of these programs for the benefit of public school units and charter schools and (ii) its Division of Child Development and Early Education regarding administration of these programs for the benefit of child care facilities. The DPH shall transfer funds to the Department of Public Instruction and to the Division of Child Development and Early Education as in the amounts necessary to accomplish the goals of these programs in an efficient and cost-effective manner.

"...

1. Complying with federal gas pipeline safety requirements, including a return based on the company’s then authorized return requirements.
2. Producing and transporting natural gas, as defined in G.S. 62-133.4(e)(3), or consistent with the intent and purpose of G.S. 62-133.4.

(b) The Commission shall adopt, implement, modify, or eliminate any of the rate adjustment mechanism mechanisms authorized under this section only upon a finding by the Commission that the mechanism is in the public interest."

RURAL ELECTRIFICATION AUTHORITY/FEE UPDATE

SECTION 11.5.(a) G.S. 117-3 reads as rewritten:
"§ 117-3. Authority not granted power to fix rates or order line extensions; right of suggestion and petition.
The Authority shall not be a rate-making body, and shall have no power to fix the rates or service charges, or to order the extension of lines by the power companies. The function of making rates and service charges and orders for the extension of lines shall remain in the Utilities Commission of North Carolina, and the Authority shall only have the right of suggestion and petition to the Utilities Commission of its opinion as to the proper rates and service charges and line extensions, and no rate recommended or suggested by the Authority shall be effective until approved by the Utilities Commission: Provided, that if the Utilities Commission of North Carolina does not have the right under the existing law to fix service charges in addition to the rates prescribed for electrical energy, and the power to order line extensions, such power and authority is hereby granted the Utilities Commission of North Carolina to fix and promulgate service charges in addition to rates in any community which avails itself of this Article, and form a corporation authorized hereunder to be known as electric membership corporation, and to order line extensions when it shall determine that the same is proper and feasible."

SECTION 11.5.(b) G.S. 117-3.1 reads as rewritten:

"§ 117-3.1. Regulatory fee.

(b) Rate. – For each fiscal year in which the General Assembly does not establish a rate, the regulatory fee shall be the greater of the following:

1. The rate established by the General Assembly for that year for each electric membership corporation's North Carolina meter connected for service and each telephone membership corporation's North Carolina access line connected for service for each quarter of the year.

2. Four cents (4¢) rate proposed by the Authority in accordance with this subsection, which shall not be more than six cents (6¢) for each electric membership corporation's North Carolina meter connected for service and for each telephone membership corporation's North Carolina access line connected for service for each quarter of the year.

When the Authority prepares its budget request for the upcoming fiscal year, the Authority shall propose a rate for the regulatory fee. For fiscal years beginning in an odd-numbered year, that proposed rate shall be included in the budget message the Governor submits to the General Assembly pursuant to G.S. 143C-3-5. For fiscal years beginning in an even-numbered year, that proposed rate shall be included in a special budget message the Governor shall submit to the General Assembly. If the General Assembly decides to set the regulatory fee at a rate higher than the rate in subdivision (2) of this subsection, it shall set the regulatory fee by law.

The regulatory fee may not exceed the amount necessary to generate funds sufficient to defray the estimated cost of the operations of the Authority for the upcoming fiscal year, including a reasonable margin for a reserve fund. The amount of the reserve may not exceed the estimated cost of operating the Authority for the upcoming fiscal year. In calculating the amount of the reserve, the General Assembly shall consider all relevant factors that may affect the cost of operating the Authority or a possible unanticipated increase or decrease in North Carolina electric meters and North Carolina telephone access lines.

PART XII. ENVIRONMENTAL QUALITY

2021 WATER/SEWER PROJECTS FROM STATE FISCAL RECOVERY FUNDS EXPENDITURE
SECTION 12.1.(a) Recipients of funding from the State Fiscal Recovery Fund for water, wastewater, and stormwater projects under Sections 12.13 and 12.14 of S.L. 2021-180, as amended, shall prioritize spending those funds prior to spending funds from other State or federal sources for other water, wastewater, and stormwater projects. The Department of Environmental Quality and the Office of State Budget and Management shall not approve payments or transfer funds for new water, wastewater, and stormwater project funding through State or federal sources unless the recipient for funding is meeting all milestones necessary to spend their funding from the State Fiscal Recovery Fund prior to December 31, 2026.

SECTION 12.1.(b) Notwithstanding Section 12.13(f)(6) of S.L. 2021-180, the funds granted to the Town of Canton may be used for water and wastewater infrastructure projects.

SMALL DAM EMERGENCY ACTION PLAN MODIFICATIONS

SECTION 12.6.(a) G.S. 143-215.31 reads as rewritten:

"§ 143-215.31. Supervision over maintenance and operation of dams.

(a) The Commission shall have jurisdiction and supervision over the maintenance and operation of dams to safeguard life and property and to satisfy minimum streamflow requirements. The Commission may adopt standards for the maintenance and operation of dams as may be necessary for the purposes of this Part. The Commission may vary the standards applicable to various dams, giving due consideration to the minimum flow requirements of the stream, the type and location of the structure, the hazards to which it may be exposed, and the peril of life and property in the event of failure of a dam to perform its function.

(a1) The owner of a dam classified by the Department as a high-hazard dam or an intermediate-hazard dam shall develop an Emergency Action Plan for the dam as provided in this subsection:

... (2) The Emergency Action Plan shall include, at a minimum, all of the following:

a. A description of potential emergency conditions that could occur at the dam, including security risks.

b. A description of actions to be taken in response to an emergency condition at the dam.

c. Emergency notification procedures to aid in warning and evacuations during an emergency condition at the dam.

d. A downstream inundation map depicting areas affected by a dam failure and sudden release of the impoundment. A downstream inundation map prepared pursuant to this section does not require
preparation by a licensed professional engineer or a person under the
responsible charge of a licensed professional engineer unless the dam
is associated with a coal combustion residuals surface impoundment,
as defined by G.S. 130A-309.201.

(3) Except as otherwise provided, the owner of the dam shall update the
Emergency Action Plan annually and shall submit it to the Department and
the Department of Public Safety for their review and approval within one year
of the prior approval.

(3a) If the dam meets the criteria for exclusion under G.S. 143-215.25A(a)(6) but
requires an Emergency Action Plan, then the owner of the dam shall update
the Emergency Action Plan every five years and shall submit it to the
Department and the Department of Public Safety for their review and approval
at least one year prior to the expiration of the previous Emergency Action
Plan.

SECTION 12.6. If the Department of Environmental Quality has determined that
a failure of a dam less than 25 feet in height or that has an impoundment capacity of less than 50
acre-feet would result in loss of human life or significant damage to property below the dam prior
to the effective date of this section, then their requirement to have an updated Emergency Action
Plan every year shall be updated every five years under G.S. 143-215.31(a1)(3a), as enacted by
this section, beginning after the approval date of the next Emergency Action Plan.

SECTION 12.6. This section becomes effective October 1, 2024, and applies to
inspections of dams that occur on or after that date.

DAM RESILIENCE AND INFRASTRUCTURE NEEDS FUND

SECTION 12.7. Part 3 of Article 21 of Chapter 143 of the General Statutes is
amended by adding a new section to read:

"§ 143-215.32B. Dam Resilience and Infrastructure Needs Fund.
  (a) Establishment; Purpose. – There is established within the Department a special,
nonreverting account to be known as the Dam Resilience and Infrastructure Needs Fund to
receive federal funds under the United States Army Corps of Engineers Water Infrastructure
Financing Program (WIFP) and any other public funds appropriated for purposes consistent with
this section. This section provides to the Division of Energy, Mineral, and Land Resources of the
Department of Environmental Quality all necessary authority to serve as the State Administrative
Agency for this Fund. The Fund shall consist of any funds received from federal or State sources
that are appropriated for dam repair, modification, removal, and other remediation efforts related
to dam structural integrity and safety.
  (b) Eligible Uses. – Funds received from the WIFP or other federal sources may be used
to disburse loans to eligible subrecipients in this State, consistent with federal Program rules
published in the Federal Register and State law and rule. Any funds received from other State or
federal sources shall be used consistent with the purposes and restrictions from the funding
source, including grants, if applicable.
  (c) Priority. – The Department, through the Division, shall assign priority for loans from
the Fund to eligible subrecipients based on the Risk-Based Prioritization Method established
under the Federal Emergency Management Agency Rehabilitation of High Hazard Potential
Dams Grant Program. The Department may develop priority criteria for grants from other federal
or State sources, if applicable.
  (d) Rulemaking. – The Department may adopt rules necessary to implement the
provisions of this section.
  (e) Reporting Requirement. – The Department shall submit an annual report no later than
October 1 of each year to the Joint Legislative Committee on Agriculture and Natural and
Economic Resources and the Fiscal Research Division on the previous State fiscal year's loans, grants, or other disbursements from the Fund. The report shall include, at a minimum, the types, amounts, and recipients of loans, grants, and disbursements. If loans are disbursed, the report shall include (i) any defaults, (ii) interest rates, and (iii) efforts to recapture funds loaned to those recipients in the event of delinquent payment."

SECTION 12.7(b) The Department of Environmental Quality may use existing funds to create up to two full-time equivalent positions to operate the Dam Resilience and Infrastructure Needs Fund program as set forth in this section.

SHALLOW DRAFT FUND AMENDMENTS

SECTION 12.8. G.S. 143-215.73F, as amended by Section 4.12 of S.L. 2024-1, reads as rewritten:

"§ 143-215.73F. Shallow Draft Navigation Channel Dredging and Aquatic Weed Fund.

... (b) Uses of Fund. – Revenue in the Fund may only be used for the following purposes:

(1) To provide the State's share of the costs associated with any dredging project designed to keep shallow draft navigation channels located in State waters or waters of the State located within lakes navigable and safe.

(2) For aquatic weed control projects in waters of the State that either address (i) a noxious aquatic weed designated under Article 15 of Chapter 113A of the General Statutes, (ii) cyanobacteria causing harmful algal blooms or producing cyanotoxins such as cylindrospermopsin and saxitoxins, or (iii) other aquatic vegetation not so designated, if the vegetation obstructs public water access or access by watercraft to public watercraft launching or docking areas. Funding for aquatic weed control projects is limited to one million dollars ($1,000,000) two million dollars ($2,000,000) in each fiscal year.

(3) For administrative support of activities related to beach and inlet management in the State, limited to one hundred thousand dollars ($100,000) one hundred twenty thousand dollars ($120,000) in each fiscal year.

... (b2) Invoice Approval Required. – Any invoices submitted to the Secretary for reimbursement or payment from the Fund for projects undertaken for the purpose set forth in subdivision (1) of subsection (b) of this section shall be signed by the representative of the unit of local government sponsoring the project.

... (f1) Administrative Expense Adjustment. – The Secretary may annually adjust the administrative expense caps imposed by subdivisions (b)(3) and (b)(3a) of this section, so long as any cap increase does not exceed the amount necessary to provide for statewide salary and benefit adjustments enacted by the General Assembly.

MODERNIZE WASTEWATER PERMITTING TO SUPPORT ENVIRONMENTALLY SOUND ECONOMIC DEVELOPMENT

SECTION 12.9(a) The General Assembly finds all of the following:

(1) Residents of the State should be assured enjoyment of, and access to, proven and reasonable methods of treating and disposing of wastewater that embrace new technologies.

(2) As the State continues to grow and attract businesses, it is critical that wastewater treatment and disposal facilities are provided for those businesses;
and adequate and affordable housing that is proximate to those businesses must be available to assure the success of those businesses.

(3) Residents of the State should be assured treatment in an equitable manner to their counterparts within other states comprising the United States Environmental Protection Agency's (USEPA) Region 4 where permits are authorized and issued for the discharge of treated wastewater from municipalities, businesses, and developments to, for example, receiving waters "in which natural flow is intermittent, or under certain circumstances non-existent" (Alabama Admin. Code r. 335-6-10-.09).

(4) The discharge of treated wastewater to low flow or zero flow receiving waters is of low risk to the environment, protects and improves water quality, and provides the most prudent use of ratepayer funds.

(5) For all these reasons, it is necessary to establish methodologies and rules for the discharge of treated domestic wastewaters with low risk following site specific criteria to surface waters of the State, including wetlands, perennial streams, and unnamed tributaries of named and classified streams and intermittent streams or drainage courses where the 7Q10 flow or 30Q2 flow of the receiving waters is estimated to be low flow or zero flow, as determined by the United States Geological Survey (USGS).

(6) This act preserves and maintains the authority of the Department of Environmental Quality (Department) for appropriate review, including opportunities for public comment, and requires the Department and the Environmental Management Commission (Commission) to seek necessary approvals from USEPA to adopt temporary and permanent rules to authorize discharges of wastewater to such receiving waters.

SECTION 12.9.(b) G.S. 143-215.1(c8) is repealed.

SECTION 12.9.(c) Section 12.9 of S.L. 2023-134 is repealed.

SECTION 12.9.(d) No later than August 1, 2024, the Department of Environmental Quality (Department) and the Environmental Management Commission (Commission) shall develop and submit to the United States Environmental Protection Agency for USEPA's approval draft rules that establish methodologies and permitting requirements for the discharge of treated domestic wastewaters with low risk following site-specific criteria to surface waters of the State, including wetlands, perennial streams, and unnamed tributaries of named and classified streams and intermittent streams or drainage courses where the 7Q10 flow or 30Q2 flow of the receiving water is estimated to be low flow or zero flow, or under certain conditions non-existent, as determined by the United States Geological Survey (USGS). Within 20 days of the date USEPA approves the draft rules submitted pursuant to this subsection, the Commission shall initiate the process for temporary and permanent rules pursuant to Chapter 150B of the General Statutes.

The draft rules submitted to USEPA for approval shall include all of the following:

(1) Defined terms. –

a. "Treated domestic wastewater" shall mean sewage and wastewater comprised of waste and wastewater from household, commercial or light industrial operations (e.g., homes, restaurants, car washes, laundromats servicing only domestic laundry) excluding any industrial process wastewater regulated by USEPA under the Categorical Pretreatment Standards.

b. "Low-risk discharges" means discharges of 2 million gallons per day or less of treated domestic wastewater when the dissolved oxygen content (DO) of the effluent is significantly higher (1.5 mg/l or greater) than the DO of the receiving water during low flow periods and the
biological oxygen demand content (BOD) of the effluent is significantly lower (1.5 mg/l or more) than the DO of the effluent.

c. "Sag" means a reduction in the existing DO in the background surface receiving water to which treated wastewater will be discharged. Sag is typically related to nutrient elements within treated wastewater, which may promote the growth of oxygen-consuming micro-organisms, increasing the BOD, which at elevated levels may reduce DO in the background surface water body.

(2) Criteria for permitting. –

a. Applicants shall be required to demonstrate, through an analysis comparing the limits of the NPDES permit to the characteristics of the receiving water, that a proposed discharge meets criteria for a low-risk discharge as defined in this subsection. When a discharge is determined to be low-risk, the applicant shall demonstrate using simple modeling of the applicant's choosing, provided that the model chosen is utilized elsewhere in USEPA Region 4, such as the Streeter-Phelps model used in the State of Alabama, to show that the Sag, if any, in the DO of the receiving water will not exceed 0.1mg/l.

b. Discharges to low flow or zero flow receiving waters shall be subject to the following conditions:

1. The receiving waters fall within any of the following categories:
   I. The 7Q10 or 32Q2 flow statistics are estimated to be zero by the USGS.
   II. The drainage area of the discharge point is less than 5 square miles as specified by the USGS on-line tools or other methodology that meets the standard of care for such work.
   III. The 7Q10 flow is estimated to be less than 1 cubic foot per second by the USGS.

2. The proposed flow for any wastewater discharge shall be the lesser of the following:
   I. No more than one-tenth of the flow generated by the one-year, 24-hour storm event given the drainage area and calculated using the rational method. The rational method shall be used to calculate the peak runoff for the one-year, 24-hour precipitation event in cubic feet per second. The peak runoff shall then be divided by 10 and multiplied by 646,272 to convert the result to gallons per day of allowable discharge at the point studied.
   II. Two million gallons per day.

3. All discharges shall be directed to buffer systems that utilize low-energy methodologies to function as a buffer between the discharge and the receiving waters. Buffer systems shall consist of one of the following:
   I. High-rate infiltration basins that may include engineered materials to achieve high rates of infiltration, which engineered materials shall have an ASTM gradation of a fine to coarse grain sand, and angular to maintain structural integrity of the slope.
II. Constructed free-surface wetlands having a hydraulic residence time of 14 days.

III. Other suitable technologies that provide a physical or hydraulic residence time buffer, or both, between the discharge and the receiving waters.

4. Discharge to areas that are 50 feet upland of the receiving waters or wetlands at a non-erosive velocity equal to or less than 2 feet per second through an appropriately designed energy dissipater, or other applicable designs, that meet the standard of practice for professional engineers for such devices.

5. Utilize more than one outfall to the receiving stream so that no one outfall exceeds 1 cubic foot per second based on the average daily flow of the discharge. Discharges from buffer systems shall be allowed to be placed at increments along a stream or receiving waters at no less than 50 linear feet.

6. No discharge shall be permitted to classified shellfish waters (SA), tidal waters (SC), water supply waters (WS), or outstanding resource waters (ORW). Discharges to unnamed tributaries of classified shellfish waters, however, shall be authorized in compliance with requirements of this section and only when a low-risk situation is present. Discharges to nutrient sensitive waters (NSW) may require additional modeling and allocation of flow and will be at the discretion of the Department.

7. The following effluent limits shall generally apply except where (i) the applicant and Department agree to more stringent limits or (ii) complex modeling conducted pursuant to sub-sub-subdivision 8. of this sub-subdivision demonstrates that Sag in the DO content of the receiving water of 0.1 mg/l or less will occur and water quality standards are protected:

   I. Biological oxygen demand (BOD₅) shall not exceed 5.0 mg/l monthly average.

   II. NH₃, 0.5 mg/l monthly average, 1.0 mg/l daily maximum.

   III. Total nitrogen shall not exceed 4.0 mg/l monthly average.

   IV. Total phosphorus, 1.0 mg/l monthly average, 2.0 mg/l daily maximum.

   V. Fecal coliforms, 14 colonies/100ml or less.

   VI. Dissolved oxygen, 7.0 mg/l or greater.

   VII. Total suspended solids, 5.0 mg/l monthly average, 8mg/l daily maximum.

   VIII. Nitrate, 1.0 mg/l monthly average, 2.0 mg/l daily maximum.

8. If an applicant proposes less stringent effluent limits than those set forth in sub-sub-subdivision 7. of this sub-subdivision, the applicant shall conduct more complex modeling using any model accepted elsewhere in USEPA Region 4 that the applicant elects to use to confirm that a Sag in the DO content
of the receiving water of 0.1 mg/l or less will occur and water
quality standards are protected.

9. The Department shall not require an applicant to obtain
mapping data from the USGS as part of an application. In lieu,
an engineer of record licensed in the State of North Carolina
may prepare required mapping utilizing either USGS maps or
other maps approved by the Department.

10. Within 30 days of the filing of an application for a wastewater
discharge subject to this section, the Department shall (i)
determine whether or not the application is complete and notify
the applicant accordingly and (ii) if the Department determines
an application is incomplete, specify all such deficiencies in
the notice to the applicant. The applicant may file an amended
application or supplemental information to cure the
deficiencies identified by the Department for the Department's
review. If the Department fails to issue a notice as to whether
or not the application is complete within the requisite 30-day
period, the application shall be deemed complete. Within 180
days of the filing of a completed application, the Commission
shall either grant or deny the permit. If the Commission fails
to act in the requisite time frame, ten percent (10%) of the
application fee shall be returned to the applicant for each
working day beyond the 180-day period.

SECTION 12.9.(e) No later than September 1, 2024, the Department in conjunction
with the North Carolina Collaboratory at the University of North Carolina at Chapel Hill
(Collaboratory) shall convene a Wastewater General Permit Working Group (Working Group)
consisting of Department and Collaboratory staff and a maximum of five consulting experts
appointed by the Director of the Collaboratory in the fields of environmental regulation,
wastewater regulation, water quality regulation, and wastewater treatment regulation, to develop
draft rules for the implementation of a Wastewater Treatment and Discharge General Permit
process for the State. The Working Group shall report its findings to the Environmental Review
Commission no later than March 15, 2025. Following consideration by the Environmental
Review Commission, and after making any changes required by the Environmental Review
Commission, the Department shall develop and submit proposed rules to USEPA for its approval.
Within 20 days of the date USEPA approves the draft rules submitted pursuant to this subsection,
the Commission shall initiate the process for temporary and permanent rules pursuant to Chapter
150B of the General Statutes.

SECTION 12.9.(f) Beginning September 1, 2024, and quarterly thereafter until such
times as permanent rules as required by subsections (d) and (e) of this section have become
effective, the Department and the Environmental Management Commission shall report on their
activities to implement subsections (d) and (e) of this section to the Environmental Review
Commission, the Joint Legislative Oversight Committee on Agriculture and Natural and
Economic Resources, the Senate Appropriations Committee on Agriculture, Natural and
Economic Resources, and the House of Representatives Appropriations Committee on
Agriculture and Natural and Economic Resources of the General Assembly.

SECTION 12.9.(g) This section is effective when it becomes law.
AUTHORIZE NEW TRAILS

SECTION 14.1.(a) The General Assembly authorizes the Department of Natural and Cultural Resources to add the (i) First Broad River Trail in Cleveland County, (ii) Carolina Thread Trail encompassing 15 counties in the southwestern part of the State, and (iii) Watauga River Paddle Trail in Watauga County to the State Parks System as State Trails, as provided in G.S. 143B-135.54(b). The Department shall support, promote, encourage, and facilitate the establishment of trail segments on State park lands and on lands of other federal, State, local, and private landowners. On segments of those State Trails that cross property controlled by agencies or owners other than the Department's Division of Parks and Recreation, the laws, rules, and policies of those agencies or owners shall govern the use of the property. The requirement of G.S. 143B-135.54(b) that additions be accompanied by adequate appropriations for land acquisition, development, and operations shall not apply to the authorization set forth in this section; provided, however, that the State may receive donations of appropriate land and may purchase other needed lands for those State Trails with existing funds in the North Carolina Land and Water Fund, the Parks and Recreation Trust Fund, the federal Land and Water Conservation Fund, and other available sources of funding.

SECTION 14.1.(b) This section is effective when it becomes law.

CAPACITY-BUILDING GRANTS FOR GREAT TRAILS

SECTION 14.2. Of the funds appropriated in this act to the Department of Natural and Cultural Resources for the Great Trails State Program for the 2024-2025 fiscal year, the sum of one million dollars ($1,000,000) shall be allocated as follows:

1. Seven hundred fifty thousand dollars ($750,000) to be divided equally between the 15 eligible entities, as defined in Section 14.6 of S.L. 2023-134, for capacity-building grants.
2. Fifty thousand dollars ($50,000) for the Saluda Grade Trails Conservancy, a nonprofit corporation, for a capacity-building grant for the Saluda Grade rail corridor. These funds shall not be disbursed to the Conservancy until the Saluda Grade rail corridor has been designated as a State Trail and conveyed to the State in accordance with the memorandum of understanding entered into under Section 14.5(d) of S.L. 2023-134.
3. Two hundred thousand dollars ($200,000) to the Great Trails State Coalition, a nonprofit corporation, for (i) a time-limited position to assist and coordinate trail planning and implementation for the nonprofit organizations in the State, (ii) marketing for trail events, and (iii) promoting outdoor trail recreation.

3. To require on a schedule determined by the Department all State agencies to transfer ownership, custody or control of any or all passenger motor vehicles within the ownership, custody or control of that agency to the Department, except those motor vehicles under the ownership, custody or control of the following:

I. The North Carolina Zoological Park.

II. The North Carolina Division of Parks and Recreation of the Department of Natural and Cultural Resources.

by the Department-OSBM as provided in this section. Funds appropriated by the General
Assembly for the challenge grant program shall be used to allocate funds to the Center for the
purpose of providing rehabilitation and reintegration services and support to veterans across the
State, and those funds shall not be used for any other purpose without the express authorization
of the General Assembly.

(b) The maximum amount of State funds that may be disbursed to the Center under this
section is seven hundred fifty thousand dollars ($750,000) in each fiscal year. The Department
OSBM shall disburse State funds on a dollar-for-dollar basis each quarter so that the Center will
receive a State dollar for each non-State dollar raised by the Center each quarter, but in no case
shall the Department-OSBM disburse State funds to the Center if the Center has not raised
non-State funds in that quarter of the fiscal year. The Center shall demonstrate, to the satisfaction
of the Department-OSBM, that it has raised the non-State funds required by this subsection prior
to the disbursement of State funds. The Center shall not supplant, shift, or reallocate Center funds
for the purpose of achieving the non-State dollars required by this subsection.

(b1) Notwithstanding the provisions of subsection (b) of this section, if the OSBM does
not disburse grant funds to the Veterans Life Center in a fiscal year because the Center did not
satisfy the requirements of the grant contract between the OSBM and the Center on or before
June 30 of that fiscal year, the grant funds shall not revert on June 30 but shall remain available
to the OSBM to disburse to the Center in the following fiscal year as long as the Center satisfies
the grant contract requirements. In such a case, the OSBM is authorized to disburse grant funds
to the Veterans Life Center in an amount greater than seven hundred fifty thousand dollars
($750,000) in a fiscal year because the amount disbursed is for both the prior fiscal year and the
current fiscal year.
Not later than July 1 of each year, the [Department of OSBM] shall submit a written report to the Joint Legislative Oversight Committee on General Government and the Fiscal Research Division on all of the following information, and the Center shall provide the information to the [Department of OSBM] in the manner and time period requested by the [Department of OSBM] for purposes of preparing the report:

(2) The types of services provided to veterans, and the number of veterans who received each type of service.
(3) Demographics of the veterans served, including each veteran's county of residence.
(4) Average length of stay for veterans, and the average number of veterans in the center facility on a daily basis.
(5) The total number of veterans who completed the care program, and the number who received postgraduate mentoring from the Center.”

STATE AGENCIES REQUIRED TO ACCEPT ELECTRONIC PAYMENTS

SECTION 25.1.(a) G.S.147-86.10 reads as rewritten:

"§ 147-86.10. Statement of policy.
It is the policy of the State of North Carolina that all agencies, institutions, departments, bureaus, boards, commissions, and officers of the State, whether or not subject to the State Budget Act, Chapter 143C of the General Statutes, shall devise techniques and procedures for the receipt, deposit, and disbursement of moneys coming into their control and custody which are designed to maximize interest-bearing investment of cash, and to minimize idle and nonproductive cash balances. This policy shall apply to the General Court of Justice as defined in Article IV of the North Carolina Constitution, the public school units as defined in G.S. 147-86.12, and the community colleges with respect to the receipt, deposit, and disbursement of moneys required by law to be deposited with the State Treasurer and with respect to moneys made available to them for expenditure by warrants drawn on the State Treasurer. This policy shall include the acceptance of electronic payments in accordance with G.S. 147-86.22 to the maximum extent possible consistent with sound business practices."

…
(6) State agencies shall accept payment by electronic payment in accordance with G.S. 147-86.22 to the maximum extent possible consistent with sound business practices."

SECTION 25.1.(c) G.S. 147-86.22 reads as rewritten:

"§ 147-86.22. Statewide accounts receivable program.

…
(b) Electronic Payment. – Notwithstanding the provisions of G.S. 147-86.20 and G.S. 147-86.21, this subsection applies to debts owed a community college, a local school administrative unit, an area mental health, developmental disabilities, and substance abuse authority, and the Administrative Office of the Courts, and to debts payable to or through the office of a clerk of superior court or a magistrate, as well as to debts owed to other State agencies as defined in G.S. 147-86.20.

The State Controller shall establish policies that allow accounts receivable to be payable under certain conditions by electronic payment. These policies shall be established with the concurrence of the State Treasurer. In addition, any policies that apply to debts payable to or through the office of a clerk of superior court or a magistrate shall be established with the
concern the Administrative Officer of the Courts. The Administrative Officer of the Courts
may also establish policies otherwise authorized by law that apply to these debts as long as those
policies are not inconsistent with the Controller's policies. Notwithstanding the provisions of this
subsection, the State Controller, with the concurrence of the State Treasurer or the Administrative
Officer of the Courts, as applicable, may exempt State agencies from the requirement to allow
accounts receivable to be payable by electronic payment if deemed advisable.

the full amount of the account receivable owed to the State agency. A–Notwithstanding the
provisions of this section or any other provision of law, a State agency may enter into a contract

processing service at the time each transaction is made. The terms of any contract executed under
this subsection shall be approved by the State Controller with the concurrence of the State
Treasurer and the Administrative Officer of the Court, as applicable. In the absence of a contract

electronic payment. Fees to cover the costs incurred in accepting the payment electronically, but
in no event shall the debtor be required to pay a fee that is greater than four percent (4%) of the
electronic payment. If the State agency does not require the debtor to pay a fee associated with
processing electronic payments, the fee may be paid out of the General Fund and
Highway Fund if the payment of the fee by the State is economically beneficial to the State and
the payment of the fee by the State has been approved by the State Controller and State Treasurer.

The State Controller and State Treasurer shall consult with the Joint Legislative Commission
on Governmental Operations before establishing policies that allow accounts receivable to be
payable by electronic payment and before authorizing fees associated with electronic payment to
be paid out of the General Fund and Highway Fund.

A payment of an account receivable that is made by electronic payment and is not honored
by the issuer of the card or the financial institution offering electronic funds transfer does not
relieve the debtor of the obligation to pay the account receivable.

(d) Annual Report. – The State Controller shall report annually to the Joint Legislative
Commission on Governmental Operations and the Fiscal Research Division on the revenue
deposited into Special Reserve Account 24172 and the disbursement of that revenue."

PART XXX. INSURANCE

CONTINUE WORK ON PROPOSAL FOR A STATE-BASED HEALTH BENEFITS EXCHANGE

SECTION 30.1.(a) Notwithstanding G.S. 143B-24(b), the Commissioner of the Department of Insurance (Commissioner) shall build upon the detailed plan for the development of a state-based health benefits exchange that meets the requirements of the federal Patient Protection and Affordable Care Act, P.L. 111-148, as amended, that was submitted on May 15, 2024, as required by Section 30.9 of S.L. 2023-134. In continuing the work on this plan, the Commissioner shall take the following actions:

(1) Develop a realistic and detailed time line for implementation no earlier than November 2027 of a state-based exchange operating on the federal platform, as required by federal regulation to occur for at least one year prior to approval for operating a fully state-based exchange. The following assumptions may be used by the Commissioner in the development of this time line and the required updated to the plan previously developed in accordance with Section 30.9 of S.L. 2023-134 but shall not be construed as binding with regard to any potential development of a state-based exchange:

a. The state-based exchange is housed in a State agency.

b. User fees will be collected and used to cover the full cost to the State of the state-based exchange operating on the federal platform once the transition to the state-based exchange operating on the federal platform is complete, resulting in a revenue-neutral program. The cost to the State of any fully state-based exchange would also be covered by the user fees.

c. A 1332 Waiver will not be pursued simultaneously with the initial implementation of a state-based exchange operating on the federal platform.

d. The State will not develop its own information technology platform for the state-based exchange and will either (i) contract with a company that has already developed a platform to be used as an ongoing platform for a fully state-based exchange or that will develop an individualized platform for purchase by the State after the initial contract period expires or (ii) remain on the federal platform, whichever is determined to be in the State's best interest.

(2) Determine a detailed and specific plan for any additional staff that may be required by the Commissioner to operate a state-based exchange operating on
the federal platform, as well as the fully state-based exchange. The detailed
and specific plan should include administrative staff as well as staff for the
call center required under federal law. The number of staff, as well as the time
line for hiring and training the staff, the general position description of the
staff members, and the anticipated cost of the staff shall be included in the
detailed and specific plan.

(3) Estimate the anticipated user fee imposed by the State through the first year
of operation of the state-based exchange operating on the federal platform and
through the first three years of the fully state-based exchange, assuming the
State is approved to move to a fully operational state-based exchange after one
year of operation of the state-based exchange.

(4) Conduct a full analysis of the final rule 89 FR 26218 issued by the Centers for
Medicare and Medicaid Services that takes effect June 1, 2024, and that makes
several changes to the standards for state-based exchanges, insurers, and the
qualified health plans offered on the exchanges, including changes to the
evaluation of network adequacy standards for qualified health plans. In
conducting this full analysis, the Commissioner shall determine whether the
flexibility afforded to the State to manage a state-based benefits exchange and
to regulate the qualified health plans offered on that exchange remains
unchanged from the analysis in the report submitted by the Commissioner on
May 15, 2024, as required by Section 30.9 of S.L. 2023-134. The full analysis
shall also include any impacts moving to a state-based exchange would have
on health benefit plans offered in the individual market in the State that would
be otherwise unimpacted if the State remained a participant in the federally
facilitated marketplace.

(5) Collaborate with the Secretary of the Department of Health and Human
Services (Secretary) to determine what steps and procurements may be
necessary to ensure that the state-based exchange operating on the federal
platform, as well as the fully state-based exchange, is able to meet all
requirements necessary to fully integrate with the Medicaid eligibility
determination process and handle any other needs of the Medicaid program.
As part of this collaboration, the Commissioner and the Secretary shall
estimate the anticipated costs to the Department of Insurance and the
Department of Health and Human Services for this integration and a general
time line of when those costs are anticipated to be incurred. In determining
the necessary steps, procurements, and costs under this subdivision, the
Commissioner and the Secretary shall prioritize a seamless experience for
Medicaid beneficiaries as well as accuracy of eligibility determinations made
by the state-based exchange, regardless of the operating platform utilized.

(6) Engage stakeholders in the State individual health benefit plan market to
determine interest in or concerns with moving to a state-based exchange
operating on the federal platform or a fully state-based exchange. Upon
learning of any concerns insurers may have, the Commissioner shall
determine whether these concerns need to be and are able to be addressed by
the Commissioner or require legislative action.

(7) Using the time line developed under this subsection and including costs
identified to be estimated under this subsection as well as any other anticipated
expenses, provide a detailed assessment of the total cost to the State to
implement the initial state-based exchange on the federal platform before any
user fees may be imposed by the State and the time frame in which the costs
will be incurred.
(8) Determine what legislation may be necessary to implement a state-based exchange operating on the federal platform with the intent to move to a fully state-based exchange under the realistic and detailed time line developed in accordance with this section. The Commissioner may collaborate with the Legislative Drafting Division for the purposes of this subdivision.

(9) No later than March 1, 2025, submit to the Joint Legislative Oversight Committee on General Government, the Joint Legislative Oversight Committee on Health and Human Services, and the Fiscal Research Division an update to the report submitted on May 15, 2024, as required by Section 30.9 of S.L. 2023-134. This updated report shall include, at a minimum, a detailed report on the information developed or obtained as part of carrying out the actions required under this section, including any information provided for inclusion in the report in accordance with subsection (b) of this section.

**SECTION 30.1.(b)** The Secretary of the Department of Health and Human Services (Secretary) shall collaborate with the Commissioner of the Department of Insurance to determine what steps and procurements may be necessary to ensure that a state-based exchange operating on the federal platform, as well as the fully state-based exchange, is able to meet all requirements necessary to fully integrate with the Medicaid eligibility determination process and handle any other needs of the Medicaid program. No later than January 1, 2025, the Secretary shall provide to the Commissioner an estimate of the anticipated costs to the Department of Health and Human Services for this integration and a general time line of when those costs are anticipated for use in the report required under subsection (a) of this section. Any additional information that the Secretary deems necessary to be included in that required report, including any costs or impacts to county departments of social services, shall also be provided to the Commissioner by January 1, 2025, and the Commissioner shall include that information when making the required report.

**SECTION 30.1.(c)** Neither the Commissioner of the Department of Insurance nor the Secretary of the Department of Health and Human Services shall submit an Exchange Blueprint or any similar information to the federal Centers for Medicare and Medicaid Services that specifically seeks approval for, or signals approval by the General Assembly of, a state-based health benefits exchange operating on the federal platform or a fully state-based health benefits exchange.

The State CIO shall consider an agency’s noncompliance with cybersecurity plans and standards when reviewing agency requests under Part 3 (Information Technology Projects and Management) and Part 4 (Information Technology Procurement) of this Article.

(b) Beginning March 1, 2025, and then annually thereafter, the State CIO shall report each agency that is not complying with agency or statewide cybersecurity plans or standards to the Joint Legislative Oversight Committee on Information Technology and the Fiscal Research Division."

SECTION 38.1(d) The following definitions apply in this section:

1. Cybersecurity incident. – As defined by G.S. 143B-1320(4a).

SECTION 38.2.(c) Of the funds appropriated in this act to the Department of Information Technology (DIT), the Government Data Analytics Center (GDAC) shall use up to five million dollars ($5,000,000) in nonrecurring funds for the 2024-2025 fiscal year to contract with MyScholar, LLC, to implement the ScholarPath platform to create the Twelfth Grade Transition Program for all high school students. The GDAC shall implement and manage the Program, which shall consist of the following:

1. An education planning and communication platform that helps students and parents prepare for transition to twelfth grade, regardless of public school unit participation.
2. Utilize O*NET data and additional student surveys to connect and match students to pathways that meet the interests of the students, current workforce initiatives, and opportunities in high demand careers.
3. Give students the ability to be connected to colleges, the workforce, and the military, while protecting student data through deindividualized and encrypted methods.
4. Include a platform accessible by single sign-on through any North Carolina school provided email.

MIDDLE MILE BROADBAND REDUNDANCY

SECTION 38.3.(a) The Department of Information Technology shall use up to twenty million dollars ($20,000,000) in unencumbered funds from the Growing Rural Economies with Access to Technology Fund established in G.S. 143B-1373(b) for the purpose of funding any submitted middle mile grant applications under the federal National Telecommunications and Information Administration (NTIA) Middle Mile Grant Program impacting tier 1 and tier 2 counties that are unfunded by the Department. The funding shall be used for any middle mile projects that close a fiber loop to create redundancies for areas consisting of barrier islands or any area where an outage results in downstream outages. Special consideration shall be given to those projects with a significant impact on public safety and the maintenance of emergency communication during natural disasters and public emergency events. A grant recipient under this section shall provide matching funds of up to one million dollars ($1,000,000). State funding for any single grant under this section shall not exceed twenty million dollars ($20,000,000).

SECTION 38.3.(b) This section expires on June 30, 2025.

COMPLETING ACCESS TO BROADBAND PROGRAM CHANGES

SECTION 38.4.(a) Notwithstanding the county project cost responsibility in G.S. 143B-1373.1(d) and (e), of the funds appropriated to the Department of Information Technology (Department) from the State Fiscal Recovery Fund and the Coronavirus Capital
Projects Fund for projects under the Completing Access to Broadband grant program (Program) in G.S. 143B-1373.1, the Department shall utilize up to one hundred ninety million dollars ($190,000,000) to provide the county project cost responsibility required in G.S. 143B-1373.1(e) and the State project cost responsibility for the 37 counties that have committed to the Department to participate in the Program and provide the county match as of May 1, 2024. A county may decline to accept any portion of the county project cost responsibility funding from the Department described in this subsection by notifying the Department within 30 days of the effective date of this section.

SECTION 38.4(b) G.S. 143B-1373.1 reads as rewritten:

"§ 143B-1373.1. Completing Access to Broadband program.

... (d) A broadband service provider selected for a project under this section may shall provide up to thirty percent (30%) of the total estimated project cost. The Office may commit up to thirty-five percent (35%) of the total estimated project cost from monies in the CAB Fund. The county requesting the project shall be responsible for at least thirty-five percent (35%) of the total estimated project cost and shall utilize federal American Rescue Plan Act (P.L. 117-2) funds or nonrestricted general funds for that purpose. In the event CAB Fund monies are insufficient to fund a project, a county may increase its share of the total estimated project cost, or the Office may adjust the scope of the project to meet the level of available funding. No county may receive more than eight million dollars ($8,000,000) in aggregate funding from the CAB Fund in any single fiscal year.

(e) Notwithstanding the project cost responsibility allocations in subsection (d) of this section, for a county receiving from the federal government less than an aggregate of eight million dollars ($8,000,000) in federal American Rescue Plan Act (P.L. 117-2) funds, a broadband service provider selected for a project shall provide not less than fifteen percent (15%) of the total estimated project cost. If a broadband service provider provides more than fifteen percent (15%) of the total estimated project cost, the State and county cost responsibilities shall be equally apportioned. The following cost responsibility allocations for counties meeting the requirements of this subsection and the State apply:

<table>

(f) A broadband service provider selected for a project under this section shall enter into an agreement with the Office that shall include the project description, time lines, benchmarks, proposed broadband speeds, and any other information and documentation the Office deems necessary. All proposed broadband speeds must meet or exceed the federal guidelines for use of American Rescue Plan Act (P.L. 117-2) funds. Upon execution of an agreement, the county shall provide its portion of the total estimated project costs to the Office to be combined with CAB Funds awarded for the project and placed in a separate project account. The Office shall provide project oversight, and, upon completion of established benchmarks in the project agreement, the Office shall disburse funds from the project account to the broadband service provider. The forfeiture provisions in G.S. 143B-1373(l) shall apply to agreements entered into under this section."

SECTION 38.4(c) Subsection (b) of this section becomes effective July 1, 2024, and applies to grant funding requests submitted on or after that date. The remainder of this section becomes effective July 1, 2024.

CONSTITUENT ENGAGEMENT ENHANCEMENT/DEPARTMENT OF SECRETARY OF STATE

SECTION 38.5. With the funds appropriated in this act to the Department of Information Technology for constituent engagement enhancement, the Department shall submit
a request for proposals for constituent engagement software to be implemented with the
Department of Secretary of State. The constituent engagement software shall be designed to
ensure that critical agency online services are optimized and automated and be used to increase
efficiency by automating and improving agency constituent processes.

ENTERPRISE-WIDE CYBERSECURITY PLAN

SECTION 38.6.(a) Findings. – The General Assembly finds that it is in the best
interests of the State for the Department of Information Technology (DIT) to lead the State's
cybersecurity efforts comprehensively rather than having State agencies handle cybersecurity
individually in a fragmentary way.

SECTION 38.6.(b) State Cybersecurity Plan. – During the 2024-2025 fiscal year:

(1) The DIT shall begin planning for implementation of an enterprise-wide
cybersecurity program for State government to protect the State's digital assets
and mitigate risks and damage, across State agencies, from cyberattacks such
as data breaches, ransomware attacks, social engineering, and software
vulnerabilities. The DIT may issue requests for information and proposals.

(2) The initial planning phase may consist of risk assessment, investment
calculation, protection recommendations, and cost-efficiency analysis, or
other considerations, as appropriate, across State agencies, relative to the
following cybersecurity policies:

a. Access control.
b. Cloud.
c. Data protection.
d. Data retention.
e. Email.
f. Information.
g. Network.
h. Physical.
i. Privacy.
j. Website.

SECTION 38.6.(c) Report. – By March 1, 2025, the DIT shall report to the Joint
Legislative Oversight Committee on Information Technology and the Fiscal Research Division
on (i) its assessment of the efficacy of various technologies, tactics, and processes used by State
agencies to protect State digital assets against unauthorized use, abuse, or infiltration by threat
actors, (ii) its requirements for running enterprise-wide cybersecurity and how program costs can
be built into the rate structure, and (iii) any requests for information or proposals issued for
implementation of the State's enterprise-wide cybersecurity plan.

DMV DATA ASSESSMENT

SECTION 38.7. With the funds appropriated in this act for DMV Data Assessment,
the Friday Institute for Educational Innovation at North Carolina State University (Friday
Institute), in collaboration with the Department of Information Technology, shall study the
feasibility of modernizing the customer service experience at Division of Motor Vehicles (DMV)
locations by expanding the availability and use of customer self-service kiosks at DMV locations.
The study shall consider the following:

(1) Hardware and software needs, including printers, scanning technology, and
broadband access.

(2) Potential impact on staffing, including staff time, staff duties and
responsibilities, and staffing needs.

(3) Potential cost-savings.

(4) Potential reductions in wait times for DMV customers.
(5) Assessment of available technology and an analysis of procurement options and partnerships with third-party vendors.

(6) Assessment of best practices from other states that have implemented similar systems.

(7) Recommendations on funding needs and potential legislation from the General Assembly.

The Friday Institute shall submit a report containing the findings of the study described in this section on or before March 1, 2025, to the Joint Legislative Oversight Committee on Information Technology and the Fiscal Research Division.

DIGITAL IDENTITY VERIFICATION STUDY

SECTION 38.8. The Department of Information Technology shall study the benefits of utilizing a common platform for digital identity verification to securely access State services and sensitive information in a way that improves the citizen experience and reduces the risk of fraud. In doing so, the Department shall consider utilizing a credential service provider that minimizes the frequency of identity verification events while enabling use of a portable and reusable credential across State government agencies. The Department shall report its findings to the Joint Oversight Committee on Information Technology and the Fiscal Research Division by February 1, 2025.

RURAL CENTER BROADBAND MAP ASSISTANCE

SECTION 38.9. Notwithstanding G.S. 143B-1373, from the funds received by the Department of Information Technology for the Growing Rural Economies with Access to Technology grant program, the Department of Information Technology shall, no later than August 1, 2024, provide the sum of one million dollars ($1,000,000) in the form of a grant to the NC Rural Center (Rural Center) to support the Rural Center as it continues its efforts to assist development tier one and tier two areas, in advance of the upcoming challenge process for the federal Broadband Equity, Access, and Deployment (B.E.A.D.) grant program, with the following:

(1) Surveying and identifying unserved, underserved, and underrepresented communities and other areas not accurately reflected on current broadband maps.

(2) Assisting the Department of Information Technology in mapping assets to catalogue broadband adoption, affordability, equity, access, and deployment activities.

(3) Assisting the Department of Information Technology in meeting federal local coordination requirements.

(4) Assisting local governments in the preparation and submission of challenges to the broadband maps as a part of the upcoming challenge process for the federal B.E.A.D. grant program.

BEAD GRANT PROGRAM

SECTION 38.10.(a) Definitions. – As used in this section, the following definitions apply:

(1) BEAD. – Broadband Equity, Access, and Deployment.

(1a) Broadband service. – For the purposes of this section, a terrestrially deployed mass-market retail service by wire or radio that provides the capability to transmit data to and receive data from all or substantially all internet endpoints, including any capabilities that are incidental to and enable the operation of the communications service, but excluding dial-up internet access service.
(2) Broadband serviceable location (BSL). – A location where broadband service is or could be installed, as identified by the Federal Communications Commission for purposes of its Broadband DATA Maps.

(3) Community anchor institution (CAI). – A school, library, health clinic, health center, hospital or other medical provider, public safety entity, institution of higher education, public housing organization, or community support organization that facilitates greater use of broadband service by vulnerable populations, including, but not limited to, low-income individuals, unemployed individuals, and aged individuals.

(4) Eligible location. – The Department of Information Technology.

(5) Eligible project. – A discrete and specific project intended to construct and deploy qualifying broadband service to an eligible location or to a combination of eligible locations. A "project" may constitute a single unserved or underserved BSL, or a grouping of BSLs in which not less than eighty percent (80%) of BSLs served by the project are unserved or underserved locations, provided that the Office may not award funding under this section to construct and deploy infrastructure for the provision of qualifying broadband service to any served BSL.

(7) Extremely high cost per location threshold. – A BEAD subsidy cost per location above which the Office may decline to select a proposal if use of an alternative technology meeting the BEAD program’s technical requirements is necessitated by the fact that selection of an eligible project proposing to provision service via end-to-end fiber-optic facilities to each end-user premises would be cost prohibitive. The Office will develop a methodology for calculating this threshold in a manner that maximizes use of the best available technology while ensuring that the program can, at a minimum, meet the prioritization requirements. The Office will post the methodology for public comment before implementation. The Office shall not, unless it is determined that it does not have sufficient funding to select each highest-scoring application in the initial round described in this section, utilize the extremely high cost per location threshold in the initial round.

(7a) FCC. – The Federal Communications Commission.

(8) High-cost outlier. – Any unserved or underserved location that an applicant identifies as a risk to disproportionately affect the cost of an applicant’s project budget.

(9) IIJA. – Infrastructure Investment and Jobs Act (P.L. 117-58).

(9a) Infrastructure. – Facilities, equipment, materials, and structures that an entity installs either for its core business or public enterprise purposes. Examples include, but are not limited to, copper wire, coaxial cable, optical cable, loose tube cable, communication huts, conduits, vaults, patch panels, mounting hardware, poles, generators, battery and cabinet, network nodes, network routers, network switches, microwave relay, microwave receivers, site routers, outdoor cabinets, towers, easements, rights-of-way, and buildings or structures owned by the entity that are made available for location or collocation purposes.

(10) Infrastructure costs. – Costs related to the construction of broadband infrastructure for the extension of broadband service for an eligible project, including installation, acquiring or updating easements, backhaul infrastructure, and testing costs. The term also includes engineering and any
other costs associated with securing a lease to locate or collocate infrastructure on public or private property or structures, but not including the actual monthly lease payment. The term does not include overhead or administrative costs.

1. Low-cost broadband service option. – A broadband service offered to low-income households that meets the eligibility requirements for the federal Affordable Connectivity Program, or similar replacement program, in the project area for at least the length of time defined by federal requirements. A low-cost broadband service option must be made available and include the following elements:
   a. Provide typical download speeds of at least 100 Mbps and typical upload speeds of at least 20 Mbps.
   b. Provide typical latency measurements of no more than 100 milliseconds.
   c. Not be subject to nongovernmental imposed surcharges and be subject only to the same acceptable use policies to which subscribers to all other broadband internet access service plans offered to home subscribers by the participating subgrantee must adhere.
   d. Shall be offered at a price that does not exceed the highest price listed in the FCC’s 2024 Urban Rate Survey data for Fixed Broadband Service for a service offering in North Carolina that provides a download speed of 100 Mbps, upload speed of 20 Mbps, and an unlimited capacity allowance. The price may be adjusted by the subgrantee based on the Consumer Price Index, as defined by the United States Bureau of Labor Statistics, beginning with an adjustment in the first new calendar year after the date of enactment of this section.
   e. In the event the provider later increases the speeds of one of its low-cost plans, it will permit eligible subscribers that are subscribed to that plan to upgrade to those new speeds at no more than a commensurate change in cost.

2. Multi-dwelling units (MDUs). – Multiple separate residential units within a single or several buildings.

3. NTIA. – The National Telecommunications and Information Administration of the United States Department of Commerce.

4. Office. – The Broadband Infrastructure Office in the Department of Information Technology.

5. Protected areas. – BSLs subject to an enforceable commitment as defined in the NTIA Notice of Funding Opportunity or where a broadband service provider has been designated to receive funds through other State- or federally funded programs designed specifically for the deployment of qualifying broadband service if such funding is intended to result in construction of broadband to the location within 18 months or for the duration of the federal funding program, or if the broadband service provider is otherwise in good standing with the funding agency’s regulations governing the funding program. Any CAI where a private provider submits documentation satisfactory to the Department that such provider currently offers broadband service that will be scalable to a qualifying broadband service after the conclusion of the challenge process shall be also considered protected. Upon submission of documentation satisfactory to the Office, a protected area shall remain protected until project completion.
Qualifying broadband service. – A reliable broadband service meeting the following criteria:

a. To a location that is not a CAI with a speed of not less than 100 Mbps for downloads and not less than 20 Mbps for uploads.

b. To a CAI with a speed of not less than 1 Gbps for downloads and uploads.

Reliable broadband service. – Terrestrial-based broadband service (i) with ninety-five percent (95%) of latency measurements during testing windows falling at or below 100 milliseconds round-trip time and (ii) which is designed to ensure that network outages should not exceed, on average, 48 hours over any 365-day period except in the case of natural disasters or other force majeure occurrences. Locations served exclusively by satellite, terrestrial fixed wireless services utilizing entirely licensed spectrum, using a hybrid of licensed and unlicensed spectrum, or a technology not specified by the FCC for purposes of its Broadband DATA Maps, do not meet the definition of "reliable broadband service" and will be considered "unserved" for the purposes of determining eligible locations.

Secretary. – The Secretary of Information Technology.

Subgrantee. – An eligible recipient who receives BEAD funds for an eligible project.

Underserved. – A BSL that has access to reliable broadband service equal to or greater than 25 Mbps download and 3 Mbps upload but less than 100 Mbps download and 20 Mbps upload. Unless otherwise determined by the Department based on competent findings of fact, locations that the FCC’s Broadband DATA Maps show to have available qualifying broadband service delivered via (i) DSL or (ii) terrestrial fixed wireless services utilizing entirely licensed spectrum, or using a hybrid of licensed and unlicensed spectrum, shall be considered "underserved" for the purpose of determining eligible locations.

Unserved. – A BSL that does not have access to reliable broadband service with transmission speeds of at least 25 Mbps download and at least 3 Mbps upload.

SECTION 38.10.(b) Consistency With Federal Law. – Except as defined in this section, terms in this section shall have the meaning prescribed to them in the IIJA and in the Notice of Funding Opportunity for the BEAD Program (BEAD NOFO) published by NTIA on May 13, 2022, including any subsequent guidance issued by NTIA with respect to the program after the issuance of the BEAD NOFO. In the event of any actual conflict between this section and legal requirements contained in the IIJA, the provisions of the IIJA shall take precedence. Should any instances of actual conflict arise, the Department shall report to the Joint Legislative Oversight Committee on Information Technology and the Fiscal Research Division any actions taken to conform with federal law.

SECTION 38.10.(c) Consistency With State Policy. – Consistent with the policy of the State, the Office shall not prescribe the rates of service which applicants may deliver, nor shall the Office indirectly regulate the rates of service which applicants may deliver by affording any preference or differentiated scoring weight based on the specific rate of service which an applicant may deliver. The Office shall not make mandatory any optional conditions contained in Section IV.C.1.e. of the BEAD NOFO.

SECTION 38.10.(d) GREAT 3.0 Fund. – The Growing Rural Economies with Access to Technology for Broadband Equity, Access, and Deployment Fund (GREAT 3.0 Fund) is established as a special revenue fund in the Department of Information Technology. Except as otherwise provided in this section, federal funds received by the State under the IIJA for the
BEAD Program are hereby appropriated to the GREAT 3.0 Fund for the purposes described in
this section. The Secretary may award subgrants from the GREAT 3.0 Fund to eligible recipients
for eligible projects. The State shall not be obligated for funds committed for project costs from
the GREAT 3.0 Fund in excess of those sums appropriated by the General Assembly to the
GREAT 3.0 Fund. The funds shall be used by the eligible recipient to pay for infrastructure costs
associated with an eligible project. State and federal funds appropriated to this Fund shall be
considered an information technology project within the meaning of G.S. 143C-1-2. The grants
shall be considered fixed amount subawards for purposes of the federal requirements within the
meaning of the Policy Notice on Tailoring the Application of the Uniform Guidance to the BEAD
Program issued by the NTIA. The Office shall further make available to awardees all options
available under the BEAD Letter of Credit Waiver issued by NTIA.

SECTION 38.10.(e) Priority. – The Office shall prioritize projects proposed to
address the following in order:

1. Unserved BSLs.
2. Underserved BSLs.
3. Community anchor institutions.

SECTION 38.10.(f) Project Proposals; Use of Funds. – The Office may seek
proposals to serve unserved BSLs, underserved BSLs, and community anchor institutions
collectively or separately, provided that it prioritizes awarding projects that address, at minimum,
all unserved BSLs. Once the Office reports that projects will address all unserved BSLs, it shall
prioritize projects that address, at minimum, all underserved BSLs. If the Department has entered
into subgrant agreements for deployment of service to all unserved and underserved locations in
the State, it may use any remaining funds in the GREAT 3.0 Fund for digital literacy and
awareness or other purposes consistent with nondeployment activities described in the BEAD
NOFO.

SECTION 38.10.(g) Challenge Process. – The Office shall develop and implement
a formal challenge process that conforms with the published regulations and guidelines of the
BEAD program, including the requirement that challenges based upon speed tests must be
conducted and submitted in conformance with the specifications of the NTIA's speed test
guidance and may not be submitted by an individual subscriber. In developing the challenge
process, the Office shall solicit input from stakeholders and consider the adaptability of the
challenge process to fit existing State broadband grant programs and all applicable federal
requirements. The challenge process shall be open to submissions from internet providers, county
and municipal government entities, and community anchor institutions and shall establish
procedures that allow a period of at least 30 calendar days of the opening of the challenge window
to submit challenges, and a period of at least 30 calendar days from notification of any challenge
to the classification of a location determined to be valid by the Office during the challenge phase
for the submission of rebuttal evidence. Prior to selecting subgrantees, the Office shall publish a
statewide map indicating eligible locations that may be included in an eligible project.

SECTION 38.10.(h) Prequalification. – The Office shall develop a prequalification
process to identify potential subgrantees with the financial, managerial, operational, and
technical capacity to complete an eligible project. The Office shall prequalify broadband service
providers based on the minimum eligibility criteria in the GREAT 3.0 program. Information
submitted by a broadband service provider as part of the prequalification process may be
considered during the subgrantee selection process. Information contained in an application that
is identified as proprietary by an applicant for a subgrant pursuant to the prequalification process
shall not be considered a public record.

SECTION 38.10.(i) Applications. – The Office shall develop a subgrantee selection
process that shall be administered in multiple rounds. Applications for subgrants will be
submitted at times designated by the Office and will include, at a minimum, the following
information:
(1) The identity of the applicant and its qualifications and experience with broadband deployment and administration of federal subgrants.

(2) The total cost and duration of the proposed project.

(3) The amount to be funded by the applicant. The applicant shall fund a minimum of twenty-five percent (25%) of the cost of the project unless the project is in an NTIA-defined high-cost area or a waiver is granted pursuant to the BEAD Program guidelines as set forth by NTIA.

(4) A list of the eligible locations that will have access to qualifying broadband service as a result of the project.

(5) The proposed construction time line, not to exceed four years, unless the Department extends the four-year deadline if (i) the subgrantee has a specific plan for use of the grant funds, with project completion expected by a specific date not more than one year after the four-year deadline, (ii) the construction project is underway, or (iii) extenuating circumstances require an extension of time to allow the project to be completed.

(6) A description of the services to be provided, including the proposed upload and download broadband speeds to be delivered.

(7) A description of proposed cost tiers available to customers upon completion of the proposed project.

(8) A description of the applicant's proposed low-cost broadband service option applicable to eligible subscribers in BEAD-funded areas. The Office may not impose additional requirements on qualifying low-cost service options as a condition of grant eligibility.

(9) Technology type of the proposed service.

(10) Any other information or supplementary documentation requested by the Office. The Office shall ensure that subgrant applications contain sufficient information to allow the Office to reasonably evaluate subgrantees' ability to comply with all program requirements, including all subgrantee qualifications and conditions required under federal law.

SECTION 38.10.(j) Competitive Subgrantee Selection Process. – The Office shall implement a competitive subgrantee selection process that conforms with published regulations and guidelines under the BEAD Program under the IIJA. Applications receiving the highest score shall receive priority status for the awarding of subgrants pursuant to this section. As a means of breaking a tie for applications receiving the same score, the Office shall give priority to the application proposing to serve the highest number of new unserved and underserved locations. Applications shall be scored on an objective 100-point scale that is published prior to the submission of applications for subgrants. The Office shall determine whether or not a subgrantee has the capacity to perform multiple projects and shall not be required to award multiple projects to a prequalified subgrantee that has failed to demonstrate its ability to perform.

SECTION 38.10.(k) Subgrant Award Agreements. – Applicants awarded subgrants pursuant to this section shall enter into an agreement with the Office. Selections are contingent until an agreement is executed. The agreement shall contain all of the elements outlined in subsection (i) of this section and any other provisions the Office may require; provided, however, the Department may not impose requirements or contract conditions requiring that broadband service be offered at a specific price or that otherwise constitutes rate regulation. The agreement shall contain a provision governing the time line, milestones, and minimum requirements and thresholds for disbursement of grant funds measured by the progress of the project or disbursed on any other basis that may be necessary to effectuate every option made available in the BEAD Letter of Credit Waiver issued by NTIA on November 1, 2023. If applicable, the agreement shall identify the amount of matching funds the subgrantee must contribute to the project. The Office shall monitor the project to ensure (i) that the subgrantee is making adequate progress towards
project completion by the required deadline, (ii) compliance with all relevant and applicable
federal, State, and local laws, rules, and regulations, and (iii) compliance with all NTIA
guidelines for the BEAD Program and any guidelines developed by the Office.

SECTION 38.10.(l) Letter of Credit. – The Office shall require a letter of credit or
an alternative form of satisfactory performance security, such as a performance bond, from the
subgrantee to secure the subgrantee's performance of its obligations under the grant contract
consistent with the federal requirements. The Office shall give full effect to the NTIA BEAD
Letter of Credit Waiver as a means of enabling a subgrantee to satisfy the requirements of this
subsection. Subject to further waiver from NTIA to the extent the same may be required, the
Office shall permit an alternative means of satisfying the requirement of this subsection for a
subgrantee that demonstrates that it has more than one hundred million dollars ($100,000,000)
in telecommunications or electric plant in production in the State.

SECTION 38.10.(m) Annual Report. – The Department of Information Technology
shall submit an annual report to the Joint Legislative Oversight Committee on Information
Technology and the Fiscal Research Division upon completion of each funding round. The report
shall contain at least all of the following:

1. The number of subgrant projects applied for and the number of grant
   agreements entered into.
2. A time line for each subgrant agreement and the number of households and
   businesses expected to benefit from each agreement.
3. The amount of matching funds required for each agreement and the total
   amount of investment.
4. A summary of areas receiving subgrants that are now being provided
   broadband service and the advertised broadband speeds for those areas.
5. Any breaches of agreements, grant fund forfeitures, or subsequent reductions
   or refunds of matching funds.
6. Any recommendations for the GREAT 3.0 program, including better sources
   and methods for improving outcomes and accountability.

SECTION 38.10.(n) Progress Report. – Upon completion of two rounds of
subgrantee selection, the Department shall report to the Joint Legislative Oversight Committee
on Information Technology and the Fiscal Research Division the following:

1. The number of remaining unserved and underserved locations in the State.
2. The amount of remaining funding for the GREAT 3.0 program.
3. The estimated amount of subgrant funding needed to award projects serving
   all remaining unserved and underserved locations in the State.
4. The amount of funding available for nondeployment activities.

SECTION 38.10.(o) Retention of Funds. – In administering the IIJA for the BEAD
Program, the Department may utilize up to two percent (2%) of allocated BEAD grant funds for
planning and administrative purposes.

"**SECTION 40.1.(b)** This subsection authorizes the following capital projects in the 2023-2025 fiscal biennium based upon projected cash flow needs for the authorized projects. The authorizations provided in this subsection represent the maximum amount of funding from the State Capital and Infrastructure Fund that may be expended on each project and do not reflect authorizations from other non-State Capital and Infrastructure Fund sources. An additional action by the General Assembly is required to increase the maximum authorization for any of the projects listed:

### SIX-YEAR INTENDED PROJECT ALLOCATION SCHEDULE

"SECTION 40.2. Section 40.2 of S.L. 2023-134 reads as rewritten:

"SECTION 40.2. It is the intent of the General Assembly to fund capital improvement projects on a cash flow basis and to plan for future project funding based upon projected availability in the State Capital and Infrastructure Fund. Nothing in this section shall be construed (i) to appropriate funds or (ii) as an obligation by the General Assembly to appropriate funds for the projects listed in future years. The following schedule lists capital improvement projects that will begin or be completed in fiscal years outside of the 2023-2025 fiscal biennium and estimated amounts (in thousands) needed for completion of those projects:
